Disbursements table for Hedley Hospital for Jan 1914, listing Transfer to Savings Acct., General Expense, Furniture, etc.

Savings Bank Account table showing Receipts and Disbursements for January 1914.

THE C. P. R.'S LAND POLICY

And What It Is Accomplishing—Train-Load of Irrigation Farmers Coming

Solid trainloads of irrigation farmers from the irrigated areas of Colorado to the C.P.R. Irrigation block in Alberta are the direct outcome of the policy adopted by the Canadian Pacific Railway.

STILL ANOTHER THEORY

German Scientist says Tuberculosis Comes from a Condition, not a Germ

Victoria, B. C., Jan. 30.—A startling proposal was made to the provincial government today when Dr. Deechman, a German scientist, asked that a herd of 20 cattle be set aside for him so that he could demonstrate that bovine tuberculosis is the result of a condition and not a germ.

TAKING IT SERIOUSLY

The Vancouver Province which has all along paid much attention to the weather prognostications of "weather man" Foster, points to the severe storms down the Pacific coast and also those in the eastern states and eastern Canada as verification of the accuracy of the forecasts.

NOTICE

SIMILKAMEEN LAND DISTRICT DISTRICT OF YALE

TAKE Notice Mae Evelyn Haynes, occupation married woman, of Fairview, intends to apply for permission to purchase eighty acres of land in the Similkameen Land Division as follows:

Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY, Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for.

PUBLIC NOTICE

SIGNALS FOR FIRE ALARM LONG BLAST of the mill whistle means "Fire at the Mill" when all employees of the mill and works, whether on duty or not, are required to report at once.

SHORT BLAST of whistle means "Fire in Town."

G. P. JONES, 3-3 General Superintendent

Benefits Local People

Hedley people have discovered that A SINGLE DOSE of simple blackthorn bark, glycerine, etc., as compounded in Adler's-kn, the German appendicitis remedy, removes gas on the stomach and constipation AT ONCE.

PRINCETON ASSESSMENT DISTRICT

Notice is hereby given that a Court of Revision and Appeal, under the "Taxation Act" and "Public Schools Act," will be held in the Court-house at Princeton, on Friday, the 6th day of February, A. D. 1914, at 11 a. m.

F. TEMPLE CORNWALL, Judge of the Court of Revision and Appeal

ENCOURAGE HOME INDUSTRY

**Town and District.**

Mr. and Mrs. Sampson were down from the mine on Friday last.

H. A. Turner, district road supervisor was in town on Friday last.

A hockey match between Hedley and Keremeos at the latter town is likely to be played to-morrow.

Mr. Dalton has received word that Mrs. Dalton underwent an operation in the general hospital in Vancouver and was doing well.

W. Starkey, shift boss at the mine, who has been in the hospital for some time with an injured knee is improving, but knee injuries are always tedious.

J. K. Fraser has obtained a new piano for the Star theatre and the picture shows will be enlivened with music which will make the time pass more pleasantly.

What we escaped in cold in the early part of the winter, we are now making up in precipitation. The snowfall for the first three days of the week was certainly heavy.

Anton Winkler has moved his family into the Grand Union Hotel in compliance with the requirements of the liquor regulations which requires the licensee to live on the premises.

January, like December, was a well behaved month, and notwithstanding the fact that no severe weather has yet been experienced, many are beginning to feel that the back of the winter is broken.

G. H. Sproule received a wire from Vancouver on Saturday that Mrs. Sproule had successfully undergone an operation in the hospital there, and that confidence was entertained for speedy convalescence.

T. E. Willey informs us that the man Lawley whose eyes were injured in the explosion three months ago has not yet recovered sight in the eye which was least injured, and the probability is less likely than at first.

Tweddle's auto missed Monday for the first time this winter between Penticton and Keremeos, owing to the heavy snowfall on Sunday; but they came through on Tuesday morning and caught the train as usual.

Excellent progress was made at the dam last week and a large amount of cement was got in. The heavy snow has made it a bit disagreeable to work in, but things are going ahead steadily and all that is needed is favorable weather.

Mr. W. T. Shatford of Penticton who was first vice-president of the Provincial Conservative Association presided at the convention in Victoria last week in the absence of the president, and in the election of officers was advanced to the presidency.

R. Wheeler, superintendent of the mill, who has been on leave of absence since early in December, returned on Friday; but within a few hours after his return he received a telegram that his mother was sinking fast and he left again on Saturday.

The attacks suffered by Tommy Corrigan which seem to be of an epileptic nature have been occurring more frequently of late and have been more severe, and the family are becoming alarmed. The services of a specialist will in all probability be sought.

Always deal with those who think enough of your trade to ask for it, and the surest way to get the worth of your money is to read carefully the announcement of those who invite your trade in their advertisements. The day is past when merchants advertise what they are not prepared to carry out.

Tim Griffin came up on Saturday from Nighthawk where he has been working on a property on Palmer Mountain. He had a narrow escape from serious accident and was taking a few days off. A stone weighing about 50 lbs. fell about a foot out of a slope and hit him on the top of the head, making a gory scalp wound but giving no permanent injury.

Waddell whose foot was hurt in the rotury at the dam ten days ago went into the hospital on Sunday, as there was a probability of blood poisoning. He has an unfortunate habit of taking chances and he took the chance of remaining in his cabin instead of going to the hospital in the first place as advised. The injury was also the result of taking an altogether unnecessary chance for he attempted to stand on the narrow ledge of the pump frame when oiling the lubricator above instead of using the ladder which had always been used for the purpose. It is to be hoped, however, that the dangerous symptoms may be checked and no necessity for amputation may follow.

During his brief stay in Hedley last week T. D. Pickard went over the line of his water ditch and looked up conditions for building. So far as known he made no announcement of his intentions, but some are quite hopeful that the outcome will be another power plant in addition to that now in course of building by the Hedley Gold Mining Company.

Men working on the dam have been amused by the antics of a few small water ouzels which have been sporting themselves in the rapids of the Similkameen near by. The colder the day is the better they seem to enjoy diving in the swift water and going down with the stream for twenty feet or more before they emerge. The ouzel is a bird of the thrush species and partakes a little of the singing abilities of the thrush. They are said to be quite common in mountain streams in British Columbia but the only other place we remember to have seen them was in Boundary Creek below Greenwood.

Rev. A. H. Cameron made his service on Sunday evening a memorial service for the late Lord Strathcona and his sermon dealt with the career of the departed statesman in terms that were not only eulogistic but well calculated to benefit the rising generation by holding up for emulation the ideals of life which actuated the life of Canada's "grand old man." The Gazette regrets that information was not to hand in time for last week's issue that this was to be the subject, or reference would have been made to it, and a larger congregation would in all probability have resulted if the people had only known of it.

**BASKET BALL.**

The return match between Hedley and Princeton girls' teams was played off here in the Star theatre on Friday evening last and resulted in a rather decided win for Hedley by a score of 9 to 5. So far as played goals were concerned it was whitewash for the visitors as all their five points were obtained from free throws, while Hedley's score showed three played goals to their credit. The Gazette does not understand the game well enough to be in a position to judge but we have been assured by many others who do understand it that the refereeing was decidedly off color.

Following is the line-up of the teams:

Hedley	Princeton
Miss Lyall	Miss Schisler
D. Lyall	Miss Knudson
Miss Bowerman	Miss Evans
P. Robertson	Miss Leighton
F. Messenger	Edna Lyall

As a game basket ball looks to be all right. There is enough movement in it to make it intensely interesting at all times for both participants and on-lookers, and in the line of physical culture it appears to be the real thing and the girls do well who go in for it, for the exercise they get from it should prove beneficial in building up strong healthy constitutions. As for the natty bloomer costumes in which they play, it is only a very prurient mind that could see anything either immodest or objectionable about them. As a health builder the game would be even better in the open air and we fancy that practice in the open air under the coaching of an expert who knows the fine points of the game should improve the team play.

**ICE CARNIVAL.**

The carnival at the rink on Monday night which was the first of the season was a pronounced success. Many of the skaters were masked and over 100 paid admission. The prizes given were awarded as follows: Best comic costume "Old Lady", Mrs. Rotherham; best dressed lady, Miss Allen, "Lady of the Pines"; best dressed gent, S. F. Hamilton, "Punch"; best girl's costume, Ina Boyd, "Bo-peep"; best boys' costumes, Garnet Lake, "Hard Times". The two mile skating race requiring thirty laps around the rink brought out half a dozen entries and was won easily by George French.

The carnival committee extend their thanks to the judges B. W. Knowles, H. F. Jones and A. E. Denman who kindly agreed to make the carnival awards.

**GENERAL NEWS.**

Hon. G. W. Ross, leader of the Liberal party in the Senate has taken ill and has been removed to his home in Toronto.

The Nantucket and the Monroe, two American passenger steamers in the coastwise trade collided and the Monroe sank in ten minutes, while the Nantucket badly damaged managed to keep afloat until assistance came, after which she made her way slowly for port. About 40 lives were lost.

# THE KEREMEOS PAGE

## KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

### Town and Lower Valley.

Everything in the line of hardware can be had at the store of Ezra Mills.

One day last week Mr. and Mrs. G. Christie had a pleasant surprise when a large number of their friends paid them a visit and turned the evening into one continual round of pleasure.

Don't forget that you can have your skates sharpened in first class shape at Madore's, the blacksmith. Skates! Skates! Skates! Get the edge put on them at the blacksmith shop. J. F. Madore, proprietor.

I beg your pardon! Oh! a dance eh, yes! The assembly dance will take place in the Town Hall on Friday the 6th, and there is a cordial invitation out to all of Keremeos friends, far and near. Don't forget the date, the 6th. This week. Get me?

R. J. McCurdy arrived back to Keremeos on Monday Feb 2nd, after being away for nearly three months acting for the Provincial and Dominion Governments as Inspector under the quarantine laws. Bridesville has been his headquarters. The quarantine was raised January the 31st.

Mr. Christie of Vancouver, brother of George Christie of this place arrived with his family on Thursday 5th to take charge of lots 35 and 36 belonging to Alexander Morrison of the firm of Armstrong & Morrison Co. Mr. Christie will reside in the Woodrow cottage until a house is built on one of the lots.

Mr. J. Edmonds of Vancouver arrived in Keremeos on Tuesday to take charge of lot 54 belonging to W. C. Dumas. Mr. Edmonds is a graduate of the Agricultural College, Corvallis, Ore. Mr. D. Cargill, a graduate of the same college, will soon be to look after his father's interests on Lot 3 and intends taking up a lot himself some time this year.

Packing School will start in the Keremeos Town Hall on March the 3rd and continue until the 9th. Mr. J. Castner of the Okanagan United growers will be the instructor. These classes in the past have been conducted very successfully to the great advantage of those interested in growing, grading, and packing of fruit and it is hoped that the attendance this year will be greater than last.

A Team and sleigh was requisitioned from D. J. Innis on Friday evening last and a merry party drove out to the "Willows" to make a surprise call. Mrs. Daly with her genial hospitality welcomed the merry bunch, and a real old time winter evening was spent. The sitting room floor was cleared and all joined in dancing to the splendid music which we all know can be had at the Willows sunshine or rain.

Homer McLean of Hedley had the misfortune to get stuck in the snow on the Green Mountain summit, one day last week while bringing over a new Ford car. A traveller from Vancouver thinking he would make time by getting over in a buzz wagon, was away out on his calculations, and in instead of sitting over a comfortable fire in a Keremeos hotel, Homer and himself put in a night quite cozily as the guest of a lonely rancher, who was backing near Clark's ranch.

Yes! we've had some snow alright a little more than is coming to us, we think. But it has caused considerable enjoyment to many. A few have received a snowball in the back of the neck and some have done the loop the loop on the hand sleighs. Coasting parties have been having a good time on the hill. Whooping cough is all the rage but what do we care, spring will come again, but we are all cheerful with the prospects of a good skate this week. If any other town has anything over us, let us know immediately.

H. B. Parsons had the pleasure of knowing what the "whirling dervishes" feel like last week when his team bolted with the sled. He made good time over the sage brush flat but on the home stretch through town was going like the mill tail. H. B. with a dexterous movement slid gracefully off his jumper. The snow melted a trifle where he lit on account presumably of the short prayers he offered for the deliverance of his team which was disappearing round the post office corner in the direction of Chinatown. The team after endeavoring to take down the main mast at the Sing Lee Laundry ran foul of the rigging and were brought to an abrupt standstill with no damage done.

Mrs. Kirby arrived back in Keremeos on Saturday the 31st ult, after having had a splendid holiday in Alberta. At Lacombe she had a most enjoyable time. Mr. Kirby is located at that place and as manager of the Adelphi Hotel he is doing splendidly. Miss Violet Kirby is doing very well in the Lands Titles office at Edmonton, and Miss Mildred Kirby has accustomed herself and is making fine progress at the Alberta Ladies College at Red Deer. While in Edmonton Mrs. Kirby had the pleasure of spending the evening with Mr. and Mrs. McHaffie, late of Hedley. Although the thermometer dropped to several degrees below zero, she rather enjoyed the experience and did not feel the cold like she expected she would. The first snow fall was the 20th. of January.

While the Education Department may be and no doubt is entitled to much credit for the progress made by our Province in educational matters the work is as yet far from complete as is evidenced by the letter published herewith which was received by one of our public school teachers in the vicinity. The letter was without date or signature but was no doubt written by a well known person of the district who is a graduate of one of our British Columbia rural schools. "Now Mr.— Just a word about those damn stories you are telling the kids. Keep your Blood and Murder yarns for the older people it is awful to here the little bredes talk about your murder stories. I guess it will be enough to just teach them their books. School is no place for murder stories."

Mr. and Mrs. J. J. Armstrong returned last week after spending three weeks at the coast combining business with pleasure. Mr. Armstrong was kept very busy during his trip to both Victoria and Vancouver. He represented the Similkameen district at the Provincial Conservative Association meeting held at the Empress hotel in Victoria and was also present at the Fruit Growers' Association meeting held at the same place. This meeting was a very successful one and many points of interest to the grower were discussed. He had the pleasure of hearing once more that the Similkameen fruit was the best to arrive in Winnipeg, also that W. G. Mattice was doing good work advertising and disposing of same. At this meeting great stress was laid on "the better grading of fruit". This applies to all growers, and so those in this district should strictly take this to heart and determine that knowing they have first-class fruit the proper attention of grading will prove their greatest asset, when put on the markets of either prairie or coast cities. And it will be to their advantage to see that their grading is second to none. Co-operation is another thing which is strongly advised, and to this end all growers should work. While in Vancouver Mr. and Mrs. Armstrong stayed at the home of Mr. Armstrong's mother and were delighted to find her in the best of health and spirits.

### OKANAGAN FALLS

Henry Phelps is running a regular automobile stage between Penticton and Oroville.

After being very sick for the past three months we are pleased to report that Mrs. W. J. Waterman is very much improved.

Peter McIntyre paid the town a visit last Saturday and appears in good health and tickled. May be the Vaseaux Lake announcement has something to do with it.

No skating accider's because there is no ice. One old timer says that this is the first time in fifteen years that he has not been carrying a bump on the back of his head.

It is expected that by next spring a large number of immigrants from Europe will settle on the government lands acquired from the railway company. This ought to help boost the Falls.

Norman Patterson, the youngest son of Mr. John Patterson, met with a rather serious accident the other day. While he and his brother were riding the work horses to water, his horse shied throwing the little fellow and while on the ground he was badly trampled upon. Dr. White was called from Penticton to attend to the boy's injuries, and now although badly bruised and scared the little chap is mending splendidly.

Messrs. Jackson and Arnott have been unable to break their duck killing record. Both the ducks and hunters are pretty wild, but they hope that when the weather gets a little colder the ducks will stay a little longer keeping their feet warm in the water.

Mr. Y. C. Kitley, attended the recent Provincial Conservative Association meeting held in Victoria. While away he did some good advertising for the district also bringing home the news of the fruit growers' meeting held at Victoria. At this meeting he states that the main topic was the better grading of fruit and he desires to put before the growers of this district the grave necessity of each and every grower using more care and judgment in this very important task.

### KALEDEN

A great number of trees have been sold by the Kaleden Nursery Co.

The lake is still open; the boat continued to run until the 31st of January. A freeze up is expected this week.

A couple of fine bungalows are being erected to accommodate two families lately arrived from the old country.

A boat is now under construction at the wharf which when completed will ply between this place and Penticton. The boat is being built with what is known as a tunnel propeller, which will enable the boat to get up Okanagan river with little difficulty.

### VASEAUX LAKE

BORN—At Vancouver on January 30th to Mr. and Mrs. Edward Kennedy a son.

No ice and not enough snow for sleighing. Automobiles passing daily. Got the edge on the Similkameen valley this time.

### FAIRVIEW

Quite a lot of snow, more than the usual amount generally allotted to us. The social dance held in the Elliott hall last Friday was a great success. A large crowd attended and they tripped along until the sma wee hours.

### KEREMEOS LAND COMPANY

## YOU WANT THE BEST

## IT ALWAYS PAYS BEST

### There are Two Kinds of Printing

The one is turned out by the man who believes that anything goes, but the other by the one who values the reputation of his establishment too highly to allow any work to go out which will not do him credit.

There is just as good work being done in country offices as in the cities, and often as poor work in the cities as in the worst country shops

In Prices the country office can do just as well for you and you save the express. The city printer may get his stock a trifle cheaper by saving the local freight, but his rent and other overhead expenses are higher, and in the end he is obliged to charge as much or more than the country printer will charge for the same class of work.

## THE HEDLEY GAZETTE

is prepared to do any kind of work that may come along. No order too small and none too large.
