Descriptive Write-Up of Mine and Works

(Nelson News)
(Continued from last week.)
HEDLEY MILL DESCRIBED
The ore is drawn from the lower tramway bin direct to a 20x10 Farrel crusher, from which it passes by gravity over a grizzly, the coarse going through a 6x20 Farrel crusher. The throughs from the grizzly and the smaller crusher feed on a belt conveyor, running at right angles to it and which is carried on a carriage running on a track over the main storage bins. Over this belt is suspended a powerful electric magnet which picks up any bits of steel or iron in the ore. By moving this carriage the ore can be fed into any of the bins desired. From the bins it is fed by Challenge feeders to the 40 stamps. The stamps drop 101 times a minute, a distance of seven and one-half inches, and weigh 1,050 pounds. No amalgamation has been attempted either in the battery or on the plates for the last year and a half, as the saving effected by amalgamation was found to be so small, and the gold could be collected in the cyanide plant anyway. This was one of the many changes made in the mill since Mr. Jones became manager, although he has been with the property as mine superintendent for over 12 years. The stamps crush to 12 mesh and have a duty of five tons per stamp. The screens used are of the steel slot type.

CONCENTRATING PLANT
The pulp passes to four duplicated Spitzkasten. The coarse is fed by these to eight corrugated belt Frue vanners and the fines to 16 smooth belt vanners and 12 Deister tables. The tailings from the corrugated belt vanners are re-elevated by a sand pump to a tube mill and re-ground. The finely ground product then joins the feed to the 16 smooth belt vanners and 12 Deister tables. Churtz pebbles are used altogether in the tube mill. At first coarse ore and pebbles were used, but by using the Churtz pebbles, obtained from Denmark, it was found that the output of the mill was increased and the life of the lining was much longer. Two-fifths of a pound of pebbles are used to one ton of tailings. The tailings from the Deister tables and smooth belt vanners go to a set of cone classifiers. The slimes from the classifiers go to the slime plant and the sands to the sand plant. About 240 tons of concentrates, containing silica 14 to 16 per cent and iron 28 to 30 per cent, the iron being arsenical iron, are produced per month and shipped to the Tacoma smelter for treatment. These concentrates contain from 70 to 80 per cent of the values saved.

CYANIDE PLANT
The sand plant treats 120 tons per day, while the slime plant treats 80 tons, that being about the proportion of slimes to sands produced. The sand plant has 12 tanks; six on each floor. The tanks are six feet deep by 32 feet in diameter. The sands are treated twice with cyanide solution, first in one of the upper tanks and then in one of the lower, the whole treatment occupying 20 days. The slime plant tanks are all on one floor and the slimes are agitated for 12 hours in one tank and allowed to settle once and then are thrown over into the No. 2 tanks, where they remain for about 30 hours. From the No. 2 tanks they are taken to two Oliver filter presses, where they are washed with a barren cyanide solution, which is sucked through them to wash out any gold-carrying cyanide they may contain. After being pressed dry by the suction provided by the vacuum pumps they pass to the tailings launder. The cyanide solution from the sand plant and the slimes plant is fed into a solution tank with zinc dust, with which it becomes thoroughly mixed in the tank. It is then pumped with the zinc dust and precipitated gold through two Merrill presses, one 20-frame and the other 10 frame. These are kept locked and the gold precipitate is all collected in them, from which it is taken, washed first with a

sulphuric acid solution and then with water dried and melted into bullion. The barren solution from the presses passes to the sump tanks and from there it is pumped to the mixing tanks on the upper sand plant floor, where it is brought up to standard strength and used again. The consumption of cyanide is three-eighths of a pound, of zinc one-quarter of a pound and of lime four pounds per ton of ore treated while the extraction of gold is averaging 95 per cent, although last month it was nearer 97 per cent of the total gold contents of the ore. The important changes that have been made in the mill and which have brought about the increased saving were completed about 18 months ago. They consisted of abolishing amalgamation altogether; the installation of the tube mill for the fine grinding of the sand tables tailings, the addition of the 12 Deister tables for the concentration of the fine slimes in the concentration plant, the addition of the Oliver filter presses for the slimes treatment, and the abolishing of the use of the zinc boxes and the installation of the Merrill filter presses and tank treatment of the solution with zinc dust instead of zinc shavings for the collection of the gold precipitate. The changes have brought the values in the sand tailings down to about 25 cents and in the slime tailings to about 60 cents per ton.

INCREASED CAPACITY
The capacity of the mill has been increased from 4,000 tons per month to over 6,000 tons, while the additional cost of treatment is nominal. Before these changes were made the slimes were all saved without cyaniding in the slime pond. This pond contains over 6,500 tons of slimes which will be pumped back to the slimes plant for treatment at some later date. Under the former management the tailings were not saved, but under the present management the tailings were all saved before the installation of the changes mentioned could be effected, and these will be also pumped back and retreated at a later date.

POWER PLANT
At the power house compressed air and electric power are generated by duplicate steam and water power units. The air compressors and generators are direct connected to water wheels. When using water power the connecting rods of the steam cylinders are disconnected and if any accident occurs to the flume line or the water becomes low these can be connected up and steam raised in the boilers with a delay of only four hours.

Water is taken from Twenty-mile Creek and conveyed by a flume line four feet by four feet and 13,600 feet long to a forebay 412 feet above the power house. For storage purposes there is a dam at an elevation of 7,000 feet, 400 feet across and 16 feet high on the east fork of Twenty-mile. This forms a lake one mile long and one-half mile wide, from which the water can be discharged into the creek and caught at the flume when the water becomes low.

The main generator is a 300 K. W. 2,200 volt Westinghouse direct connected to a 400-horsepower Doble water wheel of the Pelton type on one end. The water wheel is controlled by a Lombard governor. The 30-horsepower exciter is belted to the line shaft. On the other end the generator can be direct connected to a 500-horsepower Goldie & McCulloch Corliss condensing engine, controlled by a Rites-Inertia governor when it is necessary to use steam power. The lights for the town and plant are supplied by a 100 Kilo-Watt generator direct connected to a Pelton wheel. This is the only unit in the plant which has no steam connection. The main unit of the compressor plant is one two stage cross compound steam condensing Corliss gear Rand compressor, supplying 2,100 cubic feet of air at 125 pounds, driven by a 26 foot Pelton wheel direct connected to the main shaft. There is also an auxiliary 18x24 straight line Rand compressor, a 1x18 Ingersoll compressor steam connected and belt driven by the water wheel, which drives the 100 Kilo Watt light generator has been transformed into a vacuum pump for the cyanide plant machinery. The boiler plant consists of three 150-horsepower tubular return boilers

EXTEND VISIT TO FRANCE

Canadian Ministers When Visiting the Mother Country Will Call on the Mother-in-law, Madam France as Well

Paris, July 25. The Canadian Postmaster-General, Hon. L. P. Pelletier, arrived here this evening. The principal object of Mr. Pelletier's visit is, if possible, with M. Chaumet, Under-Secretary of Posts and Telegraphs, to establish a reduction in cable rates and an introduction of two cent letter postage between Canada and France. The Postmaster-General will be joined Saturday by the Canadian Premier, Hon. R. L. Borden; the Canadian Minister of Justice, Hon. C. J. Doherty; the Minister of Marine and Fisheries, Hon. J. D. Hazen, and Hon. A. E. Kemp, Minister without portfolio.

Mr. Hazen will confer with Delcasse the French Minister of Marine on the subject of reciprocal shipping regulations notably with respect to an increased number of lifeboats on steamships plying between France and Canada, and on the possibilities of improving trade between the two countries.

Great importance is attached to the visit to Paris of the Canadian ministers, on account of the close relations between France and Canada, and an imposing programme of entertainment has been arranged in their honor. This includes a trip to Versailles and banquets by the British Chamber of Commerce and the Franco-American Commission, the latter to be presided over by Premier Poincare and M. Gabriel Honotaux, the president of the commission.

HOSPITAL DONATIONS

Mrs. Wirth, flowers; Mrs. S. L. Smith, lettuce; Mrs. Clare, potatoes, radishes, turnips, onions, carrots, beets, apples and fruit jars; Mrs. Mierhoffer, beets, lettuce and peas; Mrs. Brass, fancy ornament and Vancouver papers; Mrs. Critchley, fresh trout; Mrs. Collins, fruit, fresh eggs and flowers; Mrs. F. Richter, Keremeos, flowers; Mrs. Shier, Oranges; Mr. Jacobs, currants and two and a half gallons raspberries; Mr. Cody, lemons; Mr. Drinkwater, magazines, Mr. Mierhoffer, one gallon raspberries.

GENERAL NEWS

A Canadian immigration inspector was shot on board the boat between Windsor and Detroit by a man whom he had ordered to be deported as an undesirable.

Bank hold-ups still figure in Vancouver's bill of crime. The Central Park branch of the Northern Crown Bank was the last to be robbed.

The coal-miners are on strike again at Coleman, Alberta. There were one hundred and fifty went out on 25th ult and several hundred more the following day.

Rural mail delivery is becoming popular and the Post Office Department are besieged with applications for the service. Most of the applications are from Ontario.

Half the Rainbow's crew are going back to England and the ship is to go out of commission in consequence. The term for which the men had taken service has elapsed.

The Railway Commission sitting at Calgary gave out a very important decision last week. It was to the effect that where a railway company removes a station away from a town they must also stand the expense of moving the town.

made by the Jencks Machine company, and two 100-horsepower tubular return boilers, made by the Vancouver Engineering works. A 100-horsepower Mumford is used for heating the mill and buildings with steam at 10 pounds pressure.

An interesting and effective feature of the air compressors is the location of the intercooler and aftercooler tanks in an excavation in the tailrace. The constant flow of the abundance of water thus provided assures a maximum of condensation and provides much drier air for the 17,000 foot pipe line to the mine than is ordinarily obtained.

GEOLOGISTS' ITINERARY

Arrangements Are Progressing for Entertainment of the Visiting Geologists to the World's Congress in Canada in 1913

Excursions will be made to various parts before, during and after the congress. It will be after the congress that parties will visit British Columbia and the following is an outline of the route to be taken:

"Examination of the intrusive contact of the granodiorite at Nelson, the gold-copper deposits at Rossland, the gold-quartz veins at Sheep Creek, the copper mines at Phoenix and Greenwood, the silver-lead mines of the Slovan district, the Nickel Plate gold mine at Hedley, and the pre-Cambrian rocks west of the Kootenay river will be made by the members of the Twelfth International Geological Congress in September, 1913.

Fifteen days will be devoted to the trip via the Crow's Nest line from Toronto to Vancouver.

Those participating in this excursion will travel over the main line of the Canadian Pacific Railway directly to Medicine Hat, in the province of Alberta. From this point the journey will be by way of the Crow's Nest branch line passing through the mining centres of Lethbridge, Fernie, Nelson, Rossland and Greenwood. At Midway the party will be divided, some of the party returning to Nelson and Revelstoke on the main line by way of the Arrow Lakes. The remainder of the party will proceed to Vancouver, passing through a mining region of which the principal places are Hedley, Princeton, Thlameen and Nicola. Between Lethbridge and Fernie sections of the Cretaceous coal measures will be examined. At Frank the party will be given an opportunity of viewing the notable rock slide which occurred in 1903.

BAD FOR COAL MINES

But Good for the Forests—Oil-Burning Becomes General Through the Mountains

Enderby Press
The first oil-burning locomotive to enter the Okanagan Valley was attached to the south-bound passenger train on Monday, and will run regularly hereafter. The C. P. R. is converting as rapidly as possible all locomotives on the Mountain section into oil burners.

Twenty Years Ago

From Vernon News, July 21, 1892.
"The mail now leaves Vernon for the lower country on the last Thursday in each month. A separate lock-sack is sent to each office—Penticton, Osoyoos, Keremeos, Rock Creek and Kettle River—besides a way point between the Mission and Kettle River for local use."

METEOROLOGICAL.

SOME BLUE LAWS

Constable Sproule received orders from chief constable Dinsmore to not permit the playing of any more baseball games on Sundays in unincorporated towns, and under the circumstances there is nothing for him to do but to obey his orders. The prohibition seems to be just another of those instances where an excess of religious zeal will defeat its own object, and instead of promoting morality will tend to lessen the hold of the church upon the masses; for the public, meaning no harm and being unable to recognize any harm in the little diversion of a ball game in the pure open air on a Sunday afternoon, are bound to resent interference of this kind with what they conceive to be their innocent pleasure. What has precipitated the present ukase we can only guess, but in all probability it is an echo of the incident which occurred over in the Boundary district a few weeks ago when customs collector Robt. Kerr took upon himself to turn at the boundary line a number of spectators and players from Republic who were on their way to play a ball game on Sunday at Greenwood and the matter got into the papers. That of course would be the signal for the Lord's Day Alliance to stick in their oar and get busy. It is very true that the Lord's Day Act is a Dominion law forced on the country by the Alliance and their supporters, and as a Dominion law it is up to all portions of the Dominion to obey it, subject to any provincial restrictions, but it must be remembered that there is a safety valve clause to it which permitted each province to reserve for its Attorney General the right to decide whether or not a prosecution might take place for infraction of any particular clause of the Act. Quebec and British Columbia elected to make the reservation and thereby aroused the pious horror of many in the east. Having done so it is now left to the Attorney General of this province to decide individual cases on their merits.

We do not know whether the chief constable has issued this order about Similkameen baseball off his own bat or had his instructions from higher up, but if the Attorney General has yielded to the Alliance for action in this case he has shown a weakness

that very few would expect of him. Mines, mills and smelters are now permitted to run on Sundays whereby the men are deprived of their one day off in the week, and it is men who are shut up in the mill all week who are in a position to enjoy the opportunity of going out after coming off shift on a Sunday afternoon and either engaging in the healthful exercise of the game or of sitting on a bank in the open air watching others play. But now they are to be denied that privilege. Those who are rich enough to afford an auto may go speeding about the country all day Sunday if they want to, but those whose means compel them to choose the cheaper and homelier form of amusement of a ball game are not to be allowed a couple of hours of it on a Sunday afternoon, even where there is no gate charge nor no prize nor stake being competed for. Under the circumstances it would appear that if the Attorney General is supposed to have decided this case on its merits he has been most unfortunate in the recognition of those merits.

The order clearly goes too far and no conviction could be obtained from a prosecution under it for the Act itself will not bear it out. To issue an order of this kind under the circumstances is only to bring law and authority into public contempt.

EDITORIAL COMMENTS

The cat is out of the bag. Borden has really committed himself to the dreadful doctrine that Canada should expend good hard money for the building of dreadnoughts to be used to fight Germany if she should choose to dispute the right of the British navy to control the sea. It will now be in order for young William Lyon MacKenzie King to say to those Dutch voters in Waterloo county, "Didn't I tell you so."

After Winston Churchill, first Lord of the Admiralty, made that noted speech introducing his new naval programme, laying the responsibility for it plainly on Germany and acknowledging his perfect accord with the views and attitude of Canada's Premier, and after his sentiments were even more strongly emphasized by Premier Asquith, it will tax the side-stepping powers of our Sir Wilfrid to find a suitable pretext on which to line up his compatriots in Quebec against Borden's proposals which are now known to and commended by Asquith and Churchill but which will not be announced in Canada or elsewhere until they are submitted by Mr. Borden to his cabinet in Ottawa and then announced to the Canadian people.

Readers of British Columbia dailies cannot fail to have noticed the wonderful improvement in the character of the news that now fills the columns and is served up to readers of these papers throughout B. C. while it is still fresh. Formerly the bulk of the news contained by them that was not home brew and dealing with the affairs of the province alone, was for the most part about happenings through the United States about which the average British Columbian reader did not care a button, and the very small amount of space given to news of the eastern provinces and to British news fresh from over the water at the heart of empire was meagre indeed. Worse still, it had filtered in to British Columbia papers through American channels and in transit had taken on a tinge of coloring that was decidedly pale after all that was at all national in character had been lopped out of it. Too much credit cannot be given to those who have been responsible for bringing about the change, and national as their news service is now becoming we believe it is only an approach to what they will yet be able to give us when cable rates are cheapened.

WATER RIGHTS BRANCH

TAKE NOTICE that the Board of Investigation, acting under Part III. of the "Water Act," will meet at Grand Forks, on the 6th day of August 1912, at 1 o'clock in the afternoon, to hear and determine claims to water rights existing on the 12th day of March, 1908, on—
Kettle River and tributaries, Volcanic creek, Tom Tit creek, Flatt creek, Gloucester creek, Boulder creek, Clark creek, Lime creek, Meadow creek, Bannan Gulch, Grain creek, Line creek, Ruckle creek, Prairie creek, McDaniel creek, Fisherman creek, Cyclops creek, Savage creek, Knappen creek, Wiseman creek, Blue Joint creek, Deady creek, St. Anne creek, Fraser creek, Mulligan creek, Cedar creek, Lynch Creek, Spring branch or Mill creek, Mill creek, Sandbank creek, Sand creek, Hewitt creek, Hewitt creek, Fourth July creek, Spring Gulch, Hardy creek, Cedar lake, Mill, White or Gibb creek, May creek, Ward lake, Murray creek, Little Okanogan creek, Gold Hill creek, Hornet creek, Josh creek, Joshua creek, Franklin creek, Twilight creek, Rock creek, Colchester creek, Beaver lake, Canyon creek, Baker creek, Sutherland creek, Hara creek, Madra creek, Madra creek, Hillyard creek, Bitter creek, Deep creek, Boswell creek, Trout creek, Deer creek, Sheep creek, Munroe creek, McRae creek, Christmas creek, and their tributaries, and to unnamed streams in the vicinity.
On the 7th day of August, 1912, at 3:30 o'clock in the afternoon, at Greenwood, to hear and determine claims to water rights existing on the 12th day of March, 1908, on—
Kettle river and tributaries, Boundary creek, Providence creek, Ruby creek, Jolly Jack creek, Copper creek, Twin creek, Smuggler Spring, Lake, Marshall, Lynn or Lind creek, Lind creek, Holt creek, Atwood creek, Gold Drop creek, Summit creek, McCarren creek, Douglas creek, Norwegian Creek, Wallace creek, Wolf's spring, Spring creek, Sunset creek, Deadwood creek, Mother Lode creek, Hausener creek, Crosscut creek, Granite creek, Cedar creek, Gold creek, Deer creek, Spences Spring, Wartman lake, Wood creek, Selvington creek, Skeffington creek, Loon lake, Little Chief creek, Buckhorn creek, Long lake, Boulder creek, Pass creek, Beaver creek, Curry creek, Cranston creek, Hinchinson creek, Cannon creek, Deep creek, Garnet creek, Quillette creek, Dry creek, Slate creek, Kepler creek, Conkle creek, Cedar creek, Copper creek, Rock creek and tributaries, Baker creek, Myers creek, Nicholson creek, Holme creek, Two-mile creek, Sample creek, Murray Gulch, Wilson creek, Myers creek Canyon, Ingham creek, Rice creek, Johnston creek, Nine-mile creek, Eight-mile creek, James creek, and their tributaries, and to unnamed streams in the vicinity.
On the 9th day of August, 1912, at 2 o'clock in the afternoon, at Princeton, to hear and determine claims to water rights existing on the 12th day of March, 1908, on—
Similkameen river and tributaries, Wolf creek, Nine-mile creek, Coldwater creek, Bronley creek, Canyon creek, Five-mile creek, La-la-wa-uh creek, N-Kan-Ske-kan creek, Ak-sop-naps-in creek, Chur-chu-way-la creek, N-Kan-a-he-nico creek, Jim creek, Granite creek, Cedar Springs creek, Verde creek, Whipp creek, Little lake, Spring creek, Deer lake, Summer creek, Gravelly creek, One-mile creek, Otter creek, Boulder creek, Strong Meadows, Deep lake, Small Beaver lake, Elliott creek, Cedar creek, Six-mile creek, Three-mile creek, Collins Gulch Stream, Big Kid, Rucker creek, Hays creek, Ash-nola river, Kingston creek, Eighteen-mile creek, Brodhagen creek, Sixteen-mile creek, Fifteen-mile creek, Stirling creek, Tom creek, A-ghip-flat creek, Sim-lise-tse-pas-kan creek, St. Mary creek, Glenwater creek, Henry creek, Crystal Springs, Cold creek, Thirty-two-mile creek, Smith creek, Gold creek, Schumaker creek, Shoemaker creek, Bear creek, Twenty-mile creek, Mark creek, Tom Mark creek, Murray creek, St. Mary creek, and their tributaries, and to unnamed streams in the vicinity.
On the 10th day of August, 1912, at 1:30 o'clock in the afternoon, at Keremeos, to hear and determine claims to water rights existing on the 12th day of March, 1908, on—
Similkameen river, Keremeos creek, Richter creek, Ghorwater creek, Ontario creek, Shuttlesworth creek, Cedar creek, Goat creek, Sheep creek, Long lake, Daly Gulch, Ojala creek, Sken-Kan-Ske-Noo-Ske-tan creek, Big-Site-lah-tan creek, Sasap creek, Hunter creek, and their tributaries, and to unnamed streams in the vicinity.
On the 12th day of August, 1912, at 10 o'clock in the forenoon, in the Government Agent's office, at Fairview, to hear and determine claims to water rights existing on the 12th day of March, 1908, on—
Okanagan river and tributaries, Kearns creek, Keegan creek, Rocky creek, Myers creek, Postallida creek, Boulder creek, Sheep creek, McCully creek, Reed creek, Hester creek, Victoria creek, Hays creek, Sawmill creek, McIntyre creek, Abadi lake, A-ssi-klak creek, Incanep creek, Little or Grezole creek, McCraig creek, Horn creek, Sawmill lake, Twin lakes, Eleven-mile creek, Fair creek, Swinberg creek, Shuttlesworth creek, Brodwin creek, Redwater lake, Green lake, Wolf creek, Togo creek, Talhorn creek, Nugi creek, Three Spring creek, Lincklin lake, Blue lake, Round lake, Irrigation creek, Wild-rose creek, Taylor creek, Inglee creek, and their tributaries, and the unnamed streams in the vicinity.
On the 13th day of August, 1912, at 10 o'clock in the forenoon, at Penikese, to hear and determine claims to water rights existing on the 12th day of March, 1908, on—
Five-mile creek, Mills creek, Marson creek, and lake, Beaver-Snake creek, Sheep creek, De-Boe creek, Beaver or Farleigh's lake, Dauphins lake, Parker creek, Six-mile creek, Coldstream creek, Mamama creek, Schillings Springs, McLean creek, and their tributaries, and to unnamed streams in the vicinity.
Parties who presented claims to the Board in 1910 and have received licenses in substitution of the records need not present any statement of claim.
Held at Victoria, B. C., the 17th day of June 1912.
By order of the Board of Investigation.
J. F. ARMSTRONG
Acting Comptroller of Water Rights.

The London Directory
(Published Annually)

Enables traders throughout the world to communicate direct with English

MANUFACTURERS & DEALERS in each class of goods. Besides being a complete commercial guide to London and its suburbs, the directory contains lists of

EXPORT MERCHANTS with the Goods they ship, and the Colonial and Foreign Markets they supply;

STEAMSHIP LINES arranged under the Ports to which they sail, and indicating the approximate Sailings;

PROVINCIAL TRADE NOTICES of leading manufacturers, merchants, etc., in the principal provincial towns and industrial centres of the United Kingdom.

A copy of the current addition will be forwarded, freight paid, on receipt of Postal Order for 2s.

Dealers seeking Agencies can advertise their trade cards for £1, or larger advertisements from £3.

SAFE AS THE SAFEST

Cheaper than the Cheapest is a straight life policy in

THE MUTUAL LIFE OF CANADA

The history of thousands of policies on the above plan shows that it has cost less than four dollars per year to carry a policy of one thousand dollars. If you doubt this call on the local representative and see the history of one policy for 25 years; then ask yourself whether you know of any other concern whether insurance company or benevolent society that can show a similar record.

Every Plan of Genuine Insurance

It is the people's Company and its profits are all for the people

This accounts for the wonderful success which has attended forty-two years of unparalleled progress and achievement.

W. J. TWISS A. Megraw
Manager for B.C. Local Agent

Town and District.

A Sutherland of Nelson boiler inspector, was in town last week.

Hugh Hunter, government agent, was in town last week; juggling up the tardy tax-payers.

Welby's motor car was in town on Monday with W. E. Welby himself at the helm as chauffeur.

GIRL WANTED—To take care of baby fourteen months old. Apply J. J. Campbell, Hedley, B. C.

An exchange says that the local newspaper should always be a business directory of the town. Is it?

Road supervisor Turner was in town last week with his auto, making an inspection of the work in this part of the riding.

Game warden Schissler spent some time up the Ashnola last week looking for some law-breakers that were reported to be up there.

Mrs. M. K. Rodgers who has been visiting her father and mother at Hedley went back to her home in Seattle by Friday's train.

Hurry Rose is doing fine work on the road between here and Princeton. A troublesome piece of road beyond five miles has been put in good shape.

Lost—On road between Jackson's ranch and Hedley, one drab sweater, ladies'. Finder will be suitably rewarded on leaving same at Gazette office.

A party from Vernon consisting of C. J. Wilson, of P. Burns & Co.; W. Crawley Ricardo, manager of the Coldstream estate; and W. Fleming were in town on Monday.

Capt Kent and Mrs. Kent leave today to make the trip over the Hope trail and they will be accompanied by Mrs. Vic Ryder, who will visit relatives at Chilliwack and Blaine.

Mrs. Frank Richter was in Hedley on Monday on business and took advantage of the opportunity to make a few calls on her friends in town. She went on to Princeton next day.

F. H. French was called to Vernon last Saturday by the serious illness of his mother. He expected to make Pentiction on Saturday evening and get the boat up the lake on Sunday.

John George, who was one of the leading promoters of the B. C. Portland Cement industry at East Princeton on One-Mile Creek, went up the valley on Thursday last and visited the works.

The present week has witnessed a marked decline in the flow of the water in Twenty-mile. If it continues to recede like this for a week or two more they will have to steam up the boilers again.

There has been pretty good fishing in adjoining streams during the past week. In Twenty-mile Creek the fish have been biting quite ravenously but so many are under size that a good many have to be returned to the stream.

Captain Kent and wife who have been residents of Hedley for the past five years are leaving today for Prince Rupert where they expect to reside in the future. It will seem more natural to the captain to live again where he can get a sniff of the salt sea.

Lois Boeing, the five year old daughter of E. D. Boeing cut her foot badly on a broken bottle on Monday evening, and it became necessary for Dr. McEwen to put six stitches in it. The wound is a painful one and will spoil her play for a week or two.

Arthur Chare, foreman of the stump mill, went over to Eholt last week to overhaul the Jewel stump mill. He was followed a day or two after by R. S. Collin who will endeavor to get the cyanide plant of the Jewel mill in more satisfactory working shape.

Robert Sherman, the diamond man, was in town this week. With the amount of diamond drill exploration work that is being done in the Similkameen at present, in Camp Hedley and on Copper Mountain, the little black diamond finds a ready market.

A Creelman and L. H. Patten went up to the Golden Zone on Monday taking a load of supplies with them. The usual reticence is being maintained as to the nature and quantity of the work in hand. There appears to be nothing new in the Kingston situation.

Mr. and Mrs. King of Princeton spent Sunday in Hedley visiting with Mrs. Joyner. Mrs. King who is a sister of Mrs. Charlie Joyner and formerly lived in Hedley in the younger days of the camp, has not been back here since they left Hedley in the fall of 1905. Her old friends were pleased to meet her again.

Mr. E. Waterman, manager of the Princeton Coal & Land Co., went up the line on Saturday last. He had been travelling for the past two weeks making arrangements for marketing the output of their collieries and the coming winter is likely to see a very large increase in their output.

O. H. Carle arrived in town on Saturday with a load of the first-fruits of the Kereemos fruit season of 1912. The load was made up of apricots and early apples but a few days later he promises to set the mouths watering with the luscious peaches that are now commencing to come in. The cool, moist weather which has proved troublesome to the haymakers has also hindered the ripening of fruits and as a consequence the full tide of the peach crop will be delayed a bit.

W. A. McLean, who has charge of the provincial trunk road beyond Princeton came down on Saturday to visit his family over Sunday and went back again by Monday's train. The work in the immediate vicinity of Princeton was delayed in consequence of a difference of opinion among the residents as to where it should come down into the town. The services of locating engineer Cleveland were necessary to settle the matter and he made a trip there at the end of the week.

Pentiction had a gala day on Thursday last to make up for the comparative failure of the Dominion Day celebration which was spoiled by the rain. The events of Thursday were a matched trotting race between two local horses and a baseball match between Pentiction and Oroville for a prize of \$100. The ball game was won by Pentiction on a score of 6 to 2 and Tapley's Little Jap won the trotting race. Tom Daly pitched for Pentiction and had good support.

Nelson had a severe electric storm in which the lightning tore up a lawn, and did other damage.

F. H. French, Secretary and Manager - HEDLEY, B. C.

Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$100 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

Competition for New University Buildings to be Erected at Point Grey, near Vancouver, British Columbia.

The Government of British Columbia invite Competitive Plans for the general scheme and design for the proposed new University buildings or with more detailed Plans for the buildings to be erected first at an estimated cost of \$1,500,000.

Prizes of \$10,000 will be given for the most successful Designs submitted.

Particulars of the competition and plan of site may be obtained on request from the undersigned.

The designs to be sent in by July 31st, 1912 addressed to

THE MINISTER OF EDUCATION,
Parliament Buildings,
Victoria, British Columbia

WATER NOTICE

For a Licence to Take and Use Water

Notice is hereby given that I Anton Winkler of Hedley, B. C. will apply for a licence to take and use 2 cubic feet per second of water out of an unnamed Spring locally known as Bald Hill Slough. The water will be diverted at a point 1 mile north of Thos. Siro's south line and will be used for irrigation purposes on the land described as A. Winkler's pre-emption.

This notice was posted on the ground on the 13th day of May, 1912. The application will be filed in the office of the Water Recorder at Fairview.

Objections may be filed with the said Water Recorder or with the Controller of Water Rights, Parliament Buildings, Victoria, B. C.

Department of Lands
WATER RIGHTS BRANCH

Take notice that the Board of Investigation acting under Part III of the "Water Act" will meet at the times and places hereinafter mentioned to hear and determine claims to water rights on streams in their respective vicinities.

On the 6th day of August, 1912, at 4 o'clock in the afternoon, at Grand Forks.

On the 7th day of August, 1912, at 3:30 o'clock in the afternoon, at Greenwood.

On the 9th day of August, 1912, at 2 o'clock in the afternoon, at Princeton.

On the 10th day of August, 1912, at 4:30 o'clock in the afternoon, at Keremeos.

On the 12th day of August, 1912, at 10 o'clock in the forenoon, at the Government Agency Office, Fairview.

On the 13th day of August, 1912, at 10 o'clock in the forenoon, at Pentiction.

Parties who presented claims to the Board in 1910 and have received licences in substitution of the records need not present any statement of claim.

Dated at Victoria, B. C. the 18th day of June, 1912.

By order of the Board of Investigation,
J. F. ARMSTRONG
Acting Comptroller of Water Rights.

When writing Adversers Please Mention the Gazette.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

Town and Lower Valley.

L. A. Clark of Green Mountain drove over Saturday last.

H. A. Turner, road supervisor, was in from Fairview Friday.

Joe Bromley of Fairview was a visitor to Keremeos over the week.

All kinds of fruit packers and pickers are badly needed in the district.

Roy Hargreaves of Penticton is visiting his father, A. E. Hargreaves.

Mrs. Frank Burndley, left for her old home in Cleveland, Ohio, Thursday last.

Mr. and Mrs. Perrin of Bowden, Alta., are visiting their daughter, Mrs. A. E. Hargreaves.

Mr. and Mrs. D. J. Innis drove over to visit their parents at Green Mountain Monday last.

Mrs. Jones and Gomer came down from Hedley and spent the week end with Mrs. J. A. Brown.

The Keremeos Cycling Club turned out Sunday. All came back except Herb and he is back now.

The Unique Theatre Co. put up a pretty bun show at Richter's hall last Tuesday. Were you stung?

Our esteemed customs broker has his eye in a sling through coming in contact with some poisoned oak.

B. Hoy, Provincial Government Fruit Tree Inspector, was in town last week looking over the orchards in the district.

Max Swain's Theatrical Company put up a fairly good play before a large house at Richter's Hall on Saturday last.

Miss Dolly Lindsay of Spokane, Wash., is spending a pleasant holiday as the guest of Mrs. E. M. Daly at the "Willows."

Miss Helga Johnson of Vancouver came in from the coast Thursday to join her parents, Mr. and Mrs. Sam Johnson.

Miss Avonma Jones and Miss Edith Bradshaw of Hedley have been guests of Mrs. J. A. Brown and also Mrs. Daly during the past week.

H. R. Spooner, expert and salesman for the United Typewriter Co., Ltd., was in town Saturday looking after the interests of the Underwood machine.

Miss Shaw and Billy Smith of Greenwood were guests of Mrs. Geo. Kirby over last week end, going on to join C. A. Shaw's camp, in the Otter Valley, on Monday.

During Herbert's attempt to lower all records to Similkameen last Sunday he dropped many documents and papers out of his pocket book which were luckily picked up by Mr. Mills. Don't be in such a rush Herbert.

Our minister while practising an underhand curve thought he would scare the postmaster, and he did, for instead of landing near the spot intended curved too much. Well! Ezra will be on the job shortly with another putline.

Tom Daly arrived back Monday after playing and winning two ball games by good pitching. While playing for Penticton Oroville went down to him the score being 6-3. Also while playing for Vernon the following day Kunkloops suffered defeat at his hands the score being 11-4.

Mr. Parker of Fairview drove over Sunday accompanied by Mrs. Ronald Hewatt and child, and Miss Westwood of Princeton, who has been spending about ten days with Mrs. Hewatt. Miss Westwood stayed as the guest of Mrs. Brown for a couple of days before returning home to Princeton.

It is rather a strange commentary on church union and those who claim to favor it to find members of one church who have been out at another service heading for home at the same hour when there is to be a service of the church with which they have voted to unite, and vice versa. It is surely a funny way for unionists to unionize. Can't we look things squarely in the face and even if we do not find it convenient to attend all the services of both denominations let us try to show some consistency and try to cultivate a little of the union spirit so as to get ready for the great event in case it really should take place one of these days.

Sunshine all the time. Great haying weather, all the ranchers are at it. Peaches fine and juicy, apricots nearly all preserved, plums of all sizes and descriptions staring you in the face, apples of different varieties ripe others following on day by day, pears showing up fine, everything in the garden is just lovely, vegetables the best ever. Every rancher is wearing a smile, although it's pretty hot.

Miss Cameron and Mrs. J. W. Cameron of Calgary, sister and nephew's wife of Rev. A. H. Cameron, arrived Friday evening last, to spend a short vacation in our valley. Miss Cameron's health has not been at the best of late, but the few days here, has already seemed to do her much good. Mrs. Cameron, who is the wife of the manager of the Royal Bank at Calgary, is enjoying herself immensely and delighted with the mountains.

What's that? No more baseball on Sunday. Go on that's not right is it? Sure old sport duty must be done and the law enforced. You know you fellows should not do such a naughty thing as to play baseball on Sunday. You should learn at once to play golf, lawn tennis or croquet then everything will go on nicely. You can walk around with your finger in your mouth you can ride your bicycle, horse, motor or aeroplane, walk, laugh, eat, sing, but nix play ball.

Although there is plenty of activity in and around Keremeos during the fruit season and the majority are as busy as they can well be, one has only to look around to see a deal of business which might be got for the town if residents would all pull together. There are certain kinds of business that will not come unless it is gone after and when we see it going past to others who have had the enterprise to go after it we have no right to blame those who get it but only ourselves for our slackness and lack of unity.

Now is the time to plan your trip to the Federal Capital Central Canada Exhibition, monster fair of the east, to be held jointly with the

DOMINION EXHIBITION
OTTAWA
SEPTEMBER 5th & 6th, 1912

Dominion Grant of \$50,000 and many special grants will be used to improve every feature. All premiums increased 50 per cent. Association pays freight on western exhibits. Every province sending its best from field crop competitions. Excursions and railway rates, cut in two, from all points east of Port Arthur.
