PAY SECOND DIVIDEND

Hedley Gold Mining Company Declares Usual 5%.

ORE RESERVES INCREASE

Amount Disbursed for the Quarter Is \$60,000—Regular Dividend of 3 Per Cent and Bonus of 2 Per Cent—Total Since 1909 Is \$981,000.

For the second time in 1913, the Hedley Gold Mining Company is distributing profits from its mining and milling operations at the Nickel Plate property at Hedley. This is the second dividend of the year, and provides for the distribution of \$60,000, being the regular quarterly 3% and an additional bonus of 2% on the capital stock. The total paid in dividends by this company since they acquired the property in August 1909 is now \$981,000, and if the present rate is continued, the million mark will be passed by a goodly amount by the payment of one more dividend.

Development work has more than kept pace with the mining of the ore required to pay these dividends. The reserves have been steadily increased, until it is now estimated that fully 23,000 tons of broken ore are in the stopes, ready to be sent down the tram. With the better facilities that have now been provided by the No. 4 tunnel for the handling of ore, and the new Dickson incline shaft, which will soon be a factor in more economical hoisting, the cost of mining should be materially decreased, and the future of the Nickel Plate as a dividend payer is decidedly rosy.

The official announcement of the dividend is as follows:

HEDLEY GOLD MINING COMPANY
42 Broadway
New York, June 11, 1913

A quarterly dividend of three per cent (3%) and an additional dividend of two per cent (2%) has this day been declared on the outstanding capital stock of this Company, payable on Monday, June 20th, 1913 to stockholders of record at 3:00 o'clock p. m., on Monday, June 16th, 1913.

Transfer books will be closed on Monday, June 16th, 1913, at 3:00 p. m. and re-open on Tuesday, July 1st, 1913, at 10:00 o'clock a. m.

Hedley Gold Mining Company
John D. Clarke, Secretary.

FIGHTING JOE GETS BATTY

Joe Martin Demands That Earl Grey Be Imprisoned and Times Suppressed

London, June 10.—If Mr Joseph Martin has his way Earl Grey will be criminally prosecuted for what Mr Martin calls "his seditious letter" in the Times of yesterday. Mr Martin has also given notice of his intention to urge Mr Asquith in the House of Commons on Wednesday, to suppress the Times.

In the letter which so excites Mr Martin's anger, Earl Grey expressed heart-felt sympathy with Ulstermen in their fight against Home Rule and, speaking from his Canadian experience, predicted bloodshed and civil war. Mr Martin's displeasure with Earl Grey is accentuated by the fact that his lordship has been frequently quoted in debate and urging a sympathetic Unionist attitude towards Irish depopulation. Indeed, Mr Asquith, in the House of Commons today, quoted from a speech made by Earl Grey during the debate on the second reading of the Home Rule Bill in the House of Lords.

A new monthly journal, called Industrial Progress, will make its initial appearance this month. It will be descriptive of the industrial development of British Columbia.

A sad accident occurred in Greenwood last week, when John, the eight year old son of Mr. and Mrs. G. A. Rendell, pioneers of the Boundary country, was drowned in a pond. He had gone in bathing alone, and no one witnessed the accident.

DOUBLE SERVICE DELAYED

Okanagan District to Have a Single Daily Service for Some Time.

In view of the fact that the C.P.R. could not complete the proposed new boat for the Okanagan Lake service, provided for in the 1913 estimates, in time to be put into commission this year, it was recently decided by the company to defer putting into operation the proposed double daily service on the Sicamous Okanagan Landing branch for another season. This statement was made by Mr. A. B. Stevens, acting general superintendent of the Pacific division yesterday, when asked as to the company's plans with regard to augmenting the present service on the Okanagan branch.

He pointed out that if the suggested double daily service on the Sicamous railway branch alone had been instituted this season it would have resulted in a slower service for the people living at points along the lake and would have meant making connections with later westbound trains, which would have brought passengers into Vancouver late in the day.

The steamer to be built by the C.P.R. this year for service on the Okanagan Lake will be a sistercraft to the fine, splendidly-appointed vessel recently launched at Nelson for service on the Arrow Lakes, Mr. Stevens stated. When it is constructed there will be two boats each way daily on the lake and two daily trains on the connecting branch.

MINING NOTES

Work has been resumed on the property of the Dividend Lake View Consolidated Company. The Company owns several claims on the west side of Osoyoos Lake, just north of the International boundary. The values are chiefly in gold, and the present plans include the erection of a mill to treat the ores.

A compressor is being installed near the Nighthawk mine, at the town of that name.

The development of the Granby Co's new properties at Hidden Creek by diamond drilling has been very successful, and over 16,000,000 tons of ore have been proven up by this means.

The warmer weather in the Cariboo country has made possible the renewal of operations in the placer mining districts situated there.

The total ore shipments from the Boundary district for 1913 has passed the 900,000 ton mark with last week's output. The Granby mines lead with 572,000 tons, and the Mother Lode was second with 152,000 tons.

The British Columbia Copper Company has a force of 110 men employed at the properties in upper Voigt's Camp, both in diamond drilling and other exploration.

Professor Rees will make an extended investigation of the clays of this region this summer.

A total of 112,000 tons of ore has been shipped this year from the Rossland mines to date, over half of which came from the Centre Star.

Work is going along merrily at Clifton which is the name of the new diamond drilling camp which is exploring the rugged mountain side and canyons to the east of Twenty-mile. Two drills have been at work for a few weeks and it was the intention to start another on Friday last—that was Friday 13th, 1913—just to demonstrate the fact that the mining capabilities of the camp are proof against so colossal a hoodoo as Friday 13th. Mr. Beau has his exploration force well organized, with capable men in charge, and the most favorable results are looked for by the whole camp. For more reasons than one, Hedley takes a kindly interest in the present operations, and best wishes go out for the highest measure of success in the enterprise. A little over four years ago Mr. Beau first arrived on the scene and proved a friend in need, for it is well-known that the camp was then passing through a crisis, the possible outcome of which is not pleasant to contemplate, and had he not come at that particular time, to bring about a change which has shown up the folly of the course being pursued by those in charge, there would have been a very different tale to tell to-day.

HOW IT HAPPENED

Particulars as to Death of Billy Cohen

Some time during Monday night, or early Tuesday morning, Wm. Cohen, a widely known half breed, living at Keremeos, was bucked from his horse near the east end of the railroad tunnel at Rich Bar, about four miles west of Oroville, sustaining injuries from which he subsequently died. Cohen, who visited Oroville quite frequently, was in town Monday, and while here managed in some way that needs looking into to secure considerable liquor. He left for home sometime during the night on horseback. He was discovered at 5 o'clock Tuesday morning by Jas. Duffy, the watchman at the tunnel, lying along side of the railroad embankment, with a gash in his head and bleeding very profusely. At that time Cohen was still bleeding, although unconscious. Duffy placed the body in a more comfortable position, and sent word of the accident into town. It was a long time before Deputy Sheriff Carrel was notified, and when he reached the spot Cohen was dead.

Officer Carrel got into communication with Coroner McCampbell, at Okanagan as soon as possible, and that official came up to Oroville at once. In company with L. W. Barnes and Roadmaster Nelson he repaired to the scene of the accident on a hand car, returning late in the evening with the remains. A thorough examination was made of the body at Mr. Barnes' morgue. The only outward and visible sign of injury was a gash an inch, or an inch and a half, long above and just back of the right ear. The skull was not fractured. The coroner was of the opinion from a superficial examination that the neck was dislocated otherwise it would be difficult to account for death following so soon after the injury. The only things found upon the clothing were a few scraps of paper, evidently well worn receipts, 50 cents in change, the fragments of a small bottle that had evidently contained whiskey, and a quart bottle of whiskey partly consumed.

From the appearance of the ground near where the body was discovered it appeared that the horse commenced bucking on the side hill, and down over the railroad embankment, where the rider was thrown, his head striking a large rock. This was plainly evident from the quantity of blood on the rock. Cohen was a very heavy, stockily built man and must have struck the rock with fearful force. The only wonder is under the circumstances that the skull was not crushed. The coroner did not consider it necessary to put the county to the expense of an inquest, as death was plainly due to pure accident.

The deceased was raised by the late Frank Richter, and lived in and near Keremeos for 40 years. He was married, and is survived by a wife and a number of children, some of whom are grown. He was considered a crack horseman, and it is somewhat strange that the animal was able to unseat him. No doubt liquor was responsible largely for his death, although the rough nature of the country where the horse bucked would make it almost impossible for any kind of a rider, no matter how skillful, to retain his seat. It is stated that the horse is a vicious animal, and some time ago bucked off and killed a brother of Indian Edwards.—Oroville Gazette.

A NEW DIOCESE

We are informed through the by Representative of the Similkameen church who attended synod in Vancouver that it has been finally arranged to make the Kootenay Churches into a separate Diocese having its own Bishop, who will be elected in a short while. The memorial recently presented to Bishop De Pencier by the Church wardens of the Similkameen Churches had to be deferred pending the appointment of the new Bishop. The memorial requests that the Church in the valley be put on a better financial footing, as the present stipend of the clergymen is not a living wage.

Services at Hedley on Sunday 22nd June. 8.00 a.m. early communion, 11 a.m. morning prayer and communion 8 p.m. evening service. All welcome.

CONSERVATION A GREAT WORK

It is a Patriotic Duty All Canadians Owe to Carry it On—All Should Be Members of Association

The Canadian Forestry Association was founded in 1900 to hasten the solution of this great economic problem. Its mission is to organize the ideas and efforts of those who see the necessity for action, and to stimulate those with whom the issue is not yet a burning one.

It publishes the Canadian Forestry Journal, an illustrated monthly devoted to the interests of forest conservation.

It puts inquirers in touch with the best sources of information.

Its officers deliver illustrated lectures.

It holds conventions for the interchange of the latest and best ideas among forestry experts.

The resolutions adopted at its meetings are regarded as an indication of the desires of the Canadian people with regard to forest conservation.

Not a few of the administrative reforms of the past few years are directly traceable to the Association's recommendations.

At the present time it is urging upon the various Governments, timber owners and the public—

(1) The prevention of squatting or settlement on lands chiefly valuable for timber.

(2) The placing of the employees of all forest departments under civil service regulations, by which all appointments and promotions will be upon merit.

(3) The formation of co-operative fire protective associations.

(4) The adoption of effective means of disposal of logging debris.

(5) A revision of the fire acts of Manitoba, Saskatchewan and Alberta.

In brief, it stands for a solid, progressive, scientific, business-like handling of all the nation's forest problems.

It wants virile, business-like, far-seeing patriotic Canadians to join in the great work.

Members get the Canadian Forestry Journal every month, and the annual report containing in full the addresses at the Association Conventions, and are entitled also to all the privileges of delegates at such Conventions.

A normal annual fee of one dollar is charged. Such membership fees pay less than one half of the Association's annual expenses.

The Association wants your membership, your participation in this work of laying sure the basis of national prosperity.

It is laying it sure—as much as any individual citizen can.

There is an opportunity, even a responsibility before you.

Get in touch with the Association now.

BIG ORDERS AHEAD

Cement Plant at East Princeton Beginning Manufacture This Week

E. P. Gaillac, formerly a business man of Chesaw, and now one of the prosperous coal barons of Princeton, spent last Friday night in Oroville on his way to his British Columbia coal possessions. Mr. Gaillac reports that the big cement plant at Princeton is ready to commence business and has contracted with his mine for the delivery of 100 tons of coal a month. This is one of the largest and most complete cement plants in the north-west, upward of half a million dollars having been spent before the institution was ready to turn a wheel. All of the buildings, and they are enormously big structures, are of stone and the machinery is the best and most complete that is manufactured for the purpose. It is understood that the plant has orders ahead for all the cement it can turn out for the next twelve months.—Oroville Gazette.

A new moving picture theatre will shortly be erected in Oroville.

The volcanoes of the Alaskan coast are once more in violent eruption. Mount Katmai, which covered the surrounding country for hundred of miles with ashes last summer, is the most violent, and is filling the skies with a thick haze of ashes.

Despite their anxiety to send the government back to the people, we wonder just how many of the senators could be induced to resign their own seats, and submit their recent course to the electors to approve or to reject? What sort of vote would Senator Hewitt Bostock expect to get in Yale-Cambou? We venture that he has little desire to try. More than a score of those who killed the Naval Bill were rejected by the electors who knew them best when they last offered themselves to the people. How would they like to repeat the experiment?

It is expected that the debate on the Marconi committee report, which is to occur today in the house of commons, will be exciting. In well informed political circles it is asserted that both Sir Rufus Isaacs, Attorney-General, and David Lloyd George, Chancellor of the Exchequer, have offered to resign if necessary, but that Premier Asquith has refused to consider such a solution of the difficulty. The report of the committee, acquitting the ministers of corrupt practice, but charging them with indiscretion, appear to be a party verdict only. It is a report of the Liberal majority, but not of the whole majority. The Conservative minority has prepared a report which severely condemns the conduct of the Attorney-General, the Postmaster-General, and the late chief whip of the Liberal party, and sternly criticises the Chancellor of the Exchequer. Even the Liberal press is divided on the question. The Nation, a leading Liberal weekly, says: "The view of a section of the party is that Lord Murray should be repudiated, that Sir Rufus Isaacs should resign and that Lloyd George should express his regrets. As to the future, a good many Liberals declare that much depends on Lloyd George's speech in the forthcoming debate in the house. It is certain that the debate will have a powerful influence either for good or ill, on the fortunes of the party."

The silence of the ministers as to their holdings of American Marconi, coupled with their denial of holding English Marconi, which amounted to an implied denial that they were holding any kind of Marconi shares, cannot well be taken in any other light than a deliberate deception. The American company is a separate concern, but the government contract to

the English company caused the price of American, as well as English, Marconi stock to advance.

SIR WILFRID EXPLAINS

Sir Wilfrid Laurier and his friends have already begun to explain away the course of the party machine in rejecting the Naval Bill. The prompt announcement of the Imperial Government that Great Britain will add three ships to her own programme, to fill the place of those expected from Canada, is a sudden and conclusive answer to the claim that the extra ships were not needed. It is also a conclusive reply to the plea that Canada would have imposed an obligation on the British Government by providing ships for the Admiralty to maintain. It is clear now that in the opinion of the British Government the ships are needed, and that to such an extent an emergency exists. It is also clear that the Canadian gift would, instead of adding an obligation to Great Britain, have relieved the British taxpayer of the cost of the ships. Sir Wilfrid cannot explain away these facts. He can only protest in Quebec that he has vindicated Canadian independence, and in other provinces that he destroyed the Navy Bill because he wished to do more for the Empire than the measure could accomplish. — Vancouver News-Advertiser.

FORGOT TO DRINK

After climbing well up the hill Saturday morning the engineer of the east bound passenger train discovered that the person whose duty it is to water the iron horse before starting out had overlooked that important duty, and he had to back down to the Oroville water tank to secure the necessary supply, which did not tend to put the crew in a very good humor, while the back tracking of the train created a mild sensation in town as it was feared that some accident had happened to something or somebody. — Oroville Gazette.

Extention of Time

The time for receiving tenders for the construction of a Public Building at Greenwood, B. C. is hereby extended to Wednesday, June 26th, 1913.

By Order
R. C. DESROCHERS,
Secretary,
Department of Public Works,
Ottawa, June 19th 1912

NOTICE

SIMILKAMEEN LAND DISTRICT
DISTRICT OF YALE

TAKE Notice that W. B. Haynes, of Fairview, B.C., occupation Fire Warden, intends to apply for permission to purchase the following described lands:

Commencing at a post planted at the southwest corner of Lot 888 thence eighty chains west, thence twenty chains north, thence eighty chains east, thence twenty chains south to place of commencement containing about 100 acres.

19-10 W. B. Haynes
May 26th, 1913

A Strong Hint.
They had met for the first time since their schooldays and were telling each other of their professional careers.
"And how did you come to leave the stage?" asked one.
"I had a hint that I was not suited for it."
"I see. The little birds told you, eh?"
"Well, no; not exactly. But they might have been birds had they been allowed to hatch."

A Lesson.
The Lady—Look here! You said that if I'd give you your dinner you'd mow the lawn for me. The Hoby—I'd like to do it, ma'am, but I gotta teach yer a lesson. Never trust th' word of a total stranger.

His Night Work.
Wife—What makes you stay at the office so late at night? Do you gain anything by it?
Hubby—No. But I have several times come'er—within an ace of gaining something.

The Explanation.
Him (in the surf)—The water is getting cold. I wonder why.
Her—That tall girl who just came in is from Boston.
Democrat.

Wealth is not his that has it, but his that enjoys it.—Franklin.

Extention of Time

The time for receiving tenders for completion of the Jetty at Skevaston, at Mouth of Fraser River, New Westminster, B.C. is hereby extended to Wednesday, July 2, 1913.

By order
R. C. DESROCHERS,
Secretary,
Department of Public Works,
Ottawa, June 9th, 1913

SAFE AS THE SAFEST

Cheaper than the Cheapest

MUTUAL LIFE OF CANADA

The history of thousands of policies on the above plan shows that it has cost less than four dollars per year to carry a policy of one thousand dollars. If you doubt this call on the local representative and see the history of one policy for 26 years; then ask yourself whether you know of any other concern whether insurance company or benevolent society that can show a similar record.

Every Plan of Genuine Insurance

It is the people's Company and its profits are all for the people

This accounts for the wonderful success which has attended forty-two years of unparalleled progress and achievement.

WATER NOTICE

For a Licence to store or pen back water
Notice is hereby given that The Daly Reduction Co., Limited, of Hedley B. C. will apply for a licence to store or pen back 13.8 acres by 5 ft. deep acre-feet of water from the Similkameen River, a stream flowing in a southerly direction and emptying into Okanagan River near Oroville, Wash. The water will be stored in a reservoir of 3,000,000 cubic ft. capacity, built or to be built at Hedley, B.C. and will be used for power for mining purposes as authorized by Water Record No. 2. Water licence No. 1, or under a notice of application for a licence to take and use water, posted herewith, on the land described as being near the northwest corner of Reserve No. 2.

This notice was posted on the ground on the 19th day of May, 1913. The application will be filed in the office of the Water Recorder at Fairview.
Objections may be filed with the said Water Recorder or with the Controller of Water Rights, Parliament Buildings, Victoria, B. C.

Rock Creek—June 7th, 9:30 a.m.
Midway—June 7th, 2:30 p.m.
Grand Forks—June 9th, 2:30 p.m.

The Commission will hear evidence on all matters affecting agricultural conditions in the Province. All persons interested are invited to be present.
W. H. Hayward, M.L.A.,
Chairman
C. B. Christensen,
Secretary.

Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.
Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.
In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns, accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.
W. W. CORY,
Deputy Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

WATER NOTICE

For a Licence to Take and Use Water
NOTICE is hereby given that Barbara McCurdy of Similkameen will apply for a licence to take and use 100 inches of water out of Deer creek which flows in a southerly direction through S. E. corner of Lot 2022 and empties into Trout Creek near south boundary of Lot 2022. The water will be diverted about 500 yards east of east boundary of Lot 2022 and will be used for irrigation purposes on the land described as Lot 2022.

This notice was posted on the ground on the 17th day of May 1913. The application will be filed in the office of the Water Recorder at Fairview.
Objections may be filed with the said Water Recorder or with the Controller of Water Rights, Parliament Buildings, Victoria, B. C.

W. H. Hayward, M.L.A.,
Chairman
C. B. Christensen,
Secretary.

TRY THE
Hedley Gazette
for
Fine Job Printing

Town and District.

A bell weighing 410 lbs. has been procured to serve as a fire alarm.

Mrs. Daly and Maurice Daly paid a visit to Hedley last Wednesday.

Mrs. Forbes left on Monday to attend the Pow Wow in Spokane.

Mrs. Williams returned home last week after paying a visit to Mrs. Cornish, in Trail.

Jack Raitor left yesterday for Marcus, where he will be employed temporarily, pending his assignment to a new station.

Road Superintendent Turner came through town in his auto last Sunday, on his way to Princeton.

H. E. Hanson, Mrs. Hanson and child arrived in Hedley early this week to relieve Mr. Raitor in his duties as station agent.

Major A. Megraw left for Vancouver on Saturday. He will attend the annual convention of the Grand Lodge of British Columbia Masons.

P. D. Wright of Princeton came down on Monday's train to relieve Constable Sproule during the latter's absence on a visit to the Old Country.

George French and family, who are well known in Hedley, are in town. Mr. French will be employed as clerk in the Hedley Trading Company's stores here.

F. Gillespie went to Princeton on Saturday to visit Mrs. Gillespie who is staying with her mother at McLean's camp on the trans-provincial auto road. He returned on Monday.

Constable Sproule has obtained three months' leave of absence and Mrs. Sproule and he will use it for a trip to the old country. They left for the east on Tuesday, going by way of Okanagan Lake and the C. P. R.

There was an accident on the Great Northern last Saturday morning, when the passenger train ran into a handcar which was being used by the section crew. The train was delayed for a time, but nobody was hurt.

A. G. Robertson and wife, of Detroit, Mich., arrived in Hedley Tuesday morning from Spokane. Mr. and Mrs. Robertson expect to spend the summer in Hedley, and will be the guests of Mr. and Mrs. Bruce Rols during their stay here.

Mr. E. Jacobs, mining correspondent, who is collecting data on mining went through on Saturday last bound for the camps farther west, where he will see what is going on at Copper Mountain, Tulameen and Leadville. He expects to spend a few days in Hedley on his way back.

Harry Rose has a force of men working on a section of the transprovincial auto road, extending from the cemetery through Rodgers' holdings to the railroad bridge over Twenty-mile creek, where it turns and runs in front of Clair's house, to connect with the road to the G. N. station at the top of the cut leading to the bridge.

A very enjoyable informal dance was given Tuesday evening in Fraternity Hall. The guests of honor were Miss Marguerite Bean, who is a recent arrival in Hedley, and Jack Raitor, who left for Marcus on Wednesday. The music was furnished by George Stevens and H. E. Hanson. The floor was excellent, and when Home, Sweet Home was played, everyone left with a feeling of regret, that such an enjoyable evening was ended.

The Gazette was in error last week in stating that the electric shock which toppled Jack Howe from the pole down near the Rodgers residence, was of 110 voltage, for it now turns out that it was twenty times that, or 2200 volts. There being a group of a dozen or more transformers at the power house, the new electrician, Mr. Scott, naturally concluded that the line leading down across the G.N.R. track to the Rodgers residence, had been served by one of them, and was reduced to 110 volts the same as all the other light lines, but instead of this the transformer for this particular line was down at the other end, and the line down there was still carrying its full voltage of 2200. It was rather strange that the regular electrician had it that way without drawing attention to it, and it is a miracle that the victim in this case was not killed instantly with the shock apart from the risk he ran in the fall from the pole. As it was both points of contact of the current with his body were severely burned, and he has a scorched hand and foot as mementos of the narrow escape which he had.

When writing Advertisers Please Mention the Gazette.

BODY HURLED THOUSAND FEET

Three Men Killed and Five Injured in Premature Explosion—Bodies Unrecognizable

VERNON, B. C., June 13.—Three men were killed and five injured, some very seriously, in a premature explosion in a rock cut near Naramata on Wednesday afternoon at 5 o'clock. Those killed were: Pietro Guiseppa, Calilo Allursio, and his brother, Dominico. They were buried yesterday afternoon after an inquest had been held by Dr. R.B. White. The injured men are in Naramata hospital. So severe was the explosion that two of the bodies were not recognizable and one was thrown 1,000 feet. It is thought—though there are a number of theories—that the dynamite used was old and that the nitro-glycerine had separated, in which state of course, it will explode in sunlight. Black powder was the base of the charge.

JUNE ROD AND GUN

The cover cut for the June issue of Rod and Gun in Canada, published by W. J. Taylor, Limited, Woodstock Ont., shows a striking picture of a mountain climbing scene on Mt. Robson, the highest known peak in the main range of the Canadian Rockies, which Director Wheeler of the Alpine Club of Canada says may this summer witness a race for its summit that will only have been eclipsed by the celebrated race for the summit of the Matterhorn by Edward Whymper and Giordano. The Call of the Peace; The Cruise of the Viking (From St. John, N.B. to New Richmond, P. Q. by motor boat); Among the Fjords of British Columbia; Black Bear and Grizzly (Hunting in the Gold Range, B. C.); Nova Scotia Sporting Gossip from Dr. Breck; Fur Farming in Quebec; Fish and Fishing in Manitoba are some of the good things provided by the varied contents of the June issue.

GENERAL NEWS

After a lawsuit lasting twenty-five years, title has at last been perfected by a grant of a patent to the townsites of Loomis, Wash., and the holders of lots that have the luck to still be in the land of the living, will receive a clear title to their property. In the mean time, the town has passed through its era of prosperity, and declined until the only inhabitants are a handful of the most optimistic believers in the future. These will now reap at least some benefit from their faith.

A fatal accident occurred at Greenwood on June 11th, when Joe Davidson, C. P. R. agent at Midway, lost an arm, his wife received fatal injuries, and his infant child had a very narrow escape. Mr. Davidson and family were on their way from Midway to Greenwood on a gasoline speeder, when they crashed into a locomotive, which was on its way to the turntable south of town. Mr. Davidson fell outside the rails, but his arm was caught beneath the wheels. Mrs. Davidson was directly in front of the engine, and received injuries from which she died a few hours later. The child was thrown clear of the train, and received but a few bruises.

NOTICE

SIMILKAMEEN LAND DISTRICT DISTRICT OF YALE

TAKE NOTICE that I, Amos Charles Kennedy, of Keremeos Centre, B.C., rancher intends to apply for permission to purchase the following described lands:

Commencing at a post planted on the north boundary of Lot 288 (being also the south boundary of Lot 289) at a point about twenty chains west of the north-east corner of Lot 288 and being at an angle of said lot 288 thence westerly following the north boundary of Lot 288, a distance of 15 chains more or less to a point true north of the south-west corner of said Lot 288; thence north to said corner of Lot 288; thence north-westerly following the southern boundary of Lot 288, a distance of 8 chains more or less to an angle in said southern boundary of lot 288; thence south-easterly following the said southern boundary of Lot 288 to a point true north of the point of commencement; thence south to the point of commencement, containing 1/2 acres more or less.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

Town and Lower Valley.

Mrs. G. B. Clarke is visiting Dr. and Mrs. Connelly of Salmon Arm.

On Sunday a bunch of R cattle were started up to the ranges at Princeton.

George Walker of Hedley was a visitor to town over the last week end.

Donald McCallum and his little son returned from the Cariboo country on Friday.

Miss Nellie Manery of Similkameen came up Sunday with G. G. Keeler's auto transport.

Danny McEachern is doing some good work on the Pentiction road north of Olalla.

Mrs. Perkins, of Mulson, Wash., is staying a few days with her brother, Mr. William Vader.

Thousands of tobacco plants are being planted on the lands of the Similkameen Fruit Lands property.

R. C. Armstrong, J. P., will stay in town for a couple of weeks, as the ranch house is minus a housekeeper.

Major Megraw passed through Saturday on his way to Vancouver where he will attend Masonic Grand Lodge.

Mrs. Sinclair and Dolly returned to the lower Richter ranch, after spending a few months with Mrs. Keeler of this town.

Joe Bromley had the misfortune to lose twenty-nine fine chickens. Who or what is the marauder is at present unknown.

Mrs. J. P. Thomas has joined her husband at the road camp and intends staying some time to enjoy the pleasure of camp life.

Settlers continue to arrive and it keeps Dr. Thompson busy inspecting all their horses before they are allowed to proceed further north.

H. A. Turner, road supervisor, motored over from Pentiction to look over the roads and note the progress made by the various road foremen.

C. E. Shaw, B. C. land surveyor, has left for Vancouver, where he will receive instructions from the Surveyor General for the surveying of the lower Okanagan valley.

J. Wallace of Princeton stayed in town over the week end. While here he has taken over a few properties, and it is expected he will purchase a fruit farm at an early date.

Mrs. D. J. Inuis left on Monday's train for Spokane. She was joined on the train by her sister, Mrs. Forbes, of Hedley. They intend staying a short while with some relatives there, and also to take in the Spokane Pow Wow.

Give the stores a chance! It's hardly a square deal to peddle your garden truck and small fruits and then sell to the stores what you have left. How do you expect the storekeepers to sell anything in this line if all the people are provided?

Mrs. J. A. Brown returned Thursday last, after spending a little over a month with Mrs. Jas. Ritchie of Summerland. Mrs. Brown received a telegram Tuesday from her mother, who is not in the best of health, and left for Winnipeg on Tuesday afternoon's train.

A petition went in to the Minister of Public Works, nearly two years ago, asking for a telephone line to be run over the main highway between Keremeos and Pentiction. After replying that this would receive the department's attention, nothing further has been heard. This service is very badly needed as the traffic of automobile and horse stages has greatly increased. The line at present runs over the summit to Fairview on a road that is very little used, yet on a regular stage line, passengers and service are ill-provided for in case of an accident.

Louis Goodchap, provincial fire warden was in town Sunday and reported that game warden Blorton, accompanied by another party, caused him great indignation by entering his home and demanding to search the premises for a supposed concealment of beaver pelts. Goodchap claims these men took things too much into their own hands, going through his house from top to bottom, turning out trunks in their endeavor to locate the supposed pelts. The way these men used was not worthy of any officer of the law. Miss Haining, who is Mr. Goodchap's aunt and housekeeper, is now under the care of the doctor, suffering from nervous prostration caused by the incident. Miss Haining was

taken to Pentiction by special auto. The reporter accompanied the car to Pentiction, so this is an outline of the information given him by Goodchap.

A sheriff from across the border came over last week to get Constable McGuffie to assist him capture a desperate criminal, supposed to be on this side of the line. On going down the valley they got track of the criminal, whose name was Hatfield with many aliases, and McGuffie arrested him in the garden of Hans Richters, where he was working. He was taken to the house to enable him to get a few clothes. While in the house he started to talk with Mrs. Richter and at the same time was gradually edging towards the front door. When he had gotten half way down the hall, he made a dash for liberty. McGuffie at this time was hitching up the team, preparatory to taking the prisoner to jail. Before either officer realized the escape, Hatfield had got a good start. They immediately gave chase, but he sought refuge in some very thick underbrush, and by so doing evaded capture up till 3 o'clock Tuesday morning when constable McGuffie and R. McCurdy captured him in a barn on Thompson's ranch.

A meeting was held in Keremeos in May with a view to organizing a branch of the Women's institute. The government sent in two lecturers, Mrs. Lipsett and Miss Mole. Miss Mole read a paper on modern house-keeping, and after Mrs. Lipsett had given an outline of the aims of the Institute, and the work carried on in all parts of the country by this splendid organization, all were unanimous in wishing to organize a branch in Keremeos. The officers elected for the ensuing year are as follows: president, Mrs. R. C. Clarke; vice-president, Mrs. J. J. Armstrong; sec-treas., Mrs. W. M. Frith; directors, Mrs. E. M. Daly and Mrs. D. McCallum. The first general meeting was held at the home of Mrs. D. McCallum on the 12th of June, eighteen members being present. Mrs. McCallum gave a demonstration of the fireless cooker, which was most interesting and proved what a suitable addition this is to the housewife's equipment. A discussion on salads followed, and recipes were exchanged. Three new names were added to the list of membership, which already totals thirty. The meeting then adjourned, to meet at the home of Mrs. G. G. Keeler on Thursday, July 10th.

WATER NOTICE

Notice of Application for the Approval of Plans and Petition for Approval of Undertaking

TAKE NOTICE that Ashwota Power Company, Ltd. will apply to the Comptroller of Water Rights for the approval of the plans of the works to be constructed for the utilization of the water from Similkameen river, which the applicant is, by Water Permit No. 23 authorized to take and use for power purposes.

Petition for the approval of the undertaking will also be made to the Honourable the Minister of Lands.

The plans and particulars required by subsection (1) of section 70 of the "Water Act" as amended and the petition and plans for approval of undertaking as required by Section 71, have been filed with the Comptroller of Water Rights at Victoria and with the Water Recorder at Fairview and Nicola.

Objections to the application may be filed with the Comptroller of Water Rights, Parliament Buildings, Victoria.

YOU WANT THE BEST IT ALWAYS PAYS BEST

There are Two Kinds of Printing

The one is turned out by the man who believes that anything goes, but the other by the one who values the reputation of his establishment too highly to allow any work to go out which will not do him credit.

There is just as good work being done in country offices as in the cities, and often as poor work in the cities as in the worst country shops

In Prices the country office can do just as well for you and you save the express. The city printer may get his stock a trifle cheaper by saving the local freight, but his rent and other overhead expenses are higher, and in the end he is obliged to charge as much or more than the country printer will charge for the same class of work.

THE HEDLEY GAZETTE
is prepared to do any kind of work that may come along. No order too small and none too large.
