**INVESTIGATING MOLYBDENITE**  
Prof. W. Walker, of Toronto is Making  
Investigations for Dominion  
Government.

Nelson, July 18th—William Walker, professor of mining in Toronto university, arrived in Nelson last week in the course of a tour of the mineral regions of Canada on behalf of the Dominion government, to report upon the mineral, molybdenite. Two years ago Prof. Walker made a similar tour, as a result of which he wrote for the government a brochure upon the mineral tungsten.

Prof. Walker held a long conference with local assayers in Nelson, examining records of their assays of the molybdenite deposits around Salmo. Prof. Walker placed a value on the ore which assayed as 94 per cent. pure, of \$425 a ton. The ore in this district is a sulphide of molybdenum, and at both Salmo and Granite it occurs in separate belts from the ores of the other metals.

Prof. Walker later went to Rossland where he inspected the deposits of molybdenite in the Giant mine. He will inspect the Crow's Nest Pass district. The well-known savant has already been over the Texada island and Similkameen deposits.

The use to which molybdenite is put is for armor platings for battleships, and its adoption for that purpose has made it extremely valuable.

**WHEN SHOOTING  
SEASON BEGINS**

A Concise Summary of Points in the  
Game Laws to be Observed

Constable Black, of Nelson, has made a brief but complete summary of latest restrictions in the game laws, a thing that was badly needed, and as there is practically no difference between the Nelson district and this portion of Yale-Cariboo, we reproduce it herewith; attention is therefore drawn to the following regulations for game protection which become pertinent at this season:

"Blue and willow grouse and ptarmigan may be shot in this portion of the province between Sept. 1 and Dec. 1, inclusive.

"Prairie chicken may be shot during October.

"Duck, geese and snipe may be shot on the entire mainland between Sept. 1 and February 28, inclusive.

"Pheasant shooting is not allowed in this part of the province.

"Quail may not be shot at all in this part of the province.

"Columbian or Coast deer may be shot in this part of the province between Sept. 1 and Dec. 15 inclusive.

"Wapiti may not be shot in the province.

"Coast deer may not be sold in this part of the province, while ducks, geese and snipe may be sold here during October and November only.

**BIG FORTUNE INHERITED**

Joseph E. Burwell, Aged 50 Years Comes  
Into Estate—Relatives Cannot  
Locate Him.

Inland Herald  
Joseph E. Burwell, aged 50 years, has fallen heir to a vast estate in Grand Rapids, Mich., through the sudden death of an aunt. The police are now trying to locate Burwell, who is a former Spokane man.

According to R. O. Nelson, who appeared at the Police Station Monday evening, Burwell was last seen in Princeton, B. C. Nelson is a resident of Grand Forks, B. C. but has been visiting in Spokane for some time and Monday received a letter from C. H. Warden, 209 Housman Building, Grand Rapids, Mich., telling of Burwell's fortune.

Burwell is described as being 5 feet 10 inches tall and of slender build. He is fair complexioned and has sandy hair and blue eyes.

**Economical**  
A Scottish lassie, asked by her teacher, "Why did the Israelites make to themselves a golden calf?" replied with the ever-ready and practical reasoning of her country women:  
"Well, ye ken, marm, they hadna a muckle siller as wad mak' a coo."

**THE WESTERN CROPS**  
Conditions in Manitoba, Saskatchewan  
and Alberta

The Winnipeg Free Press, gave out the following estimate from data collected before the rains of July 16 and 17. If those rains were as heavy or as general as they were reported, the situation may not be as bad as it was thought to be. The Free Press said:

"It is evident that Manitoba, and more especially Southern Manitoba, has suffered severely, and taken as a whole that section will not produce more than half a crop. Judging by the number of reports that run from eight to ten bushels for wheat it would be safe to place the yield of that section of the province at eight bushels as an average. This roughly includes the country lying south of the main line of the C. P. R. Southern Manitoba can, of course, better afford such a loss than any other section of the West, as there has been no general failure there since 1888.

"Southern Saskatchewan has suffered less than was expected, but Southern Alberta may be counted as almost total loss. Northern and Central Saskatchewan have one of the finest crops in their history. That province has the largest area in wheat and the largest percentage of that area is in the central and northern parts of the province, Northern Alberta, speaking generally, has a good crop.

"Judging from these reports, with anything like favorable weather from now on, it would be safe to count on at least 90,000,000 to 95,000,000 bushels of wheat. The oat crop will be light and the barley crop generally unsatisfactory, but speaking broadly, the flax crop is a success in the districts where the largest areas have been sown.

"The West will not harvest a bumper crop this year, but she will have enough for bread and seed, with a fair amount for export. The quality will be high. It is interesting to note in how many reports stress is laid on the fact that where careful farming has been done the crop is good in spite of the light rainfalls.

**SPOKANE APPLE SHOW**

Spokane Wash., July 25.—One hundred dollars in gold and a barrel of sulphur spray will be awarded to the grower from any part of the world showing a pyramid of fifty of the largest apples weight alone to decide, at the third National Apple Show in Spokane, November 14 to 19. The second prize is \$25 in cash. The management will also pay \$25 in gold for the largest apple, free from blemish, the second award being \$10 in cash. There will be a substantial prize for the exhibit sent from the most distant point.

Other contests announced today by Ren H. Rice, secretary and manager of the show, are as follows:

Best four boxes of any standard winter variety—\$50 in cash and 500 trees, first; \$25 and a barrel of sulphur spray, second.

Appliances for planting, cultivating, caring for, picking, packing or marketing apples, gold medal wall banner, first; silver medal wall banner, second.

New varieties, best seedling apple produced during the last five years—especially designed silver desk scroll, first; diploma, second.

Best keeper, five apples, any variety preserved longest without use of acids or other means than cellars or cold storage—engraved silver desk scroll and barrel of spray, first.

Best apple pie—\$10 in gold and \$50 worth of Burbank's crimson winter rhubarb, first; \$5.00 in gold, second.

Best photograph reproduced on an apple—\$50 in gold, first; \$25 in gold, second.

Most unique lettered or figured design made on an apple—\$50 in gold to first, \$25 in gold, second.

Plate exhibits, five apples an entry, 600 cash prizes—\$2 first, \$1, second, also 4,000 apple trees in various amounts.

**TO SAFEGUARD MINERS**

Victoria, B. C., July 21.—An act requiring the installation of modern rescue apparatus in coal mines is proclaimed to take effect November 1st in last week's Provincial Gazette.

**KALEDEN MAKES FIRST TRIP**  
New Era For The Okanagan and  
Okanagan Falls Marked Thereby

Yesterday was a red letter day for the Lower Okanagan and Okanagan Falls.

The occasion was the initial trip of the new C. P. R. steamer Kaleden which has recently been built at Okanagan Landing to run the Okanagan river and Dog Lake or Lake Skaha, in making regular trips between Penticton and Okanagan Falls.

Sixty passengers were on board for the initial trip and everyone had a good time, realizing the importance of the event which is to cut out so many miles of weary staging and offers one of the most delightful inland trips to be found anywhere in the district.

**TO PADDLE 600 MILES**

Earl Grey Will Rough it on Way to  
Hudson Bay

Ottawa, July 26d.—Not only will Earl Grey be the first Governor-General of Canada to make the rugged overland trip across the country to Hudson Bay, but if the plans which are now being made at the mounted police department do not miscarry, he will probably achieve the distinction of making the trip in record time. Earl Grey will leave here on August 3 and is timed to arrive in Fort Churchill on August 15. The entire distance to be covered is about 2,240 miles, of which about 600 miles will be made by canoe and portage, the first stretch of 1,640 miles being covered by rail.

**PREVENTATIVE FOR  
TUBERCULOSIS**

Reported Discovery by the Pennsylvania  
State Board of Health

Pittsburg, Pa., July 23.—Announcement by Dr. S. G. Dixon, state commissioner, of health, that the board has discovered a preventive for tuberculosis which may soon be used as a complete specific is to-day causing much discussion in medical circles.

The discovery, Dr. Dixon says, has proved itself an absolute preventive. He thinks it will be equally efficient as a cure.

The nature of the discovery will be announced shortly, according to Dr. Dixon.

**WILL JACK BLOW IT IN?**

The Colonel Hazards a Prophecy That  
He Will

(Greenwood Ledge.)

Jack Johnson, the black giant of the fist arena is good to his mother, and that quality alone will cover a multitude of sins. He is also good to his friends, and it is a safe bet that he will be broke in a year or two. The public will give him the glad hand, and load the dice when the crap game opens. While his money lasts Johnson will be petted like a poodle dog in a ladies' seminary, but when it is gone he will loom up like a dark deuce in a cent belt poker game.

**MISS CANADA IS BELLE**

Earl Grey Tells Investors That Canada  
Should be Their Partner at  
Financial Ball

London, July 16.—Speaking at Liverpool prior to his departure yesterday for Canada, His Excellency Earl Grey said Canada was the "belle of the ball." He advises investors to make sure that they were dancing with this partner and they will get the best dance of their lives.

**CINCHING THE CUP**

Salmonbellies Win Second of Series with  
Decisive Victory

The second match between the Westminsters and Montreals for the Minto cup lacrosse trophy was played off on Saturday last at New Westminster and resulted in a most decisive victory for the cupholders by a score of 15 goals to 5. In the two matches the scores stood 25 goals to 9 in favor of Westminister.

**B. C. FRUIT AT WINNIPEG**  
Exhibit There Attracting Much Attention

Victoria, July 21.—A special preliminary report has just been received at the provincial department of agriculture from Mr. Bullock-Webster, in charge of the British Columbia government's exhibit, chiefly of fruits, timber and fish of this province, at the Winnipeg exhibition, which opened on Wednesday last. The fruit display from this province which is of course being featured is a composite collection from some thirty growers, thoroughly representative of all sections of the province. It reached the Manitoba capital, Mr. Webster reports, in excellent condition, and is attracting much attention, being repeatedly declared by visitors, who crowd the stall constantly, to be the superlatively good exhibit of the show. The federal premier, Sir Wilfrid Laurier, was among the recent visitors and spoke in terms of high appreciation both of the fruit and its staging as an exhibit, also accepting samples.

**HEAT INTENSE**

At the time of Mr. Bullock-Webster's writing the heat at Winnipeg was intense.

**A POINT OF LAW**

(Ledge)  
Recently Dr. Simmons did some dental work for Mrs. C. F. Stock and charged her \$60. Mr. Stork claimed that the price was extortionate, and sent the dentist a cheque for \$60. Upon the face of the cheque he wrote that it was in full for dental work up to date. Simmons cashed the cheque for \$60 and sued Stork for the balance of \$0. The case was tried before W. G. McMynn and a verdict given for the plaintiff. Mr. Stork appealed the case and it will come before the county court in September.

**GENERAL NEWS**

Late reports from the Midway coal mine state that the seam has widened out to over seven feet, and is of good quality. Experimental work has proved this coal excellent for steaming and for coke.

The Canadian counsel John S. Ewart ably presented Canada's case at the Hague.

The British railwaymen's strike has collapsed.

The C. P. R. and their men have come to terms and all danger of strike for the present has been varied off. In the compromise the men have made substantial gains.

Ten artillerymen were killed at Fort Monroe, Va. by the bursting of a 12 inch gun.

King George's coronation day has been fixed for June 22nd, 1911.

The Interstate Commerce Commission has been asked to assume control of Alaska railways and transportation companies and compel them to file tariffs.

The C. P. R. is stringing a copper telegraph wire from Calgary to Nelson.

An auto service has been inaugurated between Merrit and Princeton.

The salmon catch to date is light on the Fraser.

Dual language will obtain in the official direction of affairs in South Africa as we have in Canada.

Twenty pedigreed Anglo-Nubian goats are being shipped from England to Nelson to solve the milk problem for the Kootenay small rancher.

Grand Forks has had a large addition to its Doukhobour population, the greater number of whom are women.

E. H. Heaps' lumber mills at Ruskim were destroyed by fire; loss \$50,000.

The Grand Trunk freight department is seriously crippled by the strike now on.

The Canadian Northern are going to build into the Okanagan from Kamloops.

A mountain in the Cascades heretofore unnamed although rising to a height of 10,000 feet is to be named Mt. Tatlow, if the Dominion geographical Board will agree to ratify it.

**Similkameen Advertiser.**  
 and  
**Similkameen Advertiser.**  
 Issued on Thursdays, by the HEDLEY GAZETTE  
 PRINTING AND PUBLISHING COMPANY,  
 LIMITED, at Hedley, B. C.

**Subscriptions in Advance**  
 Per Year.....\$2.00

**EDITORIAL COMMENTS**

The cause of church union between the Presbyterian, Methodist and Congregational bodies lost a strong champion in the death of the late Dr. Sutherland of the Methodist church who had for years been the able and zealous director of the church's missionary effort. It was in that capacity the folly of the various churches in running opposition shows was brought home to him as it has been to all of us who have had an opportunity of seeing here on the frontier the working out of a system founded too largely on the absurdity of maintaining sectarian shibboleths regardless of the cost in waste of men and substance. Dr. Sutherland was from the very inception of the union movement to be found in the forefront, and it is generally conceded that the basis of union drawn up and agreed to by the various members of the committee appointed from the various bodies for that purpose was largely his work. That it was on broad lines and eminently just and liberal is evident to any one who will bring a fair and open mind to its perusal. What plan the various churches will adopt in dealing with it we do not know, but we understand that with the presbyterians it will first come before the synods, then the presbyteries and finally to the congregations for a popular vote. Back in the east where they have little opportunity of knowing the extent to which sectarianism is hampering mission work it may be possible that some congregations influenced by blind sectarian prejudice may vote it down but here in the west we are very much mistaken if union does not receive an overwhelmingly favorable vote from the congregations.

**AN INEFFICIENT STAFF**

At intervals in the past there has been a tendency to agitate for the appointment of a Canadian to the command of the Canadian forces, but the recent report by General French on the Canadian military situation will show how wise the people were in deciding to go slow and consider well the effect of such a change before carrying the agitation too far. So far as the men were concerned General French was well enough pleased with the troops he saw in the

brigade camps, and particularly so with the cavalry and artillery, but the one weak spot upon which he placed his finger was the staff which he pronounced "ignorant of the first principles of strategical distribution of the forces." Whether he intended his criticism to include the Imperial army officer at present in command of the Canadian forces, is not known but it is presumed that he did, for if that officer is qualified to see to the matter of strategical distribution it would also be up to him to see that his staff were not lacking in such knowledge. It is fortunate indeed that the makers of the Dominion did their work as well as they did when the British North America Act was framed and the command of the forces was placed in Downing Street. Had those old framers of the Act been able to see ahead and known the extent to which the force could become deteriorated as the result of political favoritism they would have been more explicit and placed certain restrictions upon the administration in its control of military expenditures and military appointments. The time is ripe for a broad comprehensive scheme for re-organization of the entire military forces of the empire, and the time to do it is now when there is available a man like Kitchener to undertake it. General French's report came in the very nick of time and when read in connection with naval expert Mahan's criticisms of the British and Colonial naval units and their relation to each other, should show every patriotic Canadian who has the interest and integrity of the empire at heart, the necessity of giving capable men a free hand to evolve and perfect a proper working scheme to secure absolute unity of action and complete cohesion that will enable a united front to be presented to any foe which may assail the empire at any point.

**Social Events**

Mr. Browning (pompously)—"This is a great day for us at home. My daughter comes out to-night."  
 Mrs. Diggle (surprised)—"You don't say so, mister? So does my husband; 'e's been in for a month."

**WATER ACT 1909**

BY direction of the Board of Investigation notice is hereby given that the Board will proceed to adjudicate upon claims to water on the following streams and tributaries thereto in the Similkameen and Osoyoos Water Districts, under authority of Part three of the Water Act, 1909.

Entries close August 1st. Write for information to JAS. ROY, Manager and Secretary, Vancouver Exhibition Association

**COPPER**

The New Edition of the **COPPER HANDBOOK.**  
 Vol. VIII, issued May, 1909, contains 1500 pages, with nearly 50 per cent. more matter than the preceding edition. The chapters with many descriptions and on statistics have been carefully revised and the bulk of the matter therein is **ENTIRELY NEW.**  
 There are 25 chapters. **COVERING:** Copper: History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports, Exports, Finances, Dividends, etc. The Copper Handbook is concededly the **WORLD'S STANDARD REFERENCE BOOK ON COPPER.**  
 The Copper Handbook contains, in this new and greatly enlarged edition, about 50 per cent. more matter than the Bible—though not necessarily a better book because of its greater bulk. It is filled with FACTS of vital importance to **THE INVESTOR, THE SPECULATOR, THE METALLURGIST, THE CONSUMER, THE MINER.**  
**PRICE:** \$5.00 in buckram with gilt top, or \$7.50 in full library morocco.  
**TERMS:** The most liberal. Send no money, but order the book sent you, all carriage charges prepaid, on one week's approval, to be returned if unsatisfactory, or paid for if it suits. Can you afford not to see the book and judge for yourself of its value to you?  
**WRITE NOW** to the editor and publisher.  
**HORACE J. STEVENS**  
 64 SHELDON BUILDING, HOUGHTON, MICH., U. S. A.

**NOTICE**

Water-users are requested to exercise all possible care to prevent waste of Water at their taps. Carelessness in this matter may be the means of depriving the hospital of a continuous supply.

**Town and District.**

Dr. Simmons, dentist, came in last week on a professional visit.

Geo. Cawston went out last Saturday on route for the Boundary on a business trip.

F. Fulcher who has been clerk at the city drug store since last fall left on Monday for Chicago.

Mrs. S. P. French, of Vernon, is visiting her son, F. H. French, coming in from Summerland on Tuesday.

Government agent, Hugh Hunter, of Princeton, was in town this week on official business, going back to Princeton by Tuesday's train.

Rev. A. H. Cameron is taking advantage of the Anglican service in Keremeos on Sunday next to visit friends in Grand Forks and Spokane.

R. L. Cawston, one of the greatest cattle-men the Similkameen ever saw, paid Hedley a visit last Thursday for a few hours between trains, to see his brother.

W. A. Scott, representing the Mining and Scientific Press, of San Francisco, was in town last week and spent a day around the Nickel Plate mine and works.

The two hardest points in Canada to which to get newspaper mail to go regularly appear to be Fort George, B. C. and the office of A. McKim & Co., Montreal.

Work on the new road to the depot is progressing under the direction of foreman Harry Rose. A fill is being made along Scott Avenue to the south of Haynes St.

Coal has been struck at Bergen on the V. V. & E., near Myncaster. It is claimed to be of good coking variety. Geo. W. Rumberger, of Phoenix, is one of the owners.

Thursday's rain did a lot of good both to field crops and gardens and in putting out forest fires. The water situation on Twenty-mile was also helped out considerably by it.

Start right, continue right and finish right and you will be all right. That's what an Estime cigar does because it's clear Havana and good all through—Rolls of Hedley has them.

Mrs. S. L. Smith was taken to the hospital last week with a bad attack of eczema and on Monday, by the doctor's advice, she was taken to the coast where change of climate was thought might prove beneficial. Her husband accompanied her to the coast.

Bull-dog Brown has a natural refrigerator plant over at his place across the river, the tunnel which was run into the bank by the construction crews and cut a solid wall of ice that had been covered by talus from the steep mountain side, is still retaining this summer the ice formed last winter at its mouth.

Business men having freight shipments coming from eastern houses are experiencing some difficulty getting their goods through at present. The Grand Trunk freight business is pretty badly tied up with the freight-handlers' strike and the Great Northern gets most of its freight consignments from the east through the Grand Trunk.

Hedley golfers had a pleasant afternoon's sport on Saturday last when a series of foursomes was played on the local links. H. A. Hincks and Miss Williams beat F. H. French and Miss Emily Jackson, the scores after deduction of the handicaps being 33 to 46; A. Megraw and Mrs. Jones beat Mr. and Mrs. Hamilton, scores 37 to 41; L. C. Rolls and Mrs. Rotherham beat Mr. Cameron and Mrs. Jamieson, scores 39 to 52.

The editor of the Gazette was pleasantly surprised to learn of the presence at Princeton of an old friend, John George, of Port Elgin, Ont., who is up there investigating the possibilities of a Portland cement deposit. It is now many years since we last met him and should be glad to throw in his lot with the coal town, we congratulate Princeton on securing a citizen of his sturdy manliness and progressive spirit.

Mr. M. K. Rodgers came in on Sunday on a special. He happened to be in Spokane and took occasion to run up to Hedley to see Mrs. Rodgers and the family who have been staying here for the past three weeks. This week he went over the works and paid a visit to the mine where it is needless to say he was gratified with the showings. For the first time since he gave up the management in 1905 there is to be seen intelligent planning for the future, and it must be satisfactory for him to note in the work of improvements under way that his views of five years ago are shared to a considerable extent by the present regime.

The report was accurate that the Bank of Montreal and Bank of Hamilton were each opening branches in Princeton. They were so reported in the financial agencies, and last week's Princeton Herald announced that they had each opened out on Wednesday, July 20th.

Hedley is in the field again for Labor Day Celebration on Monday and Tuesday Sept. 5th and 6th. Keep that date clear. Committees are now at work making full arrangements. New features to be introduced will be a machine drilling contest and a tug-of-war while a big baseball tournament will also be held. The Orville band are being secured for the occasion and special train accommodation is being arranged for with the railway. Programmes later.

The diminution in the water supply of Twenty-mile had become so marked before the heavy rain of Thursday that it was found advisable to turn on the steam on the big compressor, but the rain made so great an improvement that it was found the flume could still give the necessary amount of power and the steam connections were taken off again. It takes a very short time to make the change, and hence a feeling of independence exists now that was altogether unknown before.

A painful accident happened on Tuesday evening to an Indian boy, Albert Donnell, son of Donnell, of the Bromley reservation. In driving into town from the south, a wheel came off and the horses ran away throwing him out. He was badly shaken up and was carried over to the hospital, but Dr. McEwen happened to be out of town. The team was unable to get clear of the rig and made a wicked runaway past the great Northern, and finally got tangled up among some trees off Haynes St. The injured boy was taken home next day, and no serious results are anticipated.

**BORN**

On Friday, July 22nd, 1910, to Mr. and Mrs. F. H. French, a son.  
In Princeton, July 15th, to Mr. and Mrs. R. H. Carmichael, a daughter.

**DER KAISER, TET UND GOTT**

This clever skit is an adaptation of the once noted lampoon "Meinself und Gott" written by a Montreal journalist and when recited by Capt Coghlan, of the American Navy, at a banquet, threatened to precipitate war between Germany and the United States.

Der Kaiser of this Vaterland  
Und Roosevelt all dings command—  
Ve two und Gott, you understand—  
Myself—und Tet.

It used to be yust Gott und me,  
Yet Tet he come to make it dree,  
Und Gott don't count much latterly—  
Yust me—und Tet.

Yust me und Tet mit power divine  
To keep de rest of dem in line—  
In bease und var to give der sign—  
Und somedimes—Gott.

Myself und Tet dor same as pens—  
Der same mit Gott, if you shall please  
Der same in yar, der same in bease—  
Myself—mit Tet.

Der eastern hemisphere for me—  
For Tet der one across the sea—  
For Got der sky, ve vill agree—  
Myself—und Tet.

A health to me—a health to Tet,  
Und one for Gott already yet—  
Vun Holy Trinity, you bet—  
Ve two—und Gott.

**METEOROLOGICAL.**

The following are the readings showing temperature, etc., for the week ending July 23, 1910:

AT THE MINE.		
	Maximum	Minimum

**PRICES VERY MODERATE**  
**J. A. SCHUBERT, HEDLEY.**

# THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen----Famed for Fruit Growing

## Town and Lower Valley.

Constable Nigel Ewart of Princeton was in town over Sunday.

Church of England service will be held here on Sunday next, 21st inst., by Rev. J. A. Cleland, of Pentiction, morning and evening.

The next meeting of St. John's Church Guild will be held on August 4th at the home of Mrs. W. Mattice. All members of the Guild are kindly requested to attend.

Large two-color posters are out announcing a big base-ball tournament at Oroville on August 7th, 8th and 9th. \$300 is offered in prizes for the winning teams. Those billed to take part are Princeton, Oroville, Concoully, Grand Forks, Republic, Okanagan and Omak.

Brother Wright of the Similkameen Star claims that the stork has been making his roost in Princeton lately. That probably explains his frequent flights into the lower valley during the last few weeks. On his last visit, Saturday 23rd inst., he left a fine baby boy at the residence of Mr. and Mrs. George Tickle.

Mrs. Gillespie, Mrs. McEwen and Miss Smitheram, of Hedley, visited friends in this district over Sunday. Dr. McEwen was called here on Saturday and expected to remain over Sunday but an urgent call necessitated his returning to Hedley on horseback early Sunday morning.

J. J. Armstrong made a trip through the boundary country last week with a view to securing a market for Keremeos fruit. He returned home on Saturday and reported having been entirely successful. Grand Forks and Phoenix have contracted to take all the peaches we have to spare and later on arrangements will be made for shipping tomatoes and other fruits.

The dago, who sustained the murderous assault with a razor in the hands of a countryman at Princeton some time ago passed through here on Friday on his way to Kamloops to attend the trial and give evidence against his assailant. Except for the livid scar around his neck he appeared none the worse for his horrible experience.

G. E. Emery arrived in Keremeos on Monday to relieve L. A. King, G. N. agent, who leaves this week for Hillyard where he has been fortunate in securing a position as cashier for the company and where he will be able to enjoy the society of his family from whom he has been separated since he came to Keremeos. We regret the departure of our old friend and shall miss his happy humor but we wish him chunks of success in his new home and may he find his environment to his entire satisfaction.

W. J. Stover has disposed of his property the east part of lot 29, to Geo. B. Clarke. He finds the work a little too strenuous for a man of over three score years and ten and, incidentally, has grown tired of "backing." He will return to his old home and friends in Wyoming, and we trust that among the old associates he will find life more congenial. The lot which he has sold to Mr. Clark will doubtless prove a money-maker during the coming years. The trees are in fine condition and the majority loaded with as fine fruit as we have seen--their first crop of any account.

Mr. W. M. Frith, collector of customs, for Keremeos, has received the pleasing information that his request for an assistant has been granted and that Mr. Grigor, of Rosslund, will arrive shortly and assist him, pending future arrangements. Ever since preparations for track-laying above this place commenced, a year and a half ago, customs' work at this outpost has been very heavy and it was only by working long hours that Mr. Frith could get through what was required of him. The extension of the steel to Hedley and Princeton has materially increased the importations from across the line. Figures show that during the last year and a half the duty collected at this outpost more than exceeds the total amount collected by all the other outposts under the port of Greenwood combined. This includes Osoyoos, Bridesville, Myncester, Midway and Greenwood.

An item, of which we had no knowledge, appeared in the Keremeos news last week stating that the Eastern Townships Bank was opening a branch office at Pentiction. This is not correct. Mr. Lawson, manager of the Keremeos bank was in Pentiction last week but he states that the E. T. is not opening a branch there. With three already in the field there does not appear to be any shortage. (A careful examination of last week's notes failed to show the presence of the item referred to. A "two-liner" to the effect that the Bank of Hamilton was opening up in Pentiction, managed inadvertently to find its way into the column through the exigencies of the make-up, but beyond that the luckless typos are apparently innocent this time.—ED.)

Prospects for a better sample of apples were never better in the Similkameen than they are this year and it is pleasing to note that owners of bearing orchards here are taking a good deal of interest in the national apple show to be held in Vancouver this fall and doing what they can towards securing an exhibit which will be worthy of the valley. The generous offer of Mr. W. H. Armstrong, of Vancouver, president of the Keremeos Land Co., to stand all expense in connection with assembling and placing the display on exhibition, is one that our ranchers and orchardists should show their appreciation of by doing their very utmost to secure the very best samples possible. An exhibition of this kind, supplemented by our board of trade with advertising matter of which we have a generous supply, will be a most effective advertisement to the valley. That the management of the apple show fully appreciate the splendid offer made by Mr. Armstrong (of which they first learned through the Keremeos items to the Hedley Gazette) is evidenced by an article in the Vancouver World of the 15th inst. and by a warm note of appreciation from the secretary.

**It Made a Difference**  
William B. Ridgely, former Controller of the Currency, said of a certain speculator recently:  
"The man is as ingenious as a horse trader's son who was once unexpectedly called upon by his father to mount a horse and exhibit its paces.  
"As he mounted he leaned towards his father and said:  
"Are you buying or selling?"

**Vocal Vases.**  
The ancient Peruvians must have understood something of the laws of atmospheric pressure, else how could they have constructed some of the very curious jars and vases they left behind them? One of these pieces of pottery was ornamented with the figures of two monkeys, and when water was poured into or out of the vessel sounds like the screeching of monkeys were heard. Another similar vessel had the figure of a bird, which uttered appropriate notes; another was ornamented with a cat which mewed, and another with snakes which hissed. A most ingenious water jar bore the form of an aged woman, upon whose cheeks tears were seen to trickle, while sobbing were heard, when water was poured from the jar.

**Satisfied With Her Work.**  
It was noticed that the woman devoted many more hours to mirror gazing than formerly. "I can't tell," she said, with dreamy satisfaction, "how many times I have caught people, especially women, snapping at me recently."  
"I shouldn't be so puffed up about it if I were you," said the brute of a man. "It wasn't your good looks that attracted them. They were taking pictures of your dresses, so they could copy the best points in their own clothes."  
"In that case," said the woman after a moment's visible disappointment, "I feel more highly complimented than if they had photographed me. Nature is responsible for me, but I designed my clothes myself."

**Ancient High Buildings.**  
In the Rome of the Caesars trouble was experienced with high buildings. A law was passed restricting the height of fronts to sixty feet. In order to evade it builders adopted the practice of carrying up the rear portion several stories more. Other laws bearing on the heights of buildings were passed in olden times. There was a tendency to diminish the height of stories as the buildings increased in size, and a height of 130 feet was probably attained. It is believed that the ceilings were so low that a man could not stand upright in the rooms.
