\$1.00 Per Year in Advance.

COUNCIL MEETING

Medical Health Officer Submits His Report for the Year 1906

Resolutions Re Freight Rates and Divisional Point to Be Adopted

The regular meeting of the city council was held in the council chamber Monday evening, Mayor Hammar, Ald. Donaldson, Horner, McCallum, McIntosh and Woodland being present.

A letter was read from W. H. Carey, acknowledging receipt of membership fee to the Canadian Union of Municipalities. Filed.

A communication from R. R. Gilpin, asked the council to construct a three-plank walk from Winnipeg avenue to his residence. Referred to board of works.

A communication from Hon. H. E. Young, provincial secretary, announcing the appointment of police and licensing commissioners, was read and ordered filed.

A letter from Colin Campbell was read. Mr. Campbell made a proposition to audit the city books quarterly instead of yearly, as heretofore, at the old price of \$250 per annum. His proposition was accepted. Only the annual statement is to be published.

A letter from Louis Oppenheimer requested the council to refund the money he had recently paid for a retail license, as said license had been revoked. The council refused to comply with the request, as it was shown that Mr. Oppenheimer's business was more in the nature of a gambling scheme than a legitimate enterprise.

A letter from M. S. Martin, Spokane, requested to either give title to the lots he had purchased at last year's tax sale or refund the money paid for same. The mayor stated that steps had been taken to secure title to the property.

The mayor and city clerk were authorized to sign the contract for the current year with the B. C. Telephone company.

J. E. Smith asked the council to open up Gold street from Wellington avenue to the mountain, and also to erect an electric light pole line along the same. Referred to water and light committee and the board of works.

Mr. Loftus brought to the attention of the council the necessity of repairing the foot bridge at the Granby smelter before high water arrives in the spring. He stated that the Granby company had agreed to furnish the material if the city would bear the expense of having the work done. The board of works was instructed to proceed as far as possible with the work.

J. D. McDonald offered the council fifty fishplates which he had over after building the Columbia bridge at 4 cents per pound. They had cost him 10 cents per pound. The offer was accepted.

The request of Mr. Mitchell for the extension of the city water system to his residence was granted.

The city health officer, Dr. Kingston, submitted the following report for 1906:

The Mayor and City Council of Grand Forks:

GENTLEMEN:—I beg to submit a health report of the year 1906.

Infectious diseases—

| | No. | Deaths. | Cured or removed |
|-------------------|-----|---------|------------------|
| Typhoid..... | 96 | 12 | 84 |
| Measles..... | 8 | 0 | 8 |
| Chickenpox..... | 6 | 0 | 6 |
| Pneumonia..... | 12 | 0 | 12 |
| Tuberculosis..... | 4 | 1 | 3 |

A large proportion of the typhoid cases originated outside the city, chiefly in the railway camps along the North Fork of the Kettle river. These cases became most numerous at the usual typhoid season, viz., September, October and November. The higher mortality rate than we have sometimes heretofore had to report, seemed chiefly due to the fact that in many cases the disease had reached an advanced stage before the patients came in from the camps. The number of all forms of infectious diseases originating in the city was less than for some years past.

In previous reports I have made reference to the fact there was no suitable place for the isolation and care of the more serious form of contagious disease. The need of such a place has been forcibly demonstrated recently, when a number of cases of diphtheria were found in our city. There being no provision to meet the emergency, we were virtually compelled to place these cases in the Cottage hospital. With scrupulous care, isolating the patients in the upstairs, we succeeded in preventing any spread of the contagion. I would strongly recommend that steps be taken as early as possible to provide a small isolation hospital.

A number of milk tests were made during the year, showing, in each case, that the milk conformed to the required standard both in regard to the percentage of butter-fat and the absence of preservatives.

The presence of a Hindu colony in the West end continues to some extent a sanitary menace. Unless they can be made to adopt or conform to the most elementary rules of cleanliness they should be driven out of the city.

The pools of dead water that are at once unsightly and unsanitary, that may be seen for weeks after the annual freshet, in certain parts of the business or hotel district, might, I believe, be obviated at moderate cost by putting in a box or tile drain. I would again earnestly recommend this to the consideration of the council.

The question of a septic tank for the better handling of the sewage in the hotel district has engaged the attention of previous councils. I would advise that this council look into the feasibility of such a scheme.

It has been discovered that a number of citizens have discarded the dry-earth system of sewage disposal, and are adopting the privy-pits. These are unlawful, and should not be tolerated unless made a depth of seven or eight feet at least. It is well for the citizens to know that the dry-earth system is the most sanitary method of sewage disposal, in the absence of an adequate general sewerage system. But this is the case only when plenty of dry earth is used, i. e., sufficient to render the sewage dry or well oxidized. I would advise that the health inspector set apart one day a week during the warm season for making a

(Continued on Page Two.)

LUMBER INDUSTRY

Yale-Columbia Co.'s Mills will Cut About Forty Million Feet This Season

All Preparations Finished for Moving the Logs Over the Smelter Dam

J. G. Billings, manager for the Yale-Columbia Lumber company, was a visitor in the city his week. This company, which is now controlled by Minneapolis people, operate three mills in this province, one at Cascade, one at Nelson, and one at West Robson. It is the intention of the company to start up the Cascade mill before the 1st of April, and if the labor market will permit it, it will be operated night and day. The plant has a capacity of about 100,000 feet each 24 hours. With the logs the company has in the main Kettle river and the North Fork, this will mean a cut of about fifteen million feet for the season. The logs are of a good quality, tamarack and spruce predominating up the North Fork, while in the main river they are mostly pine. The Robson mill was started up on the 4th inst., and will run night and day, turning out about fifteen million feet, while the Nelson mill will run through ten million feet.

The booms at Smelter and the chute over the dam have been completed, marking the final step preparatory to moving the company's big supply of logs up the North Fork. As soon as the state of the river permits the drive will commence, and the four and one-half millions feet of logs will be landed at the company's mill at Cascade. The precautions taken to guard against damage by the logs to the Granby dam consist of a log chute, constructed by Geo. Taylor, 51 feet long by 16 feet wide; two booms, each about 500 feet long, extending up the river, enabling the drivers to feed in the logs singly if necessary; a strong boom one mile long at the upper end of the lake, and a safety boom at the lower end of the lake.

Mr. Billings is very optimistic regarding the lumber industry in this section of the province, and stated that he expected to see prices maintained and the demand good.

A Jobber Jobbed

A commercial traveler who makes frequent visits to this city, and who is well known here, has gained an enviable reputation among our citizens as a practical joker. Such harmless diversions as robbing hencoops, having the fowls cooked and then inviting his victims to chicken dinners, have been some of his mildest pranks. This sort of work has gone on until it became unbearable, and the boys around town decided to play even. With the aid of a female impersonator they laid their plans—laid them well. When their man arrived in the city last Friday they were ready for him, and when the shades of night began to fall he walked into their trap as innocently as a lamb goes to its slaughter. When the trick was exposed, about 11 o'clock, the drummer, of course, had to buy wine, and when the

crowd adjourned a couple of hours later there is said to have thirty-two empty champagne bottles behind the bar.

New Transportation Company

Incorporation papers have been issued for the organization of a new transportation company for Belcher mountain mines. The new company will be known as the Ore Purchasing & Transportation company, and will have among its shareholders C. Eugene Bortle, D. F. Anderson, E. J. Delbridge, J. L. Harper and others connected with Belcher interests. One object of the company is to take over and rapidly complete the Sky-Line Tram, the promoting association having gone out of business by the voluntary withdrawal of some of the promoters. The new company will probably become a feeder for the Belcher road, or it may in time enlarge its system to reach the different mines with an independent system. It is capitalized sufficiently high to carry out extensive plans should such plans be decided upon.

All's Well That Ends Well

Dan Morrison had a thrilling experience out at J. A. Hartley's ranch, two miles south of the city, last Friday. While engaged in cleaning out an old well, 45 feet deep, a cave in occurred from the top. Mr. Morrison succeeded in dodging the downpour of earth and rock by keeping behind the pump pipe, and as the bottom of the well gradually filled he worked his way upwards. During a brief cessation of the falling debris, Mr. Morrison was brought to the surface by Mr. Hartley, who worked the windlass with all possible speed. Had he not been brought to the surface as quickly as we was he might have been buried alive.

Police and License Commissioners

A Victoria dispatch states that the following appointments were gazetted last Friday:

Licensing Commissioners—
Grand Forks—Ald. McCallum, Robert McIntosh.

Grand Forks District—Robt. McIntosh, J. C. MacDonald, Thomas Newby. Inspector, I. A. Dinsmore. Greenwood—Ald. Desrosiers, W. B. Fleming.

Greenwood District—J. R. Jackson, Anaconda; T. Hardy, Midway; A. Stewart. Inspector, G. Cunningham.

Police Commissioners—
Grand Forks—Ald. McCallum, Robt. McIntosh.
Greenwood—Ald. Sutherland, Philip McDonald.

Great Northern Appeals

The Republic News-Miner says that notice of appeal to the supreme court from the decision of Judge Carey has been served upon the defendant company in the injunction case of the Great Northern Railway Company vs. The Spokane & British Columbia Railway Company.

False Alarm

An alarm of fire was turned in from the Henderson corner at about 9:30 last Monday night, but when the department arrived on the scene they failed to find the fire. It is presumed that some small boys were having fun with the fire box.

GRANBY DIVIDEND

The Stock Is Now Paying 8 Per Cent Per Annum on Par Value

\$2 Per Share Authorized to Be Distributed at Meeting This Week

At a meeting of the directors of the Granby Consolidated Mining, Smelting & Power Company, Limited, which was held in New York on Wednesday, a dividend was decided which puts the stock on a basis of paying 8 per cent on the par value of the stock, which is \$100 a share. It has been the custom of the directors to declare four dividends a year of 1½ per cent each. The dividend declared this week is said to be \$2 a share, which brings the total up to 8 per cent.

Plans for Improvements

The management of the Granby Co. is having plans drawn which, when carried out to their entirety, will mean the enlargement of the capacity of the present smelter of 33 per cent, or a total daily smelting capacity of about 4200 tons of ore. The present battery at the plant includes eight blast furnaces, the enlargement of which to a capacity of about 500 tons per day is now nearly completed, thus giving when coke supplies are adequate, a minimum capacity of some 3000 tons per day, even when one of the furnaces happens to be temporarily out of commission for repairs. The enlargements proposed by Mr. A. B. W. Hodges, the local manager, will consist of the addition of another water jacket to each of the present furnaces, thus obviating the necessity of erecting another or larger furnace building, the present building having recently been reconstructed of steel, making it fireproof.

Big Contract

The Grand Forks Steel Structural Works have secured a contract from the Granby company for the manufacture of 72 steel furnace jackets. Work on the contract has already been started, but it will keep the firm busy for some time.

Foresters Will Install

R. W. Timmins, high chief ranger of the High Court of British Columbia, with his headquarters at Vernon, B. C., will visit Court Kettle River No. 3575, Independent Order of Foresters, in this city, Monday evening, March 11th, and will install the newly elected officers of the court into office. This is the first high court officer that has visited the local court in the history of the order of the province.

No License

His honor Judge Brown has rendered a decision against the appellant in the appeal of R. A. Brown from the decision of the license commissioners in refusing him a renewal of license for the Volcanic hotel.

20,000 Club Meeting

A meeting of the 20,000 club will be held in the city hall at 8 o'clock next Thursday evening, March 14th. Everybody is requested to attend.

FRIDAY, MARCH 8, 1907

The Lord's Day Act is meeting with much opposition in Nelson and Rossland from the miners, mine owners and boards of trade.

Although the season is well advanced, the Grand Forks city council, the board of trade and the 20,000 club have a splendid opportunity to pass good resolutions on two important subjects.

COUNCIL MEETING

(Concluded From Page One)

general survey of the city, to compel the removal of all nuisances, and to make suggestions looking to the maintenance of the highest degree of cleanliness.

C. M. KINGSTON,
Medical Health Officer.

The mayor thought that the government should build an isolation hospital instead of the city. He also stated that a case of smallpox had been reported at Orient, and that the provincial authorities had acted very tardily in instituting quarantine proceedings against that place.

Ald. Donaldson, chairman of the special committee appointed to enquire into the advisability of purchasing Mr. Waterston's building for a workshop for the city electrician, reported that the committee had agreed upon \$200 as the price for the same in the event the council decided to buy.

There appeared to be quite a divergence of opinion among the aldermen as to whether or not the city needs this building, and even after a lengthy discussion no satisfactory conclusion was arrived at. Those who favored buying maintained that the city has no suitable workshop for the electrician, while those opposed to the deal declare that quarters can be found for Mr. Waterston in the city hall building, and that even if the building is purchased all the heavy work will have to be done at the power house. They all agreed on the point, however, that if the city needed the building, it would be cheaper to buy it than to pay rent. The matter was finally laid over till next Monday night in order that all sides of the question might be more fully investigated.

Ald. McCallum reported that Mr. Frankovich desired to purchase the old power house and the two lots on which it is located. The clerk stated that the Townsite and Granby companies had promised, at the time it was erected, to donate a lot each to the city for building the power house in that section of the city, but the deeds had never been turned over to the corporation, as a consequence of which the city had no title to the property. The present manager of the Townsite company had stated that if the city possessed documents showing that the promise had been made, he thought his company would still be willing to fulfill its part of the agreement. All that the clerk had found up the present time bearing on the subject was a resolution in the council proceedings. The matter was laid over till next Monday night.

The water and light committee was instructed to take the necessary

steps to have the electric light wires raised over the new traffic bridge.

Ald. McIntosh, chairman of the health and relief committee, reported that he had instructed the Hindus to clean their premises, but that when he had subsequently visited the West end he found that nothing had been done. The mayor said he would instruct the chief of police to act in the matter, and if the Hindus did not comply with the city's sanitary regulations they would be driven out of town.

The mayor said certain parties had made the charge that the tenders for the approach to the traffic bridge had been tampered with, and he wished to make an emphatic denial of the charge. Any one who was present at the meeting when the tenders were opened could bear out this statement.

The second regular meeting in each month was made the date for the payment of accounts against the corporation.

It was the general opinion of the council that the city team should be given more practice in the fire department.

The various committees were instructed to take an inventory of the tools belonging to the city. It was also the sense of the council that hereafter each committee be held responsible for the tools in its possession.

Ald. McCallum thought some steps should be taken to induce the Great Northern railway to make this city a divisional point. The mayor was of the same opinion. Good, strong resolutions should be adopted by the city council, the board of trade and the 20,000 club. Similar measures should be taken in regard to securing better freight rates. On motion of Ald. McCallum and Donaldson, the mayor was requested to appoint a committee to draft suitable resolutions. The mayor named Ald. McCallum, Woodland and Donaldson as such committee.

The council then adjourned till next Monday night

Blows In and Out

The sixth furnace was blown in at the Granby smelter the latter part of last week, but on Wednesday two of them were again temporarily blown out, presumably on account of coke shortage. This only makes half of the battery at present in operation. Nos. 7 and 8 furnaces are being enlarged, which, when completed, will make the entire battery the same size.

Demand for Copper

Concerning the present demand for copper, Henry R. Merton & Co., of London, in one of their recent market letters say: "There are still plenty of requirements to be covered and several new orders have been given out of late providing wire drawers and cable makers, tube and rolling mills with additional work. Various governments have placed or are about to give out new contracts requiring copper, the German post-

office having ordered quite recently a good quantity of telephone wire, our war office here purchased nearly 300 tons of copper and the French arsenal also is in the market for an important quantity of cartridge metal. In addition to all this, America is steadily sending orders for copper over here, and business has been done from here for delivery up to April."

CHURCH SERVICES

METHODIST CHURCH, E. Manuel, pastor.—Services next Sunday at 11 a. m. and 7:30 p. m.; Sunday school and Bible class at 2:30 p. m. Rev. C. Wellesley Whittaker will preach; subject, "Missions." Everybody invited.

BAPTIST CHURCH, Rev. F. W. Avache, pastor.—Services on Sunday at 11 a. m. and 7:30 p. m.

Associated Boards

The annual meeting of the Associated Boards of Trade of Southern British Columbia will be held in Greenwood next week, opening on Wednesday, March 13, at 3 p. m.

Amsden's Musical Comedy company will open a two nights' engagement at the Grand Forks opera house on Friday, March 15. The plays to be presented here will be "The Governor's Wife" and "The Mascot."

W. B. McDugall, an old resident of this city, will leave next week for Edmonton, near which city he owns a ranch. He will be accompanied by his mother, and they expect to reside permanently in the Alberta metropolis.

Police Magistrate W. B. Cochrane left this week for a brief visit to Vancouver.

Where Does Consumption Begin?

That first little tickle becomes a cough, the cough grows severe, is neglected and travels down to the lungs. Treat throat trouble before it gets severe. Catarrhzone heals, allays inflammation, cures throat and bronchial trouble quickly. A marvel worker is Catarrhzone, which prevents thousands of catarrh victims from contracting consumption. Recommended by doctors, proved by time to be un-failing. Catarrhzone is just what you need. 25c and \$1.00, sold everywhere.

Dance on Tuesday

Emil Larsen, proprietor of the Province hotel, will give a social dance to the guests of the house and friends next Tuesday evening, the 12th inst. A. C. Walgamott's orchestra will furnish the music.

They Give Wonderful Health

None are so healthy, so buoyant and full of life as those who regulate with Dr. Hamilton's Pills. Even in one night they work wonders. Fur and coating they take from the tongue, headaches they relegate to the past, biliousness and stomach disorders they prevent and absolutely cure.

Think what it means to have the system cleansed and purified by Dr. Hamilton's Pills. A true laxative, a perfect tonic, harmless and wholly vegetable in composition, they will do you good. To feel and look your best use Dr. Hamilton's Pills, 25c at any dealer's.

TOPICS OF THE TOWN

J. B. Henderson left Sunday morning for Bonnington Falls, where he will superintend the construction of two residences for the West Kootenay Power & Light company. The houses are intended for the superintendent of the company and the chief electrician, and will cost \$4000 and \$1600 respectively.

R. R. Gilpin last Saturday received a telegram from Winnipeg saying Dr. F. A. Sinclair, who was formerly attached to the customs service here, had died in that city

on Friday night. Mr. Sinclair was assistant appraiser in the customs service at Winnipeg at the time of his death. He was well and favorably known in this city, and his numerous friends here extend their sincerest sympathies to the bereaved family.

H. O. Worden, an old business man of Missoula, Mont., has been visiting A. M. Dunham in this city during the past week.

Ed Graham, of Princeton, arrived in the city last Saturday, and has accepted a position at the Club.

Mrs. P. D. McDonald and son Colin left Sunday morning for Vancouver, where they will visit friends for a couple of weeks.

Mrs. Peter Wright, who has been visiting her parents, Mr. and Mrs. Chas. Hay, in this city since the holidays, left yesterday for her home in Vancouver.

W. Bentley left Sunday morning for a business trip to Spokane.

FOR SALE—A two-story, four-room house and two lots in the Ruckle & Henderson addition; summer kitchen and woodhouse combined, and pumphouse. Easy payments. Apply this office, or address Box 355.

SUNBEAMS

A pretty young lady named Miss Tate, Who was shy and extremely sedate, One day got a whack At Drummer Mack's sack, Which showed she was quite up to date.

The man who is sweet on the servant girl has a domestic taste.

When a man gets too old to set a bad example he begins to give good advice.

A wise husband does not praise his wife's bonnet until he has seen the bill for it.

One may be in touch with the toothache without actually being in sympathy with it.

The burning question in this city last Friday night was a discussion as to the best method of singeing the hair.

Switzerland has a beautiful city by the name of Jags, but you can see some of the prettiest jags by staying at home.

Only six things are essential to the formation of a happy home. The first is a good cook and the other five are money.

It does not change the weather to complain about it, but there is a certain satisfaction in a good vigorous kick once in a while.

The first thing a man does in the morning is to feel for his pocket-book, and the first thing a woman does is to look in the mirror.

A preacher recently warned his congregation that neither gold nor silver should be depended on as a safe basis for final redemption.

Tobacco has claimed another victim. John Lynch died on Sunday. He was a very heavy smoker and one hundred and three years old.

A medical paper says that a human body can now be embalmed so as to insure identification three thousand years after death. That may be so, but who is to do the identifying?

A newspaper reporter who interviewed thirty successful business men, found that all of them when boys had been governed strictly and frequently thrashed. He also interviewed thirty loafers, and learned twenty-seven of them had been mamma's darling, and the other three had been reared by their grandmothers.

Some time ago a boy was required by his teacher to write an essay on "The Mouth," and this is what he wrote: "The mouth is the front door of the face. It is the aperture to the cold storage of our anatomy. It is the hotbed of toothache and the bung-hole of oratory. The mouth is the foundation of patriotism and the tool chest for pie. Without a mouth the politician would be a wanderer on the face of the earth and go down to a dishonored grave. It is the grocer's friends and the dentist's hope. It is the temptation lunch counter when attached to a pretty girl, and is a tobacco repository when attached to a man."

TOPICS OF THE TOWN

Mr. and Mrs. H. S. Turner, formerly of this city and San Francisco, but who have been residing in Phoenix for nearly a year past, passed through the city Sunday morning en route to Tillamook, Oregon, where Mr. Turner owns a tract of timber lands.

During the past week or ten days there has been considerable talk among railway men of the C.P.R. moving its repair shops from Eholt to this city. Although no official confirmation of these reports can be obtained, a number of the employees of the road express the belief that "it's a go this time."

Last Saturday The Sun man was shown a sample of home-grown and home-cured tobacco that looked good enough to smoke. The weed was grown by Mr. Smith on the old Gauthier ranch, west of the city limits, and he has about a ton of it on hand. The climate of this valley is said to be well adapted to tobacco growing, as it can be cured without mildewing.

A special revival meeting was held in the Salvation Army hall on Thursday evening, Mrs. Clark speaking especially to young men.

G. M. Fripp, local manager for the British American Trust company, left Sunday morning for a business trip to the coast cities.

FOR RENT OR LEASE—32-room flat. Apply at Dr. G. W. Averill's residence.

Ex-Alderman J. D. McDonald left on Tuesday for the coast cities, with the intention of locating permanently at some point out there. For the present at least his family will continue to reside in this city.

Since the enforcement of the new Lord's Day Act, all unnecessary Sunday work in the mechanical departments, and also common labor

NOTICE

NOTICE is hereby given that I will apply, at the next meeting of the License Commissioners for the Grand Forks License District, for transfer of the Retail Liquor License for the Northern hotel, situate at Bannock City, Yale District, from the undersigned to Robert Lindholm, of Bannock City aforesaid. Dated the 14th day of November, 1906. FRANK HARTINGER.

not absolutely required, has been discontinued at the Granby smelter.

City Solicitor Miller left the first part of the week for a trip to Victoria.

Rubber tires for baby carriages at Miles' 2nd-hand store, Bridge street.

Dr. W. Truax, of this city, attended the annual meeting of the Boundary Medical association in Phoenix last week.

The Boundary Medical association met in Phoenix last week, when the following officers were elected for the ensuing year: President, Dr. G. S. Gordon, of Phoenix; vice president, Dr. W. Truax, of Grand Forks; secretary-treasurer, Dr. W. H. Dickson, of Phoenix.

Arthur W. Haley, who has been C.P.R. agent in Phoenix for the past two years, has tendered his resignation, and will remove to Coeur d'Alene City. He will be succeeded by Geo. T. Moir, of Sandon.

John McInnis, M.L.A. for Grand Forks riding, left for Victoria last week, to be present at the opening session of the legislature.

About forty men are at work at the British Columbia Copper company's Napoleon mine, near Marcus, under Superintendent Harry Johns. The property continues to improve, and bids fair to become one of the most important holdings of the company. The new tramway to the Great Northern railway will greatly facilitate ore shipments.

George K. Stocker, manager of the Cascade Townsite company, and one of the oldest residents of the Boundary, has sold his residence at Cascade to Joseph J. Genelle and will remove with Mrs. Stocker to Spokane, where he has been located in the real estate line for a year or two.

Julius Ehrlich, for nine years connected with P. Burns & Co. at

Greenwood, and well known all over the Boundary, left last week with his family for Mullan, Idaho, where he has accepted the position of manager for the Tiger Mercantile company, one of the large concerns of the district.

Greenwood's school estimates call for the expenditure of \$3425 during 1907.

C. A. Arnott has succeeded Harry Dench as agent of the C.P.R. at Eholt, the latter going to Nelson.

Duncan McIntish has sold his interest in the Russell-Law-Caulfield Company, Ltd., at Greenwood, to J. A. Russell.

The local Oddfellows' lodge will give a grand ball on or about the 18th of April.

Great Specialists in Stomach Catarrh

Though often they fail to give even temporary relief, Mr. W. Seymour, of Huntsville, Ont., cured himself with Ferrozone. "My trouble," he says, "was chronic catarrh of the stomach. There was constant bad taste in my mouth, I was costive and usually nauseated before and after meals, I also had a gnawing sensation in the stomach. Ferrozone gave me great relief, and I also used Catarrhozone, which is good for catarrh. Although it took a number of boxes of Ferrozone, I got back my health, and today am quite well." For stomach catarrh, indigestion and kindred disorders nothing excels Ferrozone. In a thousand cases it has proved a wonderful success. Try it yourself, 50c per box at all dealers

Try This for Your Cough

To relieve a cough or break up a cold in twenty-four hours, the following simple formula, the ingredients of which can be obtained of any good prescription druggist at small cost, is all that will be required: Virgin Oil of Pine (Pure), one-half ounce; Glycerine, two ounces; good Whisky, a half pint. Shake well and take in teaspoonful doses every four hours. The desired results cannot be obtained unless the ingredients are pure. It is therefore better to purchase the ingredients separately and prepare the mixture yourself. Virgin Oil of Pine (Pure) should be purchased in the original half-ounce vials, which druggists buy for dispensing. Each vial is securely sealed in a round wooden case which protects the Oil from exposure to light. Around the wooden case is an engaged wrapper with the name—"Virgin Oil of Pine (Pure)"—plainly printed thereon. There are many imitations and cheap productions of Pine, but these only create nausea, and never affect the desired results.

NOTICE

In the matter of the "Land Registry Act," and in the matter of the Title to Part 20 acres of Lot 530, Group I, Osoyoos Division, Yale District.

WHEREAS, the Certificate of Title of Mary W. H. Edmonds, of Title No. 7850a, to the above hereditaments, has been lost or destroyed, and application has been made to me for a duplicate thereof.

NOTICE is hereby given that a duplicate Certificate of Title to the above hereditaments will be issued at the expiration of one month from the date hereof, unless in the meantime valid objection to the contrary be made to me in writing.

W. H. EDMONDS, District Registrar of Titles. Land Registry Office, Kamloops, B.C., November 24th, 1906.

NOTICE

NOTICE is hereby given that thirty days after date I intend making application to the Chief Commissioner of Lands and Works for a special license to cut and remove timber from the following described lands: Commencing at this post, located on the east bank of Savage creek, a west branch of the North Fork of Kettle river, at a point 75 feet southeast of where a landslide or dry wash enters said creek from the west side, and where a small jam or pond is formed on, and about three miles from the mouth of said creek; thence running west 40 chains; thence south 80 chains; thence east 80 chains; thence north 80 chains; thence west 40 chains to place of beginning, containing 604 acres. Located this 20th day of October, 1906. J. F. MAJOR, Locator.

NOTICE OF FORFEITURE

To Wm. James Nelson, of Roseland, B. C.: You are hereby notified that I have expended \$100 in labor and improvements on the "Vermont" Mineral Claim, situated in the Grand Forks Mining Division, of Yale District, in British Columbia, to count as assessment on said claim, as will appear by certificate of work recorded in the office of the Mining Recorder for the said Grand Forks Mining Division, in order to hold said claim under the provisions of Section 24 of the Mineral Act, such being the amount required to hold the said claim for the year 1906. And if at the expiration of 90 days of publication of this Notice you fail or refuse to contribute your portion of the expenditure required under Section 24, together with all costs of advertising, your interest in said claim shall become vested in the subscriber (one of your co-owners) under Section 4 of the Mineral Act Amending Act 1900. Dated at Grand Forks, B. C., this the 30th day of November, A. D. 1906. DAN MORRISON.
