MR. SHATFORD'S VISIT

Mr. L. W. Shatford, M. P. P. paid Hedley a visit at the end of last week on his way up the valley and again on his return he spent a day between trains. He is looking well and is well pleased with the work of the past session of the legislature which he said had been conducted with all the peace and harmony of the happy family to which they had often been likened. The session too, he said had been one of results, and an earnest desire to advance business had characterized the labors there. At no other session since he became a member of the legislature has so much real business been done with as little talk, and he was of the opinion that the absence of some who had formerly been in the habit of wasting the time of the house with useless debate was she cause of the improvement. Considering the lengthy legislative bill of fare that hed been presented and the importance of many of the measures dealt with, he was of the opinion that had some of the talky ones who used to delay the house been there they would not have been through with the work of the session for a month yet.

Following his usual plan of taking an active interest in public works in the district and seeing for himself the wants of each section, he is making a tour of the district with the new road supervisor who is most pleased to avail himself of so competent a pilot who can introduce him over the district and from whom he can obtain valuable pointers, Few representatives have been as fortunate as Mr. Shatford in securing needed appropriations in his district, and there is every reason to believe that his success in this line has been largely due to the valuable information (obtained by personal inspection) which he has been able to give to the members of the government. This he could only do by keeping closely in touch with all parts of his district, by frequent tours like the present and if all other representatives were to take a leaf from his book in his respect their constituents in different localities would have less cause to complain of neglect.

GOLF FIELD DAY

A general turnout of golfers marked Saturday's play to which a series of matches lent additional interest, and the ladies were included in the competitions. It was arranged to have a number of matches of foursomes to accommodate as many players as should turn out at the appointed time, and there was a regular drawing for partners. Of those who turned out there was one lady short of making three sets of foursomes and accordingly the man who had played least was allowed to take the place of the missing lady.

The drawing for partners resulted in grouping G. P. Jones and Miss Megraw against S. F. Chamberlain and F. H. French for the first set; H. A. Hincks and Mrs. Rotherham against A. Megraw and Mrs. G. P. Jones for the second set; S. E. Hamilton and Miss McLean against W. C. Martin and Mrs. Jamieson for the third set.

All the score cards were not handed in to show the proper standing of each set by holes lost or won, only the totals being given which is not the proper way to score in match play. These totals however were as follows: 1st set Chamberlain and French 64. G. P. Jones and Miss Megraw 71; 2nd set H. A. Hincks and Mrs. Rotherham 61: A. Megraw and Mrs. G. P. Jones 75; 3rd set, S. E. Hamilton and Miss McLean 66, W. C. Martin and Mrs. Jamieson 34.

These and other competitions will doubtless be continued throughout the season and by this means the interest added to the game will result in all-round improvement in play for everybody and vigorous healthful exercise obtained which will promote the health and enjoyment of all members of the club.

Lord Kitchener received an ovation in New York. He denies that he was actuated by any unfriendly spirit towards Canada, in avoiding this country in his trip across the continent.

CAUGHT IN ANOTHER

One by One Cook's Claims to Fame are Vanishing

Just when a few misguided enthusiasts were getting together a fund to spend on trying to prove that Explorer Cook may not be a humbug, the report of a party who have climbed Mount McKinley, emphatically state that Cook's claim in that particular is untrue. Not only did they find no vestige to show that Cook had ever been there, but photographs which they took bear no resemblance to those displayed by Cook which are now believed to have been faked.

ADDITIONAL LOCAL MATTER

Carl Hairsine, representing the W H. Malkin Co., wholesale grocers, of Vancouver, was in town over Sunday.

John Love, of Phoenix, was in town this week shaking hands with Hedley friends, having come in by Tuesday's train.

Word was received in town this week that Hilda Bryant, second daughter of Wm. Bryant, had died of consumption, in Los Angeles, Cal.

A game of baseball was played in Hedley on Sunday last when the Hedleyites met a team composed of commercial travellers who happened to gather in the town for Sunday. The drummers were re-inforced by Charlie Revely and W. Knowles from the Nickel Plate. The score stood, Hedley 16, travellers 11.

Fire wardens should get busy, and see who is responsiole for the setting out of the fires which were blazing on the mountain tops near town during the past week. It is just by neglecting such things that serious harm is done. People who don't know enough about fire to know that in must be kept in control should be taught before they get too old to learn.

George Stein, a miner at the Nickel Plate met with a rather serious accident at the mine last week when he was thrown off a car on the incline from the Sunnysides glory hole and had his knee cap shattered. He is now in the hospital where Dr. McEwen sewed the pieces together with silver wire, which it is hoped will make an effective mend, but the doctor expects the recovery to be rather tedious.

E. W. Barrett, real estate agent of Vancouver, who has made several trips to Hedley in the past two years during all of which he has sold considerable property, came in on Friday last, and is pushing the sale of Westminster property—a portion of the coast district that has not yet had its boom. During the past year however, there has been much about New Westminster to attract the attention of the shrewd speculator. Manufacturers have evinced a preference for locating there, and the city on the Fraser bids fair to become the manufacturing hive of the coast district.

The water has been rising during the past week both in the Similkameen and Twenty-mile and a few more warm days will serve to increase the volume of water to a considerable degree. So far as nower wants of the company are at present concerned they have water to burn. All the steam cylinders at the power house are cold and not an ounce of fuel is being burned for the generation of power, while the new water driven compressor is leisurely moving along with the air gauges showing 110 lbs notwithstanding the fact that all the machine drills at the mine they can crowd on are at work, as well as all the diamond-drilling crews and all the pumps and mine and tram hoists, and the water wheel driving the motor-generator drawing its quota from the penstock and supplying all the necessary electric current At no stage in its history was the plant ever able to accomplish the amount of work it has been doing as effectively and as cheaply as during the past ten days.

Fraser River Mills have been purchased for twenty millions. McKenzie and Mann are on the board of directors of the new company.

NEW ROAD SUPERVISOR.

This week Hedley had a visit from Mr. H. A. Turner the new road supervisor for the district, who has just given up the position of mining recorder and assessor at Fairview to accept his present position.

In making the appointment the Minister of Public Works has certainly been most fortunate in his selection, for it is understood there were a great many applicants for the position, and in such a case it is all the more essential that the choice be one which will meet with general approval, as we are sure this one will.

As mining recorder and assessor Mr. Turner proved himself a most efficient officer, but the more active outdoor life had a strong attraction for him and hence his choice to make the change and the opportunity of the minister to secure a capable supervisor whom he knew and in whom he had the utmost confidence. In addition to his knowledge of public accounts, Mr. Turner's knowledge of engineering will fit in with particular aptness, and this, no doubt, influenced him to a great extent in making the change; but the crowning qualification of all which he will bring to bear is his good hard sense and a good rigid spinal column.

Of almost equal importance to the securing of a liberal appropriation is the matter of having it wisely expended, and for this reason alone, if for no other, we are sure Mr. Shatford will have cause to feel gratified at the selection made by the Hon. Thomas Taylor.

RIVAL CLAIMANTS

Tulameen City Urges Its Claims and Gives Reasons on Which Hopes are Based.

To the Editor Gazette:—

Dear Sir:

In its issue of March 30th Similkameen Star positively asserts that it is not possible anywhere, in any country to find ore and coke in such close proximity to each other as at Princeton. The editor, of that valuable paper in the same issue states, that a smelter established at the forks of the Similkameen and Tulameen would not require to haul its coke more than fifteen miles, but at Tulameen we have the goods right there both ore fluxing material and coking coal which is proved beyond a doubt and consequently don't have to haul coke fifteen miles. According to current and official report, at either Tulameen or its close proximity there will be the end of the division east of Hope which will make Tulameen the business centre and supply point for the whole of this section. A short distance up the Tulameen there are the best falls in the upper country and which will furnish electricity for all power needed. We also have a magnificent lake adjoining the townsite of Tulameen second to none in B. C. both for beauty, boating and fishing. According to Dr. Dawson's geological report of some years ago which is absolutely unquestionable the Tulameen river, its tributaries, and surrounding country will be, when opened up, one of the greatest mineral and coal producing sections in B.C., (but we won't say that it is not possible anywhere in any country to find such ore and coke and general possibilities,) I might also mention that the United States geological department sent experts to Tulameen in 1897 to determine the extent of platinum ground up the Tulameen and Granite Creek. They claim it is the richest source of platinum in America and there is every indication to show that the platinum of Granite Creek is in close proximity to the original source. This fact is made particularly evident by the finding of platinum nuggets to which a considerable amount of mother rock was still attached. This rock proves to be peridotite mixed with chromite and magnetite.

J. G. T.

Hilton Keith, well-known in the Similkameen died in Victoria last week from injuries received in falling down stairs. He was at one time agent of the Allison townsite.

EDITORIAL COMMENTS

The British are a trifle in doubt as to the effect which the throwing off of the German surtax will have on the West indian sugar trade. The British preference which included the West Indies and the putting on of the German surtax which shut out the German beet sugars had a very marked effect in stimulating the sugar trade between Canada and the West Indies and under these circumstances it is not to be wondered at that there should be some misgivings as to the outcome of this later move on the tariff chessboard.

The fatal termination of the injuries received by Capt. Tatlow has caused keenest regret throughout the province, for in the discharge of his public duties during the years in which he held the position of Minister of Finance and of Agriculture he inspired the confidence of all, irrespective of their party affiliations, and all knew that in the rehabilitation of the credit of the province under the present administration, much of the credit belonged to the man who kept guard over British Columbia's strong money box. It is a notable fact that when in his judgment he could not see eye to eye with his leader and his colleagues in the matter of their railway policy, he did not in the least degree forfeit their friendship or respect, nor yet the confidence or respect of the political party to which he belonged and during the campaign not an unkind word was spoken or written of him by any conservative speaker or any conservative paper, nor for that part by any other paper in the province that could claim a reputation for fairness or decency.

Town and District.

J. J. Marks went to Granite Creek on Monday.

A. C. Bolam went out to the coast last week by way of Nicola.

Good business lot on Scott avenue at $360; a snap. Apply to A. Megraw.

Joe Rotherham made a trip to Merritt last week to look over that part of the country.

H. B. Meausette, of Keremeos, is in town this week doing tinsmith work and plumbing.

Beginning Sunday, April 30th, Rev. A. H. Cameron will hold his Hedley services at 8.00 p. m. instead of 7.30.

A. J. Saunders, formerly of Keremeos, was in town this week. He has recently opened a barber shop in Princeton.

The Hedley Sunday School is to be held in the forenoon from this out instead of the afternoon as formerly. The hour is from 10 to 11.

There was a good turnout at the dance given on Friday last under the auspices of the Hospital Auxiliary, and after deducting expenses, about $8.00 was netted.

The work train has been busy during the past week getting the track in shape at the points most likely to feel the stress of the coming annual freshets from the melting snows.

Real estate sales have been fairly brisk in town during the past week. The latest sale was that of the two houses and three lots on Webster st belonging to W. P. Rodgers which was purchased by A. McGibbon.

The undersigned has been instructed to sell three good lots partially improved, on Cawston avenue, at a bargain. These lots will be sold at $100 less than residence lots on Kingston avenue. Apply to A. Megraw.

Word came to Dr. McEwen that a patient named James Campbell was being sent down to him from Princeton on Saturday, and later in the day he learned that the man had died at the station in Princeton while waiting for the train.

The many friends in this district of Rev. Dr. White, superintendent of Methodist missions will regret to learn of the bereavement he has met in the death of his wife which occurred at New Westminster last week. Paralysis was the cause of her death.

Dave Leggatt was in town this week. He was trapping last winter and did very well. He is making his headquarters with Hughie Campbell at Ashnola and reports Hughie in good health and spirits, but Angus Lamont is ailing somewhat.

Geo. Bowerman has secured a five year lease on the old Okanagan Smith ranch and orchard, through the Indian department. Mr. Bowerman being a worker and a hustler he is certain of making good money out of the venture.—Oroville Gazette.

It has transpired that the new field to which the Bank of B. N. A. have sent Mr. MacHaffie, formerly manager at Hedley, is Fort George, where they have opened a branch with Mr. MacHaffie in charge. The last official report issued by the bank gives the Fort George branch with Mr. MacHaffie as manager.

H. M. Reeves, of Spokane, special agent and adjuster for the Alliance Insurance Co., of Philadelphia, was in town on Thursday last and appointed A. Megraw to represent the company in Hedley. The Alliance was one of the few American companies to pay in full their losses in San Francisco, most of the others refusing to pay more than 75 per cent. In some cases the Alliance put up 125 per cent., paying their own in full and also the remaining 25 per cent that some of the other companies with which they had reinsured, had defaulted.

The annual report of the Bank of British North America shows the bank to have just completed a most successful year, during which they have added eight new branches in Canada, and increased their deposits over four millions. They also paid to stockholders dividends and bonuses of seven per cent. per annum after carrying forward a handsome sum to reseserve.

Section foreman Hayes, of the Great Northern, who was admitted to the hospital a little over a week ago, developed a case of erysipelas and the doctor had him removed to a tent on a lot in the vicinity. He has since made rapid advance for recovery and will be discharged in a day or two. It was well, however, to take no chances but remove all risk from other patients some of who had serious wounds from critical operations that had been performed.

METEOROLOGICAL.

The following are the readings showing temperature, etc., for the week ending Apr. 16, 1910:

AT THE MINE.

	Maximum	Minimum

KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

Town and Lower Valley.

A large number of Orangemen from Keremeos drove to Hedley on Monday evening to attend an arch meeting.

W. D. Lawson, manager of the E. T. Bank here, spent Sunday with his cousin R. H. Carmichael at Princeton.

J. J. Armstrong returned on Saturday from Kamloops where he had been attending the Fruit Growers' Convention. He spent a day at Peachland on his way home.

The last of the material for Geo. B. Clarke's house has arrived and the carpenters are now busy assembling it into what will be one of the finest residences in the valley, replete with all modern conveniences.

The big shipment of fruit trees from Stark's nurseries for Keremeos has not yet arrived, but is expected in by Saturday. The water from the big ditch is also now available and next week will be a busy one about Keremeos.

Mr. Annabel, of Sask., who owns a three-acre lot west of town has requested O. H. Carle to have it ploughed, fenced and if possible planted in fruit trees this spring. Mr. Carle thinks he can manage to have the work all done.

John Thomson left on Monday via the V. V. & E. for his home in Vancouver. He has been spending a month on his fruit lot here and has planted 265 more trees. Mr. and Mrs. Thomson will spend the greater portion of the summer visiting friends in Ontario.

L. W. Shatford, M.L.A., accompanied by H. A. Turner, of Fairview, the new road supervisor, passed up the valley on Thursday. They are on the regular tour of inspection of the constituency, which Mr. Shatford makes annually before the alotting of the government money for road improvement and the building of new ones. They will stop in Keremeos on their return trip and confer with representatives of the Board of Trade as to how and where the appropriation for this district can be spent to best advantage.

C. C. Hamilton, of Spokane, representative of the R. E. Callahan Co., sales agent, was in town from Wednesday till Saturday of last week launching the big stock reduction and money raising sale now being held by J. R. Shaw. On Thursday and Friday the Big Store was closed while goods were being arranged and prices marked down. On Saturday morning the sale commenced and a brisk day's business followed, the regular staff of the store being increased by a half-dozen young sales ladies. The sale will continue another two weeks and it will amply repay readers of the Gazette to study Mr. Shaw's announcements in this and next week's issue.

Among the arrivals in Keremeos during the week are H. P. Gibson and C. I. King, of Alameda, Sask., and Mr. Wilson and his sister of Nanton, Alta. Mr. Gibson whose brother, R. L. has been here for some weeks, brought out a carload of effects, including a fine matched team of drivers. They will begin building operations at once on their splendid ranch across the river just above the first railroad bridge and as soon as temporary quarters are established Mrs. H. P. Gibson will join her husband here. Mr. King, who accompanied Mr. Gibson and his car, is a brother of A. J. King, formerly of this place and now associated with Geo. Cawston in the butcher business at Hedley. He is seeing the country and paying his brother a surprise visit. Mr. Wilson has a lot in the first subdivision across the river. He has disposed of his interests on the prairies and he and his sister will take up their residence here.

A force of men, under government employ are engaged rip-rapping the piers of the combined irrigation and traffic bridge at Ashnola. We understand that the government has taken over a half interest in this bridge from the Land Company.

Rumors are current of a change in the time card on the V. V. & E. early next month which will give through service from Spokane to Princeton. The movement of the C. P. R. to establish better service from Princeton to Vancouver via Nicola is having a beneficial effect. Apparently the G. N. R. will move only when they have to.

The annual meeting of the Keremeos Fruit Growers Association will be held in the Keremeos Land Companies office on Saturday afternoon 30th inst. Members are requested to keep the date in mind and be on hand as besides the usual business a resolution dealing with the establishment of an experimental fruit station for the Similkameen will be brought up.

WILLIAM RING

News was receive by J.J. Armstrong on Monday that Wm. Ring had died at the Burrard Sanitarium, Vancouver at eight o'clock Friday Morning, April 15th. His death will be deeply regretted by a large circle of acquaintances in the Similkameen. During his short residence here, as manager of W. H. Armstrong's interests, he proved himself an energetic and public spirited citizen, and as vice-president of the board of trade lent that organization

his hearty support and counsel. He was a victim of that dread disease, tuberculosis, and early in July last found it necessary to seek medical treatment. He first tried the Harrison Hot Springs and afterwards went to the Burrard Sanitarium where he remained till his death. Even to the last he made a game fight against the grim reaper, never giving up hope and continuing to exercise a supervision over Mr. Armstrong's interests here, His death is a loss to this community.
