IRRIGATION TALK

Western Irrigation Association Convention Held in Vernon

Hon. F. J. Fulton Foreshadow's Legislation at Next Session

The second annual convention of the Western Canada Irrigation association, and the first to be held in British Columbia, was formally opened in Vernon on Monday afternoon. Hon. F. J. Fulton, the president of the convention, opened the meeting, welcoming the delegates to British Columbia and foreshadowing the legislation which is to be introduced at the next session. He has received valuable information from J. S. Dennis, which is to be embodied in that legislation.

An address of welcome was also given by W. Timmins. R. B. Bennett was appointed chairman of the sessions of the convention.

About 100 delegates were present from British Columbia, Alberta, Saskatchewan and Manitoba. Standing committees were appointed.

Among the most prominent delegates were Senator Bostock, J. S. Dennis, H. Hayward, M.P.P., Price Ellison, M.P.P., Duncan Ross, M.P., Martin Burrell and other. The town was brilliantly decorated with arches, banners and strong light. On the way to Vernon the delegates were entertained at Armstrong, and after being driven around that place by the citizens were given a splendid public banquet, at which speeches were made by Senator Bostock and Messrs. Hayward and Ellison.

MINING RECORDS

Following are the locations, certificates of work, bills of sale, etc., recorded in the Government office at Grand Forks, B. C., of the Grand Forks mining division, from July 28 to August 11, inclusive.

CERTIFICATE OF WORK

Black Bear, McKinley camp, 3 years, Salvador Bonnacchi; Hope, Franklin camp, Holger Hansen; Wolborg, Franklin camp, Chas. Hansen; Hennekin, Franklin camp, Garrison et al.; Violet fraction, Franklin camp, 3 years, Garrison et al.; Lone Star fraction, Pathfinder camp, Lindholm et al.; Banner, Franklin camp, Miller et al.; K L V. fraction, Brown's camp, J. A. Thomson; Ruby fraction, McKinley camp, Morrell et al.; Lauretta, McKinley camp, Morrell et al.; Windfall, Wellington camp, James Drum; Yankee Boy fraction, Burnt Basin, McNeely et al.; Phoenix, Wellington camp, R. W. Yuill; Eclipse, Franklin camp, survey, Lequime et al.; Tripligate fraction, Summit camp, survey, Cunningham et al.; Yellow Jacket, Franklin camp, survey, Lequime et al.; Canadian, Burnt Basin, Phillip Reilly; Highland Chief, Coryell, J. E. Burr; Mascot, Wellington camp, Jos. LaBelle; Ready Cash fraction, Wellington camp, McMyrn et al.; R. Kipling fraction, Wellington camp, McMyrn et al.; Pay Ore, Franklin camp, Hull et al.; Mink and Fox, Paulson, Thos. H. Paulson.

RECORDS OF LOCATIONS

Crescent fraction, Franklin camp, J. A. McDonald; No. 27 fraction, relocation of No. 27 fraction, Summit camp, H. C. Kerman; Triangle fraction, relocation of Triangle fraction, Brown's camp, Tim Townend.

CONVEYANCES

All of Tiger, Summit camp, D. R. McElmon to Joe Buron.
Onetwelfth of Copper Monarch, Knight's camp, E. R. Knight to S. M. Bent.

Warns Against Frost

Scientific fruit raising has been deliberately shoved into a new era by the recent installation of the automatic electric frost foreteller in the larger orchards of the irrigated belt in Washington. New sets of agricultural and horticultural rules have been arranged by each farmer, although the mercury may drop to the zero mark, during a cold spell, without the slightest fear that when he resumes his daily duties the following morning he will find his crop blackened with frost.

The frost foreteller is an innocently-looking piece of apparatus as it sits idly under the apple trees, but it has a little thermometer firmly planted amidstships that never goes to sleep. When the temperature starts a swift slide towards the freezing mark, several degrees on the safe side thereof, the trusty thermometer begins to ring a bell in the farmer's bedroom, and keeps on ringing it until he appears in the orchard and turns it off.

Scattered around here and there are covered pots. These pots are filled with crude petroleum, and once alarmed by the glass, the fruit grower simply goes rapidly from pot to pot with a handful of matches, and it's all up with Jack Frost. In a moment the trees are enveloped in a thick black smoke, and the fruit crop is saved, the tops go back on the pots and the fires go out.

The fruit inspector says that orchards supplied with smudge pots can be kept eight degrees warmer than those without them, and many have been saved with them where smudge potless ranches adjoining suffered total losses. Smudge pots are used in many places.

Moving picture show at the opera house Friday and Saturday evening, 25c.

NEWS OF THE CITY

Gold Ore Shipped to the Granby Smelter From Danville

Eight Citizens Fined \$2.50 Each for Violating the Sprinkling Bylaw

A car of gold ore has been received at the Granby smelter in this city for treatment from the Knob Hill Mining and Milling company of Danville. The ore is said to run \$40 in gold, and is the first shipment from the property since it was bonded by S. L. Boyer and associates. A long tunnel is to be driven on this property to tap the ore body beneath the old workings, and machinery for this purpose has been ordered by the company from Chicago.

On Monday last eight citizens were summoned before Police Magistrate Cochran on a charge of violating the lawn sprinkling bylaw. They were fined two dollars and fifty cents each. Some difficulty has been experienced in maintaining water in the tank during the heated period, and the council employed a detective to ascertain the users of city waters who were sprinkling out of prescribed hours, and the prosecutions followed. It is understood that the council is determined to enforce the bylaw.

The executive of the Kettle Valley Rifle association met in the fire hall last Saturday evening, and decided to hold the annual shoot commencing on Saturday, September twelve, and continuing each Saturday thereafter until the 3rd of October. A silver cup has been donated for this shoot by Captain Spraggett, which must be won two years in succession or three times in all to become the property of the winner. The ranges will be two hundred, five hundred and six hundred yards, and the new regulation targets will be used.

A small blaze in A. D. McPhee's residence, near Donald street, called out the department at an early hour yesterday morning, but the fire was extinguished with a garden hose before the boys reached the scene. The house has recently been occupied by Arthur Dixon, but he vacated it on Wednesday. The origin of the fire is unknown.

Mrs. Geo. Chapple entertained the members of the Pythian Sisters and the Ladies of the Maccabees at her home on Winnipeg avenue last Monday afternoon. The members of the two organizations report having had an enjoyable time.

Six furnaces have again been in operation at the Granby smelter during the present week.

About one hundred members of the order from this city attended the picnic given at Curlew Lake last Sunday by the Fraternal Order of Eagles of Grand Forks and Republic. Special trains were run from both ends of the Kettle Valley line, and

the attendance from Republic is said to have been very large. The sports are reported to have been good, and everybody had an enjoyable time.

The Lucile Dreyfus mine, at Danville, which has been in litigation for some time past, will resume operations in the immediate future. Superintendent Peterson now has a force of men at work cleaning up the property and putting it in shape for the installation of the new machinery which has been ordered.

P. T. McCallum points with pride to some 10-foot 5-inch tall corn which has been grown this season in the corn belt of his ranch. He says this phenomenal growth is due entirely to irrigation, and advises people to drink more water if they desire to increase their height.

The tallest chimney in the world is now under construction at the Great Falls, Montana, smelter of the Amalgamated Copper company. It has a foundation 74 feet in diameter and 506 feet high, with a 74-foot diameter top. Connections with the furnaces will be made by a flue twenty feet high, 48 feet wide and 1800 feet long. The tallest chimney hitherto built is that of the Halsbrucker Hutte, near Freiberg, Germany, 460 feet in height.

Branching Out

Kenneth Hankinson, who has been acting as clerk for J. H. Kennedy, chief engineer of the V., V. & E., ever since Hill started railway construction in the Boundary country, has quit his job and taken the contract of grading a portion of the V., V. & E. road near Princeton. Hank's many friends in this city will wish him success.

PERSONAL

Peter B. Nelson left for the Kootenays on Tuesday last.

J. M. Ross returned on Monday last from Moscow, Idaho.

Charles Brogden returned Monday evening from a business trip to Spokane.

Martin Burrell is attending the irrigation convention in Vernon this week.

Mr. and Mrs. A. W. Fraser and family left on Wednesday last for a vacation trip to the coast cities.

Mrs. A. B. W. Hodges and daughters returned from a month's vacation trip to Hayden Lake, Wash., this evening.

Mr. and Mrs. R. R. Gilpin and family returned on Saturday last from a two weeks' vacation trip to Hayden Lake, Wash.

A. D. Morrison, the jeweler, left on Wednesday for his old home in Beaverton, Ont., having received a wire saying that his mother was critically ill.

W. H. Appleton and D. H. McLean, of Spokane, and J. E. Maple, of Louisville, Ky., all stockholders in the Little Bertha mine, arrived in the city Tuesday evening, and left for that property Wednesday morning.

J. D. Harkin, private secretary to the minister of the interior, Ottawa, arrived in the city last Saturday from Vancouver, where he had visited his brother, and stopped over Sunday with R. A. Brown at Volcanic City. Mr. Harkin is making a western trip for the benefit of his health. While here he stated that the government had decided that the Hindu would have to go, and that the Black Hand outrages would probably culminate in the restriction of Italian immigration.

IN TOILS OF LAW

Opium Smuggler Apprehended in Spokane Last Friday

Dope Was Found Under a Lumber Pile in Yards at Hillyard

The old man who succeeded in smuggling 170 pounds of opium across the line at this point two weeks ago, was arrested in Spokane last Friday. The opium was found under a lumber pile in the railway yards at Hillyard. By the time the old gentleman gets out of Uncle Sam's clutches there will be no more opium left in this province.

Gloria Dare Company

The next attraction at the opera house is Gloria Dare and her big vaudeville and picture show, Wednesday next, August 19th. From all the reports we have read, Miss Dare is an artist of real merit, and lovers of high-class vaudeville have a treat in store for them. Following are some of the press criticisms of coast papers:

Miss Gloria Dare is the feature of the program. She possess a voice that is streets above vaudeville, and shows evidences of good training. Miss Dare also has a winning manner that captivates an audience the minute she appears on the stage, while her face and figure must be the envy of every soubrette on the circuit.—Vancouver World.

"Her ability in recital is among the very best."—Minneapolis Tribune. "Gloria Dare, the prima donna soprano, gave a genuine surprise. Her work is of the old English style, and her songs and recitations. 'In the Land of the Buffalo' made a decided hit with the audience. She is by far the best singing comedienne seen at the Grand."—Tacoma Ledger.

New Entries for Spokane Fair

Letters received by the manager of the Spokane fair from Orient and Northport, Wash., assure the entry of fruit and mineral exhibits from those towns, while Sandpoint, Idaho, will enter a large display of choice fruits, grains and grasses. None of these districts have been represented at the fair before.

In view of the fact that the management of the fair anticipates a total entry list of the exhibits far in excess of that of any previous fair, the building on the Interstate fair grounds has been remodeled with regular spaces for each separate display. This year the entire main floor will be given up to the displays of the fruits and minerals, the second floor to contain the fine arts, women's and educational departments.

The annual lawn fete of the English church Wednesday evening was largely attended and liberally patronized. The affair proved an enjoyable success from every viewpoint.

Moving picture show at the opera house Friday and Saturday evening, 25c.

FRIDAY, AUGUST 14, 1908

THE conquest of the air appears to be nearing solution, and the country editor will soon be able to say that his fellow townspeople have made flying visits to neighboring towns without damaging any of the principles of the Canadian language.

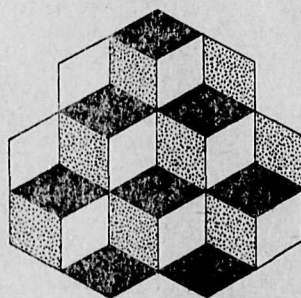

THERE is no longer any doubt concerning the potency of our contemporary in civic matters. Last week the paper advocated, editorially, an increase of the police force to enforce the regulations of the sprinkling bylaw. Early Monday morning a number of the directors of the paper were summoned before the police magistrate on a charge of violating the bylaw.

THE Phoenix Pioneer imagines it is entitled to a kick when it isn't. It says: "Admiration alone will not run a newspaper. Sooner or later such admirers will find that the object of their affections has become wedded to other ways that they do not admire—in other words, a newspaper is compelled in order to live, to seek the friendship of those who are not so platonically in their love, but unite their practical esteem with sentiments that binds mutual admiration in other professions. There are too many men who expect an editor to slave in the den of their pet notions and hobbies, advocate their views against the strongest opposition, and coolly withhold the business support by which alone a small newspaper can live." We know of some newspapers that are not being paid even in esteem and admiration for their services. If the Pioneer is receiving these commodities, it appears to us it is getting its share of the patronage.

WE understand that some of the "directors" of our local contemporary raised quite a howl because the printing of the delinquent tax list was awarded to The Sun—the lowest tenderer. The kick comes with ill grace from our neighbor, especially as it has enjoyed a monopoly of the city work since the first of the present year. The plea that it maintains a "board of directors," editors, managers, and other luxur-

ies, is not a valid reason why the corporation should hand out work to the highest bidder. But the usefulness of this large and talented staff has not yet manifested itself in the columns of our contemporary. The Sun is the oldest paper in Grand Forks; it has as many readers in the city as its neighbor—and more among the property owners who have moved away from here; it pays as much revenue into the city treasury as the majority of the "directors" at least; it is peaceable and law-abiding, and has always endeavored to further the best interests of the city. Why, then, should it not be allowed to enjoy in peace that which it has gained by honorable methods, and which rightly belongs to it? The patronage of the city, or of any other corporation, is not essential to the life of this paper, but the editor, when of quite tender years, acquired the habit of making a noise if ill-treated—an idiosyncrasy which still clings to him, and in all probability he will be heard from if anybody attempts to tread on his toes.

THE question of the installation of a sewerage system is one that affects the health of the community, and is therefore of vital importance to every citizen of Grand Forks. The desirability of such an undertaking appears to be admitted by everybody. The only stumbling block in the way of inaugurating the scheme seems to be the council's ability to finance the enterprise. If this problem can be solved, an engineer should be engaged at once to obtain levels and gather the necessary data. This preparatory course would not necessarily involve a great deal of expense, because it would not require the services of a sanitary engineer. We have a number of engineers right here in the city who are fully competent to do this work. Three methods of disposing of the sewage of the city have been suggested—a number of small septic tanks located throughout the city, a large septic tank removed a short distance from the inhabited portion of the town, and a sewage farm. The first method does not appear to be desirable, because, in the first place, it would be difficult to enforce, and secondly, we have the word of our health officer that the overflow from septic tanks is not free from disease germs. If this is the case, the numerous tanks scattered throughout the municipality would endanger the health of the citizens as much as the system now in vogue. There then remains but two methods to choose from. Both are said to be good and workable. The only objection we can see to the large septic tank is that, if it is constructed for the disposal of the sewage of five or six blocks, should it become necessary or desirable to add new territory to system, another would have to be built, and the cost doubled. With the sewage farm system the additional cost would to a large extent be eliminated. Once the trunk line of sewer was constructed from the city to the farm, additional territory could be added to the system at small expense, and in a short time the entire city could be brought under perfect sanitary regulations. This system is said to give the greatest satisfac-

tion in every city where it has been installed, and the city council should make further investigations regarding its merits or demerits.

BREVITIES

Mr. Kelly, the new teacher of the Grand Forks high school, arrived in the city this week from Vancouver.

The Bachelors' Social club gave an enjoyable dance in the opera house Tuesday evening. It was well attended and the music was good.

John Webster, proprietor of the Winnipeg hotel, left this week for the prairie provinces, where he will spend a month's vacation.

I. A. Dinsmore, chief of police of Greenwood, has sold his handsome residence in the West end of this city to John McKie of the Boundary Iron Works. The consideration is said to have been \$3500.

Numerous forest fires are reported to be burning up the North Fork, and the smoke from that direction is quite dense.

Although the weather was rather sultry, quite an audience witnessed the production of "Faust" at the opera house last night. The play was well staged, and the audience appeared to appreciate the manner in which the artists acquitted themselves.

The members of the Baptist church desire to express their heartfelt appreciation to the friends who so kindly assisted in removing the furniture from the burning building on the night of the fire. Signed on behalf of the church, J. C. Taylor, clerk.

We have a large supply of all kinds of visiting cards in stock, and the most fashionable styles of type to print them with. THE SUN Job Office.

Show cards for widows and inside are a fine form of silent salesmen. Make them brief, terse and pointed. Print them plainly, to be read at a glance.

A new lot of latest designs of program and menu cards just received at THE SUN job office.

The Sun and the Toronto Weekly Globe for \$1 per year.

THE SUN is read by everybody because it prints all the Boundary news.

Before closing your contract for reading matter for the coming year, read the tempting clubbing offer we make on the third page.

Local advertisers should make a note of the fact that THE SUN is the most widely read paper in Grand Forks.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any person who is the head of a family, or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less.
Entry must be made personally at the local land office for the district in which the land is situated.
The homesteader is required to perform the conditions connected therewith under one of the following plans:
(1) At least six months' residence upon and cultivation of the land in each year for three years.
(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.
(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.
Six months' notice in writing should be given the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.
Coal—Coal mining rights may be leased for a period of twenty-one years at an annual rental of \$1.00 per acre. Not more than 2,500 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

THE COPPER HANDBOOK

(New Edition Issued Nov. 15, 1906.) Is a dozen books in one, covering the history, geography, geology, chemistry, mineralogy, metallurgy, terminology, uses, statistics and finances of copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the copper industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man. It gives the plain facts in plain English without fear or favor.

It lists and describes 4636 copper mines and companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property.

The Copper Handbook is conceded to be the

World's Standard Reference Book on Copper

The mining man needs the book for the facts it gives him about mines, mining and the metal.

The investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundreds of swindling companies are exposed in plain English.

Price is \$5 in Buckram with gilt top; \$7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

Horace J. Stevens,

Editor and Publisher,
453 Postoffice Block,
Houghton, Michigan.

Auto Parade at Fair

An automobile parade will open the Spokane fair Monday, October 5, and the first day of the big fair will be known as "Automobile Day." It is expected every gas wagon in the city of Spokane will be in line and that nearly all of the wagons of the Inland Empire will be represented.

Special prizes are to be given to the best decorated cars, and the parade will probably be one of the handsomest and longest ever seen in the northwest. After covering a route through the city the pageant will move to the fair grounds and circle the big track, giving every one in the big grandstand an opportunity of seeing the parade in its entirety.

The pageant will be conducted under the direction of the Spokane Motor club, and the club is already assured of a large representation of the automobiles of the city, elaborately decorated.

Wm. Dinsmore has fitted up a roomy shop next to the Lion Bottling works on Bridge street, and is now prepared to doctor old boots and shoes in his customary efficient manner.

Westward Ho

The August number of Westward Ho commences the Third volume, and is replete with many good stories and articles, which give it a standing equal to many of the older monthlies.

In his department, "Men I Have Met," the editor has a capital pen sketch of Sir Wilfrid Laurier. Bonnycastle Dale, the well known Canadian natural history writer, contributes an illustrated study on birds in flight. J. C. Harris, of New Denver, tells of exploring a B. C. glacier, and Frank Burnett continues his series of interesting articles on the ruined cities of Ceylon. The regular departments are well maintained, and not the least interesting of the numerous articles is that of the Alaska Yukon Pacific exposition by Frank L. Merrick. Angus Lockhart Hughes, the well known poet of Seattle, has some very pretty verses.

Mr. Godenrath, the publisher, announces that he has interested Calgary and Victoria capital in the magazine, and a company is now being incorporated to take hold of the property. Mr. Godenrath will be managing director, and Major Charles McMillan, of Victoria, will be secretary-treasurer. The phenomenal growth of the publication has necessitated a greatly increased staff, and plans are under way to put in a modern magazine publishing printery.

That our American forests abound in plants which possess the most valuable medicinal virtues is abundantly attested by scores of the most eminent medical writers and teachers. Even the untutored Indians had discovered the usefulness of many native plants before the advent of the white race. This information, imparted freely to the whites, led the latter to continue investigations until to-day we have a rich assortment of most valuable American medicinal roots.

Dr. Pierce believes that our American forests abound in most valuable medicinal roots for the cure of most obstinate and fatal diseases. If we would properly investigate them; and in confirmation of this conviction, he points with pride to the almost marvelous cures effected by his "Golden Medical Discovery," which has proven itself to be the most efficient stomach tonic, liver invigorator, heart tonic and regulator, and blood cleanser known to medical science. Dyspepsia, or indigestion, torpid liver, functional and even valvular and other affections of the heart yield to its curative action. The reason why it cures these and many other affections, is clearly shown in a little book of extracts from the standard medical works which is mailed free to any address by Dr. R. V. Pierce, of Buffalo, N. Y., to all sending request for the same.

Not less marvelous, in the unparalleled cures it is constantly making of woman's many peculiar affections, weaknesses and distressing derangements, is Dr. Pierce's Favorite Prescription, as is amply attested by thousands of published testimonials contributed by grateful patients who have been cured by it of catarrhal pelvic diseases, painful periods, irregularities, prolapsus and other displacements caused by weakness, ulceration of uterus and kindred affections, often after many other advertised medicines, and physicians had failed.

Both the above mentioned medicines are wisely made up from the glyceric extracts of native medicinal roots. The processes employed in their manufacture were original with Dr. Pierce, and they are carried on by skilled chemists and pharmacists with the aid of apparatus and appliances specially designed and built for this purpose. Both medicines are entirely free from alcohol and all other harmful habit-forming drugs. A full list of their ingredients is printed on each bottle wrapper.

RANDOM REMARKS

Veneered virtues often beget solid vices.

Women do not admire the line work of Father Time.

The man who knows how to manage a woman doesn't.

Have a useful and good wife in the house, or none at all.

When you meet a trouble borrower lend him all you have.

Girls are partial to automobiles because they have sparkers.

Don't forget that a thing isn't done because you intend to do it.

The bachelor is at least the guardian of his own reputation.

Women can rarely be deceived, for they are accustomed to deceive.

Unless a woman is a first-class artist she seldom has a good complexion.

There are times when it is better to back down than get your back up.

Husbands of pretty women are apt to be more useful than ornamental.

Any man can get along with his wife by letting her have her own way.

No man who dodges his earthly taxes can lay up treasures in heaven.

In after years women discover that mirrors are not what they used to be.

Love is a fad the girls take up after they get too big to play with their dolls.

Some people are only interesting because they furnish material for gossip.

Speak kindly to the cook if you are wise as to the requirements of your stomach.

When lawyers are minding their own business they are prying into somebody else's.

When a man's wife tells him what she thinks of him she doesn't do anything of the sort.

Whatever else you do when you start out to criticize your friend, talk about something else.

He is an undeserving wretch who dodges what is coming to him and keeps roaring for his due.

At the age of twenty-one a young man thinks he is smart. At the age of forty he knows that other people knew he wasn't.

Anyway, a board of directors of an institution that the office boy should be capable of managing appears to be a useless adjunct.

Sleep, sloth and stupidity rob men of splendid opportunities; then they become knockers and backcappers, jealous of those who are wide awake, honest and successful.

Here's a bit of good philosophy from Buster Brown: Resolved, that reunions are good things, because in union there is strength—but there is an awful lot of time wasted at reunions. Too much gab. The man who stays alone with himself and does a lot of thinking is doing something profitable. He'll get there some day. In good books there is the best thought and knowledge of the greatest minds. Don't you want to learn something? "Knowledge is power." There is no law against using your brains. God gave us our brains to use. The greatest inventions were made in the quiet of the inventor's own rooms, not at reunions. Have a reunion with yourself sometimes.

An Offer Which Meets the Special Wants of All Classes of Readers

The Western Canadian reading public is made up chiefly of these classes Persons who have lived in the West for a lengthy period and are out and out Westerners, and recent arrivals from the Old Country, from the United States and from Eastern Canada.

Perhaps no one newspaper could cater with complete satisfaction to all these classes, but by this combination offer every special need is met.

The Weekly Free Press and Prairie Farmer gives a complete record week by week of all happenings in the Western Provinces. In addition it has special departments for American and British settlers. The Family Herald and Weekly Star supplies the former resident of Eastern Canada with news of the Eastern portion of the Dominion in detail, and the Grand Forks Sun provides the local and Boundary news, which you cannot do without.

GRAND FORKS SUN:

Find enclosed \$2.00, for which send me Weekly Free Press and Prairie Farmer, Winnipeg; Family Herald and Weekly Star, Montreal; and the Grand Forks Sun, for one year each.

SALE OF LAND

For Unpaid Delinquent Taxes in the Municipality of the City of Grand Forks, Province of British Columbia

I HEREBY give notice that, in pursuance of the provisions of the "Municipal Clauses Act," and of a resolution of the Municipal Council of the Corporation of the City of Grand Forks, passed on the 3rd day of August, A. D. 1908, I will, on Monday, the 14th day of September, A. D. 1908, at the hour of 12 o'clock noon, at the City Hall, First Street, Grand Forks, B. C., sell at Public Auction the lands, improvements and real property, situate within the Municipality of the City of Grand Forks, and hereinafter set forth, for delinquent taxes, which became delinquent on the 31st day of December, A. D. 1907, and remaining unpaid and payable to the Corporation of the City of Grand Forks by the persons or assessed owners hereinafter respectively set forth; and for interest, costs, charges and commissions, if the total amount due is not sooner paid, for the purpose of levying such delinquent taxes, and interest, costs, charges and commissions:
