THE CITY COUNCIL

Yale-Columbia Lumber Co. Refuses to Replace Bridge at First Street

Office of City Solicitor Declared Vacant After August 31st

The bi-weekly meeting of the city council was held in the council chamber Monday evening. Mayor Hammar, Ald. Hardy, Horner, McCallum, McIntosh, Miller and Woodland were present.

A communication was read from Secretary Robertson, of the Yale-Columbia Lumber company, stating that the company could not comply with the council's request to replace the First street bridge with a foot bridge, as the old structure had been condemned. The city solicitor stated that the fact that the bridge had been condemned did not release the company from liability. He was of the opinion that if a sufficient force of workmen had been employed the log jam could have been broken up before it carried out the bridge. Anyway, the company had no right to blow it out of the channel after it collapsed. In giving an off-hand decision. the only question in his mind was whether the city or the government should act in the premises. On motion, the matter was left in the hands of the city solicitor.

A communication was read from City Engineer Reid, who complained of being compelled to put in too much overtime, and stating his hours on duty were unreasonably long. Ald. Miller suggested transferring Chief Savage to night duty, so that he could run the pump during the early morning hours. Some of the aldermen did not think the police were doing iheir duty in preventing water consumers from wasting it. On motion, the council recommended to the police commissioners that the hours of the policemen on duty be changed so as to enable Chief Savage to run the pump in the morning. The mayor stated that the sprinkling bylaw would be strictly enforced hereafter.

The bill of City Engineer Reid for overtime was referred to the finance committee.

The mayor reported that Mrs. Wiseman had refused to accept the council's offer for a right of way, and had ordered the electric light poles removed from her property.

The chairman of the board of works reported that Mrs. Burgess had applied for a permit to erect a residence near the Catholic church. It appears that an old government road runs through her property, and some doubt was expressed as to her right to close the same without constructing another road around her lots. The matter was referred to the city solicitor.

The chairman of the finance committee recommended that Colin Campbell be engaged to do the city clerk's work during the latter's vacation. Recommendation approved.

The chairman of the water and light committee reported that the hose and other apparatus for the fire department had arrived. He recommended the installation of a street light at the corner of Victoria avenue and Fourth street. Approved.

The chairman of the board of works reported that the heat had contracted the timbers in the new bridge, and that the joints needed tightening. He stated that Mr. Verge would be in town in about a week with the necessary implements to do the work.

The mayor reported that the agreement for power for the ensuing three years had been forwarded to Mr. L. A. Campbell at Rossland.

The bill of R. McIntosh, for $50, for inspecting the Fourth street, was brought up. Ald. McCallum said he had previously recommended the payment of the same, and he thought the council should pay it now. Ald. Hardy and McIntosh objected. Ald. Woodland moved that the bill be laid over till the next meeting. Ald. Hardy and Horner amended this by moving that the bill be thrown out, and the amendment carried. The clerk was instructed to inform Mr. McIntosh of the action taken by the council.

Mr. Gallipeau asked the council to give Mr. Tennery, the new bandmaster, any spare employment it might have at its disposal, as he was a grst-class musician and they desired to keep him in the city. The heads of the various committees promised to do the best they could in this respect.

The chairman of the health and relief committee reported that the proprietor of the Geand Forks hotel had commenced to make the necessary improvements. The proprietor of Victoria had promised to commence on the following day. The Granby hotel had not yet started on the work. The mayor explained that only one-month permits had been granted these places.

Ald. McCallum was granted leave to introduce a bylaw providing for the destruction of obnoxious weeds within the city limits, and it passed its first and second readfngs and through the committee stage. It attaches a penalty, collectable in the same manner as taxes, for failure to destroy all obnoxious weeds within 48 hours after being notified to do so.

The question of raising the city solicitor's salary from $50 to $75 per month was next brought up, and it took an unexpected turn. Ald. Hardy moved, seconded by Ald. Miller, that the city solicitor's office be declared vacant after the 31st of August. A vote being taken on the motion, it was declared carried. Ald. Miller gave as his reason for seconding the motion, that he thought it would be better to have the office vacant while the amount of the salary was in dispute. After a brief discussion, in which the whole council participated, the mayor called for the correspondence in reference to the salaries of city solicitors in other cities. The clerk read the following results of his investigations: Vernon, $300 and fees per year; Kaslo, $400 per year; Revelstoke, no solicitor; Fernie, $50 per month; Rossland, $70 per month; Greenwood, $50 per month; Nelson, $1000 per year; Kamloops, $300 per year. City So-

(Continued on Page Three.)

SELENE GROUP

Four Claims on Hardy Mountain Containing Valuable Minerals

Professional Assayer Certifies to the Presence of Nickel

From the great mass of Hardy mountain there adjuts a conical-shaped hill, about half a mile from the western boundary of Grand Forks, and around its steep slopes now runs a branch of the Great Northern railway to the great copper mines at Phoenix. On this hill are situated four mineral claims—Selene, Columbia, Arsene and Bonita Vista—of which we make the old statement that they yet will have something to do with the future prosperity of the neighborhood. The reason for this belief may be briefly stated in certain discoveries that have been made the last year and a half.

The mountain appears to be seamed with zones of fracture, which trend from the northeast to the southwest. Along these zones are situated leads or ledges, one above the other, up the mountain side. Every lead dips at an angle of 45 degrees towards the west. The gangue is quartz and calcite, or crystalized lime. They are all, so far as examined, very metalliferous —mostly arsenical iron. They are auriferous, assaying $1 and upwards. Two of these are now being worked specially to obtain a water supply. Although situated 200 feet almost perpendicular above the railroad, they are very wet, showing that no doubt they have depth.

Should these ledges contain a valuable base metal, they have sufficient values in gold to be worked commercially at once, from their splendid shipping facilities. This has been tried for some time by making private tests, by the wet process, to obtain a test for nickel, which has been found in many porphory dykes, as well as the quartzite leads. Last May some of the samples supposed to carry this metal were sent to a professional assayer, who certifies that nickel is present. It is not necessary to point out the importance of this discovery, nickel being twice as valuable as copper, and where it is found it is generally in large quantities. But testing for this metal is troublesome and expensive, being almost ten times more expensive than testing for gold.

It may be inferred from what has been stated regarding the quartzite leads that they are very numerous. Some of them also appear to be very large—twenty feet or more in width.

There are many varieties of nickel minerals. All of them contain arsenic, most of them iron or sulphur, and some copper. The samples of white, hard cubical crystals, which were tested by the assayer, were taken from a large porphory dyke in the western part of the mountain. This dyke can be traced from the railroad for more than 400 yards. Work was done on it this spring. Porphory dykes traverse the mountain at regular distances. They have probably brought the valuable minerals, as most of them carry gold, and many of them are highly metalliferous. They vary in appearance. Some of them are smooth and fine grain, no doubt andesites, and other rough, trachytes.

Some other discoveries, which will be made public later, have been made on these claims.

STREET CORNER GOSSIP

City Clerk J. A. McCallum left last Wednesday on a month's vacation trip. He went from here to Calgary, but he intends to spend most of his time at the coast cities.

Walter Dewdney visited his brother, E. E. L. Dewdney, in Rossland this week. The latter has been teller in a Rossland bank for a number of years, and has been transferred to Armstrong. He was tendered a rousing farewell by the citizens of the Gold City.

The well known Meyerhoff ranch, west of Midway, has been sold to Nelson parties for $30 per acre.

Parents should take extra precautions to keep their children away from the Kettle Valley line tracks and trains. At present the youngsters swarm around the work train like bees, and some one is liable to get killed or maimed.

W. J. Brown, the orchard land dealer, returned yesterday from a month's visit to Winnipeg. He reports having had a pleasant trip, and says there is considerable enquiry in the east regarding British Columbia realty.

McNeill & Henniger, the flour and feed merchants, have purchased the premises which the occupy on Bridge street from Norman McLellan.

Alex McQueen, an old timer of Grand Forks, but now on the road for a cigar factory, was in the city on Wednesday. He has abandoned playing practical jokes.

When the new inspector of weeds is appointed, under the pending civic bylaw, there will probably be some difficulty in determining who shall have precedence, that official or the poundmaster.

John Noye, a miner, aged 42 and a native of Cornwall, England, was recently found dead not far from the Mother Lode mine, where he had wandered up from Greenwood and laid down to his last rest. Deceased had been subject to cramps, and a brother working at the Skylark mine, together with the coroner, did not think an inquest necessary.

Manager Thomas, of the Dominion Copper company, states that he has plans drawn for a two-stand converter plant to be installed at the company's smelter at Boundary Falls. The plant, it is reported, is to be installed in the course of a few months. The matte from the Dominion Copper company's smelter has heretofore been blown up to blister copper by the British Columbia Copper company at Greenwood.

P. H. Burnham, general agent of the Great Northern railway, made a business trip to Rossland this week.

L. A. Manly returned the latter part of last week from a business trip to Coleman and Spokane.

COKE SHORTAGE

Men Being Laid Off at the Phoenix Mines Owing to Lack of Fuel

All the Boundary Smelters More or Less Affected by the Shortage

The coke question is again a burning issue in the Bonndary, and it is reported from Phoenix that men are being laid off at the mines because a sufficient supply cannot be obtained to operate the full battery of furnaces at smelter in this city. Owing to the coke and car shortage, the Granby smelter has not been able to operate more than five or six of its eight furnaces for some time, and this condition is liable to continue indefinitely unless the railways come to a full realization of the seriousness of the situation.

At the British Columbia Copper company's smelter at Greenwood the coke question is also becoming acute, and the company is experiencing some difficulty in keeping its three large furnaces in continuous operation.

The Dominion Copper company's smelter at Boundary Falls appears to be able to operate as usual, and the full force of men is still kept employed at this company's mines.

Fuel Famine

The Toronto Globe, in an editorial on the prospect of a fuel famine in the west this coming winter, says in part: "It seems questionable if the fuel supply of the prairie provinces, important and difficult to procure, can safely be left to accidents or private speculation and enterprise. Adjustments of supply and demand cannot be arranged by magic. There will be shortages in various lines in spite of the best business calculations. But the fuel supply is of such special moment that the question of legislative interference or supervision is worthy of careful consideration by the local governments."

Relief Promised

D. C. Coleman, Kootenay-Boundary superintendent of the C. P. R., has again given assurancet that 100 steel ore dumps are now en route from the Montreal shops, to be used in the Boundary ore traffic. Mine managers are in hopes that this time the cars have actually been shipped, and will reach this country some time in the near future, and so tend to relieve the shortage which is so keenly felt by the shipping mines.

Mining Stock Quotations

NEW YORK, August 7.—The following are today's opening quotations for the stock mentioned:

	Asked.	*Bid*
Granby	125.00	115.00
Dominion Copper	5.62½	5.37½
B. C. Copper	8.75	9.62½

Metal Quotations

NEW YORK, Aug. 7.—Silver, 69⅝; lead, $5.25; electrolytic copper, 20½@21; casting copper, 19⅞.

LONDON, Aug. 7.—Lead, £19 2s 6d; silver, 31 1-6.

It would be quite appropriate to rechristen Third street to Railroad street.

FRIDAY, AUGUST 9, 1907

"The decision of jury in the Green-World libel suit throws no stigma on ex-Commissioner Green's name," say the Conservative papers. We had an idea that it did; but it is quite possible that we have forgotten the definition of "stigma," and will refrain from arguing the case. It is also quite possible that Mr. Greon's name is of such a character that if a stigma should be cast upou it no serious damage would be done.

During the month of June the public debt was reduced by $2,233,248, and interest upon this large sum has ceased. The policy of the Liberal party is to reduce the public debt and relieve the people of the payment of interest. The policy of the Conservatives, as announced in the house of commons by Hon. Mr. Foster, on November 29, 1906, is to add to the public debt and thus increase the burdens of the people.

Mr. McBride has returned o Canada satisfied that British ministers have refused to set the seal of finality upon the scale of provincial subsidies in the British North America Bill, says the London Canadian Gazette. But the amendments accepted at the instance of Lord Elgin in the house of lords on Tuesday hardly confirm thatb elief. It will be recalled that, when the bill was before the house of commons, Mr. Winston Churchill announced that to make the legislation agreeable to the prime minister of British Columbia, the words "final and unalterable," which the Dominion government had proposed to introduce, would be omitted, and so leave the way open to British Columbia to "make some other friendly arrangement in the future with the Dominion and the other provinces." When the bill came before the lords, Lord Elgin, as colonial secretary, set himself to restore the "final and unalterable" character of the adjustment. A preamble was inserted consisting of the address presented to his majesty by the senate and commons of Canada, wherein the finality of the new scale of subsidies is established. Moreover, the following new subsection was added: "In the case of the provinces of British Columbia and Prince Edward Island, the amount paid on account of the grant payable per head of population to the provinces under this act shall not at any time be less than the amount of the corresponding grant payable at the commencement of this act; and if it is found on any decennial census that the population of the province has decreased since the last decennial census, the amount paid on account of the grant shall not be decreased below the amount then payable, notwithstanding the decrease of the population."

The Liberal party looks back over a period of ten years with satisfaction. An unbroken chain of promises faithfully kept, of results achieved far beyond the most sanguine anticipations, and this record is one upon which the party and the government will be judged when the time arrives.

That this is Canada's century is no longer questioned. From one end of the land to the other reports come of ripening crops, increased bank returns, expanding commerce, rapid railway construction, and the best of all, genuine contentment. With a bad federal administration all this would have been impossible; with good government all things tending to material good are possible The people of Canada are grateful for the blessiug they enjoy, and one of the choicest, which makes for the well being of the citizens generully, is intelligent progressive government. Such a government Canada now enjoys, and no change will be made until better cause is shown than is obvious at the moment.

Sir Wilfrid Laurier, premier of Canada, has arrived at his home in Ottawa, from his attendance at the colonial conference in London. From the moment of his landing at Quebec, he has made a triumphal progress through Canada, intensified as he approached the capital and his home. If further evidence were wanting of the personal popularity of the prime minister, this home-coming would supply it. Men of all ranks in life, and of every political shade, vied with each other to extend a hearty welcome to the returning statesman. Sir Wilfrid himself is in the best of health and spirits. His responses to the many addressee of welceme were in his most eloquent strain, his observations on the character of the civic reception tendered him at Ottawa being in a peculiarly happy vein. Sir Wilfrid returns prepared to continue the policy he has worked out for himself. He will lose no time in urging on the great public enterprises to which he is committed, and nothing will be allowed to stand in the way of their early accomplishment.

International Coal & Coke Co.

The International Coal & Coke comepany, of Coleman, Alta., paid its fourth quarterly dividend of $42,000 last Friday, 1½ cents per share being disbursed among the stockholders. The company is capitalized at $3,000,000 and has 2,800,000 outstanding shares on whieh dividends are paid at the rate of 1 cent per share. Friday's payment brought the total dividends paid to $98,000. The mine was orignally owned by Dan Schultz and A. Paulson, of Spokane. Advices have been received from H. N. Galer, general manager of the company, which tell of the closing down of the mine on July 28 temporarily awaiting the arrival of cars. Several months ago the Canadian Pacific railway made extensive contracts with the company for the entire output. On the strength of these contracts the working forces of the mine were doubled and additional expenditures made to insure the moving of the coal at the proper time, the manager believing that no car shortage would be encountered. Reports state that unless the car shortage is immediately remedied, the west will find itself in the grip of a fuel shortage worse than that of last year.

The Kettle Valley line has finished grading Third street, and that thoroughfare is decidedly improved in appearance.

Your printed stationery does not possess the necessary talking qualities nnless it is executed in the latest style with modern material. We have the most up-to-date jobbing plant in the Boundary, and our workmen are thoroughly competent. The Sun job office.

A Question Often Asked

Why so many people feel worse after taking pills than before? Trouble is that drastic pills are used. No remedial action is obtained, the bowels are irritated and dreadful constipation follows. In using Dr. Hmilton's Pills you are scarcely *conscious* of having taken medicine. Although very mild, Dr. Hamilton's Pills do regulate the bowels, stimulate normal action of the glands, and create neither nausea, griping nor violent action. Positively *guaranteed for biliousness*, indigestion, stomach, liver and kidney ills. For a safe family pill rely on Dr. Hamilton's, 25c per box at all dealers.

CHURCH SERVICES

KNOX PRESBYTERIAN CHURCH—Sabbath services at 11 a.m. and 7 p.m.; Sabbath school and Bible class at 2:30 p.m.; *Young People's Society of* Christian Endeavor, Monday, 7:30 p.m. All are cordially invited; seats free.

METHODIST CHURCH, Rev. Schlichter, B.A.—Services next Sunday at 11 a. m. and 7:30 p.m.; Sunday school and Bible class at 2:30 p.m. All are welcome.

BAPTIST CHURCH, Rev. F. W. Auvache, pastor.—Services on Sunday at 11 a. m. and 7:30 p. m.; Sunday school and Bible class at 3 p.m.

Prominent Manufacturer Speaks

In Vanleek Hill, Ont., no one is better known than Geo. S. Watson. When he says "Catarrhozone is a real cure," *depend on it being so.* "My wife," he writes, "was subject to bad attacks of throat irritation and bronchitis. Many remedies were tried, but few proved at all useful. Catarrhozone was different. It seemed to get right at the sore spots and brought relief quickly. We have found Catarrhozone an absolute cure for bronchitis and catarrh." Nothing cures more quickly, so get it today. Two sizes, 25c and $1.00, at all delers.

FORM NO. 13, LAND ACT

Similkameen Land District, West Kootenay District.

TAKE NOTICE, that W. K. Esling, of Rossland, B. C., by occupation a publisher, intends to apply for a special timber license over the following described lands:

Location No. 1—Commencing at a post planted about three miles south and about 140 chains east of the southwest corner of lot 2708, Osoyoos Divivision of Yale District, being also at the location posts of the Webster timber locations; thence west 80 chains, thence south 80 chains, thence east 80 chains, thence north 80 chains to the point of commencement, and containing 640 acres, more or less.
Date May 1st, 1907.

Location No. 2—Commencing at a post planted about 40 chains south of the southeast corner of Location No. 1; thence north 80 chains, thence east 80 chains, thence south 80 chains, thence west 80 chains to the point of commencement, and containing 640 acres, more or less.
Date May 1, 1907.

Location No. 3—Commencing at a post planted about a mile south of the northwest corner of Location No. 1; thence south 40 chains, thence east 80 chains, thence south 40 chains, thence west 120 chains, thence north 80 chains, thence east 40 chains to the point of commencement, and containing 640 acres, more or less.
Date May 1, 1907.

Location No. 4—Commencing at a post planted at or a short distance west of the southeast corner of Location No. 2; thence south 80 chains, thence east 80 chains, thence north 80 chains, thence west 80 chains to the point of commencement, and containing 640 acres, more or less.
Date May 23, 1907.

Location No. 5—Commencing at a post planted at the same place as the location post of Location No. 4; thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to the place of commencement, and containing 640 acres, more or less,
Date May 23, 1907.

Location No. 6—Commencing at a post planted one mile south or southerly from the southeast corner of Location No. 3; thence north 80 chains, thence west 80 chains, thence south 80 chains, thence east 80 chains to the point of commencement, and containing 640 acres, more or less.
Date May 23, 1907.

Location No. 7—Commencing at a post planted at the southwest corner of Location No. 4; thence east 80 chains, thence south 80 chains, thence west 80 chains, thence north 80 chains to place of commencement, and containing 640 acres, more or less.
Date May 23, 1907.

Location No. 8—Commencing at a post planted at the northwest cerner of Location No. 7; thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to the point of commencement, and containing 640 acres, more or less.
Date May 23, 1907.

Location No. 9—Commencing at a post planted at the northwest corner of Location No. 8; thence south 80 chains thence west 80 chains, thence north 80 chains, thence east 80 chains to the point of commencement, and containing 640 acres, more or less.
Date May 23, 1907.

Dated August 5th, 1907.

NOTICE

NOTICE is hereby given that sixty days after date hereof I intend to apply to the Honourable Chief Commissioner of Lands and Works for the right to purchase the following described lands on the North Fork of Kettle River, that is to say: Commencing at a post planted at the North East corner of R. D. Jones' old land pre-emption; thence 40 chains north; thence west 80 chains; thence south 40 chains; thence east 80 chains to point of commencement, containing 320 acres, more or less.
Dated at Grand Forks this 12th day of April, 1907.

H. P. WHITE.

NOTICE

"Black Eye No. 1" mineral claim, situate in the Grand Forks Mining Division of Yale District.
Where located: In Brown's camp.
TAKE NOTICE that I, Peter T. McCallum, acting as agent for Neil McCallum, Free Miner's Certificate No. B10584, and Donald Morrison, Free Miner's Certificate No. B10580, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.
And further take notice that action, under section 37, must be commenced before the issuance of such Certificate of Improvements.
Dated this 8th day of June, A.D. 1907.

PETER T. MCCALLUM.

BADLY INJURED

Thomas Newby, Pioneer of This City, Thrown by Bucking Bronco

Sustains Internal Injuries Necessitating an Operation

Thomas Newby, a pioneer of this city, met with a serious accident on Wednesday by being thrown from a bucking bronco between this city and his ranch. He was removed to the Grand Forks hospital, where it was found that he had sustained internal injuries of such a serious nature as to necessitate an operations, which was performed by Drs. Newcombe and Truax, of this city, and Dr. Dickson, of Phoenix. Last night Dr. Newcombe, who is in charge of the case, reported the condition of the patient as extremely critical.

At noon today Mr. Newby was reported as holding his own, and there is a slight hope of his ultimate recovery. His condition, however, is stated to be quite precarious, and the attending physicians do not care to venture an opinion as to the final outcome of the case.

Mrs. Newby, who has been residing at Gilpin, Alta., for some time, has been notified by wire of the lamentable accident, and will undoubtedly make all possible haste to reach her husband's bedside.

THE CITY COUNCIL

(*Continued From Page One*)

licitor Miller stated that these figures were misleading, as in many instances they were merely the fees of the solicitor as a retainer. It had cost Nelson, he said, $6000 or $7000 for legal services last year. Ald. Hardy said the city solicitor had been paid a fee for defending the Hartinger case. Mr. Miller replied that he had been paid his expenses for leaving the city. He thought aldermen should inform themselves better before making rash assertions. In his opinion it was a poor time for the city to attempt to get along without a solicitor. The matter of fixing a salary for the city solicitor was referred to the finance committee, with instructions to report at the next meeting.

The council then adjourned.

STREET CORNER GOSSIP

Alex Miller, the Greenwood financier, was a visitor in the city this week.

McCallum & McArdle are advertising a bargain in a suburban home in this issue of The Sun.

A. W Anderson has resigned his position as caretaker of the public school, and will leave about the 1st of next month for Vancouver, where he intends to locate permanently.

The Juvenile Bostonians, a company of clever children artists, will be seen at the Grand Forks opera house on the 23rd of this month in a comic opera.

P. A. Z. Pare reports his peanut crop to be in excellent condition. He has requested the Kettle Valley line to put in a spur to his ranch.

The Kettle Valley line will run an excursion train to Republic next Sunday.

A tug-of-war match on Third street last Wednesday evening between teams composed of Candians and foreigners attracted a large crowd. The Canadians won.

About thirty people from this city attended the Eagles' picnic at Curlew lake last Sunday.

The report of the United States assay office at Seattle for the fiscal year ended June, 30, 1907, has been received, and should prove interesting to residents of the Boundary, as the majority of the gold produced in British Columbia (with the exception of that contained in blister copper) is handled through that office. The total amount of gold bullion received during the year was 1,228,743 ounces, of a coining value of $22,860,330.26. Silver contents were 196,859 ounces, making the total value of the bullion $23,089,402.20. Of this $15,791,434.30 was produced in Alaska, $1,180,547.72 in British Columbia, $5,995,837.45 in the Yukon, and $111,582.66 from all other sources. The total last year was $18,139,058.41, this year's production showing a substantial increase of $4,920,343.79.

W. H. Itter & Co. will inaugurate a four days' cash sale tomorrow at greatly reduced prices.

We carry the most fashionable stock of wedding stationery in the Boundary country. And we are the only office in this section that have the correct material for pint it. The Sun job office.

SNAP SHOTS

Money you find looks a good deal larger than an equal amount earned.

It is easier to tell the truth than to tell a lie; particularly a plausible lie.

If a business concern could be put on a paying basis by circulating lies about its opponents, there would be fewer failures.

If you must be frank, be frank with yourself.

Some people are so stubborn and so contrary that you can only convince them they are wrong by agreeing with them.

The better you behave the better you get along. It's old but it's true.

The main street of a small town on a half holiday can make the saddest funeral procession look like a gala affair when it comes to cheerfulness.

BICYCLES AND REPAIR WORK—A complete line of 1907 models. A few second-hand wheels cheap. Wheels to rent. GEO. CHAPPLE, opposite Postoffice, First street.

Fatal Blood Poisoning

Frequently follows the use of cheap corn salves and plasters. The safest is the best and that's "Putnam's," which has a record of fifty years' success. Refuse substitutes for "Putnam's," which costs 25c in every drug store.

Vancouver By-Election

The returns of the by-election at Vancouver last Saturday are:

Bowser, Conservative.....2364
Kingsley, Socialist..... 521

Majority for Bowser.....1843

The Conservatives made desperate efforts to get their full vote out to make the Socialist defeat pronounced. The Liberals as a rule refrained from voting.

Ever Have Cramps?

Kind of fierce to be tied up in a knot at midnight with cramps. Keep Nerviline handy. Ten drops quiets cramps instantly. Used occasionally Nerviline prevents this trouble entirely. From Stratford, Ont., Wm. Dee writes: "Nothing I know of will give such relief to cramps, colic or pain in the stomach as Nerviline. If you feel squeamish and sick, just ten drops of Nerviline in water and you're well the next minute." Think of the protection and comfort in a 25c bottle of Nerviline and get it today.

The surest way to evaporate business troubles is to give your stationery the necessary talking qualities by having it printed in a modern office by competent workmen. The Sun job office is the most up-to-date in the Bouudary, and our workmen are capable and of wide experience. This is the reason why we do the printing for the best firms and corporations in this district.

The Sun and the Toronto Weekly Globe for $1.00 per year.

LAND ACT.

FORM OF NOTICE.

Similkameen Land District, District of Yale, Province of British Columbia.

TAKE NOTICE that I, M. D. White, Jeweler, of the city of Grand Forks, in the province of British Columbia, intends to apply for a special timber license over the following described lands:

Commencing at a post planted 30 chains south of the northeast corner of Lot No 2228, on Deer Creek, on the North Fork of Kettle River, in the County of Yale; thence south 80 chains, thence east 80 chains, thence north 80 chains, thence west 80 chains to point of commencement.

Dated this 7th day of August, A. D. 1907.

M. D. WHITE.

NOTICE

NOTICE is hereby given that sixty days after date hereof I intend to apply to the Honourable Chief Commissioner of Lands and Works for the right to purchase the following described lands on the North Fork of Kettle River, that is to say: Commencing at a post planted at southeast corner of R. D. Jones' land pre-emption; thence 80 chains north; thence 40 chains west; thence 80 chains south; thence 40 chains east to place of beginning, containing 320 acres, more or less.

Dated at Grand Forks this 5th day of April, A. D. 1907.

M. D. WHITE.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any person who is the head of a family, or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1.00 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,

Deputy of the Minister of the Interior.

Better Immigrants

It has been said in the house of commons, notahly by Mr. Bourassa, of Labelle, that the immigrants arriving in Canada are not a desirable element, but are the scourings of continental Europe. What are the facts?

For the last fiscal period ending March 31, 1907, British immigration to Canada totalled 55,791, an increase of 18,170 over the same period of 1905-6. The increase in English immigration was 37 per cent and in Scotch immigration 84 per cent. Since 1901-2 the ratio of increase in English immigration, year by year, has been as follows:

1901-2.....39 per cent
1902-3.....148 per cent
1903-4.....13 per cent
1904-5.....30 per cent
1905-6.....33 per cent
1906-7.....37 per cent

Scotch immigration has increased as follows:

1901-2.....93 per cent
1902 3.....147 per ceut
1903-4.....30 per cent
1904-5.....11 per cent
1906-7.....84 per cent

A further examination of the statistics prove beyond a doubt that Canada has the preference as a field of emigration, not excepting the United States. By far the greater number of immigrants to the Dominion hail from the mother country. The objective point of British emigration is shifting to Canada, as will be seen by the following figures:

	U.S.	Can.	Aus.	Cape
1902...	151,617	14,730	4,266	38,044
1906...	85,941	91,263	9,920	3,160

Charles Deitz, through friends, was taken to the Old Men's Home at Kamloops last week. Mr. Deitz first came to the Boundary in 1857, and is understood to have been the first white man to penetrate this district.

Linette visiting card—the latest style in calling cards in the fashionable world. Kept in stock at The Sun job office. We have the correct styles of type to print them with.

We Are Prepared

To Do Your

JOB PRINTING

BECAUSE

We have the most modern jobbing plant in the Boundary Country, employ competent workmen, and carry a complete line of Stationery.

WE PRINT

Billheads and Statements,
Letterheads and Envelopes,

Good Printing—the kind we do—is in itself an advertisement, and a trial order will convince you that our stock and workmanship are of the best. Let us estimate on your order. We guarantee satisfaction.

The Evening Sun
Job Department

DISTRICT NEWS

W. P. Tierney & Co., railway contractors, are putting the finishing touches to the $25,000 Rawhide spur of the C. P. R., which they have been grading all summer. The ties are all on the ground.

Diamond drilling has again been resumed at the Granby mines by Boyles brothers, the contractors, who have been at this work almost steadily for the past three years.

Steel on the V., V. & E. has been laid as far west as Keremeos, but the road will not be operated to that point until abour the end of the present month. It is reported that on account of the scarcity of labor construction work west of Keremeos will not at present be attempted.

Diamond drilling operations have been started at the mines of the Phoenix Amalgumated, recently purchased by the Consolidated Mining & Smelting Company of Canada, Ltd.

The rumor is now current that the C.P.R. has acquired the Midway & Vernon charter and will proceed with the construction of that link between the Boundary and the rich Odanagan country. The report lacks confirmation. The line would give the C.P.R. a short cut from this district to the coast.

The Lion Bottling Works have cut their price on all case and draught wines and liquors.

BIG BANKRUPT SALE—Rifles, Shotguns, Boats, Canoes, Field Glasses, Typewriters, Revolvers, Office Desks, Tents and Fishing Tackle. All for less than half price. Write for Bargain Sheet. Sportmen's Exchange, Nauwigewauk, N.B.

Resign From the Worry Club

Life is a rush, but we can't all get there together. In consequence, we worry. Can't help it, because nerves are weak, vitality is burnt up and there is no staying power left. Cut out the worry part and Build Up. Let Ferrozone help you. It's a most strengthening nutritive tonic. Fills the blood and generates the sort of vitality that makes you want to do things. No medicine more helpful for men, women and children who need strength and staying power. Try Ferrozone, 50c per box at all dealers.

DOMINION OF CANADA

SEALED TENDERS addressed to the undersigned, and endorsed "Tenders for Public Building, Cumberland, B.C." will be received at this office until Monday, August 19, 1907, inclusively, for the construction of a Public Building, Cumberland, B.C.

Plans and specifications can be seen and forms of tender obtained at this Department and on application to the Postmaster at Cumberland.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent [10 p.c.] of the amount of the tender, which will be forfeited if the party tendering decline to enter into a contract when called upon to do so, or if he fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By Order,
FRED. GELINAS,
Secretary.

Department of Public Works,
Ottawa, July 19, 1907.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

NOTICE

TAKE NOTICE that I, Fred Alfred Sammons, of Midway, in the District of Yale, British Columbia, Lumberman, after sixty days from the date of the first publication of this notice, intend, pursuant to the "Rivers and Stream Act" and Amending Acts, to submit a proposal to the Chief Commissioner of Lands and Works to clear and remove obstructions from the Kettle River, and its branches from where such river crosses the International Boundary Line, near Midway, in the District of Yale, to its and their source (all in the Greenwood Mining Division of said District); and the Kettle River from where it crosses the International Bouneary Line from the State of Washington into British Columbia (near Carson, in the District of Yale), to Cascade, in said District (all in the Grand Forks Mining Division of said District); by clearing and removing obstructions and making the same fit for rafting and driving thereon logs, timber, and lumber, and construct dams, booms, slides, and chutes, and make such other improvements as may be necessary for said purposes. The lands affected are government lands, and Lots 2703, 2704, 2708, 3687 and 3688, and Townships 66, 67, 68, 69, 71, 72, 73, 81 and 82, all in the Similkameen Division of Yale District.

Dated at Midway, B.C., this thirteenth day of July, A. D. 1907.
