CONSTRUCTION PROGRESS

Work on K. V. R. and G. N. R. Being Rushed Along—Heavy Snowfall Retards Work Near Summit

Construction work on the railway bridge over the Tulameen river at Princeton was begun last week and at the present progress it will take about six weeks to complete the excavation work and the building of the abutments and pier. The construction will have two concrete abutments and one concrete pier. There will be two 100-foot Howe truss spans. Excavation work to a depth of about eight feet below the river bed will be done to secure a solid foundation. This work is being done by hand with the aid of centrifugal pumps. W. E. Conroy, of Spokane, is in charge of the work for Guthrie, McDougall & Co.

The Glavin-Yungbluth Co. have their big Bucyrus steam shovel and outfit in operation on the heavy cut to be made at East Princeton. This contracting firm have their headquarters at East Princeton and have every available building in the place occupied. This suburban town looks more prosperous now than it has for many moons.

The bridge at Siwash Creek and those at other points along the line are now under construction.

FINISH WORK AT COALMONT

Guthrie, McDougall & Co. last week completed their G. N. R. railway construction work at Coalmont and are preparing to ship their outfit to their headquarters at Vancouver, Wash., just across the Columbia river from Portland. The Coalmont portion of the work has been under the supervision of W. V. Gilbranson, who is leaving this week for Portland. There now remains only the Princeton portion of the Kettle Valley line to be completed, and another two or three months will see this connecting gap finished.

HOPE MOUNTAIN ROUTE

The Hon. Thomas Taylor, Minister of Railways, Victoria, is in receipt of a progress report which shows that, in respect to the Hope Mountain route grading is nearly finished on the joint section to be used by the Kettle Valley railway and the Victoria, Vancouver and Eastern Railway from Hope to Coquihalla summit, and that shipments of steel for the 30-mile stretch of track are being delivered over the Coalmont-Otter summit portion of the latter road, which has recently been completed. Grading work will be finished, it is estimated, by the first of the year. Tracklaying will not be started until next spring. Already heavy snowfalls are starting to retard construction near the summit.

PROSPERITY FOR B. C.

When War Ends Great Revival of Prosperity Expected

Colonel A. D. McRae of Vancouver, stated the other day in an interview that once peace is signed, British Columbia and all its towns and cities will experience a revival of prosperity which will surprise even the out and out optimists.

Colonel McRae believes fully in the revival of immigration towards the fertile valleys of the province. The pressure of new population, particularly in Manitoba, Saskatchewan and Alberta would create new markets, and justify fresh railway development in the interior of British Columbia, and the opening up of Vancouver Island.

GRANBY SMELTER WILL RESUME WORK

Grand Forks, B. C., Nov. 29.—Granby company gave notice yesterday afternoon that the smelter would start up again by blowing in two furnaces as soon as possible to be followed by two more when conditions permit. Wages will be 25 per cent less than prevailed at the time of the shutdown.

Phoenix, B. C., Nov. 30.—With reference to the above despatch that the Granby mines were to resume operations on a small scale, the management wish it known that it will be useless for anyone to come here looking for employment as there are far more men here now than can be employed and therefore men are warned not to go to the expense of coming here.

MINING NOTES

The popular idea that war causes a large consumption of lead is an error, according to a very well posted mining man. This impression arises from the idea that lead enters largely into the composition of bullets. The modern military rifle bullet, however, is made up mostly of steel and nickel, with very little lead and shrapnel is made of iron. In different countries the proportion of lead used in the manufacture of a modern rifle bullet varies, but the hated dum-dum is about the only bullet that carries the majority of its weight in lead. In times of peace according to this authority, lead has its best innings, and at the times of greatest prosperity and development lead reaches its highest price. About 70 per cent of the lead product of the world is used in the manufacture of paint, so that in times of depression and uncertainty as now exists, paint is not used to any extent, which naturally causes a falling off in the demand for lead.

Investors in gold mines should appreciate the fact that of all countries producing gold some 62 per cent of the total production is furnished in countries of the British Empire, and the rest by countries with none of whom we are at war. Further, they have to recognize that gold-getting is stimulated by the desire of all countries, including especially those engaged in war, to increase supplies of the royal metal. Except Russia, none of the countries producing gold are in the zone of the sphere of conflict, and conditions of working are but slightly affected.—Statist.

Fernie, B. C., Nov. 28.—J. S. Sessor, superintendent of the Kallispel division of the Great Northern railway, has been in the city since Tuesday last, conferring with, among others, the officials of the Crow's Nest Pass Coal company and it is stated that within the next week or 10 days the coal order of the Great Northern, which has been slowly increasing for some time, will be placed on its old status when it will be necessary for the mines to work full time. The miners for some considerable time have been working but a few shifts a week and full time will mean that the large number of unemployed will be given work.

"Patronize home institutions," cries the country editor from week to week. "That is right," says the merchant, "give it to those who go to some other town to buy goods." Then with his heart filled with kindness to the loyal editor, he sends his job work to Kalamazoo, or utilizes a piece of wrapping paper to write an order on for goods or send a statement to a customer. Funny isn't it?

GERMAN TRADE CRIPPLED

Only Ten of the Kaiser's Merchant Ships Left Plying the Ocean

London, Nov. 27.—A statement issued by the Board of Trade concerning the relative conditions of British and German shipping since the outbreak of the war is highly interesting as showing how effectively the British navy has kept open the ocean routes for British shipping, while closing them to the German mercantile marine. Of 10,123 British mercantile ships of over 100 tons, 9922 are still plying, while of 2090 German ships only ten are plying. There are 646 German ships in neutral ports, 329 in German ports, and 246 held by the Allies a total of 1221 out of service, or 58.4 per cent. Against this the British ships held or captured total 195, or only 1.9 per cent. of the mercantile fleet.

KING GEORGE GOES TO FRONT

London, Nov. 30.—The official press bureau announced today that King George went to France last night to visit the general headquarters of the expeditionary force.

The King was accompanied by his private secretary, Baron Stamfordham and his equerry, Major Wigram.

London, Dec. 1.—A Reuter despatch from the north of France says that King George arrived Monday after a rough voyage. The King was received by the Prince of Wales and paid a visit to the staff.

PROHIBITED PAPERS

Four Leading Pro-German Publications Will Not Be Allowed to Enter Canada.

The government last week decided to take drastic steps to prevent the sale and circulation in Canada of four United States publications whose chief object appears to be to misrepresent the cause of Great Britain and her Allies, and to boost that of the enemies of the Empire.

An order-in-council was presented at the meeting of the cabinet today denying the privilege of the Canadian mails to the Staats-Zeitung, the Fatherland, the Vital Issue, and the Truth About Germany, published in New York and sent in large numbers from that city to German sympathizers in Canada. The order-in-council makes it a criminal offence for anyone either to sell or have in his possession any one of these publications. It is probable that within the next few days several other pro-German publications will be similarly dealt with.

The total collections for the Kaslo Electoral District Branch of the Canadian Patriotic Fund including monthly subscriptions received, reached the astonishing figure of \$1817.50.

The new third lock of the St. Mary's Falls canal system, at Sault Ste. Marie, the longest lock in the world, has been formally opened to navigation. The lock is 1250 feet long, eighty feet wide, twenty three feet deep and cost \$6,250,000.

QUICKEST REMEDY EVER SOLD IN HEDLEY

We have never sold anything here in Hedley with the INSTANT action of the simple mixture of buckthorn bark, glycerine, etc., known as Adler-i-ka. This remedy, used successfully for appendicitis, is so quick and powerful that ONE SPOONFUL relieves almost ANY CASE of constipation, sour or gassy stomach. Adler-i-ka acts on BOTH lower and upper bowel and it is the most THOROUGH bowel cleanser we ever saw. F. M. Gillespie, druggist.

SENDING CHILDREN TO FRONT

Sixty Thousand Schoolboys Enrolled as Volunteer Recruits in Brandenburg

Copenhagen, Nov. 28.—Twelve thousand schoolboys between the ages of 15 and 17, have been enrolled as volunteer recruits in Berlin. They have been divided into twenty companies, and their military training is proceeding with all possible speed. It is intended that they shall take the field next spring. Many will then be still under 16 years.

In the province of Brandenburg, including Berlin, a total of 60,000 schoolboys have been enrolled as volunteer recruits.

GENERAL NEWS OF INTEREST

The decision to reopen the New York stock exchange proves the confidence of the great American financiers in business conditions.

The completion of the telephone line between Kamloops and Ashcroft puts the Okanagan country in direct telephonic communication with Dawson city.

At Vancouver, last week, two big wagers were made at a club. In the first the better wagered that the German emperor would commit suicide in three months. In the other the time for the end of the war was put at Feb. 1st, in once place and July 1st in another, two bets being made together. The first bet, odds of 1 to 5.

The announcement by Premier McBride that the Canadian Northern railway expects to have the last spike driven on its line in British Columbia in January and to open the system in the spring or early summer brings home the fact that another rich section of the province is on the eve of being opened up to development. The operation of this line will mean increased prosperity for the province as a whole.

There is a serious typhoid epidemic in the neighborhood of Lille, France. The hospitals are filled to overflowing. Living near Midway, B.C., are two brothers of Captain Glossop of the cruiser Sydney, which so nobly put the cruiser Emden to rout and rid the sea lanes of the German terror. Their names are Major F. Glossop and Commander H. Glossop, and both are extremely proud of their brother's feat, news of which went around the world. Captain Glossop took charge of the Sydney in 1912 when that vessel was first commissioned and took her to Australia.

Dean Doull, rector of the Victoria Cathedral, was elected as the first Bishop of the Diocese of Kootenay, which includes the Okanagan district within its bounds.

Last week the central Canadian patriotic fund passed the \$1,250,000 mark, contributions acknowledged by the minister of finance now totaling \$1,136,000. The largest amount recently sent in has been the sum of \$20,869 from South Alberta. The southern Oyster district (British Columbia) patriotic fund has sent in \$111.00 and the typographical union of Ottawa \$50.00.

Chief Constable Thomas of Penticton made an important discovery last week, which led to the arrest of Quong Lee Yuen, who was shipping a sofa by express to Hong Kong. The sofa contained 700 rounds of ammunition, two new 44 calibre Winchester carbines and a 32 Browning automatic pistol. The weight of the article led to suspicion, and an examination revealed the above contents.

AN OPEN LETTER

To Professor Munsterburg, Dr. Bernard Dernberg, Count von Bernstorff, and others:

You have circulated a great deal of printed matter explaining your views on the war in all its phases. You seem particularly anxious to impress it upon us that Germany is strong in resources, that her business is going forward, that her banks have ample funds, that food and all other supplies are on hand there in great abundance. These things being so, why is Germany robbing Belgium? This little country has been stouped flat by the Kaiser's troops. Trade and industry of all sorts are utterly at an end, the whole apparatus of commerce by which food and other necessities are distributed is broken up. And yet the all-powerful German army levies on these miserable and helpless victims for money, clothing, provisions—some \$500,000 per week is taken from Brussels alone. Imagine an armed man standing over a terrorized group of cripples, old folks, and children, and taking from them what little they have against the winter and taking it for his own use. That is what is going on in Belgium, and it is not war.

Your Kaiser has a thousand times proclaimed himself as one of those to whom, in Ruskin's words, the Bible is "a captain's order to be heard and obeyed at their peril." He preaches sermons and has much to say of faith and religion. And yet it is because of him that these haggard fugitives flee in pain, that nameless babies are born and die with their mothers by the side of the road. He has plunged all these people into a living hell. And then, instead of succoring them, the orders go out which mean that their despair more hopeless. Is there no court chaplain to tell him what has been foretold for those who oppress the fatherless and the afflicted? This is one verse: "For the Lord will plead their cause, and spoil the soul of them that spoil them."

It matters not if your country is strong, indeed, at home. In Belgium your Germany is already lost.—Collier's Weekly.

THE HOLY WAR

Once more the German press is striving mightily to resurrect the Holy War and all its terrors. The report is being assiduously circulated in quarters where it is expected to bear fruit that the able bodied Arabs of the Moslem World are ready to spring

to arms in a pan-Islamic, anti-British crusade. For fifteen years this bogey has been danced before our eyes to the varied piping of European politicians, as best suited the needs of the moment. By a threadbare analogy it has been explained to us time and again that the Sultan's influence in the Mohammedan World is similar to that of the Pope in Roman Catholicism by virtue of his position as head of the church. The analogy is more apt than its inventor knew. The position of each potentate is exactly the same: they don't count either way in this conflict, as the late Pope Pius sadly admitted.

If our memory serves us aright, William II was the original discoverer of the "Yellow peril" which popular myth set the eyes of civilization wandering far afield and turned their gaze from the Prussian peril within our very gates. Of course the Holy War scare may eventuate into something more serious; but, if the Sultan was unable to launch such a crusade when the Ottoman Empire had fair to be kicked 'lock, stock and barrel out of Europe by a federation of petty Balkan states, the chances are strongly against the success of any pan-Islamic movement at the present juncture.

Why are we still without a Police Magistrate in Hedley? Since Major Megraw left here last March, the office has been vacant and the appointment is still in abeyance, after a lapse of more than nine months. With the present inadequate railway service, the lack of a local magistrate is a source of considerable inconvenience to the constable and a real hardship to witnesses who must needs spoil a couple of days in going to give evidence on a case which occupies, perhaps, only a few hours. Such loss of time, not to mention the expense incurred alike by the individual and the Government, is quite unnecessary as there is in town one citizen at least who is willing and perfectly competent to accept the office. The appointment must be made sometime, and it can serve no good purpose to put the matter off.

GETTING THE BUSINESS

The advertising space in a newspaper is the same to the proprietor of the newspaper as the stock of goods on the shelves in the merchandise store is to the proprietor of the store. It is the newspaper's stock and trade. Therefore, if the newspaper is to keep its head above water, it cannot sit down and wait for customers. It must sell the goods it has to offer—advertising space. And if the local merchant does not buy space in the home paper, others will and in so doing will offer inducements to the home merchant's customers that will attract them to the department stores in the large cities or in neighboring towns. And the few dollars the home merchant saves in refusing to advertise and thus hold the interest and the business of the home people are soon lost to him and the home town by being drawn elsewhere. The wise merchant sees this. And the wise merchant knows that in times like the present one must get after the business and keep after it if it is to be had and retained.

Semi-ready Tailoring

There is some fashion for every man, all fashions are not suitable to each individual taste.

The best dressed man is he who knows the limitations, and who discreetly keeps within them, tempering each style to his own type—adapting, rather than adopting.

Semi-ready Clothes will fit you—fit you shapely and perfectly—that we guarantee absolutely—the cloth patterns are in good form, and will be appreciated by gentlemen.

Suits at \$15 to \$35; the label in the pocket denotes the cost of the woollens—the real worth of the garment.

H. G. FREEMAN, Agent.

FORWARD ALL!

This is a time of crisis, a time for readjustment, a time for quick action, a time for greater efficiency—

But Not a Time for the Curtailment of Good Advertising

Canadian advertisers are face to face with an opportunity. Sad it is that this opportunity is evolved through blood and tears; but not to take advantage of it is to fail in a real duty to the Empire.

Some businesses—chiefly those dependent upon imports—must suffer; but for every business that suffers, ten will prosper. Never has business been less interrupted by a great war.

Re-adjust your business to advantage of new openings. Grasp now the markets that must look to you as never before. Make a more efficient use of advertising. Use the newspaper to better advantage. You can find Your opportunities in this situation If You Look For Them.

Efficient, carefully-planned and properly-prepared newspaper advertising will open the way for you.

Town and District.

Chief Constable Simpson was in town on Friday of last week.

Mrs. J. Bromley was in town on Saturday visiting her daughter, Mrs. J. Edmonds.

The Rev. G. D. Griffith held English Church services in Fraternity hall on Sunday evening.

Master Leonard Innis of Keremeos is spending a few days with his aunt, Mrs. W. J. Forbes.

Dr. McEwen went to Keremeos in his car on Tuesday afternoon and returned on Wednesday morning.

Lois Boeing gave a birthday party on Saturday afternoon and entertained a number of her little friends.

Mrs. Blanchard of Chelan, Wash. is in town visiting her daughter, Mrs. H. E. Hanson, for a few days this week.

Allen Galbraith left on Tuesday for Florida. Allen has some property down there and he wants to have a look at it.

Mrs. Wm. Sampson, Miss K. Hambley, and Mr. and Mrs. Smart of the Nickel Plate mine were in town on Tuesday.

The Hedley Ladies' Guild Sewing Meetings will be discontinued until the first Thursday in the New Year, January 7th, 1915.

John Donovan was brought down from the mine on Tuesday to the Hedley Hospital. We have not heard what was the trouble.

Mrs. S. L. Smith held a reception at the "Firs" on Saturday afternoon in honor of Miss Sibbald of Calgary who is visiting her daughters for a couple of weeks.

Hockey sticks, not the kind that broke last year, but a special order of second growth ROCK ELM sticks brought from Toronto where champion hockey players live. Come in and look them over at Rolls.

The Modern Woodmen of America will hold their third annual ball in Hedley on Friday evening, December 18th. Don't forget the date and be sure to come and enjoy yourselves.

A dance was given in the Fraternity hall on Friday evening last by some of the young people of the town but owing to the short notice given only a small number attended. The music was furnished by Stevon's orchestra.

The Rev. P. LeChesne of Penticton, Roman Catholic priest, was in town over Sunday. He held service on Sunday morning at the residence of Mrs. McKinnon. It is the intention of his following here to build a church and they are now looking out for a good lot on which to build.

Messrs. E. E. Burr, Rod McDougall, Helmer Jackson, Otto Johnson, A. Winkler and constable Sproule were business visitors to Princeton on Friday. They arrived back in town in the wee sma' hours on Saturday morning after taking eight hours on the return trip. No they didn't walk but the automobile broke down.

Since last week the hockey game, between the married and single men of the town, that is shown in the Hedley Trading Co.'s window has come on an even footing. The game has become considerably rougher if one is to judge by appearances as some of the players have their heads tied up and there is blood spattered all over the ice.

The recent shooting affair at Penticton has had a startling outcome. Elgin C. Myers, room-mate of J. H. McCoy, for whom the shot which hit Thomas Hickey was supposed to have been intended, has been arrested on suspicion of being the author of the outrage, and the hearing was in progress when the "Herald" went to press. The evidence against the accused is purely circumstantial.

The warm weather of last week melted all the snow on the benches around town and members of the Hedley Golf Club took full advantage

of it and enjoyed a few rounds of the links. We don't have to say anything about the climate here as this speaks for itself. Later—We had a slight fall of snow on Tuesday night which will put an end to the game this year.

Messrs. Boeing and Brass started on Tuesday morning to put in some new sidewalks in the town. The sidewalk that was laid down on Ellis Street last year from Webster street to France street will be continued on to Haynes street and a new piece of walk on Daly Avenue from the school house to Mr. H. H. Messenger's property is also being put in. If the weather continues fine they expect to have the work done in about ten days.

Word was received in town last week that Marcus Jacobs and Danny Dollemore had both passed the preliminary examination at Penticton and were leaving immediately for Vernon where they would join the "B. C. Horse". With the departure of these two boys it now brings the number of volunteers from Hedley up to nine. For fear you cannot count them we will mention their names, Geo. Boxall, Fred Beck, Sid Edwards, Arthur Coles, E. Hepper, Billie Liddicoat, Jack Corrigan, Marcus Jacobs, and Danny Dollemore.

KETTLE RIVER ASSESSMENT DISTRICT

A Court of Revision and appeal in accordance with the provisions of the "Taxation Act" respecting the Assessment Roll for the year 1915 for the Kettle River Assessment District will be held as follows:

At the Deputy Mining Recorder's office, Rock Creek, on Wednesday, December 16th, 1914, at 10 o'clock in the forenoon.

At the Court house, Keremeos, on Friday, December 18th, 1914, at 10 o'clock in the forenoon.

At the Court House, Penticton, on Saturday, December 19th, 1914, at 2 o'clock in the afternoon.

At the Court House, Fairview, on Monday, December 21st, 1914, at 2 o'clock in the afternoon.

HENRY NICHOLSON,
Judge of Court of Revision and Appeal.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

Town and Lower Valley.

Miss Oriel Menouette of Princeton is visiting Mrs. Bronley.

Mrs. J. A. Brown is leaving for her home in Manitou, Man., where she will spend the winter.

Mrs. James Innis and Mrs. D. J. Innis were recently the guests of Mrs. Crooker at Similkameen.

The Rev. Mr. Cleland of Penticton was in town for the week-end and conducted service on Sunday.

Miss Huberta Shaw and Miss Agnes Fleming went out to Penticton on Thursday with Mr. Ross Fleming.

Mrs. Ferris has left Keremeos for the coast, where she will rejoin Mr. Ferris at New Westminster.

The monthly meeting of the Women's Institute will be held at the home of Mrs. Keeler on Thursday, December 10th., at three o'clock.

It has been found necessary to form a third patrol in the local troop of Boy Scouts. The new Patrol is made up of the younger scouts and they appear to be fully as enthusiastic as the older boys. Last Friday evening this patrol met to elect its officers. Scout Douglas Christie was elected Patrol Leader, while Scout Hubert Frith was chosen as his second in command.

Our little community has given liberally of its best, and for us who remain at home, the burden of responsibility is increased ten-fold. We cannot do too much to show our heartfelt appreciation of the sacrifice made by our volunteers and those who let them go, and we sorrowfully realize how much we shall miss them all in every phase of the town's activities. Ours is indeed a transformed Keremeos.

St. John's Guild will hold a sale of work on the afternoon of Friday, December 11th. The sale will commence at two o'clock instead of eight as announced last week. All kinds of useful articles will be on sale, as well as home-made candy and light refreshments. This is a good opportunity to buy inexpensive Christmas gifts. The proceeds are to be given to the Belgian Relief Fund.

Last week has been for Keremeos one of pride and joy and yet almost every day has brought a special sorrow. Eight men went up to Penticton a few days ago to undergo examination as recruits for the B. C. Horse, passed the test in A1 fashion, and Cargill Armstrong and Lyall Beckett went on to Vernon at once. On Thursday Lorne Coleman, Beach Cawston, and Ross Fleming took their departure. On Friday Charlie Armstrong left together with Mr. Guiner of the Bank staff, while Mr. Brown left on Tuesday.

THE BOY SCOUT MOVEMENT

Many questions have been asked recently concerning the work which the Scout Movement should do during the present emergency, and the following announcement may be of interest to some of our readers.

All over Canada Boy Scouts have been proffering their services in aid of both the civil and military authorities in the present emergency. At this stage it does not seem wise for the Dominion Council to advise as to the exact form or forms in which the organization as a whole can best take its part in the existing struggle. There is, however, so much to be done quickly in every locality that all Boy Scouts who are desirous of helping will find plenty of opportunities of doing so. In the British Isles their brother Scouts are assisting in the maintenance of the police, coast

guards, and post office services, in guarding telegraph lines, as messengers for the Red Cross Society, and in various other ways.

The Dominion Council is assured that Canadian Scouts will be found willing and prepared to lend a hand in the war preparations now under way, by doing whatever it may locally be in their power to do.

NOTICE

HAVING transferred my interests in the Central Hotel to the Central Hotel Co. all moneys owing to the said institution are requested to be paid to me, either by cash or note, on or before the 15th day of December, 1914. All bills against the said institution will be paid by me.

H. TWEDDLE.

Where Are Your Interests

- Are they in this community?
- Are they among the people with whom you associate?
- Are they with the neighbors and friends with whom you do business?

If so, you want to know what is happening in this community. You want to know the goings and comings of the people with whom you associate, the little news items of your neighbors and friends—now, don't you?

That is what this paper gives you in every issue. It is printed for that purpose. It represents your interests and the interests of this town. Is your name on our subscription lists? If not you owe it to yourself to see that it is put there. To do so

Branch Office, 515 F St., Washington, D. C.

Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for. 16-11

SILKS

Large Assortment of choice Silk Dress Goods, Silk handkerchiefs etc. for sale at right prices.

TOHMY SING, Keremeos

WE'VE GOT THE BUSINESS AND THERE IS GOOD REASON WHY

If we were to be here to-day and pack up and go tomorrow we could perhaps afford to run our business along slipshod lines. We are here, however, to build a business. This we intend to do by stocking high-grade goods and selling at a low margin of profit. See our superior line of Goods for Spring.

You Can Thank Advertising

NEXT time you step into the corner store, take a look around. Of all the articles on the shelves, how many were on your shopping list five years ago? Make it ten years, and you will find that most of the things you buy to-day—and could not do without—were not even made then.

You men and women who buy things, let this sink in: You are better men and women because of advertising. You eat more wholesome food. You wear better clothes. Your home is better furnished. You have cleaner and more sanitary houses. You read better books and magazines. You seek more healthful amusements.

Your whole standard of living has been raised—and why? Because the men who make these better things are telling you that you will be more comfortable, happier and healthier if you use these higher grade goods.

It is advertising that makes it possible for you to buy "the best" right at your corner store. It is advertising that encourages the inventor to make new comforts and new utilities and enables you to buy

them almost immediately after they are perfected.

J. J. Hill says this "high living" costs more. True for J. J.—but it is worth more. And leaving the cost aside, do you want to go back to buying jam out of a pail, oatmeal out of a barrel, raisins out of sticky boxes, or tea exposed in an open chest?

Do you regret the money you paid for a Player Piano?

Would you forego the new style razor?

Isn't a Tungsten worth a thousand candles?

Would you now be enjoying these if enterprising manufacturers had not told you about them in their advertisements?

Isn't life brighter because we have new and higher standards of living?

Let us thank advertising for it.

Advice regarding your advertising problems is available through any good advertising agency or the Secretary of the Canadian Press Association, Room 503, Lumsden Building, Toronto. Enquiry involves no obligation on your part—so write if interested.
