ADJOURN OR PROROGUE

Rumors That Colonial Office in London
Has Brought Pressure to Bear
on Laurier.

Ottawa, May 7th—The air is thick with rumors about the political situation, and the outlook is declared to be for prorogation on May 18, with an extra session of Parliament to be called for next September. No such agreement has been reached, of course, but only in such an agreement is the present deadlock likely to terminate.

Sir W. Laurier and Mr. Borden held a conference and agreed to submit a proposition to their respective party caucuses. The proposition is understood, relates to an adjournment not to a prorogation of Parliament. The feeling among the rank and file on both sides, however, is against adjournment, and it is believed both parties will declare their preference for prorogation.

It was learned that the Prime Minister had decided to sail for England on the 12th instant, even at the risk of postponing the reciprocity agreement to another session. It was rumored that pressure had been brought to bear from the Colonial Office, London, but no confirmation of this report could be secured from the party leaders.

The government has virtually decided to surround, but is trying to save its face by bringing about some agreement.

The extra session in September, if called, will be utilized in discussing the reciprocity agreement if it should be still on the tapis, and in putting through a redistribution bill. Meanwhile the Opposition is looking forward with some hope to the defeat of the agreement by the United States Senate.

FIELDING'S PAST LAID BARE

Sir Charles Tupper Resenting Misrepresentation Recalls Some Tell-Tale Incidents

The "Montreal Gazette" prints an open letter from Sir Charles Tupper addressed to Hon. W. S. Fielding. Sir Charles begins by saying that being nearly ninety years of age he thought that he was out of public life, but as Mr. Fielding found it easier to misrepresent and disparage him than to reply to the unanswerable speech of Mr. Sifton, he feels compelled to notice some of the remarks made by the Minister of Finance. He cannot accuse Mr. Fielding of lack of courage in denying that he had advanced or advocated annexation to the United States, and then proceeded to point out that in 1868, after Joseph Howe had exhausted every means of defeating confederation, and decided to make the best of it, Mr. Anand, the then proprietor of the "Halifax Morning Chronicle," proposed to Howe to apply to the United States. Mr. Howe rejected the proposal with scorn, but Fielding remained with Anand, and supported those who hounded Howe to his death and drove him to an untimely grave.

In 1872 the opponents of confederation were unable to elect a single member to oppose the government of which Mr. Howe and Sir Charles were members. In 1886, when Mr. Fielding carried the province in a desperate effort to break up the union, Sir Charles went out to Canada in the following year and cured this folly by obtaining the support of 16 out of 21 members from Nova Scotia for the government of Sir John A. Macdonald.

Sir Charles then discusses the fisheries question, quoting Sir Alun Aylesworth as to the permanent value of the modus vivendi arranged by Mr. Chamberlain and himself. Proceeding, he points out that Sir John A. Macdonald's espousal of reciprocity was entirely due to the necessity of fighting the continental free trade ideas of Sir Wilfrid Laurier. He charges Mr. Fielding with misstating his position in the house when Mr. Fielding brought in his tariff of 1897. Briefly, the contention of Sir Charles at that time was that the Fielding tariff should be condemned, and the condemnation Mr. Fielding cited referred to an entirely different thing from the Fielding tariff he finally passed. Mr. Fielding having amended the tariff along the lines Sir Charles indicated must be followed.

Of the present arrangement Sir Charles says, "I am opposed to your agreement with the United States because Mr. Bayard, in 1880, assured Mr. Chamberlain and myself that the policy of the Democratic party was to remove as soon as they were able the duties on all the articles in your agreement, and President Taft now sees that he can only secure his reelection by the same policy. We owe nothing to the Republican party, and would gain everything without any entangling alliance, which would, I fear, end in the destruction of British institutions in Canada."

WHY IT IS POPULAR

In the Mutual Life of Canada which has been doing business in this country for forty-one years the 41st annual report now being sent out to agents shows that in the 41 years the interest received by the company on its investments has exceeded the death losses by \$1,786,804.01, and as there are no stock-holders to be paid any dividends out of this all the profits go to the policy-holders. Thousands of illustrations could be given to show what the company has done for policy holders under endowment policies which have been paid off, but one will suffice as a sample. John M. Gibbs, of Parkhill, Ontario, took out a fifteen year endowment policy and when it was paid off he found that the money he received only lacked \$27.79 of being 51 compound interest on every dollar he had paid in for premiums during the fifteen years the policy was running besides carrying his risk. This is why even men of men who have better opportunities for profitable investment of their funds than most wage-earners are choosing this company for investment by insuring their lives in it.

CANADIAN GRAIN TRADE

Effort Made to Have It Go to Seaboard by American Lines

Montreal, May 9.—An extraordinary situation in the shipping trade at Montreal has been brought out by inquiries as to the effect upon the St. Lawrence route of a big cut in grain rates from Buffalo to the United States seaboard which cut has been sanctioned by the Interstate Railway Commission.

It is admitted by Montreal transportation men that this cut will have a considerable effect upon the movement of Canadian wheat, but shippers here have unconsciously adopted a much more effective method of driving wheat traffic from the port of Montreal. Steamship lines operating from Montreal have booked all their May space and a large proportion of June space for American corn. Thus, at the opening of the season Canadian wheat for May and early June delivery is entirely displaced and has, perforce, to seek an outlet by American transportation lines.

BRITAIN'S LOSS OUR GAIN

More English Immigrants for Canada Than Ever Before

Immigration from the cities of the West Coast of England will be greater this year than ever before, according to a statement made by F. G. Tily, of Bristol, who is visiting the Okanagan Valley. Mr. Tily says that practically every steamer leaving Bristol for Canada this spring has a passenger list of one thousand or more. Conditions for the working man in the old country were never worse, he says. The supertax imposed by the government is proving a tremendous hardship and many are finding it impossible to live under the conditions. The prices of many commodities have also gone up, much of the immigration was being directed to British Columbia and Alberta.

MAKES NO BONES

Taft Doesn't Deny That Reciprocity is to Head off Closer British Connection

Again in his speech in New York last week President Taft urged citizens of the United States to support the reciprocity agreement with Canada on the ground that it is the very thing needed to prevent closer connection between Canada and the mother country. Yet in face of this, Laurier will pool-pool danger to the British preference and closer imperial relations while Asquith and his "little Englander" radical heelers lift a similar tune in England.

BLACK TEA THIS TIME

Alaskan Mob of 300 Throws Canadian Coal into the Harbor at Cordova

Seattle, May 6.—A mob of 300 men emulating the revolting colonists who formed the "Boston tea party" in 1773 went on to the dock of the Alaska Steamship Co. at Cordova, Alaska, today and began dumping into the sea 300 tons of coal from Canada, stored there. The pile of coal attacked by the mob is valued at \$6,000 and is part of the stock kept on hand by the Alaska Steamship Company and the Copper River and Northwestern Railroad Company.

NOT TOO WILD

Albion Pioneer News
In answer to the question, "Is there any danger from wild Indians?" asked by an intending settler from Alberta, it may be stated that while no alarm need be felt on account of "wild" Indians except by the holders of athletic honors, there are some "wily" Indians who have proved dangerous to unsuspecting strangers in these parts. They know a few tricks about getting easy money and prohibited booze that white men sometimes have to sit up and take notice. For further information along these lines the reader is cheerfully referred to an acquaintance with Cultus Bob.

MILNER LOOKS TO CANADA

Is Convinced of the True Import of the Reciprocity Pact and Hopes for Its Withdrawal.

London, May 4th.—Lord Milner, speaking at Paddington, said he hoped those opposing the reciprocity agreement in Canada would stick to their guns. He was not quite sure that the Canadian negotiators realized what they were letting themselves in for. Political annexation was undoubtedly contemplated by a large section of the United States people and the present agreement was only a beginning. The Canadian oppositionists were entitled to the sympathy of all British Imperialists throughout the world.

"I believe," he added, "that the harmony of Britain and the United States is more likely to be maintained by an understanding of two great equal powers than by the success of a policy which would disintegrate the empire for the United States to pick up some fragments."

GERMANY ALSO WANTS RECIPROCITY

London, May 2.—The "Daily Mail's" Berlin correspondent says that while it is impossible in German official quarters to obtain either confirmation or denial of an Ottawa report that Germany has begun preliminary negotiations for reciprocity with Canada, he is enabled to state that the German government has stretched out certain feelers in the direction of a German-Canadian arrangement.

WOMEN ARE BARRED

Whisper It Not to Mrs. Pankhurst, But Methodist Divines Have Sat on the Fair Sisters

Toronto, May 4.—The court of appeals of the Methodist church to-day decided that under no circumstances are women to represent Methodist congregations at national conferences. The issue was raised by the British Columbia conference, where a woman elected by a quarterly board to represent the church was refused admission to the conference.

Last year the Kootenay district elected Mrs. Lashley Hall as a delegate to the annual conference which met in Nelson. In consequence of the ruling of the chair at that conference against the admission of women an appeal was taken to the appeal court of the conference, with the above result.

HOSPITAL DONATIONS

For the months of March and April the following donations to the Hedley Hospital were received:

Mrs. Lowe, box of apples
Mrs. Sproule, a carpet sweeper
Mr. E. A. C. Studd \$10.00
Mrs. J. A. Brown, proceeds of concert 43.00

The Board at the regular monthly meeting on Monday night passed a vote of thanks to Mrs. Brown for her generous aid and to all those who assisted in the concert, and also to the other donors whose gifts are here acknowledged.

H. Hodgson, representing the MacLean publishing Co., of Toronto, Montreal, Winnipeg and Vancouver, made Hedley a visit on Saturday, calling on subscribers of the various publications issued by that House which specializes on trade journals of all kinds among which may be mentioned MacLean's Magazine, formerly Busy Man's Canadian Grocer, Dry Goods Review, Hardware & Metal, Financial Post, Canadian Machinery, Plumber and Steam Fitter, Printer & Publisher, Millinery Review and others. If all of these represent each business as well as Printer & Publisher covers the printing trade, the Gazette which believes in the old maxim of "every man to his trade" would advise tradesmen in each line to get the publication which deals with his own particular trade and study it religiously if he wants to keep up with the procession.

AN OLD CONTROVERSY

Dr. Orville Owen, a Detroit man, seems to have succeeded in reviving much interest in the Shakespeare-Bacon controversy by his explorations in the bed of the river Wye for manuscript and other proofs which he says will settle definitely the question of the authorship of the plays, and that said manuscript will not only show who was the author but will show that Francis Bacon and not William Shakespeare was the inspired bard and playwright. It is only fair to say, however, that many of the most ardent Baconians take very little real interest in Dr. Owen's operations digging in the Wye and regard him as decidedly erratic although they must admit (if they have read any of his books on the subject) that he is a thorough Shakspearian scholar. At irregular intervals for the last thirty years, within the memory of the Gazette editor, the question has come up and each time new recruits have been added to the Baconian side. For the past fifteen years of that thirty we have been forced with no small amount of reluctance (for old preconceptions die hard) to take the Bacon side. The more an open-minded student of this big subject examines and weighs the evidence on either side and sifts the claims put forward by Shakspearian partisans after more than 300 years to hunt up records of the man's life and work, the harder it becomes to believe that a man of whom there is so little authentic evidence that he possessed ennobling traits of life and character and of whom there is positive proof from old records to show not only the existence but the preponderance of traits the most despicable, could have been the author of anything so sublime and heart-searching as the writings which have come down to us as the works of Shakespeare. Emerson, the great essayist, after many years' investigation of all he could find out that was trustworthy concerning the personal history of the man William Shakespeare gave up in despair saying "I cannot marry this man's life with his verse." Those who may have had their interest in the subject aroused by the present discussion and the operations of Owen should read Ignatius Donnelly's "Great Cryptogram" and also the views of the late Dr. Maurice Bucke of London, Ontario, who is the author of a book entitled

"Man's Moral Nature" and the "Life of Walt Whitman" who was also a strong Baconian. Dr. Owen's eight volumes on the subject published about twelve years ago are also well worth perusal, even if they do appear to be wildly speculative in places. One thing is very sure, that so far as Owen's search in the Wye is concerned its success or non-success will in no way effect the belief of Baconians whose convictions are based on firmer ground than the mud of the Wye, although they will not be surprised, after the cipher evidence in the "Great Cryptogram," to find that the man may have made a remarkable discovery.

It is encouraging to note the enthusiasm with which President Taft's proposal for world peace has been received in Britain. Not only in the British Isles but in the various colonies the movement is regarded with the most marked favor and Canada which is perhaps more immediately interested than all the rest is showing that she fully indorses the scheme. If such an understanding as that proposed by Taft should receive full official ratification by these two great powers there is good reason to hope that European nations that are feeling the burden of maintaining heavy armaments will be wise enough to see the desirability of them hitching up with it as well and thus remove the necessity for the present heavy armaments. It was a wise and timely action on the part of the Presbyterian Church in Canada to place themselves on record in the manner which they did.

Town and District.

Studebaker is resuming the auto run between Keremeos and Penticton. J. A. Schubert went over to Penticton with him yesterday.

Keremeos Centre is again in the field with a 24th of May celebration. The large posters are out announcing leading attractions and a prize list of \$500.

Mr. and Mrs. F. H. Parsons, of Ollalla, drove up on Sunday last to visit Dr. and Mrs. McEwen. Mr. Parsons returned the same day but Mrs. Parsons will remain for a few days.

Mr. and Mrs. T. H. Rotherham expect to leave to-morrow for England for the coronation. They will take steamship at Montreal and will be gone two or three months.

Among the gripple cases prevalent during the past fortnight Mrs. Wirth appears to have had the worst attack and was quite ill last week but has improved during the past few days.

To-morrow a bunch of Hedleyites consisting of Constable Sproule, L. H. Patten, Ed. Burr, Tim Griffin and Nick Pickard leave for Vernon to attend the spring assizes as witnesses in the Nahumshan horse-stealing case.

Many readers in the Similkameen will note with regret the death of James Reith, referred to in our Keremeos correspondence. Deceased had many warm friends in this valley to whom the notice, although not unexpected, comes with regret.

Deaf Mike an old miner well known in Camp McKinney in the pahuy days of that camp has returned to his old placer diggings on Mary Ann Creek, near Molson where he created quite an excitement ten years ago with his little buckskin bags of yellow stuff in which nuggets were often in evidence.

Okanagan Falls, the pretty town at the foot of Lake Skaha (Dog Lake) is to have its first public celebration and believing that a new town should have its own new day they have chosen June 3rd, the new King's birthday.

R. T. Barclay who is a painter by trade, having learned the business in Scotland, is resuming the old occupation and has signified his readiness to undertake anything in that line, whether it be house, carriage or sign painting.

Another recommendation which Mr. Brooke, the poultry specialist can claim for his orpington chicks is that they are gun-proof in the shell. Some chicken raisers around Hedley complain that the blasting has killed all the chicks in eggs that were in process of incubation but several settings of the Brooke orpingtons that were subjected to like damage came through with the full quota of chicks.

Users of the electric light in Hedley can hardly have failed to note the exceeding steadiness of the light during the past week or more and those who have had to do with the electric power will be even more impressed with the change. It is due to the Lombard oil governor on the new water wheel which is now doing all the work under an ample head of water. Absolute steadiness appears to have been attained and not a shade of variation appears to be discernible either in watching an incandescent globe or in listening to the rhythmical purring of an electric motor running either light or under load, for there is really no difference.

Mrs. M. K. Rodgers accompanied by her son Edmund and her daughter Margaret arrived from Seattle last week to spend a month or two in Hedley. It is understood that Mr. Rodgers will follow later and may possibly be able to give more of his time to this camp this summer than he has been able to do for several years past. There is no mining man in the market for good properties who knows the camp as well and as favorably as Mr. Rodgers and there will be general satisfaction here to know that he could give this immediate vicinity several weeks of his time during the coming season.

On Sunday evening Rev. A. H. Cameron by direction of the moderator of the General Assembly of the Presbyterian church in Canada preached on the subject of the peace proposition now engaging the attention of the people of the United States and Great Britain as the result of President Taft's statesmanlike move to secure world's peace. As befitted the occasion he took for his text "On earth peace, and to men good-will". While there was a fair turnout there would doubtless have been more had he known the wish of the General Assembly in time to have given it out on the previous Sunday or to have announced it in the paper.

PICTURE FRAMING—The undersigned has laid in a stock of the latest designs of mouldings for picture frames in oak, gilt and other styles any length or size of picture accommodated. Those who have pictures to frame should see samples. Furniture repairing promptly attended to. Shop in rear of New Zealand—John Ash.

The threatening weather on Saturday afternoon prevented sufficient number of members of the Golf Club from turning out to make up foursomes. But the rain held off after all and those who did turn out played under ideal condition. L. C. Rolls and Miss Emily Jackson made a very neat round of 57. The fortnightly ladder match between Rolls and Hincks was also declared off on Friday owing to the rain.

General regret is felt in town that Mr. Schubert is going to reside up the valley and conduct his new store at Tulameen personally, which will mean the removal of his family from Hedley. The new business he is taking hold of in the upper valley is at Tulameen instead of at Coalmont and is the business formerly conducted by John H. Jackson. Tulameen or Otter Flat as it is more generally known to the old-timers is a very desirable spot to live owing to its situation on a beautiful sheet of water like Otter Lake. His Hedley business will be conducted by Mr. Lyall who is moving his family down from Princeton and will occupy the residence in the rear of the store. Mrs. Schubert returned from Tulameen the middle of last week and after doing some packing up, left for there again about the end of the week. Mr. Schubert returned on Saturday from Tulameen and is making a trip over to Penticton before leaving again for Tulameen.

METEOROLOGICAL.

NOTICE

PUBLIC NOTICE is hereby given that, under the authority contained in section 131 of the "Land Act", a regulation has been approved by the Lieutenant-Governor in Council fixing the minimum sale prices of first and second-class lands at \$10 and \$5 per acre, respectively.

This regulation further provides that the prices fixed therein shall apply to all lands with respect to which the application to purchase is given favorable consideration after this date, notwithstanding the date of such application or any delay that may have occurred in the consideration of the same.

Further notice is hereby given that all persons who have pending applications to purchase lands under the provisions of sections 31 or 36 of the "Land Act" and who are not willing to complete such purchases under the prices fixed by the aforesaid regulation shall be at liberty to withdraw such applications and receive refund of the moneys deposited on account of such applications.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

Town and Lower Valley.

R. Wood, of Greenwood, one of ye old timers of the country was in Keremeos over Sunday.

S. C. Pearce, of Princeton, who has been on a trip to Spokane, spent the week end here on his return.

H. A. Hincks was a visitor in Keremeos over Sunday, returning to Hedley, via saddle, on Sunday evening.

Mrs. Sproule of Hedley has been spending the past week in Keremeos, the guest of Mrs. Lowe at the ranch.

M. R. Forrester, of Winnipeg, who is on a tour of inspection of B. C. fruit lands was a visitor in this district last week.

Mr. G. E. Graham and Miss Nellie Woodrow are spending a few weeks in the valley, guests at the ranch of W. H. Armstrong.

R. H. Parkinson, P. L. S. passed through here on Saturday on his return from the upper valley, where he had been doing some work.

Wm. G. Baskin, of Penticton, Government engineer, was in this district doing some work on the Ashuola the latter part of last week.

Mr. and Mrs. Forsby and little daughter arrived from Summerland on Thursday last and have taken up their residence on Mr. Graham's property, over which Mr. Forsby will have the management.

We have been requested to direct attention to the change which is being made in the management of the Hotel Keremeos, as shown in the advertising columns on this page. Mrs. Kirby expects to leave Vancouver about the 10th and on arrival here will assume the management.

C. R. Littler, an ex-Church of England clergyman in Manitoba and now residing at Armstrong, B. C., was in Keremeos on Thursday last. He is now representing the Confederation Life Insurance Company and while here arranged with Mr. R. Gibson to act as local representative.

J. A. Trimble and son W. O. of Vancouver were visitors in Keremeos last week. Mr. Trimble has sold his property in Vancouver and is looking for a place in which to make a home. He was very favorably impressed with the Lower Similkameen and stated his intention of returning here to invest.

V. Dynes, travelling representative of the Riverside Nurseries of Grand Forks, passed through on Friday on his way to his home at Penticton after a trip to the Kootenay country. He expects to return in a short time and make a lengthy stay here examining the condition of the Riverside stock planted this season and seeing that patrons of the Riverside nurseries are entirely satisfied.

The work of painting the Keremeos Church, for which ample funds was subscribed some time ago, has been delayed. H. B. Meausette, who was to have directed the work, found himself unable to do so owing to the rush of other work and Mr. Burnell of Fairview was unable to take on the job owing to a prior contract at Okanagan Falls. On Monday, however, Mr. Cameron discovered a painter at Hedley who was ready and willing to undertake the work and operations were commenced on Tuesday.

The warm rain on Monday, which continued with slight interruptions for nearly 24 hours proved a boon to the valley. Over two inches fell and thoroughly saturated the ground, making irrigation unnecessary for some time. In the hills there was a heavy fall of snow which will help to provide a more bountiful supply of water later on, when needed. In the Similkameen the rainfall always falls short of being too much and it is always welcome when it does come.

G. S. Mead of Greenwood who is associated with C. E. Shaw, Provincial Land Surveyor, was in Keremeos the latter part of last week for the purpose of getting Mr. Shaw's team and democrat which have been here ever since his visit last summer. This must not be taken that Mr. Shaw has abandoned his long promised trip into the valley to do work of long standing. On the contrary we are assured that Mr. Shaw's object in having the outfit taken over is to provide a means of conveyance for him to make the trip in, by which he will not arrive too suddenly or unexpectedly.

"The Quality Store"

Buying cheap flour to ruin your health for the sake of a few cents per sack is just the same as standing on a plank tilted towards the sea and swabbing it with grease. It is only a question of time until you will take a slide to "Davy Jones Locker."

FIVE ROSES is made from the finest grades of Manitoba hard wheat. It is not a bleached flour, but has that rich creamy appearance akin to the golden grain from which it is made.

Beware of the merchant who will try sell you some other brand of flour and tell you its just as good as "Five Roses" he is only trying to get you to take a short cut to the "Bone Yard."

This is an age of efficiency and the people, all over the world, are demanding high class goods.

Try a bag of Five Roses and if not pleased demand your money and it will be waiting for you.

FRANK RICHTER & CO.

Keremeos Centre may or may not be only the suburb of Keremeos, but certainly the people in the upper town are able to show their lower-down friends the way of "doing things". Last week while the people of the lower town were considering holding a meeting to begin to commence to make arrangements to hold a 24th of May celebration the Upper-ten had their bills out and an attractive programme of sports advertised. Two separate celebrations are not to be thought of so it behooves everybody to lend a hand to make the celebration at the Centre as great a success as possible.

News of the death of James Reith at El Paso was received in the valley with sincere regret last Friday. Mr. Reith was well and favorably known here, having been for years associated with Harry Tweddle in the hotel business at the Centre in the earlier days. It is nearly three years since he was stricken with the disease, which at last proved fatal and nothing but the characteristic grit of the man could have prolonged the struggle against the grim reaper so long. The last letter received from him by Mr. Tweddle indicated that his condition was improving as it was stated that he had purchased some land and was going to have it planted in alfalfa and trees. His son Bert was in Colorado near him at the time of his death, Frank, the other boy being in Winnipeg. Arthur Reith at Princeton is a brother of the deceased.
