## PRESERVE THE FORESTS

Novel Method of Impressing on the Public the Necessity of Protecting B. C. Forests from Fire

An interesting departure has been made under the direction of the Hon. W. R. Ross to make our people realize the great importance of the lumber industry and the necessity of protecting the forest resources of British Columbia from damage by fire.

Moving pictures have nowadays an educational power only second to that of the press itself. Hence last year a number of the motion picture theatres in the Province were supplied with a set of slides to be used in the intervals between the ordinary films, the pictures bearing the following legends, each supported by a typical forest scene:

"One moment please! While waiting, resolve to be careful with fire in the woods."

"Only six trees (shown in picture) but their manufacture into lumber employed 100 men for one day. Put your fires out."

"\$400,000 reward! Is what the lumber industry of the Pacific North West pays the community daily for labor, supplies, etc. You share it. Be careful with fire in the woods. The road to prosperity lies through the forests; don't burn them up!"

The slides were sent out under instructions from the Minister of Lands with a letter explaining the need for the co-operation of the theatre proprietors in order to reach a large body of the public inaccessible by any other means. The result was entirely satisfactory, both theatres and patrons expressing their appreciation.

This year the idea was extended, every motion picture theatre in British Columbia received a set, the subjects being more direct in their appeals, as is shown by the inscriptions:

(1) "Wage earners and Merchants! The lumber industry already employs over half the wage earners in British Columbia, and distributes over 20 million dollars annually for labor and supplies \* \* \* make it permanent by protecting the forests from fire (view shown of export sawmill with shipping)

(2) "Taxpayers! Forests pay into British Columbia treasury 2 1-2 million dollars annually \* \* \* Prevent fires, and keep your taxes down (logging scene.)"

(3) "Hunters and Fishermen! Green forests afford shelter for game, and clear water for fish \* \* \* Help keep them green (forest guard in canoe on patrol.)"

In utilizing the motion picture theatre on the lines described, a powerful agency has been recognized for reaching the general public. The posters displayed along the roads, and in the neighborhood of logging camps and sawmills are familiar to many, while the woodsmen and other followers of the open air life are reminded of the necessity for care with fire every time they use a forest branch whetstone.

The general public with its plans for holiday camps, picnics and the like, will also be reminded of the fire danger, and will undoubtedly respond as good citizens and shareholders in the prosperity of the Province.

## DESTRUCTION OF WEEDS

Residents Should Do All in Their Power to Eliminate These Pests.

The following paragraph is an excerpt from the "Noxious Weeds Act," and is especially applicable to many of the residents of Hedley:

"3. (1) It shall be the duty of every occupant of land, or, if the land is unoccupied, it shall be the duty of the owner thereof or the accredited agent of such owner resident in the Province, to cut down and burn or effectively destroy all noxious weeds growing on such land, and on every road or highway immediately adjoining such land to a distance or extent of one-half the width of such road or highway nearest to such land, in each year between the first day of April and the first day of November, as often as may be necessary to prevent the ripening and scattering of the seed of noxious weeds."

## MORE HORSES REQUIRED

Heavy Draft Horses and Riding Horses Wanted—Must Be in Good Condition and Broken.

On June 24th, Mr. R. F. Bevan, the Dominion Government remount officer, will be in Hedley for the purpose of buying horses for the Canadian government. Riding and artillery horses from 5 to 10 years old, 15-1 to 16 hands in height, and weighing between 1050 and 1550 pounds are required for overseas service. Bays, browns, blacks, chestnuts, blue roans and red roans are the colors wanted. All horses must be in at least fair condition as to flesh, sound, of good conformation, free from blemish or vice; artillery horses are to be broken to harness, and saddle horses to ride.

Heavy draft horses weighing up to 1550 pounds, suitable for artillery and transport, will be purchased. These must have good shoulders, deep in the girth and back ribs, short backs well ribbed up and active. Horses with white strips in face will not be rejected.

Horses suitable for officers' chargers will also be purchased. These must be solid color, good conformation, well broken, and have good manners; they must be from 15-1 to 16 hands high, and weigh from 1050 to 1250 pounds. Horses must have quality, be free walkers and move straight; neck reined horses preferred.

## TEN YEARS AGO

(From the Hedley Gazette of June 8th, 1905.)

A new 5-ton safe for the Bank of B. N. A. came in yesterday.

Engineer Tracy's gang of Great Northern surveyors are at present camped at J. H. Bronley's.

H. A. Wright will move his shoe shop to a building that is being finished for him south of the Commercial hotel.

Mr. Win. Bryant, "chef de cuisine" at the Commercial has purchased the old Welby ranch from Mr. Studd with the intention of raising prize poultry and market gardening.

The Hedley Lumber Company's drive of saw-logs is now all out of the Tutameen river, but is being held at the mouth of China creek until the weather is a little more settled.

Geo. Sproutle has moved his blacksmith shop into the new building across the street and work is in active progress to convert the hall building into the hotel for Petersons.

The Nicola Herald is a neat publication started at Nicola Lake by J. A. Fraser and will be devoted to the interests of the Nicola district. The Herald is a likely looking candidate for public favor and the Gazette wishes it success.

G. H. Winter of the Bank of B.N.A. who has been in charge of the Hedley branch, left by Monday's stage for Penticton. Mr. Winter made many warm friends during his brief stay here. He is succeeded in the management of the Hedley branch by Mr. L. G. MacHaffie who thus takes a step up, and Mr. J. J. Irwin takes his place as teller.

## MARTIAL LAW IN VIENNA

Owing to Unrest Following Italian Declaration of War Martial Law Is Proclaimed.

Geneva, June 3.—Martial law has been proclaimed in Vienna as a result of the unrest which has followed the Italian declaration of war against Austria.

## GEOLOGISTS AT WORK

Field Operations of the Geological Survey in Western Canada. During the Summer of 1915

Field operations by the Geological Survey will be continued in western Canada during the summer of 1915, and particular attention will be given to our economic resources in minerals, both metallic and non-metallic.

Dr. E. L. Bruce will continue his investigations of the ore deposits of Amisk (Beaver) Lake district in northern Manitoba and Saskatchewan and Mr. A. McLean will complete the mapping of the Pembina Mountain area near the U. S. boundary.

A geological exploration of the Churchill River area from South Indian lake to Hudson bay will be made by Mr. F. J. Alcock.

Mr. Charles Camsell will examine the geology at the east end of Lake Athabaska and look into the reported occurrence of silver at Fond du Lac. The latter part of the season will probably be spent by Mr. Camsell in making an exploration of the region traversed by the Grand Trunk Pacific railway between Fort George and Telkwa.

Mr. S. E. Slipper in addition to completing the geological field work for the special map of the Sheep Creek area, Alberta, will make an investigation of the underground waters of an area in Southern Alberta in the vicinity of Lethbridge, and will continue the collection of boring records in the oil and gas areas.

Further investigations into the coal resources of the western provinces and of the oil prospects will be made by Mr. D. B. Dowling.

Dr. Bruce Rose will study the geology of the Flathead and Crowsnest coal areas mapping the productive coal measures and inquiring into the prospects for oil. An examination will also be made by Mr. F. H. McLean of sections of the Benton, Kootenay, Fernie and Blairmore formations of these areas and fossils will be collected. Mr. J. S. Stewart will also have charge of a party under Dr. Rose's supervision studying the structure of the disturbed belt of the foothills south of the Oldman river.

Dr. S. J. Schofield, after completing the investigation of the silver-lead and zinc deposits of Ainsworth and the geological mapping of the country between Kootenay lake and Cranbrook, will start mapping the geology of the Windermere area.

Mr. O. E. LeRoy will be occupied with work entailed by his appointment as a member of the commission named to investigate the iron resources of Canada. Should time permit the mapping of the Slokan area will be completed.

Dr. C. W. Drysdale will map the Lillooet area on a scale of 2 miles to 1 inch and make an examination of the ore deposits.

Mr. D. J. MacKenzie will study the geology of the Hazelton-Aldermere area paying particular attention to mineral deposits.

A geological examination of an area on Stewart river, Yukon, will be made by Dr. D. D. Cairnce, special examinations being made of the gold-bearing quartz in Dublin lead, McQuestion river, and of silver-lead deposits in the vicinity of Mayo lake.

Dr. E. M. Kindle will carry on stratigraphical and palaeontological investigations in Rocky Mountain park and Mr. E. L. Burling will examine geological sections along the main lines of the Canadian Pacific and Grand Trunk Pacific railways.

Mr. C. H. Sternberg will collect dinosaurian and other reptilian remains from the vicinity of the Canadian portions of Milk river and its tributaries, and will explore this region to locate the most promising areas

## JUST ESCAPED IN TIME

Private A. F. Quinn of 72nd Highlanders Tells How Remnant of Vancouver Battalion Escaped at Ypres.

In a letter to his sister, Miss Florence Quinn, of Vancouver, Private A. F. Quinn of the 72nd Seaforth's gives some vivid details of the fighting in which he was wounded at Ypres. He says in part:

"The first day of the fight I got through without a scratch, although the bullets were humming around me like a swarm of flies and men were dropping beside me. The man I had chummed with for the past six months was killed and a lot of fellows I liked best. The second day we were sent into the trenches to reinforce the Eighth Battalion and I tell you there was nothing slow about the Germans in front of us. I was looking through a loophole in the trench parapet when a shell burst nearly over my head—and whack!—I thought my arm was gone. It felt as if someone had hit me in the arm with a sledgehammer. I had no time to take my coat off, so I one of the boys tie it up tight. The shells were dropping on us pretty thick and hitting some of us nearly every time. About an hour after the first one hit me another piece of shell hit me in the back of the shoulder and it is still in there.

"We all knew that we couldn't hold them back much longer and that we would have to retire or fall into the hands of the Huns. The country behind our trenches was level and open and no reinforcements could get in to us in the daytime because the Germans could cover the whole ground with their artillery and machine guns. "Well, we stuck it until 7:30 and then came the order to retire, and the few that were left started back, and we just started in time, for we hadn't got more than a hundred yards when the Germans were over our trenches in dreds and it seemed as if about ten million bullets were flying around me. One went through the top of my cap, another went into my water bottle, but we didn't mind the bullets; we had got used to them flying around."

for fossil collecting. Mr. Geo. F. Sternberg will collect reptilian remains from the Edmonton formation on Red Deer river. Both of these parties will also make careful search for fossils of primitive mammals.

Topographical work will be carried on at a number of points. Mr. B. R. MacKay will complete the survey of Lake Athabaska; Mr. C. H. Freeman will complete the map of the Sheep Creek section of Alberta; Mr. S. C. McLean will carry on triangulation in coal areas of the Rocky mountains; Mr. D. A. Nichols will make a topographic map of the coal area of Highwood river; Mr. F. S. Falconer will continue the mapping of the district to the north of Revelstoke and Mr. A. G. Haultain will make a topographic map of the Mayo district, Stewart river, Yukon.

Professor John Macoun and James Macoun will conduct botanical investigations on the islands in the Gulf of Georgia and on the east side of Vancouver island.

Mr. T. A. Teit will make ethnological studies among the Athabaskan tribes of northern British Columbia. Mr. Christian Ledon is collecting anthropological specimens among the Eskimos of the west coast of Hudson bay.

Archaeological investigations will be carried on by Mr. H. I. Smith in the vicinity of Fort Fraser and Hazelton on the Grand Trunk Pacific railway and by Mr. W. B. Nickerson in Manitoba.

### WHY?

Up to date the Similkameen Valley has only contributed thirteen recruits for 54th Battalion now being mobilized, and fifty men are expected and required from this district.

This state of affairs is regrettable especially, when other districts have done so well in some places more men have offered and been accepted than were required.

What is the reason? Is it possible that the citizens of this valley are not fully awake to the fact that the liberty and honor of our nation is at stake? We think that there is a great lack of patriotic enthusiasm and that nothing in the shape of meeting or demonstrations have been held to stimulate interest in this our greatest national crisis. "Enlist, young men, enlist!"

### The Conquest of Russia.

Speculations as to prospects of the Austrian advance in Galicia and the investment of Lemberg have little value. We may be sure that if the Teutonic allies can get within some ten miles of Lemberg and can establish and work their siege guns at that distance the city cannot stand. But if we suppose that this objective shall be attained, and that Russian Poland shall be pierced in one or more new places the military advantage would be uncertain. Russia cannot be conquered by invasion and occupation like small and more central countries. The farther Austria and Germany might penetrate into Russia the more troops they would need to hold their gains and the more they would have lost in the struggle. Russia can well afford to lose man for man. She can always raise more men than her enemies, though she may usually be outnumbered at particular points by reason of her inferior mobility. Russia can always find provisions for her troops and may often make it difficult for Austria to feed her armies. If Russia is not equal to the enemy on the offensive she understands defensive tactics as well as any country. Long before an invading Teutonic army can reach a vital part of Russia many regiments, divisions and

army corps will have been worn to skeletons, and many will have been caught at a disadvantage and cut off altogether.—New-Advertiser.

### NEED COMPULSION IN FACTORY MORE THAN FOR ARMY

Compulsory service, military or civil, is foreign to British ideas but between a form of conscription and a possibility of incomplete victory over Germany the people of Great Britain would not hesitate one moment. Press and public have made that abundantly clear.

Rt. Hon. David Lloyd George, minister of munitions, has explained the position. The war office has as many recruits as it can keep supplied with munitions. At this stage of the war compulsory civil service is therefore more probable of early realization than compulsory military service.

That Great Britain should have more soldiers than it can keep equipped is not surprising.

Most men would rather fight the enemy face to face in trenches than indirectly in the shell foundries or supply factories. Every British subject want to help the Empire in its time of trial and that the realization of the supreme military importance of the work in the factories should come after that of the need for a large army in the field is only natural.

It may, therefore, happen that a campaign of education into the need for compulsory employment in munition works would be more necessary than similar action concerning military service.—Nelson News.

Since the war began the United States has exported \$900,000,000 more goods than it has purchased from foreign countries. Such a favorable trade balance would not have been possible if the United States had not fostered its industries by a strong fiscal policy.

Someone has thought it advisable to figure out that if the children attending public school in the United States were set to work cultivating vacant areas, they would raise \$200,000,000 worth of produce every year, which information is sent abroad with the endorsement of one of the self-styled economists of the day, who adds to it the words, "I believe it." This grave point having been settled, we suggest that some other highly paid expert in a public department in Washington should set himself to work to discover what proportion of the motive power needed to drive the electric railways in the United States could be derived from the utilization of the force exercised by the passengers in chewing gum.

### OFFER IS ACCEPTED

Militia Department Notifies Laval University That It Will Accept Hospital of 1,040 Beds.

Montreal, June 2.—The Faculty of Medicine at Laval University, whose offer for a hospital for Overseas service was rejected last week, the Militia Department stating that there appeared to be sufficient action in that line, has just been notified from Ottawa that the Government will accept a hospital equipment and personnel of 1,040 beds with the following establishment:

Twenty-three medical officers, two quartermasters, two warrant officers, twenty-one staff sergeants, two buglers and seventy-three nursing sisters.

KEREMEOS, B.C.

### Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of not more than one year at an annual rental of \$1 an acre. Not more than 250 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$3 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for. 9-611

### QUICKEST REMEDY EVER SOLD IN HEDLEY

We have never sold anything here in Hedley with the INSTANT action of the simple mixture of buckthorn bark, glycerine, etc., known as Adler-i-ka. This remedy, used successfully for appendicitis, is so quick and powerful that ONE SPOONFUL relieves almost ANY CASE of constipation, sour or gassy stomach. Adler-i-ka acts on BOTH lower and upper bowel and it is the most THOROUGH bowel cleanser we ever saw. F. M. Gillespie, druggist.

**TOWN AND DISTRICT**

A Dominion Express office has been opened in Princeton.

Mrs. W. J. Forbes entertained the Girls' Sewing Club on Wednesday afternoon.

Trains will be running daily between Oroville and Princeton, commencing July 1st.

F. J. Parsons, of the Swift-Canadian Company, was in town on Tuesday afternoon.

The hour of church services in Hedley has been changed from 7:30 to 8:00 p. m. for the summer months.

S. G. McClelland, representing Smith, Davidson & Wright, Vancouver, was in Hedley yesterday.

Word reached Hedley on Saturday that Sid Edwards, who left here some time ago for the front, is on the list of the missing.

We are pleased to be able to report the success of Miss Marjory Smith at her recent musical examination at Pen-ticton on June 4th, when she passed with high honors.

Mrs. J. Jamieson, of Nanaimo, arrived last week on a visit of several weeks duration with her mother, Mrs. Knowles, sr. She is accompanied by her little girl.

Divine service will be conducted in the church on Sunday, June 13th, at 8 p. m. Subject, "The True and Living Way." A hearty invitation is extended to all. Preacher, R. G. Stewart.

Mr. G. P. Jones and Dr. McEwen left on Tuesday afternoon by auto for Greenwood to attend a sitting of the Court of Assize to be held there today. They were accompanied by Mrs. G. P. Jones and Mr. and Mrs. W. Sampson.

The June competition for the Golf Club's monthly medal will take place on Thursday, Friday and Saturday, the 10th, 11th and 12th inst., and it is hoped that there will be a full turnout of members. Particulars re the handicaps will be posted at the first teeing-ground.

"Rough on Rats" clears out Rats, Mice, etc. Don't die in the House. 15c. and 25c. at Drug and Country Stores.

**KEREMEOS ITEMS**

A social tea will be given at the home of Mrs. E. M. Daly on the afternoon and evening of the 18th of June, from 3 to 6 and 7 to 10. Everyone is cordially invited. The collection received will be given to the War Relief Fund.

From the 25th of May to the 4th of June, in the afternoons, lessons in cooking were given to the Similkameen Women's Institute in Keremeos, by Miss Livingstone, cookery demonstrator, which were both a benefit and a pleasure. Her cheerful readiness of reply to each and every question won the respect and admiration of the attendants. The number of members enrolled is fifty. The average attendance was thirty, which was very good owing to the long distance some of our members had to come.

**JULY FIRST AT PENTICTON**

Fine List of Events Has Been Prepared by the Penticton Turf Club.

(Penticton Herald.)

The programme of races and events for the Dominion Day celebration at the fair grounds here on July 1 was arranged at an executive meeting of the Penticton Turf Club last Wednesday night. The races will comprise the following: Free for all, trot or pace, three heats in five, purse \$300; 2.25 or 2.30 trot or pace, three in five, purse \$250; half mile running race, three in five, purse \$100; pony race, 1-2 mile heats, two in three, purse \$75.

If these events are run off in straight heats there will be 11 heats, which will give a nice programme of races, lasting from one o'clock until five. It is quite likely that there will be more than 11 heats, however, as at least one

or two of the events will not be finished in straight heats.

The "Monarchs of the Air," a comedy attraction, will give three separate and distinct turns during the afternoon of twenty minutes each, comprising trapeze work, comedy barrel stunts and Roman ring.

**DENTAL CORPS MOBILIZES**

Ottawa, June 5.—Orders have been sent out by the militia department that the last men of the dental corps of the Canadian expeditionary force which is composed of dental surgeons from all parts of the country, will mobilize in Ottawa not later than next Monday. Many officers have already reported.

**HEDLEY MEAT MARKET . . . .**

The reputation of this house for good printing has been established through accuracy and attention to the little details. Send your printing here and we will do it right.

**The Hedley Gazette**

HEDLEY, B. C.

PROVINCIAL AND GENERAL

A. H. Knight, brother of Mrs. Andras, of Princeton, was killed in action in the battle of Ypres.

Grant, Smith & Co., contractors, are suing the Kettle Valley Railway for \$600,000.00, which they claim is due for work done on that road.

As a result of a raffle and subscription fund held on the Niagara on her last trip from Australia, Mr. J. H. Lowry has been able to hand the sum of £110 2s to Mr. J. Whitehead, Belgian Consul, for the Belgian Relief Fund.

Dominion government returns for April show a further increase in bank deposits of approximately twenty-three million dollars. The amount on deposit in Canadian bank at the end of the month was considerably over one billion dollars.

Frederic Keffer and Henry Johns have gone into partnership and have an office at No. 214 Hulton Building, Spokane, Wash. They will conduct a general mining business, particularly as regards the examination, reports upon and the management of mining properties.

Henry Bahrs returned from an eastern trip on mining business last week. He has succeeded in interesting people in mining properties in this locality, who are willing to invest, if the report of an expert, who will examine the property is favorable. Too often when men believing in the country induce outsiders to come here to look over opportunities for investment some knocker bobs up and spoils the deal. It is to be hoped that in this instance the arrivals will be permitted to use their own judgment without officious interference. If you cannot boost go dumb, and let the fellow with the get up to do something for the country, have clear sailing.—Oroville Gazette.

AN INTERESTING ISSUE

"The Glittering Lure" is the title given by Bonnycastle Dale to a story of before-the-season fishing in the opening pages of the June Rod and Gun which is published at Woodstock, Ont. by W. J. Taylor, Limited. "Honest Weight" is an amusing tale of two rival fishermen as related by one of the French Canadian guides who accompanied them on their outing after "de beeg wan." "Three Swedes there were" is also a humorous story relating the experiences of a "vulgar, rambling trio," showing how everything turns to ashes to those without a purpose. "Sport in and around the Rocky Mountains," "Carefree Days in Newfoundland," etc., and the regular departments which latter are full of interest to the fisherman and gunner, make up a very interesting early summer issue.

RULE BRITANNIA!

When Britain first at Heaven's command,  
Arose from out the azure main,  
This was the charter, the charter of the land,  
And guardian Angels sung this strain:  
"Rule Britannia! Britannia rules the waves,  
Britons never shall be slaves."

CHORUS:—  
Rule Britannia! Britannia rules the waves;  
Britons never shall be slaves.

The nations not so blest as thee,  
Must in their turn to tyrants fall;  
While thou shalt flourish, shalt flourish great and free,  
The dread and envy of them all.  
"Rule Britannia! Britannia rules the waves,  
Britons never shall be slaves."

Still more majestic shalt thou rise,  
More dreadful from each foreign stroke,  
As the loud blast, that tears the skies,  
Serves but to root thy native oak.  
"Rule Britannia, etc."

The Muses, still with freedom found,  
Shall to thy happy coast repair,  
Blest isle! with matchless beauty crown'd,  
And manly hearts to guard the fair.  
"Rule Britannia, etc."

CASH  
DIVIDENDS  
ON GOODS  
YOU BUY

By HOLLAND.

SOONER good, doesn't it? And the best of it is it is true. These cash dividends are paid on every dollar you spend, provided you spend wisely and buy goods that the maker believes in so strongly that he advertises them.

Advertised goods are not always the cheapest so far as the amount asked for them is concerned. But they are INVARIABLY THE BEST. And this makes them cheapest when all things are considered.

When you buy for the same money a better article than you have been buying you get a cash dividend on your purchase. When you pay less for an article of the same quality you get a cash dividend.

THESE DIVIDENDS ARE PAID TO THE READERS OF ADVERTISEMENTS IN THIS PAPER.

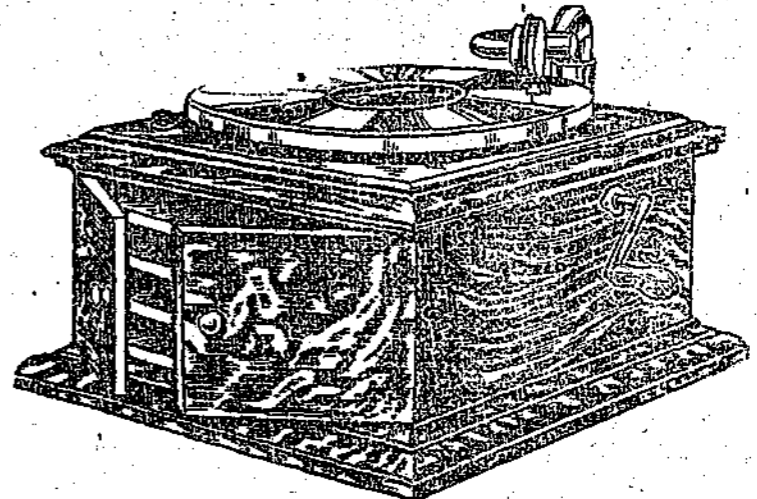

Variety

is the spice of life, so they say, and it's the spice of music as well.

With a Victrola in your home your music is not confined to one instrument or one voice—you have an unlimited variety of music, not only every musical instrument played by the master musicians of the world, but the human voice—the voices of the world's greatest singers.

Here are a few of the favorite selections by great artists whom you can hear only on the Victrola with Victor Records:

- Tales of Hoffman—Barcarolle Alma Gluck—Louise Homer—87202
- Lucia—Sextette  
Caruso, Tetrizzini, Amato, Journet, Jacoby, Sada—96201
- Trovatore—Miserere  
Caruso and Alda—89030
- A Perfect Day  
Evan Williams—64305
- I Hear You Calling Me  
John McCormack—64120
- Good-Bye (Tosti)  
Melba—39065
- Ave Maria (Schubert)  
McCormack-Kreisler—83484
- Humoresque (Dvorak) (Violin)  
Mitscha Elman—74763
- Thais—Meditation (Violin)  
Fritz Kreisler—74182
- Handel's Sixth Sonata (Viola)  
Jan Kubelik—74369
- Traumerei (Schumann) (Violin)  
Maud Powell—64134
- The Swan (Le Cygne) (Saint-Saens)  
Efrem Zimbalist—74338
- Valse Brillante (Chopin) (Piano)  
I. J. Paderewski—88322
- Funeral March (Chopin) (Piano)  
V. DePachmann—74304
- Simple Aveu (Thome) (Cello)  
Victor Herbert—74300
- Hearts and Flowers—Intermezzo  
Victor Concert Orch. } 35344
