OVER \$170,000

Is Now the Appropriation for
Similkameen Riding
This Year

BRIDGE VOTE IS \$24,000.00

And This Added to Other Appropriations
For the Year Brings the Total to
Over \$170,000—Legislature to Pro-
rogue To-day.

In referring last week to the handsome appropriation secured by Mr. Shatford for his riding it now transpires from word received direct from Victoria that only a part of the story was told. The news to hand is to the effect that the bridge vote for the riding is \$24,000 which added to the other votes places the total for the riding this year at over \$170,000. This splendid appropriation at the disposal of the road supervisor H. A. Turner who will see that value is received therefor, the highways in the Similkameen should be put in good shape.

The business of the session has been characterized by careful work, and much legislation of a useful character both in new measures and in the amendment of existing statutes where experience has shown improvement to be desirable, was put through.

ALMOST FORGOTTEN CRIMES

Nemesis May Take a Rest But the Wicked Cannot Always Flourish

Every district has its own little history of some particular crime or crimes that have never been brought to justice and that furnish food for wonder and conjecture at the firesides for many years after.

Among those for this district are the Zimmerman murder at Penticton four years ago and the killing of Thomet at Midway three years ago. Regarding the former little progress seems to have been made in the way of fastening the guilt upon the perpetrators but there seems to be very little doubt in the minds of the authorities that the miscreants who killed Thomet are now in the toils, but unfortunately they are not being held on the one crime which would have put the hemp around their necks.

Chief Banbury who has conferred a great deal with the police on the American side had very strong evidence to show that a band of train robbers who were apprehended near Omaha and given life sentences had among their number the two who killed Thomet. So strong was this evidence that it was submitted to the American authorities with a view to having them given up and brought across here where the charge against them would hang them, but so bad was their reputation on the other side that the police were not disposed to take any risk of letting them go, even with the prospect of hanging them.

MIDWAY COAL

At the Midway coal property of the Boundary Mining and Exploration Co. the engineers have decided that the work has now reached a stage where they are in a position to put in an initial plant and begin work of a permanent character. The work so far done has developed No. 3 vein about 500 feet. There are six veins on the property to be developed, which the new shaft will provide means of working. The management is looking forward to placing the property on a steady producing basis in the near future. A contract has been let for 50 feet of tunnel work on the Myers creek coal property.

WOMEN'S RIGHTS IN B. C.

Deputation of Ladies Wait on Attorney General Asking for Legislation to Amend Existing Laws

Victoria, Feb. 26—A number of ladies waited upon the Attorney-General asking him to embody into legislation some recent suggestions of the National Council of Women regarding woman's dower, the right of mothers to the custody of their children and similar matters.

THEY CAN'T CONCEAL IT

Nine Out of Every Ten in the United States Regard Reciprocity as a Smash at Britain.

The New York "American", one of the group of Hearst papers, shares President Taft's opinion that Canada is at the parting of the ways. The "American" quotes Lord Lansdowne's warning against the development of Canada on continental rather than Imperial lines, and points out that Lord Lansdowne's party is trying to draw Canadian Commerce to the Mother Country. The fact that this protest is made convinces the "American" that Congress should immediately ratify "the momentous trade compact with Canada."

The "American" does not say that the treaty is a step towards political union. It only says that reciprocity will prevent the closer drawing of Canada towards the Mother Country; that it smashes the scheme of a close-knit British federation; that it thus settles a world problem; that it finally disentangles this continent from European politics, and that it prevents the development of commerce through Canadian ports.

Mr. Champ Clark says it in fewer words, and so does the President when he tells us that Canada is at the parting of the ways.

MONSTER DRYDOCK FOR B. C.

Capable of Accommodating The Largest Dreadnought Afloat

At a cost of \$3,000,000 a drydock subsidized by the Dominion government is to be constructed at Esquimalt primarily for the purpose of building new vessels for the Canadian navy. To enlarge the shipbuilding plant on the coast necessary for the undertaking of such a large enterprise a well known shipbuilding firm will absorb the British Columbia Marine Railway Company Limited and a first rate shipbuilding industry will be established at Esquimalt. The new drydock will be 900 feet long and 100 feet in width and will be capable of taking care of the largest vessels afloat. The location on Esquimalt harbor, is now being selected.

ROUGH ON RANGE HORSES

Danny McLaughlin came in from his ranch on Saturday morning and on coming across the ranges he ran across some of the bands of horses that have been wintering out. They appeared to be in rather bad shape and he had some doubts as to whether many of them would manage to pull through as they are now very much emaciated and low in vitality. Snowballs make a very poor diet for a horse to winter on and the man who can buy hay and oats or is fortunate enough to have some one else pay for winter provender for his pony should consider himself fortunate.

BUSINESS INTERESTS OPPOSE

Prominent Liberals Cannot Be Silent Where Stupendous Blunder is Imminent

Toronto, Feb. 22.—The associated boards of trade of Ontario at their closing session this afternoon passed by a large majority a resolution condemning the proposed reciprocity agreement. The resolution was proposed by R. S. Gourley, president of the Toronto board of Trade and seconded by Hon. E. J. Davis, who controls an extensive tanning business and who was commissioner of crown lands under the Hardy and Ross Liberal governments in Ontario.

PHOENIX TRIUMPHANT

The Hockey Team of That Town Captures Everything in Sight

After winning the championship of the Boundary League without a single defeat the Phoenix puck-chasers went to the Rossland carnival and there captured the provincial championship and the international, beating all the American teams represented there. As a result they are now the white-haired boys of the "glory-hole" town and nothing is too good for them.

KINGSTON IN LITIGATION

The Old Company Enter Suit Against Redeemable Investment Co.

A press despatch from Quebec to the Vancouver World states that the Kingston Gold Copper Mining Co., of Hedley had entered action in the Supreme Court of Canada against the Redeemable Investment Co., of Boston, the sum named in the suit being placed at \$1,500,000.00

The Kingston Co. sold a controlling interest in the Kingston and other claims of the group in Camp Hedley to the Redeemable Investment Co. and it is to be presumed that certain conditions were imposed for the development and operation of the properties.

The action of U. S. Postal authorities in raiding the offices of the Redeemable Investment Co. and preferring charges of fraud against certain of its officers has made it difficult if not impossible for the Redeemable Investment Co. to carry out its business obligations, and unfortunately the government are supreme and no responsibility can attach to them for the harm they may do.

Meanwhile it is bilious on the camp that a property like the Kingston should be tied up awaiting the action of the courts of a foreign country; so it is evidently with a view to bringing the matter to a head that the old company are seeking the assistance of the Canadian courts to establish their rights to their own property by moving to have the sale set aside on the ground of fraud.

WINNIPEG AGAINST

Board of Trade Passes Condemnatory Resolution re. Reciprocity

Winnipeg, Feb. 22.—The Winnipeg board of trade by 69 to 13, ten members refraining from voting, passed a resolution today condemning the reciprocity agreement between Canada and the United States, the mover being W. H. Cross and the seconder D. C. Cameron, Liberal candidate in the last general election in Winnipeg. The resolution is as follows:

"That the Winnipeg board of trade after careful consideration of the proposed reciprocity agreement between the Dominion of Canada and the United States, is firmly of the opinion that the same is not in the best interests of the Dominion, particularly that portion of the country west of the Great lakes, and desires to impress upon the government its urgent wish that the proposals be not ratified."

The only discussion in the meeting was in the introductory speech of W. H. Cross and a short one of approval by James Porter.

AN APPRECIATION

(Vernon News.)

We have pleasure in calling attention to the excellent speech delivered last week in the Legislature by Mr. L. W. Shatford. The constituency of Similkameen has good cause to congratulate itself upon being represented by such a capable and energetic member, and the estimates this year amply demonstrate the fact that Mr. Shatford has once more succeeded in having the requirements of his important district well attended to in the matter of expenditures for public works. The large appropriation of \$132,000 has been granted to Similkameen, and Mr. Shatford has proved in former years that he may be depended upon to see that it is expended to the best possible advantage.

LOOK TO SENATE

Niagara Fruit-Growers, Liberal and Conservative Alike in Despair Turn to Senate for Relief

St. Catharines, Ont., Feb. 22.—A large and representative meeting of the directors of the Niagara peninsula fruit growers' association was held here this afternoon. The question of the removal of the duties on tender fruits from the United States was further considered and it was decided to appeal to the senate of Canada to defeat the treaty should it be accepted by the house of commons.

KETTLE VALLEY PROGRESS

Work Steadily Moving on Both Ends—Later On It Will Move from Middle

Merritt Herald
Eleven miles of steel has been laid on the Kettle Valley railway, out of Merritt. Track laying has been suspended for a brief span until warmer weather arrives and the frost comes out of the ground. Grading operations will continue, however, the same force of men being retained.

The contractors announce that track laying will be completed by the middle of June and that the first thirty miles of the line will be in operation one month later. Grading is well advanced all along the line and when track laying is resumed it will be clear sailing.

With the thirty mile section finished work will be immediately inaugurated on the second section which will likely cover twenty miles. This contract is in the hands of Macdonald & Gzowski, and the sub-contracts will be let about the middle of the year.

With the construction of a short line it would be possible for Merritt and Nicola valley to have a short route to the boundary districts even before the Kettle Valley is completed from end to end. The V. V. & E. is finished to a point almost within striking distance of the Kettle Valley in the vicinity of the summit. Engineers working on the second section of the Kettle Valley will have the line finally located about the end of May.

LICKING THEIR CHOPS

In Anticipation of the Fine Time They Will Have Running Riot in Canada's Resources

At a meeting in Buffalo held to discuss reciprocity Secretary Wilson, Secretary of Agriculture in Taft's cabinet made some very frank statements of the case from the U.S. standpoint. Hugo Guthrie, M. P., one of Laurier's standpatters who defended the agreement at Ottawa was present at the same meeting and concurred in the views of the other speakers.

Summarizing the advantages which he believes will come to the United States if the agreement is accepted, Mr. Wilson said: "The advantages that will come from reciprocity to the people of the United States will be, first: access to the Canadian woods. Then there will be access to the Canadian markets for our fruit, free fish free trade in seeds, free trade in flax free barbed wire fencing, free trade in horses. This last will give us a market for our draft horses in those new provinces that are being opened up."

CORRIGAN—BROWN

At an early hour on Monday morning, Feb. 27th, at the residence of T. H. Brown, Cawston Ave., two of our popular and esteemed young people, William Wirth Corrigan and Gladys Josephine Brown were united in wedlock by Rev. Father Conant in the presence of a number of the more intimate friends of the contracting parties. Miss Ellen Corrigan, sister of the groom, was bridesmaid and R. Burger acted as groomsman. Many handsome wedding presents attested the good will of friends. The young couple will take up their abode in the residence belonging to J. D. Brass, corner of Webster and Cawston. The Gazette extends congratulations.

V. V. & E. WEST END

Assuring to Note that Work is Not Wholly Abandoned This Winter

(Province)
Mr. A. Kellett, superintendent of construction for Messrs. J. W. Stewart & Co., railway contractors, is in town ordering supplies in connection with construction work on the V. V. & E. in the Fraser valley. Good progress has been made during the past winter at heavy rock work along Sumas river and Sumas lake, about nine miles east of Abbotsford. Two hundred men are employed. Mr. Kellett expects to increase the force next month; when three steam shovels will go into commission beyond Abbotsford.

GRASPING AT STRAWS

As an evidence that the boosters of reciprocity at Ottawa are hard pressed for evidence that would seem to favor reciprocity we have only to note the avidity with which the utterances of the Summerland Review are pounced upon to show that B. C. fruit-growers would not suffer as badly from cutting off the duty on American fruit as it was feared. Even Hon. William Patterson who is largely responsible for the enmity, notwithstanding the fact that the duty protecting his biscuits is not to be altered a whit, was supplied with a copy of the Summerland Review and read from it an editorial favoring reciprocity which he pointed out was from a conservative paper published in a fruit-growing district. He made no mention of the editorial opinions of the Kelowna Courier which are the views of a strong Liberal and the paper published in a district which has made quite as great a name for itself in fruit-growing as Summerland.

The review has never claimed, nor shown itself, to be as strong in its support of the Conservative party as the Courier has been of the Liberal party. Neither were there any reasons advanced by the Review further than a mere expression of opinion that the change would benefit the fruit-growing industry here more than it would injure it. Opinions are cheap when we all have them, and they do not necessarily effect the situation one way or the other, neither should they always rank as evidence.

Now it is only surmise on our part, but if Col. Cartwright, of Summerland, son of Sir Richard, is at the elbow of the Review editor it is not to be wondered at that we find those particular leanings on the subject of reciprocity. The Colonel is a very nice chap and we have nothing but good-will and the very kindest regard for him as well as high opinion of his integrity, but we know what were his views on reciprocity in 1891 and how tenaciously, like his venerable sire, he can hold to opinions once formed. Should it happen that he has been a moulder of editorial opinion in Summerland then it will be seen that the Hon. William Patterson's distant quest to Summerland for fruit-growers' approval of reciprocity with his

Liberal fruit-growing compatriots of the Niagara peninsula howling dissent, was "love's labors lost", for he could have stepped across the corridor to the old gentleman's office in the parliament buildings at Ottawa, and got the same thing without having to grasp at straws in the manner in which he has been doing.

Keremeos, B. C.

When writing Adversers Please Mention the Gazette.

Town and District.

Rev. Father Conant, of Kamloops, held mass in Hedley on Sunday last.

The timber for the bridges came in on Tuesday and structures under way will now be pushed forward to completion.

Angus Stewart, who has been chief engineer in the power house for some time, gave up his position last week and started for the coast on Wednesday.

Rev. T. W. Mills of Princeton, will take Rev. Mr. Cameron's service here on Sunday night. Mr. Cameron will be in Princeton and preach there for Mr. Mills.

J. A. Schubert is opening out a branch business in Coalmont, the new town which was formerly known as Cardiff and Granite Creek. He intends building at once.

Mr. James Anderson, chief inspector for the Bank of B. N. A. came in on Saturday and remained a few days. On Tuesday morning Mr. Hincks accompanied him to Keremeos.

The sale of the Palmer mountain tunnel property, at Loomis, under the Sheriff's hammer, did not take place Saturday as it was announced that it would. The sale was knocked out by an injunction issued from the United States court. The tangle is still untangled.—Oroville Gazette.

Hedley has had the longest spell of sleighing this winter on the least amount of snow that has yet been experienced in the history of the place. The average amount of snow on the ground for any single week between Christmas and the end of February would scarcely exceed four inches and yet there has been fairly good sleighing all that time. This will give a fair idea of how steady the winter has been, and yet with the exception of one week it could not be called cold.

The sparkling musical comedy, "Managing Mildred" is announced as the attraction at Fraternity hall on Saturday, March 4th. The famous English Opera Singers who made such an impression through the west last season are figured in this comedy and will introduce the last two scenes of Verdi's "Il Trovatore" in costume. The remarkable duet "The misere" sung by Juanita Rish and Charles Picquet has invariably been encored five or six times. "Managing Mildred" is by Walter Lockwood, a young Chicago author and contains some twenty song hits.

An astronomer is reported to have prophesied three wet years because of certain sun spots that in the past have always been attended with much precipitation. The prairie wheat growers will make no objections to a meteorological programme of that nature, and it would also fit in nicely with the plans of the management here for getting the water supply obtainable from Twenty-mile Lake, back to the normal.

They're all scrappin' for Monday. The Star announces that "Managing Mildred" is to be in Princeton, Monday, March 6th. The Gazette erroneously but with the best intentions said they were to be in Hedley Monday March 6th. The Penticton Herald says they are to be in Penticton Monday, March 2nd. The advance agent, the auxiliary, the Gazette and the Herald must all have got hold of the same kind of booze. Meanwhile Princeton is sitting tight on the date and looks very likely to hold it.

There is a general impression that we are in for an early spring and that the cold snap at the beginning of the present week was winter's final effort. There was a new moon two days ago and some give the moon credit for all kinds of stunts in the matter of its ability to boss the weather. By the by, this particular moon is the one which is known to the natives as "the moon of pussy willows," and that sounds quite springy in itself.

The skating in Hedley during the past two weeks has been excellent the snow having been cleared off a space about 100 yards long and fifty feet wide, on the ice of the Similkameen river behind Pinto's house. Every night in the week the ice was taken advantage of by dozens of skaters old and young, a big fire being built on the ice alongside where the snow had not been cleared off and this supplied both the illumination and the warmth for the non-skaters. A situation of that kind beats a closed rink all to pieces as the participants have the full advantage of pure fresh air during the whole outing, but of course it is not every winter the conditions are as favorable as this one. To Mr. Hincks most of the credit is due for nosing out the possibilities of the situation for sport and clearing off the snow.

Mrs. J. A. Brown, of Keremeos, is making weekly visits to Hedley for her class in vocal music here. At the solicitation of numerous Hedley friends she is considering the matter of giving a concert at the end of the first class term, and have her local pupils take part. About the middle of April will mark the end of the term and in all probability Easter Monday may be chosen as the date. While the people of Keremeos have had various opportunities of hearing Mrs. Brown sing, those in Hedley have not been so fortunate and would be pleased to have the opportunity of enjoying as much of her singing as an event of that kind would give them.

Coltus Harry (halfbreed) was in town on Saturday with a couple of heads and the claws of two golden-headed eagles upon which he wanted the bounty. According to regulations for collection of the bounty on these birds the claws have to be sent for identification to the provincial game warden, Bryan Williams, at Vancouver and Harry's exhibits were accordingly detatched thither. Local justices can be trusted with the identification of cougars, coyotes and big horned owls but their knowledge of zoology or natural history is scarcely equal to the task of spotting out the golden-headed eagle, and lest they should mistake the pants of a thoroughbred shanghai or yellow leghorn rooster for a golden headed member of that particular species of Uncle Sam's birds the precaution aforesaid was necessary. Sorry it couldn't be helped, but Harry will have to stay dry for that much longer.

The Gazette was in error last week in placing the date of "Managing Mildred" to be played by the English Opera Singers in Hedley for Monday, March 6th. They are to be in Princeton on that date and their performance here will be on Saturday March 4th. In giving Monday March 6th as the date the Gazette was not altogether to blame. Every effort was made to have the date verified before announcing it but we could find out nothing definite in the matter and the Ladies' Auxiliary under whose auspices they were to play could give no assistance, for their contract read March 5th and as that date falls on Sunday it was quite clear that a mistake had been made. The most natural inference under the circumstance was to conclude that the advance agent in fixing his dates had failed to notice that the 5th was Sunday and skip a date. After we found out that Princeton was coming on Monday March 6th as their date inquiry was made of Penticton where it was found the Company were billed for Thursday March 2nd which left little doubt that Saturday was the date intended for Hedley, the intervening time between midnight on Thursday and Saturday morning being little enough to cover the distance between Penticton and Hedley with perhaps an intervening performance at Keremeos on Friday night enroute.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

Town and Lower Valley.

Wm. Daly spent the week end with friends in Hedley.

Mrs. C. L. Cummings, of Princeton, returned home on Monday after a week's visit with Mrs. Hans Richter.

Miss E. Corrigan left on Saturday for Hedley, where according to report the wedding bells were to ring for her brother.

Mr. Hilton McGregor, son of J. D. McGregor, the big cattleman of Brandon, Man., arrived on Wednesday last on a visit at the home of J. W. Armstrong.

George Allison left on Thursday for Vancouver in company with Charlie Thomas of Princeton, on business connected with some mining interests above Princeton.

Fred Woodman of Vancouver arrived during the week and has taken a job with J. J. Armstrong on his ranch. He is a nephew of Dr. Callahan, who was in here last fall.

Mr. J. J. Armstrong is offering a reward of \$5 for the return of a gold brooch, set with pearls, lost between his residence and that of Mr. Moody, on Sunday, Feb. 26th.

Ch. Bureh, butcher of Pentiction, was in town the latter part of last week. Beef cattle are scarce at this time of the year and butchers have to far afield to find them and then pay fancy prices.

Mike Hetrick and Nigel Ewart came down from Hedley by G. N. special on Sunday and spent a few hours in Keremeos. On their return they were accompanied by Bob. McCurdy.

"Managing Mildred" will be present in Richters' Hall on Friday evening. This will be the last (and it is whispered the best) of the Walker series for this season. Usual prices.

M. C. McAuley came down from the new town of Coalmont on Saturday where he has commenced preparations for opening up in the butcher business. Mac is quite enthusiastic over the prospects of the new town in the upper valley. We wish him every success in his new venture.

F. W. Bentley, the well known pruning expert of Summerland will be in Keremeos about March 10th, when he will be prepared to undertake all kinds of orchard pruning. Rates 50c an hour. Orders may be left at this office.

H. H. Bartlett of Vancouver, has been spending the past week in town. We understand that he is interested in the country up the Ashnola and its possibilities and will make a trip of inspection as soon as the snow goes.

Elsewhere on this page will be found notice of the dissolution of partnership of Sauve and McCurdy. F. J. Sauve has purchased the interest of Robert J. McCurdy and in future will have full management of the Big Store. All accounts due the partnership are payable to Mr. Sauve and in order to facilitate matters it is requested that these be paid in promptly. We congratulate Mr. Sauve on his enterprise and bespeak for him success. He possesses the business ability and powers of application to business which will ensure it. Readers of the Gazette will profit by reading his advertisement, which will appear on this page each week in future.

Next to growing the best and highest grade of apples it is necessary that they be packed and marketed in the most attractive style. It is conceded that the quality of Similkameen apples are second to none in the world and it only remains for the fruit-growers of this district to put their produce on the market in proper shape to secure the very highest market price. In this connection the value of the course in packing conducted here last week by the local government under the supervision of Mr. Plack will prove of inestimable benefit when put to practical utility by our growers. The government certainly showed good judgment in selecting Mr. Plack to conduct the school. Thorough master of his subject, untiring in his efforts and obliging in his manner, he kept up the interest of his pupils to the very last and imparted sufficient knowledge in the art of packing to those under him to enable them to proceed intelligently with the work when occasion arrives.

SPRING CLOTHING

It's going to be an easy matter for you to satisfy yourself in Clothing this spring if you come here to do it. If you have any pet ideas about what you want you'll find us able to meet them.

**Generous Values,
More than Your Money's Worth**

That's the idea we're working on here. You'll learn, if you haven't already, that we make good along this line.

Our Clothes, whatever their price are a full fifth better than the clothes that come nearest to them in intrinsic value at other stores.

FRANK RICHTER & CO.

Mrs. Leadbeater and daughter were visitors in Hedley between trains on Monday, to-morrow (Wednesday) they expect to leave for their home in Alberta. They have been visiting Mrs. Leadbeater's parents, Mr. and Mrs. John Mattice.

W. A. McLean, who recently returned from accompanying his daughter, Mrs. Gillespie of Hedley, to California, and is now going back to the Okanagan to resume work on a contract he has there, spent the latter part of last week in town.

H. C. N. Etches, of Salmon Arm, who was with the survey party working up the Ashnola last fall, and has since been spending the winter at various places in B. C. and Alberta, arrived back here on Saturday. Before leaving he intends making a trip up the Ashnola.

Mr. C. Tickell, brother of George Tickell of this place, arrived in Keremeos on Saturday, direct from Cumberland, England. Mr. Tickell says that the winter in the Old Country has been exceptionally wet and disagreeable. The trip over was made in exactly two weeks.

Ching Kee entertained his friends at his annual dinner at the Central Hotel on Thursday evening last. Written invitations were sent out and a very large number responded. Both in the elaborate dinner that was served in the spacious dining room of the Central and in the exhibition of fireworks which followed the host spared no trouble or expense in giving his friends a jolly good time. So effective was it that it called forth an after-dinner speech from "J. J." complimentary to Ching as an entertainer and to the appetites which most of the guests brought along with them. An impromptu dance in Richters' Hall brought a very pleasant evening to a close just about midnight.

DISSOLUTION OF PARTNERSHIP

NOTICE is hereby given that the partnership heretofore subsisting between us, the undersigned, as Sauve, McCurdy & Co. in the town of Keremeos, B. C., has been this day dissolved by mutual consent. All debts owing to the said partnership are to be paid to F. J. Sauve, at Keremeos, and all claims against the said partnership are to be presented to the said F. J. Sauve by whom the same will be settled.

Dated at Keremeos, B. C., this 23rd day of February, A. D. 1911.
