## MINING NOTES

The Kimberley mines are working 125 men this winter. This is the largest force the company has worked for years.—Phoenix Pioneer.

In the King Solomon, Joe Kelly has the makings of a big gold mine. During the winter he will put the King Solomon group on Beaver creek. The Big Four near Greenwood, and his Wallace Mountain claims into a company and raise enough money in Ohio to begin work in the spring.—Ledger.

Mineralogist W. S. Greevy of Altoona, Pa. who has been making a mineralogical survey of the mines and mineral claims of the Lemon Mining Co., situate about fifteen miles north of here in B. C., on Rock Creek, left for home last Friday, going by way of San Francisco where he will take in the fair. He made many friends while here who regret to see him leave. In his report to the company he recommended that a smelter be built on Rock Creek near Bridesville to handle the Lemon mine ore and ores from other mines in the district.—Molson Leader.

Two of B. C.'s mining companies will pay very substantial dividends next month, and the reports just issued are very gratifying.

The Standard Silver Lead and Silverton, will make payment, amounting to \$100,000, or 5 cent a share, on outstanding capitalization of 2,000,000 shares, will be paid in two instalments one of \$50,000, and regular monthly disbursement, December 10. The other \$50,000, the second consecutive Christmas present to its stockholders, will be paid December 18. The books for both distributions will close December 1. This is the second double declaration made by the Standard directors, the first, equal amount, was paid a year ago. This is the only previous dividend as high as \$100,000 declared by the company. It will make the 1915 payments \$250,000 and will increase the grand total to \$1,800,000.

The Rambler-Cariboo company, which owns and is operating the Rambler-Cariboo mine and mill at Three Forks, B. C., will pay \$17,500 or one cent a share on the issued capitalization of \$1,750,000 shares December 15, to stockholders of record December 6. This will make \$35,000 paid in October. It will increase the grand total to \$420,000. Payments aggregating \$385,000 were disbursed prior to suspension of distribution of profits about 12 years ago.—Miner.

Divine service will be conducted in the church on Sunday, Nov. 28th. Morning service 11 a.m. Subject: The Judgment. Evening Service: 7.30 p.m. Subject: The power of the will, in the acquisition or expulsion of knowledge. A hearty invitation is extended to all. Preacher R. G. Stewart.

J. C. Reilly has returned from the Upper Tulameen river. He has with him some small pieces of Platinum, also some of the different rocks of Olivine mountain showing platinum and gold mechanically combined. From rock in place he has assays from a trace to eighteen dollars a ton. This ore carries Diamond dust in appreciable quantity and some day there will be a method by which the dust can be extracted profitably.

## Keremeos Boy Tries His Hand at French

T. W. Coleman is receipt of a very interesting letter from his son who is at the front, and which we have great pleasure in presenting to our readers.  
Oct. 25th, 1915

Dear Father:  
It is some few days since I have written you but we have been having a rather rough time not on account of the bullets as much as the weather. Up till last night most of us have been sleeping out and we have had to put up with a lot of rain and cold wind. We are alright now though as we have a good barn to sleep in.

Received your letter of Oct. 3rd a few days ago and am glad that things are going along alright.

There seems to have been a good crop of both fruit and grain all over Canada this year. I would certainly like a taste of the fresh fresh fruit, that is one thing that we do not see over here. The only thing we get in the way of fruit is canned jam. On the whole we are well fed but we miss the "Dominion" hotel when we want a good dinner.

There does not seem to be anything of any importance going on near here. We saw a battle in the air this morning. It was quite close and we had a good view of the whole thing. The big guns fired until the British machine got pretty close to the Tube, then we could see and here the machine gun on the British, biplane firing. It was soon over. In about a minute the British machine turned away and the disabled Tube dived for the German line, but never got there. As he neared the ground he was greeted with a rattle of fire from our machine guns and he fell behind the Allies' trenches. Reports say they got another one later on but am not sure of it.

Our fellows have only been to the trenches the once and it looks as if we might not go back for awhile. I believe that the dismounted men are to be held here in reserve and to relieve any overworked infantry battalions.

I have not seen anything of the bundle Mrs. Frith sent, but it may turn up alright. Parcels sometimes take a long time. Some of them never get here at all too. Our London friends keep Ross and I very well supplied with tobacco, cigarettes etc. They are certainly good to us.

It is pretty hard work to write this letter. I am sitting in an "Estaminet" (combination of store and wine shop) and as we got paid today, the crowd tonight is fierce. There is a four-handed crib game in full swing on the other end of this table and there is plenty of excitement there to keep the table on the jump.

Had letters from Mable, and Aunt Bessie, and Aunt Lina during the last few days. Also had one from Mrs. Chatterton in which she said she had sent Ross and I some socks. I would like another sweater like the brown one I had. If you have any in stock you might send one to me. It is a long way I know but I don't see any other way to get one, I don't want anything only a dark color.

We have a great time counting money over here. We were just getting familiar with £, S, and d when we had to start working in francs and centimes. There is a great variety of French and Belgian coins, and mixed with pennies and half pennies it makes a regular puzzle.

I have a great time trying to talk French to the natives. They think it

## Over-Seas Club Tobacco Fund

Headquarters, Allwyck,  
London, England,  
The Postmaster,  
Hedley, B. C.

Dear Sir:  
Please accept my warm thanks for the contribution of \$25 your district has so generously made to our tobacco fund. Perhaps you would be good enough to display this letter so that those on your list may know that their subscriptions are sincerely appreciated?

Your Canadian lads have done magnificently at the front, and here in London we are extremely proud of the splendid courage and initiative they have shown.

I hope you will continue the good work. We must keep on sending them snokes, mustn't we?

The balance sheet for the first 12 months' working of the Overseas Club Tobacco Fund, prepared by our auditors, Messrs. Layton Bennett, of 31, Broad Street Avenue, London E. C., will be forwarded to you should you desire to see it.

Yours very truly,  
EVELYN WRENCH  
Hon. Sec. & Organiser

Howick, Lesbury, Northumberland.  
1st October, 1915.

Evelyn Wrench, Esq.,  
Hon. Organiser,  
The Over-Seas Club,

Dear Mr. Wrench,  
I was much interested to learn of the splendid response which the Over-Seas Club has been received from the Dominion of Canada to its appeal to provide tobacco and cigarettes for our brave men at the front. A total of \$31,000 collected from all parts of the Empire in twelve months is a result which I think we can all be proud of.

I was particularly interested to hear that such a large sum has come from Canada. I feel sure, that it was a very wise move on your part, making arrangements to supply Canadian manufactured tobacco for the Canadian troops.

The fact that the Central organization of the Over-Seas Club has administered this large sum of money without deducting anything whatever for expenses, from the generous subscriptions of residents overseas, is, I am sure, one of the contributory causes to the great success of the Over-Seas Club Tobacco Fund.

Yours sincerely,  
GREY

a good joke, because most of them understand good English better than they do bad French.

The noise is getting worse and it is about my turn to buy a round of "vin blanc" (white wine). Except for the name it is very like water, but as we cannot drink the water we have to drink the wine.

You can send this letter to Aunt Lina if you like as I don't get many blue envelopes.

Have not seen any more of the boys since I wrote last

Your affectionate son,  
L. S. COLEMAN

R. J. Smith, passenger and traffic manager for the G. N. R., was a visitor to town Thursday on one of his periodic trips of inspection. Mr. Smith is much improved in health after his long siege of illness in the late summer. He bids us hope for a daily service next year, which ought to be good news for Hedleyites.

## Corrigan Boys Given A Hearty Send-off

The West Yale Review, Hopes cherry little paper contains an account of the farewell to the Corrigan boys, Roy and Tom, which we append:

Our own Bill Corrigan has a postal photo of the boys with their father, which with pardonable pride he is showing to his friends.

The clipping is as follows:  
The Hope Theater was the scene of a merry function last Monday evening when a number of the friends and acquaintances of Privates Roy and Tom Corrigan met to honor the gallant brothers whose services have been accepted for the Empire's needs, and who will soon leave for England. Dancing was enjoyed to good music supplied by Mrs. Macnee, Miss Mellor, Messrs. Raymond, Beech and Bailey. A patriotic vocal solo by J. Pennie was well received, after which D. J. McRae addressed the gathering. The speaker referred to the splendid manner in which the Corrigan family had answered the call to arms, and wished for them a safe return when the fighting days were over. All joined in a hearty rendering of "They are jolly good fellows" and "Should auld acquaintance be forgot."

In the name of the Soldiers Aid Society, Mrs. J. P. Cunningham presented the soldiers with suitable gifts. Refreshments were then served after which dancing was resumed and kept merrily up till the "wee sma' hours."

The affair was hurriedly arranged but was none the less successful on that account. Credit is due Mr. and Mrs. Glass, who, assisted by a small army of willing workers, gave the boys such a send-off, the memory of which may help to lighten many a dark day in the trenches.

## Hedley Still Has the Record for Giving

The following from the Nicola News, published at Merritt, will certainly bring a smile to our readers when they see the joke:

"Nicola has sent to the front in cash, tobacco, and hospital supplies, over \$1000, which the residents claim is a record for British Columbia. \$17.45 has just been sent to the "World" Christmas Pudding Fund."

We dislike very much to put a damper on the poor fellow who in the pride of his editorial ability, boldly laid hold of pen and dashed off the above. We really don't like to hurt the feelings of a fellow being, but especially an editor.

Know ye, then O fellow men, Nicola's claim to a record is all smashed to smithereens.

The editor of the News never heard of Hedley Ladies Sewing Circle, so of course he is not to blame. But the ladies of Hedley have sent to the front more, far more than Nicola's proud record dares to claim, and the ladies have never even thought of claiming a record. And as far as plum duff is concerned, they sent a Christmas hamper containing a plum pudding and numerous other things to every Hedley enlisted man whether in Canada or across the pond. The last venture of the ladies netted over \$150, all of which went to get the hampers for the boys. And then there is the little matter of machine guns. Where, O where stood Merritt in the roll of machine gun towns?  
Alas! Alas! Poor Nicola!

The eye of the German Empire is on Canada in case of victory. To live under German rule will be the fate of every resident of this Dominion if the Allies are defeated, and that rule will be based on an implacable hatred for England. In recruiting Canada is not fighting England's battles only, she is fighting for the salvation of her own firesides—Victorian.

**THE DAY**

The war situation in Europe is favorable to the Allies everywhere except in Turkey and the Balkans. There the Teutons are prevailing both in war and in diplomacy. Turkey and Bulgaria were nominally neutral when the war began. They are both fighting on the side of Germany. Greece and Rumania were neutral, both inclined to the Allies, and both at one time pledged to fight on their side. Now the position of both is dubious. A large part of Serbia has been swept by the Teuton armies, which are still advancing. The Allies have fought with little success in the Dardanelles, and are only beginning to fight in the Balkans. Yet Mr. Bonar Law says that the situation pleases him better than it has for some time past.

The fact is that the great Allied Powers now know pretty well the strength and capacity of the enemy. They have stopped him in Flanders and France. They have held him up in Russia. They are forcing him back in the South. They have captured his colonies. They have driven him from the sea. They have destroyed one-third of his army, while their own steadily increases. Therefore, they face the hard and anxious situation in Southeastern Europe with confidence in the ultimate result. They know that the Germans will sooner or later have to dig themselves in on this field as they have elsewhere. The Central Powers and Bulgaria have a mighty army in Southeastern Europe. But they must reckon with powers which can and will produce larger and better armies. Reverses may happen before the Allies can meet the Teutons on equal terms in the Balkans, as they now meet them in France and Russia. But the time will arrive.—News Advertiser.

**Announcement of Pruning Schools**

In 1914, the first year Pruning Schools were opened, 25 were held, and in 1915 the number increased to 47. As those schools proved to be very beneficial to the fruit-growers, the Department has decided to offer them again. Some requests have already been made, and as there will undoubtedly be a big demand for them, it is hoped that applications will be placed as soon as possible.

The Department of Agriculture will provide a competent instructor, and his expenses. The local administration of the pruning schools will be placed in the hands of a responsible local body, such as the Farmers' Institute, the Fruit Growers' Association, or the board of Trade, who will be responsible for the guarantee of a minimum of eight pupils, (but not more than twelve), with the proper qualifications, at a fee of one dollar each, to take ten lessons of three hours a lesson, the school extending over five days. Where the number of pupils in a district justifies, two pruning schools may be arranged for, in

which the minimum guarantee will be sixteen pupils, and not over twenty-four. The local organization will also provide an orchard or orchards, where the instructor may hold the pruning classes, and a hall or room in which the lectures may be held.

Beside the actual practice in the orchard, of which the course will consist chiefly, where the pupils will prune trees under the supervision of the instructor, there will be lectures on the theory of pruning, which will include talks on pruning as related to the formation of fruit buds, and to the plant growth, also the subject of top-grafting undesirable varieties will be dealt with, along with many other points of interest.

The pupils will provide their own pruning tools, the necessary tools being a pair of pruning shears, a saw, and a pocket whetstone. A pruning pole and a light ladder may also be necessary for large trees.

The Department expects that the instructor will be met on his arrival by some responsible person, who can provide him with all the necessary information, so as to get the school under way without loss of time.

It hardly seems necessary to present to you the important advantages to be gained from a pruning school. Prun-

### TOWN AND DISTRICT

H. Wells, of Princeton, was in town over Sunday.

H. Sible, representing the B. C. Federationist, is in town.

Born—To Mr. and Mrs. John T. Naff on Wednesday, November 17th, a son.

Mrs. R. S. Collin will receive on Friday from 3.30 to 5.30 and in future 1st Friday of the month.

Word has been received from Neil McLeod, a former Hedley man that he was on his way back to Hedley; but hearing the call of King and Country decided to enlist and is now wearing the colors.

There will be service in St. John's Church next Sunday at 7:30 p.m.

Mrs. Stanley will be at home Friday from 3 to 5 and not again until the second Friday in the New Year.

Bob McCurdy and H. A. Turner motored to Hedley Friday evening returning to Keremeos Saturday.

Local golfers are still getting a few games these days between light snow falls. The weather has certainly been fine for the sport.

Owing to the sickness of Miss Halliday, who has been wrestling with a severe cold, Miss Bowerman taught the intermediate grades for a few days this week.

H. McOutcheon, government preventive agent was in town for a short time Tuesday. If we could only induce him to journey to Merritt to prevent that editor of the News from making too many records for Nicola, how happy we would be.

The numerous friends of Paddy Murray will regret to hear of his disappointment. He went to Penticton the other day for examination with a view to enlisting for Over Seas service, but owing to an accident which injured his ankle some years ago, failed to receive the doctor's O.K. Paddy is terribly disappointed but is resolved to do what he can at home to help on the great cause.

F. W. Swain, of Grand Forks, arrived Tuesday in the interest of the Singer Sewing Machine Co.

J. R. Mathews the genial representative of the Hudson Bay Co., paid our local hostesses his periodic visit Saturday. He reports business very fair throughout his district, which, by the way is getting no smaller as the frost settles down on the pumpkin. J. R. certainly has a splendid voice and knows how to use it too. His latest is "The light burning in the window of the little house upon the hill."

You Men Who Think You're Underpaid

Don't "cuss" your luck because your pay is small. Don't blame it on the boss. Don't think that the reason others get more pay is that they have more "pull" because it isn't so!

The men who get big pay are those who are trained to do work that is worth it. You have no special training, and you have to do work that any man with two hands can do; therefore your pay is small—and you, only, are to blame.

YOU can earn more—YOU can work with your head instead of your hands—YOU can give orders instead of taking them. No matter what you do, where you live, or how old you are, the International Correspondence Schools can come to you and train you for a better job.

Every year more than five thousand persons take the trouble to write to the I. C. S. that their salaries have been increased through this training. These who report are but a handful—tens of thousands of others are benefited.

For 24 years the I. C. S. have been training men having no education other than ability to read and write, no more time than the odds and ends so commonly wasted, and no more money than the little that could be saved out of small wages.

If you want to be a high-salaried man—to be somebody—prove your ambition.

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable mined and pay the royalty thereon. Coal mining rights are not being operated so returns shall be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,  
Deputy Minister of the Interior.
