INSTANT DEATH

Joseph Moyland, Brakeman at Gramby Smelter, Terribly Mangled

Coroner's Jury Return a Verdict of Accidental Death After Long Session

An accident by which Michael Moylan, a brakeman on one of the slag trains, met instant death, occurred at the Granby smelter at a few minutes to 12 o'clock last Sunday night.

No one witnessed the fatality, and it is therefore impossible to give a lucid description of how it happened. It appears that the slag train on which Moylan was employed was standing on a curve just outside the smelter. The engineer occupied a seat on the engine on the outside of the curve, and his view over the train was therefore cut off. He states that he thought he saw Moylan jump on the from part of engine, and then disappear from view. He supposed that he had boarded the train all right. That was the last time he saw him alive. On starting the train, the engineer says he thought he heard a short, sharp cry, and instinctively divining that something was wrong, the train was stoppeed before the engine had run its own length. The damage had already been done, nowever, as Moylan's lifeless and mangled body was found under the wheels of the train. The body had been terribly mutilated by the train, the head being cut open, deep gashes cut in other portions of the body, and various limbs broken. The remains were at once removed to Cooper's undertaking parlors, whence the funeral was held.

Monday afternoon Coroner Kingston empanneled the following jury: N. L. McInnes, foreman; Jas. McArdle, H. A. Sheads, M. D. White, A. E. Smith, and Ed Davis. After viewing the remains, and listening to evidence up to 11 o'clock that night, the jury returned a verdict that the unfortunate workmen met death as the result of an accident. As a rider to this verdict, a recommendation was added that in future the Granby company keep its yards as free as possible from refuse material and other obstructions in order to further safeguard the limb and life of its employees.

Moylan was a young man, between 30 and 31 years old. He was a relative of Miles Barrett, the general foreman of the smelter, the two having married sisters. He was a recent arrival in the city. A widow and two children survive him to mourn his loss. The funeral, which was held from the family residence at 9:30 this morning, was postponed until today in order to allow one of the brothers of deceased to reach the city from Kansas City. A large number of citizens and fellow workmen attended the last sad rites and followed the remains to their last resting place.

Judge J. R. Brown, of Greenwood, arrived in the city last night, and is in chambers today.

A Runaway

Geo. Taylor had another spurt of speedy traveling last Saturday morning, his horses concluding that they were able to set their own pace and to give an exhibition as guideless wonders. They had not traveled far before the tongue of the sleigh broke, and on crossing the Winnipeg avenue bridge the conveyance and driver came very close to being ditched two or three times. The rig was stopped a short distance on the other side of the C.P.R. tracks in Columbia. Mr. Taylor was thrown, and received a severe shaking up and a slightly bruised face.

Change of Firm

John Donaldson, who formerly conducted a cigar and confectionery store on the corner of Bridge and First streets, has purchased the general store in the West end recently owned by J. H. Hodson. Mr. Donaldson has also purchased the building in which the store is located, and took possession of the premises last Monday morning. The new owner is well and favorably known both in the city and the surrounding country, and will undoubtedly do a thriving business and acquire a fortune in a few years.

PUBLIC SCHOOL REPORT

Following is the report of the Grand Forks public school, as compiled by Principal May, for the month of February:

	Enrolled.	*Actual.*	*Average.*	*Percentage.*
Division 1..	39	656½	32.82	84.15
Division 2..	43	793	39.65	92.21
Division 3..	35	549½	27.47	78.48
Division 4..	45	781½	39.07	86.82
Division 5..	46	813	40.65	88.37
Division 6..	37	689½	34.47	93.16
Division 7..	30	537	26.85	80.50
Totals....	275	4820	240.98	87.53
1907.....	288	4302	222.85	77.38
Difference..	13	498	18.13	10.15

CUSTOMS RECEIPTS

R. R. Gilpin, customs officer at this port, makes the following detailed report of the customs receipts at the various sub-customs offices, as reported to the chief office in this city, for the month of February:

Grand Forks	$1,769.50
Phoenix	1,705.66
Carson	55.99
Cascade	40.35
Total	$3,571.50

McKinley Mines

F. A. Ross, of Hedley, one of the officers of the Nickel Plate mine, was a visitor in the city last Tuesday. The Nickel Plate mine, which is situated five miles up the mountain side from Hedley City, is now working its full capacity of 140 men. No labor difficulties have affected this property, and the miners are being paid $3.50 per day. The mine is now operating 110 stamps, and is daily shipping its high grade concentrates by freight teams to Keremeos, whence they are reshipped by rail to New York. The ore of the Nickel Plate runs about $80 per ton in gold and silver.

Lenten Services

Special Lenten services will be held at Holy Trinity church as follows: Ash Wednesday, March 4th, 11 a.m. and 8 p.m.; every Wednesday at 8 p. m.; every Friday at 4 p.m. Holy week services will be announced later.

SPRAYING TREES

Department of Agriculture Takes Action to Exterminate Fruit Pests

Provincial Inspectors Will Soon Make Their Trips Through Country

It is reported from Victoria that between fourteen and eighteen men will be employed immediately by the department of horticulture in inspecting orchards throughout the province, a vigerous orchard cleansing campaign having been instituted by Mr. Thomas Cunningham, provincial inspector of fruit pests, who is supervising the work.

Regarding orchard cleansing, each owner is furnished with an official notice dealing with the work and also a bulletin describing all sprays and when to use them. Later the party is handed a certificate showing the number of trees inspected and giving the number of the inspector.

The notice issued by Mr. Cunningham, which will be of interest to fruit growers throughout the province, is as follows:

Early in the spring of 1907 it was decided that a concerted effort should be made to have the orchards and gardens, where fruit trees and ornamentals are grown, cleansed from insect pests and fungoid disease which have become very prevalent on Vancouver Island, the islands adjacent thereto and the lower mainland.

A number of experienced men were engaged to iuspect trees and give instructions as to the proper methods to be used. Spraying bulletins were issued and placed in the hands of the owners or lessees of such property, and official notices were served that by a specific date the infected trees, shrubs or bushes, as the case might be, must be thoroughly sprayed or prosecution would follow.

Unfortunately at that time there was a scarciy of spray pumps, owing chiefly to the congested state of the railways. Freight that had been three months in transit had not yet reached its destination, so that it was practically impossible for persons whose intentions were otherwise good, to carry out the spirit of the notice. There was also at that time a great scarcity of available labor. These coneiderations have been carefully weighed, and will explain why there has been delay in the enforcement of the terms of the said notice.

The circumstances today are entirely different. Spray pumps and materials may be had at short notice, and there is abundance of labor available, so that there is no longer an excuse for delaying the immediate treatment of infected and diseased trees.

Organized inspection has already begun, and expert advice as to the proper remedies to be used is being given; official notices are again being served on the parties in possession of infected trees, bushes and plants, and a ready compliance with the terms of such notice will be insisted on.

The reproach of permitting the existence of diseased and infected fruit trees in this fair province, which has already attained to the highest standard, should be rolled oway. The regulations governing the importation of nursery stock, trees, plants and fruit are faithfully enforced. No diseased or infected trees, plants or fruit is permitted to enter this province. The enforcement of these valuable regulations involved the condemnation of over 50,000 trees and 8000 packages of infected fruit for the season ending May 30th, 1907, and in a like proportion has been condemned since that date.

The enforcement of these regulations against imported nursery stock and fruit cannot be defended so long as we permit the existence of infection in our own gardens, orchards and nurseries.

Fruit growing is now a fundamental industry in British Columbia. Its safety is dependent mainly on clean, healthy fruit trees, so that it would be nothing sort of criminal negligence to permit this valuable industry to be imperilled by the carelessness of the owners, or parties in possession of infected fruit trees. The terms of the notice herewith shall be enforced, no matter how disagreeable the duty of such an enforcement may be.

The Mining Institute

Ottawa, March 4.—The welcome of the Dominion government and the department of mines was extended by Hon. Wm. Templeman to over one hundred members of the Canadian Mining Institute, who gathered in the Russell this morning in the first session of their tenth annual general meeting.

Frederick Keffer, Greenwood, B.C., president of the institute, presided. The session was brief, as it was decided not to take up the business portion of the program until Thursday morning. At the afternoon session several papers on mining subjects were read and considered. The session continues until Friday.

Members of the institute are from all over Canada and include both academic and practical men. Men from the Cobalt district are numerous. Among those who will present papers are Prof. C. K. Leith, of the University of Wisconsin; Dr. Stanfield, McGill University; A. B. Willmott, Sault Ste. Marie; N. E. Leech, Sudbury; F. Keffer, Greenwood; A. B. W. Hodges, Grand Forks; C. M. Campbell, Phoenix; W. M. Brewer, Victoria; C. S. Baker, Greenwood; A. E. Hepburn, Vancouver, and R. C. Campbell-Johnson, Vancouver.

Vhe Nickel Plate

P. A. O'Farrell, of New York, the well known newspaper writer, and A. B. Mackenzie, of Rossland, secretary of the McKinley Mines, Ltd., were in the city last Tuesday. Both of these gentlemen are heavy stockholders in the well known Franklin camp property, and a conference was held with some of the local shareholders in the evening as to the best course to pursue in the future if certain expectations should eventuate. The annual meeting of the company was held in Rossland recently.

Mining Stock Quotations

New York, March 4.—The following are today's opening quotations for the stock mentioned:

	Asked.	*Bid*
Granby	90.00	75.00
Dominion Copper	2.25	2.12½
B. C. Copper	4.37½	4.00

Metal Quotations

New York, March 4.—Silver, 55¼; electrolytic copper, 12½@12½

London, March 4.—Lead, £13 12s 6d; silver, 25½.

Andrew Waugh, who left the city for the coast a couple of weeks ago to recuperate from the effects of a protracted attack of rheumatism, returned home Monday evening. A relapse had set in, and the patient is quite low at present.

Wait for the best. R. H. Trueman, the well known Vancouver photographer, will shortly make another visit to Grand Forks. He will be at Blome's old studio on Bridge street for ten days, commencing Friday, April 10th.

THE CITY COUNCIL

Short Session and Very Little Business Was Transacted

Petition From Ratepayers Against K. V. L. Siding Laid Over

The regular bi-weekly meeting of the city council was held in the council chambers Monday evening, the mayor and all of the aldermen with the exception of Ald. McArdle being in attendance.

A communication from the provincial secretary announced the appointment of Ald. McArdle and David Whiteside as police and license commissioners. Mayor Fripp explained to the council that he had recommended Ald. Clark to the Victoria government instead of Ald. McArdle, but he supposed the change had been made on political grounds. The communication was ordered filed.

The monthly report of the fire chief gave a full account of the fires that have occurred in the city during the past month. He recommended that the sleeping quarters for the firemen be increased. The report was referred to the water and light committee, with instructions to report.

Provincial Health Officer C. J. Fagan, in a commnnication, informed the council that the annual meeting of the B. C. Anti-Tuberculosis society would be held in Victoria, and invited the city to send delegates. The letter was ordered filed.

A petition was read from the property owners near the court house, protesting against the Kettle Valley line siding in that vicinity, and asking the council to compel the company to remove the same below Main street, in accordance with the original plans, and to prohibit the construction in future of any sidings above Fourth street. Action on the petition was deferred.

The chairman of the board of works reported that booms would be required to protect the piers of the Fourth street bridge from sawlogs and driftwood during the annual spring freshet. The committee was instructed to make further investigations and submit a fuller report to the council.

The question whether or not the fire department should respond to calls coming from outside the city limits was discussed briefly. It appeared to be the opinion of the council that in such cases the department should act under the instructions of the water and light committee.

Discussion on railway matters was postponed until the next meeting.

Clemence Clerc wanted the council to put in a boom to protect her property from the inroads made anpually by high water. It appears that the pier in the Kettle Valley line bridge has a tendency to change the current so as to throw it onto her lots. The council thought that she should make her complaint to the railway company.

The council then adjourned.

NOTICE

To the Citizens of Columbia, Grand Forks and Vicinity

HAVING recently purchased the building known as Hodson & Co.'s store, we are going to carry on a

General Mercantile Business

The first of our new stock is being unloaded today. We will have new goods on the way constantly, insuring our customers getting the freshest stock to be had.

We earnestly solicit a share of your trade.

FRIDAY, MARCH 6, 1908

As an indication of the value to be placed upon Conservative opinions, it is interesting to note that, upon the discussion in the Dominion parliament of Mr. Oliver's resolution granting land to South Asrican veterans resident in Saskatchewan, Alberta and Manitoba, the Conservatives contended that the lands of the new provinces belonged to the Dominion, and therefore those veterans residents in other provinces who had already received recognition from the government of the province in which they reside, should also receive a slice of this land. When one recalls how strenuously the opposition contended during the passing of the autonomy bills that these lands belonged to the provinces and were being wrongfully retained by the Dominion government, it is, to say the least, amusing. Mr. Borden's "platform of platitudes" also contains a plank calling for the "restoration of the public lands to Alberta and Saskatchewan upon fair terms." If Mr. Borden was right when pasfing the autonomy bills with respect to the title of these lands, then he is wrong now. If he is right now, then he was wrong then—you take oour choice. If the government followed Mr. Borden's suggestion of last week, and divided thousands of acres of these lands among veterans who had already received a grant of land, and do this upon this upon the presumption that the government owns the land, how would Mr. Borden proceed to "restore" the lands to the new provinces? This is a dilemma in which the leader of the opposition has placed himself, and it is about on a par with other inconsistent ideas advocated by the remnants of a great party which he leads.

The city council could adopt no better method of beautifying the city at small cost than be offering first, second and third prizes for the prettiest and best kept lawns. This scheme has been tried with great success in other cities. It has been found to act as a wonderful stimulous in the maintenance of handsome yards by the citizens; and a pretty residential section gains a repuation of beauty for a city quicker than anything else. The plan is worth trying. The prizes should be sufficiently large to make the competition for them keen.

RANDOM REMARKS

This is a queer civilization. It is a terribly wicked thing for a strong, healthy man to work a few hours on the Sabbath; but if the frail and sickly housewife does not put in the whole day preparing a nice Sunday dinner, we immediately raise a howl of discontent.

This is the season of the year when the athlete dons his sweater, of gaudy colors, walks about the city in his pride and muscular strength, while his mother at home has to split the wood with which to cook his meals.

A man who boasted that he had not taken a vacation in forty years took a day off last week to attend his own funeral.

When you're in the right, you can afford to keep your temper and when you're in the wrong you can't afford to lose it.

Ancient history is merely a collection of epitaphs—and the stuff printed as news in our contemporaries.

Once in a great while a man is fortunate enough to be broke when a friend drops in to sell him a gold brick.

It's a fortunate thing for mankind that the fool killer is about three score and ten years behind with his work.

When some women cast their bread upon the water it comes back in the guise of bread pudding.

Capacity to improve the ideas of somebody else is not plagiarism—it is the best sort of originality.

A man who is all for himself is of small value to anyone else and a poor asset to himself.

Profane language has no charms for the man who won't even swear at an alarm clock.

You need not make your competitor your confidant, but yo can make him your friend.

You can't transform a woman into a hat, but a hat frequently becomes a woman.

Between a full moon and a full man there is a difference of several thousand m les.

Fortunate for a married man, the advice his wife hands him doesn't cost anything.

If vital statistics are reliable, the most fatal malady appears to be heart failure.

Unless a man makes a woman jealous he will never know how mean she can be.

If you want to hit the mark, aim at it; don't shut your eyes and pull the trigger.

If the office sought the man there would be fewer men running for office.

Most men would rather help with the anvil chorus than play second fiddle.

Non-union people are not necessarily excluded from union services.

Some men are so eager to obtain an office that they have to run for it.

Instead of using profane language a woman gives a cursory glance.

People who cast reflections usually stand in their own light.

The more a man knows the less he knows for publication.

Many a man who gets smart is made to smart for for it.

Things that are better left unsaid are sure to be heard.

Some people are so rich they don't have to keep a dog.

One man's rights end where another man's begin.

Wise is he who profits by the experience of others.

Attention is called to the new advertisement of John Donaldson in this issue of The Sun.

The semi-annual election of officers held yesterday by Grand Fork Labor union, in their hall on First street, resulted as follows: President, A. E. Hardy; vice-president, Tom Burton; secretary-treasurer, Thos. J. Benninger; recording secretary, J. N. Currie; conductor, Wm. Bunting; warden, M H. Burns; trustees, L. Crossen, Tom Burton and H. H. Spinks.

The photographic studio on Bridge street has been opened by Mr. Broadbridge who intends locating in this city.

PERSONAL

H. W. Warrington, chief engineer of the Kettle Valley line, left on Wednesday for his recently acquired fruit ranch at Grant's Pass, Ore., where he will remain until construction work on the roap is resumed.

A party of Great Northern officials, including Superintendent Morgan, arrived in the city last Monday in a private coach, and made a trip of inspection to the Granby smelter.

P. H. Burnham, district freight and passenger agent of the Great Northern, with headquarters in this city, returned the latter part of last week from a trip to the Kootenays.

A. B. W. Hodges, general superintendent of the Granby Consolidated, is in Ottawa in attendance at the tenth annual general meeting of the Canadian Mining Institute.

Mr. and Mrs. Geo. Taylor and daughter Palma returned home on Sunday from Spokane, where the latter submitted to a successful operation for a nasal trouble.

Archie McAlpin, of Brandon, Man., who has been visiting at the home of his sister, Mrs. A. D. Morrison, for a short time, left on Tuesday for the coast cities.

On Monday last Mr. and Mrs. H. C. Hanington left with their infant son for Spokane, where the lttter is to be operated on for a facial trouble.

Jeffery Hammar, local manager for P. Burns & Co., returned home the latter part of last week from a trip to Creston.

James Rutley and wife, formerly residents of Grand Forks, arrived in the city last night from Chewelah, Wash.

Miss Ruby Henderson, of Cqilliwack, is visiting in this city at the home of her brother, R. A. Henderson.

Blake Wilson, of Nelson, district manager for P. Burns & Co., was a visitor in the city last Wednesday.

Mrs. A. E. Smith and son left last Sunday for Portland, Ore., where they intend to reside for some time.

Dr. Kingston returned home Saturday noon from a short visit to Nelson.

Arthur Henderson returned home on Sunday last from the coast cities.

E. Miller, barrister, left last Monday for the coast cities.

NOTICE—"Phwat did you sa ay?" "I said shure an' de Ladies' Aid of the Methodist church is havin' a sooshal on de avenin' af St. Patrick's day, at de home av Mr. and Mrs. Woodland. Synopsis of Canadian Homestead Regulations

ANY available Dominion Lands within the Railway Belt of British Columbia may be homesteaded by any person who is the head of a family, or any male over eighteen years of age, to the extent of one-quarter section of 160 acres, more or less.

Entry must be made personally at the local land office for the district in which the land is situate.

The homesteader is required to perform the conditions connected therewith under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year for three years.

(2) If the father (or mother, if the father is deceased), of the homesteader resides upon a farm in the vicinity of the land entered for, the requirements as to residence may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements as to residence may be satisfied by residence upon the said land.

Six months' notice in writing should be given the Commissioner of Dominion Lands at Ottawa of intention to apply for patent.

Coal—Coal mining rights may be leased for a period of twenty-one years at an annual rental of $1.00 per acre. Not more than 2,560 acres shall be leased to one individual or company. A royalty at the rate of five cents per ton shall be collected on the merchantable coal mined.

W. W. CORY,
Deputy of the Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

We are still offering The Sun and the Toronto Weekly Globe and Canada Farmer for $1 per year in advance. The illustrated supplement that accompanies the Globe is worth twice the money we ask for the two papers.

The Sun and the Toronto Weekly Globe for $1.00per year.

IS MIXED OFTEN

How to Prepare a Simple Mixture to Cure Rheumatism

This Dread Disease Yields Readily to a Home-Made Prescription

Some remarkable stories are being told about town and among the country people coming in of this simple home-made mixture curing rheumatism and kidney trouble. Here is the recipe and directions for taking: Mix by shaking well in a bottle one-half ounce Fluid Extract Dandelion, one ounce Compound Kargon, three ounces Compound Syrup Sarsaparilla. Take as a dose one teaspoonful after meals and at bedtime.

No change need be made in your usual diet, but drink plenty of good water.

This mixture, writes one authority in a leading Philadelphia newspaper, has a peculiar tonic effect upon the kidneys, cleansing the clogged-up pores of the eliminative tissues, forcing the kidneys to sift and strain from the blood the uric acid and other poisonous waste matter, overcoming rheumatism, bladder and urinary troubles in a short while.

A New York druggist who has had hundreds of calls for the ingredients since the first announcement in the newspapers last October, states that the people who once try it "swear by it," especially those who have urinary and kidney trouble and suffer with rheumatism.

The druggists in this neighborhood say they can supply the ingredients, which are easily mixed at home. There is said to be no better blood-cleansing agent or system tonic known, and certainly none more harmless or simple to use

Free Text Books

Free text books for the schools of British Columbia, both rural and city, has been decided upon by the provincial government.

Such was the announcement of Hon. Dr. Young to the legislature a few days since.

This decision has been the outcome of long consideration by the minister of education, and he has been engaged upon the plan far some time. The necessary machinery for the distribution of the school books will shortly be provided and the province will be in the forefront of Canada, and indeed of America in this regard.

The distribution will be in the hands of the department at Victoria, and the appointment of additional officials will be necessitated. In all there are some 32,000 pupils attending the schools of the province, and the distribution alone will be a source of considerable expense.

The provincial government purchases the books from various eastern firms at a much lower price than the cost of manufacturing here would be.

This has been demonstrated by the case of California. In the latter state the attempt was made to print the books by the government and distribute them at cost. The geography in use there is the same as here, and while the retail trade in this province supplies the book at $1, in California the cost price alone was $1.25.

The provincial government obtains most of the text books from the Copp-Clark company of Toronto, the Morang Publishing company and other eastern firms.

The first books to be distributed will be readers.

The Circus Trust

As bright and fresh as a spring morning, coming direct from its triumphant engagement of over four weeks in the city of San Francisco, the greatly enlarged, newly equipped colossal Greater Norris & Rowe circus, museum, menagerie, hippodrome and congress of nations will exhibit here this spring. By arrangement with the powers that be of the big circus combine, and made operative this season, each of the circuses to the agreement will have a certain territory. The Barnum & Bailey circus has been given the New England states; the Forepaugh-Sells circus has been withdrawn from the field entirely; the Ringling Bros. will make the middle West and Southern states, and the Greater Norris & Rowe circus has been given the entire territory west of the Rockies. By this arrangement but one of the big circuses of the country will visit any given territory any one year. In this way much will be saved which will be put into the excellence of the programs of the several big circuses. The Greater Norris & Rowe circus has been enlarged to such an extent that it is now on a par, as far as equipment and paraphernalia are concerned, with any of the other circuses in this big combine. This is made so for the reason that each of the circuses will alternate the territory, and will be seen only once in three years in any particular section of the country. The Greater Norris & Rowe circus secured and absorbed all of the animals in the Chutes in San Francisco. This was the greatest purchase of animals by any one concern ever consummated in this country. The performers engaged are mostly of European reputation. There is but one agent in Europe securing the big acts for all of the shows of the combine, and each of the big circuses are supplied with their sensational features from the same source. If in union there be strength, the Greater Norris & Rowe circus has taken a step forward this year that has placed them in the very fore of the great amusement managers of the world. It requires forty-four double length cars to transport it from city to city.

CITY NEWS

Two hundred and eighty acres of the old Newby ranch have been surveyed and subdivided into ten and twenty acre tracts, and blue prints of the same are now on file at McCallum & McArdle's office. The whole of this ranch is comprised of 600 acres. Two first water rights go with this land.

In the case of Atwood vs. The Kettle Valley Railway Co., which was concluded in the supreme court at Nelson last Thursday, judgment was reserved. The interested parties in the case do not expect that a decision will be handed down for a month or six weeks.

Work on the new Queens hotel in the West end was started last Monday morning.

CHURCH SERVICES

KNOX PRESBYTERIAN CHURCH—Sabbath services at 11 a.m. and 7 p.m.; Sabbath school and Bible class at 2:30 p.m.; Young People's Society of Christian Endeavor, Monday, 7:30 p.m. All are cordially invited; seats free.

METHODIST CHURCH, Rev. Schlichter.—Services next Sunday at 11 a.m. and 7:00 p.m.; Sunday school and Bible class at 2:30 p.m. All are welcome.

BAPTIST CHURCH, Rev. F. W. Auvache, pastor.—Services on Sunday at 11 a.m. and 7:30 p.m.; Sunday school and Bible class at 3 p.m.

For Sale—Brand new No. 3 Graphophone; cost $50; also $14 worth of records; will sell at a sacrifice if taken at once. Particulars at this office

You might as well try to reach the orb of day by walking on a sunbeam as to attempt to reach The Sun readers by advertising in any other medium.

THE

COPPER

HANDBOOK

(New Edition Issued Nov. 15, 1906.)

Is a dozen books in one, covering the history, geography, geology, chemistry, mineralogy, metallurgy, terminology, uses, statistics and finances of copper. It is a practical book, useful to all and necessary to most men engaged in any branch of the copper industry.

Its facts will pass muster with the trained scientists, and its language is easily understood by the everyday man. It gives the plain facts in plain English without fear or favor.

It lists and describes 4626 copper mines and companies in all parts of the world, descriptions running from two lines to sixteen pages, according to importance of the property.

The Copper Handbook is conceded to be the

World's Standard Reference Book on Copper

The mining man needs the book for the facts it gives him about mines, mining and the metal.

The investor needs the book for the facts it gives him about mining, mining investments and copper statistics. Hundreds of swindling companies are exposed in plain English.

Price is $5 in Buckram with gilt top; $7.50 in full library morocco. Will be sent, fully prepaid, on approval, to any address ordered, and may be returned within a week of receipt if not found fully satisfactory.

An Offer Which Meets the Special Wants of All Classes of Readers

The Western Canadian reading public is made up chiefly of these classes: Persons who have lived in the West for a lengthy period and are out and out Westerners, and recent arrivals from the Old Country, from the United States and from Eastern Canada.

Perhaps no one newspaper could cater with complete satisfaction to all these classes, but by this combination offer every special need is met

The Weekly Free Press and Prairie Farmer gives a complete record week by week of all happenings in the Western Provinces. In addition it has special departments for American and British settlers. The Family Herald and Weekly Star supplies the former resident of Eastern Canada with the news of the Eastern portion of the Dominion in detail, and the Grand Forks Sun provides the local and Boundary news, which you cannot do without.

.....190 .....

GRAND FORKS SUN:

Find enclosed $2.00, for which send me Weekly Free Press and Prairie Farmer, Winnipeg; Family Herald and Weekly Star, Montreal; and the Grand Forks Sun, for one year each.

.....

.....

The Evening Sun

Prints more live Boundary news than any other paper published in the district. The price of THE SUN is only $1.00 per year—one-half the cost of its competitors. THE SUN is never on the fence regarding questions of public interest. THE SUN is acknowledged to be one of the brightest papers published in the interior of the province. Those who subscribe and feel dissatisfied, will have their money refunded by calling at the office of publication.

THE EVENING SUN and the Toronto Weekly Globe and Canada Farmer, $1.00 per year in advance.

THE EVENING SUN, The Winnipeg Weekly Free Press and Prairie Farmer and the Montreal Family Herald and Weekly Star, $2.00 per year in advance.

Do You Think For Yourself?

Or do you open your mouth like a young bird and gulp down whatever food or medicine may be offered you?

If you are an intelligent thinking woman, in need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is *one* tried and true honest medicine OF KNOWN COMPOSITION, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible indorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, *in plain English*, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration?

A booklet of ingredients, with numerous authorative profesional endorsements by the leading medical authorities of this country, will be mailed *free* to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

Instruction is also given in Art, Music, Physical Culture and Elocution. Term opens Sept.1 th 1906, For Calendars, etc., address

COLUMBIAN COLLEGE.

MINING MATTERS

The directors of the Granby Consolidated Mining, Smelting & Power Company, Ltd., at a meeting in New York last Tuesday, voted not to declare the quarterly dividend on the company's stock. In September of last year the company declared a quarterly dividend of 2 per cent and an extra dividend of 1 per cent.

Lorne A. Campbell, general manager of the South Kootenay Power company, was interviewed in Vancouver a few days since. He said: "The average output of the Rossland mines recently has been about 6000 tons a week, or a little higher production than at any time during the past four years. Extensive development in all the big mines is in progress, and vast ore reserves have been blocked out. A steady increase in the output can be expected. It looks as though the treatment capacity of the smelters will have to be increased in order eo keep pace with the camp. The Centre Star group has over seventeen miles of drifts exclusive of shafts and stopes. The power plant of the South Kootenay Power company supplies power to the mines and smelters within a radius of over fifty miles. We have 23,000 horsepower of generators and water wheels in actual operation, and have also developed for 16,000 additional horsepower. When the mines and smelters of the Boundary are working full blast our company supplies them with 8000 horsepower of electrical energy. The requirements of the mines at Rossland and the smelter at Trail amount to about 8000 horsepower. A new customer will be the Canadian zinc smelter at Nelson. The plant is now being built." Mr. Campbell adds that there were no new developments in connection with the proposed electrification of the Columbia & Western branch of the C.P.R.

The summary report of the geological survey of Canada for the year 1907 has just been published, and is now on every editor's desk in the country. The Dominion department of mines, which includes the geological survey, is thoroughly up to date. Free distribution of any report of economic or scientific interest will be made to all bona fide applicants in Canada.

A cablegram from London announces that the Le Roi No. 2 has declared a dividend of two shillings a share. The cablegram also states that a report has been issued to the shareholders, which revealed that the affairs of the company are in a flourishing condition. The Le Roi No. 2 mine is in first-class shape, and the development during the past year has been of a very satisfactory character. It promises to yield good returns for a good many years to come.

A Toronto dispatch reports Mr. E. L. Englehart, chairman of the T. & N. O. railway commission, as saying that he understands that shipments of low grade Cobalt ore are likely to be sent to British Columbia smelters. The object is said to be to mix it with the ore of this province, a necessary process, and one which would probably result advantageously to the smelters treating the ore.

There's No Other Way

To reach the large and ever-increasing circle of our readers than through THE SUN'S advertising columns.

The surest way to evaporate business troubles is to give your stationery the necessary talking qualities by having it printed in a modern office by competent workmen. The Sun job office is the most up-to-date in the Bouudary, and our workmen are capable and of wide experience. This is the reason why we do the printing for the best firms and corporations in this district.

LAND ACT

Similkameen Land Division, District of Yale.
