AT THE APPLE SHOW

Press Opinions of Various Exhibits—
Honors for Kernmeos

Speaking of the district exhibits at
the Apple Show the News-Advertiser
has the following to say of the Ker-
meos display among those of other
districts.

"Perhaps the most beautiful of these
stands is that of Kernmeos. Not only
is the stall itself beautifully got up
and finished with pillars of mauve and
white, but the fruit display is arrang-
ed to the best advantage and with the
addition of a draped allegorical figure
pointing to a small tree growing and
covered with fruit it forms an attrac-
tive tout ensemble.

"Other stands, all of them beautiful
and each one of them sure to give all
kinds of trouble to the judges in mak-
ing their final decision; include that of
the Salmon Arm board of trade. Here
besides other magnificent fruit, there
is a wonderful display of the Stark
apple, which, while it is not the most
prepossessing apple in appearance, is a
most agreeable fruit to eat. This booth
is very handsomely decorated and
apart from the apples has some re-
markable photos, nearly six feet long,
of the city and the fruit ranches in the
vicinity.

"Grand Forks, too, has a great dis-
play in alternate reds, greens and yel-
lows, which are tastefully divided up
with flowers. West Kootenay is well
represented, and has its exhibit well
ticketed which is a great help to the
layman. Here there are apples from
Thrus for Barrie, Sirdars for Kitch-
ener, Nelsons for budding Admirals,
and Needles for the Ladies, besides
many other varieties, all of which
make up a splendid whole.

The Victoria Fruit Growers' associa-
tion has a great display of King of
Triumphs. The Kelowna board of
trade has a very neat and effectively
arranged show, and it is one which
will no doubt catch the judges' eye. It
is not too crowded, and the fruit it-
self is beautiful and is set off the best
advantage by the background of dark
velvet.

"Vernon has a large and artistically
arranged booth, and here are to be
seen a most varied display of Grimes
Goldens, Greenings, Newtons, Winter
Bananas, Snow Apples and Yellow
Belleflowers, and besides all these a
carload exhibit in the annex. Here,
too, are the Lady apples which come
to perfection about Christmas time. A
box of these is on exhibition which
was culled from a tree forty-five years
old, and to judge from a sample that
tree should be good for another half a
century at least. This booth is very
pretty arranged and has high up at
the back a handsome crown formed
solely of apples. There are also maple
leaves outlined with electric lights
which make the exhibit very effective.

"In the big district display the Kel-
owna board of trade was first, Grand
Forks board of trade was second,
Vernon board of trade third, Ker-
meos district fourth, and Salmon Arm
fifth.

The task of the judges has been one of
the most difficult which they have
ever encountered, and that they have
got through as speedily as they have
has been somewhat of a surprise to all
the exhibitors. A large amount of
labor is actually involved in this work
for in many cases the box or barrel, as
the case may be, has to be investigat-
ed to the bottom and the whole of the
entry has to be most thoroughly ex-
amined."

COUNTING THE CHICKENS

(Hedley Herald)
The past twelve months have wit-
nessed an increase of nearly 40 per-
cent in the population of Penticton.
In other words the population has in-
creased from 800 in the fall of 1909 to
1100 in the fall of 1910 if the same ratio
of increase applies by the fall of 1911
the population of Penticton will be
1510 and by the fall of 1912, 2350. By
the fall of 1915 the figures should be
well over the 5000 mark.

ADVERTISE IN THE GAZETTE

LEADERS COME TO TERMS

Irish to be Deprived of Powers That Now
Enable Them to Dictate to
Government

London, Nov. 4.—It may now be an-
nounced on the best authority that
the conference of leaders of the gov-
ernment and of the opposition to con-
sider the question of the house of lords
will result in the holding of a broad
constitutional convention next year
which will deal with the whole subject
of a federation of the empire. This
degree of understanding among the
leaders has been reached during the
last three weeks whereas a month ago
no agreement seemed possible. Its ex-
planation is the remarkable growth in
favor of federation among political
men of all classes.

IRELAND STUMBLING BLOCK

Ireland of course was the chief
stumbling block. It was found that
even the most radical members of the
government including Winston Church-
ill and Lloyd George, strongly op-
posed giving Ireland the degree of
independence possessed by Canada and
Australia. They were willing to ac-
cord her similar relations to the im-
perial government as Ohio has to
Washington or Ontario has to the
Dominion of Canada. The Unionist lead-
ers were ready to compromise on the
Irish question on that basis. The de-
tails of local government for Scotland,
Wales and England must be out next
year at the convention. Meantime
the constitutional questions will be
left in abeyance in parliament and by
mutual agreement between both parties
Mr. Redmond will be deprived of
all power to embarrass the govern-
ment, the Unionists, if necessary vot-
ing with the cabinet.

FOREST RESERVES

Likely to be Considerably Enlarged Soon.

In the report of the Superintendent
of Forestry which forms part of the
annual report of the Department of
the Interior, recently published, are
given many interesting details as to
administration and working of the
forest reserves.

The most striking development in
regard to the forest reserves is, of
course, the setting aside of the Rocky
Mountain forest reserve, a tract of
country aggregating some 14,400
square miles, some of which is already
reserved as National Parks (i. e., the
Rocky Mountains Park, the Kootenay
Lakes Park and Jasper Forest Park).
The great importance of this reserve
is due to the opportunity it affords for
the preservation and conservation of
the waters of the rivers which rise in
the Rockies and traverse the prairie
country and whose waters play so im-
portant a role in the fertility of the
soil of this, one of the richest farming
countries of the world. The forest on
the tract consists mainly of lodgepole
(or black) pine, Engelmann spruce and
Douglas fir. Very serious fires have
occurred throughout the reserve in
times past but the natural reproduc-
tion, over the greater part of the re-
serve at any rate is abundant.

Further extensions of the reserves
are contemplated, in fact, some of the
lands have already been reserved from
settlement, though not formally set
aside as reserves. Among the pro-
posed extensions are:—

To the Sprucewoods reserve, 70,000
acres.

To the Duck Mountain reserve, 136,
000 acres.

To the Cypress Hills reserve, 80,000
acres.

To the Beaver Hills reserve, 20,000
acres.

Similar action has been taken in re-
gard to a tract of 5,000 acres near
Spirit Lake, Sask. The foregoing ex-
tensions total 305,000 acres, or over
475 square miles.

A tract of land which includes
Mount Ida and the Fly Hills (near
Salmon Arm, B. C.) was also inspected
in the fall of 1909, with a view to its
being set aside as a forest reserve.

Much other interesting information
in regard to the reserves and the other
work of the Forestry Branch is given
in the annual report of the Superintend-
ent of Forestry above mentioned.
Copies may be obtained on applica-
tion to R. H. Campbell, Superintend-
ent of Forestry, Ottawa.

THE ORANGE CONCERT

The local Orangemen celebrated the
anniversary of Guy Fawkes with a
concert and dance on Friday evening
November 4th. This of course was
anticipating the event one day, but as
Saturday was not a desirable night for
the dance the date was moved on one
day. The concert was held in Fraser's
Hall and the dance in the hall over
Shafford's store. Rev. G. R. B. Kinney
occupied the chair and the entertain-
ment began with an overture by the
Princeton orchestra, after which the
chairman made his opening address
which had for its subject the Guy
Fawkes episode and its place in his-
tory. Mrs. Lyon followed with a violin
selection which was encored and Mr.
Jamieson sang a song entitled "Mona-
ch" in an acceptable manner. An inst-
mental trio, mandolin, banjo and
zither by Mrs. Coulthart, and Messrs.
Lonsdale and Dollemore was given in
good form and was followed by a
banjo selection by Mr. Lonsdale. Mr.
Oliver sang "Jack Come Home" ac-
ceptably after which came a duet by
Mrs. Forbes and Mr. Jamieson. The
accompaniments for Mrs. Lyon's
violin selection and for the vocal se-
lections by Messrs Jamieson and Oliver
and Mrs. Forbes were played by Mrs.
Sproule. At the close Mr. Jamieson
as Master of the lodge thanked the
audience for their patronage and those
who took part for the assistance lent.

The dance in Shafford's hall was
fairly well attended and excellent
music furnished by Princeton orches-
tra composed of Mrs. Lyall on the
piano, Mrs. Coulthart mandolin, Mr.
Coulthart violin and cornet and Mr.
Knight piccolo; their overture at the
concert gave those who were not pre-
sent at the dance an opportunity to
hear them.

LOCAL NEWS

W. J. Kirby, agent for the Norris
Safe and Lock Co. and the Hall Safe
Co., was in town on Monday, and on
Tuesday morning made a trip up to
the mine. The Hall Safe Co have a
few of their safes in Hedley but are
anxious to put in a larger size as more
representative of the general class of
safes they are now building.

W. E. Nichoff representing the Oli-
ver Typewriter Co. was in town on
Monday with an Oliver machine,
showing up its good points, and of
these the machine is certainly not de-
void. To those who like the double
shift key-board instead of the single
shift in use on the Monarch and Rem-
ington the Oliver should fill the bill
for it is a visible writer and does nice
work, its correct alignment and dur-
ability being points which it shares
along with the best of the other high
grade machines.

Complaint is made by some mem-
bers of the golf club that some other
members are in the habit of moving
boulders in the bunkers on Rocky
Ridge or the eighth hole. This is
against the rule, for the two rocky
ledges guarding the green were meant
for bunkers and if the ball lies in an
unplayable position beside any rock
or stone it must either be played as it
lies or lifted to a playable position
with the penalty of one stroke. To
pry out a boulder is to do an unfair
thing like the breaking of any other
rule of the game, besides it cannot be
done without spoiling the course by
making a deep hole which may make
a trap for someone else whose ball
may drop into it.

GENERAL NEWS

The hanging of Crippen has been
postponed until Nov. 23rd. Munyon
of Chicago believes he is innocent and
has offered \$40,000 to anyone who will
produce Belle Elmore, or will pay that
sum to Belle Elmore herself if she is
alive and will come forward and claim
it and thus save her husband.

Premier McBride has just paid a
visit to Prince Rupert, and made an
address in which better terms figured
prominently.

Reciprocity negotiations are now on
at Ottawa. Senator Sir Geo. W. Ross
ex-premier of Ontario has come out
flat-footed against it in a speech made
in Toronto.

LESSONS FROM APPLE SHOW

Apple growers in the Okanagan are pardonably jubilant over their success at the big Apple show in Vancouver which terminated there on Saturday last. The premier honors as decided by the judges went to Kelowna, but Vernon and Summerland were also strongly in the running and Keremeos which has had barely time to enter the lists was also close after them. For the chance which the Similkameen has had the showing made by the growers of Keremeos was in many respects remarkable and the exhibitors from that part of the valley deserve the greatest amount of credit from the whole Similkameen for the public spirit and enterprise they displayed in undertaking the heavy task of representing the district in a contest for supremacy which entailed such stupendous effort to attract any notice at all. In the Okanagan they have an exceedingly large acreage to choose from and the growers there have been specializing in a few varieties with which they have been able to accomplish great things. At Keremeos, with the exception of some three or four old orchards, the acreage planted in apples will require a few years yet before the trees come into bearing, and in the older orchards little attention has been paid to the growing of specimen apples for show purposes, the object being rather to secure as big a yield as possible with the minimum expenditure of time and attention. This year in Frank Richter's orchard at Keremeos there was taken from a single tree the immense crop of 32 boxes and it is not at all likely that any of the trees from which Kelowna's prize fruit was taken were required to carry any such load. Then again it is a generally accepted fact that the particular locality where any separate variety of fruit will attain an unusual degree of excellence will not produce other varieties of more than average quality and often not even average. To bear this out we find the particular localities that have been most successful as prize winners in apple growing cannot begin to hold their own in the production of peaches and other more tender varieties of fruit. It therefore must follow that the locality which can produce peaches and other tender fruits of a quality above the average commercial requirements and grow apples as well that are fully up to the average is the locality where fruit-growing can be followed with the maximum of profit and that is really the position in which the Similkameen and the Lower Okanagan find themselves today. Altogether we have much reason to be well satisfied with

the results of the big Apple show and the favorable showing the district has made.

In all Canada outside of Quebec the result of the bye-election in Drummond-Arthabaska came as a veritable surprise and was the first real set-back which Sir Wilfrid Laurier has had in his own province of Quebec since his accession to office in 1896. That Drummond-Arthabaska which was a Liberal stronghold when all the rest of Quebec was lined up solidly Bleu behind Sir John McDonald should now reverse a Liberal majority of 850 of 2 years ago with a majority of 200 against the choice of the Liberal convention is most significant, but just how much importance can be attached to it or what it really means from a political stand point is something the rest of the Dominion can know but very little about. The finger of Nemesis of course is to be seen in the fact that the very same arguments were used by the opponents of the Laurier candidate to defeat him that were used in Laurier's favor in 1896. In 1896 Laurier's friends told the electors of that constituency in common with the rest of Quebec that "Old Tupper" who had just come back from England, would bring about conscription and make their sons fight in Britain's foreign wars. Now Bourassa tells them that this will be the result of Laurier's naval policy. If, therefore, the defeat of the Laurier candidate was wholly brought about from that cause the Conservative party in Canada as a whole can derive little satisfaction from the result in Drummond-Arthabaska, for the main fault which they find with the naval policy is that it does not go far enough.

Town and District.

Greenwood boy scouts are likely to be disbanded because of rowdyism in the ranks.

Frank Bailey came in last week and is stopping in Hedley for a few days, looking after his mining interests in this locality.

O. Haus, of McLeod, Alta, inspector for the Bank of British North America, was in town last week inspecting the Hedley branch and spent a couple of days in town.

Bert Schubert returned on Tuesday to spend a few days at his home here. He has been employed during the past year with the Bank of Hamilton in North Vancouver.

The public ward of the hospital was taxed last week almost to its limit, every bed except one being taken up. Accidents played a conspicuous part in supplying patients.

A concert will be given in the Town Hall on Wednesday, Nov. 23rd, under the auspices of the Ladies' Aid. Admission and refreshments, 50 cents. A cafe will be in connection, also.

Yesterday's snowfall was the first instalment of the beautiful we have had at Hedley this season. There were several flurries up at the Nickel Plate which is generally expected, but this is rather early for down here in the valley.

Rev. G. R. B. Kinney preached in Hedley on Sunday evening last. By an oversight a notice of the service which should have appeared last week was left out owing to the hurry incidental to a holiday occurring in the early part of the week.

Bulldog Brown left for Vancouver on Tuesday where he has a seat on the stock exchange. It is his intention to spend the winter in Vancouver and it is not improbable that he may have some work done this winter by contract on properties in which he is interested.

Work is proceeding as rapidly as possible on the new road to the station. The dump cars are now being used to good effect, the cuts being filled as far as practical by caving. A seam of sand occurring at an awkward spot in the drift gave a good deal of trouble for a while.

On Saturday afternoon Rev. G. R. B. Kinney officiated at a pleasant function at the Great Northern hotel when he performed the marriage ceremony whereby Wm. J. Howe, of Princeton, and Miss Vivian Irwin, of Okanagan Co., Washington, were made man and wife. The happy couple remained in town over Sunday and on Monday they left for Princeton.

Messrs. Boeing and Brass have the contract of effecting various needed improvements in the hospital, part of which will be the finishing up of the top storey so as to make three more rooms and a hall; numerous changes in the basement; putting another door from the public ward into the bath room; another window in the operating room and a porch over the door.

If a few more opinions are expressed relative to the severity of the coming winter, people will begin after a while to think there may be something in it. Even weather wise Foster who always wants to be with the crowd is talking an unusually profitable winter for the coal man.

The big smokestack over the new battery of boilers at the power house gave out a column of smoke on Monday for the first. The fire put under the boilers was a light one and only a light pressure of steam was tried as the boilers had not yet been inspected by the provincial boiler inspector and the manager did not want to take any risk, the fire being put in merely for drying out. The inspector is expected along every day.

Good progress has been made during the last week putting in a six inch pipe down Ellis Street to give a bigger volume of water at the mill and also to act as an alternate line in case of trouble with the main down Scott avenue. Unless the coming winter should prove unusually severe and the water supply in Twenty-mile fail beyond the point expected the works should be in much better shape this winter than ever before.

H. A. Turner, road supervisor for the district was in town this week inspecting the work on the road to the station and was very well pleased with the progress being made and particularly with the low cost with which the dirt is being handled. Some days the present small gang are handling 115 cars a day and as the cars take a yard and a half at a load that is doing the work about as cheaply as anyone could want. On this trip he has with him the plans of the bridge and was making arrangements for having it built.

An illustrated write-up of the Similkameen appeared in Saturday's News-Advertiser. There appeared to be just about enough fact in the data employed to make the article interesting but not enough to give it value on the score of reliability. When the word "billion" is used in speaking of mineral output it begins to look as if there might be meditated design to make a camp look ridiculous in the eyes of those whose serious attention we would like to attract. The plain unadorned truth, at all events, is all Camp Hedley either needs or wants.

Local golfers are pleasantly surprised with the way in which the cold or wet weather has held off permitting the game to be played right along under most ideal conditions. The only drawback for some of the players is that night comes too soon, making it difficult to get in a double round of the links unless a start is made about 2 o'clock or shortly after, for the sun has a habit now of getting behind the mountain at a rather early hour.

O. H. Carle, the fruit man, was in town on Tuesday and reports that in a few weeks more there will not be an apple to be had in the valley as the output has all been bought up for shipment to outside points. Anyone who saw Frank Richter's orchard a couple of months ago certainly would not think it possible that there should be any scarcity of apples in the valley in this year of grace. Fancy those chaps over on the prairies munching our good apples and not one obtain here where they have been grown. About the only safeguard in the future will be for every one to plant a few trees for himself and grow his own apples.

A novelty in the jewelry line is to be seen in the window of James Clarke's jewelry store where it has been on display for a few weeks. It is a 400 day clock with a pendulum movement altogether new and unique, and the whole clock is contained in a glass case. While it will run for 400 days without re-winding it is supposed to be wound once a year. This clock should be the very thing for the man who forgets to wind the eight-day clock. He can make a rule to wind the clock at the same time when he sits up to watch the new year in and should he forget to do so then he still has 35 days' grace in which to wind up before the clock stops.

NOTICE TO DEBTORS

ALL PARTIES owing butcher bills to either A. J. King & Co. or to George Cawston are hereby notified their accounts are payable to the undersigned to whom all the book debts have been assigned by George Cawston. A speedy settlement of these accounts is requested.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

Town and Lower Valley.

O. H. Carle shipped a car-load of apples to Greenwood on Monday.

Mr. Emory was the guest of J. J. Armstrong for dinner on Tuesday.

Mrs. G. B. Clarke and her sister-in-law, Mrs. Flynn spent Tuesday in Princeton.

J. D. Lumsden and bride, returning from their honeymoon, passed through town on Tuesday.

Remember, cash buyers get a discount on every dollars worth bought at The Big Store.

I guess we have all paid our poll-tax. Max says although he is not from Missouri, he is working the 'show me' system.

M. J. McKeown who has been spending the past fortnight at Keremeos Centre in the interests of real estate, left on Monday for Medicine Hat, Alta.

U-NEEDA-SWEAT-er Coat, warm flannel Shirts, or winter caps. See ours at The Big Store.

The Customs officer at this point received a petrolometer from the Department this week. In future all oil received at this point will be tested before being passed.

A car of potatoes is being shipped by Mr. Gibson to Myncaster. A short time ago this district was shipping potatoes here but owing to the dry summer, there is a short crop this year. Irrigation has its advantages.

Mr. and Mrs. D. J. Innis paid Hedley a visit on the evening of the 4th and took in the concert and the dance given by the Orangemen of that town. They report having heard some excellent music, and the occasion a grand success.

Harry Meausette is spending a couple of weeks up the West Fork of the Ashnola. He is putting up some buildings and making preparations for putting in some fruit trees and ten or fifteen acres of alfalfa on his pre-emption in the spring.

James Critchley, of Hedley, is in town doing some repair work in the harness line for D. J. Innis and others who wish to have that class of work done. Jim says, if you care to you may send your old shoes to Hedley when he goes back and he will fix them up for you.

Friends of Jimmy Innis will be pleased to know, that he is fast recovering from the operation which he had performed in the Vancouver hospital a couple of weeks ago, and we hope to see him back in Keremeos again soon, strong and hearty. His brother Ed from the east has been with him.

Eat bread made from Robin Hood flour.—Special prices on ton and half ton lots.—Buy from The Big Store.

A number of small boys have been amusing themselves by throwing stones through the plate glass windows of the Armstrong building, which is occupied by Sauve, McCurdy & Co. The Armstrong Co. is getting right after the boys and the matter will not be dropped until all damages are paid.

Mr. Quaadvlieg, who recently bought the property on which Mr. A. Robertson resides, is putting in a flume from Goat Creek, by means of which he can irrigate a considerable larger acreage than that which is at present under cultivation. This is one of the most beautiful spots in the "Beautiful Valley" and cannot be excelled for fruit growing.

Dr. Drennan is leaving for the coast in a few days where he has interests, and thinks that he can do more for himself until such time as Jim Hill has a service that will carry him back through the Hope mountains. He has a couple of fine lots here but says it does not pay to work them without some means of transportation. Alf. Johnson of Princeton was the lucky purchaser of his big grey team a few days ago.

From Another Correspondent
Why not paint the church before winter sets in, it would look much better and besides it would save the building considerably?

E. M. Crookers new residence is about ready to move into. He intends moving in next week. It is in a good location and with the coming of spring his cot can be made one of the most beautiful in town.

J. R. Shaw's hay baling crew have finished their job, having baled in the neighborhood of a hundred and twenty-five tons of hay, most of which Mr. Shaw has already disposed of. He finds a ready market.

For Sale at a bargain—One single buggy. One set single harness (nearly new) one Saddle, one New horse blanket and one bridle—\$75 cash is the price. Inquire of W. D. Lawson.

Although our weather is more like spring than autumn, the cattle raisers of the Similkameen deem it a wise idea to gather their cattle in off the ranges for the winter. They have sent their cowboys to Princeton for that purpose.

Harry Conkling has just completed a very spacious apple cellar for Joe. Armstrong, of the Keremeos Land Co. This cellar is something new in these parts being of cement and lined with a fibre known as leith and guaranteed to keep Jack Frost out at any stage.

Mr. Chand Snowden, of Princeton, after spending a few days about Keremeos left for the Ashnola to take care of the sheep and the sheep hunters. For camp equipment on such an outing, Mr. Snowden says a gun and ammunition, a blanket, a few matches and a pack horse are the only real necessities. He intends spending two or three weeks alone in the wilds of that great sheep country.
