## B. C. PREMIER IN ENGLAND

**Draws British Attention to Meaning of  
Taft's Blunt Admission**

London, April 30.—Hon Richard McBride, premier of British Columbia, who is now on a hurried visit to London, is much interested in President Taft's admission to Colonel Roosevelt that Canada, through reciprocity, would have become an adjunct to the United States.

"I have never seen such a blunt admission before, but it correctly represents the view we took in Canada before the general election.

"The American reciprocity movement" continued Mr. McBride, "was deliberately designed to detach Canada from the Imperial reciprocity scheme and defeat the coming preferential policy to which Canada is fervently devoted. In a week's time, Premier Borden, as I hope, will give the people of England his views on this and other questions of vast import. You will find him a good straight and sterling man; a strong Canadian and a great imperialist."

Speaking of the Dominion's naval policy Premier McBride declared that the Canadian electors condemned the "inadequate and inert naval scheme of the Laurier government, and the responsibility had now been assumed by the Borden administration, superseding it with a broader and more effective plan. This is a matter which closely affects British Columbia. Since the withdrawal of the Pacific squadron we have been left practically defenceless on the Pacific coast. We have been greatly impressed with the vigor and strength of Hon. Winston Churchill's naval policy and we have hope and confidence that any naval scheme in which he and the Canadian Government concur will restore to British Columbia a full and fair measure of naval protection."

## ACCIDENT AT THE MINE

On Saturday Jack Hardman slipped on an icy place on the incline leading into Sunnyside No. 3 and being unable to regain his footing he slid the whole way to the bottom a distance of about a hundred feet. He sustained rather serious injuries among which was a fracture of the skull, one rib broken and one of his wrists. There were also numerous other bruises on different parts of the body which is not to be wondered at considering the many obstacles he was liable to meet in the fall.

It is quite cold and wintery up there yet and for some reason or other the water in the mine at that particular part of the underground workings is unusually cold and sometimes freezes as it falls from the stopes.

The injured man is doing as well as could be expected under the circumstances. He came out from England about a year ago and is a cousin of Mrs. Dr. McEwen. The doctor stayed with him at the mine Saturday night and on Sunday he was brought down to the hospital.

## REVENUE INCREASING

**First Month in New Fiscal Year Sets a  
Pace**

Ottawa, May 1.—The first month of the new fiscal year shows an extraordinary increase in the revenue from customs duties and sets a pace which, if maintained throughout the year, will produce a total in the neighborhood of one hundred million dollars. The customs receipts for the month of April just closing reached \$3,975,962.25. The figures for April 1911 were \$5,500,142.58, so that the increase on the showing of the present month amounts to \$2,566,819.07.

## GENERAL NEWS

It might have been better to keep the four desperadoes, Brown, Bonnar and the two Mecums, at Stony Mountain penitentiary than to have sent them to Kingston for they managed to break away from the hired help at the Kingston institution and while the first two were re-captured within a few hours the Mecums who were the worst of the bunch have so far eluded their pursuers.

## FIRE PROTECTION IN SIGHT

**Steps are Taken Looking to the Consummation of this Desirable End**

After years of callous indifference Hedley has at last wakened up to the necessity of making some decided move to obtain fire protection. At the meeting which was announced in these columns two weeks ago T. H. Rotherham and G. H. Sproule were appointed a committee to circulate a subscription list to obtain funds to buy hose and other equipment. When they had completed their canvass another meeting was called at the Commercial on Friday evening last. At this meeting F. H. French was appointed chairman and A. Megraw secretary.

T. H. Rotherham had previously written the manufacturers of fire hose and other fire-fighting equipment and obtained samples and prices.

The subscription list shows that \$200 had been subscribed and the committee were confident of being able to secure about \$50 more.

It was decided to obtain a good grade of cotton wove hose and Messrs. Rotherham and Sproule were appointed a committee to make the purchase. The number of feet decided on was six hundred and the Hedley Gold Mining Co. have helped out wonderfully in enabling the town to solve the difficulty by generously agreeing to allow the use of the water from their mains free of charge and supply the hydrants as well if the town would bear the expense of making the necessary excavations and pay for any other work connected with the installation.

The secretary was instructed to write the secretary of the Canadian Fire Underwriters' Association and advise them of what steps had been taken. Also to make inquiries of them as to the effect it would have on the rates and obtain from them any direction as to what requirements were necessary to obtain a substantial reduction.

It is expected that the equipment will be here in about a fortnight and on its arrival another public meeting will be held to organize a fire company.

## ARE YOU REPRESENTED

"No business man in any town should allow a newspaper published in his town to go without his name and business being mentioned some where in its columns," says an exchange. This applies to all kinds of business—general stores, dry goods, grocers, furniture dealers, manufacturing establishments, automobile dealers, mechanics, professional men, and, in fact, all class of business men. This does not mean that you should have a whole or half or even a quarter of a page ad. in every issue of the paper, but your name and business should be mentioned if you do not use more than a two line space. A stranger picking up a newspaper should be able to tell just what business is represented in a town by looking at the business represented in the paper. This is the best possible town advertiser. The man who does not advertise his business does an injustice to himself and his town. He is the man who expects the newspaper to do the most free boosting for his town. The man who insists on sharing the business that comes to a town but refuses to advertise his business is not a valuable addition to any town. The life of any town depends upon the live wide-awake and liberal advertising business men.

## MORE MEN FOR K. V.

A great caravan of wagons and men pulled out from this place for Pentiction Wednesday morning. Monday and Tuesday evenings upward of 100 laborers arrived at this point to go on up to Pentiction, where they are to work on the Kettle Valley railroad. It was almost impossible to find sleeping quarters for the mob, and numbers slept in box cars, or anywhere they could turn in out of the weather. The town presented a lively appearance while the gang was on the street, and it can be said on their behalf that it was a quiet and orderly lot of men, there not being an infringement of the law while they were in town.—Oroville Gazette.

## THE DEADLY WOOD TICK

**A Pest Common to This Part of British  
Columbia**

"That wood ticks are sometimes the means of infecting with spinal meningitis persons whom they bite is well recognized in the medical profession in British Columbia. In the past 13 years I have had four cases where this disease could be directly traced to wood ticks and two of these cases were fatal," said Dr. W. O. Rose last night when asked regarding the statement as to the danger of wood ticks which was made in yesterday morning's Daily News by William J. Cockle of Kaslo.

"It is, however usually only when the insects infect the nape of the neck that spinal meningitis results," continued Dr. Rose. "When they bite other parts of the body local paralysis, eczema and other diseases of a local nature frequently follow."

Dr. Rose stated that it was only two weeks ago that he received a letter from an old friend, Prof. J. T. Todd, professor of parasitology at McGill university asking him if he could supply any information as to any cases of persons being infected with spinal meningitis or spotted fever as a result of the bites of wood ticks, the professor stating that he had heard of cases in Montana and B. C.

## NO RED FLAG HERE

**Canadian Judge Puts Case Plainly to  
Anarchists**

Vancouver, B. C., May 1.—"We will not tolerate the red flag of anarchy. A man has a right to work if he wishes to and you must respect that right," said Judge Howay at New Westminster today sentencing five Industrial Workers for unlawfully besetting and threatening a cook employed by contractor George Chow at Camp No. 5 of the Canadian Northern right of way near Spuzzum, on April 15th. Jack Thompson and Eric Smith were each given a month; the other three Lyman Georgeson and Bolstead, each the maximum, three months hard labor.

## GENERAL NEWS

The Doughties of Grimsby, England, are going to make Prince Rupert the leading fishing station of the world. Their preparations for carrying on fishing on an enormous scale are now well advanced and two steam trawlers are now on the way out here from the Grimsby fleet.

The British Columbia health commission which will investigate the purity or otherwise of British Columbia's milk supply will start on its tour of investigation about the end of May.

The Ontario government are getting after a couple of Huron county licence commissioners who are charged with grating in holding up a hotel-keeper whose licence they claimed they could save from being cut off.

Judge Mabee, chairman of the railway commission has been operated on for appendicitis, and the operation was found to have been in the nick of time as gangrene had set in. LATER—Judge Mabee died on Monday, May 6.

June 3rd is to be proclaimed a public holiday this year as the birthday of King George V. The 24th of May has been celebrated as Victoria Day as usual as it has been fixed by statute.

Hon. Sidney Fisher is taking a hand in the provincial elections in Quebec but is not a candidate in any constituency.

Nelson is to have a new opera house. The capacity of the Portland Cement factory at Blairmore is to be doubled this year.

Canada's coal consumption last year amounted to 24,400,000 tons.

Capt. Bernier, commander of the government ship Arctic, has been suspended pending an investigation into charges made against him for grafting. He was accused with other members of his crew of trying to make some big money on the side by engaging in the fur trade with the natives of the northern regions.

The Quebec elections are being held this month and both parties have their candidates in the field.

## BIG INDUSTRY FOR COAST

**Canadian Car Company Looking For  
Site for \$1,500,000 Plant**

Vancouver, B. C., May 4.—Mr. Wilson W. Butler, vice-president of the Canadian Steel Foundries, Limited, and the Canadian Car Co., Limited, with a joint capital of \$25,000,000 arrived in Vancouver yesterday morning. He will begin an investigation today of Vancouver and the surrounding municipalities including Port Mann, Coquitlam, Lulu island and other districts in the vicinity of this city, for the purpose of selecting a suitable site for a car building plant.

The proposed plant will be established in a location which Mr. Butler decides is most suitable. It will employ from 1000 to 1200 men and will cost in the neighborhood of \$1,500,000. The present plants of the company consist of the Amherst Wooden Car Works, S. N. Dominion Car & Foundry at Lachine, Canadian Car plant at Turcotte, Ont., Canadian Steel Foundries, at Welland, Ont., foundries for couplers and other railway accessories; Montreal Steel Works for car wheels and locomotive castings. On his way west Mr. Butler selected a site at Fort William for a new plant to cost more than a million and a half dollars.

Last year the output of the three car building plants controlled by the companies was over \$16,000,000. The employment roll of the companies is over 6000 men. It needs only the favorable report of Mr. Butler for the head office to commence preparations for the erection of the new plant in the vicinity of Vancouver.

## TEDDY IN A NUTSHELL

**How Roosevelt Appears to the Republican  
Friends of President Taft**

For biting sarcasm the editorial which appeared in last week's Oroville Gazette giving a truthful trenchant pen picture of the many-sided Teddy is a literary gem. It begins with these two paragraphs:

"Col. Theodore Roosevelt, cowboy, civil service commissioner, lieutenant colonel of Rough Riders, governor, vice-president, president, editor, author, philosopher, naturalist, hunter, traveller, free-trader, high protectionist, regular republican, radical insurgent, progressive republican and third term candidate for president, is the most versatile, adroit, masterful politician this country has ever produced. He is a great man, a wonderful reader, a marvelous manipulator and a transcendent liar.

"He is the most engaging, charming, irresistible of men. We adore him for his fearlessness, his aggressiveness, for the things he says he will do and never does, for the things he does and denounces as abhorrent, for his bulldozing inconsistencies and his hypocrisy. His virtues are the virtues of the gods; his vices, ah, they are only human. This is why we can worship him as a demigod, and at the same time love him familiarly, implicitly, blindly. Nothing that he does or may do can shake our confidence in him. Nothing that he says, has said or may say can destroy our faith."

And throughout seven paragraphs more it enumerates the deadly incidents that prove the point. Then it winds up with the following:

"Is he not a marvel? Who else could change his position so rapidly and completely, could revile so many good people, could boast with such monstrous egoism, could bluster and bluff and four-flush so constantly, could display such inconstancy, inconsistency and intemperance, could juggle the truth, quibble, equivocate and prevaricate with such shameless effrontery and yet get away with it all? Who else could do this but Roosevelt? Echo answereth none. This does not explain why he is great, it merely evidences his greatness. He towers alone, a tremendous force, a consummate schemer, an apollingly ambitious politician. Another Caesar or Napoleon, ready to catch the nearest way that may lead to the goal he seeks.

# The Hedley Gazette

## RECIPROCITY AND HOME RULE

The electors of Great Britain could, at the present moment, look to Canada for an inspiration or a tip, or whatever else you might wish to call it, in reference to how they should use their votes. They, the British electors, may have to vote on the question of Home Rule for Ireland, and only a few months ago the electors of Canada were required to decide whether they should accept or reject a scheme for reciprocity with the United States which had been hatched in Washington and agreed to by Sir Wilfrid Laurier and a few of his most influential if most subservient followers.

Sir Wilfrid was determined at first to force it through parliament by means of his brute majority, just as Mr. Asquith proposes to do in the case of Home Rule, but the Canadian opposition put up too strong a fight in the House and many influential Liberals through the country who were not afraid of the party whip, gave Sir Wilfrid to understand that he had better give the people an opportunity to have some say in the matter and so it went to the country as the leading issue in an election campaign.

Now while the people of Canada were engaged in deciding this momentous question which many good people in Canada felt was a blow at their national existence, the Taft-Laurier combination were receiving the support of the Asquith-Churchill-Lloyd George crowd in England who were trying to reassure Canadians and other Britishers that there was nothing to fear from the big man at Washington. But the Canadian electors thought they knew better and they decided the thing for themselves by putting reciprocity quietly to sleep. Now it transpires that the Canadian electors were able to estimate at its proper value the punk advice of Asquith, Churchill, Lloyd George, Laurier, Cartwright, Patterson, Fielding, parson McDonald, Taft, Hearst et al. for at last the cat is out of the bag in Taft's letter to Roosevelt now made public for the first time. The Washington game subscribed to by Laurier and Asquith is now explained by its thimble-rigger himself as that of "making Canada only an adjunct of the United States." It was to "transfer all Canada's important business to Chicago and New York, with

their bank credits and everything else."

That is the kind of imperial patriotism which Asquith had to recommend to Canadians, and that is a sample of the good judgment he has displayed in sizing up the effect of a political measure which more sensible and more practical men than he could only regard as a gruesome experiment, as much to be avoided as any other form of suicide.

Now if that is the sort of thing into which Asquith would have plunged Canada, why should the electors of Great Britain believe him when he tries to lull them into the same feeling of false security in reference to Home Rule, for it is the same old peashell gang behind Home Rule that was behind reciprocity? Let them ask yel-low journal William Hearst, the question—into which fund he has poured the most dollars—Home Rule for Ireland or reciprocity with Canada? Much as he put up to carry reciprocity it is an easy guess that in pondering to the Irish Fenian vote of the United States he has laid out dollars on Home to nickels spent on reciprocity. But without payment of a penny to Asquith he has managed to get that statesman's support to both, and the lesson ought to be brought home now with double force to all the voters of England, Ulster, Scotland and Wales.

There is really no blame to President Taft coming from Canadians in the part he played in promoting the reciprocity deal with which he humbugged Laurier, Fielding and Patterson. He was elected by the people of the United States to do the best for that country he could and he would have been neglecting his opportunity if he had not tried to squeeze out a powerful rival on the North American continent when such opportunity presented itself. A bargain by which Canada could have been made "only an adjunct to the United States" with her "bank credits transferred to Chicago and New York", and Laurier and his associates and Asquith and his associates all nicely hypnotized for the occasion, was the opportunity of a lifetime, and why shouldn't he avail himself of it? The whole country, whose chief executive officer he was, glories in a sharp deal and expects it of all her sons whom she elevates to the high positions in which they may best serve her. Why then disappoint them? Viewing it in this light, Canadians are not blaming Taft.

 THE GAZETTE!

**Town and District.**

The Canadian Northern steel was less than 14 miles out of Hope on the first of May.

Louis Scherbauer, who is now brewer for the Princeton brewery, was in town this week.

Rev. J. T. Conn, who has been at Okanagan Centre since he left Princeton has been transferred to Ashcroft.

A young Englishman named Copeland was killed at a sawmill four miles from Penticton by a sawlog rolling on him.

M. Reeves, of Spokane, inspector for the Alliance and North American Insurance companies was in town last week.

Mrs. Hogg, of Summerland, came over last week to visit Mrs. Gillespie and is the guest of Mr. and Mrs. W.A. McLean.

The provincial government paid the funeral expenses of the late constable Aston and allowed the relatives three months' salary.

A child belonging to Tumas (Indian) died on Saturday, after a very short illness, as the child was in town only a few days before.

G. McEachern was operated on in Vancouver last week for appendicitis, and was making a satisfactory recovery when last heard from.

Remember that after May 1st, no person is allowed to put out fire for burning off slashings without a permit from the divisional fire warden.

Wesley Shier returned last week from Toronto where he has been attending the school of Practical Science and taking electrical engineering.

C. H. Brookes has gone back to New York. Mr. Plass met him in Spokane on his way in but Mr. Brookes had to go east and was unable to come in with him.

Dignan & Atkins, the live tinsmiths of Princeton, have taken over the outfit and stock of H. B. Meausette which they have added to their already extensive stock.

The Great Northern have taken over the road to Coalmont and inaugurated a train service but it is rather a skippy affair for it provides for only two trains a week, Mondays and Fridays.

L. W. Shatford M. P. P., is over in the eastern part of the riding this week with road supervisor Turner. He came up from the coast last week and on Saturday met Mr. Turner at Penticton.

The G. N. R. railway have brought in a steam shovel which has been placed in the old gravel pit and evidently they intend to do a lot more surfacing at some point in the valley, or make some fills.

Those who are contemplating going into poultry-raising will do well to note the success of white leghorns in the egg-laying contest now in progress on the coast, and see what Westwood & Brooke are offering in another column.

The water has come good and strong and Mr. Jones looks forward now to five or six months of ideal conditions on the power question with no more coal burning until it is required again for heating purposes, as well as the generation of steam.

The church service on Sunday evening next will be at 8 o'clock instead of 7:30, and that hour will be adhered to until the change is made again at the end of September. It will be Rev. Mr. Cameron's regular service and announcement will be made by him as to arrangements for subsequent services.

James. O. Loundagin, an Oroville merchant, was killed in an auto accident between Myncaster and Rock Creek last week. His wife was badly injured and a man named McIntyre received injuries that are expected to prove fatal, but a little boy, son of the man who was killed, was thrown by McIntyre on the upper side of the car as it was going over the embankment and by that means escaped injury.

The absence of H. A. Hincks, who is in England has detracted somewhat from the interest in the ladder matches of the Hedley Golf club this summer, so far as the men are concerned, but as the honor of the top in the ladies' competition has been in doubt the interest in that quarter will make up for it. On Friday morning a match took place between Mrs. Rotherham and Miss Emily Jackson for the coveted honor which had formerly been awarded by the handicap committee to Mrs. Rotherham. The result of Friday's match served to transfer the honor to Miss Jackson who won the match 2 holes up.

L. Harris, the bee man of South Vernon, who has been appointed Foul Brood Inspector by the Provincial Government, will give a demonstration in Keremeos on May 27th. All who are interested in bee-keeping should make it a point to attend and fruit-growers generally should be interested in bees for the bee is a most valuable ally of the fruit-grower.

Yorky arrived in town on Saturday from Princeton as sober and exemplary as a curate and brings wonderful tales of the water wagon stunts of Peck McSwain. In fact the adamant mantle of sobriety with which Yorky hit the town was of Peck's weaving and may Yorky's mantle never get any holes in it nor the weaver faultier in the good work. Now wouldn't it be funny if Peck were to inaugurate here in the Similkameen a movement which would spread like the "Catch My Pal" movement in the north of Ireland which made the name of Patterson famous?

The route between Penticton and Keremeos is now well provided for with two auto lines giving a daily service. Welby's auto leaves Keremeos on Tuesdays, Thursdays and Saturdays on arrival of the train from the west, returning next morning in time to catch the forenoon train up the valley and Tweddle's auto leaves Keremeos at the same hour on Mondays, Wednesdays and Fridays for Penticton returning to Keremeos the same evening on arrival of the steamer Okanagan from Okanagan Landing. Whether this may be worked into a daily mail service from Penticton does not yet appear.

The following marriage notice appearing in the Spokane Chronicle of April 23rd will be of interest to the older residents of Hedley who were here when the bride was a resident of Hedley: "Miss Vella Hamilton of Spokane and Thomas King, of Princeton, B. C., were quietly married Monday evening, April 22nd, at the home of the bride's sister, Mrs. Charles Joyner, of 04817 Madison street. The Rev. M.E. Bollen of Opportunity officiated. Only a few immediate friends of Miss Hamilton were present. The bride wore a pale blue crepe de chine gown. She carried bride's roses and was unattended. After the ceremony a supper was served in the dining room, which was decorated with daffodils and other flowers. Mrs. King has made her home in Spokane for several years. The couple will leave today for Princeton, where Mr. King is in business. Those present were: Mr. and Mrs. T. F. King, Mr. and Mrs. Charles Joyner, Rev. M. E. Bollen, Ned Joyner, S. McGregor and J. Horgan."

**Synopsis of Coal Mining Regulations**

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and may the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.

## KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

### Town and Lower Valley.

Ben Barlow went over to Pentiction Monday.

Six different autos pulled into Keremeos Monday.

Great doings at Keremeos on the 24th. See small bills.

H. N. Richby, of Summerland was in Keremeos on Tuesday.

Mrs. J. A. Brown will not receive this month nor again this season.

The postmaster took a run up to Princeton on Wednesday of last week.

Roland Smith returned to Keremeos after spending a few weeks at Pentiction.

No reports of any damage by frost—trees in fine shape and loaded with fruit.

Vincent C. Wilson, wife and family spent a few days in Keremeos last week.

George M. Louden, of Loomis, was up visiting his daughter, Mrs. Frank Richter.

Mrs. Geo. B. Clark and Bennie went to Princeton Wednesday returning the same day.

R. C. Armstrong says he is training a trotting horse for Victoria Day. Keep it dark.

H. B. Meausette went up the Ashnola Tuesday to do some more work on his pre-emption.

A. J. Breithaupt, formerly of the hydrographic survey, came over from Pentiction on Tuesday.

A party of joy-riders from Pentiction passed through Sunday on their way to Princeton.

Messrs. Boeing and Brass, of Hedley, started to work on the frame work of the quarantine station, Tuesday.

Maurice Daly and George Allison left Saturday to do assessment work on some claims in the Ashnola river district.

A meeting of Keremeos fruit-growers will be held on Monday evening, May 27th at 8 p. m., sharp, in the town hall to discuss general business, to be followed by a lecture to be delivered by L. Harris on bee-keeping. Everyone interested should attend. Ladies especially welcome.

The annual meeting of the ladies' aid of the Methodist church was held at the home of Mrs. Jas. Innis last Thursday p. m. The officers elected for the following year are: President Mrs. F. Gibson, Vice-president Mrs. E. M. Crooker, Secretary Mrs. R. L. Gibson, Treasurer, Mrs. D. J. Innis. It was decided by the ladies to have a booth on the 24th of May on the baseball grounds.

There is every prospect of a grand celebration here on Victoria Day. Keremeos Centre has very kindly consented not to have any sports so that there will now be no hitch in the programme. We hope that the Victoria day celebrations in the future can be held alternately between here and the Centre. We must pull together. After the kindness of the Centre sports committee we hope at Keremeos that every one of us will turn out next Victoria Day and make it a grand success at the Centre. Meetings of the committees were held last week to decide on all questions. The committees are as follows: baseball—J. A. Brown, C. Armstrong, W. Daly, M. Daly; horse racing—D. J. Innis, R. H. Hogg, E. M. Crooker; Athletics—W. Hope, L. Coleman, R. H. Carmichael, S. H. G. McCurdy; trap shooting—H. B. Meausette, E. M. Crooker, G. G. Keeler, R. H. Carmichael; dance—W. Hope Beach, Cawston, Robt McCurdy, L. Coleman, W. Daly. Anyone outside of the committees, having any suggestions to make will do a kindness by mentioning them to any committee-man.

### GENERAL NEWS

Professor Brownell, the well-known piano tuner, is spending a few days in the district trying to find the "Lost Chord".

Messrs. W. H. Mawhinney and T. A. Osborne went over to Summerland to attend the Methodist conference at that place.

Mr. and Mrs. Crandell Beamish and children, of Coalton, after staying three days with Mr. E. M. Crooker left for Vancouver Monday.

L. A. Flynn, who has been visiting his nephew, Dr. Connolly, left on Tuesday for his home in Kingston.—Salmon Arm Observer.

W. W. Taylor and C. and J. McElwain, of Sprague, Wash., passed through this week with some farm stock and settlers' effects.

The concert to be given by Miss Traub will take place in the Town hall Tuesday, May 16th. An excellent programme will be provided.

Mr. and Mrs. E. W. McFarlane and family, of Dunville, were through here in an auto this week. They were making a tour to see the country.

C. M. Sullivan, manager of the Okanagan Telephone Co., came in Sunday to look over the ground relative to establishing an exchange in Keremeos.

Great Northern officials W. D. Scott, general manager western division; R. C. Morgan, superintendent; and master mechanic Kelly went through to Coalton Wednesday.

J. C. Corwin, who controls most of the placer claims on the Similkameen, contemplates considerable development work this summer. He returned to Vancouver Saturday.

Some very mischievous persons hauled a buggy which was left alongside of the road between here and the Centre and dumped it over the grade. It's a dandy trick for grown up men to do.

Mrs. A. F. Kirby returned to Keremeos last Thursday feeling much better for her stay at Banff Hot Springs. While away Mrs. Kirby took a trip to Edmonton with her husband, George Kirby, who is doing fine in the real estate line at that place.

Mr. and Mrs. J. N. Jagg, of Bridgeport, Wash., came through with an auto on Tuesday and had the mistortune to have a breakdown while passing through town. They got the machine fixed up and proceeded on their way.

The Titanic relief fund has already mounted above the million mark.

The new council in the Yukon territory has just been elected and the majority are conservatives.

To counteract the rush to Canada, Iowa is going to teach her farmers how to farm scientifically, and short courses for farmers are being promoted.

Premier Borden has returned to the capital after his month's sojourn in Virginia.

James Osborne, general superintendent of the Pacific division of the C. P. R., died last week at his home on Shaughnessy Heights, Vancouver.

### WATER NOTICE

For a Licence to Take and Use Water  
Notice is hereby given that The Ashnola Power Co. Ltd., of Vancouver, B. C., will apply for a licence to take and use 30 cubic feet per second of water out of Ashnola river, which flows in an easterly direction through the Similkameen district and empties into the Similkameen river about 8 miles from Keremeos. The water will be diverted at the second canyon and will be used for power purposes on the land described as C. E. Oliver's Pre-emption. This notice was posted on the ground on the 29th day of March, 1912. The application will be filed in the office of the Water Recorder at Fairview. Objections may be filed with the said Water Recorder or with the Controller of Water Rights, Parliament Buildings, Victoria, B. C. THE ASHAWOTA POWER CO. LTD. 12-1 T. D. Pickard, agent.

## COPPER

The New Edition of the COPPER HANDBOOK, just published, is volume X, for the years 1910-1911, and required nearly eighteen months in preparation. It has 1902 Pages containing nearly one and a half million words or about twice as much matter as the bible. There are 35 chapters, and the book covers the Copper Industry of the World. COVERING: Copper, History, Geology, Geography, Chemistry, Mineralogy, Mining, Milling, Leaching, Smelting, Refining, Brands, Grades, Impurities, Alloys, Uses, Substitutes, Terminology, Deposits by Districts, States, Countries and Continents, Mines in Detail, Statistics of Production, Consumption, Imports Exports, Finance, Dividends, etc. Vol. X of the Copper Handbook lists and describes 8,130 Mines and Companies these descriptions ranging from 2 or 3 lines; in the case of a dead company, in which case reference is made to a preceding edition giving a fuller description, up to 21 pages in the case of the Anaconda, which produces one-eighth of the copper supply of the world. The chapter giving mine descriptions, which lists the largest number of mines and companies ever given in any work of reference on mines or mining investments, has been fully revised. The new edition of the Copper Handbook is a dozen books in one, covering all phases of the copper industry of the entire world. It is used by the managers of the mines that make ninety per cent of the world's output of copper and is used in every civilized country of the globe. It is filled with facts of vital importance to
