

THE CITY COUNCIL

Proposal to Erect Joint Isolation Hospital by Boundary Towns

Annual Tax Sale of City Property to Be Held on September 14

The regular meeting of the city council was held Monday evening, Mayor Fripp and Ald. Lequime, Manly, McCallum being present.

W. G. McMynn, government agent at Greenwood, wrote that the proposed isolation hospital would be located in or near Grand Forks. The provincial government would bear one-third of the cost and the municipalities participating in its construction two-thirds. The clerk was instructed to notify Mr. McMynn that the council considered the proposition favorably, and desired to be furnished with an estimate of the cost.

The railway commission, in answer to Solicitor Sutton, wrote that the C.P.R. had stated that the signal apparatus for the Riverside avenue crossing had arrived in Grand Forks and work of installing it begun, also asking that they be advised if it is not completed in reasonable time.

The Royal bank asked permission to construct a septic tank under the sidewalk at its proposed new building at the corner of Bridge and First streets. The council felt inclined to allow the bank to build the tank under the First street walk, with the proviso that in the event it proved a nuisance it would have to be removed. The clerk was instructed to inform the bank that the council would take final action when the plans of the tank are submitted.

The chairman of the water and light committee made a complaint against the B. C. Telephone company's guy wires at the corner of Bridge and First streets, and the council ordered the company to remove the same.

The board of works reported having employed a man to cut obnoxious weeds in the city.

The health and relief committee reported that the necessary arrangements had been made to send an indigent old gentleman to the Kamloops home.

Ald. Whiteside reported that Mr. Forrester had signified his intention of removing his dairy to the McEwen ranch. The health and relief committee was instructed to interview Mr. Forrester regarding his plans.

On motion, it was decided to hold the annual tax sale on the 14th day of September at 12 o'clock noon.

Bylaw No. 60, fixing the hours for lawn sprinkling, was reconsidered and finally passed.

The road tax bylaw was reconsidered and finally passed.

The city solicitor was instructed to notify all parties who intend to build, as well as those who now have buildings in course of construction, to submit their plans and specifications to the council.

Ald. Whiteside gave notice of a bylaw to authorize the the council to

construct sidewalks and other municipal works and charge a portion of the cost against the owners of property on streets where improvements are made.

A representative of the Vancouver World addressed the council in reference to an advertising proposition in a special issue of that paper. He offered a page ad. and a page write-up for \$200, the council to pay \$100 of this amount and the board of trade and the business men the balance. The proposal was very thoroughly discussed, and, on a vote being taken, the offer was rejected, Ald. Lequime and Whiteside voting for and Ald. Manly and McCallum and the mayor against it.

CUSTOMS RECEIPTS

R. R. Gilpin, customs officer at this port, makes the following detailed report of the customs receipts at the various sub-customs offices, as reported to the chief office in this city, for the month of July:

Grand Forks.....	\$2,801.78
Phoenix.....	1,165.48
Cascade.....	123.14
Carson.....	79.51
Total.....	\$4,169.91

NEWS OF THE CITY

Married—In Vancouver, on Tuesday, August 3, Dr. W. Truax, of this city, and Miss Inglis, of Vancouver, late teacher in the Grand Forks, public school. Mr. and Mrs. Truax returned to this city yesterday. They will shortly move into the residence on Winnipeg at present occupied by H. E. Woodland, which the doctor recently purchased from Mr. Woodland.

Frache Bros. have completed a large cement cellar at their Columbia greenhouses. It will be used for storing bulbs and delicate plants during the winter months.

Dr. Kingston has announced his intention of erecting a private hospital at the corner of Winnipeg avenue and Fourth street as soon as the preliminary arrangements can be made. The building will be large enough to accommodate thirty patients.

Frache Bros., of the Columbia greenhouses, have shipped fifteen crates of tomatoes daily during the past month, and they expect to keep this ratio up for two months yet.

J. D. Honsburger, the well known fruit grower, expects to ship ten carloads of prunes this fall.

Ballard & Plath have received the contract to erect a cottage for Percy Andrews. The building will be 28x38 feet, and work on it was started last Saturday.

For Sale, Cheap—Iron tank; holds 1330 gallons of water. Apply A. J. MacDonald.

H. H. Naughan, of Montreal, assistant to the vice-president and head of the mechanical department of the C.P.R., accompanied by Grant Hall, of Winnipeg, superintendent of motive power, and party, passed through the city last Monday in Mr. Vaughan's private car, the Lethbridge, on a tour of inspection.

The British Columbia Copper company's smelter at Greenwood will blow in today. Coke shipments have been arriving at the works slowly, and the company has been waiting until they accumulated 2500 tons.

T. C. G. Mahon, who has been on the Eastern Townships bank staff for the past two years, leaves tomorrow for Phoenix, to which place he has been transferred. Mr. Mahon will be greatly missed by the Grand Forks Cricket club, as well as the citizens generally. Under his leadership the club has become one of the strongest in the province.

For Sale—Complete household furnishings. Apply to W. H. Itter.

GOOD PROSPECTS

Kettle Valley Orchards Will Produce an Average Yield

At intermittent period during the present summer faint rumors have reached this office that the fruit crop in the valley was not all that it should be. The Sun therefore, on Sunday last, decided to make a personal inspection, and with that object in view a number of orchards were visited. At Mr. Eugene Herrick's place, on the Covert estate, a thorough examination of the orchard revealed the fact that instead of dearth of fruit, the owner complained bitterly because he lacked the time to thin the growing fruit properly. All the apple trees of the standard varieties were loaded with fruit. On only a few trees, of varieties not adapted to this climate, was there a scarcity of fruit noticeable. Mr. Herrick informed The Sun that some of his cherry trees had netted him \$10 each this year. This does not look much like a fruit crop failure.

Mr. Herrick was of the opinion that there should be a market for the fruit at present being thinned out. The apples are perfectly formed, and make as nice pies and sauce as the ripe ones, but the only use that can now be made of them is to feed them to the hogs.

The North

John Simpson, who returned to this city last week from Athabasca Landing, where he has been teaching school during the past year, gives an interesting description of that far-north settlement. There are five stores, a large hotel, a newspaper, and a branch of the Imperial bank at the Landing, he says. The hotel, the newspaper and the bank are the most northerly in America east of the Rockies. Athabasca Landing is 105 miles north of Edmonton by stage, and is on the southern bank of the Athabasca river, which is navigable for steamboats. It is expected that the Canadian Northern railway will soon be extended northward to the Landing. It is too early to go there now, however, as it costs 9 cents per pound to have groceries taken from Edmonton to St. John. It is expected that a branch will be built from the main line of the Grand Trunk Pacific to the head of navigation on the Peace river, and this will place the entire Peace river country within easy reach of Prince Rupert.

Mr. Simpson does not think he will return to the north. He owns some fruit land near this city, and he is becoming convinced that there is more money in training young trees the way they should grow than there is in teaching the alphabet to children of tender age.

There May Be Rivalry

The Hedley Gazette says that for the past few days there have been reports of a race between the C.P.R. and Canadian Northern surveyors for a route down the Fraser, where it expects that the C.P.R. wants the south bank as well as the north.

Now comes an apparently well

authenticated report that Engineer Baseett, who, it will be remembered, was here in the spring and early summer of 1905 locating the V., V. & E. from Hedley both ways, is now in the Coquihalla with a large force of men, and the belief is that it is the C.P.R. he is working for.

Should this be so, and the C.P.R. means business, there will be high jinks in the Coquihalla, for the Great Northern railway will have to throw on the high gear if they expect to keep the C.P.R. from beating them hollow in the race. With the link from Midway to Nicola connected up and a route down the Coquihalla to Hope the O.P.R. would have a cinch on the Boundary-coast passenger traffic.

Thus it transpires bit by bit that the snail's pace maintained in building the V., V. & E. during the past four years has been the means of hatching up numerous difficulties that would never have been heard of if the work had been pushed vigorously to completion.

With the cherished scheme of a joint route down the Coquihalla for the V., V. & E. and the Canadian Northern railway that valley was to be a veritable vale of amity suggestive of the millenium itself; but the V., V. & E. tarried too long and Dan Mann's men went nosing down the Fraser, and as a result of the incursion we have Bassett's C.P.R. braves in war paint.

Dominion Officers

H. Cook was elected president of the New Dominion Copper company in New York last week. The directors are: H. Cook and J. H. Susmann, both of whom are prominently identified with the General Development company, the latter being treasurer of this and subsidiary corporations; Judge Warren W. Foster, of New York city; John A. Sleicher, the publisher of Judge and Leslie's; N. Bruce McKelvie, a partner of Hayden, Stone & Co.; W. J. Cull, an employee of the Dominion company, and H. H. Melville, a director of the old company. The probability of a consolidation of the Dominion and British Columbia Copper properties, which has frequently been predicted, is emphasized by the inclusion of two representatives of the General Development company.

PERSONAL

Mrs. Grunwell, of Washington, D. C., is visiting at the home of her son, John Grunwell, the Danville merchant. Mrs. Grunwell is accompanied on her western trip by her brother.

Richard Frache, of the Columbia greenhouses, made a business trip to Fernie this week.

Joe McDonald left for Seattle Tuesday morning, having received a telegram apprising him of the critical illness of his brother.

E. Miller made a professional visit to Phoenix on Monday.

Lorne A. Campbell, manager of the West Kootenay company, was a visitor in the city last Saturday.

Wm. Spier will leave tomorrow for Lethbridge, Alta.

D. Whiteside is spending a week's outing in the neighborhood of some of his North Fork mineral claims.

S. Fairweather, of the Eastern Townships bank staff, is spending a two weeks' vacation at the coast cities.

Big catches of bass are reported from Christina lake.

WEST END BLAZE

Three Buildings on Government Destroyed This Morning

Loss About \$10,000, Insurance \$4000---Some Narrow Escapes

At about 4 o'clock this morning fire was discovered in the old Queens hotel building on Government avenue in the West end. In the confusion that followed, everybody overlooked the fact that the most important thing on such occasions is to send in an alarm as quickly as possible. Consequently some time elapsed before the department was notified, and when the brigade reached the scene the flames were beyond control, and when they were finally extinguished the Queens hotel, F. W. Elmore's meat market and the building occupied by Mrs. Haverty and family, formerly known as the Eagle hotel, had been reduced to small heaps of ashes. To add to the discomfort of the fire boys, the water pressure was poor, and they had all they do to save the buildings on the opposite side of the street and Laurier hall, all of which caught a-fire several times.

The buildings destroyed were all frame structures, and the fire burned fiercely. The flames were not discovered until they had gained considerable headway, and some narrow escapes are reported. Miss Larson, who occupied a room on the second floor of the Queens, was forced to climb down a verandah post. She lost about \$100 worth of personal effects. The Haverty family barely had time to get out of the house with one change of clothes. Everything else was lost. Nothing was saved from the meat market but the scales. Some of the people, in making their escape from the burning buildings, sustained minor injuries.

The estimated losses are: P. D. McDonald, owner of the Queens, loss \$3000, insurance \$2000; F. W. Elmore, loss \$3000, insurance \$2000; Mrs. Haverty, loss between \$1500 and \$2000, no insurance.

The fire started in the rear of the Queens hotel, and is supposed to have been the work of some hobo.

The Queens has not been used for hotel purposes since the completion of the Hotel Colin about a year ago.

A Progressive Company

The poles for the new metallic system of the British Columbia Telephone company in this city have now all been planted, and the work of stringing the 200-wire cables was commenced last Monday morning. The poles appear to be large enough, and sufficiently healthy, to last till doomsday. The wires in the cables are numerous enough for a city twice the size of Grand Forks' present population; but the company is optimistic, has faith in the city's growth, and is planning for the future. When completed, Grand Forks will have the most up-to-date telephone system in the interior of the province.

SATURDAY, AUGUST 7, 1909

The suggestion has frequently been made to The Sun that the city should make an effort to secure the two half blocks in the burnt district near the North Fork for park purposes. The idea is an excellent one, and we heartily endorse it. We are afraid, however, that it would be difficult for the city to finance the scheme at present. But it will do no harm to obtain the views of the ratepayers on the subject.

A club composed of disheartened factory employees, advocating suicide as the only means within their reach of attaining the peace of mind they crave and to escape the torments of their daily grind, is said to exist in Cleveland, Ohio. The feeling of discontent which pervades the working classes of today is largely responsible for this lamentable state of affairs.

To the man or woman who possesses a healthy body and a sound mind, work should not be viewed in the light of drudgery or torment, but as a pastime. There is more pleasure in accomplishing the object one may set himself than there is in idling away the time. Work, when looked at in this light, is not as fatiguing as a game of baseball or cricket; and the satisfac-

tion that comes from having added something to the world's wealth, or gained a great business success or industrial victory, is a pleasure the idler can never know. The man who loves his work takes as much pride in turning out a good job as the athlete does in winning a game, and in nine cases out of ten the work gives him as much vigorous and healthful exercise as is to be obtained on the diamond, links or tennis court. This sort of man never commits suicide. It is the person who has listened to the gospel of discontent until he has become envious of his more successful brother that generally resorts to self-destruction.

NEWS OF THE CITY

Mr. and Mrs. A. B. W. Hodges held an "at home" last evening, between 8:30 and 10:30, to meet Mr. and Mrs. Arthur Austin, who will depart in a day or two for their home in Anaconda, Mont. Over a hundred guests were present, and a very pleasant social evening was spent.

Mr. and Mrs. John Rutherford have moved into their new residence, Winnipeg avenue. It is one of the prettiest and most attractive houses in the city, the design being of a metropolitan character.

It is said that Grand Forks has a wife-beater. He should be exhibited as one of the horrible examples of barbarism.

For Rent—To suitable tenant, residence of Judge W. H. P. Clement, on hill west of city, across G. N. Ry. tracks; partly furnished. Apply on premises.

The regular audit of the books at the Granby smelter has been made by Wm. Spier, inspector of the Eastern Townships bank, and Mr. Seele, bank manager of Spokane.

A carload of rails for mine purposes was received at the Golden Eagle mine this week. Assessment work is being prosecuted on two adjoining claims.

Superintendent Demuth, of the Kettle Valley line, has moved into the residence lately occupied by Mr. and Mrs. Win. Huffman. Mr. and Mrs. H. E. Woodland will move into the house vacated by the Demuth family.

THE COPPER HANDBOOK

New Edition Issued Nov. 15, 1906.) Is a dozen books in one, covering the history, geography, geology, chemistry, mineralogy, metallurgy, terminology, uses, statistics and finances of copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the copper industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man. It gives the plain facts in plain English without fear or favor.

It lists and describes 4636 copper mines and companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property.

The Copper Handbook is conceded to be the

World's Standard Reference Book on Copper

The mining man needs the book for the facts it gives him about mines, mining and the metal.

The investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundreds of swindling companies are exposed in plain English.

Price is \$5 in Buckram with gilt top; \$7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

WATER NOTICE

Notice is hereby given that an application will be made under Water Act, 1900, to record the right to take, divert, and convey and use water in Yale District, for ordinary, domestic, agricultural and mining purposes.

(a) The name of the applicant is International Orchard Company.

(b) The name of the lake, stream or source is Sandner Creek, at head of Christina Lake.

(c) The point of diversion or intended ditchhead is about nine miles up creek. The point to be returned is one mile up creek.

(d) The difference in altitude between the point of diversion and the point to where it is to be returned is 150 feet.

(e) The means by which it is intended to store and divert the water is reservoir, dam, ditch and flume.

(f) The number of inches applied for is 300.

(g) The water is required for irrigating and domestic use.

(h) The land or mine on which the water is used is land on Sandner creek, area to be irrigated 6,400 acres.

(i) This notice was posted on the 23rd day of April, 1909, and application will be made to the Commissioner on the 25th day of May, 1909.

CYNICAL SAYINGS

Push and pull are a hard pair to beat.

The moon affects the tide and the untied.

After all, it may be better to be a spendthrift than a lenthrift.

Many a girl will knit her brow who wouldn't darn her stocking.

Some people only tell the truth when they think it is going to hurt.

Pay compliments, and you won't be forced to eat your own words.

The average woman is apt to tell all she knows, and then some more.

Most of us try to forget the mean things we know about ourselves.

The man who can afford a good press agent can get along very well without genius.

It takes a great of experience for a fellow to fall in love and land on his feet.

Fewer flowers to the dead and a little more charity to the living would help some.

Some people always looking for trouble, and are not satisfied when they find it.

The social climber is anxious to go to heaven because there is where all the best people go.

A man is sometimes away off when he claims that distance lends enchantment to the view.

The pessimist doesn't worry about the uncertainties of life. He expects the worst, anyhow.

If a woman is only sure her hat is on straight and her skirt hangs right, she feels that she is equipped to conquer worlds.

It is human nature to feel sorry for the people who are so perverse as not to like us.

Airships Will Race Daily

Aerial contests between five or more airships will be held this year at the Spokane fair for prizes aggregating \$2500. The races will take place every afternoon of the week. This is not entirely a new attraction for the fair, the introduction of the airship. But the races are absolutely new, and are introduced because of the fact that the Stroebel flights last year took so well with the public. Aeronauts are not limited to any particular style of flying machine in the daily contests, though special prizes of \$500 are offered for the longest flights of any form of a heavier than air flying machine and for the longest flights of any form of dirigible balloon.

Local Option

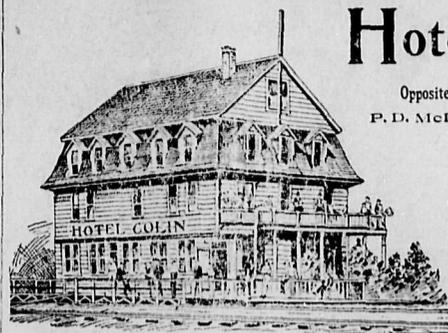

Premier McBride, in reply to a letter from E. B. Morgan and Mr. Spencer on the local option plebiscite, says:

"I can assure you it is the government's intention to take a plebiscite on this question. At the present I am not in a position to make a public announcement in this regard. You may rest satisfied that ample time will be given between the announcement and the taking of the plebiscite."

After many years' experience in local option campaigns, Dr. Spencer says British Columbia has made wonderful strides in its desire for the people to settle the liquor question, and to eliminate it from politics. Wise statesmen will do this.

Error Discovered

VANCOUVER, Aug. 2.—A Robinson, superintendent of education, states that errors were made in the high school entrance awards owing to the examiners not taking into account the midwinter examinations last December. One of the resultant changes is the award of the governor-general's bronze medal for Grand Forks to Harriet Harris.

Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any person who is the head of a family, or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal-mining rights may be leased for a period of twenty-one years at an annual rental of \$1.00 per acre. Not more than 2,500 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,

Deputy of the Minister of the Interior.

An Offer Which Meets the Special Wants of All Classes of Readers

The Western Canadian reading public is made up chiefly of these classes: Persons who have lived in the West for a lengthy period and are out and out Westerners, and recent arrivals from the Old Country, from the United States and from Eastern Canada.

Perhaps no one newspaper could cater with complete satisfaction to all these classes, but by this combination offer every special need is met.

The Weekly Free Press and Prairie Farmer gives a complete record week by week of all happenings in the Western Provinces. In addition it has special departments for American and British settlers. The Family Herald and Weekly Star supplies the former resident of Eastern Canada with news of the Eastern portion of the Dominion in detail, and the Grand Forks Sun provides the local and Boundary news, which you cannot do without.

Not Sisters

Now and again you see two women passing down the street who look like sisters. You are astonished to learn that they are mother and daughter, and you realize that a woman at forty or forty-five ought to be at her finest and fairest. Why isn't it so? The general health of woman is so intimately associated with the local health of the essentially feminine organs that there can be no red cheeks and round form where there is female weakness.

Women who have suffered from this trouble have found prompt relief and cure in the use of Dr. Pierce's Favorite Prescription. It gives vigor and vitality to the organs of womanhood. It clears the complexion, brightens the eyes and reddens the cheeks.

No alcohol, or habit-forming drugs is contained in "Favorite Prescription." Any sick woman may consult Dr. Pierce by letter, free. Every letter is held as sacredly confidential, and answered in a plain envelope. Address: World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

SUNDAY SCHOOL LESSON

SUGGESTIVE QUESTIONS
BY REV. DR. LINSKOTT
FOR THE INTERNATIONAL
NEWSPAPER BIBLE STUDY CLUB.

(Copyright 1909 by Rev. T. S. Linscott, D.D.)

Sunday, August 15, 1909.

Paul's Third Missionary Journey—Ephesus. Acts xviii:23 to xix:22.

Golden Text—The name of the Lord Jesus was magnified. Acts xix:17.

Verse 23—Is a systematic "follow up system" as essential in Christian work as it is in successful business?

Are any so strong that we cannot derive "strengthening" from the prayers and the experience of others, and are any so weak that we may not "strengthen" others?

Verses 24-26—What is the minimum of knowledge necessary in order that one may be a true child of God?

What are the minimum qualities essential to become a preacher of the gospel?

What good qualities for a preacher did this man Apollos possess?

What did "the baptism of John" include, and what did it lack of full orbed Christianity?

What percentage of present day preachers will exceed Apollos (1) in their zeal and ability (2), in their Christian knowledge, i.e.; personal experience, of Christ's gospel?

If Apollos had been conceited or anything less than a man of God, would he have submitted to teaching

from a layman and his wife?

Verse 27—Should laymen use the pen more frequently to help preachers whom they know who are going to other towns?

Verse 28—Why is it that God has conditioned all human progress and betterment, including a knowledge of the gospel, upon the zeal, ability and goodness of those who already enjoy its benefits?

Chap. xix:1-7—Were these twelve persons whom Paul found at Ephesus, actually the reconciled children of God at this time?

What proportion of present day Christians have, practically, the same experience as these twelve disciples had, when Paul met them?

Is the Holy Spirit, as spoken of in this lesson, generally received at or subsequent to conversion?

If it is now the privilege of every Christian to receive the Holy Spirit, and to walk in Him thereafter, how may he be received?

Was the gift of tongues and prophesying then, or is it now, a necessary accompaniment of the baptism of the Holy Spirit? (See I Cor. 12: 4-11, 29, 30.)

Is there anything necessarily implied in receiving the Holy Spirit, other than the constant realization that God dwells in us, to keep us holy, to guide us in all things, and to give us necessary power and wisdom to carry out God's purposes concerning us?

Verse 8—Why ought, or ought not, the pulpit now, as Paul did then, to "dispute," or argue, and bring convincing proofs, compelling men's reasons, by powerful evidence, of the truths of Christianity, and not be content with simple declamation, as is now so common? (This question must

be answered in writing by members of the club.)

Verses 9-12—Apart from the miraculous power that Paul had, what was the secret of his success?

Verses 13-17—Why do some today blaspheme the name of God, and dare the power of God; are they possessed with the devil?

Verses 18-22—Does conversion always imply restitution, and the forsaking of every evil way?

Lesson for Sunday, Aug. 22, 1909.—Paul's Third Missionary Journey—The Riot in Ephesus. Acts xix:23

xx:1.

The August Rod and Gun

The holiday feeling pervading the land during the hottest month of the year is well represented in the August issue of Rod and Gun in Canada, published by W. J. Taylor at Woodstock, Ont. How the people in the Maritime provinces, known by reason of the sea breezes as the "Kingdom of Cooloom," enjoy the beautiful summer weather is told in a profusely illustrated article. A delightful paper is "Still Hunting With a Camera," while of equally absorbing interest is one on similar lines—"Shooting Wild Geese With a Kodak." To detail the list of

good things would be to repeat the table of contents, but the article on Voracious Eaters by Martin Hunter is worth attention from all sportsmen. The King of Furbearers is a story of a successful attempt at fox rearing for the sake of pelts. Bloodhounds and Trailing will appeal to all dog lovers, and Mr. Bartlett's paper on the Wolves follows up the interest created through the magazine in this important subject. This number should accompany every sportsman on his vacation, for in its pages he will find much to make his leisure time pass pleasantly.

Large Bottle Port Wine, 75c. Lion Bottling Works.

When you order office stationery at The Sun job office you can rest assured that it will be printed with modern faces of type, and that the workmanship will be up to the standard of metropolitan work. Our stock of all kinds of paper and stationery is the most complete in the Boundary.

Just received, a large consignment of the latest patterns of spring and summer suitings. Geo. Massie, the up-to-date tailor.
