## MINING NOTES

Arrangements have been made by M. S. Davys, formerly of the Silver King mine, to take over the old sampling works at Kaslo and convert them into a plant for handling the ores in the district. The new industry will operate under the title of the Kootenai Ore Treatment company and will enter the market for the purchase of lead and zinc ore of too low a grade to permit of shipping to a distance for treatment. The process to be employed is the same that is now being used at the Hewitt mine and has been in service for the last three years.—Pioneer.

Mining and Scientific Press, San Francisco, says: "Frank A. Ross of Spokane, Washington, was honored at the recent inauguration of Dr. Ernest O. Holland as President of the State College of Washington, Pullman, by having conferred on him the degree of Master of Science in engineering 'in recognition of his service to the mining industry of the Great West.'" Mr. Ross was for some time general manager for the estate of the late Marcus Daly, of the Nickel Plate group of gold mines and the 40-stamp mill and cyanide plant, in Camp Hedley, Similkameen, B. C.

The third big deal for sulphide claims near Flin-Flon is reported made between New York mining capitalists and Zed Crittenden and E. R. Oulity, owners of five claims near the Great West sulphide properties. Jack Callinan, a former Porcupine (Ontario) mining man, is the medium through whom the negotiations were made. The price for the five claims is put at \$200,000 with a cash payment of \$5,000. The buyers agree to expend considerable money in developing the properties to a producing state. Callinan went to Toronto on Monday to sign up the principals to the terms.

The diamond drill outfit for Tonopah mines at Schist lake got in last Saturday, and was loaded up by Geo. Cann. The teams got away on Tuesday morning for the scene of drilling, which is announced to take place on the Mandy claim, secured from Fred. Jackson. This claim projects into Schist lake, on a neck of land about three miles from the sulphide mines at Flin-Flon. There appears to be a strong copper deposit on the claim, and repeated assays show from 14 to 23 per cent. copper, with gold and silver mixed. The average assay has not been made public by the Tonopah people. The drilling will be done by Smith & Durkee, the well known Ontario drillers, who are also drilling the Flin-Flon properties. With this drill the total number of drills working is brought up to four.—Pas Herald.

The results of the drilling by two diamond drills on the sulphide ore claims at Flin-Flon are reported to be highly satisfactory, and that 100 feet of ore was encountered. The drills are set at a 45-degree angle, and the last report brought in stated the drills had gone down 280 feet. The drilling was done near the walls of the vein, 300 feet apart, and the foot walls were successfully nicked up. A feeling of great confidence runs through the little camp of mining men at Flin-Flon, and everyone feels that the permanency of the ore body is well assured. The drilling will continue, and as many holes as possible will be put down.

Nothing can be learned as to the values of the ore. The cores of the drills are packed in boxes, sealed and sent away to New York, to be examined by the men who are financing the operations.—Pas Herald.

Rich showings of copper, increasing in richness with each core taken from the diamond drill, is the latest report from the sulphide ore fields at Flin-Flon. On Sunday morning last the two drill were down 400 and 500 feet respectively, and the ore richness at this depth created suppressed excitement among the miners in the district. At the commencement of the drilling the ore was light in color, but as the drill progressed downward the stuff grew darker in shade and richer in copper, where at 400 feet it is said to be a veritable deposit of strong values. The two drills were shifted about ten days ago to a point between 200 and 500 yards from the initiatory holes, and it was in the newer holes that the rich copper showing was picked up. A team load of cores and a team load of bagged samples of sulphides were landed in The Pas on Tuesday night for shipment to New York, for examination by expert assayists and chemists. Jack Hammell has been apprised of the success of the drilling and the good ore showings encountered.

## TEN YEARS AGO

From the Hedley Gazette Files of April 26, 1906

Last week the Gt. Northern surveyors who were working at Brushy Bottom moved their camp up the river to a point in the vicinity of the old saw-mill.

The Similkameen river and Twenty-Mile creek have been rising during the past week. This is one of the reasons given by local fishermen to excuse the smallness of the catch.

Harry Tweddle's injury at the Central Hotel fire at Keremeos, developed into a case of blood poisoning. Dr. McEwen was summoned by phone and went down to attend to him. The trouble was checked and he is now on a fair way to recovery.

Bobby Stevenson came down on Sunday and has gone up on the mountain to look after some important mining interests which he holds to the northeast of Rikordan mountain. Bobby, the oldest survivor of all the old-timers, has wintered well and is able to outlast many of the Chechakhos.

The earlier reports from San Francisco spoke of a tidal wave attended with terrible loss of life, and as all telegraphic communication out of the city was cut off those who had friends living there were left in terrible suspense. Mrs. Burritt's people were living in San Francisco, and it was not until Saturday that the assurance came to hand that they were all safe at Oakland.

Fears are entertained for the safety of Mr. and Mrs. W. J. Forbes, who were believed to have been in San Francisco on their way home at the time of the disaster. A picture post card was received from them last mail dated San Francisco, April 27th, announcing their arrival there, and the disaster befell the city shortly after 5 o'clock next morning. It is to be hoped that Mrs. Forbes' friends at Green Mountain may have heard from them since.

T. Brudshaw was in town Thursday.

## British Columbia Recruits Receive Boxes of Apples

Canadian Red Cross Society, Vancouver Branch, 1050 Robson St., April 11th, 1916.

Okanagan United Growers, Limited, Vernon, B. C.

Dear Sirs,

It gives me great pleasure in forwarding to you today a copy of the Brainscott Weekly Chronicle just received from England, referring particularly to the 47th Battalion and the receipt of the shipments of apples that went forward from B. C. last Fall.

I have received letters from every Regiment from B. C. that was in England and France at that time, and each and every one of the Colonels speaks in a most appreciative manner of the kindness and thoughtfulness of the donors.

If it is possible I would like your local newspaper to print this article in full so that the contributors from the Okanagan Valley will realize how much their kind gift was appreciated.

Yours truly,

Sgd. J. R. Seymour.

Vice-Chairman.

Extracts from The Weekly Chronicle of the 47th Battalion at Brainscott, England, Jan. 15, 1916.

Vancouver and B. C. through the "Red Cross" sent 2000 boxes of Apples their sons overseas.

Boys of the B. C. Regiments recipients of a fine New Year's gift. Greek Fruit Stores of Vancouver contribute over 300 boxes.

Great was the delight of the boys of the 47th when there arrived last Wednesday several hundreds of boxes of apples from Vancouver and B. C.

Each hut received its quota, and everyone had as many apples as he desired.

The kindness and thoughtfulness of our friends at home was much appreciated.

It was through the good offices of the Canadian Red Cross Society that the consignment arrived, and in an interesting letter to Colonel Winsby, Mr. J. M. Seymour tells how the apples came to be sent. The letter runs:—At an entertainment at the Pantages Theater some few weeks ago a lecture was given entitled, "The Silent Navy and its work", and in a letter written by a naval officer in His Majesty's Navy a paragraph was read which said how grateful the boys would be for some of those juicy B. C. apples, and how much our boys would enjoy them. This brought forth an immediate response by one gentleman in the audience offering 50 boxes. I was approached, asking if the Red Cross Society would make an appeal for our boys. After consultation with some of our Executive, I was detailed to look after this appeal, with the result that I managed to secure four carloads, or 2,115 boxes.

This was a magnificent New Year's gift, and we at a loss to know when the generosity of our friends at home will cease. We almost feel embarrassed at the quantities of gifts that come from time to time from those we have left behind.

The Canadian Red Cross has done such a tremendous lot for her soldiers at the front. The greater Vancouver organization closed the year with a report of 1,083 cases of goods sent to Toronto and London (England), amounting in weight to no less than 80,000 lbs., and valued at 145,000 dollars.

This was all material made up ready

for our wounded, sick and diseased soldiers in the Red Cross hospitals, be thirty thousand dollars cash sent to London for medical and surgical supplies that could be purchased in London. Then outside this are the countless numbers of socks that have been knitted for the boys at the front, and the wonderful work done by the Daughters of the Empire, to say nothing of 35,854 dollars raised in one day on the mainland of B. C. for the B. C. Base Hospital, now known as No. 5 General Hospital, C. B. F., recently sent to Malta.

Yet in addition to all this, "The Prisoners of War Fund", working through the Canadian Red Cross Society, have cabled no less than 15,000 dollars to London, for the purpose of sending gifts to the prisoners in Germany.

We do indeed thank the generous donors of those apples to us; the gift was more than appreciated, for many had not even seen an apple, leave alone tasted one, since we left home.

We are glad that we are able, through the courtesy of Mr. J. R. Seymour, to publish a list of the names of the contributors, and we know that all other units which received their portion of the gift will unite with us in giving thanks to one and all.

City Merchants.—Greek Fruit Merchants, 329 boxes; Vancouver Fruit and Produce Exchange, 86; King Edward High School Scholars, 2; City North Vancouver, 20.

Okanagan Valley.—Summerland and Naramata, 438; Peachland, 106; Penticton, 322; Kelowna, 295; Vernon, 249; Armstrong, 8; Enderby 5; Tappen, 25; Salmon Arm 98.

Keremeos Valley.—W. N. Armstrong, 10; Robt. Armstrong, 10; J. J. Armstrong, 10; (and 3 extra boxes, one for each of their sons); Alex. Morrison, 10; Wm. Ditmar, 10; the Misses Woodrow, 5.

Chilliwack Valley.—Chilliwack City, 24; Fairfield Island, 7; Rosedale, 8; Cash contributed by L. O. L. 1470, \$20; Chilliwack Citizen, \$10.75; Rosedale, \$1.50; Fairfield Island, \$5; total \$37.25.

When Fred Howse motored to town Saturday, He brought Mr. and Mrs. J. B. Wood, of Princeton, F. Glover and Paddy Halcroft, they returned home the same day.

George Sproule is hobbling about on crutches. He says the knee does not pain him very much but is stiff. He went down town yesterday and seemed to enjoy the experience even if he had to use the crutches.

The grounds committee of the Hedley Golf Club wish to announce that their activities are somewhat hampered by the fact that some members have not come forward with their annual dues. The grounds are rented from the Indian department, and the rent has to be paid. Few people of this district realize what a privilege they have in being able to walk into their back yard, almost, and play golf. In some of the cities golfers have to travel miles and pay five and ten times as much for their membership in the club. The renting of the ground also is a concession from the Indian department which took some influence to procure, and the paying of the rent is a matter which must be attended to. We in Hedley have one of the best natural golf courses in the world, and people have brought their sticks with them on trips of hundreds of miles in order to enjoy the sport on these links. A word to the golf enthusiast is sufficient.

**Recruits Wanted For  
First Canadian Pioneers**

This regiment is now in France having moved across at the latter end of February, and is engaged in construction work. Before leaving England the regiment received a great supply of tools and equipment for railway and other work, and though fully trained and equipped as an Infantry Battalion it will be employed except on emergency, solely as a battalion of workmen. All descriptions of trades and occupations are represented in this Pioneer Battalion but those mostly in request are carpenters, linesmen, railway construction men, miners, loggers and the like. The general handy man is also a very useful member of the corps.

Towards the end of January recruiting for a reinforcing draft of three officers and one hundred men was started, the recruits however were not assembled until the middle of February and on the 5th, March they left Victoria en route for England where by this time they should have arrived, that is, the draft is in England within two months of starting recruiting.

A second draft of similar strength was authorized and recruiting for this has been so satisfactory that the draft is now up to strength and will be ready to embark within a couple of weeks.

A third draft is now starting and if recruits for this offer as readily as for the first two drafts it is expected that this third reinforcement will be ready to leave for England by the middle of May.

Men who wish to get away with the least possible delay and see a little of France before the summer is well through cannot do better than join the reinforcing draft now being assembled at the Old Drill Hall, Menzies St., Victoria, where recruits can apply in person. Those not in Victoria can apply by letter and recruits passed medically fit and approved will have their transportation sent them to enable them to join without expense.

Mrs. W. Sampson, of Nickel Plate was a visitor to town Tuesday.

J. Critchley is up at the mine mending the shoes of the toilers of the depths.

A few choice dahlia roots for sale after May 1st. Apply to A. Clare, Hedley, B. C. 19pd

W. H. Cameron, of Keremeos, was in town Saturday with a load of fine poultry and some vegetables.

Elmer Burr was one of those who came in on the train Tuesday. He had been to Spokane on a visit. Mr. Burr went on down to St. Louis.

Homer Wells motivated to town Monday bringing R. N. Adams of Princeton and Oscar Lachmund, of the B. C. Copper Co. who has been superintending the operations at Copper Moun-

tain. They took him down to Keremeos where he got the train Tuesday and they returned to Princeton, taking Government Agent Hugh Hunter and H. L. Heath with them.

A. McAuley, T. E. Crowell, J. C. Crowell, J. C. Campbell, Fred Cooper and F. E. Muller, of Vernon, motored over Saturday, had lunch at the Great Northern and went up the river to bask in the sunshine of the Sunny Similkameen.

W. M. Haight, of the Confederation Life Association, with a branch at Vancouver, is writing up Hedley risks this week. He is accompanied by G. Pridau, of Nickel Plate, who is the local representative of the Company. They report business as fair in spite of the stringent times.

George B. Craig, Mrs. W. W. Craig and Miss Irene of Okanagan Falls, motored up the River Monday on pleasure bent. At Princeton they were overtaken by a telephone message saying that their home and store and Post Office were a total ruin by fire. They returned at once, passing through Hedley that evening.

George Bowerman was a passenger on Thursday's train to Princeton where he had some business matters to arrange and expected to leave the next day on the Kettle Valley line for Penticton to connect with the main line east. George is headed for The

Pas, Manitoba, where he spent some months last year. His brother owns some claims adjoining the now famous Flin-Flon property which has attracted the attention of the mining world and George says he is going to stay on the job till he makes his stake this time.

**Synopsis of Coal Mining Regulations**

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. Coal mining rights are not being operated on returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

"Instruction by correspondence is the cheapest and best way for the poor man."—Thos. A. Edison

**"Of Course  
They're Right"**

You admit the International Correspondence Schools are a good thing. You'd take course right now "if"—"except"—

"If" what? If you weren't so "overworked," with so "long hours," or had more strength and energy? Didn't John Mitchell get his training after working 12 hours a day as a mine boy?

Wasn't it Edison who stayed up half the night to read every get-at-able book on electricity? Didn't he educate himself in spite of every handicap you could ever have? Spend as much time in I. C. S. study as you do in reading the newspapers and you'll get that promotion before you know it.

All big men who have made their mark in the world have the ambition—the determination—to improve their spare time, to train themselves for big work. You, too, can possess power, money and happiness if you'll only make the effort. The reward is great—it's worth it.

Here's all we ask: Merely mail this coupon. Put it to us without paying or promising. Let us send you the results of others' success through the I. C. S., and then decide.

Mrs. J. Jackson left Tuesday for a visit with her mother and sister at Northport, Wash. and John says he is now the best looking widower in town. Sure.

Mrs. Rainbow, who arrived Tuesday of last week for a visit with her husband, H. Rainbow, the leader of the orchestra, returned to her home in Princeton Thursday.

The hour of service in St. John's church has been changed, the services commencing at 8 o'clock instead of 7:30 as heretofore. This will continue during the summer months.

A limited amount of dahlia bulbs, show, cactus and decorator for sale, 35c each postpaid. Mail orders will receive prompt attention. S. E. Hamilton, Hedley, B. C.

George Riddle is hauling sand for the greens on the golf links. The grounds committee is looking for a good year in the sport and will give the grounds every attention.

Divine Service will be conducted in the church on Sunday April 30th at 7:30 p. m. Subject: Through the gates, to the Celestial city. A hearty invitation is extended to all. Preacher R. G. Stewart.

Rev. A. H. Cameron arrived Tuesday for a visit with Mr. and Mrs. F. H. French. Mr. Cameron is an enthusiastic golfer and brought his sticks along in order to enjoy a few rounds before he returns home.

E. A. Hammer, Eric Lundgren, Alfred Pearson, former Nickel Plate miners, left for Nelson Thursday, to try their fortunes in the "Queen of the Kootenays."

**The Adventure of a Teddy Bear in Nickel Plate Land**

There once was a Teddy Bear whose name was Bobby. Bobby was owned by a man named Sixel Andberg, a man who loved the birds and the beasts and the flowers. He bought Bobby and then paid the government for the privilege of keeping him as a pet. Bobby was a privileged member of the family and when Old Boreas blew hard out of the north Bobby found a welcome and a cosy place at the foot of his master's bed. There were children of the white man in that land who had no better care and treatment than Bobby.

Bobby was attached to a chain and the boys and men of Nickel Plate Land came and played with Bobby and fed him nuts and sweetmeats.

But Bobby grew as the month rolled on and one day while his master was in town to buy a stronger chain to hold the romping Bobby, he managed to get loose and began to roam about seeking adventures of his own.

At once Bobby went to the tent where he had so often found warmth and a kind friend. Near the tent he spied some rabbits, brothers in captivity, but they were too small to play with Bobby, so he wandered over to a near-by chicken house belonging to a man named M. Essenger, he liked to see the antics of these birds and hear them talk their strange cheeping language. His visit here was ruthlessly disturbed by a bear hound who rushed at Bobby and barked so hard that he was frightened and sought safety in flight up a near-by tree.

Soon he became tired of the tree life and came down. He wandered over to where a little dog lived and began to play with him. The terrier told him that his master's name was Som Tmart. They played together for some time and several of the inhabitants of that land watched their antics. But Mrs. Som Tmart did not like Bobby and threw some very hot water on his back which burned his hide and hurt very much so the little fellow cried and again ran up a tree. Here his little terrier friend watched below and scampered about, telling him to come down and play again.

Soon Bobby forgot his hurt and his troubles and came down, he went over to the house of a man named South Bynorth where there lived a little boy about twelve years old and here Bobby had a great time playing with the little boy and wrestling. The little boy seemed to enjoy the fun every bit as much as Bobby.

The boy's mother called him away so Bobby wandered into the woods and there he came to the house of a man named Bills. Mrs. Bills came out and called Bobby and gave him some pie and Bobby played about the house.

But alas for Bobby, there came along a mighty hunter, with a very big gun that shoots far and hurts very much, Mr. Som Tmart considered himself a big chief in the land and a great hunter and Mr. Bill's also came with a big gun and when little Bobby was in a tunnel where he could not well get out they came to shoot him.

Bobby's master came up just then with the new chain to catch Bobby and take him home to dinner. He asked the hunters, the mighty men of valor what they were doing and when told they were going to kill his little pet he was very sorry, "Nay" said he, "But let me I beseech you kill him myself, if he has to be killed." But to this the mighty hunters would not consent, then he tried to borrow Som Tmart's big gun to shoot Bobby with but could not. Then Mr. M. Essenger came and said he would catch the little Teddy Bear with a rope and tie him up so he could not eat up the mighty men of valor or harm them, but they said "Nay, we will shoot the bad bold bear, with our big guns." So they shot the little bear, not once nor

twice but as if they were at one of the great battles of the world, in France, they shot, and the ammunition train had to come up to bring more ammunition to reload the magazine.

Poor little Bobby cried hard and his cry was heard over in the village and a woman heard it and was very sick.

Soon little Bobby was dead and his hide was so badly punctured that it was no good and his kind master could not even have the hide of his pet to remember him by. And the men of the village are very sorry because their pet is gone.

C. Dingwall, a Vancouver travelling man was selling his wares to Hedley merchants Thursday.

Joe Armstrong came to town Tuesday evening with an old-time prairie schooner in tow. Joe is headed for his copper claims up at Aspen Grove, which is considerable more than a sabbath day's journey from Summit House. Joe was the original locator of this claim in 1899 and then took out some outcrop samples of native copper which have been a surprise to every miner or prospector who has seen them. He is taking along Norman Dewar and M. Hughes and expects W. Bryant to accept the job of culinary artists in the course of a few days. Tom Anderson is another old timer who will likely join the forces of the Golden Sovereign at a later date.

**Production and Thrift**

"GAIN or no gain the cause before the farmers of Canada is as clear as it was last year—they must produce abundantly in order to meet the demands that may be made, and I believe this to be especially true in regard to live stock, the world's supply of which must be particularly affected in this vast struggle."—HON. MARTIN BURRELL, Minister of Agriculture.

THE FOLLOWING STATEMENTS ARE BASED ON REPORTS CONTAINED IN  
"THE AGRICULTURAL WAR BOOK, 1916," PUBLISHED BY THE  
DEPARTMENT OF AGRICULTURE, OTTAWA, ONT.

**LIVE STOCK**—The herds and flocks of Europe have been greatly reduced. When the war is over there will be a great demand for breeding stock. Canadian farmers should keep this in mind.

**MEATS**—In 1915 Great Britain imported 664,508 tons of beef, mutton and lamb, of which 364,245 tons came from without the Empire. Out of 430,420 tons of beef only 104,967 tons came from within the Empire.

The demands of the Allies for frozen beef, canned beef, bacon and hams will increase rather than diminish. Orders are coming to Canada. The decreasing tonnage space available will give Canada an advantage if we have the supplies.

**DAIRYING**—Home consumption of milk, butter and cheese has increased of late years. The war demands for cheese have been unlimited. The Canadian cheese exports from Montreal in 1915 were nearly \$6,500,000 over 1914. Prices at Montreal—Cheese: January 1915, 15½ to 17 cents; January 1916, 18½ to 19½ cents. Butter: January 1915, 24 to 28½ cents; January 1916, 32 to 33 cents.

**EGGS**—Canada produced \$30,000,000 worth of eggs in 1915 and helped out Great Britain in the shortage. Shippers as well as producers have a duty and an opportunity in holding a place in that market.

WRITE TO THE DOMINION DEPARTMENT OF AGRICULTURE AND TO YOUR  
PROVINCIAL DEPARTMENT FOR BULLETINS ON THESE SUBJECTS

Tens of thousands of Canada's food producers have enlisted and gone to the front. It is only fair to them that their home work shall be kept up as far as possible. The Empire needs all the food that we can produce in 1916.

Some of them especially who seem to have made a hit with the young ladies of that military camp. It is said on the authority of a man who is considered competent to wear the King's uniform that some of the fellows have laid siege to and captured more than one heart in Cupid's game, and the Mary's and Alice's will have to look well to their hearts. The following is the list of the boys, now in the camp:—Corporal R. J. McCurdy, Lance Corporal Joe Verity, Lance Corporal Hector Oag, Lance Corporal Wessen, Privates Frank Manery, Guy Lepingwell, Dan McCurdy, Charlie Smith, Jim Edmund, Cecil Harrison, Fred Salvage, Frank Allan, August Peady. These all are in the 172nd Battalion. Roland Smith and Billy Dewar are in the 102nd R. M. R.

### Where Are Your Interests

- ¶ Are they in this community?
- ¶ Are they among the people with whom you associate?
- ¶ Are they with the neighbors and friends with whom you do business?

If so, you want to know what is happening in this community. You want to know the goings and comings of the people with whom you associate, the little news items of your neighbors and friends—now, don't you?

That is what this paper gives you in every issue. It is printed for that purpose. It represents your interests and the interests of this town. Is your name on our subscription lists? If not you owe it to yourself to see that it is put there. To do so

Will be to Your Interest

### READ== Then Think!

Now that you have commenced to read this article, just keep right on to the end, and then you will have absorbed meat of the cocoanut.

What has this town ever done for you? It has fed you, and clothed you, and housed you, and given you employment and kept the wolf from your door for these many years. It has done more. It has furnished you recreation, and enjoyment, and has guided you safely over many of the stones that beset the pathway of life.

It has praised your good deeds and has thrown the mantle of charity over your questionable ones. It has been, and is, YOUR HOME. But what have YOU done for the TOWN?

You are making you money here but where are you spending it?

Are your buying goods from the local dealer, who pays and otherwise contributes liberally to the upkeep of the community and your home, or are you sending your money away to some catalogue house that wouldn't lend you a five cent piece to save your soul from purgatory?

And now you have reached the point where we want you to stop and think, and think hard, and to a sane, sensible and patriotic purpose.
