

INCONSISTENCY

To the Editor of The Sun.

DEAR SIR:—I would like to ask a small space in your paper to call attention to a somewhat novel criticism in the last issue of the Grand Forks Gazette on the action of the council in the matter of the aldermen's remuneration by-law, which pays special attention to my attitude in the matter. In reading between the lines, it will readily be seen that it is not that true and impartial criticism that the editor, in his Pharisaic self-righteousness, is wont to preach to the public, but one of a number of criticisms that I can only account for as an attempt to get back at me for the manner in which I used my vote and influence in the last Dominion election. These futile attempts, evidently intended to puzzle me, have been coming frequently since the last Dominion election, but never before that event, and are now coming about as often as shelved editorials are rehearsed into service to fill the columns of the Gazette. I am free to say that I used my vote and influence for the Liberal candidate then, as on all other occasions where the opportunity presents itself, and I am proud of it. My reasons for doing so are, that the principles adopted by the Liberal candidate meet my approval; that I consider the Liberal candidate the abler and better qualified for the position, and that I claimed the right to vote as I pleased.

When I opposed the salary by-law two years ago, although the majority of the council were in favor of salaries, the aldermen's salary by-law was defeated, but the mayor got his salary just the same, notwithstanding all my arguments against it. When stated that if the financial condition of the city improved it would be right that members of the council should receive fair remuneration for their services, but that the mayor should not get a salary unless the aldermen did. During the argument I treated every member of the council with respect, and called no man a grafter, or any such epithet as Mr. Burrell would have you infer. One of my principal objections to the by-law was, the unfairness of it singling out the mayor and two aldermen for salary, and intimating to the rest of the council that their attendance at meetings didn't count for anything. I certainly would oppose such a by-law right now on general principles, even if I were one of the lucky three; and I am very sure the present mayor would, for he has repeatedly made the commendable statement that he would not accept a salary unless the aldermen got one also. One of the principal arguments used by Mr. Burrell in favor of salaries, was the incidental expense of entertaining. This is excellent theory, but the council of Mr. Burrell's term know very well that it does not always work out in practice, as such bills were sent to the council for payment, although Mr. Burrell alone got a salary. Last year, with the improved conditions, I did not oppose a small salary, for the reason given at a public meeting just before the election of the present council. This year I take the same position, except that before election I emphasized my position in the mat-

ter, by stating in a public meeting that if a by-law came up again this year for a reasonable amount of salary I might be found voting for it. While I cannot consistently oppose a fair salary by-law after declaring my position, yet I have always been prepared to support any resolution to reduce the amount of salary, as I intimated at the last council meeting, so long as it doesn't drop to a point to induce graft, which I will not tolerate. So there has been no change in my position for over a year at least. Has Mr. Burrell, then, just woke up to a realization of the fact that I changed my views in the matter over a year ago, and accordingly my position is inconsistent? or why didn't he criticize my stand in the matter at the time that I changed my position if he thought it was a wrong move, and thought the public might suffer by such a change, instead of allowing it to stand over more than a year? The only available explanation is, that there was no Dominion election just prior to the passing of last year's salary by-law.

There are but few ratepayers in the city that pay more taxes than I do. Accordingly, it is to my interest personally to keep down the amount for salaries, as well as all other expenses.

The law requires that in order to qualify for a seat in the council a man must be the registered owner of city property of a certain assessed valuation. The importance of this statute requires no explanation. Any one will readily see the absurdity and injustice of a man being entrusted with the ratepayers' business who is not himself interested in the business to the extent required by law. Therefore it is safe to presume that the law is a good one, and that the evasion of it by any strategy is a fraud on the public. I have the property qualification required by law for a seat in the council, and I pay my taxes promptly. It has been currently reported that when Mr. Burrell went into the council three years ago he was not the owner of the property on which he qualified, but that he had borrowed the property for the purpose of representing to the people that he could qualify; and indeed the circumstances that followed tend to confirm the truth of the report. Prior to Mr. Burrell's election, apparently by some manipulation of the city books, the assessed valuation of the property in question was raised from \$800 to \$1000, the amount required by law to qualify for mayor. During that year the taxes were not paid on the property in question. In other words, the mayor who accepted his salary like a man didn't pay one dollar of taxes, and he hasn't paid any taxes on it since. After Mr. Burrell's term was finished the former owner again became the reputed owner of the property, and again the assessed valuation was reduced. The assessor, on being asked why he reduced the valuation, said Mr. Burrell had requested him to reduce it to the same as the adjoining lots, as it had been previously, for it again belonged to its former owner.

It is to be hoped that Mr. Burrell can find some legitimate explanation for this combination of cloudy circumstances, for I consider it just as fraudulent for a man to qualify for a seat in the council by misrepresenting himself as the owner of somebody

else's property as it is to steal his way into the council without any property at all, in direct violation of the law. If the reports of Mr. Burrell's qualification for mayor during his term be correct, as the circumstances would indicate, it is difficult to understand how Mr. Burrell could muster gall to charge any one with being inconsistent. I have the most profound sympathy for any man who is in strained circumstances or hasn't whatever property is required to meet all emergencies, but I have no sympathy for the man who will stoop to an evasion of the laws of his country for the purpose of winning fame or salary.

I am always pleased to invite fair, honest criticism of public affairs, but a criticism calculated to wreak revenge is not only cowardly but a menace to society. Yours respectfully,

NEIL MCCALLUM.

NEWS OF THE CITY

A new mud mill, used to facilitate lining the converters, arrived at the Granby smelter yesterday. It is the biggest and most up-to-date piece of machinery of its kind ever brought to British Columbia.

The tea and dinner given by the Ladies' Aid of the Methodist church Wednesday evening was the only attraction in the city that night, and it proved quite a drawing card, the patronage exceeding the expectations of the ladies.

Leslie Hurr returned to the city this week from Oroville, in the Similkameen, where he has been for the past few months looking after his cattle interests in that section.

Mrs. Norman Jackson, of Denver, Col., is visiting relatives in this city.

The Odd Fellows will give a social in their hall next Thursday evening. All members, with their wives, are cordially invited to attend.

At the meeting of Gateway Lodge No. 45, I.O.O.F., last night, the following officers were elected for the coming term: Noble grand, George Rutherford; vice grand, Alex Hall; recording secretary, Walter Dewdney; permanent secretary, George Murphy; treasurer, R. Frache.

Elaborate arrangements are being made for the complimentary smoker to be tendered the smelter employees by the Fraternal Order of Eagles in their hall next Monday evening. An excellent program of songs and music will be presented, and at present it is the intention to have a couple of amateur sparring contests pulled off also. Two carloads of clay pipes and smoking tobacco arrived in the city yesterday for the occasion.

A real estate and mining brokerage office is being opened in P. Burns & Co.'s building, Bridge street, by A. E. Smith, formerly of Rossland.

"The Hustler" Co. gave an excellent entertainment to a large audience at the Grand Forks opera house last night. The play was laughable, and the specialties were meritorious.

The cheerful information has been received from the department of lands and works, Victoria, that the new road up the North Fork through Tom Wiseman's land will be gazetted immediately as a public highway.

The Grand Forks sports who went down to the turkey shoot in Danville on Wednesday captured two turkeys and a duck.

Wm. Beach, the well known Cascade prospector, spent a few days in the city this week.

A large number of young of young people from here attended the Thanksgiving masquerade ball in Danville last night. They all say they had a perfectly lovely time.

Next Tuesday, December 5th, Grand Forks Lodge No. 30, Knights

of Pythias, will entertain the members of Grand Forks Temple No. 6, Rathbone Sisters, at Oddfellows' hall. An excellent program is in preparation, and a good time is assured those who attend.

Captain Bentley has suspended work on his group of copper properties on Volcanic mountain until spring, when he intends to install machine drills.

Tom Donald, a well known hotel man of this district, has gone to Rock Creek, where he will probably engage in the hotel business.

The Elks have a reputation for doing things well, but last night's entertainment was a way ahead of anything else they have ever done. The first part of the program was sustained by the Polmatier Sisters, a quintette of charming young ladies, of the highest musical talent, assisted by Mr. C. W. Hitchcock, whose dramatic recitals and impersonations were a thing to be remembered. The concert was given in the reading room of the club, which was tastefully decorated with Union Jacks, flowers and palms. The program was a musical treat in every number.—Winnipeg Free Press, Nov. 11th. At the Grand Forks opera house, Thursday evening Dec. 21st.

WINTER SPORTS

As stated in Tuesday's issue of The Sun, rapid progress is being made in reference to the organization of an amateur athletic association in this city. The joint meeting of the Grand Forks Hockey club and the committees appointed to canvass for members and subscriptions for the athletic club, in the city hall last Wednesday evening, was well attended by the citizens generally.

The proposition to form an athletic club was agreed to and the following officers were elected: Honorary presidents, Mayor Hammar and A. B. W. Hodges; president, Fred Clark; vice-presidents, C. E. Lane, W. B. Cochran, Geo. Nye; secretary, Dalton Lawson; treasurer, G. M. Frapp. A strong executive committee, whose members will act as directors, was appointed. It was also decided to merge the hockey club into the association, and the skating rink and all the affairs of the hockey club will be carried on by the athletic association. In addition it was also decided to have a reading room and gymnasium, and that the sports hereafter held in the city be carried on in the name of the Grand Forks Amateur Athletic association.

The contract for building the rink has been let to Bonthron & Shannon, and work on the same was commenced this morning.

A Quiet Wedding

A quiet wedding was celebrated at Holy Trinity church on Wednesday evening last, the 29th of November, when A. C. Sutton, barrister-at-law of this city, and Miss Elizabeth Heslewood, second daughter of Frederick Heslewood, Esq., of Palmerston, Ont., were united in marriage. The ceremony was performed by the Rev. Henry Steele, brother-in-law of the bride, in the presence only of the intimate friends of the contracting parties.

The price of copper continues to climb upward. Lake is now selling at 17 cents and electrolytic at 16½ cents per pound for delivery in January and February. Consumers are finding it difficult to discover any copper for sale for delivery at an earlier date than January, and report says that sales have been made at 17½ and 17¼ cents for immediate delivery. There is a marked scarcity of spot copper, and some consumers have not taken care of their full requirements up to the end of the year. It is not improbable, therefore, that very high prices may be paid for cash copper between now and the beginning of the new year. Consumers are becoming alarmed over the situation and are disposed to buy more freely for advance account. There is now every prospect that approximately the present level of prices will be maintained during the first half of 1906, and perhaps much longer.

A Tribute to Insurance

The following letter, signed by the executrix of the estate of the late W. E. Buckley, explains itself. Mr. Buckley had taken out life insurance with Mr. Neil McCallum a short time before the sad accident, and although he had only paid one premium, the promptness with which the policy was paid is commendable:

Canada.

DEAR SIR:—I am in receipt of a check for \$2000, in full payment of my claim under Policy No. 59,471 on the life of my late brother, W. E. Buckley.

I notice that the check was issued by your company within fourteen days after I received my appointment as administratrix of the estate, and I wish to thank you and your company for the interest you have taken in the matter and for the promptness with which the claim has been fully settled. Sincerely yours,

LAURA CHAPPLE,
Administratrix of Estate of W. E. Buckley.

"The Polmatier sisters, who appeared at Stone's Music Hall last evening, presented a unique entertainment, which included all the elements of a first-class musical entertainment, with a bright concert flavor. Their program consisted of soprano, cornet, and trombone solos, quintettes, vocal and instrumental trios, and were tendered in a style quite refreshing and picturesque garbed in costume. Mr. Chas. W. Hitchcock in his dramatic monologues is worthy of special mention, as his work is clean and up-to-date in every respect, and showed for itself by the numerous encores he received. It is hoped that the music-loving people of Fargo may have an opportunity to hear this excellent company again in the near future, and it is safe to say that the "standing room only" sign will be very much in evidence."—Fargo (N. D.) Daily Call, Oct. 8th. At the Grand Forks opera house, Thursday, Dec. 21st.

SUNBEAMS

To the ladies there are three kinds of male—men, lovers and husbands.

A man is much more apt than a woman to go crazy when he falls in love.

It looks killing to see a full grown man smoking cigarettes—and it is!

A man's life was saved the other day by a big American dollar, which stopped a bullet aimed at a vital part of his body. This incident is another proof of the value of money. If he had been broke he would have been buried before now.

A college professor in Massachusetts has compiled a table of the ages of love in men and women. He concludes that Cupid's darts begin to do business as early as three years in the childhood of either sex; that a woman's heart matures at the age of 22, and a man's at 25. Great discovery!

The professions of medicine and law are really overcrowded, and young men are advised not to prepare for them. In at least two professions, however, there is a crying demand for trained men. They are forestry and soil physics.

An umbrella is said to have hung on a fence in Philadelphia for five hours before it was stolen. The same process repeated in Chicago resulted in four umbrellas being taken in an hour's time. Chicago is a hustling city.

About all there is in life is a good night's sleep. Instead of worrying and fretting for fame and riches, a man should conduct himself in such a manner during the day that he can sleep well.

Our laws do not permit a young man to be admitted to the bar until he is 21 years old, but barkeepers frequently admit them at a much younger age.

If a man would wear a large apron a few times and try to walk against the wind he would become an invincible advocate of bloomers for the ladies.

People always have a good time getting into matrimony, or any other kind of trouble—but they have another kind of time getting out of it.

Synopsis of Regulations Governing the Disposal of Dominion Lands within the Railway Belt in the Province of British Columbia.

A LICENSE to cut timber can be acquired only at public competition. A rental of \$5 per square mile is charged for all timber berths excepting those situated West of Yale, for which the rental is at the rate of 5 cents per acre per annum.

In addition to the rental, dues at the following rates are charged:—
Sawn lumber, 50 cents per thousand feet B.M.

Railway ties, eight and nine feet long, 1½ and 1¾ cents each.

Shingle bolts, 25 cents a cord.

All other products, 5 per cent. on the sales.

A license is issued so soon as a berth is granted, but in unsurveyed territory no timber can be cut on a berth until the licensee has made a survey thereof.

Permits to cut timber are also granted at public competition, except in the case of actual settlers, who require the timber for their own use.

Settlers and others may also obtain permits to cut up to 100 cords of wood for sale without competition.

The dues payable under a permit are \$1.50 per thousand feet B.M., for square timber and sawlogs of any wood except oak; from ½ to 1½ cents per lineal foot for building logs; from 12½ to 25 cents per cord for wood; 1 cent for fence posts; 3 cents for railway ties; and 50 cents per cord on shingle bolts.

Leases for grazing purposes are issued for a term of twenty-one years at a rental of two cents an acre per annum.

Coal lands may be purchased at \$10 per acre for soft coal and \$20 for anthracite. Not more than 20 acres may be acquired by one individual or company.

Royalty at the rate of 10 cents per ton of 2,000 pounds is collected on the gross output.

Entries for land for agricultural purposes may be made personally at the local land office for the district in which the land to be taken is situated, or if the homesteader desires, he may, on application to the Minister of the Interior at Ottawa, the Commissioner of Immigration at Winnipeg, or the local agent for the district within which the land is situated, receive authority for some one to make entry for him.

A fee of \$10 is charged for a homestead entry.

A settler who has received an entry for a homestead, is required to perform the conditions connected therewith under one of the following plans:—

(1) At least six months' residence upon and cultivation of the land to each year during the term of three years.

It is the practice of the Department to require a settler to bring 15 acres under cultivation, but if he prefers he may substitute stock; and 20 head of cattle to be actually his own property, with buildings for their accommodation, will be accepted instead of the cultivation.

(2) If father (or mother, if the father is deceased) of any person who is eligible to make a homestead entry under the provisions of the Act, resides upon a farm in the vicinity of the land entered for by such person as a homestead, the requirements of the Act as to residence prior to obtaining patent may be satisfied by such person residing with the father or mother.

(3) If the settler has his permanent residence upon farming land owned by him in the vicinity of his homestead, the requirements of the Act as to residence may be satisfied by residence upon the said land.

Application for a patent should be made at the end of three years before the local agent, sub-agent or a homestead inspector.

Before making an application for a patent, the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to do so.

W. W. CORY.

Deputy of the Minister of the Interior.

COPPER

The new edition of the COPPER BOOK lists and describes 3311 copper mines and copper mining properties, in all parts of the

world, covering the globe, these descriptions ranging from two lines to 12 pages in length, according to importance of the mines. The descriptions are not padded, but give facts in the most concise form. There are also fifteen miscellaneous chapters, devoted to the History, Uses, Terminology, Geography, Geology, Chemistry, Mineralogy, Metallurgy, Finances and Statistics of Copper, rendering the volume a veritable encyclopedia of the subject of copper and everything pertaining to the metal. It is the world's standard Reference Book on Copper.

Every Miner, Prospector, Investor, Banker and Broker needs the book. Price is \$5 in Buckram binding with gilt top, or \$7.50 in full library morocco, and the book, in either binding, will be sent on approval, to any address in the world, to be paid for if found satisfactory, or may be returned within a week of receipt and the charge cancelled. Address the Author and Publisher.
