## ITALY DECLARES WAR ON AUSTRIA

### Great Army Drawn Up Against Austrian Frontier—Italian Navy May Try to Draw Austrian Battleships from Base at Pola—Cabinet Ministers Enthusiastically Cheered by People at Rome.

(Nelson News)  
Rome, May 23.—Italy is at war with Austria-Hungary and virtually at war with Germany. With the issuance of the general mobilization order, the Italian government issued the proclamation declaring war on Austria, which officially will begin tomorrow.

Prior to this and after a lengthy consultation the ministers of war and marine proclaimed all the provinces bordering on Austria, and the islands and coast towns of the Adriatic, in a state of war which was equivalent to the establishment of martial law, the step usually preceding the formal declaration.

Although drastic action has been looked for momentarily, Italians of all classes have been electrified by the swiftly moving events. Early this morning great crowds gathered around the quinal to await the ministers, who called on the king for the purpose of discussing the situation and signing decrees.

When Premier Salandra and Signor Sonnino, foreign minister, left the palace the people cheered them enthusiastically. The troops changing guards at the royal palaces were the objects of a stirring manifestation amid the vivas for the army and for war. Gen. Zuppelli, minister of war, and Vice-Admiral Viale, minister of marine, remained with the king for a considerable time after the others left, and later they had a conference with Lieut.-Gen. Cadorna, chief of staff, and Vice-Admiral Phaen de Revi, chief of the naval staff.

### Text of War Declaration.

Amsterdam, May 23, via London, May 24.—A despatch from Vienna says the Italian Ambassador to Austria, the Duke of Avarna, this afternoon presented to Baron von Burian, Austro-Hungarian foreign minister, the following declaration of war:

"Vienna, May 23, 1915.  
"In conformity with the orders of his majesty the king, his sovereign, the undersigned ambassador of Italy has the honor to deliver to his excellency the foreign minister of Austria-Hungary the following communication:

"Declaration has been made from the 4th of this month to the imperial and royal government of the grave motives for which Italy, confident in its good right, proclaimed annulled, and henceforth without effect, its treaty of alliance with Austria-Hungary, which was violated by the imperial and royal government, and resumes its liberty of action in this respect.

### Asks for Passports.

"The government of the king, firmly resolved to provide by all means at its disposal for safeguarding Italian rights and interests, cannot fail in its duty to take, against every existing and future menace, measures which events impose upon it for the fulfilment of national aspirations.

"His majesty the king declares that he considers himself from tomorrow in a state of war with Austria-Hungary. "The undersigned has the honor to make known at the same time to his excellency the foreign minister that passports will be placed this very day at the disposal of the imperial and royal ambassador at Rome and he will be obliged to his excellency if he will kindly have his passports handed to him. "AVARNA."

### Germany Declares War on Italy.

London, May 23.—An official Reuter despatch from Berlin, dated May 23rd, says: "The Italian government today

caused to be declared through the ambassador to the Austro-Hungarian government, the Duke of Avarna, that Italy considers itself in a state of war with Austria-Hungary.

"The Italian government has also broken, without right or without ground, its alliance with Germany. "The loyal relationship existing conformably with the treaty between Austria-Hungary and the German empire and still more firmly welded by comradeship of arms, has remained unimpaired by the defection of the third ally and its desertion to the enemy camp. The German ambassador, therefore, has received instructions to leave Rome conjointly with the Austro-Hungarian Ambassador."

### OVERSEA MARKET CONDITIONS

At the instance of the Hon. W. R. Ross, the Commissioner of Commerce at Ottawa has written to every saw-mill and shingle mill operator in the province offering to supply free of charge future numbers of the weekly report issued by the Department of Trade and Commerce upon application.

This publication contains the various reports from the Canadian Trade Commissioners throughout the world, information on overseas markets, and a list of openings for Canadian manufacturers. From time to time there will be included the reports received from Mr. H. R. MacMillan, who is now investigating conditions in the principal markets on behalf of the Canadian timber trade in his capacity as Special Trade Commissioner. So keen is the interest shown in the States in such matters that it is necessary to print the publications corresponding to the above daily instead of weekly. It is, therefore, hoped that every British Columbia operator will take advantage of the offer, and so keep in touch with the movement for wider markets.

### MORE RECRUITS WANTED

The following letter was addressed to Marcus Jacobs by Lieut. Foster, who was unaware that Marcus had enlisted in Vernon:

Nelson, B. C., May 13, 1915.  
To Marcus H. L. Jacobs,  
Hedley, B. C.

Sir: I have the honor to advise that recruiting for the 5th Infantry Battalion for overseas service is now in progress throughout Kootenay and the Boundary, there being recruiting centres at Nelson, Rossland and Grand Forks.

According to our list of names prepared by the Nelson Veterans' Association, you are anxious to volunteer for service. If so, you can apply at any one of these three points; your case will be dealt with without delay.

For your information, I am enclosing copy of the Instructions to Medical Examiners.

Are there any more men in or around Hedley who would care to join the 5th? If so, please advise me. If you can get a reasonable number of volunteers there, say 10, it may be possible to arrange for a local medical examination, following which successful applicants would be transferred to one or other of the recruiting centres.

I have the honour to be, Sir,  
Your obedient servant,  
W. GARLAND FOSTER,  
Lieut.,  
Recruiting Officer.

A German chemical society in Berlin discussed recently a proposal to strike from the list of its honorary members the name of Sir William Ramsay, the British scientist, on account of his criticisms of Germany and German science. A resolution was finally passed against a large minority vote postponing the matter until after the war, when an opportunity will be offered to Sir William to explain the remarks attributed to him.

### PROVINCIAL AND GENERAL

London, May 19.—Sir Richard McBride will leave tomorrow for the Continent. Sir Richard intends visiting the Canadian headquarters at the front.

Europe is in the market for 50,000,000 jute bags. The inquiry for this huge supply of sacks was received by Atlantic coast manufacturers, but they state their inability to fill more than a small part of the order.

Col. Smart, commanding the Mounted Infantry Brigade of Quebec and the Maritime provinces, with all his officers, have notified the minister of militia that they are ready to go to the front as infantry if it is necessary that this should be so.

In one recent month there were issued to the troops of the British expeditionary force 10,000 pounds of dubbing for boots, 38,000 bars of soap, 150,000 pairs of socks and 100,000 pairs of boots. In addition there were 450 miles of telephone wire and 570 telephones.

For the murder of Detective Richard Levis, who was shot to death on Aug. 27 last outside a shack on Alexander street, T. C. Killamey, alias "Mickey the Dago," was found guilty by a jury in the Vancouver assizes and sentenced to be hanged on Aug. 3. The jury was absent two and a half hours considering their verdict.

For the week ending May 8th there were 160 automobiles sold in the state of Washington. Of this number the Ford heads the list with 85, then follow the Studebaker with 9, the Overland with 8, Maxwell 7, and 28 other makes are represented.

George Mikee, tried at the assizes in Reveltoké last week on a charge of conspiracy to defraud the C.P. R., was found guilty and sentenced by Mr. Justice McDonald to 25 months in the penitentiary, a similar sentence to be inflicted on the other six defendants who had pleaded guilty. In the case which James Davies of Golden was charged with attempted rape, the jury brought in a verdict of not guilty.

Constable J. Abbott of the Victoria police force is under arrest on a charge of attempting to kill Thomas Palmer, deputy chief of the force. Palmer had reprimanded Abbott for drinking and had ordered him to turn in his uniform and go home. Abbott drew his revolver and four times pulled the trigger. It happened that there was only one cartridge in his gun and not one of the four snaps hit the trigger.

American residents of Berlin who had planned a trip to London have been warned by high officials against going to England during the coming fortnight as important Zeppelin raids are planned, according to a Rotterdam dispatch to the Mail. German officials are said to have explained that the recent Zeppelin raids upon England were mere reconnaissances to test strength of the British aerial defences.

Before going aboard the Lusitania on her last trip, Elbert Hubbard discussed the reports of a possible plan to torpedo the vessel. Fra Albertus said: "The Kaiser's warning may be directed at both the Lusitania and me. To be torpedoed would be a glorious way to peter out, but it would be a good advertisement." Mr. Hubbard then expressed the opinion that possibly the Kaiser was peeved because he wrote "Who Lifted the Lid Off Hell?" "After the war is over I expect to call on the Kaiser at St. Helena," concluded Mr. Hubbard.

### NEWS FROM MINING FIELD

The following interesting letter was received by Mr. E. D. Boeing from his brother-in-law, Burns Bowerman, who left here on the 10th inst. for the new mining fields in northern Manitoba, and may be of interest to some of our readers:

The Pas, Man., May 18, 1915.

Dear Dick,—  
Got in here yesterday noon and had a look around. Homer was here and introduced me to quite a few people. I rustled a few pieces of rock as good as I could get hold of, although I saw some pieces away better but could not get them. These will give you some idea of what the rock looks like; will send them express. I went to the bank right away yesterday and there was nothing for me, but it arrived on the same train I did and the banker told me last night it was there for me. I may not get away from here for four or five days as the train has no regular time and it went to the end of steel—216 miles, I think—this morning. Will start getting my outfit ready today. Canoe will cost me about \$50, I think; will get one big enough for two, so if I hire a man or George should come over; I won't have to change. I will take 5 or 6 days from here to the camp though Homer says I should strike the belt 4 days out on the Grassy river. I go from here 116 miles up the line to a creek the name of which I know but can't spell yet; then I day down that to the Grassy, and then 4 or 5 days up the Grassy to Herb Lake. Will try it alone at first, as they say it is all good paddle water, except a short portage here and there where there are rapids. Homer and McLeod are going that way with a big canoe and heavy loaded, so I guess I can make it as my load will be pretty light—not over 500 pounds, which should last me 3 months, and I expect to be out here again long before that. Homer is pretty well stirred up and I don't blame him judging from the rock I have seen myself. He says the leads are strong and continuous on all the big showings.

The Moore Husset lead is traced now for 900 feet, 7 feet wide, and visible gold every place they have uncovered it. There is a good deal of arsenical iron associated with the quartz; saw one piece yesterday almost all iron with gold showing pretty plentiful in it, but the fellow would not let me have it.

Have not been to the Recorder's Office yet, but Homer tells me this: There is no miner's licence to pay here. On a power of attorney I can record all four of mine and stake on them but only one claim on each. When I locate a claim by proxy and record it that will cancel that P. of A. entirely, and to repeat I have a new document and record it before I can locate for the same party again. I will find out today for sure and let you know before I leave.

Only three trains a week here and the one I came on yesterday goes back today at one o'clock. Well, my hand is getting tired so will quit and continue later.

Yours,  
B. B. BOWERMAN.

### B. C. LUMBER PRODUCTS

Victoria, B. C., May 22.—A preliminary estimate prepared by direction of the Minister of Lands shows that the total value of the lumber products of British Columbia for the year 1914 is \$28,680,000 as compared with \$33,800,000, the total for the previous year.

It will be remembered that the last five months of 1914 were seriously affected by the war upheaval, that conditions were unsettled for a month or two previous to the outbreak of hostilities owing to the political situation in Europe and the consequent stoppage of the flow of capital necessary to feed development enterprises in Canada in common with other new countries; also that the war led to interment, destruction and commandeering of tonnage. Under such circumstances affecting practically six months of last year, the decline in the figures is much less than might have been anticipated.

**ITALY**

By her recent declaration of war against Austria, Italy has taken her honorable place alongside the Entente Powers to aid in the suppression of Prussian militarism and regain lost territory lost years ago.

Italy has many old scores to settle. For decades past she has received undue treatment at the hands of Austria and Germany. She was forced to abandon her alliance at the commencement of the war. Her declaration of war now proves Italians honorable to the world by refusing to stand by and allow the murderous atrocities of "Kultur" warfare to go unpunished when as a signatory to all the modern rules of warfare she is in duty bound to protect the right.

Present indications lead us to believe that the near future will be productive of many changes in the great European war. To refer back to the beginning, Germany with her up-to-the-minute army fully equipped attempted to gain Paris before France could make ready to stop her. By the quick resistance of Belgium, the early assistance of Britain and the quick mobilization of the French regulars her plans were upset and her armies quickly driven back to a safe distance for the approaching winter. The allies have made good use of the winter months by preparing men and munitions for their spring campaign which is now commencing.

The Kaiser no doubt has now given up hope of ever being able to move forward again and we believe his intention was, now that defeat is imminent, to draw the United States into the fray for the express purpose of vindicating himself with his people by reason of having the whole world against him could loudly proclaim, "I could not whip them all."

Now that Italy has taken the initiative and the allies are about ready to make the "big rush," we may soon expect something to happen.

**When Canada Struck**

Canadian casualties to date total close on 6000 officers and men, probably ninety per cent of which occurred in the battle of Langemarck, where the men

from the Dominion saved the situation in the face of tremendous odds. The proportion of killed and seriously wounded is, however, very small, and probably many of the injured men are already back in the trenches.

Far from feeling discouraged by the heavy blow, the Canadians take pride in the fact that they gave a still harder blow to the enemy, despite the enemy's partial reliance upon the effect of noxious gases, and are anxious to get into the fight again.

At home the feeling amongst the soldiers preparing for service is to get more quickly into action, as instance the scramble of volunteers to be transferred to units detailed for immediate service. Since the big battle, too, there has been an added briskness of recruiting, so that on the whole the German hope that Canadians would be disheartened by their losses is a long, long way from fulfilment, and points another misreading of the character of the British peoples.

The Germans are said to be particularly angry at the success of the Canadian soldiers, who were described in Bernhard's book as small, untrained forces of no importance, and at the attitude of the Canadian people, supposed to be waiting, like Ireland, for an opportunity to throw off the hated British yoke.—Canadian Pictorial.

**HOW TO ADDRESS LETTERS**

To British, French, Belgian or Russian Prisoners of War in Germany.

1. Letters (letters should be left open) postcards and postal parcels should be addressed as follows:—

1. Rank, initials, name.
2. Regiment, or other unit.
3. British (or Canadian, French, Belgian or Russian) prisoner of war.
4. Place of internment.
5. Germany.

Place of internment should be stated always if possible, and parcels cannot be accepted unless place of internment is stated. All addresses must be in ink.

2. Communications should be limited to private and family news and to necessary business communications, and should not be sent too frequently. No references to the naval, military or political situation or to naval or military movements and organizations are allowed. Letters or postcards containing such references will not be delivered.

3. Friends of prisoners of war are advised to send postcards in preference to letters, as postcards are less likely to be delayed. If letters are sent, they should not exceed in length two sides of a sheet of note paper and should contain nothing but the sheet of note paper. On no account should the writing be crossed.

4. Letters cannot for the present be accepted for registration.

5. Postage need not be paid either on letters or parcels addressed to prisoners of war.

6. No letters should be enclosed in parcels, and newspapers must not on any account be sent. So far as is known there is no restriction on the contents of parcels; tobacco may be sent and will be admitted duty free, but foodstuffs of a perishable character should not be sent. Parcels should not exceed 11 lbs. in weight.

7. Remittances can be made by money order to prisoners of war. Instructions as to how to proceed can be obtained from postmasters of accounting post offices. The transmission of coin, either in letters or parcels, is expressly prohibited. Postal notes and bank notes should not be sent.

8. It must be understood that no guarantee of the delivery of either parcels or letters can be given, and that the Post Office accepts no responsibility. In any case, considerable delay may take place and failure to receive an acknowledgment should not necessarily be taken as an indication that letters and parcels sent have not been delivered.

9. So far as is known, prisoners of war in Germany are allowed to write

letters or postcards from time to time; but they may not always have facilities for doing so, and the fact that no communication is received from them need not give rise to anxiety.

**HEDLEY PEOPLE PRAISE SIMPLE MIXTURE**

Many in Hedley praise the simple mixture of buckthorn bark, glycerine, etc., known as Adler-i-ka. This remedy is the most THOROUGH bowel cleanser ever sold, being even used successfully in appendicitis. ONE SPOONFUL relieves almost ANY CASE of constipation, sour or gassy stomach. ONE MINUTE after you take it the gasses rumble and pass out. Adler-i-ka cannot gripe and the INSTANT action is surprising. F. M. Gillespie, druggist.

**Synopsis of Coal Mining Regulations**

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated such returns should be furnished at least once a year. The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

Duncan Woods returned to Hedley, on Tuesday from California, where he has been attending the Panama-Pacific Exposition at San Francisco since the first of the year. Mr. Woods reports that the general exhibit of the Dominion government at the exhibition is by far the best on the ground. He will probably remain in Hedley for the summer.

Messrs. D. D. McPhee and Patsy Clark Jr., of Spokane, came in by auto from Oroville this morning. Mr. Clark's mission was to examine the mining property of R. A. Rutherford on Sterling creek and report on same when he returns to Spokane. Mr. McPhee is also interested in mining and other enterprises throughout the country.

**DOMINION DAY AT PENTICTON**

Bills are out announcing a grand celebration at Penticton on July 1st, under the auspices of the Penticton Turf Club. The programme will include horse races, athletic sports, aquatic sports, etc. The Penticton brass band will be in attendance during the day. J. H. Heales is the secretary of the club.

**HOW ABOUT IT?**

Breathes there a man with soul so dead, who never to himself has said "That editor has quite a head. I'm glad I take his paper. He's got a raft of grit and sand, he prints the news of all the land, he boosts the town to beat the band and that's the proper caper. He soaks the grafters in the neck, he saves the Ship of State from wreck, he's Johnnie on the spot, by heck, when things are in a jumble." He writes the ads that bring the dough, he chases all our gloom and woe, he tells us all we want to know—and yet he is quite humble. He never gets a bit stuck up, he's worked since Hector was a pup to earn his daily bite and sup and have a little over. I know we owe him many plunks, so let we shame the other skunks and furnish him with kale in chunks, wherewith to live in clover.
