Fourth Year--No. 88

Grand Forks, B. C., Friday, September 1, 1905

Issued Twice a Week

TO MOVE SMELTER

**Dominion Copper Company
People Have Three Sites
in View**

**Grand Forks May Win the
Prize if Citizens Pull
Together**

Last week one of the officials of the new Dominion Copper company made the statement that the smelter at Boundary Falls would probably be abandoned, and that the company would likely erect a new plant either at Midway or Greenwood. The Sun, in its Friday issue, hastened to point out the many advantages possessed by this city as a smelting point for the Dominion company, and advised the officials to inspect the many admirable sites in this in this vicinity before making a definite decision. The suggestion appears to have been acted upon.

On Wednesday Mr. W. C. Thomas, metallurgist for the Dominion Copper company, arrived in the city. Superintendent A. B. W. Hodges, of the Granby company, and a number of prominent citizens, showed Mr. Thomas the smelter site back of Dr. Averill's residence, which is one of the two sites selected for the Granby smelter by Mr. Hodges over seven years ago. Mr. Thomas expressed himself as well pleased with the location. At present, however, he was not prepared to hazard an opinion as to the final decision of his company, as he had also been instructed to inspect sites at Midway and Cascade. As soon as he finishes his mission he will make a report to the directors of the company, and the location for the new smelter will be decided upon. The objections to the present location of the company's smelter at Boundary Falls are, lack of transportation facilities and limited dumping ground for slag. In these respects Grand Forks is far ahead of any other place in the Boundary, and it also possesses many other advantages, the most notable being closeness to the company's mines in Phoenix, ample water supply, and a shorter coke haulage.

It is understood that the company wants a bonus of some sort, and there was some talk yesterday of calling a mass meeting of the ratepayers to discuss this phase of the question. This, it appears to The Sun, would be a wise proposition to carry out. The Dominion Copper company intends to expend \$1,000,000 in improvements in the Boundary this year, and no effort should be spared in getting the smelter located in this city.

The sound of the whistle from the Brooklyn mine Thursday was sweet music to the residents of Phoenix generally, as it betokened the coming activity at the mines of the Dominion Copper Company. It was the first time the whistle has blown since May 23 last. T. W. Drummond, the local manager of the company, put on several men Thursday at the Brooklyn and Stemwinder, and it is the expectation that the force will be gradually increased from now on, and at the Rawhide as well, so that when the

company gets ready to make its series of shipments to the smelter, it will be in a position to do so. An extensive system of development for all the company's properties is being mapped out.

THE MINING RECORDS

Following are the locations, certificates of work, bills of sale, etc., recorded in the Government office at Grand Forks, B. C., of the Grand Forks mining division, from August 25 to Sept. 1, inclusive:

RECORD OF LOCATIONS.

Cracker Jack, Franklin camp, relocation of O. K., A. J. Stuart and A. D. McPhee; Wren, Summit camp, relocation of Wren, John F. Brown; Smoky Hill, Grand Forks, Joseph Schnavely; Berryetta, Hardy mountain, Andrew Thisted; Aetna, Franklin camp, Ida Kerby; Union, Franklin camp, Pete Santure, relocation of Apex.

CERTIFICATES OF WORK.

May Fraction, Summit camp, D. J. Evans; Ajax, McKinley camp, 2 years; Senin, et al; Jumbo and Mossback, Browns camp, Douns et al; 21, Summit camp, J. A. McMaster; Golden Age, Franklin camp, Flourney et al; Ottawa, Franklin camp, West et al; Columbia, Franklin camp, Clara West; Future, Central camp, C. F. Stoll; Aurum, Wellington camp, Clark et al; Jim Fraction, Wellington camp, Duncan Buchanan.

CONVEYANCES, ETC.

All Thuot, Louis P. Thuot to co-owners.

The railway commission occupied over an hour Tuesday considering the V. V. & E. company's application for approval of its plans to build 40 miles along the Similkameen river from Princeton to Keremeos. The Similkameen and Keremeos railway has protested that it had been first to file plans for this same ground. The V. V. & E. replied that the plans in question were not regular and that in any event the company was not organized and therefore had no legal status to file the plans in question. The hearing was adjourned till Thursday to allow the Similkameen and Keremeos railway an opportunity to reply to this statement. In the main the companies accuse one another of an intention to hold the other up.

The MacDonald-McMillan Company, which was awarded the contract of grading the first 275 miles of the Grand Trunk Pacific from Portage la Prairie west, has commenced work, and the first sod in the construction of the transcontinental road has been turned. Work was begun at a point about six miles north of Sidney station and 300 teams are now busy at work near that point. Within a week or ten days the company expects to have fully a thousand men engaged. It is intended to push the work just as rapidly as possible, and men and horses will assemble along the line from all directions. The contract is the largest ever awarded by any Canadian railway firm, and will, it is said, total up to over \$5,000,000. Subcontractors are now going on to the work.

A business men's lunch, consisting of cold roast chicken and salads, will be served at the Club saloon next Saturday and following Saturday from 8 to 11 p.m. Everybody welcome. Martin Dufour, manager.

NEWS OF THE CITY

**Better to Be Born Lucky Than
Rich, Should Be Dave
Evans' Motto**

**City Renews Contract With
Granby Co. for Power for
Two Years**

Dave Evans, freighter for the McKinley mine, is the luckiest man in the Boundary. Last Wednesday morning while hauling a 2500 pound load up the river, a 50 pound box of 60 per cent. giant powder fell off the wagon near the smelter dam, and both wheels of the wagon passed over it without causing an explosion. The funniest thing of the whole business is that Dave doesn't yet know that he has lost the powder. It is a miracle that he was not blown to atoms.

The city council held a special meeting last Monday night, and renewed the contract with the Granby company for power for two years at the old rate.

Dr. J. Williamson Frank, of Victoria, Dominion veterinary surgeon, arrived in this city this week, and will hereafter be Dominion veterinary inspector for the Boundary, having been transferred from the New Westminster district. He will reside in this city.

Jas. Murphy, a "tinhorn," was up in the police court Wednesday accused of having stolen a watch from Wm. Lee in the Victoria hotel. The judge was of the opinion that the only witness was too much under the influence of liquor to place an reliance in his testimony, and so compromised the case by ordering Murphy out of town.

L. A. Manly's hotel in Midway, the Hotel Swanson, will be opened to the public tomorrow night.

Nearly the entire Sun staff had the pleasure of laying in bed a couple of days this week on account sickness, hence this issue may be a little shy on city happenings.

Peter McKinnon, a brother of Dan McKinnon, of Jeff Davis & Co.'s store arrived in the city last Wednesday from Phoenix, where he has been employed in the Granby mines, and left today for Franklin camp, where he will work in the McKinley mine.

Miss Cosgrove has moved her millinery store to the Case Block, where she will be pleased to meet all old customers; also new ones.

Mr. and Mrs. Donald McCallum returned last night from a week's visit to the Lewis and Clark Exposition in Portland.

F. S. Hussey, of Victoria, superintendent of provincial police, was in the city yesterday on business.

P. T. McCallum, president of the Pioneers' Association of the Boundary and Okanagan districts, accompanied

by a number of other old timers, went up to Midway today to attend the annual reunion of the association.

Arthur H. Napper, of the Hunter-Kendrick Company, who has been working at the Greenwood branch for a couple of weeks, returned to this city last Tuesday, and says he is glad to get back.

Born—In Grand Forks, on Sunday, August 27, 1905, to Mr. and Mrs. Wm. Miller, a son.

Born—In Grand Forks, on Tuesday, September 29, to Mr. and Mrs. Frank Young, a son.

E. W. Buckley, of Geo. Chapple's establishment, will leave next Monday or Tuesday for a visit to the Lewis and Clark Exposition at Portland.

Don't forget that R. H. Trueman, the Vancouver photographer, will be at Blome's old stand, Bridge street, on Thursday, September 7th, and for one week following. Mr. Trueman's work is so well known in this city that he does not need any special commendation.

John Topp has just sold 1500 pounds of tomatoes raised on half an acre of land near this city.

An assay recently at the depth of eight feet on the Gold Axe, Hardy mountain, gives \$40 in all values.

The fall of Port Arthur will be vividly shown each evening this year at the grounds of the Spokane Interstate fair, which will be held from October 9 to 15. Pain's fireworks will be used to make this spectacular display. The Pain company makes the finest fireworks in the world. Manager Cosgrove has arranged for the most elaborate display. Pain recently gave "The Last Days of Pompeii" in Spokane. The fireworks then were fine but they did not last as long and were not as good as those which will be given at the fair in Spokane. The fall of Port Arthur will last 40 minutes. One of the set pieces is 175 feet long. "The Fall of Port Arthur" is only one of many attractions which are arranged for this night show. The management is giving the night show for the first time this year and is determined to make it a success, therefore will give a fine entertainment. The grounds will be lighted and the admission charge will be reduced. The band will give its best music, the exposition building will be open and lighted, the cleverest vaudeville turns have been secured and everything will be done to make the night show exceedingly attractive.

CHURCH SERVICES

Services will be held at the usual hours next Sabbath in Knox church. Morning subject, "No Remedy," Evening subject, "Is Life Worth Living." The pastor, Rev. J. R. Robertson, will preach both morning and evening. Sunday school will meet next Sunday at 3 p. m. o'clock instead of at 10 a.m., and will continue so afterwards.

Methodist Church—Services next Sabbath at the usual hours. Monday being Labor Day the pastor will preach a Labor-Day sermon at the Sabbath evening service. Everybody welcome. E. Manual, pastor.

GIVEN LOVING CUP

**Grand Employees Give Their
Master Mechanic a Hand-
some Present**

**Farewell Smoker in Eagles'
Hall Tonight---Presenta-
tion Speech**

A pleasant event occurred in the machine shop at the Granby smelter at 5 o'clock yesterday afternoon, when J. C. McDonald, the retiring master mechanic, was presented with a handsome silver loving cup by his fellow workers. With the smeltermen gathered around him, Jas Cowie made the following presentation address:

"It becomes my pleasant duty, in behalf of the smelter boys and especially of the mechanical department, to remind you that we are not forgetful of the fact that we are about to be severed from our most highly esteemed master mechanic and friend. To say that we are sorry and deeply regret the fact is merely a faint way of expressing the sentiment of all the boys gathered together here in this shop. In the varied walks of business and social intercourse, you have contributed abundantly towards making life pleasant in the circle in which you have moved. The hearty interest you have ever manifested in our welfare will never be forgotten. You have endeared yourself to us greatly, by your kind disposition, gentlemanly manner, and amiable character. You will always have our best wishes for your future success and happiness, with a deep sense of your many benefactions and kindness towards us all. Those assembled here have requested me, in their behalf, to present to you as a token of the admiration and high esteem in which you are held by your many friends, this loving cup, and desire your acceptance of the same. May it adorn some conspicuous place in your future home, that your new friends may also know the love, admiration and high esteem we have for our late master mechanic."

Mr. McDonald was taken too much by surprise to give utterance to his feelings, but thanked the boys for their handsome gift, and assured them that the high esteem entertained by them of him was fully reciprocated. Mrs. McDonald was also presented with a set of silver souvenir spoons. Tonight Mr. McDonald will be given a farewell smoker in the Eagles' hall by the smelter boys.

Mr. and Mrs. McDonald will leave for the coast either tomorrow or next Monday. Mr. McDonald intends to engage in business for himself, but he has not yet decided whether it will be in Spokane or Portland.

Every man owes it to himself and his family to master a trade or profession. Read the display advertisement of the six Morse schools of telegraphy, in this issue, and learn how easily a young man or lady may learn telegraphy and be assured a position.

Capt. Rogers is negotiating the sale of his mining claims at Eholt.

Fred Clark left Monday on a visit to the Portland fair.

R.H. TRUEMAN

PHOTOGRAPHER

Vancouver, B. C.

Will visit Grand Forks for One Week Only.

Blome's Old Studio, Bridge Street
September 7, 1905

THIS WILL BE YOUR ONLY OPPORTUNITY for some time to obtain first-class photographic work, as the visits to this city of artists of Mr. Trueman's standing are as far apart as hen's teeth. Mr. Trueman's work is too well known to the people of Grand Forks to require any special mention. Remember the dates—September 7—One Week.

FRIDAY, SEPTEMBER 1, 1905

Regarding the recent activity in the copper market the New York Journal of Commerce says: "The excitement that has possessed the copper industry during the last few weeks has attracted general attention. The facts upon which the present abnormally high prices for the metal have been based are of the greatest importance both in America and Europe. Industrial activity and the war in the Far East caused a large and legitimate increase in the melting of copper and the remunerative prices received by producers stimulated production enormously until now American mines, including those in Canada and Mexico, as well as those in the United States are pouring out the metal at the rate of over 45,000 tons per month; that is the refineries are contributing this amount of metal each month. Exports have been unprecedented, and American consumption has risen to almost record tonnage. Of the large exports 45,000 were shipped to China, but it has not gone into consumption at least only a small portion. At the same time that China has been taking copper from America, she has drawn from Australia and Japan about 25,000 tons, so that a country which heretofore has been of minor importance in the copper trade has suddenly loomed the biggest for trade. Much of the surplus copper held in China is being carried by large financial concerns for speculators. There are also fully 17,000 tons of copper under contract in this country for export to China during the next four months. Large consumers of copper, both in America and in Europe, especially at home, early learned of the contemplated movement in the metal, and of course being convinced of the upward trend of the market, purchased heavily for three or four months in advance. With producers well sold and the surplus well disposed of to second hands, the supplementary buying by speculators and small consumers naturally put the market higher and higher, and a combination of interests who have engineered the present movement have caused to be taken up the small amount of copper available for quick shipment within the last week or ten days, until the market is already 16 1/2 cents, and the tendency still upward. A record price of 20 cents has been recorded, as well as 7 cents as a re-

active price. Both are extreme. The re-sales of copper by consumers who have over-purchased and the offering of metal that has not yet been shipped on Chinese account may take a sudden turn in the market unless it continues to be taken up by the powerful interests from a financial standpoint."

Purgatives Are Dangerous

They gripe, cause burning pains and make the constipated condition even worse. Physicians say the ideal laxative is Dr. Hamilton's Pills of Mandrake and Butternut; they are exceedingly mild, composed only of health-giving vegetable extracts. Dr. Hamilton's Pills restore regular movement of the bowels, strengthen the stomach and purify the blood. For constipation, sick headache, biliousness and disordered digestion no medicine on earth makes such remarkable cures as Dr. Hamilton's Pills. Try a 25c box yourself.

The annual public school field sports will be held on Labor day, September 4th. To be successful from a child's point of view, prizes are necessary for the events. On this occasion it is not the intention of the management committee to solicit towards the prize list other than by means of this notice. Those willing to donate prizes, or cash for the purchase of prizes, will kindly notify the principal or trustees on or before Saturday, September 2nd.

Boarders Wanted—A few more steady boarders can find first-class accommodations at Mrs. J. B. Henderson's, Winnipeg avenue.

Throw Medicines to the Dogs!

At best they are unpleasant, often useless. You have some disease of the nose, throat or lungs. Doctors would call it bronchitis, asthma or catarrh. The common root of these diseases is germ or microbe irritation. Catarrh is not only destroys disease germs—it does more, it heals diseased and inflamed tissue. The disease is not only cured, but its return is forever prevented by using Catarrhzone, which is splendid also for colds, coughs and irritable throat. Remember you inhale Catarrhzone—nature's own cure. Use no other but Catarrhzone—it's the best catarrh cure made.

It takes modern material to do up-to-date work. The Sun job department is kept strictly up-to-date.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of \$5 per square mile is charged for all timber berths excepting those situated West of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—
Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1 1/2 and 1 3/4 cents each.
Single bolts, 25 cents a cord.

All other products, 5 per cent, on the sales. A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are \$1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from 1/2 to 1 1/2 cents per lineal foot for building logs; from 12 1/2 to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents an acre per annum.

Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 320 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of \$10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) A settler six months' residence upon and cultivation of the land to each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock and 20 head of cattle to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

Strained Back and Side

"While working in a sawmill," writes C. E. Kenney from Ottawa, "I strained my back and side so severely I had to go to bed. Every movement caused me torture. I tried different oils and liniments, but wasn't helped till I used Nerviline. Even the first application gave considerable relief. In three days I was again at work. Other men in the mill use Nerviline with tremendous benefit too." An honest record of nearly fifty years' has established the value of Polson's Nerviline.

WANTED

Twenty-five steady boarders wanted at the Province hotel. Chicken and ice cream dinner every Sunday.

Our job department is superior to any other in the Boundary country. We have both the material and the experience to turn out high class work.

WISE AND OTHERWISE

When a man takes your hand with a firm and cordial grip it is a sure sign that his heart is full—or his pocketbook empty.

After a woman has been married more than three months she talks less about love and more about eating.

If you look at the records you will find that most men who died young were hustlers in some way.

No matter how much a man dislikes a creditor he often asks him to call again.

Lots of people in this world would be miserable if they could not find fault.

There are many men who almost can light their cigars with their tempers.

Lawyers in general believe that it is more of a crime to confess a crime than it is to commit one.

Men may boast of their honesty, but only the women folks return borrowed umbrellas.

When some men fall in love it takes a minister and often a divorce judge to cure them.

There will be pugilists as long as pugilism is a popular and profitable humbug.

No man should start a fight with his wife unless he is prepared to pay an indemnity.

You are getting too old to flirt and and dance if you can take a nap sitting up in a chair.

A woman will never make a success in politics, because it is too hard to reach her pocket.

Many ladies, like poker players, raise the blind to see what their neighbors got.

It is strange but true that the hired girl of foreign birth is called a "domestic."

It is often easier to teach a baby to talk than it is some men not to do so.

It is no wonder that one of the billiard balls is so red, as it is so often kissed.

After a woman passes a certain age she is willing to get married even on Friday

ROBERT LINDHOLM.

NOTICE

IN THE MATTER of the "Land Registry Act," and in the matter of the title to part of Lot 519, Group 1, Osage Division Yale District, in the Province of British Columbia.

WHEREAS the certificate of title of August Claude Macdonell, being certificate of title numbered 4164 to the above hereditaments, has been lost or destroyed, and application has been made to me for a duplicate thereof; Notice is hereby given that a duplicate thereof to the above hereditaments will be issued at the expiration of one month from the date hereof, unless in the meantime valid objection to the contrary is made to us in writing.

W. H. EDMONDS, District Registrar.

Land Registry Office, Kamloops, B.C., May 22, 1905.

COPPER

The new edition of the **COPPER BOOK** lists and describes 3311 copper mines and copper mining properties, in all parts of the world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most concise form. There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of copper and everything pertaining to the metal. It is the world's standard Reference Book on Copper.

Every Miner, Prospector, Investor, Banker and Broker needs the book. Price is \$5 in Buckram binding with gilt top, or \$7.50 in full library morocco, and the book, in either binding, will be sent, on approval, to any address in the world, to be paid for if found satisfactory, or may be returned within a week of receipt and the charge cancelled. Address the **Author and Publisher.**

You Are Ailing

Not quite sick, but robbed of ambition to work—find it hard to think clearly. Not ill enough to think of dying, but bad enough for life to be pretty dull. There is a remedy—Ferrozone—that quickly lifts that half-dead feeling. Gracious, but Ferrozone makes you feel good; it sharpens the dulled appetite, makes it keen as a razor.

Blood? Ferrozone makes lots of it, the rich nourishing kind that vitalizes the whole body. You'll be wonderfully quickened, immensely strengthened, feel hearty and vigorous after using Ferrozone. Buoyant health, surplus vigor and reserve energy all come from this great restorative. Fifty cents buys a box of fifty tablets at all dealers.

BICYCLES AND REPAIR WORK—A complete line of 1905 models. A few second-hand wheels cheap. Wheels to rent. GEO. CHAPPLE, opposite Postoffice, First street.

You're next at the Palace Barber Shop, Victoria hotel.

For a nice haircut or shave go to the City Barber Shop on Riverside. Baths 25c.

The Sun

PRINTS all the news of the Boundary, and prints it while it is news. It is the only twice-a-week paper published in Southern British Columbia. It is not owned or controlled by a clique of politicians, to further their own ambitious aims; nor by a combination of merchants to be used as a means of lauding their own wares, to the detriment of their rivals.

THE SUN is the sole property of its publisher, and no one else has any right to dictate its policy. It is printed in the interest of Grand Forks and surrounding district. When its editor believes he is right, he speaks right out. He does not have to consult half-a-dozen different parties about what he intends to say.

Everybody in Grand Forks reads THE SUN twice a week. Its out-of-town circulation is large, and is rapidly increasing. It is therefore the best advertising medium in the Boundary.

\$2 Per Year

When

You consider that a poorly printed job costs just as much as one that presents a neat and tasty appearance, do you not think that your business demands the latter kind?

Good Printing—the kind we do—is in itself an advertisement, and a trial order will convince you that our stock and workmanship are of the best. Let us estimate on your order. We guarantee satisfaction.

JOIN THE CANADIAN PREFERENCE LEAGUE

100,000
MEMBERS WANTED

THE object of the League is to educate Canadians how best to apply the Canadian Preference sentiment. Members of the League are expected, when making purchases, to give preference to the products of Canada and to all articles of Canadian manufacture, when the quality is equal and the cost not in excess of that of similar foreign products or manufactured articles. Each member is also expected to give preference to Canadian labor and to this country's educational and financial institutions. A monthly journal will be published in the interests of the League and mailed to each member. The annual membership fee and subscription for the Journal is \$1.00.

CUT THIS OUT, SIGN, AND SEND TO
The Secretary, THE CANADIAN PREFERENCE LEAGUE,
Room 20, Home Life Building, Toronto

Please enroll my name as a member of the Canadian Preference League. Enclosed is \$1.00, my membership fee and subscription for one year to "CANADA FIRST," the journal of The Canadian Preference League.
