SERIOUSLY HURT

H. H. Spinks Badly Cut in Face at the Granby Smelter

Had Not Regained Consciousness at 6 o'Clock This Evening

A serious accident occurred at the Granby smelter between 8 and 9 o'clock this morning. A small piece of steel rail lodged in the small ore crusher, clogging it. In their attempt to remove the chunk of iron, Foreman Frank Hutton and H. H. Spinks used a long steel bar as a pry. When the crusher again started, the spokes of the wheel caught the bar and hurled it with terrific force against the right side of Mr. Spinks' face, crushing the cheek bone and splitting the ear. Mr. Spinks was rendered unconscious by the blow, and was immediately removed to the Cottage hospital and placed under the care of Dr. Kingston. At 6 o'clock this evening he had not regained consciousness, and it is feared that his injuries may prove fatal.

Mr. Hutton had a very narrow escape, the iron bar almost grazing his face. After hitting Mr. Spinks the missile was hurled a distance of about fourteen feet, when it struck a post, making an indentation in the wood almost large enough to hide a man's hand.

CHURCH SERVICES

Methodist Church—Services at usual hours next Sabbath. Morning subject, "The Dawn of a New Era;" evening subject, "Your Shadow." The pastor will preach at both services. Everybody welcome.

Rev. Mr. Lundy, of Phoenix, will conduct services in Knox Presbyterian church next Sunday, morning and evening. Sunday school at usual hour. A cordial invitation is extended to all.

THE MINING RECORDS

Following are the locations, certificates of work, bills of sale, etc., recorded in the Government office at Grand Forks, B. C., of the Grand Forks mining division, from Nov. 10 to 16, inclusive:

RECORD OF LOCATIONS.

Bullion, Franklin camp, P. Donaldson and Sam Horner; Twilight, Franklin camp, relocation of Twilight, J. B. Fee.

CERTIFICATES OF WORK.

No. 16, Summit camp, F. M. Kerby, suurvey; No. 19, Summit camp, F. M. Kerby, survey; No. 21 fraction, Summit camp, F. M. Kerby; Oro Denoro fraction, Summit camp, John Mulligan.

ABANDONMENT.

London No. 1 fraction, Summit camp.

TOPICS OF THE TOWN

Mrs. Thos. Dudley, who has been sick with typhoid fever for the past fourteen weeks, suffered another relapse today, and her condition this evening is reported to be slightly worse.

P. A. O'Farrell, the well known newspaper correswondent, and Mrs. O'Farrell, have been guests at the Yale for several days this week.

Geo. McCabe, of the Granby smelter, is on duty again after a week's illness.

Midway has been added to the Southern British Columbia theatrical circuit.

M. S. Martin, the contractor, went hp to Midway yesterday on business.

Geo. A. McLeod, manager of the McKinley Mines, who has been suffering from a mild attack of typhoid fever for three weeks, has now recovered sufficiently to leave his room.

WINTER SPORTS

Grand Forks Hockey Club to Be Reorganized Next Wednesday

Construction of Open Air Rink Will Also Be Considered

Dalton Lawson, secretary of the Grand Forks Hockey club, has called a meeting of the members of that organization for next Wednesday evening, November 22nd, at 8 o'clock, at the city hall, for the purpose of reorganizing the club and electing new officers. All persons interested in this health-giving sport are requested to attend the meeting, as many important subjects connected with the game are to come up for consideration.

The question of building an open-air rink will be one of the leading topics to be discussed. It is confidently expected that ways and means can be devised whereby a creditable structure can be erected.

There is no lack of material in this city for a first-class hockey club. Although the organization sustained quite a loss by the removal from the city of E. C. Moe, still as long as there are such well known hockeyists here as J. S. Jost, H. Jarman, A. S. McKim, Mr. Murphy, and a score of other good players, to choose from, there is no reason why a winning seven should not be got together.

Richard is himself again, and the chances are that The Sun will appear on schedule time during the next four years.

A "Wheezy" Chest

Means your trouble is deep seated. To delay is dangerous. All the inflammation will be drawn out in one day by applying Nerviline. It penetrates through the pores of the skin, relieves inflammation and thus prevents serious consequences. For sore throat, weak chest and tendency to colds, no prescription is better than Polson's Nerviline. For nearly fifty years it has been Canada's greas household remedy. Twenty-five cents buys a large bottle. Sold by all dealers.

NEWS OF THE CITY

Eight-Hour Day at Smelter Will Commence on Monday Next

Rathmullen Claims, It Is Said, Will Be Worked All Winter

An officer of Federal Labor union this afternoon made the statement that the eight hour day would be put in force at the Granby smelter on Monday next. This statement has been confirmed by Superintendent Hodges.

Arthur Marshall, who has been employed in developing the Granby properties in the Similkameen under Foreman Rogers, has accepted a position with the Rathmullen Mining company, and left for the company's claims in Seattle camp this week. He thinks the Rathmullen claims will likely be worked all winter.

The police commissioners held a short meeting Tuesday to investigate the charges of an Italian "drunk" that some of his money had disappeared while confined in the city jail. As the man was unable to give any coherent testimony as to how much money he had or what he had done it, the commissioners concluded that it was simply a case of bad whiskey doing some wild talking.

George Gordon, who has filled the position of bookkeeper in W. K. C. Manly's hardware store during the past two years, has accepted a similar position at McDonald's sawmill at Hedley, and left for that place this week.

William Yolen Williams, formerly superintendent of the Granby mines at Phoenix, was a visitor in the city this week.

The Union hotel was closed this week by order of the mayor, the new proprietors, Bell & Kopek, having failed to take out a permit, as all the other saloonkeepers have been required to do.

A private telegram received in city yesterday brought the sad news that Mrs. Christina McCallum, widow of the late James McCallum, had died at Strange, Ont., on Wednesday, the 15th inst. Deceased was 88 years and 9 months of age at the time of death, and was the mother of Ald. Neil and P. T. McCallum, of this city.

E. H. Vaughan, of the assay office at the Granby smelter, has been promoted to chemist.

The dance given by the Ladies of the Maccabees in Eagles' hall last night, was well patronized and all had an enjoyable time.

A force of some 425 men are now employed in and around the Granby mines at Phoenix.

Geo. Dey, W.M., Oliver Galer and Joe Stretzel, of Phoenix, were visitors at the Harmony Lodge meeting last Wednesday evening. A luncheon was served in the banquet room in honor of the guests.

Grand Forks Feberal Labor union is growing in strength very rapidly these days. An officer of that organization today made the statement that numerically the union is four times stronger than it was last summer.

R. H. Trueman, the Vancouver photographer, will remain at Blome's old studio, Bridge street, until Monday, November 27. Parties desiring to take advantage of this opportunity to secure first-class work, should make their appointments as early as possible.

The Lion Bottling Works have cut their price on all case and draught wines und liquors.

WORK IS DELAYED

Fight Between the Two Roads a Waste of Time and Money

Great Northern Will Have to Institute Expropriation Proceedings

On Wednesday the Canadian Pacific railway paid off the gang of men that have been holding down the disputed land in block 2703, through which the Vancouver, Victoria & Eastern was building. This is the final act in the great railway drama, which started over a week ago. The Canadian Pacific now has an injunction restraining the Vancouver, Viatoria & Eastern from working on the disputed land, but the latter road will immediately institute expropriation proceedings. The deadlock between the roads has delayed construction cousiderably, and just at the time when good progress could have been made owing to the favorable weather conditions and the number of additional men coming in.

A fill is required at the point where the Vancouver, Victoria & Eastern is forbidden to work and this was to be made with rock taken from the tunnel, a short distance away, but as it now stands the material from the tunnel has to be put where room can be found and where it is doing no good until such time as the company can get control of the right of way through the Canadian Pacific land.

An American Disease

Some doctors go so far as to say that indigestion is the national disease of America. There is but one national remedy for indigestion, and that remedy is Dr. Hamilton's Pills, which accelerate the action of the gastric glands and give tone to the digestive organs. They strengthen the kidneys and liver, cleanse and purify the blood, and thus add general tone to every organ of the body. Flesh and strength are fast restored and the patient can eat and digest any food he pteases. Test Dr. Hamilton's Pills yourself—25c per box or five boxes for $1.00 at all dealers.

HOUSTON'S SEAT

To Antagonize the Neleon Member Means More Trouble

Has a Well Mounted Tongue and Twenty-four Hour Intellect

John Houston, M.P.P., having departed from Nelson, those two bold ministers, Hon. Richard McBride and Hon. R. F. Green, have gone into the constitnency and straightened out certain tangled political affairs, says the Victoria Times. The Conservative association have yielded to the pleadings of the smooth tongue of the premier; have agreed to forget past misunderstandings and pledged themselves to work together in sweet peace and beautiful harmony now and evermore for the good of the sacred cause and the perpetuation of the McBride government. Under the inspiration of the reunion the premier has become so bold as to assert that if John Houston, the political outcast who was once the honored president of the Conservative union of British Columbia, does not resign his seat and make way for a supporter of the government a way will be found of declaring the constituency vacant and open. That was a very bold attitude to assume. Because it is almost certain that when John Houston receives tidings of the proposed course of action, even if he had determined in his heart to remain an exile, he will immediately prepare to meet the foes who appear to think that at last he is their footstool. We have always held that the member for Nelson could not stay away from this province for a very long time at a stretch. It is well known that British Columbia has a very strong hold upon his somewhat erratic and altogether rugged affections. Let him conceive the idea that Premier McBride and his friends are determined to trample upon him now that they think he is down and cannot rise again, and even the alluring prospects of the fortune that is waiting to be wrested from the gold fields of Nevada will not deter John from appearing here to fight to confound, if possible, his malignaht personal and political foes. Therefore we would advice caution in this matter. The "fugitive" possesses a well mounted tongue, a plain but forceful parliamentary style, an intellect which is the seat of original ideas and often works overtime. In all that compels the confidence and admiration of men, notwithstanding his many weaknesses, Mr. Houston is a cut or two above his smooth but implacable enemy, Hon. R. F. Green. If the member believes that the interests of his constiturnts will suffer because he cannot give necessary attention to them he will resign his seat. If the government has decided to pursue him now in the belief that by doing so it can gain some slight political advantage, there is a possibility that it will realize it has made a serious mistake.

The tea and sale of fancy articles given under the auspices of the guild Holy Trinity church, at the rectory Wednesday afternoon, was largely attended and proved quite a success.

R.H.TRUEMAN

The Well Known

Photographer

of Vancouver, B. C.

NOW AT

Blome's Old Studio, Bridge Street

This will be your only opportunity for some time to obtain first-class photographic work, as the visits to this city of artists of Mr. Trueman's standing are very rare. Mr. Trueman's work is too well known to the people of the city to require any special mention.

Remember the dates—November 10—ten days.

UNION LABEL

FRIDAY, NOVEMBER 17, 1905

A number of attempts have been made in this city to start a free library, but they have all ended in failure. The present would seem to be an opportune time to revive the scheme, and to push it to a successful termination. With the eight-hour day in the Granby smelter, the employees will have more leisure time, and unless a place is provided where they can read and study, the greater portion of them will have to spend nearly all their spare time in bar-rooms. And a good citizen should not be raised exclusively on work and whiskey.

The Sun is surprised to find that there are still a few people in Grand Forks who still operate their thinking faculties on so narrow a gauge rrack as to take exception to the few remarks we made last week regarding the ward division by-law. As we have said before, The Sun looks on every portion of the city through the same spectacles—bestowing the same paternal love on all of them. We are therefore opposed to a gerrymandering scheme that would deprive certain section of representation in the city council.

Premier Rutherford, of Alberta, has already commenced to have troubles of his his own. The clergymen of the new province are anxious to ascertain the attitude of the government on the liquor traffic. They urge the abolition of the bar, and favor the government operation of places for the sale intoxicants.

Norway's first ruler takes the title of King Carl V. President Carl I would have sounded just as euphonious—but Carl would have been short a V.

The Tories secured two members in Alberta. They will feel as lonely in the new legislature as the merchant who says it doesn't pay to advertise.

R. H. Trueman, the Vancouver photographer, will remain at Blome's old studio, Bridge street, until Monday, November 27. Parties desiring to take advantage of this opportunity to secure first-class work, should make their appointments as early as possible.

When Seven Men Die

You know at least one of them had consumption. At first it was only catarrh—but it was neglected. When Catarrhozone cures so quickly it's foolish to suffer—it's a shame to keep on sniffelin8 and hawking. Catarrhozone goes direct to the cause of the disease—that's why it's so dead certain to cure. It stops the cough, prevents that disgusting discharge, clears phlegm out of the throat in five minutes. Very pleasant, and safe too; get Catarrhozone from druggists today.

There are still a few cheery, well furnished rooms, with heating stoves, vacant at the Province hotel.

Alexander Sharp, M.E., consulting engineer for P. Burns & Co., states that the firm has purchased the Highland mine, near Ainsworth. Negotiations have been in progress for some time. The final agreement followed an inspection of the property made by Mr. Sharp. The Highland mine has been operated at intervals since 1900. It is a silver-lead property, carrying high grade ore. The mine is equipped with a tramway and concentrator, both in good order.

Dr. Hendryx has completed an exhaustive experiment with his agitator in the cyanide mill of the Reliance Mining company, near Nelson. It is pronounced a complete success by the inventor, the mill superintendent and the president and manager of the company. The new process, it is claimed, results in the saving of 90 per cent of the values in the ore. The Reliance company has an immense body of low grade ore, averaging about $5 per ton.

The Tonic of Health

Must be more than a stimulant—must be a food as well. There is one medicine that is both a food and a tonic—it aids digestion, promotes assimilation, converts food into nutriment that builds up nerves, blood, brain and bone. That tonic is Ferrozone, which contains exactly what a run-down system needs. Ferrozone supplies oxygen to purify the blood, phosphorous to develop the brain, iron to harden the muscles. No wonder it makes such vigorous men and women. You'll eat, sleep, think and feel better by using Ferrozone; try it—now. Fifty cents buys a box of fifty chocolate coated Ferrozone tablets, at all dealers.

Heavy teaming of all kinds done by J. W. Jones.

Leave orders for Stove Wood at G. J. Hayward's.

You're next at the Palace Barber Shop, Victoria hotel.

If your watch needs repairng, take it to White Breos. All work guaranteed.

It takes modern material to do up-to-date work. The Sun job department is kept strictly up-to-date.

Easy Tests For Diamonds.

There are various effective methods of testing the genuineness of diamonds.

Cover the stone with a little borax paste, heating it in the flame of a lamp burning spirits of wine and then throw it in a glass of cold water. If the stone is an imitation it will break into a thousand pieces, while the true diamond will remain intact.

On a diamond which has been well cleaned and carefully dried let fall one drop of water. Touch this drop of water with the point of a needle. If the stone is false the water will spread or disperse, while with the real stone the drop of water will retain its spherical form.

Throw the stone you wish to "detect" into a glass of water. A diamond is perfectly distinct, whereas the imitation mingles with the hue of the water in such a way as to be almost invisible. Fluorhydric acid has no action on a real diamond, but dissolves imitations.

A Forest Storehouse.

John Muir, the naturalist, while in a forest of huge redwoods in California, came across a man who was herding a band of horses. When Mr. Muir asked if he might have some flour the man said: "Yes, of course; you may have anything I've got. Just take my track, and it will lead you to my camp in a big hollow log on the side of a meadow two or three miles from here. I'll be back before night. In the meantime make yourself at home." By the middle of the afternon Mr. Muir had discovered "his noble den in a fallen sequoia hollowed by fire, a spacious log house of one log, carbon lined, centuries old, yet sweet and fresh, weather proof, earthquake proof, likely to outlast the most durable stone castle"

Plenty of Legs.

Mrs. Barron was one of the new "summer folk" and not acquainted with the vernacular. Consequently, she was somewhat surprised, upon sending an order for a roast of lamb to the nearest butcher, to receive the following note in reply: "Dear Mam—I am sorry I have not killed myself this week, but I can get you a leg off my brother (the butcher at the farther end of the town). He's full up of what you want. I seen him last night with five legs. Yours respectful. George Gunton."

A Plant That Quells Hunger.

In Peru is found a singular plant, capable of quelling hunger or thirst for several days. It is named Erythoxylon coca. A decoction of 100 grains of this plant produces this effect for forty-eight hours, the muscular energy being preserved. The plant appears to *narcotize the nerves of the stomach* and suspend the digestive functions without affording nutriment.

Marriage.

We have been asked if marriage is a failure. We have not found it so. We don't know what our better half thinks of it. Our opinion is that only when a man marries a sealskin woman on a coonskin income does he find marriage a failure.

Why He Kicked.

Mrs. Newlywed—How dare you object to my bills? Papa pays them all. Mr. Newlywed—Yes; hang it! But I haven't the nerve to ask him to pay any of mine while you are touching him up all the time.

Impossible.

"You should sleep on your right side, madam."

"I really can't do it, doctor. My husband talks in his sleep, and I can't hear a thing with my left ear."

All Made Up.

Fred—When I proposed she asked for a little time to make up her mind. Madge—Oh, so she makes that up, too? —Chips.

The wise merchant advertises in the dull season because then the people have time to read the papers all through.

A Modest Fee.

"He sued the company for $10,000 and got a cent damages."

"That was hardly worth while. I suppose the lawyer took all of it for his pay."

Her Ideal.

"Is Gertrude going to marry Arthur?"

"Yes, she expects to be wedded to her Art."

SUNBEAMS

Beware of the man who is too familiar on short acquaintance. He will want to borrow a dollar before he knows you a day.

—

When things go wrong a man goes down town and gets full, while a woman goes upstairs and turns on the briny tears.

—

It is not always nervousness that makes a girl bite her lips. Sometimes, very often in fact, she does it to give them a nice color.

—

A wife may pay very little heed to her husband's remarks in general, but she is more than attentive when he speaks in his sleep.

—

In China those who have the smallest feet stand highest in society, but in America those who have the most money stand highest.

—

Students are much the same the world over. In Russia they throw bombs and in this country they give their college yells.

—

Courtship has been compared to strawberries smothered with ice cream, and marriage to a beefsteak smothered with onions.

—

It is said that a woman with a cheerful expression and manner to repose, always looks younger than her real age.

—

If the girls will propose marriage in the future, it will greatly shorten courtships and decrease the divorce business.

—

You may consider it a facs which admits few exceptions, that those who ask your opinion really waut your praise.

—

A girl after eating onions should sit down and read a ghost story that is calculated to take her breath away.

—

When a woman says nothing when her husband attempts to quarrel, he regards it as the worst kind of back-talk.

—

Trouble should never be borrowed if you have to pay for the privilege.

BICYCLES AND REPAIR WORK—A complete line of 1905 models. A few second-hand wheels cheap. Wheels to rent. GEO. CHAPPLE, opposite Postoffice, First street.

The Sun

PRINTS all the news of the Boundary, and prints it while it is news. It is the only twice-a-week paper published in Southern British Columbia. It is not owned or controlled by a clique of politicians, to further their own ambitious aims; nor by a combination of merchants to be used as a means of lauding their own wares, to the detriment of their rivals.

THE SUN is the sole property of its publisher, and no one else has any right to dictate its policy. It is printed in the interest of Grand Forks and surrounding district. When its editor believes he is right, he speaks right out. He does not have to consult half-a-dozen different parties about what he intends to say.

Everybody in Grand Forks reads THE SUN twice a week. Its out-of-town circulation is large, and is rapidly increasing. It is therefore the best advertising medium in the Boundary.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of $5 per square mile is charged for all timber berths excepting those situated West of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—

Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, exceptin the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are $2.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents an acre per annum.

Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of $10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land to each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle, to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If father (or mother, if the father is deceased) *of any person who is eligible to make* a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such persons as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa of his intention to do so.

W. W. CORY,
Deputy of the Minister of the Interior.

COPPER The new edition of the COPPER BOOK lists and describes 3311 copper mines and copper mining properties, in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most concise form. There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy Metallurgy, Finances and Statistics of Copper, rendering the volum a veritable encyclopedia of the subject of copper and everything pertaining to the metal. It is the world's standard Reference Book on Copper.

Every Miner, Prospector, Investor, Banker and Broker needs the book. Price is $5 in Buckram binding with gilt top, or $7.50 in full library morocco, and the book, in either binding, will be sent on approval, to any address in the world, to be paid for if found satisfactory, or may be returned within a week of receipt and the charge cancelled. Address the Author and Publisher.

Putting Him to the Test.

A stockbroker was telling the other day how a girl, recently married to a colleague of his on the Stock Exchange, suspected that her husband had been indulging a little too freely in the cup that cheers. She determined to find out beyond doubt whether her suspicions were well founded.

To a friend she confided the source of her trouble, and from this friend she learned that it had always been said that a man even slightly intoxicated cannot pronounce words of any length, whereupon the young wife decided that that would be a good plan to try.

When next the friend met the young wife she was in a state of great agitation. Asked if the suspicions had been verified, the girl burst into tears and said that they had.

"I handed him this list," she said between sobs, fishing from her pocket a paper which she gave to her friend and which contained the following words:

"Phthisis, photochromy, gnomiometrical, hypochondriasis, parachronism, phlegmasia dolens, syncategorematic, antinomianism, pseudaesthesia."

"And," she continued, while her friend read the list, "he missed nearly half of them!"—London Tit-Bits.

Why Snow Falls In Flakes.

Snow falls to the earth in flakes because it is water solidified in starlike crystals, each snowflake being usually made up of several crystals, which are excessively light on account of the *large quantity of air among the frozen* particles. The snow crystals arise from the slow passage of the water vapor of clouds, when the temperature falls below freezing point, into the solid condition, the fairylike transformation taking place by the tiny independent particles of water grouping themselves with the utmost mathematical regularity around different centers.

Each crystal of snow, as of anything else, is therefore a more or less perfect geometrical solid. The most complete snow crystals are formed in a clear atmosphere, where there is nothing to retard the gradual process of crystallization or molecule construction. Rain, on the other hand, being a liquid falls in drops.

Envy.

Mrs. Casey—'Tis a shame, Mrs. Cassidy, for yer husband to come home drunk the way he does. It hurts me to see it. Mrs. Cassidy—I don't doubt it, Mrs. Casey. Ye always wuz av an invious disposition.—Philadelphia Press.

JOIN THE CANADIAN PREFERENCE LEAGUE

100,000 MEMBERS WANTED

THE object of the League is to educate Canadians how best to apply the Canadian Preference sentiment. Members of the League are expected, when making purchases, to give preference to the products of Canada and to all articles of Canadian manufacture, when the quality is equal and the cost not in excess of that of similar foreign products or manufactured articles. Each member is also expected to give preference to Canadian labor and to this country's educational and financial institutions. A monthly journal will be published in the interests of the League and mailed to each member. The annual membership fee and subscription for the Journal is $1.00.

CUT THIS OUT, SIGN, AND SEND TO — WRITE PLAINLY
