SHIPPING FRUIT

Large Packing House Built by Fruit Growers' Association

Twelve Carloads Being Sent From This Valley to Australia

The shipping of the 1908 fruit crop from the Kettle Valley is now at its height, and by tomorrow night about half the crop will have been sent out. This is the first season that a systematic method of marketing the product of the orchard has prevailed here, and this advancement in the industry has been brought about by the recent organization of the Grand Forks Fruit Growers' association.

A large packing house, 30x100 feet, has been erected by the association near the international boundary line at Carson. To this packing house all the members of the association in the upper end of the valley are bringing their fruit, and here a force of from fifteen to twenty workmen is at present employed in repacking the fruit and loading the boxes onto Kettle Valley line cars, the packing house being located near the track of that road. Every box of fruit sent out is labeled from the Grand Forks Fruit Growers' association, and the officers of the organization look after the commercial end of the business. This ensures more uniform grading and packing than has hitherto prevailed, and all fruit growers, whether large or small, are placed on an equal basis in regard to the disposal of their product.

While the greater portion of this year's crop is being shipped to Winnipeg and the Northwest, the superior quality of the Kettle valley apple appears to have become known to the Australians, and twelve cars will be shipped to the antipodes this fall. Three cars of fall apples have already been sent to that country, the consignment going out on the last steamer, and the next boat will carry nine carloads of winter apples from this point. The association had an order for eighteen carloads from Australia, but was forced, owing to prior sales, to cut it down to twelve. The apples shipped to Australia are for the retail trade, and a medium-size, or even small, red apple is preferred.

The total amount of fruit to be shipped out of the valley this fall will aggregate about forty carloads. Of this, twenty cars, including six cars of prunes from J. D. Honsberger's orchard, have already been sent out. All of the winter fruit, however, yet remain on the trees, and the shipping season will last another month. On an average of a car a day is being loaded and sent out of here. Last year the total shipments amounted to about eleven carloads. It is therefore apparent that the industry has made wonderful advancement during the past twelve months.

The forty cars to be shipped by the association this fall by no means represents the fruit yield of the val-

ley. Two of the largest growers, Messrs. Traunweiser and Burrell, have disposed of their crops locally. Besides, numerous small shipments have been made to neighboring towns, and the local market has been supplied. A conservative estimate places the entire yield of the 1908 fruit crop in the Kettle valley at about sixty carloads.

It is the intention of the fruit growers' association to erect other packing houses in the lower end of the valley as occasion arises. The one at Carson is constructed in a very substantial manner, and there is ample room for a large quantity of fruit and a big force of packers.

The Hudson Bay Route

To bring uncounted millions of acres of what lands in western Canada a thousand miles nearer to the market in Europe, and make a saving of many millions of dollars every year in transportation charges, thereby ensuring higher prices to the farmers of the prairie provinces—this is what the opening up of the Hudson Bay outlet will achieve. It will mean a revolution in traffic routes and traffic rates. The immense amount of territory within the coast-saving reach of Hudson Bay—the New-World Mediterranean—will make this route one of the greatest trade arteries of the world. It will place the grain growers of western Canada in control of the markets of the world by making possible a great reduction in the cost of transportation. This saving will be brought about because the Hudson Bay route is by a very considerable distance the shortest route, and the saving is in the rail haul. How great a saving will be made from the difference in rail haul alone is evident from the fact that the average rate per ton-mile on the Great Lakes is about one-tenth of the corresponding railroad rate. In addition, there will be the saving resulting from the elimination of the rehandling. What the Hudson Bay railway will provide for the Western grain growers will be the shortest possible rail haul to tidewater, and direct water transportation to Europe from the very heart of Canada.

The total cultivable area in Manitoba, Saskatchewan and Alberta is some 175,000,000 acres. Even estimating the as yet uncultivated area as being only one-half as productive as that which has already come under the plow, a ten fold increase of the present production is to be counted upon. Every hundred miles of railway constructed increases production by causing grain to be grown where none was grown before. But grain will not continue to be grown in excess of what can be carried out of the country. The double tracking of the C.P.R. from Winnipeg to Fort William, and the operation of the Grand Trunk Pacific will greatly increase the rail carrying power, and the "spout" at Fort William and Port Arthur will be proportionately enlarged. But when that is done, the increasing development of the grain growing area will make the transportation problem a persistent difficulty in the way of further development. An outlet by the shortest possible rail haul to tidewater is, and will ever be, needed. The Hudson Bay outlet will effect an average shortening of a thousand miles between the wheat fields of the West and the tidewater at Churchill, without increasing the ocean distance to the world's market.

NEWS OF THE CITY

Jeffery Hammar Presented With Cabinet and Silver Service

Conductor of Kettle Valley Line Has Been Missing for a Week

Grand Forks Lodge No. 30, Knights of Pythias, sprung a surprise on one of its members at its meeting last Tuesday night. Jeffery Hammar, who expects to leave Grand Forks soon, and who has been very active in fraternal work in the city, was presented by the officers and members of the lodge with a handsome cabinet containing about five pieces of sterling silverware, each piece engraved, the plate on the cabinet being also suitably engraved.

Mr. Hammar, who is a charter member of the local lodge, has always been active in working for the best interests of the order, and has been honored by the Pythian knights by being elevated to the grand chancellorship of British Columbia.

Past Chancellor Ernest Miller, on behalf of the lodge, made the presentation speech. He touched in a feeling manner on the associations of Mr. Hammar as a lodge worker, and spoke of his sterling worth as a citizen, voicing the sentiments of all present in expressing regrets at losing him, and wishing for him and his family health and prosperity wherever they might sojourn. In concluding his remarks, the speaker handed Mr. Hammar a key to a handsome cabinet, and asked him to accept it as a token of esteem from his brother knights.

Mr. Hammar was so taken by surprise that for a few moments he was unable to respond, but finally managed to express in a feeling manner his appreciation for the gift. A good program followed, and it was enjoyed by all present. Special mention is due the rendition of one of Bret Harte's poems, "John Burns of Gettysburg," by H. A. Sheads, who personally knew John Burns, and being familiar with the incidents, handled the recitation in a most entertaining manner.

Refreshments were served and after cigars had been passed around Mr. Munro, acting as toastmaster, called on a number of the members, who responded most happily. The evening was a most pleasant one for all present, and good fellowship prevailed throughout.

The medals won by the scholars at the examinations last spring were presented to them last Monday morning, the presentation speech being made by Mr. Cooper, chairman of the school board. Trustee Hull also spoke briefly. The presentation of the governor-general's medal, won by Maurice Hay in the high school entrance examinations, had to be postponed, as the winner is not in the city at present.

Mr. C. Harrison, brother of T. E. Harrison, who died at the Grand Forks hospital of typhoid fever on September 2d, arrived in the city this week from Hamilton, Ont., for the purpose of settling up the affairs of

his late brother. At the time of Mr. Harrison's death there was some misunderstanding in the telegrams that passed between the city officials and the parents of deceased, who reside at Aldershot P. O., Ont., as to the disposal of the remains, and they were interred in the cemetery in this city. Since Mr. Harrison's arrival here he has obtained a permit from the authorities for the removal of the body, and it will be shipped to his old Ontario home for burial.

A young peoples' society has been organized in this city in connection with the Methodist church. The officers elected are: Honorary president, W. C. Schlichter; president, Douglas Carter; first vice-president, Mrs. W. C. Schlichter; second vice-president, Nellie Carter; recording secretary, Frank Lathe; corresponding secretary, Edn. Curran; treasurer, C. Simpson. The society will meet at 7:30 every Monday evening.

H. F. Hansen, who has been conductor on the Kettle Valley line for a number of years past, has been missing since last Friday night, and no trace of him has been found since that time. No cause for the mysterious disappearance has been advanced, and some people believe that it is a case of suicide by drowning.

Persons knowing of any property belonging to the late T. E. Harrison will confer a favor on the family of deceased by communicating with his father, D. G. Harrison, Aldershot P. O., Ont.

Jeff Davis and son returned home on Saturday from a three months' vacation trip to Brockville, Ont.

Bandits Everywhere

Last Sunday a wave of excitement was created by the report that two suspicious characters, heavily armed and supposed to be the Midway bandits, had been seen in this city. A posse was organized, and inaugurated a hunt the men. They did not find them, but they brought in a hobo and locked him up. The hobo came before Judge Cochrane Monday morning for a preliminary hearing. The case was remanded pending an investigation.

Harold Green and Jack Rice are in jail at Nelson. They are supposed to be the murderers of Chas. L. Thomet at Midway on August 25th. For some time prior to the killing of Thomet they were placer mining and prospecting between Boundary Falls and the Kettle river. They disappeared shortly after the murder. One is rather tall and the other short. They came to Canada recently from the old country.

A Spokane dispatch states that the Midway bandit was captured at Kettle Falls on Wednesday. A woman alleges that he made a confession to her.

Lodge Homes at Big Fair

Fraternity row on the Spokane fair grounds will present a busy scene during the week of October 5 to 10, all of the various lodges which were formerly represented there already having arranged to have their headquarters open during this year's fair. Several new organizations are arranging to establish homes on the grounds.

The Woodmen of the World, which was the first society to build a permanent home at the Spokane fair grounds, has kept up a pretty lawn with trees, and the cozy log cabin with its generous proportioned greplace, will be a gathering place for the W. O. W. The Women of Woodcraft, an auxiliary to the W. O. W., will have a neat bungalow, which will be open all the week.

NOTABLE VISITORS

General-General Inspects the Granby Smelter and Some Fruit Ranches

School Children Given a Holiday in Honor of the Visit

Earl Grey, governor-general of Canada, accompanied by the Earl of Lonsdale, Harold Lowther, brother of Rt. Hon. J. W. Lowther, speaker of the British house of commons, and Capt. Pickering, A.D.C., arrived in Grand Forks on a special train at 2:30 last Monday afternoon. The party remained in the city until 8 o'clock in the evening, when the special left over the Great Northern road for Keremeos, from which place they rode across country to Penticton, for which purpose they had eight Northwest mounted police horses along with them in charge of a corporal and two constables. It was the intention of the governor-general when he left here to spend a few days at his Okanagan ranch. It is stated today that the party will return from the west tonight, and that the special will be transferred to the C.P.R. at this point at 2 o'clock tomorrow morning.

On the arrival of the governor-general's train, the party was met at the station by a committee composed of the mayor and members of the city council. After the formality of an introduction had been concluded, the visitors and the reception committee boarded Messrs. W. A. Williams' and C. E. Lane's automobiles, and the party proceeded to the Granby smelter. As the visitors passed the public school, the children assembled in front of the building and sang the national anthem. Earl Grey spoke briefly to the scholars, saying that it afforded him great pleasure to address them, and promising them a holiday in the near future in honor of his visit to the city. After this incident the party continued their ride to the Granby smelter. The visitors evinced great interest in the big reduction plant, and expressed great surprise at the magnitude of that institution.

After inspecting the smelter, Messrs. Williams and Lane took the party for an automobile tour to the principal fruit ranches of the valley. The Covert estate was visited first. The earl took a great deal of interest in the fruit at this famous ranch, commenting favorably on the same. From this place a trip was made down the valley, the ranches of Messrs. Doull, Traunweiser and Powers being visited. From the latter place the party returned to the city.

John Hall, an old Toronto roadster, has accepted the position as conductor of the Kettle Valley line passenger train, and assumed the duties of his new position last Monday morning.

A bridge crew was been engaged for some time in repairing and raising the Great Northern bridge at the smelter dam.

FRIDAY, OCTOBER 2, 1908

The candidates for Yale-Cariboo are returning to this section of the constituency, and during the next two or three weeks the electorate will doubtless receive a superabundance of instruction of how to vote to save the country.

Another Step Forward

Hon. Rodolphe Lemieux, postmaster-general, announces that the intention of the government is to inaugurate at once a system of free rural mail delivery throughout Canada, thus conferring a great boon to the whole farming community of the country. After briefly reviewing the history of the adoption of a free rural mail delivery in Great Britain, France, Germany, and the United States, he declares that hitherto the vital objection to the adoption of such a system in Canada had been the great cost involved and the comparative sparsity of the rural population, but with a postoffice surplus of \$1,109,000 last year, and a growing postal revenue, the government now feels justified in taking another great step in advancement in the matter of postal reform.

MARRIED

HARDY-GAW—In Winnipeg, Man., on Wednesday, September 23rd, 1908, Mable, daughter of Mr. and Mrs. Robert Gaw, to Mr. Edward B. Hardy, both of Grand Forks. After a short wedding tour, the young couple will make their home in this city.

CUSTOMS RECEIPTS

R. R. G. Lipin, customs officer at this port, makes the following detailed report of the customs receipt at the various sub-customs offices, as reported to the chief office in this city, for the month of September:

Grand Forks.....	\$2,324.25
Phoenix.....	1,373.32
Carson.....	79.56
Cascade.....	74.19
Total.....	\$3,851.32

Ladies

Are invited to attend the Fall Opening of Millinery at "The Wonder" on Friday and Saturday, October 2nd and 3rd.

THE SUN is read by everybody because it prints all the Boundary news.

PERSONAL

Mr. and Mrs. John W. Rutherford returned last Saturday from Port Elgin, Ont., where Mrs. Rutherford has been visiting relatives during the past two months.

C. Harrison, after spending a week in the city, left yesterday for his home in Hamilton, Ont., taking with him she remains of his late brother, T. E. Harrison.

H. C. Ullmann, of Vancouver, representing the Westward Ho magazine, has been in the city this week in the interests of that publication.

Mrs. W. C. Allen and nephew, Osborn Allen, returned this week from an extended visit with friends and relatives in eastern Canada.

J. D. Campbell, timekeeper at the Granby smelter, has returned from a three weeks' vacation trip to the Okanagan country.

Dr. K. C. MacDonald, returning officer for Yale-Cariboo, and G. A. Harris, of Vernon, arrived in the city yesterday.

A. B. W. Hodges, manager of the Granby smelter, returned this week from a business trip to the coast cities.

Duncan Ross, of Greenwood, Liberal candidate for Yale-Cariboo, is a visitor in the city today.

F. A. Allen and son Louis, of Grand Rapids, Mich., are visiting friends in the city.

Mrs. A. H. Napper has returned home from a visit with friends in Greenwood.

Mrs. J. B. Henderson visited her daughter in Bridesville last Sunday.

CITY BREVITIES

About 5 o'clock last Saturday morning fire broke out in the Kettle Valley line depot on Third street. The flames had gained great headway before the department reached the scene, and the building was almost a total wreck. Indications point to incendiarism as the cause of the fire. Loss about \$2000, partly covered by insurance.

The Carson school did not open yesterday, as had been previously announced, owing to the fact that the teacher, Miss Nellie Henderson, who is acting as a substitute in the public school here, could not get away on account of the non-arrival of Miss Inglis from Vancouver.

H. B. Cannon, an old timer of this city, left this week for Prince Rupert and the Queen Charlotte islands. He is interested in some valuable mineral claims at the latter place, the properties having recently been staked by Frank Fritz, formerly of this city.

Spreading of the rails derailed seven cars on the Kettle Valley line just this side of Danville last Tuesday evening. The wreck was cleared away in three hours.

The office of the Riverside nurseries has been removed from the Burrell building on Winnipeg avenue to the Johnson block on First street.

At a meeting of the football club last Tuesday evening P. H. Donaldson was elected captain. The club now has a membership of thirty.

Miss McGrade has been appointed to fill the vacancy caused by the resignation of Miss Dalby, of the staff of public school teachers.

LeRoy Stevens, late of the Province restaurant, is opening the Shamrock lunch room in the Tuttle building on First street.

S. Warren, a smelter employe, had one of his feet badly crushed Tuesday night by a slag engine running over it.

The teachers and school children are enjoying a holiday today as a result of the governor-general's visit to the city.

A Genuine Bargain

J. Hammar offers
his House and Lots
on Fourth Street for
sale for

\$3,500

Terms to Suit.

Bricklaying on the new Province hotel has been commenced, and good progress is being made with the work.

Wm. Wallace has removed his tailor shop from First street to Mr. Burrell's building on Winnipeg avenue.

Forest fires still continue to illuminate Rattlesnake mountain, east of the city, nightly. Some valuable trimmer and cordwood have been destroyed.

A new lot of latest designs of program and menu cards just received at THE SUN job office.

Local advertisers should make a note of the fact that THE SUN is the most widely read paper in Grand Forks.

We are still offering The Sun and the Toronto Weekly Globe and Canada Farmer for \$1 per year in advance. The illustrated supplement that accompanies the Globe is worth twice the money we ask for the two papers.

You might as well try to reach the orb of day by walking on a sunbeam as to attempt to reach The Sun readers by advertising in any other medium.

Before closing your contract for reading matter for the coming year, read the tempting clubbing offer we make on the third page.

Show cards for widows and inside are a fine form of silent salesmen. Make them brief, terse and pointed. Print them plainly, to be read at a glance.

IN THE SUPREME COURT OF BRITISH COLUMBIA

IN PROBATE

NOTICE is hereby given that on the 11th day of September, 1908, it was ordered by His Honor Judge Brown, Local Judge of the Supreme Court, that A. C. Sutton, Official Administrator, be administrator of all and singular the estate of T. E. Harrison, formerly of Grand Forks, B. C., deceased, intestate.

Every person indebted to the said deceased is required to make payment forthwith to the undersigned and every person in possession of effects belonging to the deceased is required forthwith to notify the undersigned.

Every creditor or other person having any claim upon or interest in the distribution of the estate of the said deceased is required before the 19th day of October, 1908, to send by registered letter, addressed to the undersigned, his name and address and full particulars of his claim or interest, and a statement of his account, verified by statutory declaration and the security (if any) he is bound by him.

After the said 19th day of October, 1908, the Administrator will proceed with the distribution of the said estate, having regard to those claims only of which he shall then have had notice.

Dated at Grand Forks, B.C., the 17th day of September, 1908.

THE COPPER HANDBOOK

(New Edition Issued Nov. 15, 1906.) Is a dozen books in one, covering the history, geography, geology, chemistry, mineralogy, metallurgy, terminology, uses, statistics and finances of copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the copper industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man. It gives the plain facts in plain English without fear or favor.

It lists and describes 4636 copper mines and companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property.

The Copper Handbook is conceded to be the

World's Standard Reference Book on Copper

The mining man needs the book for the facts it gives him about mines, mining and the metal.

The investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundreds of swindling companies are exposed in plain English.

Price is \$5 in Buckram with gilt top; \$7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

Horace J. Stevens,

Editor and Publisher,
453 Postoffice Block,
Houghton, Michigan.

RECORD BREAKER

Fruit Crop of Province This
Year Estimated at
\$1,500,000

Orchards of British Columbia Blossom With
Dollars

The fruit crop for the province for the present year is estimated by the Dominion fruit inspector, Maxwell Smith, at \$1,500,000, which is a very substantial increase over all previous years. Maxwell Smith has completed his investigations into the fruit output of the province, and he now puts the value at that tremendous figure, which makes good the claim that the orchards of British Columbia blossom with dollars.

Igorrotes Will Be There

The attraction par excellence of all the various and novel show features of the Spokane Interstate fair of October 5th to 10th has been engaged by the board of managers in the persons of a colony of Bontoc Igorrotes, the famous "head hunters" of Luzon, Philippine Islands. These "bronze Apollos" have only been in this country since the spring of 1907, are here with the consent of the United States government, and will live in their native village, built large out of native materials brought all the way from the upper lands of Luzon.

In the village the men, women and children from the United States' most distant possessions will weave their native cloths in which they clothe themselves after the fashion of their kind, will make spears, bolos and head hunting knives in crude native fashion, indulge in the head hunting and spear throwing and generally illustrate the weird customs of these strangest of all the strange peoples native to the Philippines.

There will be the various native huts, devoted to the married couples, the single men, the girls and unmarried women, the chief, and the poor men, and from an ethnological standpoint this exhibition, which is accompanied by the best informed and most accommodating of lecturers, promises to be among the most interesting on the Interstate Fair grounds.

The Knock-out Blow.

The blow which knocked out Corbett was a revelation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and weary the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him for an ignoramus. Dr. Pierce is bringing home to the public a parallel fact; that the stomach is the most vulnerable organ out of the prize ring as well as in it. We protect our heads, throats, feet and lungs, but the stomach we are utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach sound and strong by the use of Dr. Pierce's Golden Medical Discovery, and you protect yourself in your most vulnerable spot. "Golden Medical Discovery" cures "weak stomach," indigestion, or dyspepsia, torpid liver, bad, thin and impure blood and other diseases of the organs of digestion and nutrition.

The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and hence cures catarrh, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy fluid while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, triple-refined glycerine being used instead.

Dr. Pierce's great thousand-page Illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 31 one-cent stamps, or cloth-bound for 50 stamps. Send Dr. Pierce as above.

RANDOM REMARKS

We would be entirely willing to look for the good traits of the people we don't like if it were not such discouraging work.

The man who gets something for nothing and secures a patent on the process has laid the foundation for another big trust.

Self-conceit is like brandy—we don't like to see the effect of it in the other fellow, but it feels good at home.

There are men whose only idea of a joke is to stupidly inquire for a diagram when you spring it on them.

It is to be hoped that the folding umbrella will not also possess the quality of silently stealing away.

Ideals and aspirations would be all right if cactless friends wouldn't expect one to live up to them.

Almost any man hates snobbishness until he has environment and opportunity to practice it himself.

Of course all philosophy of life is simply to live, but the question seems to be, Who lives?

Strive not to be prejudiced, but if you can't help it don't let it interfere with your side.

The average young man makes love to a girl because he thinks she thinks he ought to.

Heaven, according to a small boy's idea, is a place where nobody washes his face.

Truth crushed to earth has learned to yell loudly for an investigating committee.

Pride simply is the dread of puncture common to every pneumatic article.

Lots of people think that jeering at others justifies them for never trying.

A young man's palmy days are those when the girls want to read his palm.

Anyway, a wallflower is always sure of a strong and steady backing.

When the bloused waist goes out of fashion, bloused hair comes sailing in.

A theory is all right until you attempt to make it do a practical stunt.

Many a man imagines his wife's temper was made for cross purposes.

Anybody can be good, but it takes a genius to be good and not be dull.

The first requisite to being a good cook is securing a good provider.

Every man ought to be the sole proprietor of the shoes he wears.

Don't let the old job hamper—that is, if you have found a better.

What's the good of being good if you do not let people know it?

The easiest way not to settle a dispute is to go to law about it.

Kissing goes by the board when the chaplain knows her business.

An appetite for flattery attracts our foes and repels our friends.

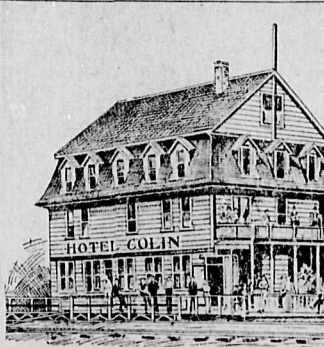

Feminine finery has ruined more men than strong drink.

Occasionally an actress considers a divorce her best part.

People are seldom on time; they are either early or late.

It doesn't take a very large man to make a big boast.

Some people can hardly believe a word they say.

The Evening Sun

Prints more live Boundary news than any other paper published in the district. The price of THE SUN is only \$1.00 per year—one-half the cost of its competitors. THE SUN is never on the fence regarding questions of public interest. THE SUN is acknowledged to be one of the brightest papers published in the interior of the province. Those who subscribe and feel dissatisfied, will have their money refunded by calling at the office of publication.

THE EVENING SUN and the Toronto Weekly Globe and Canada Farmer, \$1.00 per year in advance.

THE EVENING SUN, The Winnipeg Weekly Free Press and Prairie Farmer and the Montreal Family Herald and Weekly Star, \$2.00 per year in advance.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any person who is the head of a family or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situated.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal—Coal mining rights may be leased for a period of twenty-one years at an annual rental of \$1.00 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

SCORES ARE HIGH

Keen Competition at Annual Shoot of the Rifle Association

Long List of Prizes Donated by the Citizens Encourage the Members

The Kettle Valley Rifle association held a very successful meeting at the range last Saturday afternoon. The prizes were many and competition was keen. The principal trophies put up were a sterling silver challenge cup, given by Capt. Spraggett, which is to be won twice in succession, or three times in all, to become the property of the winner, and the plate given by the governor-general, both of which were won by C. G. Wheeler, with a grand aggregate of 93 points out of a possible 105. There were many other good shots, including Capt. Spraggett, E. Ness, G. M. Fripp, W. Talbot, etc. The association sincerely thanks its patrons for the prizes they have so generously given, and which were appreciated.

The following are the scores made:

200 Yards—	
C. G. Wheeler.....	4 4 4 5 5 5—32
E. Ness.....	4 4 4 4 5 5—31
W. Talbot.....	5 3 2 3 5 3—26
G. M. Fripp.....	4 3 4 3 5 4—27
