### FOSTER'S WEATHER BULLETIN

Washington, D. C. June 15.—Last bulletin gave forecasts of disturbance to cross continent 15 to 19, warm wave 14 to 18, cool wave 17 to 21. Next disturbance will reach Pacific coast about 20, cross west of Rockies country by close of 21, great central valleys 22 to 24, eastern states 25. Warm wave will cross west of Rockies about 20, great central valleys 22, eastern states 24. Cool wave will cross west of Rockies about 23, great central valleys 25, eastern states 27.

This will be the most important disturbance of the month; important because it will bring a great hot wave and dry weather. This great hot wave will continue from about the 21 to 28 and will include two disturbances.

The most dangerous storms of June will occur from the 23 to 28, and following these storms will come a very cool spell of weather, so cool that it will be a notable weather event. But the month of June will average from about to above normal temperatures, and rainfall below normal.

The people are now more universally intelligent and a much larger percentage are educated and in possession of knowledge than ever before consequently the general discussion of the causes that bring about weather changes, and particularly "What the cause?" of the very unusual weather of 1907, are better understood and more highly appreciated by the common newspaper readers than by many who claim to be orthodox scientists.

Our so-called scientists are taught in our universities that earth, sun and planets are hot and cooling bodies, and with them that theory underlies their conception of the universe and is their controlling theory in all things related to physics. They cannot understand the electrical theory of the universe.

But the masses of the people are educated; not drilled into theories but prepared for studying all theories unbiased by the dogmatism of the universities. The open book of nature is the text-book of the educated masses, and they readily grasp the idea of a growing, eternal, electric universe; they can see that electricity and not heat is the original force.

### THE SATURDAY SUNSET.

The above weekly is a new paper which has appeared in Vancouver, and is the latest journalistic claimant for public favor, with every evidence that its proprietors will not look in vain. The character of the numbers already issued show that success is merited in the case of the Saturday Sunset which is launched under most favorable circumstances. The paper is modelled after Toronto Saturday Night, and that noted publication, which it has chosen as its model, is copied both in form of the paper itself and also in its method of treating public questions.

The publishers are the Ford-McConnell Co., Limited, with Mr. Ford as president and business manager and Mr. McConnell as vice-president and editor. The Saturday Sunset is likely to rap both political parties over the knuckles where needed, and its virile tone will make it respected.

## BRITISH COLUMBIA PLACERS

Yearly Output for Almost Half a Century

### THE SOURCE OF THE GOLD

Total Placer Output Larger than that from Lode Mining—Output Apt to be Under-stated.

(Continued from last week.)

Later, some facts and figures will be presented in relation to other placer districts in British Columbia.

British Columbia's government mining reports, although containing much information on the subject, are not always available for the prospector, the mining man and the investor. Libraries in the interior are conspicuous by their absence, though in Victoria and in Vancouver the libraries are down to date in nearly every respect, but they are not available to the resident of the interior except to a very limited extent.

In order to meet this inquiry the minister of mines report for 1905 has been consulted as the regular report for the year has not yet been submitted for perusal.

One admirable feature about these reports is that they give a great deal of information in relation to the mineral production for past years, and this is brought forward every year so that the reader who is industrious enough to delve into the contents is well rewarded with an array of facts and figures of the greatest import to any one interested in the mineral production of the province, for the chronology of the industry begins with the first year of production and ends with the year which the report is intended to cover. This, it must be admitted, has many advantages and it is doubtless highly appreciated, especially by those that find it necessary to keep pace with the volume of British Columbia's mineral industry.

Table VI of the Minister of Mines' Report for 1905 contains the record of gold placers in British Columbia from 1858 to the year of the report (1905). This has since been supplemented by the returns of placers for 1906, \$1,000,000, making the total \$68,772,703.

The years and values are as follows:

1858	705,000
1859	1,615,070
1860	2,228,543
1861	2,666,118
1862	2,656,908
1863	3,913,563
1864	3,735,850
1865	3,491,205
1866	2,662,106
1867	2,480,808
1868	3,372,972
1869	1,774,978
1870	1,336,956
1871	1,779,440
1872	1,610,972
1873	1,305,749
1874	1,814,618
1875	2,474,004
1876	1,780,648
1877	1,008,182
1878	1,275,204
1879	1,290,058
1880	1,013,827
1881	1,046,737
1882	954,085
1883	794,085
1884	736,105
1885	713,738

### PREMIER McBRIDE SCORES

Ottawa's Attempt To Despoil British Columbia Is Frustrated.

Cable despatches appearing in last week's dailies indicate the most decisive kind of a triumph for Premier McBride in his mission to England in behalf of the province of British Columbia. Those despatches showed that Winston Churchill, the colonial secretary, after going thoroughly over the case with McBride, would not stand for the Mede and Persian idea promulgated by Laurier and his following in the resolution passed by them last session asking amendment to the British North America Act in the matter of the relation of the provinces to the dominion government. The Ottawa resolution contained the words "final and unalterable" and this the colonial secretary has declared to be contrary to the spirit of the British constitution and it is knocked out accordingly. Even the Nelson News has the following concerning it:

"These despatches contained information of importance to our readers to the effect that under colonial secretary, Winston Churchill, in deference to representations made by Premier McBride, announced that the Imperial government would strike out of the dominion parliament's resolutions the words "final and unalterable," a concession that may prove of considerable value to this province in prosecuting its demands upon the dominion government for more generous treatment.

This course on the part of the Imperial government will meet with general approval, in fact it was the only course open to the Imperial authorities to take, for no act of parliament can be final and unalterable and doubtless these words would have been stricken from the resolution even if Premier McBride had not visited London. However, we do not wish to detract in any way from any credit due the premier for his course in this connection. He has certainly scored a point in the game, although it carries with it nothing of immediate moment or at all in consonance with his professed wishes in the matter."

To these may be added the gold production from the lode mines of the province beginning with 1858 when this branch of the mining industry began, down to and including 1906, the total of which is officially given at \$41,385,058. Thus it will be seen that the difference is in favor of the placers and amounts to \$27,387,645.

Very little is, however, known as to the system which was in force in the early days of placer mining in the province. Doubtless the yields in all instances were not reported so that it may well be that the estimate is lower than it should be at least for placers.

The occurrence of gold in many localities in British Columbia not already mentioned here and officially recognized may be related.

If the early discoverers and explorers for gold on the Fraser found deposits that had been accumulating for ages this would account for the importance of the deposits, but it does not follow that there is no further replenishment after the gold was taken away, unless it can be shown that the source of supply has ceased. But it is clear that the evidence goes to prove that the beds and bars of the Fraser are annually supplied with gold more notably in some places than in others. As the source of the gold is limited to certain rocks along the Fraser it is easy to determine the source of the supply, which in a general way may be regarded as certain rocks of Paleozoic age with their complement of quartz veins and dikes.

Any one that has investigated this subject properly will find that along certain benches of the Fraser and even the Thompson, Chinaman, Indians and a few whites may be found at certain times winning gold from bars, benches and gravels in the vicinity of these rivers, but very little is known as to the work done by these people, even by the government officials. The industry cannot be said to be conducted on a large but rather on a limited scale, hence it does not attract much attention. It is quite probable that many of the banks and benches of the stream will be worked by hydraulic methods.

### COMING ALONG FASTER.

The Track-laying Gang of the V.V. & E. Have Done a Good Week's Work—Steel on Lowe's Ranch.

If the track-laying gang of the V.V. & E. continue to move along as rapidly as they have done during the past week, it is possible that before another issue reaches subscribers the steel will have reached Keremeos.

After crossing the bridge at Armstrong's the steel gang forged ahead and on Tuesday night they had almost reached the southern boundary of Lowe's ranch. There are two gaps in the remaining grade, each of 40 feet, in which piling will be required, and while pile-driver is completing these the steel gang will lay the track for the sidings in the station yard at Delmar, which is a point ten miles from Chapaco and nine miles from Keremeos. Were it not for this the track would reach Keremeos by the end of the present week.

The mosquito epidemic broke up the gang a few days ago, but a supply of dagoes were put to work in the places of the men who fled before the mosquitoes; and as the thick-skinned sons of sunny Italy have been broken in, they are now making up for any loss of time.

### KEREMEOS NOTES.

John McDonald, of Hedley, was in Keremeos on Monday.

Dr. McEwen was called to Fairview on Sunday to assist Dr. White.

Mr. McRae is no longer assistant post master at Keremeos.

L. G. MacHaffie, of the Bank of B. N. A., Hedley, spent Sunday at Keremeos.

Mrs. Healy, of Victoria, came in on Tuesday and is staying with Mr. and Mrs. F. Richter.

Mrs. Jas. Emhirst left on Monday for the coast on a visit to friends in Vancouver and Victoria.

The work at the Stenwinder is making satisfactory progress. The framework for the hoist is in evidence.

Ore from some of the mines on Kruger Mountain is on exhibition at the Golden Gate hotel.

Mr. L. A. Clarke, of White Valley Irrigation, Light and Power Co., is at Mr. D. J. Innis'. Mrs. Clarke is with him.

Mrs. Wade, teacher of our public school, will leave here for Ontario at the close of the present term. Mrs. Wade is an excellent teacher, and she has the good will of all the school and full confidence and esteem of the parents and other rate-payers.

The telephone linemen are stringing the wire on the poles and have covered the distance from Penticton to Fairview and from Fairview to Keremeos. They will in all probability complete the line through Hedley and Princeton this week. Mr. Genier is foreman.

More horses have been driven down the Lower Similkameen by Siwashas, who do not appear to have taken warning at the capture of the guilty parties in the last escapade of this kind. Rev. A. H. Cameron's horse was taken this time among others, but it did not stop him from filling his Sunday appointment at Fairview.

On Wednesday, June 10th, Capt. and Mrs. Hine were driving from the Stenwinder to Fairview, when, about 300 yards below the Miners' hotel, their horses made a sudden bolt, throwing them out of their seat. Mrs. Hine, although unconscious for a few seconds, was not seriously injured. The Captain received a severe scalp wound and two bones in the left arm were broken near the elbow. The wagon is no longer useful for freighting, and sea captains would prefer to steer a good ship in a storm than a span of bronchos in a canyon. Capt. and Mrs. Hine are to be congratulated on their wonderful escape.

Keremeos, June 24th, 1907.

Mr. C. A. Crawford, auditor for the Daly estate, arrived in Hedley on Tuesday's stage from Idaho, and will spend a few weeks in Hedley auditing the accounts of the Daly Reduction Co. and Yale Mining Co.

### EDITORIAL COMMENTS

The Similkameen Star has another  
kick to register against L. W. Shat-  
ford, M. P. P. This time the offence is  
callous neglect of the ranchers on Five  
Mile in connection with the building  
of roads. Strange to say, however,  
Mr. Shatford was accused last winter  
in Princeton by Smith Curtis, of seek-  
ing to bribe the electors of that section  
by the vulgar expenditure of public  
money on the roads leading to their  
ranches, in order to catch their votes.  
And in approval of that accusation by  
Mr. Curtis, the editor of the Star was  
observed to clap his little lunch-hooks  
and shout "hear, hear." Last year the  
fixing up of the roads on Five Mile  
was a needless expenditure, and there-  
fore a transparent bribe, but now the  
representative is blamed for neglecting  
those roads, upon which less than a  
year ago he had caused needless expen-  
diture to be made. Funny, isn't it?

### THE PREMIER IN LONDON.

The claims of British Columbia for  
better terms from the Dominion have  
been in charge of Mr. McBride for  
some time, and it is fitting to review  
what he has accomplished. We think  
he may be credited with three things.

He secured a recognition from the  
federal premier that this province is  
entitled to exceptional treatment.

He secured an admission from the  
premiers of the other provinces to the  
same effect.

He secured a declaration from the  
British Government to the effect that  
the claims of one of the provinces can-  
not be barred so far as Imperial legis-  
lation is concerned, either by the ac-  
tion of all the other provinces or that  
of the Dominion Parliament.

These statements cannot be success-  
fully disputed, and they constitute a  
very valuable achievement so far as  
British Columbia is concerned. The  
position of the province is immensely  
stronger than it was on the day, last  
fall, when Mr. McBride set out from  
Victoria to Ottawa.

An interesting feature of the case is  
that Mr. McBride accomplished these  
things with very little assistance from  
the Liberal party in this province and  
in spite of much opposition from that  
party both here and elsewhere in Can-  
ada. It may be conceded that at the  
session of 1905 the Liberals in the leg-  
islature joined with the government in  
passing a strong resolution in favor of  
the provincial claims; but at that stage

their assistance ceased. When Mr. Mc-  
Bride left for Ottawa every effort was  
made to ensure the failure of his ef-  
forts by representing that he was go-  
ing simply in order to get an election  
cry. When he reached Ottawa he re-  
ceived no assistance whatever from  
Mr. Templeman, the representative of  
this province in the Cabinet. When he  
returned home he was assailed with-  
out limit by the Liberal press, not only  
in British Columbia, but elsewhere.  
When he invited the legislature to en-  
dorse his course and ask for the omis-  
sion of the words "final and unalter-  
able" from the resolution of Parliam-  
ent, he carried his resolution only by  
a strict party vote. When he set out  
for London he was held up to ridicule  
by the Liberal press. The Liberals  
had an opportunity to share in the  
work being done, but in their rank  
folly they threw it away. They saw  
fit to make a party question out of  
what had up to less than a year ago  
not been so considered by any one. In  
addition to local opposition, Mr. Mc-  
Bride was confronted with that of Sir  
Wilfrid Laurier, who, for the purpose  
of fastening upon us forever the un-  
just decision of the provincial prem-  
iers, caused a resolution to be passed  
through Parliament declaring that  
this decision should be final and un-  
alterable. These were the difficulties  
against which Mr. McBride had to  
contend, and they serve to increase  
the importance of his success.

The Colonist has no desire to place  
Mr. McBride before the public in a  
light which will not bear examination,  
neither has it the least wish to be ful-  
some in its expressions of apprecia-  
tion; but it takes genuine pleasure in  
being able to say that he has been able  
to accomplish so much for the prov-  
ince. He has unquestionably shown  
himself capable of dealing effectively  
with a difficult situation, and it can be  
claimed for him that his term of office  
has been characterized by much that  
is of advantage to the province. The  
restoration of the provincial credit and  
the placing of our claims for better  
terms upon a basis which can never  
be questioned constitute only two  
achievements out of many, which are  
of great benefit to British Columbia  
and full of promise of a successful  
career for the comparatively young  
man by whom they have been accom-  
plished.—Colonist.

### APPEALING TO THE THRONE.

The Times excuses its repetition of  
the Montreal Herald's insult to Brit-  
ish Columbia through its premier by  
saying that Mr. McBride used the ex-  
pression "to the foot of the throne"  
because it had a lofty sound and  
would appeal to the people in a dra-  
matic way. Our contemporary is sadly  
lacking in its knowledge of Canadian  
political history and Canadian politi-  
cal speeches or it would not make  
such a fuss over a form of words.  
Every Canadian ought to know that  
the expression to which the Times  
objects has been almost invariably  
employed in connection with applica-  
tion to the Imperial government.  
Every one who has come to the years  
of discretion, ought to know that  
appeals to the Imperial government  
must be made through the Depart-  
ment especially charged with matters  
of the class to which such appeals  
belong. Matters relating to the amend-  
ment of the British North America  
Act properly come under the jurisdic-  
tion of the Colonial Office.

But we are told that the province  
has no right to appeal to the Colonial  
Office because it cannot be claimed  
that the terms of union have not been  
kept. But the fact of the case is that  
it is proposed to change the terms of  
union. This can only be done by an  
Act of the British Parliament, and  
that being the case, it is proper for  
British Columbia to appeal to the Im-  
perial government against a decision  
on the part of the Canadian govern-  
ment to alter that act in a manner  
prejudicial to the interests of the

province. If the Dominion Govern-  
ment had seen fit to treat the new  
terms as a matter of domestic con-  
cern, it is not easy to see how the  
province could have had any status in  
London. But Sir Wilfrid Laurier has  
set the example of going to "the foot  
of the throne," and the right of Brit-  
ish Columbia to follow him there can-  
not be successfully denied. It does  
not appear to have been denied. The  
necessary credentials were issued by  
the Governor-General, not by Sir Wil-  
frid Laurier as the Times alleges, and  
these credentials were issued as a mat-  
ter of right and not as a favor. The  
Colonial Office recognized Mr. Mc-  
Bride's status. Sir Wilfrid Laurier  
recognized it, by replying to the case  
presented by the British Columbia  
premier. The matter is "at the foot of  
the throne," and, if the decision is  
adverse to British Columbia, it will  
not be because the province had no  
status to make the appeal, but because  
Sir Wilfrid Laurier has been suffi-  
ciently influential to prevent the appeal  
being granted.—Ex.

### Town and District.

School closes for the summer holi-  
days on Friday next.

Messrs. Chas. Revely and Carl Hair-  
sine were visitors in Hedley on Sunday  
from Nickel Plate.

One hundred men are wanted by the  
Keremeos Land Co. to work on their  
big irrigation ditch.

C. E. Shaw, P. L. S., who has been  
doing work on Copper Mountain passed  
through town last week on his way  
south.

Mrs. W. J. Forbes returned home on  
Wednesday from a very pleasant visit  
with friends at Green Mountain and  
Keremeos.

Rev. A. H. Cameron, of Keremeos,  
will hold Presbyterian service here on  
Sunday evening next at 7:30, in the  
Methodist church.

FOUND.—A watch, on the property  
of the Daly Reduction Co. Owner  
may have same from Mr. Holbrook at  
the office of the Company.

A social dance will be held in Fra-  
ternity Hall tomorrow (Friday) even-  
ing, beginning at 8:30, sharp. Good  
music. Everybody welcome.

The Keremeos Land Co. are looking  
for men to work on their big irri-  
gation ditch, and will employ 100 if they  
can get them.

The first strawberries of the season  
made their appearance in Hedley last  
week, but the supply was not nearly  
equal to the demand.

Bills are out for a monster celebra-  
tion in Princeton on Dominion Day,  
and it is hoped many will avail them-  
selves of the hospitality of our sister  
town on that occasion.

Miss Elliott, Kingston Ave., is pre-  
pared to do all kinds of plain sewing,  
tailoring, mending and renovating  
gentlemen's clothing. Orders may  
be left with Mrs. Lyons.

Mr. Victor W. Voigt, son of Emil F.  
Voigt, returned from College on Sat-  
urday last, and took Monday's stage  
for Voigt's Camp to spend the holi-  
days with his parents there.

James Z. Moore, of Spokane, who  
spent last week in Hedley, went to  
Princeton on Monday last, accompa-  
nied by Robt. Stevenson, who will show  
him over the numerous properties on  
Copper Mountain.

Royer's stage will leave Hedley on  
Wednesday July 3rd, instead of Tues-  
day July 2nd, for the benefit of those  
wishing to attend the 4th of July cele-  
bration in Oroville. There will be no  
stage leaving Hedley on Thursday,  
July 4th.

It is understood that Rev. A. H.  
Cameron, of Keremeos, will endeavor  
to supply service in Hedley until fur-  
ther arrangements for permanent sup-  
ply have been made. Having Lower  
Similkameen, Fairview and Keremeos  
to look after it will no doubt be dif-  
ficult for him to arrange for Hedley as  
well. Announcements of his services  
here will be made from time to time  
as arranged by him.

The following guests have been reg-  
istered at Hotel Similkameen during  
the past week: E. A. Ritter, Colorado  
Springs; Jas. Z. Moore, Spokane; A. J.  
Marlow, London, Eng.; A. Irwin,  
Kamloops; W. E. Waugh, Atherton's  
Corner; Carl Hairsine, Nickel Plate;  
E. A. Power, Vancouver; Robt. Stev-  
enson, Riordan Mountain; C. E. Shaw,  
G. Mead, Greenwood; V. W. Voigt,  
Princeton.

A very successful social was held in  
the Methodist church, Penticton, last  
Thursday evening under the auspices  
of the Ladies' Aid, for the purpose of  
giving an opportunity to the new  
minister, Rev. R. W. Hibbert, to meet  
the members of his congregation. A  
programme of vocal and instrumental  
music was rendered. Refreshments  
were served by the ladies, who spared  
no pains to give all present a pleasant  
evening.

### GENERAL

Vancouver schools have been closed  
owing to an outbreak of measles.

Mr. Alexander Henderson has been  
sworn in at Ottawa as Commissioner  
of the Yukon, and left for Dawson on  
the 18th.

When the all-Canadian lacrosse  
team was organized in the east for a  
trip to Australia, Alex. Turnbull of  
New Westminster applied for a place.  
He was told that there were no play-  
ers in the west fast enough to qual-  
ify. The all-Canadians played New  
Westminster and were beaten by a  
score of 9-0. Possibly their ideas of  
western speed have been modified.

NEWS OF THE DISTRICT

Culled From Exchanges.

VERNON NEWS.

Residents on the west side of Okanagan Lake are dissenters from the general satisfaction, in connection with the daily service of the S. S. Okanagan. Nahun receives a weekly call, and Gellatly's and Short's Point twice a week from the big boat, while other points are left to the tender mercies of the S. S. York, which does not run on schedule time, but "gets there" just whenever it feels like it. It would hardly be in the general interest to subject the Okanagan to the annoying delays incident to stopping at so many way points, but something might surely be done to provide the West side with a reasonably regular service.

T. W. Stirling, of Kelowna, went down to Victoria last Friday on business in connection with the International Tobacco and Land Co., of which he is one of the leading promoters. He states that the business of the company is fast being placed on a sound footing; a large quantity of first-class tobacco lands have been secured by options, and a considerable amount of stock has been subscribed by local investors. The large capitalization of half a million dollars is, of course, too heavy a proposition to be taken up locally, and arrangements are now being made to place a big block of the stock in England. Those who have most thoroughly investigated the matter have the most complete faith in a prosperous outcome to this new industry which means so much to the Kelowna district and the Okanagan as a whole.

There seems no reason to doubt that Wm. Stewart, of Enderby, who was engaged with Burnett's survey party near Mabel Lake, met his death by drowning last week. He was missed from the party, and a search revealed his hat in a stream a few yards below a foot-log on which a crossing was made. His pack was also missing, and it is thought that he fell from the log and was swept away by the swift current. The search for his body will be continued as soon as the waters get a little lower.

KELOWNA COURIER

An important sale was consummated last week when Messrs. Collins & Hewetson sold the fine property of Mr. W. Mawhinney, better known to old-timers as the Crozier place, to Mr. Reginald Harris, of Trinidad, West Indies, for \$20,000. Thus do they gather from all parts of the earth to Kelowna! The estate comprises some 130 acres, and there is a large orchard in full bearing. Mr. W. J. Mitchell of the Gordon-Mitchell Drug Co., Winnipeg saw the property twenty-four hours after Mr. Harris had bought it and was so much charmed by it that he promptly offered him an advance of \$5,000 over the price paid, which Mr. Harris promptly declined. The latter is to settle here and Mrs. Harris and child will join him shortly.

PENTICTON PRESS.

H. Main, our local chemist, has after considerable experimenting, prepared a compound for the spraying of fruit trees. It can be supplied at a half cheaper than the quassa chips and whale oil soap preparation. It is put up in liquid form, and merely requires diluting with water to make ready for use. On Tuesday E. Curtis brought a branch of a wild scrub into the Press office. It was literally covered with black aphids, and had been treated the day before to the solution. All the aphids were dead, while the leaves of the shrub bore no signs of injury.

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative and my Book on either Dyspepsia, the Heart or the Kidneys. Address me, Dr. Shoop, Racine, Wis. Troubles of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptoms only. Symptom treatment is treating the result of your ailment, and not the cause. Weak stomach nerves—inside nerves—means Stomach weakness, always. And the Heart and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free Book now, Dr. Shoop's Restorative. ## PAIN

Pain in the head—pain anywhere, has its cause Pain in connection with blood pressure—nothing else usually. At least, so says Dr. Shoop, and to prove it he has created a little pink tablet. That tablet—called Dr. Shoop's Headache Tablet—drives blood pressure away from pain centers. Its effect is charming, pleasingly delightful. Gently, though safely, it surely equalizes the blood circulation.

If you have a headache, it's blood pressure. If it's painful periods with women, same cause. If you are sleepless, restless, nervous, it's blood pressure—blood pressure. That surely is a certainty, for Dr. Shoop's Headache Tablets stop it in 20 minutes, and the tablets simply distribute the normal blood pressure.

Brise your finger, and doesn't it get red, and swell, and pain you? Of course it does. It's congestion, blood pressure. You'll find it where pain is—always. It's simply Common Sense.

We sell at 25 cents, and cheerfully recommend
