

## READY TO SETTLE

### Valuators of Midway & Vernon Grade Have Finished Their Work

A Victoria dispatch states that it is understood that the board of valuers appointed early in the present year to determine the price which the Kettle River Valley Railway company must pay for the old Midway & Vernon right of way, and also to pass upon the various claims for wages and supplies incurred by the defunct railway corporation and assumed by the Kettle Valley under the subsidizing legislation of the last session, has now virtually completed its important work, although some few isolated claims may yet be received and considered. The approximate aggregate amount of the award has been communicated to the Kettle Valley company, and it is stated that vouchers and cheques in connection with the settlement of preferential accounts are now being prepared and that cheques will go forward to the creditors about the middle of the present month. President J. J. Warren, of the railway company, has had several conferences with the arbitrators since his arrival. The board held its last meeting on Friday, Judge Forin, of Nelson, presiding, and there being also present R. F. Green, the representative of the government on the commission, and L. M. Rice, of Seattle, who acted in the interest of the railway company.

The board has decided upon a figure in the neighborhood of \$62,000. It is stated upon authoritative information that the amount of the award will be forthcoming in ten days time. The valutors hope to be in a position to make payments in the matter of various claims for wages and supplies incurred by the defunct Midway & Vernon Railway company and assumed by the Kettle Valley line some time between now and the end of the present month. The claims for labor and accounts of that description, so far as they appertain to the ten-mile right of way between Midway and Rock Creek, are likely to be paid in full. This was the portion of the road with which the board could deal. Other claims in connection with that portion of the road will, it is stated, receive substantial consideration.

### The New Dominion

Operation of the properties of the New Dominion Copper company, which was begun recently at the Rawhide mine, is under the same management as that of the British Columbia Copper company. Officers of the two companies are now practically the same, and J. E. McAllister is general manager of both. It will be remembered that last year the British Columbia company acquired 53 per cent of the New Dominion company by exchanging 88,709 shares of its stock and \$11,593 for 122,556 shares of the New Dominion stock.

About 2500 tons of ore a week from the New Dominion mines is being treated at the Greenwood

smelter of the British Columbia company under a contract covering 25,000. Officers say another contract on the same terms covering 25,000 tons more will probably be made when this one expires, but it is not known what arrangements will be made after that.

It is not known yet whether a merger of the two companies will be considered or not. Value of the New Dominion ores will be the governing factor in whatever permanent arrangements are made, and that cannot be ascertained until all the poor ore left loose in the mines by the former management is removed. By the time 50,000 tons have been treated, however, the ore bodies will have been reached and the value of the New Dominion ore determined. If a consolidation is arranged, the interests of the minority stockholders of the New Dominion company will have to be considered.

According to an officer, the British Columbia Copper company is at present producing at the rate of one million pounds of copper and \$75,000 gold and silver a month.—Wall Street Journal.

### Evangelistic Services

Rev. F. A. Robinson, B.A., and Mr. W. J. McBretney held their last service here on Wednesday evening, the 9th inst. They left the following day for other points in the province where the Presbyterian church is carrying on this kind of work. Many of our citizens will remember the visit of these gentlemen with thankfulness.

Last Sunday's services were well attended, and the interest appeared to be well sustained. Perhaps the largest attendance of the whole mission was Sunday evening. The men's meeting, and the mass meeting of the Sunday schools, both held in the afternoon, showed Mr. Robinson's ability to speak according to the audience before him. His talk to men about "Seeing Life" gave one the impression that the speaker had seen some himself, and this no doubt enabled him to speak with such earnestness. The story of "Little Meg and Her Children" was a combination of story and song told of a life in "old London," of special interest to children.

On Thursday Rev. F. W. Anderson, M.A., came here to conduct the closing services of the mission. The meeting Thursday evening was very well attended. Rev. Anderson gave a very forceful address, pointing out the "open door" of the local churches to enter. Rev. Wilson presented the claims of the Sunday school in the plans for the upbuilding of this growing country. Both these gentlemen are interesting and convincing speakers. The service Friday evening was devoted to the subject of "Christian Citizenship."

### Mining Stock Quotations

BOSTON, Nov. 10.—The following are today's opening quotations for the stocks mentioned:

	Asked.	Bid
Granby Consolidated.	47.00	46 00
B. C. Copper.....	7.00	6.50

### Metal Quotations

NEW YORK, Nov. 10.—Silver, 55½; standard copper, \$12.45@12.65, easy.  
LONDON, Nov. 10.—Silver, 25 13-16; lead, £13 3s 9d.

Tim Townsend and Joe Pringle, of Bannock City, were in the city on Saturday.

## NEWS OF THE CITY

### Granby Has Made a Gain of \$20 Within a Few Weeks

Granby shares gained \$1 on the Spokane mining exchange Wednesday morning. The stock has gained \$20 within the past few weeks, and there is still an upward tendency.

The city schools were inspected during the past week by the High school inspector, Mr. Gordon, and Inspector McLaren, of the public school, both of whom commented favorably on the work being done, and also on the facilities afforded the teachers by the trustees for carrying on the work.

W. A. Cooper, of this city, who had a display of amateur photography work at the National Apple Show, received notification from Vancouver on Wednesday that he had been awarded the third prize.

The prize winning district exhibit made by the Grand Forks board of trade at the Canadian National Apple Show in Vancouver last week, consisting of a mixed car of apples, was shipped to England on Wednesday last by the provincial government for exhibition purposes.

Work was resumed on the Le Roi mine at Rosland last week, when a force of 25 men was employed. The work on the upper levels, which was carried on at the time the mine was closed down, will be continued. Negotiations are still proceeding with a view to the sale of the property. It stated that the mine will pass into the hands of a strong company.

Sam Horner returned Tuesday evening from Vancouver, where he has been spending the past three or four months.

The the court of revision for the provincial voters' list was held at the government office on Monday morning. E. Miller represented the Conservative party, and Walter Hadden the Socialists. With the exception of twenty-six, the objections to the three hundred odd names were all sustained.

The counter attractions were too great on Monday evening to draw a quorum to the council meeting, and consequently the session was postponed. The evangelistic meeting and "A Bachelor's Honeymoon" were the strong magnets that evening.

Deer appear to be so plentiful in the vicinity of Grand Forks that military accoutrements are no longer essential as a means of slaying them. Sunday forenoon an engineer of a Canadian Pacific freight train, when near Gilpin, noticed a big buck deer on the railway right of way. The engineer blew his whistle, and the animal endeavored to make its escape by crawling through the fence. The deer got its head through the fence, but that was as far as he could go, his body being too large to go between the strands, and his horns preventing him from withdrawing his head. He had become a captive of the treacherous wires. The engineer stopped the train, killed the deer, and brought it to this city. It is a pity that the animal was not captured alive, so as to give us a nucleus for a zoo.

An erroneous conception appears to have been taken by the public concerning an item, which recently appeared in a Boundary paper, to the effect that government officials and employees were not allowed to offer their services to private indi-

vidual. The following paragraph, taken from a circular recently sent by the provincial secretary to the various government offices in this province, covers the subject referred to by our contemporary: "No payment shall be made by the government for services rendered by any public servant outside of regular office hours, unless payment be authorized by order-in-council."

Grand Forks theatre-goers were afforded a treat in the form of high-class farce comedy at the opera house on Monday evening, when "A Bachelor's Honeymoon" was presented to a crowded house. The play is replete of witty lines and sayings, and abundant with side-splitting situations. The cast embraced recognized performers, fully capable of portraying their respective roles. The specialties and musical numbers were clean, and gained the approval of the audience. All in all, the play was one that amused, minus anything that might tend to offend the fastidious.

### MARRIED

Percy Andrews, of this city, and Miss Sadie Milliken, of Dumbarton, Scotland, were united in marriage at the home of Mr. and Mrs. E. Barron, in the West end, on Thursday afternoon, Rev. M. D. McKee performing the ceremony. Mr. Andrews is one of the pioneer ranchers of the valley. The bride came to this country last spring from Scotland, and has since been residing at the home of Mr. Andrews' brother-in-law in Saskatchewan, arriving in this city a few days ago. Mr. and Mrs. Andrews will make their home on their ranch in the West ward.

### Hockey Club Elects Officers

A well attended meeting of the Grand Forks Hockey club was held in the city hall last Friday night. Mayor Clark presided. The election of officers resulted as follows: Honorary president, E. Miller, M.P.P.; honorary vice-president, H. C. Kerman; president, W. A. Williams; vice president, T. S. Watts; secretary-treasurer, Thos. Cook; manager, Walter Miller.

T. S. Watts, Burt Reid, Roy Curran, Arthur Mann and W. C. Chalmers were appointed a committee to solicit new members.

The manager and secretary-treasurer were instructed to wait on the rink trustees and confer with them regarding practice nights, etc.

Neil Barnum was elected mascot of the club by an overwhelming majority.

The secretary-treasurer was instructed to notify the newly elected honorary officers of their election, and to have 100 membership tickets printed.

The manager of the club was authorized to purchase the necessary articles needed by the team.

### ORE SHIPMENTS

The following are the returns of the ore production of the Boundary mines for the week, and also for the year to date:

Granby.....	18,546	945,937
Mother Lode.....	5,998	298,997

B. C. Copper Co., 12,949 311,936

## LARGE LAND DEAL

### C. Scott Galloway Disposes of His 277-Acre Ranch to L. McAdam

A ranch deal of considerable importance was consummated this week, C. Scott Galloway disposing of his property, consisting of 277 acres, and located just south of the city limits, to L. McAdam, late of Greenwood and the coast cities. The consideration is understood to have been in the neighborhood of \$30,000. The ranch contains some of the best orchard land in this valley. Mr. McAdam is a native of New Zealand.

### Granby's New Mines

W. Yolen Williams, consulting engineer of the Granby Consolidated, is now in Vancouver preparing to start with a working party for development work on the Hidden creek mines at Goose bay, in the Portland Canal district, about sixty miles north of Prince Rupert.

The Granby company recently bonded four-fifths interest in the mine for \$400,000. The first payment has been made as the result of an examination by O. B. Smith, the company's engineer at Phoenix. The property has heretofore been controlled by Hodgens Bros., of Butte, and Mr. Rodgers. About \$250,000 has been expended in development work and plant. The expert's report stated that 400,000 tons of copper ore are in sight averaging 3½ per cent with values of gold and silver equal to the showing of the Granby mine. If the bond is taken up and the June payment made the Granby company will erect a smelter at tidewater near the mines and make 30 per cent matte, which will be shipped to the smelter in this city for further treatment.

### Meeting of School Trustees

The regular monthly meeting of the school board was held on Tuesday evening, the 8th inst., Messrs. W. A. Cooper, J. Rutherford and Geo. H. Hull being present.

The monthly reports received from the principals of the High and Central schools showed that the attendance for the month had been: Central school, 241; High school, 20.

The following accounts were passed:

W. Bonthron.....	\$12 00
McNeil & Henniger.....	3 15
Crane & Co.....	68.68
Woodland & Co.....	113.41
G. F. Transfer Co.....	5.22
J. N. Campbell.....	1.00

On motion, the board decided to call for tenders for the digging of a new seepage tank, as the old one is overflowing.

The secretary reported having received from the Eastern Townships bank the silver medal donated annually by them, the recipient this year being Lillian H. Pell. It was moved that the presentation of the same be made on Friday morning at the opening of school, and that a committee consisting of Messrs. W. A. Cooper and N. L. McInnis make the presentation.

Take your repairs to Armson's Boot and Shoe Hospital, Bridge street, Grand Forks, B. C.

## NATION IN HIS DEBT

**DR. WILLIAM SAUNDERS HAS DONE MUCH FOR CANADA.**

**Director of Experimental Farms Has Spent the Last Twenty-Three Years Laboring Untiringly For the Prosperity of the Farmers of the Dominion—Many Fruits and Grains Have Been Imported.**

Canada's system of experimental farms is one of the most interesting and perhaps the most original feature of the Dominion Government. To the experimental farm, without doubt, more than to any other factor, is due the splendid development of the northwest Dominion to-day. Through 23 years, Dr. William Saunders, the head of the system, has worked untiringly and the results have been great. His first connection with the service was in 1885, when he was a business man making a hobby of horticulture. At that time he was sent abroad to study agricul-

DR. WILLIAM SAUNDERS.

tural work in other nations, and upon his return he was made director of five experimental farms about to be organized. Since then, under his guidance, the work has progressed by leaps and bounds. The potential yield of every acre of Canadian farm land has been increased; fruit has been successfully raised on the north plains, and besides this, there has been established a great educational extension service for the training of the young Canadian farmer.

The keystone of this experimental farm system in Canada is the so-called central farm, near Ottawa. The first branch farm was established between New Brunswick and Nova Scotia, and this was followed by a farm at Brandon, for Manitoba. Then came a branch for the Northwest Territories, which was placed at Indian Head, and others have been established since.

These experimental farms have been of great value to Canada, enabling her to take an inventory of her agricultural resources and to know the possibilities of her land. She has demonstrated that many grains and fruits not indigenous to her broad prairies can be grown upon them, and in this way has distributed an immense amount of useful information among her agriculturists which has added immeasurably to the wealth of the country.

### Temperance in Ireland.

Remarkable figures regarding the strength of the temperance movement in Ireland, were given in the report of the Temperance Committee recently submitted to the General Assembly of the Presbyterian Church of Ireland, in Belfast. There are 60,433 members of Bands of Hope and temperance societies connected with this denominational body, an increase of 11,300 during the year. The progress of the Total Abstinence Union, better known as "Catch-my-pay" movement, was so rapid that there was scarcely a town of any importance in six of the counties of Ulster which had not been revolutionized in its relation to the drink traffic.

The movement was also at work in the South and West of Ireland, in Scotland, and in certain parts of England. As the result of one year's work 120,000 members had thus far been enrolled.

The report also referred to the work among the Roman Catholic community, showing that the Young Crusaders numbered 100,000 and the Pioneers, an adult society, 150,000. In some localities in the West 90 per cent. of the people had taken the pledge.

Mistress (to the newly arrived Norwegian)—Can you cook?  
"Naw."  
"Can you do washing?"  
"Naw."  
"Can you wait on table?"  
"Naw."  
"Well, what can you do?"  
"Ah can milk reindeers."—Metropolitan Magazine.

### Why She Hesitated.

"You should persuade your husband to stop smoking," said one woman.  
"But," replied the other, "I depend on the tobacco coupons he gives me through the year to get him a Christmas present."—Washington Star.

## USE OF PEAT IN CANADA.

**It Becomes Every Day More Necessary to Replace Coal.**

Hon. Clifford Sifton, ex-Minister of the Interior, in an address recently on the peat supplies of Canada said among other things:

"We, in Canada and the United States, have been living amid a bountiful supply of the natural resources of wealth. We have hardly known what it was to be in need of anything that is really necessary to existence. In this City of Ottawa ever since its existence there has been a constant struggle to get rid of the wastage of manufacturing which, in other situations, would have been of great commercial value.

Ottawa is, therefore, a typically difficult place in which to get people to realize the value of fuel. Some of us who stand here were born upon farms, upon where, when fuel was required, it was only necessary to go out and cut it—the destruction of the tree in itself was regarded as adding value to the land from which it was cut. We are, however, coming, if somewhat slowly, to a better realization of what these things mean and, among other questions, we are beginning to realize what the fuel problem means to great masses of people after the supply of timber has been so far depleted that cheap wood fuel is no longer available.

In the great centre of population in the Northern United States and Canada—as it is soon to be in its present course of development—the mass of the population will be wage-earners living by their daily earnings and in a climate which for at least four months of the year requires a large amount of fuel for family use—cheap and abundant fuel is a necessity of existence. There are districts in Canadian cities to-day where families are herded together with insufficient space for health and really civilized life because of the cost of fuel in the winter, and this condition will tend to increase rather than diminish.

The coal supply of the continent is measurably well known, and the conditions of its extraction and marketing are thoroughly well known. It may be safely said that there will be no permanent reduction in the price of coal—rather is it reasonably certain that there will be a gradual but steady increase. We may get much heat from water power in some localities favored by nature, such as the neighborhood of the Ottawa River; but, so far, the cost of development, maintenance and management does not encourage us to the belief that we shall be able to make the White Coal a poor man's fuel.

In Canada we have coal in Nova Scotia, Alberta, British Columbia, but between Alberta and the New Brunswick line little coal of economic value, so far as known; but in those portions of the country where there is no coal, peat bogs abound.

Now, as coal becomes dearer, the difficulty and uncertainty of the supply of which we have had the very vivid experiences in the past, becomes more accentuated, the importance of an alternative and substitute fuel will become more pressing. If, therefore, the great peat bogs of Canada can be successfully converted into a fuel which shall be, if not so desirable as Pennsylvania coal, yet a practical domestic fuel, substantially cheaper than wood or coal, and abundant and certain in quantity, the boon thus conferred upon the future inhabitants of Canada and the Northern United States can hardly be overestimated. It will literally mean life and happiness to millions of people.

### To Caravan Through Canada.

Miss Ida Gordon-Stables, of London, England, daughter of the late Dr. Wm. Gordon-Stables, the favorite author of boys' books, has been spending a few days in Toronto on her way to the west-coast. The late Dr. Gordon-Stables spent much of his time caravanning, and the desire and love for the gypsy life is still in his daughter. It is with the intention of planning such a trip through Canada that she has crossed the Atlantic. Like her father, this young lady, who prefers "roughing it" to keeping up her large social connection in England, has also more than ordinary talents in the literary line. This is her first visit to Canada, and she intends coming with her caravan next year, and will devote her leisure time to the writing of articles on "Caravanning in Canada."

### Ought to Be Switched.

On Thursday last one of our local barber shops was the scene of a pathetic incident. A little girl about 11 or 12 years of age, with beautiful long hair hanging down her back, entered the place and began to cry. The tonorial artist enquired as to what was the trouble, and the little girl informed him that her mother had sent her to have her hair cut off as she wanted the hair made into a switch for herself. The barber showed his good judgment by refusing to do the job, and sent the girl home to the beach. We could hardly believe that such selfishness could exist in a mother. Apparently it is vanity first with this woman—not motherhood.—Burlington Gazette.

### Hardened Paint Brushes.

A paint brush that has become hardened with paint can be made soft and pliable by immersing it in boiling vinegar. After it has simmered in this liquid for a few minutes it should be washed thoroughly in warm soap-

## ROYAL ETIQUETTE.

**What Constitutes Good Manners at King George's Court.**

When our late King, Edward VII., came to the throne he relaxed many of the stringencies of etiquette which hedged in Queen Victoria's position. He, however, was exceedingly particular about matters of dress, and on more than one occasion he had to rebuke a guest for visiting him without obeying the court laws concerning attire.

For instance, before the King ascended the throne it used to be strict etiquette that none but the regulation white tie should be worn by any guest invited to meet royalty at dinner. At a bachelor dinner given by King Edward, when he was Prince of Wales, one of the guests turned up in a black silk tie instead of the regulation white one, and received a well-merited snub. A waiter strolled up to him and held out a silver salver, on which was a white tie. "Sir," said the servant, with his accustomed civility, "His Royal Highness has ordered me to bring you this."

Since that occasion gentlemen who are asked to dine with royalty must wear a black tie with a dinner jacket, and a white tie with the ordinary evening tail-coat.

When foreign royalties are visiting a royal palace it is the custom for the gentlemen of the court to appear in what is known as "frock dress" and wearing all their orders. At state banquets uniforms must be worn. When the King and Queen visit together gentlemen must wear knee breeches, but when His Majesty is alone ordinary evening dress is the rule. While the court is in mourning every guest is expected to assume the same degree of mourning as that at court.

Ladies who visit the royal palaces have to be very careful how they attire themselves, though the rules as to dress are not quite so strict as they were in the days of Queen Victoria. Speaking of the etiquette observed at the Court of St. James's during the reign of her late Majesty, Count Paul Vassili, the author of "Society in Berlin," said: "The ladies at the drawing-room have to wear the three white feathers of the Prince of Wales's escutcheon planted straight up in front, like the crest of a certain bird, or that of a Sioux chief. If the plumes of any of these ladies are not correctly placed the lady is sent back to her mirror. Mrs. Langtry presented herself one day with a graceful coiffure, in which the three traditional plumes were somewhat coquettishly arranged. A chamberlain was sent to the beautiful lady to ask her either to arrange her plumes according to etiquette or to withdraw."

### Merely an Error of Judgment.

Robinson Crusoe, with infinite patience and industry, had hollowed out the big log and made a huge canoe.

Then he discovered to his chagrin that he couldn't launch it. It was too heavy for him to move. All his labor had been wasted.

"Still," he reflected, "it was only an oversight. It isn't half as bad as Uncle Sam neglecting for twelve years to raise the battleship Maine."

Scouring to ask for congressional aid in this difficulty, he went to work immediately to make a smaller canoe.—Chicago Tribune.

# CHAPPED HANDS & COLD SORES

One thorough application of Zam-Buk at night will bring ease by morning. Zam-Buk stops the smarting, heals the cracks, and makes the hands smooth.

**PROOF**—Miss Hattie Verstrand, Galeburg, Ont., writes:—"I was troubled with chapped hands and arms and nothing ever seemed to heal them thoroughly until we found Zam-Buk. It has cured them. My father has also used it for several skin troubles and injuries, and thinks there is nothing like Zam-Buk."

Mothers should see that their children use Zam-Buk daily, as there is nothing like prevention. A little Zam-Buk lightly smeared over the hands and wrists, after washing, will prevent chaps and cold sores.

Zam-Buk is also a sure cure for skin diseases, eczema, itch, ringworm, blood-poisoning, piles, and for cuts, burns and bruises. Use box at all stores and druggists, or post free for Zam-Buk Co., Toronto, for price. Refuse harmful substitutes and imitations.

# ZAM-BUK

EVERY HOME NEEDS IT.

**Luggage with Sense**  
"Why didn't you put my luggage in as I told you?" screamed the irate passenger, as the train moved off.  
"Eh, man," replied the porter, "yer luggage is no sic a silly as yersel'. Ye're in the wrang t ain."

Mrs. Cabby—"That queer little Mrs. Showy was ostracized."  
Mrs. Comeup—"Did it take?"—Baltimore American.

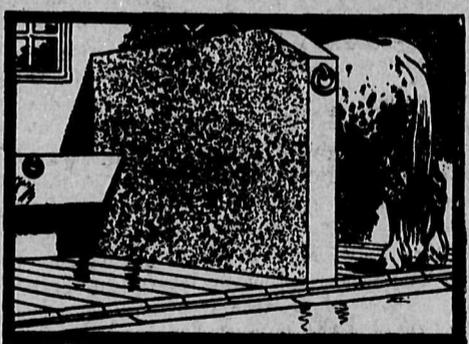

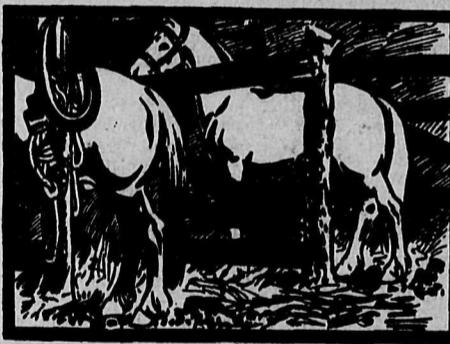

**Ate Unwisely?** Sometimes people do, and suffer, because the stomach balks.

## NA-DRU-CO TABLETS

### DYSPEPSIA

relieves the discomfort at once, and help digest the overload. The lover of good things may feel quite safe with a box of NA-DRU-CO Dyspepsia Tablets at hand. 50c. a box. If your druggist has not stocked them yet send 50c. and we will mail them.

National Drug and Chemical Co. of Canada, Limited, Montreal.

### Which of These Pictures Best Represents Your Stable?

If your Stable interior is of wood, you'll do well to tear down those old, unsightly stalls and mangers—and build new ones of Concrete.

In fact, the entire Stable—inside and out—should be built of Concrete.

This is the modern material—it has the merits of stichtness, endurance, and economy—and is sanitary.

The farmer himself can, by its use, make many little improvements that, with any other material, would require the employment of skilled labor.

If you would know something of the possibilities of Concrete, fill out the coupon and send it to us. By return mail, we will send you a copy of our free 160-page book, "What the Farmer Can Do With Concrete."

In this book you'll find complete instructions for the construction of almost everything you can think of, in the way of farm buildings, floors, vats, troughs, etc., etc.

Nowadays, for a farmer not to know how to mix and use concrete, is to confess himself a way behind the times.

"What the Farmer Can Do With Concrete" will not only inform you—it will also interest you.

### "What the Farmer Can Do With Concrete"

Tells you how to use concrete in constructing:

- |                |                |                  |

# MISERABLE WITH DYSPEPSIA

Another Wonderful Cure By That  
Wonderful Fruit Medicine  
"Fruit-a-tives."

Mr. Mathias Dery, of 225 Church street, Ottawa, Ont., was treated for years by physicians for Painful Dyspepsia. He spent so much money for doctor's medicines without getting much relief that he had about made up his mind that his case was hopeless.

Seeing "Fruit-a-tives" advertised, however, Mr. Dery thought he would invest 50c in a box of these wonderful fruit juice tablets.

And this famous fruit medicine did for Mr. Dery what all the doctors could not do—it cured him.

He writes:—"Fruit-a-tives" positively cured me of severe Dyspepsia when physicians failed to relieve me."

"Fruit-a-tives" makes the stomach sweet and clean, insures sound digestion and regulates bowels, kidneys and skin.

50c a box, 6 for \$2.50, or trial box, 25c—at all dealers, or from Fruit-a-tives, Limited, Ottawa.

### Life Lines

There is good in each and some bad in all; the man who would preach must help them who fall.

## DR. MORSE'S INDIAN ROOT PILLS

are not a new and untried remedy—our grandfathers used them. Half a century ago, before Confederation, they were on sale in nearly every drug or general store in the Canada of that day, and were the recognized cure in thousands of homes for Constipation, Indigestion, Biliousness, Rheumatism and Kidney and Liver Troubles. To-day they are just as effective, just as reliable as ever, and nothing better has yet been devised to

### Height of Hard Luck

A group of hoboes waiting for their coffee to boil in a tomato can were telling of their hard luck experiences. "I've had worse luck than anybody," said one of them challengingly, after listening to the others' tales of woe. "Onct I had to sleep from Wilkes-barre to Perth Amboy on top of a flat-car loaded with hard coal."

### Minard's Liniment Cures Garget in Cows.

Teacher—"Now I want all the children to look at Tommy's hands, and observe how clean they are, and see if all of you cannot come to school with cleaner hands. Tommy, perhaps, will tell us how he keeps them so nice."

Tommy—"Yes'm. Ma makes me wash the breakfast things every morning."

## Shiloh's Cure

quickly stops coughs, cures colds, heals the throat and lungs. . . . 25 cents.

Mission Sunday School Worker—Why did the wise king tell the sluggard to go to the ant? You, William.

"Cause de bug would git busy on de sluggard ef de sluggard stood still."

### What It Contained

A well-known physician was walking down one of the main London thoroughfares with his five-year-old son when they were obliged to stop to await the passing of a funeral procession.

The youngster had never seen anything of the kind. His eyes widened. Pointing to the hearse (an enclosed one), he asked:

"Dad, what's that?"  
"In that, my son," said the physician, with a grim smile, "is a mistaken diagnosis."

Sores Heal Quickly.—Have you a persistent sore that refuses to heal? Then, try Dr. Thomas' Electric Oil in the dressing. It will stop sloughing, carry away the proud flesh, draw out the pus and prepare a clean way for the new skin. It is the recognized healer among oils and myriads of people can testify that it healed where other oils failed utterly.

Congressman (excitedly)—The newspapers tell abominable lies about me.  
They might do worse. They might tell the truth."

### THE PATIENT BRAIN.

A Tireless Worker So Long as Supplied With Rich, Red Blood

The brain is one of the most patient and industrious organs of the body. It can be induced, by good treatment, to perform prodigies of work.

But it is sensitive and will not brook abuse. It responds to the lash at first, but if the lash is laid on too hard it balks.

The brain insists on having plenty of good, red blood wherewith to renew its waste and from which to manufacture the nerve force supplied to the whole body.

Nervous trouble is generally brain trouble, and no suffering is to be compared to mental suffering, with the accompanying dread, suspicion and melancholy.

One-fifth of the blood in the human body is consumed by the brain, so make the blood rich and red by using Dr. Chase's Nerve Food, and you will overcome diseases of the nerves.

There is no other way. Stimulants arouse false hope. Narcotics deaden the nerves, and temporary relief is followed by a condition which is worse than the first.

Get the blood right and the nervous system will adjust itself. Headaches will disappear, irritability will go, digestion will improve, and weakness and despondency will give place to new hope and courage, new vigor and energy.

Mrs. Geo. Fuller, Lakeland, Man., writes:—"Dr. Chase's Nerve Food cured me of nervous headache, from which I was a great sufferer, and I am no longer troubled with twitches of the nerves in the arms and legs."

Dr. A. W. Chase's Nerve Food will enable you to avoid such extreme nervous trouble as prostration and paralysis. 50 cents a box, 6 boxes for \$2.50, at all dealers or Edmanson, Bates & Co., Toronto.

### No Draughts in the Arctic

According to the New York Times, Commander Peary has said that when one is really prepared for it, the Arctic weather is not much worse than winter in New York or London. Indeed, there is a story concerning a certain passenger on a Pullman "sleeper" who complained bitterly to the porter of the constant draught in the car. And the other passengers it seems, were just a bit surprised when they read on his suitcase the name of the famous Arctic explorer who was destined later to reach the pole. You see there are no doors or windows in Greenland, and consequently there are no draughts.

Maid—"I'm sorry, ma'am, but there ain't no bread in the house."

Bride—"Well, Mary, make some toast."—Judge.

# WHAT CAN I DO FOR MY SKIN- TORTURED BABY?

Is the Despairing Cry of Thousands of Mothers. A Scotchwoman Tells How Her Child was Cured.

"What can I do for my skin-tortured baby?" How many worried, worn-out mothers, whose children are suffering with eczema, tetter or other torturing, disgusting humor, have asked themselves this question. Through neglect or improper treatment, some minor eruption has developed into a distressing and unsightly affliction. Simple treatments fail, and stronger ones are tried, sometimes so harsh that the suffering is increased rather than allayed. Even professional aid has proven useless, and the fear is ever-present that the skin disease will become chronic, turning the child's future into a nightmare of physical and mental misery.

Such mothers, who have witnessed their children's suffering and who have undergone the long, sleepless nights and distracting anxiety which they alone can realize, will understand the gratitude that prompted this letter from Mrs. John Ewan, 5, Victoria St., Inverurie, Scotland, and will read it with keenest interest:

"I use Cuticura Soap steadily for my baby's skin. She had the eczema when she was three months old. She was in bed and mess all over her body. We never thought she would get over it. We sat with her night and day for about a month, expecting every minute to see her die. The doctor gave me an ointment to rub her with but it did her no good. My mother was home from America and she told me to try Cuticura Ointment and to wash her with Cuticura Soap. There was a great difference when I used the first box. It seemed to soothe her and she slept. I used three boxes of Cuticura Ointment and she was quite cured. She has the purest skin and is the fattest baby now! She is a miracle, the doctor declares. I am glad to tell anybody about it."

And that the success of the Cuticura Remedies is not confined to the treatment of eczema, is amply proven by Mrs. M. A. Schwerin, 674 Springwells Ave., Detroit, Mich., who writes:

"When my little Vivian was about six months old, her papa had a boil on his forehead. At that time the child was covered with prickly heat and I suppose in scratching it her own head became infected, for it broke out in boils, one after another. She had about sixty in all and I used Cuticura Soap and Cuticura Ointment which cured her of them entirely. We do not think any one can praise Cuticura Remedies too highly."

That mothers may test the efficacy and economy of the Cuticura Remedies for themselves, the Potter Drug and Chem. Corp., 121 Columbus Ave., Boston, Mass., will send free on application, a generous trial box of Cuticura Ointment, sufficient to afford immediate relief in the most distressing forms of eczemas, rashes, itchings and scalings of the skin and scalp. Under the influence of Cuticura Ointment, the itching and burning stop, the child falls into a refreshing sleep, the mother rests, and for the first time, perhaps, in many weeks, peace falls on a distracted household. The Cuticura Remedies are sold by druggists everywhere.

### And Then

Maud—See my new gown. Made for my sea voyage. How do I look in it?

"Very pretty. I hardly recognized you."

Red, Weak, Weary, Watery Eyes Relieved by Murine Eye Remedy Try Murine for your Eye Trouble; You will like Murine. It Soothes. 50c at Your Druggists. Write for Eye Books Free. Murine Eye Remedy Co., Toronto

Every girl owes it to herself to be good looking—but some girls are unable to pay.

Bickle's Anti-Consumptive Syrup is agreeable to the taste, and is a certain relief for irritation of the throat that causes hacking coughs. If used according to directions it will break the most persistent cold, and restore the air passages to their normal healthy condition. There is no need to recommend it to those familiar with it, but those who seek a sure remedy and are in doubt what to use, the advice is—try Bickle's Syrup.

Slum Child—"She died through eating a tuppenny ice on the top o' 'ot pudden."

The Other Slum Child—"Lor! wot a jolly death!"

## Shiloh's Cure

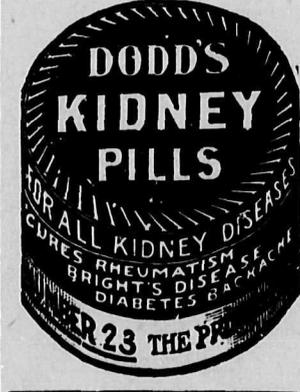

quickly stops coughs, cures colds, heals the throat and lungs. . . . 25 cents.

During August 7,100 cabin passengers left Great Britain for the United States by White Star steamers. Of these 3,500 travelled first-class.

### Minard's Liniment Cures Diphtheria.

But when the new chaplain essayed to ban wine, women and song, the gay cavaliers flung him from the battlements.

"What else are banners for?" they protested mirthfully.

quickly stops coughs, cures colds, heals the throat and lungs. . . . 25 cents.

Friend—"You fought bareheaded?"  
French Duellist—"Yes, and got a fine sunstroke."

### Minard's Liniment Cures Colds, &c.

The plumber saves a lot of money by being able to do his own repair work.

They Soothe Excited Nerves.—Nervous affections are usually attributable to defective digestion, as the stomach dominates the nerve centres. A course of Parmelee's Vegetable Pills will still all disturbances of this character, and by restoring the stomach to normal action relieve the nerves from irritation. There is no sedative like them in the correction of irregularities of the digestive processes, no preparation has done so effective work, as can be testified by thousands.

A remarkable find has been made by the Royal Doulton Pottery Works, Burslem. This is in the discovery of the original pattern-books of the old and world-renowned Leeds factory. These books show all the original designs of the old Leeds ware in their colors, and the prices paid to workmen for producing the patterns are also set out. The books were discovered quite by accident amongst some old lumber at the sale of the effects of a wealthy Manchester connoisseur who died recently.

## THE RACKING PAINS OF RHEUMATISM

### Can Only Be Cured Through the Blood—Try Dr. Williams' Pink Pills Which Act Directly On the Blood.

Rheumatism will rack you just as long as there is acid in the blood to cause rheumatism. That's the whole trouble—acid in the blood. Cold, damp weather may start the pains going but it is not the cause. That is rooted in the blood and can only be cured through the blood. Years ago when medical science did not know as much about the complaint as today, rheumatic sufferers were given something to rub on the swollen tender joints. Some people who do not know any better still adhere to the old fashioned way, but it does not cure their rheumatism—and never will.

When the acid is driven from the blood the rheumatism is gone—it's cured. The thing is to get the right medicine to drive the acid out. Dr. Williams' Pink Pills have cured more cases of rheumatism than any other disease except anaemia. They do this because they enrich the blood supply, thus toning up the system to a point where the rheumatic acid is expelled through the natural channels and the trouble disappears. They were intended to do this and they do it thoroughly. Mr. Henry O'Donoghue, Viscount, Sask., says: "About four years ago I came here from Scotland for the purpose of taking up land. Even at so recent a date as this the country was quite different from what it is today. Then the nearest shack to me was ten miles distant, and the nearest town much further away. In those days homesteading was not all sunshine, and in the spring of 1907 I contracted a severe cold. I had never been sick in my life before, and paid no attention to the cold, and almost before I realized it I was down with an attack of pleurisy and as the pains of this trouble began to leave me those of rheumatism set in, and my sufferings were something terrible. Help was sent for, but it did me no good, nor did the medicine given me have any effect, and for five months I was confined to the house. Then one day I had an unexpected visit from my brother, who came from Australia, and whom I had not seen for nine years. When he saw my condition he at once urged me to get Dr. Williams' Pink Pills, as he knew of a number of cases in which they had made marvellous cures in Australia. The result was he went to town and purchased six boxes, and before I had used the last box I was out working with my oxen and am now as healthy as any man in the province. For this I must thank the Pills and my brother's advice, and I strongly recommend the Pills to other rheumatic sufferers."

Sold by all medicine dealers or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Nervous Passenger (during fog)—"But surely you're not leaving the bridge are you, officer?"  
Officer (who has just been relieved)—"Oh, yes. It's no good stopping up there, you can't see anything."—Punch.

Satin, in black and navy blue, is worn more than ever.

PHONE B74

FRIDAY, NOVEMBER 11, 1910

The good-roads movement has now spread over the entire continent, excepting the Boundary district. The agitation would not be out of place here. There is no greater asset to a community than good roads. The sightseer and the motorist take pleasure in using them; and the rancher and orchardist need them, and is entitled to them, because he pays the tax collector for them. Although the provincial government has been quite liberal in making grants for road improvements in this district during the past two or three years, a great deal of this money has been as good as wasted, because it has necessarily been spent on work that has to be done over again after every spring freshet. It is now time to start in to build permanent roads in this valley. But to do this here, where the soil is light and sandy, a rock foundation is required. This cannot be obtained without a rock crusher. Therefore it is quite plain that the best thing the department of works can do is to send us a crusher. We will supply the rock ourselves. We have enough of it in the surrounding mountains to macadamize every road in the valley. To emphasize the urgent need of the crusher, it is only necessary to state that without it, owing to the light nature of the soil here, good roads will continue to be an impossibility, no matter how much money the government expended on them; but with this machine a stretch of permanent road could be built each year, and in a few years the entire valley would good roads, and the appropriations could be cut down. Both the government and the people would gain in the end.

Up till last Tuesday the saying that bad weather and democratic victory were inseparable was regarded as an axiom by the republicans, but the result of the elections in the states has taken this pet conceit from them. The sun shone refulgently all over the land. And yet the democrats won. The weather was not to blame. The blame for republican defeat must be shouldered by bad tariff legislation, which gave birth to the republican insurgent.

One hundred and thirty thousand women were added to the voting strength of the state of Washington by the adoption of an amendment for equal suffrage to the constitution at the election on Tuesday. In time, some of these new electors may discard the hobble skirt and run for office.

A number of cities in the state of Washington, at the election on Tuesday last, decided to abolish the saloon.

Lost—Light bay mare and bay colt; mare has wall eye and three white feet; brand 'U' on thigh. Reward offered to any one returning the same to P. Andrews, Grand Forks, B. C.

Eugene Herrick and Donald McCallum returned Monday last from the Canadian National Apple show in Vancouver. The state that the

exhibition was a complete success. Mr. Lawson, he says, lost the first prize in the mixed car lot display on account of defective packing, and the district exhibit of the Grand Forks board of trade, which was awarded second prize, only missed securing first prize by one or two points.

The usual services, morning and evening, will be held in the Presbyterian church on Sunday, the 13th inst., conducted by the pastor.

**A MONEY-BACK HAIR GROWER AND DANDRUFF CURE**

Read what Mrs. H. Lawrence, 158 W. 17th Street, Holland, Mich., writes about the marvelous results obtained from the use of Parisian Sage, the delightful hair tonic, which is now on sale all over Canada.

"For several months my hair had been falling out, and dandruff also appeared. I used some so-called hair tonics and renewers, but never received any relief from the scalp disease until I procured Parisian Sage, and used it for about two weeks. Parisian Sage made the hair stop falling out, and caused it to grow in quite heavily, stopped the dandruff, and made the scalp cool, clean and comfortable. It also leaves the hair silky, and does not make it stiff or sticky. I endorse the use of Parisian Sage. It is all right."—October 30, 1908.

Woodland & Co. are the agents for Parisian Sage in Grand Forks, and they think so well of it that they guarantee it to cure dandruff, stop falling or spilling hair or itching of scalp in two weeks, or money back. It will make any woman's hair soft and luxuriant in a few days. Price 50 cents a large bottle at Woodland & Co.'s, or direct, all charges prepaid, from the Canadian makers, the Giroux Mfg. Co., Fort Erie, Ont.

**BAPTIST CHURCH, Rev. H. W. Wright, pastor**—Services on Sunday at 11 a.m. and 7:30 p.m.; Bible class and Sunday school at 2:30 p.m.

**WEAK KIDNEYS MAKE WEAK BODIES**

Kidney Disease Causes Half the Common Aches and Ills of Grand Forks People

As one weak link weakens a chain so weak kidneys weaken the whole body and hasten the final breaking down.

Overwork, strains, colics and other causes injure the kidneys, and when their activity is lessened the whole body suffers from the excess of uric poison circulated in the blood.

Aches and pains and languor and urinary ills come, and there is an ever-increasing tendency towards diabetes and fatal Bright's disease. There is no real help for the sufferer except kidney help.

Booth's Kidney Pills act directly on the kidneys and cure every kidney ill.

Mrs. Jane Febery, of 569 Pacific ave., Winnipeg, Man., says:

"After suffering dreadfully with rheumatism in my right hip and terrible pains across my back for years, I am more than pleased to say that Booth's Kidney Pills have cured me. The rheumatic pains in my hip were so severe that I could not lie on my right hip at all and could hardly move in bed. My back was so weak and painful that after stooping over I could not straighten up for some moments, and when I would attempt to do so, I could scarcely bear the pains that would shoot all through me. I had tried all kinds of remedies for this trouble, without finding relief. Booth's Kidney Pills have done their work well in my case, and I shall always have a good word of praise for them." For sale in Grand Forks by H. E. Woodland & Co.

Sold by dealers. Price 50 cents. The R. T. Booth Co., Ltd., Fort Erie, Ont., Sole Canadian Agents.

**A Wife's Message**

She Cured Her Husband of Drinking

Write Her Today and She Will Tell You How You Can Do the Same

For over twenty years her husband was a hard drinker. He had tried in every way to stop but could not do so, but nine years ago she stopped his drinking entirely by using a simple remedy which any one can give secretly. Hundreds have freed their homes from drink by following her advice. The method is easy and sure. If you have a dear one who drinks we earnestly advise you to write to her at once. She makes no charge for her help, (she asks for no money and accepts none) she only asks that you are personally interested in saving one who drinks.

Send your letter with confidence to her home. Here is her address—

Mrs. Margaret Anderson, 12 Home Avenue, Hillburn, New York.

Now: (Write your full name and address plainly—do not delay.)

**A Flavor of Deceit**

Banker Bunker (at the game)—Dar's some cheatin' gwine on in dis hyar game.

Jaxon Johnsing—How yo' gwine ter prove dat?

"How? Dem lozengers chips ob mine am all peppahmint, an' I jess smelt sassafraz. Dat's how!"

**MOTHERS SHOULD WATCH CLOSELY**

DISEASED KIDNEYS THE CAUSE OF BED-WETTING.

Wellesley Young Man Permanently Cured by Dodd's Kidney Pills, Gives the Public the Benefit of His Experience.

Wellesley, Ont. (Special).—That all diseases of the bladder from bed-wetting to Gravel are the direct results of Kidney Disease, has been proved again and again by Dodd's Kidney Pills. They cure the Kidneys and the Bladder diseases speedily disappear. One of the latest proofs comes in the experience of Mr. George Strehel, the well-known harness-maker of this place.

"I was troubled with bed-wetting for many years," Mr. Strehel says. "The doctor could not give me relief and no one knows how I suffered. I tried many medicines, till in January, 1905, reading the experiences of others led me to use Dodd's Kidney Pills. Nine boxes cured me so completely that I have never been troubled since."

Mothers should learn that when their children are addicted to bed-wetting it is time to look to the cause. The Kidneys are the cause. Cure the Kidneys by using Dodd's Kidney Pills, and not only stop the bed-wetting, but ward off serious and dangerous diseases in after life.

Vegetables contain a good deal of alcohol, and it is said that they can exert an intoxicating influence upon those who depend upon them exclusively for food.

Why let that headache spoil your day's work or pleasure? Take

**NA-DRU-CO HEADACHE WAFERS**

25c. a Box at your druggist's.

Guaranteed to contain no morphine, opium or other poisonous drugs, by the 30 National Drug and Chemical Company of Canada, Limited, Montreal.

**Not Responsible**

Nurse—What's that dirty mark on your leg, Master Frank?

Frank—Harold kicked me.

Nurse—Well, go at once and wash it off.

Frank—Why? It wasn't me what did it!—Punch.

**THE BEST MEDICINE FOR LITTLE ONES**

The best medicine in the world for little ones is the medicine that will promptly cure all their little ills and at the same time can be given the very youngest baby with absolute safety. Such a medicine is Baby's Own Tablets. They never fail to cure the ills of childhood and the mother has the guarantee of a government analyst that they do not contain one particle of injurious drug. Concerning them Mrs. John Robertson, Streetsville, Ont., writes: "I have used Baby's Own Tablets for constipation with the very best results. They are indeed a valuable medicine for little ones." The Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

**Ugliness Comes Out**

"He makes me so angry," complained Miss Prettyman. "He's forever telling me that beauty is only skin deep."

"And when you get angry," replied Miss Chellus, "it just shows him how thin-skinned you are."—Catholic Standard and Times.

**I OWE MY LIFE TO GIN PILLS.**

If you want to see a happy woman, just call on Mrs. Mollie Dixon, 59 Hoskin ave., West Toronto.

"After ten years of suffering from Kidney Disease, I believe I owe my life to Gin Pills. Before I began using Gin Pills my back ached so much that I could not put on my shoes, but after taking three boxes of Gin Pills these troubles are all gone. It is a pleasure for me to add one more testimonial to the grand reputation of "Gin Pills."

Mrs. M. Dixon.

50c. a box, 6 boxes for \$2.50, at all dealers. Sample free if you write National Drug & Chemical Co. (Dept. N.U.), Toronto, Ont.

**The Picture Hat**

The girl with the picture hat Is natty, and trim, and neat, In her suit of blue, She is fair to view, As she trips a-down the street, I watch her as she goes by, And my heart goes pit-a-pat, No girl I see So pleases me As the girl with the picture hat.

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address: F. J. Cheney & Co., Toledo, Ohio. Sold by Druggists, 75c. Take Hall's Family Pills for constipation.

**A Severe Test**

Little Tom and Jack were brothers. Tom being the older. One evening, as their mother was getting ready to go out, she heard a great deal of screaming in the next room. So she went to find out the cause and asked Tom why Jack was screaming.

"Oh mother! He was crying because I tried to see how big his mouth could stretch with your glove-stretcher."—The Delineator.

**Pensions for Cats and Horses**

Old-age pensions are spreading. But who would have thought of St. Francis of Assisi as contributing to so modern a movement? Nevertheless, the kindly saint who preached to fishes and birds is still a factor to be reckoned with. As witness the case of the maiden lady who died in London recently and made provision in her will for pensions for her cats and horses. Her orders to her trustees were to the effect that they are to pay £40 a year for the care of each of her cats. They are also to see that each animal is properly looked after and treated with kindness. Her horses also are to be provided for, not allowed to do harder work than they have been accustomed to, or are to be mercifully destroyed. All these unusual bequests are explained by the further orders of the will to the effect that the kindly provider is to be buried in the full habit of the Order of St. Francis of Assisi, to which she belonged.—Dundee Advertiser.

Countless have been the cures worked by Holloway's Corn Cure. It has a power of its own not found in other preparations.

**Pat's Retort to Tommy Atkins**

Not long ago a warship of the Atlantic squadron called for a few hours at a military post on the coast of Ireland. Tommy Atkins, meeting a full-bearded sailor in the street, said: "Pat, when are you going to place your whiskers on the reserve list?" But Pat was ready for him, as Pat always is.

"When you place your tongue on the civil list," was the retort.

**A Pill for All Seasons.**—Winter and summer, in any latitude, whether in torrid zone or Arctic temperature, Parmelee's Vegetable Pills can be depended upon to do their work. The dyspeptic will find them a friend always, and should carry them with him everywhere. They are made to withstand any climate and are warranted to keep their freshness and strength. They do not grow stale, a quality not possessed in many pills now on the market.

John Smith had worked for the corporation for forty odd years, and decided to retire. The company, in consideration of his long and faithful service, arranged to give him a monetary recognition. The superintendent of the works, a German and an extra good mechanic, was asked to present it. He was advised to use a little sentiment in making the presentation speech, and this is the way he did it: "John you haff work for the company over forty years?"

"Yes."

"You are going to retire?"

"Yes."

"Well, they are so glad of it that they asked me to hand you this £20."

A druggist can obtain an imitation of MINARD'S LINIMENT from a Toronto house at a very low price, and have it labelled his own product. This greasy imitation is the poorest one we have yet seen of the many that every Tom, Dick and Harry has tried to introduce.

As for MINARD'S and you will get it.

A Yankee while visiting friends once tucked his napkin into his collar to protect his clothing at his breakfast. He laughed as he did it, and said it reminded him of a man he once knew who rushed into a restaurant, and, seating himself at the table, proceeded to tuck his napkin under his chin. He then called a waiter and said, "Can I get lunch here?"

"Yes," responded the waiter in a dignified manner, "but not a shampoo."

**Minard's Liniment Cures Distemper.**

"We keep our own cow," explained the hostess proudly. "So we're sure of our milk." "Well," interrupted the small son of the guest, setting down his cup, "somebody's had you with a sour cow."

**Shiloh's Cure**

quickly stops coughs, cures colds, heals the throat and lungs. 25 cents.

**A Rarity**

Bliss Carman told at a dinner in New York a story about James Russell Lowell and a bad boy.

"A Boston woman," said Mr. Carman, "asked Lowell to write in her autograph album, and the poet, complying wrote the line: "What is so rare as a day in June?" "Calling at this woman's house a few days later, Lowell idly turned the pages of the album until he came to his own autograph. Beneath it was written in a childish scrawl: "A Chinaman with whiskers."

Some of the Indians of South America are powerful swimmers, and use the stroke popularly known as the "Australian crawl," which, however, they discovered for themselves.

It doesn't make any difference which side of the street you take, you will find that your children also prefer that side.

**Ten Sound Reasons Why You Should Buy NA-DRU-CO**

(Pronounced NA-DROO-KO)

Medicinal and Toilet Preparations

Because They are

1. Guaranteed by the largest Wholesale Drug Firm in America—the National Drug and Chemical Company of Canada, Limited.
2. Made of Purest Ingredients every ounce of which has passed rigid tests for strength and purity.
3. Compounded by Expert Chemists legally qualified to dispense prescriptions.

## RETAIN WATER POWER

### ASK PROVINCIAL GOVERNMENT TO APPOINT COMMISSION

**Red Deer Council Makes First Move to Endorse Plan for Establishment of a Hydro-Electric System by the Provincial Government—Other Alberta Municipalities are Expected to Fall in Line.**

Edmonton.—Red Deer is the first municipality to fall in line in connection with the Provincial hydro-electric scheme. The city commissioners here received a copy of a resolution passed at a recent meeting of the town council at Red Deer, which is in effect the same as that passed by the local council recently.

The resolution is as follows: "Whereas, as it is deemed that conservation of the water power of the streams of the province and development of the same by the government for the benefit of the people as a whole, is a matter of vital importance to our future development;

"Be it resolved, that this council request the government of the province to appoint a commission to investigate the water power resources of Alberta with a view to the establishment of a hydro-electric system by the province; and,

"Be it further resolved, that the council petition the executive council of the union of Alberta municipalities to urge this matter upon the government in the interests of the various municipalities therein.

It is understood that several other municipalities have the matter under consideration and resolutions of the same nature are expected to be passed by each of them, with the idea of co-operation in bringing the question before the government, urging upon them the necessity of conserving the natural resources of the province for the public, and preventing them from falling into the hands of private capitalists.

### Y. W. C. A.'S RAPID GROWTH

#### Great Increase Reported in Every Department of the Work

Ottawa.—The seventh triennial convention of the Y. W. C. A. opened here recently with a large attendance of delegates from all parts of Canada. Mrs. Robert Kilgour presided at the opening sitting, and those in attendance included Her Excellency Countess Grey, Miss Little, B.A., general secretary, presented her report, which covered a period of three years.

The work now stretches from the Atlantic to the Pacific, and bands together over 11,000 young women. In this great chain of transcontinental associations new links have been formed since the convention of 1907, held in Montreal. At that time there were no associations between Winnipeg and Vancouver. Search was made in vain for accommodation by girls in the West.

The Dominion council began a system of organizing that overcame much of this difficulty, with the result that associations were formed in Brandon, Moose Jaw, Calgary and Edmonton. Winnipeg has been a most successful branch, and has increased threefold. Halifax and Quebec and Vancouver have enlarged their belongings, and Toronto has now four branches.

The number of branches has increased 45 per cent, and the membership 25 per cent, and the amount given to foreign work 80 per cent. Receipts totalled \$31,312. There is a balance on hand of \$1,492.

### HE BLEW UP THE MAINE

#### Spaniard Named Zavaldo Said by Army Officer to Have Caused Explosion

Kansas City.—The Maine was anchored over a submarine mine," he said. "A fanatic Spaniard simply turned on the switch and caused the explosion. Jose Zavaldo, a Spanish electrician, working in Monro castle, was responsible for the destruction of the battleship Maine," was the statement made recently by Colonel J. E. Brady.

Colonel Brady says he was one of the committee of four who investigated the explosion, and reported to President McKinley.

"Three other army officers, whose names I do not care to give, and myself, reported to the president that in our belief Zavaldo was responsible. He was later executed upon the command of General Blanco. No one, however, was ever able to learn for what reason."

### ARE EASILY FRIGHTENED

#### The Dutch Loan Co. Heard That Western Lands Were Too High and Refused to Loan Money

Ottawa, Ont.—W. T. R. Preston has sent a cable to the trade and commerce department with further reference to the Netherlands Loan company, which intended to loan money on western lands, but decided not to do so on the strength of an unfavorable report sent out from Montreal, and which was to the effect that Western lands are held at fictitious values.

Mr. Preston says he has endeavored to dissuade the company from putting any credence in the report, but so far without avail.

### Spain is Calm and Placid

Madrid.—Rumors of a revolution in Spain, particularly in Barcelona, are without foundation. Calm is reported throughout the country.

## BRANDON ASYLUM DESTROYED

### Had Between Six and Seven Hundred Inmates and All Are Believed to Have Been Got Out Safely

Brandon, Man.—In the midst of the first snow storm of the season a fire broke out in the Brandon asylum for the insane, and totally destroyed it within three hours.

The authorities believe that all the patients are accounted for, they having been removed under guard to out-buildings and the surrounding country patrolled. But it may well be that wearing no distinctive dress, some of the patients may have slipped away in the darkness and falling snow.

Prompt measures were taken to remove the inmates to barns and out-buildings, where they were guarded, as many of the patients were violent.

The asylum authorities state that, as far as can be obtained, none of the inmates are missing or seriously injured. The man building was erected in 1889, under the regime of Hon. Thos. Greenway, as a reformatory, but was later converted into an asylum, wings being added in 1903 and 1905.

The authorities state they do not know the cause of the fire, and rumor ascribes it variously to a guard smoking, to a patient who secured some matches, and to crossed wires of the lighting plant.

There were between six and seven hundred patients confined in the asylum, many of them from Alberta and Saskatchewan, as the new provinces, not having been able to provide suitable accommodation in their own provinces, have sent many of their lunatics to the Manitoba institution.

### FAVOR UNION OF THE EMPIRE

#### States from Different Parts of the Empire Unite in Loyal Expressions

Capetown.—At a government banquet, Dr. Jamieson said if the solution suggested for the impasse with Great Britain is successful, they might anticipate the first step towards the union of the empire. He eulogized Hon. Mr. Lemieux's settlement of the Asiatic difficulty in Canada.

The Australian premier, Mr. Fisher, said nothing had occurred in the world's history in recent times which would have greater effect than the union of South Africa. They now had five nations willing to co-operate in common affairs, united by unseen bonds to see justice done to all people.

Hon. Mr. Lemieux aroused enthusiasm by his eloquent speech. England, he said, great and generous, knowing a brave foe, makes staunch friends by granting equality, freedom and self-government to the two races. Canada has been welded into one by good will and mutual forbearance. Obstacles can be as successfully overcome in South Africa which is bound to play a brilliant part in the history of the greatest empire the world has ever seen.

What is contemplated at the colonial office, he said, is a permanent secretariate for the Dominions, whose official spokesman in the house of commons will be the premier. This expansion will, however, not occur for some time.

### TELEPHONE SYSTEM EXTENSION

#### Practically Every Town in Alberta Has Long Distance Connection

Edmonton.—Business men in Wainwright are now in a position to speak with business men in Medicine Hat over the government long distance lines.

By completion of the summer's programme of work by the government telephone department, the government lines which connect these two extreme points in the province have been extended and the connection is now complete.

The circuit is made from Wainwright to Medicine Hat via Edmonton, Calgary and Lethbridge. Furthermore, on the completion of the department's programme practically every town and city on a line of railway in the province, save the lines west of Edmonton, have long distance connection.

Extensions have been completed to the Wetaskiwin branch of the C. P. R. and the Stettler branch of the C. P. R. almost to the eastern boundary of the province.

### DECLARES LOYALTY OF CANADA

#### British Empire No Longer a Dream But an Acknowledged Fact

London.—Sir Henry Pellatt was the guest of the evening at the first dinner of the society of Knights Bachelor. He guaranteed 500 pounds sterling yearly to enable the society to acquire Clifford's Inn as a home. Sir Henry Pellatt, responding to the toast to his health, assured the gathering of the deep and abiding loyalty of the Canadian people. They were looking for opportunities of closer union, believing that Canada and Britain should co-operate in every way in peace, war, commerce and defence. He was glad to say the Little England party was diminishing rapidly. The British empire was no longer a dream but the acknowledged platform of all British statesmen.

### Annual Alberta Fair

Edmonton, Alta.—The annual provincial seed fair will be held at Lacombe this winter on February 8, 9 and 10. Last winter the fair was held in Edmonton. The annual meeting of the provincial Dairy association will be held at Red Deer, probably in December.

## WOULD END WARFARE

### LABOR CONGRESS RESOLUTIONS PRESENTED TO PREMIER

**Advocate the Establishment of an International Peace Conference to End Warfare—Present Many Petitions for Amelioration of Conditions of the Working Class—Premier will Consider Resolutions.**

Ottawa, Ont.—Sir Wilfrid Laurier and Hon. Mackenzie King, minister of labor were called upon by officers of the Dominion trades and labor congress and leaders of various international unions of Canada.

The object of the deputation was to present resolutions adopted at the annual congress at Fort William. The deputation was headed by William Glockling of Toronto, president of the congress, and included A. Verville, M. P. P.; J. G. O'Donohue and P. M. Draper, secretary.

The resolutions of the congress which were presented to the premier will be taken into his consideration. The most important were as follows: "That the trades and labor congress is opposed to the enactment of a compulsory arbitration law.

"That steps should be taken to arrange for an international peace conference at which an attempt should be made to establish a universal policy of opposition to international warfare.

"That it is the unanimous desire of the working classes of Canada that there should be federal legislation regarding co-operation in order to save them from the clutches of capital.

"That Provincial autonomy should be conserved.

"That the age of children eligible for employment should be raised to sixteen years.

"That there should be legislation making compulsory the weekly payment of wages in cash, and in cases where employees are discharged or where the employee leaves the service of his employer, all wages due must be paid within twenty-four hours, the employer being held responsible for expenses consequent upon his failure to comply with the law properly."

### THOMAS TAIT ADVISES VICTORIA

#### Urges This Colony to Advertise Its Resources to the Rest of the World

Melbourne.—Thomas Tait, who is retiring from the position of manager of state railways in Victoria, in order to return to Canada, made an important speech at a demonstration in his honor. He urged upon his hearers the necessity of advertising the resources of Victoria abroad. He was able to draw upon his experience in Canada and quote examples of how progress had been quickened by advertising.

Regret has been expressed generally at the resignation of Mr. Tait. The magnificent prosperity of the Victoria government railways at present is considered to be largely due to his administrative ability. It is understood that he does not propose to re-enter the railway world but will devote his attention to his private affairs in Canada. It is now known that he made a confidential statement to the premier last June of his intention to resign. The public announcement would have been made had not the Richmond railway accident and inquiries arising therefrom precluded Tait from making any statement of the kind. He was bound to wait until some decision had been reached by the government as to the apportionment of the responsibility for that disaster.

### PARLIAMENT FOR CHINA

#### Prince Announces That Government is Considering Necessity of Establishing One

Pekin.—It is believed the throne has decided to accede to the demand of the senate and the provincial delegates for the early convocation of a provincial parliament.

In the senate, and in the presence of leading grand councillors, Prince Yu Liang, a member of the grand council, stated that the entire nation, from the highest to the lowest, was agreed upon the necessity of the early establishment of a general parliament.

The senators, who understood this to mean that their memorial would be granted, received the declaration of the prince with loud and prolonged cheering.

The importance of this concession on the part of the government can be scarcely over-estimated in view of its recent refusal to entertain a similar request made by a delegation from the provincial assemblies last June.

### A MYSTERIOUS FIND

#### Skeleton of a Man, Horse and Cow Found at Bottom of Cut Bank Near Lethbridge

Lethbridge.—A man out shooting around the coulees in the vicinity of Lethbridge found the skeleton of a man and also a horse and a cow at the bottom of a cut bank. It is supposed to be a rider, who fell over the bank while pursuing the cow, but the police have heard of no one being missing and have no idea who it can be. The scene of the accident is only six miles from the city.

The tragedy is supposed to have taken place within the last few months.

### Portuguese Expel All Jesuits

Lisbon.—A party of fifty Jesuits, the last of the members of the religious orders, have been expelled. They sailed for Holland.

### FAVORS NEW TARGET

#### Major General MacKenzie Has Few Words About the General Conditions

Ottawa, Ont.—A tall man with an iron grey moustache, rather bald and whose face shows the effect of many years' hard campaigning in Africa and Egypt by its deep-seated tan. This is Major-General Colin MacKenzie, C.D., who recently arrived in Ottawa to succeed General Sir Percy Lake as inspector-general of the Canadian militia.

"I suppose there will be considerable progress following General Sir John French's report," he said, in answer to a question.

"Will there be any radical changes?" "I don't suppose there will. I think the report is merely a criticism of minor details, such as is made when the imperial forces are inspected. Suggestions are contained in it as to where improvements can be made in the drilling; modifications are suggested, etc. I am not aware that there was a strong adverse criticism."

"Of course, you must understand I am here only in an advisory capacity, to give the military council the benefit of my experience, which has been somewhat wide and varied. I have nothing to do with making any changes. The Canadian people themselves must do that."

Major-General Mackenzie is a strong advocate of the figure target shooting for rifle practice as against the bull's-eye shooting; which still is the principal method in Canada.

"It has almost disappeared in England," he said, "and in Europe has been quite done away with. Of course, bull's-eye shooting is a very enjoyable sport, and perhaps a little more interesting than figure shooting, but the latter is accepted by best military authorities all over the world as the only satisfactory method of military rifle practice."

### CANADA HELPLESS IF ATTACKED

#### Sir George Doughty Warns Britain That it is Time to Protect The Dominion

London.—Sir George Doughty, who was defeated in the Grimsby constituency at the last election, has been giving his views on imperial federation since his return from Canada. He says:

"I am keenly in favor of a federal parliament which may deal with all questions of imperial interest. Imperial defence is a question which is being much discussed in Canada. The more it is discussed by influential Canadians the more do they realize that the time has arrived when there should be an attempt at establishing a union of the British states. Canada is already a nation and if, through any misfortune or lack of appreciation on our part of her position, she should become separated from the mother state, there would be grave danger for both of us. National jealousy as well as national ambition would cast lingering eyes on that great province, British Columbia, and it would be impossible for Canada to withstand any nation, say Japan, seeking an opportunity of extending her area, or prevent the annexation by such power of that great Dominion. From the standpoint of security of their great national asset it is essential that behind the Canadian Government and its provinces there should be the silent, forceful power of the British navy and British prestige."

### FAST STEAMERS FOR C. P. R.

#### Will Furnish Direct Service Between Nova Scotia and U. S. Atlantic Ports

Montreal.—It was officially announced that the Canadian Pacific Railway company has decided to build four new steamers for a fast direct steamship service between Nova Scotia ports and Boston and New York. These vessels will be larger, faster and stronger than any at present engaged in the North Atlantic coast steamship traffic.

This is one of the important developments that will follow the absorption of the Dominion Atlantic into the system in the spring.

The new vessels will be of the type of ocean liners, about four hundred and fifty feet in length, with a carrying capacity of five thousand tons and able to make over twenty knots an hour.

### LABOR COUNCIL HONORS WOMAN

#### Mrs. Gardiner Representing Waitresses Given Position on Executive of Vancouver Organization

Vancouver, B. C.—The first woman to get a position on the executive of the Vancouver trades and labor council was elected recently in the person of Mrs. Gardiner, a delegate from the Waitresses' Union who was unanimously given the position on the council for the last six months, and has shown such keen interest and power of organization that it was felt she should be given a place on the executive.

### Veterans to Meet in Winnipeg Nov. 25

Winnipeg.—At a meeting of the executive of the imperial veterans' brigade of western Canada it was resolved that a convention should be held in Winnipeg, Nov. 25. All organized companies are entitled to send a delegate for each 30 men on the roll, but at least two-thirds of the strength must be present to elect the delegate. If no delegate is available, a proxy may be substituted and mailed at the earliest possible moment to the hon. secretary at Winnipeg.

## THE SUNDAY SCHOOL

### LESSON VII.—FOURTH QUARTER, FOR NOV. 13, 1910.

**Text of the Lesson, Matt. xxiv, 32-51. Memory Verse, 44—Golden Text, Matt. xxvi, 41—Commentary Prepared by Rev. D. M. Stearns.**

The greater part of this great discourse is recorded by both Mark and Luke as well as by Matthew. As they left the temple one day His disciples called His attention to the great buildings with the goodly stones and gifts, and they were evidently greatly surprised by His remark that all would be thrown down and not one stone left upon another. Four of them came to Him privately as He sat upon the Mount of Olives and asked Him a question which was really threefold, though they probably thought it one. The destruction of the temple. His coming again and the end of the age were two, if not three, distinct events. In His discourse he covered the reply to all. The whole age until He shall come again will be characterized by wars, famines, pestilences and earthquakes, with increasing wickedness until it shall be as it was in the days of Noah.

In Luke xxi, 24, He very plainly referred to the approaching destruction of Jerusalem and covered this present age by the words, "Jerusalem shall be trodden down of the gentiles until the times of the gentiles be fulfilled." With this verse we should associate Rom. xi, 25, 26. Many of the circumstances connected with the destruction of Jerusalem were foreshadowings of those at the end of the age, and the warnings are therefore similar.

Verses 27-31 of our lesson chapter speak plainly of His coming in power and glory immediately after the great tribulation at the end of this age. The destruction of Jerusalem was in no sense His coming, for it is written in Psalm cii, 16, that when He shall appear in His glory He will build up Zion, not destroy it. He is coming again to restore all things of which the prophets have spoken (Acts iii, 21).

The events in the east today are most startling if considered in the light of verses 32-35 of our lesson and compel us to believe that the kingdom of God is again at hand after the long interval of its postponement during this age. The zeal and aim of Zionism, the new regime in Turkey, her favor to the Jews, a large part of the land given to Abraham (Mesopotamia) being now offered to them, and the unrest among the nations generally, all point to the approaching end of the age and the coming of the kingdom. How marvellously has the generation or race or nation of Israel been preserved for the fulfillment of all things (verse 34), and soon now shall they be recognized as a nation, perhaps under the suzerainty of Turkey, with Jerusalem as their capital. That will, however, mean for them the beginning of their great trouble (Jer. xxx, 7) ere Jerusalem shall become the throne of the Lord at His coming in glory to set up His kingdom. That Israel is God's fig tree as well as His vine, see Joel i, 7, and note the events of Joel iii in their order. The utter ungodliness of the days of Noah cannot be fully manifest until after the church is taken, but the manifestations already on every hand in church and state are most unmistakable. The war craze of nations, the unrighteousness of government in cities and states, the infidelity in the seminaries and in the pulpits, the disregard of God and His word everywhere, should compel us to cry, "Come, Lord Jesus." At the coming of Christ to the air for His saints the true church shall be taken, all others left, but at the coming to the earth with His saints at the end of the age the tares shall first be gathered in bundles for the burning. "Ready" is the great word for us all, as we saw in a recent lesson. No unsaved person, whether moral or immoral, sober or drunken, drunk according to Isa. xxviii, 7, or xxix, 9, is ready except for the burning, the weeping and gnashing of teeth (verse 51; xxv, 41). The readiness necessary has been provided in Jesus Christ by His saints the true church shall be His great atonement. His pure life, His death in our stead, suffering for our sins, His resurrection from the dead, and any who will not plead guilty and accept Him and His righteousness must perish and be separated from Him.

If we are redeemed and thus ready to meet Him we must never cease to watch and pray, lest the world, the flesh or the devil cause our light to fail or even to flicker, and we thus dishonor Him. "Faithful and wise" is the only motto that will enable us to be approved of Him (45). We must beware of saving or even of thinking, "My Lord delayeth His coming" (48), lest we be found careless and conformed in some measure to this present evil age. The oil of the next chapter must so shine that men may see our good works and glorify our Father which is in heaven (Matt. v, 16). The only proper attitude of a child of God is "waiting for His Son from heaven," "looking for that blessed hope" (1 Thess. i, 10; Titus ii, 13), and while thus expectantly waiting, aiming in all things to serve the living and true God. Ever ready to do whatever our Lord and King shall appoint (II Sam. xv, 15). "Ready to every good work" (Tit. iii, 1). "Ready always to give an answer to every man that asketh you a reason of the hope that is in you with meekness and fear."

Spain yielded 63,299,808 gallons of olive oil last year.

## The Tenderfoot Farmer

It was one of these experimental farmers, who put green spectacles on his cow and fed her shavings. His theory was that it didn't matter what the cow ate so long as she was fed. The questions of digestion and nourishment had not entered into his calculations.

It's only a "tenderfoot" farmer that would try such an experiment with a cow. But many a farmer feeds himself regardless of digestion and nutrition. He might almost as well eat shavings for all the good he gets out of his food. The result is that the stomach grows "weak" the action of the organs of digestion and nutrition are impaired and the man suffers the miseries of dyspepsia and the agonies of nervousness.

**To strengthen the stomach, restore the activity of the organs of digestion and nutrition and brace up the nerves, use Dr. Pierce's Golden Medical Discovery. It is an unfailing remedy, and has the confidence of physicians as well as the praise of thousands healed by its use.**

In the strictest sense "Golden Medical Discovery" is a temperance medicine. It contains neither intoxicants nor narcotics, and is as free from alcohol as from opium, cocaine and other dangerous drugs. All ingredients printed on its outside wrapper.

Don't let a dealer delude you for his own profit. There is no medicine for stomach, liver and blood "just as good" as "Golden Medical Discovery."

### Pruning Fruit Trees

1. Prune heavily when the tree is young, so as to give it the framework desired.

2. Quit pruning when the tree gets older.

3. Cut off the fruit spurs from the main branches just as soon as they form.

5. Do all you can to discourage wood growth.

Do not be afraid of taking the fruit off the tree when you are summer pruning. Prune down until you have a reasonable amount of fruit left, and do not leave too many. Thin after you prune. The pruning is used largely as thinning.

You can advantageously prune the pear tree during the first summer. Select and cut to the "outer buds" on the branches, so as to throw the framework of the tree outward. Save twelve inches of clean, clear stem. Select a good, strong bud on the inside of the middle limb, and seek constantly to turn the growing branches outward, so as to make an open, strong top through which the sun's rays will penetrate and the air circulate freely.

At the third pruning commence to remove every indication of a fruit spur from the main stem. Keep them off entirely in a circle reaching over half the top of the tree. Prune very hard up to the fourth year and up to the beginning of the growth of the fifth year. From this time on you are to prune for fruit. Do nothing to accelerate a heavy wood growth after the four years of growth. We would change as quickly as the season changes, from one system of pruning to the other; that is, change from winter pruning for wood to summer pruning for fruit. We follow this system with pears in order to produce a hard wood which is resistant to pear blight.

After the change from winter to summer pruning, do just as little pruning during the winter months, cutting out all crossed and diseased branches, but leave most of the pruning for August. This is after the trees are four years old.

In the case of a four-year-old pear tree which has not had the severe cutting back as outlined above, and if it is a well grown tree, practice summer pruning at the first opportunity. If it is not well grown or properly formed, we would do a little winter pruning to get the branches in desired places. A healthy pear tree can be cut back severely.

In the case of cherry trees you will have a very strong wood growth, straight and upright, a one-year-old tree sometimes reaching five feet in height. Usually it has lots of good, strong buds all the way up. It may have a branch or two. If it is a straight switch, we cut it off 24 to 36 inches from the ground. We want the branches as far apart as possible on account of gumosis. If cherry branches are all together in a case of this kind the load will become too heavy. Cracking and splitting will ensue, and the tree will become subject to gumosis. As the limbs increase in size, they will crowd together, splitting and cracking.

Cut back the cherry tree as severely as you do the pear tree for the first four or five years. With cherry trees you do heavy pruning for wood when the leaves are off the tree, and the last pruning is done in spring. Injury may happen to your sweet cherries by freezing or thawing, in which case we let them stand until the bud starts in the spring. Then we prune. The essential points are:

1. Prune heavily while the cherry tree is young.

2. Get good, strong, active growth.

3. When the trees are three or four years old, change to summer pruning almost the same as you do with the pear.

4. Instead of pruning just before the crop is harvested, prune to correspond to the time just after it is harvested.

The Bing cherry, if given half a chance, will hold its leaves late in the fall, until the first heavy frosts. The cambium layer of wood is in this way killed. In the spring such a tree will start out just as usual, and will then die. Do not permit the tree to grow too late, but harden it up so it will lose its leaves early in the fall. Irrigating too late in the fall may produce this trouble.

In setting out peach orchards we prefer June buds, though the use of yearling trees is not discouraged entirely. Cut the June bud from 12 to 15 inches of the ground. Prune it severely. The yearling trees may be 12 to 15 inches, or even two feet. Cut them back severely. On rich soil a growth of three to five feet will take place the first season. Three to five branches are all that is necessary in the framework of a peach tree, though five to seven are used in other trees. Treat sour cherries the same way, using a little bit longer stem. The sour cherry will not get high anyway. Prune very much the same as you do for apples, leaving them a little longer than the apples. Frequently we leave these 18 to 24 inches in length. We pay very little attention to the small branches that appear. Just let them stay as they are. Suppose you are planting a one-year-old peach tree, and it has a lot of branches on

SEALED TENDERS addressed to the undersigned and endorsed "Tender for additions and alterations to the Public Building, Nanaimo, B.C." will be received at this office until 4.00 p.m., on Monday, November 28, 1910, for the work mentioned.

Plans, specification and form of contract can be seen and forms of tender obtained at this Department, on application to the Caretaker, Public Building, Nanaimo, B.C. and at the office of Mr. Wm. Henderson, Resident Architect, Victoria, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fails to complete the work contracted for. If the tender is not accepted the cheque will be returned. The Department does not bind itself to accept the lowest or any tender.

By order,  
R. C. DESROCHERS,  
Secretary.

Department of Public Works,  
Ottawa, October 27, 1910.  
Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

it. You may treat them in two ways: (1) Cut these close to the stem, not injuring the little bud on each side of the stem, of course; or (2) strip them off two inches in length. Either way will give satisfactory returns. Then get the branches headed back. Do not "shear" the tree. Prune it.—Prof. W. S. Thornber, in the November Fruit Magazine.

### Felling Trees With Wire

A method of felling trees with no other tools than a taut wire and a motor has been devised by a clever German inventor. The use of a wire heated by an electric current, to burn its way through the tree, we are reminded by Cosmos, has long been known. The Berlin inventor, Hugo Gautke, has simplified this process by causing the wire to become incandescent through the work it does itself.

This result is obtained in his system by the friction of a steel wire one twenty-fifth of an inch in diam-

eter, which, experience has shown, may traverse a trunk 20 inches thick in six minutes. The wire, which is given an excessively rapid to and fro motion by an electric motor, becomes heated by the friction to a temperature high enough to burn the wood and penetrate it rapidly. The result is a neater cut than that made with a saw. The wire severs the largest trunks without the necessity of opening the cut with wedges, and the tree may be cut at any desired place, even below the ground, so that no protruding stump is left. The electric current may be brought to the place from a distant station. Such a station may be established at the border of the forest; a gasoline motor of 10 horsepower and a dynamo are all that is needed. By this means, the huge trees that are met with in tropical forests, whose diameters often exceed ten feet, may be felled by a single executioner. The method has, in all cases, the immense advantage that it prevents the loss of wood that results from the use of the ax.
