DOMINION DAY AT PRINCETON

Large Turnout and Fair Weather Served to Furnish a Pleasant Outing

Dominion Day was right royally celebrated in the valley by the sports held in Princeton, and for a wonder, the rain which had been so persistent for a fortnight before, very obligingly let up and the weather was ideal on the first day without even the disquietude of a threatened shower. The train from the south which was on time had a good representation from Oroville and Keremeos and received a strong reinforcement of Hedley holiday-makers on pleasure bent. Those who went up were expecting that the train would be held until 7 o'clock in the evening of the first day of the sports, but in this they were fooled as somebody with a pull somewhere had managed to get the thing arranged otherwise and they were forced to stay over night or turn around and come back by the regular train.

The principal features of the first day were the lacrosse match between Hope and Keremeos and the baseball match between Hedley and Copper Mountain. The lacrosse match was a walk-over for Hope which was heavily recruited from Westminster and a score of something like 18 to 2 resulted.

In the baseball game between Hedley and Copper Mountain was demonstrated the fact that it was Hedley's day off. The Copper Mountain team had been very much strengthened and Hedley had several raw spots on the team resulting from taking on men who had not practised their position. Early in the game Billy Corrigan, who was counted on to do most of the pitching for Hedley, had his pitching arm struck with a pitched ball and was out of the game. His place was taken by Prior who pitched very well but had not practised and could not stand the pace. The Hedley infield was weak with the exception of third base which was snappily played by Harper, and in batting the team was not as effective with the stick as they generally are, and this part of the fall down was not helped very much by some more weird instances of Messenger's gruesome suicidal base-running. The score was 23 to 13 with Hedley on the short end. Next morning Copper Mountain beat a combined team of Coalmont and Tulameen.

In the rock-drilling four teams competed and Hedley captured both prizes. The team that got first money was S. E. Hamilton and Fred Lyon, while Yorky and J. Beam got second. The boulder was the hardest that any of the drillers had ever struck, which accounts for the shorter depth of the holes drilled. The winners made 29 9-16 inches, the second team 26 3-16, a Copper Mountain team 25 inches and a Nickel Plate team 21 inches.

CONNAUGHT WILL RETURN

It Is now Officially Announced that the Duke of Connaught Is Willing to Return to Canada

Ottawa, June 29.—Sir Charles Fitzpatrick, administrator of Canada, has received a cablegram from the secretary of state for the colonies, informing him that the governor-general, his royal highness the Duke of Connaught, has accepted an extension of his term of office as governor-general of Canada for one year. The cablegram further states that his royal highness is likely to return to Canada during the autumn, when it is hoped that her royal highness the Duchess of Connaught will have sufficiently recovered from the illness which necessitated her departure last spring to accompany him.

A contract for the reconstruction of Rideau hall has been let to Peter Lyall & Sons of Mon real and the announcement means that the work will be proceeded with night and day so that the official residence of the governor-general may be ready for occupation before Christmas. Should the duke and duchess signify their intention of returning before that date other provision for their temporary accommodation will probably be made at the Chateau Laurier.

FIND BODY OF JOE FLEISCHER

In Similkameen River Near Keremeos—He Undoubtedly Fell off G. N. Bridge Near Hedley

The body of Joe Fletcher, whose real name was Joki Fleischer, was found last Sunday morning stranded on a bar in the Similkameen river at Webster's Ferry, three miles north of Keremeos. Constable McGuffie was notified of the discovery, and took the body to Keremeos, where it was identified. The coroner, Dr. McEwen of Hedley, was called, and held an inquest Sunday afternoon, at which it was found that Fleischer met his death by falling off a bridge into the river. There was a large bruise on the head, but no other marks on the body, which was badly decomposed. In a vest pocket was found a roll of bills totaling \$18, and a postal note payable to a relative in Budapest, Austria, so that it is evident that robbery was not a motive.

It seems probable that Fleischer met his death by either accidentally falling, or jumping with suicidal intent, from the high Great Northern trestle over 20-Mile creek. He had not time enough after he was seen to leave the station, to reach the bridge over the Similkameen river before the arrival of the train. He was not seen on or near the trestle by the train crew. The two suitcases left at the station by Fleischer were opened Sunday evening by the coroner, but no evidence was found in them which furnished a clue to his motives. One suitcase contained old clothing, and in the other were a few carpenter's tools.

Fleischer was a native of Budapest, Austria, and was about 45 years old. Little is known about his relatives, and the name of the person to whom the postal note was addressed was illegible. He will be buried in Keremeos by the members of Hedley Miners' Union.

BRITISH HOSPITALS

Sir William Osler Says they are Hopelessly Behind the Times

London, June 27.—"Give up the voluntary system of hospitals; it is antiquated," said Sir William Osler in his address today at the annual conference of the British Hospital association at Oxford. Sir William was contrasting the methods of American and colonial hospitals with those of England, and said there was a striking contrast between the American and British hospitals. In fact, in England everything was done for the poor and nothing for the rich, who were the most neglected people in the country.

"You are hopelessly behind the times," said Sir William; "You have got to reform and rearrange your ideas because many of you are pig-headed, obstinate and hopelessly ignorant on this question."

A DIFFERENT VIEW POINT

(Nelson News)

Some of the papers which two years ago were trying, when the Reciprocity campaign was on, to convince the people of Canadian that the American market offered a big market for Canadian wheat, contending that the United States would soon be a wheat-importing country, are beginning to see the error of their ways. Among these is the Toronto Globe. In a recent article in that paper it was stated:

"The reduction proposed in the duty on wheat will affect the Canadian producer very little now. The United States is producing too much surplus wheat in these days to afford us a profitable market there. With reserves on March 31 amounting to about 156,000,000 bushels and a new winter crop coming in about the 1st of July which promises to greatly exceed that of a year ago, the United States is a huge exporter yet. With her new irrigation methods there are large wheat areas yet untouched. There is promise that she will be a large exporter for many years to come.

And, two years ago, the Globe was the loudest in its shouts to the Canadian wheat grower to vote for Reciprocity and the big market for Canadian wheat which was opening up in the United States.

INDIAN GUILTY OF MURDER

New Westminster Jury Convicts Paul Spintlum Upon His Second Trial

Vancouver, B. C., June 27.—Paul Spintlum, the Indian, was found guilty at New Westminster assizes today of the murder of Provincial Constable Kindness, near Clinton, on May 8, 1912. This is the second time that the Indian has been placed on trial for his life. He was sentenced to be hanged on September 12. At the previous trial of Spintlum and his companion, Moses Paul, another Indian, at Vernon, the jury disagreed. Paul will now be tried as an accessory to the crime.

Both men had been arrested for murder in 1911 and broke jail at the beginning of 1912. Near to the place where they were in hiding a Chinaman was found butchered, the weapon being a hatchet. The trail was followed up eventually to their hiding place and when about to effect their arrest Spintlum and Paul took refuge behind a log, from which the former fired on Kindness, killing him on the spot. For many months they were outlawed and it was only at the threat of the provincial government to dispossess the chiefs of the tribes who were harboring the criminals of their titles and dignities that they were delivered up to justice. Spintlum maintained his stoical demeanor throughout the entire trial and made no remarks when the capital sentence was passed in due form.

HEDLEY SCHOOL REPORT

The following is the report of the Hedley Superior School for the month of June. Division I.

HIGH SCHOOL

Teachers' course—Gertrude Smith, Marjorie Smith, Richard Clare, Mack Clarke.

Commercial course—Doris Lyall.

PUBLIC SCHOOL

Monica Smith, Viola Messenger, Bertie Jones, Henry Jones.

Promotion examinations Division II Hedley Public school.

From class III to IV. 500 to pass—Elsie Smith 576, Ina Boyd 557.

From class II to III. 500 to pass—James McLeod 750, Lily McLeod 748, Hugh McKenzie 680, Leonard Michell 675, Ronald Critchley 674, John Smith 575, Lena Wirth 561, Elmer Burr 550, Claire Loomer 538.

From class I to II. 500 to pass—Gomer Jones 620, Grace Robson 577.

From II primer to class I. 500 to pass—Robert McLeod 691, Vivian Simons 567.

From I Primer to II—450 to pass—George Wirth 736, Minnie Winkler 575, Orville Simons 476, Harry Squakim 450.

From beginners class to I primer—Ema Winkler, Viola Naff, William Michell, Wesley Messenger, Warren Rolls.

INCREASING THE POWER AT UPPER BONNINGTON FALLS

Another Unit to Be Added to Provide for the Rapidly Increasing Load

To keep up with the demand, the West Kootenay Power company is arranging for the installation of an additional unit of 8,000 horse power at Upper Bonnington. The company now has 24,000 horse power in operation, distributed between Upper and Lower Bonnington and Cascade, and the plant at the upper Falls is to have another 8,000.

The company increased its load by 25 per cent last year, and it is hoped to raise this increase to 30 per cent this year. The increase, too was from Rossland proving the substantial activity of the local properties.—Rossland Miner.

Dangerous Criminal at Large

Swift Current, Sask., June 26.—While Canadian Pacific passenger train No. 62 was passing through Carmichael today at noon some one fired a bullet from a 38-calibre revolver into the dining car at the south side of the tram, breaking a window. No one was injured. The Canadian Pacific police are hunting for the marksman.

LOSS TO CANADA

The Death of the Duke of Sutherland Will be Severely Felt, in Western Canada

The death of the Duke of Sutherland which took place at Dunrobin castle on the 26th ult. removes a man who had wide aims for the building up of empire and the amelioration of the condition of thousands of the working class in Scotland. The rich lands of British Columbia's great northern hinterland were to play a prominent part in his schemes.

Cromarty Sutherland-Leveson-Gower, fourth Duke of Sutherland, born July 20th, 1851, was, with the exception of the Emperor of Russia, the largest land holder in Europe. His estate embraced nearly 1,500,000 acres. He owned 30,000 acres in Staffordshire and Shropshire and much landed property in other countries. He was noted as a sportsman and a fine yachtsman. His yachts included the Catani and Lizette. In 1881 he married Lady Millicent Fanny St. Clair Erskine, daughter of the fourth Earl of Rosslyn, two sons and one daughter being the result of the union. In recent years the Duke has been deeply interested in a colonization scheme for western Canada and to that end has purchased vast tracts of territory.

MINING NOTES

Two cars of silver lead ore, running \$50 a ton, have just been shipped from the Sunnyside, at Rock Creek, by E. Williamson.

There are 14 miners at work in Summit Camp, and it is likely the number will be considerably increased with the coming of warmer weather.

The Vancouver Chamber of Mines has set up an exhibit of Provincial minerals in its new headquarters and will show collections from nearly every mining camp in the Province.

A shaft is being sunk on the coal property of the Midway Coal Co., at Midway, and they report the finding of some very good grade coal.

Rossland has produced a total of \$55,577,452, according to the Rossland Miner, and is still producing at the rate of \$2,700,000 a year.

The annual report of the New Dominion Copper Co. shows a profit for the past fiscal year of \$116,949, as compared with a deficit of more than \$11,000 for the year before.

For the purposes of research work on the black sands of B. C. the following advertisement has appeared: "Prospectors send two pound sample of your black sand, stating locality taken from, to Vancouver Assay Office, Vancouver, B. C.

The Consolidated Mining and Smelting company, operating a smelter and mines in the Boundary, Rossland, Nelson and Slocan districts, has announced a semi-annual dividend of \$220,000, payable July 5th. The disbursement is based on a rate of 8 per cent per annum on the issued capitalization, and will bring the total payments of the company to \$1,231,001.

The No. 7 mine at Greenwood, which has been operated for some time by the Consolidated Co. was shut down last week for a time.

This year to June 24th the Granby Co. has shipped a total of 9,920,697 pounds of copper.

Seventeen men are employed at the Utica mine, near Kaslo, mainly in doing development work.

The Granby Company is building some 62 miles of trails connecting their different groups of mining claims at Granby Bay.

A freight rate of \$11 per ton is quoted on ore shipped from New Hazelton to the Trail smelter.

Jack Lucy, an old-timer in the Boundary and Similkameen country, has gone up the Tulameen to stake just a few more mining claims.

A force of 200 men is employed at the coal mine operated by the Inland Coal and Coke Co. of Merritt.

English Church Service

On Sunday July 6th there will be an English church service in the morning at 10 o'clock. Everyone welcome.

TIMELY AID

The confirmation by Sir Thomas Shaughnessy of the intention of the C. P. R. to expend \$100,000,000 in the extension of its lines and perfection of its system in the west, comes at the present time as a piece of very welcome news indeed, and furnishes more-over, ample opportunity for the people of Canada to review the situation and examine into the relations which subsist between the Dominion of Canada and this great corporation. When the evidences of a world wide trade depression which is now coming on are to be seen on all sides and the money situation is becoming all the while tighter, the announcement of a gigantic expenditure of this kind, and at this particular time, appears like a veritable rift in the clouds before the storm has had time to break.

We have all heard the C. P. R. damned for one thing and another and most of us may have done a bit of it ourselves at times when we didn't happen to think that things were coming sufficiently our way; but nevertheless where is there another corporation that has so thoroughly identified itself with the interests of a country as this mammoth railway and steamboat company has done? Neither is this the first instance when British Columbians in various districts and at various times, have seen infant industries nursed along by the company in a way that was truly paternal, and it does not detract from the situation in the slightest where it may be seen that in doing so they were merely building up profitable business for themselves in the years to follow. It is now twenty years since they placed a steamer on Okanagan Lake that was far beyond the capacity required at that time, and many a lean trip was made before there was business enough to justify the expenditure. Any settler on the shore of Okanagan Lake had only to moor a log or two at the shore to serve as a wharf and display a white flag when he wanted the boat to call, and he and his little bit of produce or belongings was taken aboard. The mining industry in the Boundary was fostered along the same way, and when it was a matter of life or death to mine owners to determine whether the low grade ores of the Boundary could be made to yield a profit, the C. P. R. did their part to help out the situation by giving a rate of 35 cents per ton for the transporta-

tion of ore to the smelters at Greenwood, Grand Forks and Boundary Falls long before there was any other road to share this business with them.

In fact, Sir John A. Macdonald, far-seeing statesman as he was, builded even better than he knew when he tied up with the men who risked their fortunes in the gigantic scheme of giving Canada a railway from ocean to ocean; and any aid which he and his parliament were able to give at critical periods to help it through, was bread sown on the waters, which is since coming back in countless ways, and this latest manifestation in the expenditure of \$100,000 in the extension and improvement of their system in the west at this particular time is but another magnificent instance of the policy they have seen fit to pursue and the national sentiment which has inspired it. To do the right thing at the right time is a happy faculty that is unfortunately not possessed by all, and neither are all in a position to do it, but it is fortunate for all that those who are in a position to do so, have the will to do so.

The agitation being kept up in Vancouver by certain interested agitators to force the British Columbia government to give to the City of Vancouver a valuable piece of property in the centre of the city is being taken note by those dwelling in other towns and cities through the province. The property in question is the old court house site on Hastings St. which is estimated to be easily worth over a million dollars. This would be an able-bodied gift indeed for the provincial government to hand over to any one city, but it would require a heap of explanation to satisfy the rest of the province why it should be that one place should be handed out a gift of that or any magnitude that is not extended in like manner to other portions; besides, it was never considered good form for the recipient, or would-be recipient, of a gift to suggest to the donor of what the gift shall consist. The object of the agitation is too apparent to deceive anybody, and we think there are a sufficient number of fair-minded people in Vancouver to see through the game. The occasion should be one for the exercise of a little civic pride which should preclude anything so humiliating as the assumption of the position of mendicant. The government owns land in a good many towns throughout the province, and how will it be if all of them begin holding out the big mitt and specifying the character and magnitude of the gift which they want?

The conviction and sentence of the Indian, Paul Spintlum, at the assizes held in Westminster last week, emphasizes the fact frequently pointed out by this paper that the frequent miscarriages of justice that have been witnessed in Vernon for which Vernon juries are responsible, make it very questionable whether it is proper to trust them with any more cases in which offenders who are charged with capital crimes are concerned. The trial in Westminster was to all intents and purposes a mere rehearsal of the evidence that was given in Vernon, and it is also said that the summing up made by Justice Morrison in Westminster for the guidance of the jury was no more pointed nor conclusive than a verdict for conviction could follow than that made by Justice Hunter in Vernon. The Gazette has conversed with men who heard all the evidence on this case in Vernon. Some of them were men who are familiar with the taking of evidence and able to weigh it properly and give it its due place in both civil and criminal cases, and surprise was expressed by them that men who are supposed to be possessed of sufficient intelligence to serve on jury cases could have given such a verdict in the face of the evidence placed before them and so admirably summed up by the presiding Justice. It all resolves itself into this that a grave re-

sponsibility is assumed by the Attorney-general's department in allowing any more murder cases to be tried in Vernon, and especially should there be the greatest possible care that no changes of venue from other assizes to Vernon should be given to counsel for defence who are determined to get their clients off. Objections to certain jurors who might be suspected of prejudice against the prisoner is a privilege of which counsel for defence are never backward in availing themselves. It might be well if counsel for the prosecution were equally solicitous for the interests of justice and see that no man is allowed on a jury who is a faddist on the subject of capital punishment and who will express disbelief in capital punishment at all. One such juror is said to have had a place on the jury which disagreed in Vernon when the Paul Spintlum case was tried there. There were some other dissentients on that jury who were credited with other reasons for taking the stand which they did, and if those alleged reasons be true and are at all likely to obtain again, then the system of trial by jury would indeed appear to have outlived its usefulness.

METEOROLOGICAL.

GENERAL NEWS

Harry Doyle, who was employed in Cadworth's camp of road builders on the Osoyoos lake road, died last week in a somewhat mysterious manner. He had a slight fall when in Oroville, but thought nothing of it. Later in the day while returning home, he complained of not feeling well, and spent the next two days in bed. On the afternoon of the second day, he became paralyzed from the waist down, and the doctor was called, but could do nothing. Doyle dying shortly after his arrival. The body was taken to Fairview, where an autopsy was performed, and it was found that his neck was broken. The case is peculiar, in the fact that a fatal injury should result from so slight a cause, without any suspicion on the part of the victim of the nature of his hurt.

The Duke of Sutherland, who was the largest land holder in Europe, died last week.

Vancouver experienced the most severe thunder storm in its history last week, when rain fell so fast that Hastings St. was converted into a river, that ran knee deep, and swift enough to carry away bicycles.

The Bridge River Co. has been incorporated, with plans to develop about 200,000 horse-power in the Lillooet district, involving an expenditure of \$8,000,000. The power will be used in the electrification of the Pacific Great Eastern railway, and in Vancouver, from which city the power plant will be distant about 150 miles.

Several serious forest fires are burning in Alaska, on the Kenai peninsula, according to dispatches received from the forest service in that district.

Premier McBride has announced that he intends to visit England at the end of August on a variety of official business.

Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

COUNTY COURT, YALE

A sitting of the County Court of Yale will be held at the Court House, Princeton, Thursday 25th day of June, 1913, at the hour of 2 o'clock in the afternoon.

HUGH HUNTER,

Registrar County Court.

NOTICE

SIMILKAMEEN LAND DISTRICT
DISTRICT OF YALE

TAKE Notice that W. B. Haynes, of Fairview, B.C., occupation Fire Warden, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the southwest corner of Lot 688; thence eighty chains west thence twenty chains north, thence eighty chains east, thence twenty chains south to place of commencement containing about 160 acres.

19-10
May 5th, 1913

W. B. Haynes

"OUR MUTUAL FRIEND"

When this expression is used some Canadians instantly think of Charles Dickens' much-loved masterpiece.

Others associate the words with The Mutual Life Assurance Company of Canada, and with reason, for

It is the only Mutual Life Insurance Company incorporated in the Dominion.

It solicits only Canadian business.*

It invests only in Canadian Securities, and

It has paid to Canadian families,* often in times of direst need \$12,800,000 since its foundation in 1870.

For these and other reasons Canadians refer to

THE MUTUAL LIFE ASSURANCE CO., OF CANADA

as Our Mutual Friend

* The colony of Newfoundland is included.

W. J. TWISS A. Megraw
Manager for B.C. Local Agent

When writing Advertisers Please Mention the Gazette.

Town and District.

Tom Bradshaw was in Hedley a few days last week.

Harold Townsend returned to Hedley last Friday, from Spokane.

Hedley was well represented at the Princeton celebration this week.

Max Wilson was in Hedley last week, looking into his business interests here.

Mr. McIntyre returned to Merritt in his auto, passing through Hedley on Sunday evening.

Fred Gillespie went to Princeton on Saturday. He will stay over to take in the celebration.

Dr. McEwen made a trip to Keremeos Sunday to act as coroner in the case of Joe Fletcher.

Oroville will celebrate the 4th of July with a big programme of sports extended over two days.

Many Indians are to be seen passing up the valley towards Princeton with their horses, to take part in the races.

Mrs. Thain arrived in Hedley on Monday to spend a portion of her holidays here. She is the guest of Mrs. G. P. Jones.

Dr. Jemyn V.S. who is veterinary inspector at Osoyoos went up the valley on Monday and expected to take in the races at Princeton.

I. L. Merrill, President of the Hedley Gold Mining Co., who has been on a trip to Europe, returned to his home in Camden, Maine, last week.

W. T. Shatford, who completed his tour of South America, is now in the British Isles, and attended the Derby, where he witnessed the suffragette incident.

The moving picture show given last Saturday night by the ball club was very successful. A capacity house turned out, and were treated with six reels of excellent pictures.

Harry Tweddle of the Central Hotel, Keremeos Center, is the recipient of congratulations this week. A wire from California announced to him that it was a boy and an eleven pounder.

Mrs. E.M. Daly, Miss Florence Daly, Miss Ellen Corrigan, Maurice Daly and George Allison passed through Hedley Saturday on their way to Princeton. They will camp out for summer a little way above Princeton.

An accident took place in the Highland mine at Ainsworth last week in which one miner was killed and another badly injured. It is said that both men were formerly miners from the Nickel Plate but we have been unable to ascertain the names.

Fishing is a strenuous pastime, to keep in condition for which much rest is necessary. Some of our Hedley citizens appear to find it difficult even to fulfil their social obligations during the season set apart for luring the finny tribe to the baited hook.

Miss McCaffery who has taught the junior department in the Hedley school since the first of the year, left this week for her home in Madoc, Ontario, going by easy stages and visiting friends at various points on the way, including Armstrong, Calgary and other places where she has friends residing.

L. G. MacHaffie and wife landed in Vancouver, from Edmonton, last week and spent the week visiting at Mr. MacHaffie's home in Vancouver. It is expected that they will arrive in the Similkameen to visit Mrs. MacHaffie's parents before returning to Edmonton and will doubtless give Hedley a call.

A social dance was given on Friday evening, June 27th, in Fraternity Hall. Excellent music was furnished by W. Daly of Keremeos and George Stevens. A lap supper was served at midnight, after which dancing was resumed until an early hour. Everybody had a good time, and heard the strains of Home Sweet Home with much regret for the ending of another of Hedley's most enjoyable evenings.

Mr. L. W. Shatford, M.P.P. was up to Penticton last week attending the annual meeting of the Southern Okanagan Land Company. It was a risky experiment on his part to venture into this part of the province at this time of the year, and a rather severe attack of his old trouble resulted from his trip of a few weeks before to the eastern part of the riding. It is his intention to start with Mrs. Shatford and family on a trip to the old country which will be part business and partly pleasure. They expect to leave Vancouver for Montreal and Halifax on July 10th and will sail from New York.

Rev. Dr. Wright preached in Hedley on Sunday evening in behalf of the B. C. Auxiliary of the Canadian Bible Society and told his congregation of the most successful year in the history of the Society. The Reverend gentleman's talks are always appreciated and the work of the Society made of special interest to his hearers.

Hon. Price Ellison, Minister of Agriculture, is in the Okanagan this week accompanied by his deputy, W. E. Scott, and the immediate cause of their visit is to inquire into the fire blight which is affecting many of the fruit trees about Penticton and Summerland. Mr. Ellison was in the district the week before and learning of the trouble, promised that all the assistance which could be rendered by his department would be forthcoming, and the present visit is a fulfilment of the promise.

Those who may have entertained the idea that ex-constable John Tooth had passed the years of efficiency because he was over sixty years of age, had the fallacy of their contention demonstrated last week in Vancouver where he proved himself as proficient at the art of thief catching as the best of them. He was in a crush going into the Orpheum theatre with a friend when he felt some one jostling in a peculiar way behind him and discovered that his pocket book which was in his hip pocket had disappeared, and a chap was seen trying to make his way through the crowd in the opposite direction. Tooth soon got to him and once he obtained a grip there was no shaking him off. The thief had the goods in his possession and, was landed in the coop, where the police soon discovered that he was the man they wanted on two or three other charges. And yet John Tooth was laid aside after many years of efficient work in the constabulary of this province because he was declared to have passed the efficiency age limit of sixty years.

CLAIMS HEAVY DAMAGES

VANCOUVER, B. C., June 26.—Claiming \$80,000 damages the Emerson Lumber company today filed a writ in the local supreme court registry against Hon. Price Ellison, provincial minister of finance, and Messrs. Andrew and Charles Haslem. The action is based on alleged interference by the provincial government or its servants regarding the logging operations of the plaintiffs concern at Eden island. The company alleges that the principals of the firm were threatened with imprisonment if they did not stop operations.

Express charges on the Great Northern on merchandise, fruit, vegetables and meats have been reduced as called for under the recent ruling of the Dominion railway commission. The reduction is to become effective on July 1st.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

Town and Lower Valley.

Guess it's all off with the first crop of hay.

Bob McCurdy came up from camp in the Lower Valley on Saturday evening.

Duncan McIntosh of Greenwood was a visitor to Keremeos two days last week.

William B. Lowe, of Keremeos Centre was a visitor to town on Monday the 30th.

Mr. Herbert Hunter spent a few pleasant hours at the Manery ranch last Sunday.

William Gillanders left last for Nanaimo, where he will join his mother and brother.

Fishing is good. If you had seen the bunch out on Sunday last, you wouldn't doubt.

President Warren of the Kettle Valley Railway passed through on Monday evening on his way to Penticton.

Miss Annie Innis of Princeton, accompanied by Master Parsons, came down Wednesday and spent a couple of days at home.

The Chinese store was raided last week for gamblers. Seventeen were pinched and the department's treasury is increased a trifle.

Mrs. Daly and all from the ranch went up to Princeton on Friday the 27th, and hope to spend a few pleasant days there before returning.

On Thursday the boys got together and did some great work around the Park, making things look a lot more pleasant for the social and picnic parties.

Something must have happened to the dry belt. The meteorological station reports that with the exception of two days, it has rained every day since the 13th of June.

Mr. Jack Long and Mr. Ford of Loomis with their little Ford car stayed a couple of hours in Keremeos before going on their way to take in the celebration at Princeton.

Miss Ella Innis arrived home on Wednesday of last week, after her long siege of sickness, and she now hopes that after a good long stay at home she will be entirely herself again.

The Ven. Archdeacon Beer held both morning and evening services in the school house, both being well attended. At the evening service Mr. Williamson sang "Father in Heaven Above" as a solo.

On Friday evening despite the threatening showers the Ladies Aid held an ice cream and cake social in the Park. Although not as successful as it might have been if the weather had been more favorable, it was enjoyed by those who were there.

On Sunday next in the church, the Rev. G. T. McKenzie will deliver an address to the rangemen of Keremeos and vicinity. All brethren and sisters cordially invited to attend this special service at 10:30 Sunday morning July 6th.

Murdock McIntyre, wife and two children of Merritt, and Mrs. Dockstader of Midway, motored over to the Center last Saturday, where they spent the night. They had the pleasure of being shown over the Richter orchard Sunday, before proceeding to the Nicola valley.

Mike Costello has re-located a body of magnetite and hematite iron ore about two and a half miles west of Keremeos, distant from the wagon road about 1000 feet and 800 feet above it. The magnetic portion of the body he claims to be 60 feet wide and averaging 62 per cent of iron, while the portion carrying hematite is claimed to be 30 feet thick and averaging 30 per cent iron. The last mentioned vein has been traced by him over half a mile.

Rev. John Knox Wright delivered a splendid address in the Presbyterian church on Sunday evening on the work of the British and Foreign Bible Society. He told of the wonderful work done by 1100 colporteurs and over 600 Bible women scattered over the world and constantly on the tramp carrying the word of God to the uttermost parts of the earth, and told of 450,000,000 people who have never yet had a chance to get the Bible or the message it bears.

Mrs. Clark of Green Mountain was down for a couple of days, visiting her daughter Mrs. D. J. Innis.

On Sunday morning when J. D. Smith was fishing in the vicinity of the railroad, he made the gruesome discovery of a body lying face downwards in the water. He notified the authorities, and the remains were taken up to the Centre. Dr. McEwen, district coroner, was notified, and came over from Hedley the same day. The body was identified as that of Joe Fletcher, of Hedley, who has been missing since June 13th. Representatives of the Miner's Union, Hedley, drove over Monday to conduct the last sad rites over their deceased brother miner.

A LEGAL CONTEST

Federal and Provincial Governments to Lock Horns on Foreshore Rights.

Vancouver, B. C., June 29.—The attorney-general of British Columbia has decided to intervene in certain injunction proceedings now before the supreme court in Vancouver, in order to test whether or not the title in foreshore lands in British Columbia is vested with the provincial or the Dominion government. The Dominion has given the Silica Sand & Gravel company of Vancouver an exclusive right to the gravel of Spanish bank, in Vancouver harbor. The Silica company is now endeavoring in the courts to keep other sand supply boatmen off. The legal department of the British Columbia government proposes now to join with the defendants to fight the federal issue.

WOMAN EXPLORES WILDS

New York, June 25.—Into the practically unexplored regions of Northern British Columbia and Southeastern Alaska, where as yet uncivilized Indian tribes never have seen the face of a white woman, Miss Mary L. Jobe, professor of history in the Normal College in this city, will start a week hence from Prince Rupert, B. C. accompanied only by two Indian guides.

Miss Jobe is a veteran of several exploring expeditions. She was one of the two women with Professor Herschel Parker when he reached Mount Sanford, the highest mountain in the Selkirk Range.

Miss Jobe announced her plans tonight and will start west tomorrow. She said the purpose of her expedition was largely ethnological, that she expected to study the traditions, habits, ceremonies and language of the of the Athabaskan, Alaskan or "Carrier" tribe of Indians along the Skeena and Peace rivers.

300 VOLUNTEERS WANTED

To Furnish 10,000 Square Inches of Cuticle for Elevator Sufferers

Buffalo, N. Y., June 26.—Over 10,000 square inches of skin must be given for grafting purposes if the death list of the Husted elevator explosion and fire is to be kept from reaching far more appalling proportions, according to conservative estimates of physicians attending the injured. To meet this sacrifice there must be 300 volunteers. A public appeal will be made as soon as the exact conditions are known. No great progress toward the recovery of the bodies can be made until the ruins cool and the wreckage is removed.

GENERAL NEWS

The Greenwood Agricultural Association will hold a meeting this week to decide on the question of continuing the annual fall fair. There seems to be little doubt among Greenwood people but that the fair will be held as usual.

The football club in Greenwood has rented club rooms, which will be fitted up with reading tables, dressing rooms, etc., for the benefit of the young men of that town.

Nelson has arranged an excellent program of land and water sports for the celebration of Dominion Day.

Hon. J. D. Hazen, minister of marine and fisheries, has advanced the date of his west trip, and will reach the Pacific coast in time to welcome the new battle-cruiser, New Zealand, on behalf of the Canadian government.

Hon. Martin Burrell, Minister of Agriculture, will visit the Ghent exposition in the interests of Canada. While in Europe, Mr. Burrell will consult with Wm. Hutcheson, Exhibition Commissioner, in regard to the Panama exposition which will be held in San Francisco in 1915. Mr. Burrell feels that Canada should make a special effort to be well represented at San Francisco, especially in view of the value of the Panama canal to the Pacific coast and the prairie provinces.

Cranbrook is to have a fall fair September 18th and 19th.

Navigation on the Arrow Lakes will be improved by the use of a suction dredge, for which an appropriation of \$100,000 has been secured. The channels in the Narrows between the upper and lower lakes will be deepened, so as to permit continuous navigation during the winter months, and do away with the tedious trip via the Slocan, which is now necessary in low water season. The government will also place a number of beacon lights on Kootenay Lake, and provide the necessary men to keep them in order. These will be a great aid to navigation on this lake, especially through the Narrows.

YOU WANT THE BEST IT ALWAYS PAYS BEST

There are Two Kinds of Printing

The one is turned out by the man who believes that anything goes, but the other by the one who values the reputation of his establishment too highly to allow any work to go out which will not do him credit.

There is just as good work being done in country offices as in the cities, and often as poor work in the cities as in the worst country shops

In Prices the country office can do just as well for you and you save the express. The city printer may get his stock a trifle cheaper by saving the local freight, but his rent and other overhead expenses are higher, and in the end he is obliged to charge as much or more than the country printer will charge for the same class of work.

THE HEDLEY GAZETTE

is prepared to do any kind of work that may come along.
No order too small and none too large.
