A TWO YEARS' TRUCE

Coal Operators and Miners
Sign Agreement for
Settlement.

SHERMAN'S LITTLE VACATION

A Slightly Increased Wage Schedule
for a Two Years' Term—Lindsey
and Sherman Both Distrusted.

A temporary settlement, at least, has resulted from the strike conferences, and both sides have agreed that the status upon which agreement was based should remain in force for two years. The new settlement provides for a slight increase in the wage scale, and when signed by representatives of both parties to the dispute, notices were posted to the men by president Sherman directing them to return to work. The notice posted was as follows:

"To the officers and members of the U. M. W. of A., district No. 18.

"The result of the voting upon the new agreement is as follows:

For 1,124
Against 747

Majority for agreement..... 377

"The agreement has been duly signed again and all members are requested to end their vacation and resume work at the mines immediately.

"(Signed) F. H. SHERMAN,
"District President, U. M. W. of A."

The feeling of the men is strongly in favor of this return to work, though they feel strongly against Sherman, for they realize now that work should never have ceased and that they could have reached the same agreement without the loss of a day's work. Work will be resumed almost at once, though the operators state that it will take several days before the mines can be opened to their full capacity.

The agreement is a lengthy one. By "the provision of agreements existing prior to April 1, 1907, are confirmed for a further period of two years, excepting in so far as they are changed by provisions of the new agreement. Sixty days before expiration of the new arrangement conferences will be held by parties to discuss a renewal. All persons accepting employment at mines, coke ovens and outside plants, are to be governed by rules laid down in the agreement. In the event of a local dispute the man with a grievance will subject his complaint to the pit boss. If the pit boss and employee fail to agree, the matter shall go before the pit committee and mine superintendent. If they fail to agree it shall be referred to the general manager or general superintendent of the company concerned, and the members of the district board. Should they fail to agree the dispute shall be referred to a joint committee, comprising three operators appointed by the Western Coal Operators' Association and three miners appointed by District No. 18, of the U. M. W. of A. If this committee is unable to agree it shall endeavor to choose independent chairman. If it cannot do so, the minister of labor shall be asked to appoint such chairman. The decision of the committee thus constituted shall be binding upon both parties. While the dispute is being considered the men must remain at work. In the event of an employee being discharged he shall not remain in the employ of the company while the case is being investigated. If the claim is made for lost time, the joint committee shall determine the amount of compensation, if any."

On the day after posting of notices, all local unions were at work excepting Michel, which reported 155 majority against the agreement. Michel has faith in neither Sherman nor Lindsey. It is thought they will return to work in a day or two, the penalty being the forfeiting of their International charter if they stay out. The coke ovens are now running at Fernie, the men having returned to work.

Meetings of the conciliation board were held, and on being interviewed, Sir Wm. Mulock stated that the present system of the operators in his estimation was a most short-sighted policy; that they made no arrangements for meeting the demands for

INVESTIGATING FIVE MILE.

Two Mining Engineers Proceed to Five Mile Creek to Examine Property.

Since last fall, Mr. E. W. Beidler, general manager for the Palmer Mountain Tunnel Co., at Loomis, has had his eye on a group of eight claims on Five Mile in which our townsman F. M. Gillespie is interested with a couple of prospectors, Uhler and Cox.

The group consists of the Borinite, Blue Ridge, Gladstone, Roseberry, Shamrock, Productus, Belemnite and Right of Way mineral claims, and have excellent copper showings.

Mr. Beidler made one trip in last fall but was delayed rather late and there was already some snow on the ground. Last week he returned in company with Geo. Jamine, M. E., from Seattle, and they proceeded to the camp on Five Mile where Messrs. Uhler and Cox are now at work. On their way back they had only a short time to stay and nothing definite was ascertained as to what progress had been made in the negotiations.

On his former visit, Mr. Beidler was favorably impressed, and his return in company with Mr. Jamine is evidence that the group is attractive.

During the development work already done, there has been considerable sampling and testing of values and the results have been most encouraging, the copper percentage being in advance of most of the Boundary properties that are now making big money for their stock-holders.

Transportation means everything to such a lay-out, and if the railway were only making the progress which was expected of it and all doubts were settled as to intentions of the railway after Keremeos is reached were definitely settled, the effect which it would produce would be sure to result in making the mineral resources of the Similkameen much more attractive for investors.

CROSSED ON FALSEWORK

V. V. & E. Track-laying Engine Resumes Work on This Side.

The pile-driver completed work on the Armstrong bridge on Monday night and was moved forward to a small trestle at Manery's on Tuesday. After the pile-driving at Armstrong's was completed it was only a matter of a few hours more until the caps, stringers and cross-ties were on ready for the engine to cross on Tuesday.

The River took another rise this week, and with the rows of piles driven in the channel for the falsework being placed only 14 feet apart, extreme care will have to be taken to guard against damage from driftwood until the spans are completed.

Track-laying is to be resumed on this side of the river to-day and they will endeavor to get to Keremeos with all possible speed.

A party of surveyors arrived at Keremeos on Tuesday to lay out some track-work and piling at the Keremeos yards, where the pile driver will be brought shortly after completion of the Manery trestle.

A PATRIOTIC TOWN.

Summerland has a rifle association in affiliation with the D. R. A. and the club has a membership of ninety. They are getting a supply of Ross rifles and are certainly a live organization. The town with Summerland's population which will organize and maintain such a body is certainly all right. Those who esteem patriotism blended with elevating scientific sport, must take off their hats to Summerland and its rifle association:

coal on the part of the public during a tie-up of the mines. He suggests that the mine operators should store several hundred thousand tons for this purpose, and that this system should be the principle of every dealer as well. He speaks very strongly of the rights of the public in this matter to be protected from any suffering as a result of any dislocation between the miners and operators. The present policy of the operators in this question openly invites attack. President Sherman, on being interviewed, refused to submit any statement for publication.

THE ROLLO BONDED

Important Claim in Twenty-mile Camp Goes to Eastern Capitalists.

FIRST LOCATION IN THE CAMP

Located a Year Before the Nickel Plate—Ottawa Capitalists the Lucky Bonders—Development Expected Shortly.

Last week Mr. H. W. Yates received a telegram from R. Hedley to the effect that the Rollo mineral claim had been bonded by him to Ottawa capitalists.

A letter was also received later, but full details of the transaction are not yet to hand.

The Rollo was located in August, 1897 by Peter Scott, and is therefore the oldest existing location in Twenty mile camp, all other locations prior to that time having been allowed to lapse. The Nickel Plate was not located until a year later. Mr. Scott disposed of several interests in the property, but still retains a part ownership. The other owners are Paul Johnson and R. R. Hedley, both noted smelter men.

The Rollo, with a very limited amount of development, is known to have good ore and a fine body of it, and it is to be hoped that the capitalists who have taken the bond are of the right sort, and will push development. When they do they will find that they have got hold of a property that will make a barrel of money for them.

RIFLE MATCH.

The May Shoot of the Hedley Rifle Association.

The monthly shoot of the Hedley Rifle Association for May took place this week, when nine competitors took part.

The wind was particularly trying, varying in velocity from gentle to gale, and in direction, as described in the Julie Plante:

"Do wind she blow from nor', east', west'
Do sou' wind she blow too."

Consequently the scoring on the whole left something to be desired, and that something was a more generous supply of bullseyes.

The cup was won by L. C. W. Rolls on a total of 61, and the medal held by T. D. Pickard in the last shoot was also won by Mr. Rolls on a score of 40, which was the total made by him on the 200 and 300 yard ranges, upon which ranges the medal was this time contested. Next time it will be given on the 300 and 400 yard ranges.

While matches will be held as often as can be arranged, it has been decided by the Association that only on the regular monthly shoot will the club trophies be shot for.

New blood is wanted in the Association, and Hedley should supply a far greater membership, especially when there is no other out-door amusement to offer any counter attraction during the summer season.

Below is the score:

	200	300	400	Total
L. C. W. Rolls	21	19	21	61
E. D. Boeing	21	10	22	53
Geo. Sproule	16	17	18	51
J. E. Gibbon	20	13	18	51
F. M. Gillespie	16	12	22	50
F. H. French	14	17	12	43
W. J. Forbes	14	11	14	39
A. Megraw	16	8	11	35
Dr. Whillans	13	11	10	34

CARD OF THANKS

Hedley, B. C., May 12th, 1907.

EDITOR GAZETTE

SIR: MAY I have the use of a small portion of your valuable space to return my very warm thanks to the citizens of Hedley and the employees of the Daly Reduction Company for their great kindness to me, and attention during my illness; also for the practical proof of their good-will given to me last week. I have only to say that I accept this in the spirit which prompted the giving of it. Wishing you all the best of good times, I am,
Sincerely,
DONALD MACPHAIL.

The Hedley Gazette

and
Similkameen Advertiser.
Issued on Thursdays, by the HEDLEY GAZETTE
PRINTING AND PUBLISHING COMPANY,
LIMITED, at Hedley, B. C.

Subscriptions in Advance

Per Year.....\$2.00
Six Months.....1.00

Advertising Rates

Measurement, 12 lines to the inch.

Land Notices—Certificates of improvement, etc. \$7.00 for 60-day notices, and \$5.00 for 30-day notices.

Transient Advertisements—not exceeding one inch, \$1.00 for one insertion, 25 cents for each subsequent insertion. Over one inch, 10 cents per line for first insertion and 5 cents per line for each subsequent insertion. Transients payable in advance.

Contract Advertisements—One inch per month, \$1.25; over 1 inch and up to 4 inches, \$1.00 per inch per month. To constant advertisers taking larger space than four inches, on application, rates will be given of reduced charges, based on size of space and length of time.

Advertisements will be changed once every month if advertiser desires, without any extra charge. For changes oftener than once a month the price of composition will be charged at regular rates.

Changes for contract advertisements should be in the office by noon on Tuesday to secure attention for that week's issue.

A. MEGRAW, Managing Editor.

THAT EXTRA POSTAGE.

The action of the Canadian and American governments in increasing the postage on newspapers sent from the office of publication to subscribers in the United States or Canada as the case may be, is causing a heap of dissatisfaction both with publishers and subscribers. The bulk weight basis of payment is abolished, and a rate of one cent for four ounces payable by stamps is substituted. The object in making the change was claimed to be that of shutting out vast quantities of trashy literature that were, for the most part mere advertising fakes and not bona fide publications. Unfortunately while these may be snuffed out, other publications of merit that the people of Canada want will be shut out as well: unless some arrangement be made for establishing international news bureaus, to whom the publications may be shipped by fast freight and addressed by these bureaus to the subscribers. The New Westminster Columbian, speaking of it, points out inconsistency of the government in spending large sums for immigration and cutting off the foreign circulation of the local papers which are the most effective immigration agencies that we have, and which were not costing the government anything. Every weekly paper sent to subscribers across the line, will, providing they can be kept down in size so as to bring them under the four ounces in weight, cost just 52 cents per year in postage. Publishers of weeklies in this province who have seabed on the price of subscription, will go in the hole on every subscriber they have living in the United States, for the postage and price of material will more than eat up the whole subscription price and leave all the printing, folding, and mailing including stamp-licking for 52 issues in the year to be done for less than nothing. It was about 25 years ago that the government of Sir John A. Macdonald threw off postage on newspapers from the office of publication in transit to subscribers, and it has remained for that of Sir Wilfrid Laurier to go back to methods that belonged to the dark ages. As a result of doing away with the postage there was a general reduction in the price of subscriptions; but already American publishers are writing Canadian subscribers for the extra amount to cover postage.

FOSTER'S WEATHER BULLETIN

Last bulletin gave forecasts of disturbance to cross continent 10 to 14, warm wave 9 to 13, cool wave 12 to 16. Next disturbance will reach Pacific Coast about 15, cross west of Rockies country by close of 16. Warm wave will cross west of Rockies about 15, great central valleys 17, eastern states 19. Cool wave will cross west of Rockies about 18, great central valleys, 20, eastern states 22.

Unusually cool weather will be the feature of absorbing interest in relation to this disturbance. As the low or storm centre approaches a moderate warm wave will come in, but before and after that moderate warm wave it will be so very cool as to cause alarm for the crops in middle latitudes. If the reader will keep in mind that these weather changes cross the continent from west to east in four to five days averaging 400 to 600 miles in 24 hours; that a very large majority of the storm centres come from the north Pacific ocean, passing through Manitoba, the Dakotas, the great lakes and pass off the continent near the mouth of the St. Lawrence river, with these facts in mind, my forecasts can be more fully understood and appreciated.

METEOROLOGICAL.

The following are the readings showing temperature, etc., for the week ending May 11th:

AT THE MINE.

Certificate of Improvements.

"SUNRISE" Mineral Claim, situate in the Osoyoos Mining Division of Yale District. Where located: Olalla Camp.
TAKE NOTICE that I, R. H. Parkinson, as agent for Jerome L. Drumheller, F. M. C. No. 11506, and W. H. Yavkey, F. M. C. No. 11507, intend, sixty days from the date hereof, to apply to the Mining Recorder for a Certificate of Improvements for the purpose of obtaining a Crown Grant of the above claim.
AND FURTHER take notice that action under section 37, must be commenced before the issuance of such Certificate of Improvements.
Dated this 8th day of April, A. D. 1907.
RICHARD H. PARKINSON, B. C. L. S.
16-9

DECLARATION OF DISSOLUTION PARTNERSHIP

Province of British Columbia
County of Yale
WE, Richard John Edmond and George O'Connor Cawston, both of Hedley in the County of Yale, butchers, formerly members of the firm carrying on a business as butchers at Hedley, in the aforesaid County of Yale, under the style of Cawston & Edmond, do hereby certify that the said partnership was on the second day of April 1907, dissolved by mutual consent.
Witness our hands at Hedley, British Columbia this second day of April 1907, in duplicate.
A. Megraw GEO. O. CAWSTON
Hedley R. J. EDMOND

NOTICE.

SIXTY DAYS AFTER DATE I shall apply to the Chief Commissioner of Lands and Works for permission to purchase Forty acres (more or less) of mountain land, commencing at a post at the south-east corner of Lot 192, and marked "E. A. Lee's South West Corner," thence north 20 chains, thence east 20 chains, thence south 20 chains, thence west 20 chains to point of commencement.
E. A. LEE.
Dated at Fairview, B. C., April 12th, 1907. 11-9

NOTICE.

NOTICE IS HEREBY GIVEN that, 60 days after date, I intend to apply to the Hon. Chief Commissioner of Lands & Works for permission to purchase the following described land, situate on the east side of Okanagan Lake, B. C.: Commencing at the south east corner post of H. L. Crichton's purchase land, running thence south 20 chains, thence west 20 chains, thence north 20 chains, thence east 20 chains to point of commencement, comprising the north half of the south-west quarter of Section 15, Township 28, and the north half of the south-east quarter of Section 16, Tp. 28.
Dated April 12th, 1907.
15-9 B. E. CRICHTON.

Notice of Forfeiture.

To Thomas Farquhar and any person or persons to whom he may have transferred his interests in the Maple Leaf and Long Shot mineral claims, situated on Divident Mountain, in the Osoyoos Mining Division of Yale District.
YOU are hereby required to take notice that I have expended for assessments and for recording certificates of work done on the above claims, the sum of three hundred and forty-five dollars and fifty cents (\$345.50), being an expenditure necessary to enable me to hold said claims, and you are hereby required to contribute your share or proportion of such expenditure, together with all costs of advertising. If you fail or refuse to contribute such amount, including advertising, within 90 days from date of first publication of this notice in the Hedley Gazette, your interest will become vested in me, your co-owner, under the provisions of the "Mineral Act and Amending Acts."
Dated this 20th day of April, 1907.
15-13 W. J. GARBUTT.

Notice of Forfeiture.

To H. W. Yates and any person or persons to whom he may have transferred his interests in the Maid of the Mist and War Cloud mineral claims, situated at Camp Hedley, in the Osoyoos Division of Yale District.
YOU are hereby required to take notice that I have expended for assessments and for recording certificates of work done on the above claims, the sum of two hundred and five dollars, being an expenditure necessary to enable me to hold said claims, and you are hereby required to contribute your share or proportion of such expenditure, together with all cost of advertising. If you fail or refuse to contribute such amount, including advertising, within ninety days from date of first publication of this notice in the Hedley Gazette, your interest will become vested in me, your co-owner, under the provisions of the "Mineral Act and Amending Acts."
Dated this 20th day of April, 1907.
15-13 JAS. FRASER CAMPBELL.

NOTICE

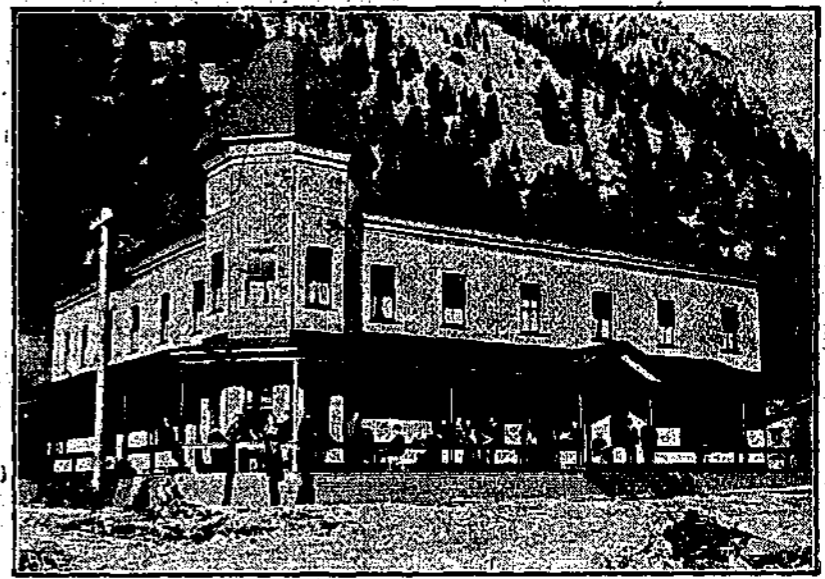

NOTICE IS HEREBY GIVEN that, 30 days after date, I intend to apply to the Honorable, the Chief Commissioner of Lands and Works for special licenses to cut and carry away timber from the following described land in the Similkameen land recording division of Yale District:
No. 1.—Commencing at a post placed about three miles north east of Lot No. 838, in said district thence west 20 chains, thence north 20 chains, thence east 20 chains, thence south 20 chains to point of commencement.
J. K. ROBINSON, Agent for H. P. Nelson.
No. 2.—Commencing at the south east angle of parcel No. 1, thence north 20 chains, thence east 20 chains, thence south 20 chains, thence west 20 chains to point of commencement.
J. K. ROBINSON, Agent for W. T. Shatford.
No. 3.—Commencing at the south east angle of parcel No. 1, thence east 20 chains, thence south 20 chains, thence west 20 chains, thence north 20 chains to point of commencement.
J. K. ROBINSON, Agent for L. W. Shatford.
No. 4.—Commencing at the south east angle of parcel No. 1, thence south 20 chains, thence west 20 chains, thence north 20 chains, thence east 20 chains to point of commencement.
J. K. ROBINSON, Agent for R. B. White.
No. 5.—Commencing at a post placed about one half mile east of the north east angle of said Lot No. 838; thence east 20 chains, thence north 20 chains, thence west 20 chains, thence south 20 chains to point of commencement.
J. K. ROBINSON, Agent for F. H. French.
No. 6.—Commencing at a post placed at about the centre of the northern boundary of parcel No. 5; thence north 20 chains, thence east 20 chains, thence south 20 chains, thence west 20 chains to point of commencement.
J. K. ROBINSON.

Limited, went over to Fairview on
Monday.
Mr. C. J. Wilson, of P. Burns & Co.,
accompanied Mr. Thomas of the Dom-
inion Copper Co. over from the Bound-
ary last week.

Mrs. Jackson of the New Zealand
Hotel left for Spokane last week, ac-
companied by her son Gus and young-
est daughter, Anna.

W. Armstrong, of the lower Similkameen,
has sold his ranch to his
brother, R. J. Armstrong, and is con-
templating a trip north.

Ben Norris, who has been working
for the Hedley Lumber Company, had
to lay off for a week through sickness,
but resumed work yesterday.

The past two weeks have witnessed
much greater activity in mining mat-
ters in the district, and investors are
beginning to come in or send representa-
tives to examine property for them.

J. W. Collis, at one time a prospec-
tor here in the early days of the camp,
was in town this week, representing a
mining supply house. He was former-
ly in partnership with C. A. C. Stew-
art.

Enil F. Voigt, of Voigt's Camp, Cop-
per Mountain, came down on Satur-
day's stage from Princeton and spent
Sunday in Hedley, taking the stage
out on Monday morning en route for
the coast.

The drop in the river was opportune
and was taken advantage of by the
Hedley Lumber Co. to gather in the
logs that were stranded on the banks
and bars during the sudden freshet of
November last. A gang went to work
on the river Monday morning.

The Similkameen river was begin-
ning to get a lively gait on until the
cool wave of the end of the week
checked it up a bit and caused a drop
of some two feet in about three days.
Twenty-mile also increased consider-
able in volume, but was yet far below
the high water mark of years ago.

The trial of James Dale who killed
two men at Carmi last fall will come
up at Greenwood on the 22nd at the
spring assizes. The whole circum-
stances of the killing being so thor-
oughly understood, the trial will be
largely a matter of form, for no new
features can very well develop.

W. Stone, diamond drill superinten-
dent, came over from Rossland last
week accompanied by his wife and
children and went up to the mine.
Workmen to man the drills have been
coming over from the Kootenays for
the past fortnight, and crews will soon
be manned to operate three drills which
will be kept at work all summer on
the properties of the Yale Mining Co.

Mrs. Revely, of Vancouver, mother of
Messrs. F. W. Revely, livery keeper,
and Chas. Revely, store-keeper at the
Nickel Plate, arrived in Hedley on Sat-
urday last, and expects to reside here
for a time with her sons. Mr. Revely
has taken Mr. Stott's cottage on Ellis
Street. To save her from the tedium
of the long stage drive from Penticton
Fred. met her at Keremeos with a private
rig.

The peach trees in John Neil's or-
chard at the mouth of Sterling creek
are in bloom, and baring any freaks
in the weather between now and early
fall, should give a good crop. The
season being somewhat later than the
lower Similkameen or Okanagan, the
blossoms escaped the frost of two
weeks ago which scattered ruin among
the peach orchards in some of the
fruit-growing districts farther south.

The coach stallion, Diplonate, pur-
chased by the Keremeos horse syndi-
cate from McLaughlin Bros., of Min-
neapolis, was brought to Hedley last
week by W. J. Mavery, who is one of
the syndicate. The horse is a four-
year-old light bay, dappled, and is a
perfect picture for those who admire
beauty and symmetry. The syndi-
cate paid a fine round price for him
and are to be congratulated on the
enterprise they have displayed in their
endeavor to improve the grade of
horses in this district.

Mr. C. W. Thomas, of Boundary
Falls, formerly superintendent of the
Dominion Copper Co's smelter there,
and now general manager since the
departure of Mr. Drummond for Co-
balt, came over last week and went up
to Voigt's Camp where the Company
have a bond on an important group of
claims. He was very much pressed
for time, having an engagement in the
Boundary in connection with some
labor troubles that developed there
and was making forced marches to
get back in time.

Mr. F. M. Wells, manager of the
Kingston Gold and Copper Mining Co.,
who has been out of the district for
two or three weeks, returned a few
days ago and reported having some
good fishing out at Sicamous.

Mr. L. Bullock-Welster returned
from Princeton on Thursday last, and
will return to England shortly. He
deplored the indifference displayed in
England concerning British Columbia,
and the lack of knowledge that existed
concerning this province and its re-
sources. Much of it, he believed was
due to the Whittaker Wright incident
and other unwise attempts to exploit
properties regardless of merit or the
lack of it. Hedley, however, bears a
good reputation in the Old Country
among those who know this town and
district. All English investors in Hed-
ley property have done well in their
investments, and are likely to do still
better.

Richter's townsite at Keremeos
Centre is now on the market. Good
openings for all kinds of business. T.
W. COLEMAN, Agent.

NOTICE.

NOTICE IS HEREBY GIVEN that the un-
dersigned will, at the next meeting of the
Board of Licence Commissioners for the Nicola
Licensing District, apply for a transfer of the
Hotel licence granted in respect of the Hotel
Similkameen, in Hedley, B.C., from Ambrose
McDermott to W. F. A. Horton.

Dated this 10th day of May, 1907.

18-3 A. McDERMOTT.

Waitress Wanted.

Wanted for the Similkameen Hotel,
a waitress. Apply to

18-4 W. T. ATHERTON.

An Opportunity for Investors!

I WILL SELL my three residential buildings
in Hedley, Scott Avenue, at the following
prices, if sold during the next thirty days:

Residence and office on Lot 6, Block 8; seven
rooms, two cellars. Cost \$1,500, at \$1,250

Residence on Lot 3, Block 4; five rooms and
cellar. Cost \$1,250, at \$1,000

Residence on Lot 3, Block 7; five rooms and
cellar. Cost \$1,100, at \$1,000

17-4 H. A. WHILLANS.

Notice of Forfeiture

To Thomas Anderson and any person or per-
sons to whom he or they may have trans-
ferred his interest in the Savage Mineral
Claim, situated on Sixteen Mile Creek in
the Osoyoos Division of Yale District.

You are hereby required to take notice that I
have expended for assessments and for
recording certificates of work done on the
above claim, the sum of three hundred and
seventy and a half dollars (\$377.50), being an ex-
penditure necessary to enable me to hold said
claim, and you are hereby required to contri-
bute your share or proportion of such expendi-
ture, together with all costs of advertising. If
you fail or refuse to contribute such amount,
including advertising, within ninety days from
date of first publication in the Hedley Gazette,
your interest will become vested in me, your
co-owner, under the provisions of the Mineral
Act and Amending Acts.

Dated this 29th day of April, A. D. 1907.

16-13 I. L. DEARDORFF.

NOTICE.

SIXTY DAYS after date I intend to apply to
the Hon. the Chief Commissioner of Lands
and Works for permission to purchase the fol-
lowing described lands in the Similkameen Di-
vision of Yale District: Commencing at the
N. E. corner of Lot 672, thence East 40 chains to
the N. W. corner of Lot 251, thence South 10
chains to the S. W. corner of Lot 251, thence
West 40 chains to the S. E. corner of Lot 672,
thence North 40 chains to point of commence-
ment.

DIRECT CONNECTIONS AT SPOKANE WITH
EAST AND WESTBOUND OVERLAND TRAINS

C. P. R. COAL SUPPLY.

Company Claims to be Independent of Crows Nest Mine Supply.

That the C. P. R. is now practically altogether independent of the Crow's Nest Pass coal mines, and that, strike or no strike, it will have plenty of coal to move its passenger trains and a much greater number of freight cars than ever before is the optimistic declaration of coast officials of the company.

Navigation of the great lakes is open, the first steamer having left Owen Sound on April 26th. The company has 50,000 tons of coal immediately available which can be moved at once to Fort William and thence to the west where it is needed. It has developed that already the company has made use of its connection with the Soo line and that as much coal as may be needed is within comparatively easy reach. And at the coast, the Vancouver island collieries have done and will do everything possible to supply the company with all the coal it may require. Under these circumstances, there is little if any danger of a tie-up. It may be, if the strike is not settled, that for a few days, until the supply from the lakes is available, there may be a very decided shortage west of Winnipeg, but this at worst seems to be a matter of but a very short time.

"The C. P. R. will move more freight this summer than it ever did" was the emphatic statement of a prominent official. "There is only one trouble now," he added, and that is the difficulty of getting steel. We need bridge steel and we cannot get it. The bridge companies are practically refusing to tender at all, being loaded up with orders for structural steel which will tie them up for months to come.

"As to rolling stock, all I can say is that the C. P. R. is rushing construction at its own shops at a rate never before attempted, and there is not a locomotive building plant in America that we have not approached with a view to getting immediate delivery of the engines we require. Before long the C. P. R. will be moving freight at a rate that will make people open their eyes, and it will be the busiest season in the history of the road."

The immense amount of grain to be carried eastward and the even larger amount of freight to be brought west means that all available cars will be loaded both ways, and the days of the "empty" are about over. The only effect the coal trouble may have, it is stated, will be that the care necessarily used in hauling coal will not be available for freight. But there will be plenty of coal.

FAIRVIEW NOTES.

Congratulations to Govt. Agent J. R. Brown on his appointment to the important positions rendered vacant by the death of Mr. Lambly. His many friends are pleased at the honor done him, and hope he will have a long and pleasant tenure of office.

Mr. Turner, the new mining recorder, came in on Saturday. Welcome, Sir, on your return to the district.

Mr. Elliott, one of the old-timers, who is superintending work on a nearby prospect, was in town last week and looking well.

Miss Paterson of the post office staff is recovering from her recent indisposition and will soon be handling the mail again.

The only "Podger" is nearly well, and much joy therefore is apparent in the Hine household.

M. Plemmons, who is working at the Stenwinder, is expecting his family in from Loomis.

Nearly three hundred feet of shaft and tunnel work on the "Stenwinder" has been done within the past nine weeks and the Murphy drills are making a name for themselves.

Mrs. Rex Russell's horticultural abilities are evinced in the tastefully laid out gardens she has made at her residence.

J. P. McCuddy has returned from Oregon with his equine acquisitions.

The Pelton wheel at the Stenwinder is now running all the machinery and steam costs are cut out, pumping as well as drilling being done by compressed air.

A limited number of lots in Richter's townsite at Keremeos Centre are now on the market. Corner lots, \$100; inside lots, \$125. Terms. T. W. COLEMAN, Agent.

PROPERTY IN HEDLEY Is A Good, Safe Investment

And Will Make Money

Hedley is the supply point for the Nickel Plate mountain, on which is situated the famous "Nickel Plate"—the richest gold mine in Canada—and many other promising mines and prospects. It is the mining and business centre of the

Similkameen

the new mining district which has already been proven, by a small amount of development work, to be one of the richest gold, copper and coal mining sections of

British Columbia.

HEDLEY is the chief town on the route of the proposed Coast-Kootenay Railway; and with the advent of this road, which is assured in the near future, it will unquestionably become a large and important city, and town lots will bring big returns on money invested at the present time.

Constipation

Baked sweet apples, with some people, bring prompt relief for Constipation. With others, coarse all-wheat bread will have the same effect. Nature undoubtedly has a vegetable remedy to relieve every ailment known to man, if physicians can but find Nature's way to health. And this is strikingly true with regard to Constipation.

The bark of a certain tree in California—Cascara Sagrada—offers a most excellent aid to this end. But, combined with Egyptian Senna, Slippery Elm Bark, Solid Extract of Prunes, etc., this same Cascara bark is given its greatest possible power to correct constipation. A toothsome Gummy Tablet, called Lax-ets, is now made, at the Dr. Sloop Laboratories, from this ingenuous and most effective prescription. Its effect on Constipation, Biliousness, Sour Stomach, Bad Breath, Sallow Complexion, etc., is indeed prompt and satisfying.

No griping, no unpleasant after effects are experienced, and Lax-ets are put up in beautiful lithographed metal boxes at 5 cents and 25 cents per box.

For something new, nice, economical and effective, try a box of

Lax-ets
