MANITOBA RINGS TRUE

By-election in Macdonald Gives Reciprocity Another Knockdown

MORRISON'S MAJORITY 847

And Government's Majority a Year Ago was Only 161—Saskatchewan Ministers and Other Election Corruptors Meddle in Contest and Endeavor to Stampede Electors

WINNIPEG, Oct. 13.—By a decisive majority of 847 the electors of Macdonald on Saturday returned the government candidate, Alex. Morrison over R. L. Richardson who ran on an independent Liberal and grain growers' ticket in which he put reciprocity and an increased British preference to the front. The figures are subject to a slight revision.

The entire vote cast is heavy and runs over 9000 as against 5751 cast in the last general election when W. D. Staples, Conservative, had a majority of 161, the vacancy being caused by his appointment to the Dominion Grain Commission.

Conservatives acclaim the victory as the last nail in the coffin of reciprocity. Liberals make charges of impersonation, plugging and bribery. The by-election excited keen interest throughout Canada being regarded as something of a test of reciprocity sentiment in Manitoba. Several cabinet and ex-cabinet ministers were engaged in the campaign on one or the other side.

Premier Roblin hails the result as being not a mere party victory but a verdict of national import delivered on behalf of Manitoba by the honest well-to-do farmers of Macdonald. It is a further step towards realization of Chamberlain's dream when the motherland and all the overseas possessions shall be joined together with an imperial preference that will make the British empire one and indivisible.

Hon. Robert Rogers sees in it a rebuke to the meddling ministers of Saskatchewan and Alberta and says: "The people of Macdonald strongly resented the invasion of the constituency by the members of a government like that of Saskatchewan who stand convicted of being the only government in Canada to have defied British law and justice in order to hang on to office. This they did by locking the doors of polling booths to thousands of British subjects while the same doors were open to thousands of aliens."

METEOROLOGICAL.

The following are the readings showing temperature, etc., for the week ending Oct. 12, 1912:

WAS GOOD FOR THE WEST

What Defeat of Reciprocity Has Done for a Saskatchewan City

While Sir Wilfrid Laurier and his little bodyguard are preaching reciprocity in the east, western Canada is enjoying benefits directly attributable to the defeat of reciprocity. Take the case of the city of Moose Jaw, Saskatchewan. Reciprocity would have taken the wheat from western Canada down into the United States to be ground into flour in the mills of Minneapolis and elsewhere. The defeat of reciprocity has had an exactly opposite effect. American millers are building in western Canada. Minneapolis milling interests have gone to Moose Jaw.

IN CANADIAN ELEVATORS

Reciprocity would have sent Canadian grain across the border over American railways to American elevators. The defeat of reciprocity has assured extensive terminal elevator facilities to the city of Moose Jaw. It has brought, or is bringing a large American automobile and tractor industry to Moose Jaw. It has greatly developed a meat-packing plant in Moose Jaw. What is true of Moose Jaw is generally true of the cities and towns of Canada's great and growing west.

REFORM THE LORDS

Next Unionist Government Should Undertake Task, Says Lord Selborne

London, Oct. 11th.—Earl Selborne, speaking before the National Unionist Association at Southampton, stated that the present fiscal policy was forming the rich men into a plutocracy under the influence of the government. He added that the appeal of the political parties for reform was on one side prompted by patriotism and on the other side by mammon and gammon.

Lord Selborne stated that the first task of the next Unionist government should be to reform the lords, who, he believes, are badly in need of a cleaning up. The Liberal government, he thinks, is living at the present time without a constitution, and the fact accounts for the great revolt against home rule in Ulster.

GIVING NOTICE IN TIME

Department of Agriculture Issues Instructions to Farmers

Victoria, Oct. 11th.—The provincial department of agriculture has issued a notice to farmers in connection with the field crops competitions for next year, so that the necessary preparation of the land may be included in their programme of work this fall. The rather late date at which, unavoidably, these competitions were announced last spring, no doubt prevented many farmers' institutes from entering but nevertheless 200 of their members competed.

These competitions are conducted under the joint auspices of the Dominion and Provincial Governments. Any farmer may compete with one or two, but not more than two of the following crops: oats, barley, wheat, and red clover, two acres; peas, butter corn and alfalfa, one acre; potatoes, turnips, mangels and kale, half an acre; field carrots, quarter acre.

ANOTHER WATER ROUTE

For Prairie Wheat—Surveyors Are Making an Examination of the Upper Columbia

Nelson, Oct. 11th.—Surveyors have commenced work on the Upper Columbia River with a view to determining the feasibility of opening up a new water route for prairie wheat to the Pacific coast via Robson, at the foot of the Arrow Lakes and down the Columbia River to Portland, Ore. Engineers are making the survey on an appropriation of \$36,000 made by the Federal Government for the purpose. The route would be some hundred miles shorter than the railway line to Vancouver in addition to offering the advantages of water rates.

THE HUDSON BAY RAILWAY

Last Section Contracted—Government Has Done More in One Year Than Predecessors Did in Fifteen

The government has let the contract for the last section of the Hudson Bay Railroad extending from Split Lake to Sidewater, so that today a year after the return of the government to power the whole line from Le Pas to the Bay is under construction or contract. The terminus has not been definitely announced, although it will in all probability be Port Nelson; in fact the contract has been let with the understanding that it will be Nelson unless information received from the engineers shows that the establishment of a harbor there is not feasible.

MAKING A RECORD

Hon. Frank Cochrane, minister of railways and canals, is living up to the announcement he made shortly after his entering upon office of "Full Steam Ahead on the Hudson Bay." He has made somewhat of a record on the Hudson Bay Railway. In one short year he has accomplished more than the Liberals did in fifteen years of power.

ANNUAL PROMISES

The Laurier government made annual promises to build the road; just before every election was a big flourish, it was announced work would be rushed on the Hudson Bay Railway. In 1904 and 1908 the Liberal campaign slogan in the west was actually "Laurier and the Hudson Bay Railway." The west, however, had to be content with promises and by 1911 all that had been started was a bridge at Le Pas and some survey work. A couple of weeks before the last election, the contract for the first section from Le Pas was let; it was not regarded more than an election contract. To-day finds some two hundred miles of the road under construction and the remainder of the line to the Bay under contract. By 1914 the whole road will be completed and ready to help move the west's wheat crop. It will furnish a new outlet for the grain of the prairie provinces, will provide a far shorter route to Great Britain and will serve as a regulator of freight rates for the transcontinental lines.

EXPEDITIONS TO BAY

Mr. Cochrane found when he entered office, that not only had there been no construction work but there was only the most meagre information in the department in regard to the harbors, the length of time the Bay and Straits were open for navigation, the aids to navigation which would be necessary, etc. Although winter was approaching expeditions were sent overland from Winnipeg headed by expert engineers to make thorough reports on the two harbors of Nelson and Churchill. One of the best known harbor engineers in Canada, W. Hazen, formerly with the Canadian Northern Railway, was despatched with a large party to make plans for harbors, terminals and dock requirements. Without proper terminal and dock facilities a railroad to the Bay was useless and Mr. Cochrane set energetically to work to plan the water side of the work so that by the time the road reached the Bay steamers will be ready to carry the west's grain to Europe. Two steamers early last spring were despatched to the Bay and have been busy all summer making surveys and studying the navigation requirements of the route. One of the steamers, the Arctic, will remain in the Bay until driven out by ice in order to demonstrate just how late the Bay and the Straits are open for navigation.

ENTHUSIAST ON THE LINE

Hon. Frank Cochrane after his canoe trip over the route of the road, and thence by water to Nova Scotia, has become an enthusiast on the line. He believes that the Hudson Bay route is perfectly feasible, and is putting his belief into practical effect by the way he is rushing the work ahead. That it will be as valuable to the east as to the west is the opinion of Mr. Cochrane. It will furnish a cheaper route for the manufactured products of the Maritime Provinces and the east to the west.

DOWN THE COQUIHALLA

Construction from Hope to the Summit of the Range Will Cost \$100,000 a Mile

The Kettle Valley line has a survey party in the field locating the final lines for the section down the Coquihalla river valley from the summit of the Hope mountains to Hope, on the Fraser river, a distance of forty miles. This section will be used jointly by the Kettle Valley company and the Great Northern.

Mr. C. S. Scymour, chief engineer in charge of the survey, is in Vancouver on a holiday. He estimates the cost of this work at \$100,000 a mile. The Fraser river will be bridged near Hope, at a probable cost of \$750,000. There will be seventeen tunnels between Hope and the summit and the grade as against eastbound traffic will for a portion of this distance be 2.2 per cent., compensated on curves. On the preliminary survey in Coquihalla canyon Mr. D. Allerton, a young engineer, while making observations, fell over a cliff and was killed.

BRITAIN'S DIVORCE MILL

Another of the Evidences of Decadence.

London, Oct. 11.—For the sittings of the Admiralty and Divorce Court, which opens tomorrow, no less than 622 divorce cases are down, a total which exceeds that of last year by 144. Of the cases 339 are undefended. This has given fresh ground for the widespread feeling that the ease with which divorces are granted the well-to-do is sapping the morality of the middle classes.

THE SCHOOL MAGAZINE

The School Magazine edited by Capt. Olive Philipps Wolley for the Education Department of British Columbia has resumed publication after the holidays, and the latest number is June-September. A most interesting feature of the number is the Armada, July, 1588, which will make excellent reading for the pupils in connection with their history lessons. The editor had evidently been drinking deeply from the wells of Robert Louis Stevenson lately and as a result several Stevenson gems are strewn here and there through the number. And if it contained nothing else the following excerpts from Kipling's "The English Flag" will make it a wholesome number to go into the hands of pupils in the public schools of the province: With it the editor gives the explanation that "the Wind is speaking through our universal interpreter Rudyard Kipling". It would be an excellent idea for teachers to have pupils memorize gems like this:

Never was isle so little, never was sea so lone,
But over the sand and the palm-trees
An English flag was flown.

I have spread its fold o'er the dying, adrift
In a hopeless sea;
I have hauled it swift on the shaver, and seen
The slave go free.

Never the lotus closes, never the
wildfowl wake,
But a soul goes out on the east wind
That died for England's sake;
Man or woman or suckling, mother
or bride or maid,
Because on the bones of the English
The English flag is stayed.

GENERAL NEWS

Col. Sam. Hughes, Canadian Minister of Militia, who is now on a visit to England in quest of pointers which may enable him to increase the efficiency of the forces in Canada was recently the guest of the admiralty and permitted to make a cruise underneath the waves in a submarine.

Mayor Findlay of Vancouver will seek a second term.

Ten children who had been doped with soothing syrup to make them sleep while their parents were at a neighbor's house playing cards were burned to death in Quebec.

Horses are being shipped into the Canadian northwest from Belgium.

Attempt was made by professional burglars to rob a branch of the Bank of Vancouver. The chrome steel of the inner wall of the vault was the first thing that retarded them and prevented them completing the job within the time at their disposal.

WHEN WRITING ADVERTISERS PLEASE MENTION THIS PAPER

ADVERTISE IN THE GAZETTE

The Hedley Gazette

and Similkameen Advertiser. Issued on Thursdays by the Hedley Gazette Printing and Publishing Company, Limited, at Hedley, B. C.

Subscriptions in Advance Per Year \$2.00 (United States) 2.50

Advertising Rates Measurement, 12 lines to the inch. Land Notices—Certificates of improvement, etc. \$7.00 for 15-day notices, and \$5.00 for 30-day notices.

Transient Advertisements—not exceeding one inch, \$1.00 for one insertion, 25 cents for each subsequent insertion. Over one inch, 10 cents per line for first insertion and 5 cents per line for each subsequent insertion.

Changes for contract advertisements should be in the office by noon on Tuesday to secure attention for that week's issue. Advertisements will be changed once every month if advertiser desires, without an extra charge. For changes oftener than once a month the price of composition will be charged at regular rates.

Contract Advertisements—One inch per month \$1.50; over 1 inch and up to 4 inches, \$1.00 per inch per month. To constant advertisers taking larger space than four inches, on application, rates will be given of reduced charges, based on size of space and length of time.

Calendar for October 1912 showing moon phases (Full Moon, New Moon, Last quarter, First quarter) and a grid for the days of the month (Sun. Mon. Tues. Wed. Thu. Fri. Sat.).

IS BRITAIN DECADENT

Is Britain decadent? Premier Borden says No. Sir Thomas Whittaker, an English Liberal M. P. who recently addressed the Canadian Club in Vancouver, said No. Lord Roseberry in addressing the editors from overseas two years ago assured them that she was not. But all of these gentlemen were more academic than practical in their method of treating the question and advanced few arguments to bear out their claims.

No one would have the hardihood to affirm that in the same period we have mentioned Japan has shown decadence but the very opposite, for the advance of a nation from the rank of an obscure third-rate power to the proud position of victor over a first-rate power is ample proof of it.

and later stages of the great revolution following immediately on the execution of Louis XVI and Marie Antoinette that made France the terrible factor which she proved in European politics, and it was that national sentiment and the system of conscription which grew out of it that changed France from a merely martial people to a military people.

We require no better illustration of this than the recruiting that was done through Britain for the war in South Africa and it was most painfully apparent in many of the miserable fiascos as the result of that recruiting which brought shame and loss of prestige to British arms.

But the question is, what is the remedy? The service is becoming unpopular in Britain both in regard to the regular troops and the militia. Neither can we blind our eyes to the fact that the same may be said of the colonies. Canada undertook to recruit the garrisons at Halifax and Esquimaux vacated by British regular troops and what success have they made of it?

and later stages of the great revolution following immediately on the execution of Louis XVI and Marie Antoinette that made France the terrible factor which she proved in European politics, and it was that national sentiment and the system of conscription which grew out of it that changed France from a merely martial people to a military people.

We require no better illustration of this than the recruiting that was done through Britain for the war in South Africa and it was most painfully apparent in many of the miserable fiascos as the result of that recruiting which brought shame and loss of prestige to British arms. British regular soldiers who had fought the Empire's battles in many lands have told the tale time and again that their lives were needlessly sacrificed in South Africa as the result of the notices sent out from London city under the name of yeomanry to do scouting for them, and these were in many cases youths who had never been out of London and knew nothing of either a rifle or a horse.

But the question is, what is the remedy? The service is becoming unpopular in Britain both in regard to the regular troops and the militia. Neither can we blind our eyes to the fact that the same may be said of the colonies. Canada undertook to recruit the garrisons at Halifax and Esquimaux vacated by British regular troops and what success have they made of it? Besides, this year many of the militia battalions went out to annual training sadly under strength.

WATER NOTICE

For a Licence to Take and Use Water Notice is hereby given that The Daily Reduction Co., of Hedley, B.C., will apply for a licence to take and use 10000 miner inches of water out of the Similkameen river, which flows in a southerly direction through Hedley, B. C., and empties into the Okanagan river near Omville.

TENDERS WANTED

Bids will be accepted until October 15th for the delivery of the following at the foot of the tram. 20 tons potatoes, 1 ton Onions, 3070 lbs cabbage, 1800 lbs turnips, 2500 lbs carrots, 600 lbs beets, 1800 lbs parsnips, of good serviceable stock suitable for table use.

Advertise in the Hedley Gazette and watch Results

WATER NOTICE

For a Licence to Take and Use Water Notice is hereby given that the Similkameen Power Co., Ltd., of Vancouver, B.C. will apply for a licence to take and use 30 cubic feet per second of water out of Ashpola River, which flows in a north-easterly direction and empties into the Similkameen river near Keremeos.

WATER NOTICE

For a Licence to Take and Use Water Notice is hereby given that Gold Plate Mines Limited, Non-Personal Liability, of Hedley, B. C. will apply for a licence to take and use two thousand gallons of water out of an unnamed creek, which flows in a south-westerly direction through a marsh about 1000 feet east of Lot 902, and empties into the north fork of Twenty-mile creek near junction of the north and east forks thereof.

WATER NOTICE

For a Licence to Take and Use Water Notice is hereby given that I. J. Robert Brown, of Vernon, B. C., Indian Agent, Okanagan Agency will apply for a licence to take and use 3 cubic feet of water out of Keremeos Creek, which flows in a westerly direction through Reserve No. 1, and empties into Similkameen river near Keremeos.

Town and District.

In Hedley on October 13, to Mr. and Mrs. G. McElahearn, a daughter.

There has been quite an epidemic of grippe in the valley during the past fortnight.

T. D. Pickard went over to Fairview the end of last week and returned on Monday evening. Last week he went over to the Apex.

The Manitoba Fire Insurance Co. have changed their name and are now to be known as the Liverpool-Manitoba Assurance Co.

Mrs. L. A. Clark of Green Mountain is visiting her daughters, Mrs. W. J. Forbes and Mrs. D. J. Innis who is stopping with Mrs. Forbes.

The frosts of the past two weeks have been showing their effect on the foliage and as a result the gardens in town are showing the sere and yellow leaf.

Chung Lonie purchased the cabin on the east side of Scott avenue and south of Fraternity Hall belonging to W. A. McLean and had it moved down to Chibatown.

Dr. McEwen, H. H. Messenger and E. E. Burr went out deer hunting Sunday but the chase was not blessed with success. A little bit of snow would help out considerably.

There is a marked over-production of potatoes this year and as a result the price of this useful tuber must stay around the foot of the ladder while its associate the beefsteak is climbing.

Hermann Zibler, shoemaker, who came here from Ymir about five years ago and was crippled in an accident he received shortly after, is going to the Old Men's Home in Kamloops shortly.

The Mining and Scientific Press said that M. K. Rodgers passed through San Francisco on the way to Guanajuato via New York. Harry Rodgers has returned to Seattle from the Stikine country.

Some of the cattle are beginning to come down the river. No person seems to be in charge of them and it looks as if they have been sizing up the weather for themselves and decided to take a trek on their own account.

Lawyer Fitzgerald of Oroville spent Sunday with C. H. Brookes. Mr. Fitzgerald told the Gazette that they were still waiting patiently to find out what those people back east wanted to do or what explanation they had to make, but as yet they had not been advised of anything.

The Duke of Connaught presented Capt. G. L. Esterbrook of the steamer Okanagan with a handsome gold breast pin as a memento of his visit. On the pin is the Garter with its insignia encircling the Duke's monogram surmounted by a coronet set in rubies and emeralds all on a twisted gold wire.

L. C. W. Rolls went on to Victoria from Kamloops last week after completion of the trial at which he was a witness for the prosecution. In all probability he and Hincks will have a trial at golf on the Victoria links and it would be interesting to know how it would come out as they were so neatly matched in their play on the Hedley links.

The secretary of the school board says the school flag was worn out and the arrangement made by the department was that they would supply the flag pole and the board should provide the flag. In that case it is up to the department to send on a new flag, and to the board to get a new rope. The Gazette will loan a flag until a new one is sent.

Don't lose sight of the fact that no stock company doing business in life insurance and having to pay dividends to its shareholders on watered stock can do as well for you as a mutual life company which has no stockholders' dividends to pay and can give all the profits to the policyholders to whom they really belong. A few cents less in the annual premium than other stock companies charge or even less than the Mutual charges is only a bribe and does not cut any figure. They'll take it all out of you in another way by keeping you out of your fair share of the profits in order that the stockholder may have his dividend.

The Superintendent of Education sent out a circular to the schools in the province to have exercises commemorative of the anniversary of Sir Isaac Brock, but they were so late in being issued that some schools would not get them until after the date was past and none of them would have sufficient time to prepare for it. It was the same way in reference to the notice for university affiliates a few

months ago and many were left out because they did not learn of the matter owing to delay of the department in getting out the necessary notice. It was one of the Saxon kings who earned for himself the title "Ethelred the Unready" but B. C.'s superintendent is fast earning a right to the soubriquet "Eleventh Hour Sandy."

Mr. I. L. Merrill, president of the Hedley Gold Mining Co. came in on Tuesday accompanied by his son Carl Merrill and Mr. W. B. Dickson, vice-president of the company. Yesterday they went up to the mine and while we understand it is the intention of some of the party to go out on Friday it is hoped that Mr. Merrill at all events will be able to prolong his stay a few days more. The greens on the golf links have lately been touched up a bit and are in better condition, and while some of the better players who were able to give him a go, are not here at present, he might find sufficient fun in beating "the best ball" of some of the lesser lights, for there is hardly anybody left who can tackle him single-handed.

Constable Sproule returned last week from Kamloops, bringing back most of his witnesses from the trial of Blair and McGillivray, both of whom were convicted. Two trials were necessary as the jury in the first case disagreed. The second jury only were out about ten minutes until they returned their verdict of "guilty." The fact that the judge was so convinced of their guilt that he ordered a second trial and that he charged the jury so strongly against them makes it all the more strange that he should let them off on suspended sentence. In all probability they will be back here looking for the rest of the money they failed to get away with. It was Mr. Justice Morrison who tried the case and he was also the judge who gave three years to Gunn four years ago for stealing \$20 and a watch from a drunken man who was sleeping. These chaps stole over a \$100 from a half-drunken man who was awake. The evidence although in a great measure circumstantial was stronger than that secured in the Gunn case. Altogether there is much dissatisfaction expressed locally with the leniency shown and some think that it will encourage others to a like course. For less than that they used to suspend the prisoner instead of the sentence.

GENERAL NEWS

The Ontario government will not permit bilingual schools in that province.

Twelve hundred more Doukhobours have come into the province from Saskatchewan.

The Pacific and Great Eastern made a forward movement last week when an agreement was arrived at between that corporation and the Howe Sound railway by which the former takes over the rights and powers of the latter.

Sir George Murray whose services were secured by Premier Borden to report on the Canadian civil service has already begun his investigation.

The British cabinet is considering the matter of Britain's position with reference to the Panama canal as effected by the United States canal bill.

The finance department of the Dominion government deny that any special permission had been given by them to the C. P. R. to increase the stock issue. The C. P. R. shareholders say they didn't need such permission as their charter gave it to them and for precedent they instance the fact that they had done so before under various governments and will do so again whenever their growth and expansion and the needs of the country demand it.

Roosevelt has struck a boom in his campaign at last. He was lucky enough to have a crazy crank take a shot at him and draw a little blood. If Teddy doesn't make it tell for a few extra votes it will not be his fault.

Boston and New York are tied for the world's championship in baseball with three games each. The remaining game will tell the tale.

J. R. EDMOND

Hedley, October 7th, 1912.

Sealed Tenders addressed to the undersigned, and endorsed "Tender for Wharf at Seymour Arm, B. C." will be received at this office until 1.00 p. m. on Tuesday, October 29th, 1912, for the construction of a Pile Bent Wharf at Seymour Arm, District of Cariboo, B. C.

Plans, specifications and form of contract can be seen and forms of tender obtained at this Department and at the offices of C. C. Worsfold, Esq., District Engineer, New Westminster, B. C.; F. W. Aybuer, Esq., District Engineer, Chase, B. C.; and on application to the Postmaster at Vancouver, B. C.

Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.

Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 per cent) of the amount of the tender, which will be forfeited if the persons tendering decline to enter into a contract when called upon to do so, or fail to complete the work contracted for. If the tender be not accepted the cheque will be returned.

The department does not bind itself to accept the lowest or any tender.

By Order

R. C. DESROCHERS,

Secretary.

THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

Town and Lower Valley.

Miss E. M. Daly was a visitor to Hedley Friday.

M. C. Kendall of Penticton was in town Thursday last.

H. Turner of Calgary was a visitor to town last Thursday.

Chief Constable Dinsmore was in town a couple of times last week.

Claude M. Snowden of Princeton was in town Monday and Tuesday.

Miss Annie Innis of Hedley spent the week end with her parents here.

A. Robertson has just got in a car load of feed. How are you off for oats?

Nothing doing in the gold line this week but will be there with a big spiel shortly.

Miss E. Stone, representing the Vancouver World, was in town last Thursday.

H. A. Ames, manager of the Richter store, paid a business visit to the near Kootenays.

F. B. Gibson left for Ahumeda, Sask. last Wednesday on a combined business and pleasure trip.

M. Moody of Penticton rode over on his wheel Saturday last and spent the week end with W. M. Frith.

Sunday last the pack train of the trans-provincial survey party, passed through on the way to Princeton.

Mr. Joe McDonald and party of Seattle business men were registered at the Hotel Keremeos last week.

Apples! Apples!! Apples!!! the best in the world grown in Keremeos, send in your box or carload orders.

Mrs. Barnes after an enjoyable visit with her son Mr. Carmichael left last Thursday for her home in Toronto.

W. Willis, T. H. Osgood and F. J. Corwin of Seattle were in for a few days last week looking over the district.

H. C. Frith of Port Mann Townsite fame, bought a fine Indian Motorcycle and now he is selling an extra lot or two a day.

Boarding cars are in again, this time with the bridge crew. The cook has a dandy triangle and everyone in town is up a little earlier this week.

R. C. Clark has another car load of lumber in to put into his new residence which Messrs. Cutler and Jordan have the contract to build.

C. E. Butch of Penticton brought over a party from the south Okanagan capital to get some of the beautiful ozone of the Similkameen valley.

A meeting of the Liberal-Conservative Association is called for 2:30 p. m. at the town hall, Saturday when some important business will be transacted.

O. J. Bergoust, C. C., and assistant, Joe Mason, after completing the surveys of streams of the Similkameen watershed left for Kelowna last Wednesday.

Mrs. Daly, Miss Florence, Miss Corrigan, Tom and Maurice Daly, George Allison and John Wirth started out early Sunday morning for a hunting trip up the Ashnola river.

H. H. George, V. S., who is acting veterinary inspector in Mr. Thomson's place left Tuesday for Kamloops to spend a couple of days. He expects to be back by Monday next.

A company known as the Hawaiian Musical Entertainers played the Richter Hall last Wednesday evening to a good crowd and provided considerable amusement for the boys and a little annoyance to the ladies.

How is your wind, boys, for the herosse game on Friday? Guess some of the players figure they are such whifwinds they don't need to practice. It will be alright if Penticton are not practising but if they are, Well! back up Similkameen.

W. G. Mattice and W. C. Bowen shipped the first carload of apples so far this season. The car contained 720 boxes of different varieties of which were Jonathan, MacIntosh Reds and Bellflowers, consigned to Claresholm, Alta.

On Sunday last the Rev Cleland of Penticton held English Church services in the school house, both services being well attended. In the evening there was no Methodist service held and most of their congregation turned out to the English Church service. Rev. Mr. Cleland after his sermon made mention how deeply he appreciated the kindness of the pas-

tors and congregations of other denominations being present at his evening service.

O. H. Williams, C. E., and party have arrived in the Similkameen valley for the purpose of surveying out the trans-provincial automobile road. The past summer they have come through the Kootenay country and at times have met with many obstacles. When the final surveys are made it will be found that maybe for miles they will leave the present roads in places where it is desirable to make and keep a better grade. We believe though it will be hard to find any better road grade between Richter's Pass and Princeton with the exception of a few places between here and Hedley. The party last week arrived at Osoyoos and this week move through to Princeton from which point they will move back to Osoyoos. When the road is surveyed and made to compare with the present roads in the Similkameen it will without a doubt be the finest stretch of highway in the Dominion.

"Even As You and I"

Did you ever watch a fly buzzing around a piece of fly paper? Did you ever notice how he would light in the midst of scores of dead flies, tear himself loose, fly away and come back to light in the same place?

And didn't you wonder how so small an insect as a fly could be such a fool? Of course you did; and you were right. He was a fool.

But give the fly his due. He is no bigger fool than the man who duplicates his performance day after day.

The fly is attracted to the paper because it has a pleasant taste. He dabbles about the edges for a time, and finally lights in the middle of it with all feet.

The man is attracted to his particular form of vice because it pleases him for the time being. At first he indulges himself moderately. Later he lights in the mire with both feet.

Suppose it is gambling—he begins by putting nickels in the slot machine. From the slot machine he progresses to the roulette wheel or the stock markets. Soon he has divested himself of his means. Then there are two courses left open to him.

He may take a chance and recoup with some one else's money, or he may go to the poor house. Generally he prefers to take a chance on embezzlement, and nine times out of ten he fails to recover what he has lost.

(Then he is photographed and numbered and is heard of no more.

If a man drinks, he begins moderately. He likes the good fellowship and company which he finds while indulging in the flowing bowl. He continues to drink as a matter of habit until in the end something happens which gives him the excuse for plunging into excesses. He starts out to drown his sorrows, and what is the result?

Before long he discovers that the sorrow is not bothering him very much, but the habit has fastened upon him so that he cannot do without the stimulant.

Though he knows perfectly well that hundreds and thousands have been ruined in the same manner, he will indulge himself in whatever vice he happens to have, going on the theory, that he, out of all the others, will escape.

Of course it is unreasonable, but it is none the less in the breast of every man who has plunged into excesses. So when you stop and think it over there isn't such a great difference between the man and the fly after all. Give the fly his due.

SAFE AS THE SAFEST

Cheaper than the Cheapest is a straight life policy in

THE MUTUAL LIFE OF CANADA

The history of thousands of policies on the above plan shows that it has cost less than four dollars per year to carry a policy of one thousand dollars. If you doubt this call on the local representative and see the history of one policy for 26 years; then ask yourself whether you know of any other concern whether insurance company or benevolent society that can show a similar record.

Every Plan of Genuine Insurance

It is the people's Company and its profits are all for the people

This accounts for the wonderful success which has attended forty-two years of unparalleled progress and achievement.

Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined, and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase the surface available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior,
N.B.—Unauthorized publication of this advertisement will not be paid for.

WATER NOTICE

For a Licence to Take and Use Water
NOTICE is here given that Frederick Howell, of Keremeos, B. C., Rancher, will apply for a licence to take and use 100 inches of water out of Sheep Creek, which flows in an easterly direction through Lot 336 and empties into Okanagan Lake Penticton. The water will be diverted at about 20 chains west of S. W. corner of Lot 336 and will be used for irrigation purposes on the land described as Fred Howell's pre-emption.
This notice was posted on the ground on the 4th day of October, 1912. The application will be filed in the office of the Water Recorder at Fairview.
Objections may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B. C.
