## TAKE BACK LANDS

British Columbia Southern and Columbian & Western Lands Now Property of Province  
Victoria, B. C., Sept. 20.—A cheque for \$1,000,000 was handed by the provincial treasury yesterday to J. S. Dennis, of the Canadian Pacific railway in payment for land grants made to the British Columbia Southern and Columbia & Western railways, and the lands become once more the property of the province. The lands comprise 2,550,000 acres granted to the British Columbia Southern and 1,225,000 acres to the Columbian & Western. The price paid is 45 cents per acre, which would make \$1,510,000, but against this the province had a credit of \$401,000 paid as interest on lands on the Shuswap & Okanagan railway, part of the bargain embodied in the legislation of last session being that the Canadian Pacific railway should refund this amount.  
The Columbia & Western lands are resumed subject to F. August Heinze's ownership of an undivided half interest in 580,000 acres. Heinze, during his visit here last week, suggested that the government should buy his half interest from him and the government is supposed to be not altogether unfavorable to the idea, but no price was fixed, in fact the matter did not go beyond the suggestion.

## A DISPUTED BILL

Interesting Outcome of Accident to T. J. Armstrong  
(Oroville Gazette)  
Dr. W. T. Schwabland spent two or three days at Greenwood, B. C. last week, a defendant in a suit for \$1,000 damages brought against him by Joe Armstrong for malpractice. The doctor had sued Mr. Armstrong in the British Columbia court for his fee, and Mr. Armstrong entered a counter claim for damages in the sum mentioned. The doctor was not fortunate in his selection of a barrister, and his evidence, which was altogether documentary, failed to reach Greenwood in time to be introduced before the court, through no fault of his. Things looked dubious for the doctor, as upon advice of his attorney he did not summon any witnesses, and he had to play the role of lawyer, cross-examining witnesses and making his own plea. In the end the judge submitted the case for more testimony to a commission composed of three Spokane physicians Dr. Schwabland selecting one and Mr. Armstrong two. The litigants will appear before the commission in October and the result of the case will no doubt hinge upon the report of that body.

## METEOROLOGICAL.

The following are the readings showing temperature, etc., for the week ending Sept. 21, 1912:

A monument to Victor Hugo is to be erected on the field of Waterloo.

## V. V. & E. CONTRACT LET

Forty-Two Miles Between Coalmont and Coquihalla Summit—Early Completion Expected  
Vancouver, B. C., Sept. 20th.—The contract for the construction of about 42 miles of railway between Coalmont and Coquihalla summit has been awarded by the Vancouver, Victoria & Eastern Railway company to Guthrie, McDougall & Co. Work according to the terms of contract must be completed by July next. The contractors will get their men and equipment on the work in the next few days. With this strip of railroad completed by July 1, 1913, early completion of the remainder of the strip from Coquihalla summit into Hope is predicted. The latter piece of road is that which the Great Northern and Kettle Valley lines wish to build and which the railway commission now has before it for consideration. Until the railway commissioners act, the completion of the line from the summit to Hope is a matter of conjecture, it is probable that with the decision of the railway commission will come the announcement from the Canadian Pacific railway as to where the bridge across the Fraser river, connecting the main line of the Canadian Pacific railway and the Kettle Valley line, will be built. There are two sites in view now, one at Hope and the other at Ruby creek. In the estimation of engineers who are familiar with the country in that vicinity, Hope is the logical position for the bridge. The amount of the contract just closed by Guthrie, McDougall & Co., is said to be about \$1,500,000.

## A SPLENDID MOVE

The Fencing of the Cemetery Now in Sight—Nest Egg Fund to That End is Secured

Now that a reasonable degree of fire protection has been secured and the town is that much better off, there remains but one other thing for which the Gazette has in the past striven to obtain and that is the fencing of the cemetery which in its exposed state has for years been a standing disgrace to the community. We are glad to learn, and as a member of the rifle club we are pleased to heartily endorse, the proposal to use the balance standing in the bank at the credit of the rifle club as the nucleus of a fund to put a fence around the cemetery. The rifle club has been dormant for several years and there was no sense in leaving the balance there doing no good to any person. At various times the proposal was made to have a day's shooting and use it as prize money to be shot for and thus get rid of it. That proposal which always appeared too much like that of the proverbial money which has been credited with the power to "burn a hole in the pockets" of a certain class of ne'er-do-weels was one which we always tried to wet blanket, and we are most pleased now to know that better counsels have prevailed and the surviving members of the old club are agreeable to a course which will do them far more credit. It has been learned too that there is a feeling among the miners on the hill to raise some funds up there to help out with it and we are sure that there are very few among the townspeople who would not be willing to chip in and do their share to remove the stigma which has too long lain upon the community. By all means let the matter now be taken hold of in earnest and not allowed to cool until this desirable end is accomplished.

## K. V. REACHES CARMÍ

The first train over the Kettle Valley line up the West Fork of Kettle River reached Carmi on Monday, September 10th and the grade has been completed for a considerable distance beyond that point. It is the intention to push the steel on past Carmi and keep the rail head as near the graders as it is practicable to do so. The stations and other buildings are being rushed to get the line in readiness for a limited amount of traffic which the construction of the line as well as opening up of the district is bound to create.

## GOOD NEWS IF TRUE

Indian Land Near Penticton May Be Subdivided and Sold by Government

Penticton, B. C., Sept. 21.—After years of failure and fruitless effort there seems to be a prospect of the early opening up of the Indian reserve on the west side of the Okanagan river opposite Penticton. This reserve contains some 48,000 acres in all, but only a small portion is close to Penticton and fit for fruit growing. The reserve and council are negotiating with Dr. McKenna, of Ottawa, a special commissioner, who is investigating Indian affairs in the province, and with every prospect of success.  
Perhaps nothing in recent years has held back the development of the district more than this large strip of land so close to town, lying locked up and undeveloped. Dr. McKenna's idea is to prevail on the government to subdivide the land and sell it to the actual settler, spending the proceeds in bettering the conditions of the Indians.

## CANADA'S MARINE

Ninth in the List of Maritime Powers of the World

Ottawa, Sept. 20th.—Canada is now ninth on the tonnage list of maritime standards of the world, as published in a report for 1911 just issued by the department of marine and fisheries. The other eight, beginning at the top, are: Great Britain, Germany, United States, Norway, France, Russia, Italy and Japan.

The total number of vessels on the register books of the Dominion at the close of the year was 8,088, measuring 770,446 tons, a marked gain over the total for the previous year. The number of steamers is given as 8,444, with a gross tonnage of 588,741. Estimating the average value to be \$30 per ton the value of the net registered tonnage at the end of the year would be \$23,113,380. New vessels added to the list during the year numbered 339, with a net register of 27,730 tons. Estimating the value of the new tonnage at \$45 per ton the value of the new vessels is \$1,248,120. During the year 289 vessels were removed from the register. Of these, 37 were wrecked, 15 stranded, 12 lost, 10 abandoned at sea, 12 foundered and 31 reported "out of existence." The department estimates that 41,447 men and boys found employment on ships of Canada during the year.

Quebec is the third important maritime province, according to the list of registered ships, having a total of 1,511 sailing ships and steamers. The other provinces appear in the list as follows: Nova Scotia, 2,105; New Brunswick, 906; Ontario, 2,014; Prince Edward Island, 140; British Columbia, 1,227; Saskatchewan, 5; Manitoba 96; and the Yukon Territory 15.

## WEAR YOUR OLD TOGS

Duke of Connaught Hopes People of Penticton Will Wear Country Clothes—Motor Trip to Ranches

Penticton, B. C., Sept. 20.—In connection with the preparations being made by the local committee for the reception and entertainment of H. R. H., the Duke of Connaught, who will visit Penticton on the fourth of October, a situation has developed which emphasizes the democratic tendencies of the duke. The municipal clerk, J. Gardener, wrote to Col. Lowther, military secretary, informing him that it was the wish of the committee that the dress worn on that occasion should be that suitable to an informal function, and enquiring if the duke would be at all likely to consider it a lack of courtesy if these ideas were carried out. Col. Lowther replied to the effect that it was the wish of the duke that the whole affair should be of an informal nature as possible, and seeing that a motor trip to several of the large ranches in the district had been arranged, he hoped that everyone would wear "country clothes," as he would do himself.

Miss Wylie, a British suffragette, is said to be on her way to Canada to inaugurate a campaign she-rowdyism.

## EARTHQUAKES AND MINE DISASTERS

Earth Tremors and Colliery Wrecks Nearly Related

Victoria, Sept. 19.—That if the Dominion government sees its way to establish a department of mines it should include a branch devoted to seismology, was the text of a resolution passed by the Canadian Mining Institute in session here to-day. The matter arose following a lecture by P. Napier Denison, the local government seismologist, in which he proved to the satisfaction of his hearers that a relation existed between the earth's tremors and colliery disasters. Mr. Denison explained to the institute a new seismograph which he had invented, which records not only world shaking earthquakes but also movements of the earth. He has discovered through elaborate statistics that the years having the most colliery disasters are those in which the greatest number of earthquakes were recorded. He also stated that research work in this science might make possible in the future the prediction of earthquakes and the extent of area they would cover, which would be of practical value in the construction of buildings. The convention concluded to-day with a banquet.

## A NOTABLE DOCUMENT

Ulster's Declaration Takes a Historic Name—The Solum League and Covenant

Belfast, Sept. 19.—Sir Edward Carson, ex-solicitor-general for Ireland, will submit for the approval of the Ulster Unionist Council the wording of the covenant which Ulster Unionists throughout the province will sign on September 28th. The covenant will be as follows:

"Being convinced that Home Rule will be disastrous to the material well-being of Ulster, as well as to the whole of Ireland, subversive to our civil and religious freedom, and perilous to the unity of the Empire, we, whose names are underwritten, men of Ulster, loyal subjects of His Majesty King George, humbly relying on God, in whom our fathers trusted in days of stress and trial, confidently hereby pledge ourselves in solemn covenant, throughout this our time of threatened calamity, to stand by one another in defending, for ourselves and for our children, our cherished position of equal citizenship in the United Kingdom and using all the means which may be found necessary to defeat the present conspirators to set up home rule in Ireland, and in the event of such parliament being forced upon us we humbly and mutually pledge ourselves to refuse to recognize its authority, in the sure confidence that God will defend the right."

## HOSPITAL DONATIONS

Mrs. Loomer, fresh eggs and vegetables; Mrs. Chure, Huckleberries and vegetables; Mrs. Mierhoffer, vegetables.

SPECIAL MENTION IS MADE OF THE GIFTS FROM KEREMEOS  
Mr. W. G. Mattice, peaches; Miss A. M. Easton, box of peaches; Mrs. Frank Richter, generous donation of 200 pounds choice mixed fruit with freight prepaid.

## MINING NOTES

The old Pinnacle property at Loomis has been given considerable development work during the present year. The old Pinnacle claim in earlier times was noted for the wonderful picture specimens it turned out and an effort is now being made to locate the chute at some depth.

There are over twenty men at work on the Golden Zone in this camp and a ditch is being put in to supply mill water to the stamp mill which it is their intention to run this winter on ore obtained during development. The buildings are being added to and placed in a state of repair and in short time work will begin in the shaft and drifts.

The aviation death roll up to date is two hundred and four.

**AN APT SUGGESTION**

The action of the Canadian Mining Institute taken at the meeting in Victoria last week in memorializing Premier Borden for the creation of a separate Department of Mines presided over by a Minister who could devote his entire attention to the mineral resources of the Dominion was timely and will likely bear early fruit. The present arrangement of having a mines branch of the Geological Survey and bundling the whole concern into one of the other departments already overburdened could not be expected to produce the results desired, and there was very good reason why those interested in mining should feel that their interests were being unduly subordinated to other things that are of no greater importance. In several instances it has happened that the Minister into whose department the Geological Survey and Mines Branch were relegated had no interest in, nor sympathy with the mining industry and the Canadian Mining Institute recognizing this fact were wise in moving to have a change made. The Institute are also to be congratulated on making their memorial doubly strong by embodying in it their conviction that the discovery of a close relation between earth tremors and colliery disasters should be followed up and to that end recommending that a department of seismology be established in the proposed new Mines Department. To prevent loss of life should be the highest aim of any government and the appalling colliery disasters which from time to time startle the public and render coal mining so hazardous is about the most terrible menace which any industry has to contend against. It is always after long impunity from casualty and the vigilance of managers and workmen is somewhat relaxed that these disasters occur although the apparent circumstances under which they occur may not differ a whit from that which may have been in vogue for years previous unattended by mishap of any kind; but if it be really the case that earth tremors make imperceptible passage ways for explosive gases into mine workings the advantage of detecting these earth tremors by means of the seismograph and reporting them to the collieries so that extra precautions in mine ventilation may be taken for extended periods thereafter, it is easily seen how many colliery disasters might be avoided. It is gratifying from a na-

tional point of view to think that the idea has originated with, and to a considerable extent been investigated by, a Canadian in this our own province of British Columbia, and it is most fitting that the government of Canada be the first to give practical effect to it by making this provision. Whether it may be that a seismograph be placed at every colliery and provision made that it be kept in order and noted every day or that all seismographic observations be carried on at certain central stations and reported at once to the various collieries by wire is a matter of detail to be decided by men who have given much attention to the study of earthquakes. The main thing is that the government give the matter serious attention and this idea of Mr. Napier Denison's carried out. Better to err on the side over credulity respecting new fangled notions than that human life be needlessly sacrificed through scepticism and neglect.

Sealed Tenders address to the undersigned, and endorsed "Tender for the Construction of a Breakwater in Victoria Harbour, B. C." will be received at this office until 4.00 p.m. on Thursday, September 26th, 1912. For the construction of a breakwater at Victoria Harbour, Victoria, B. C.  
Plans, specifications and form of contract can be seen and forms of tender obtained at this Department and at the offices of W. Henderson, Resident Architect, Victoria, B. C.; C. C. Worsfold, Esq., District Engineer, New Westminster, B. C.; J. G. King, Esq., District Engineer, Toronto, Ont.; J. L. Michaud, Esq., District Engineer, Montreal, Que.; and on application to the Postmaster at Vancouver, B. C.  
Persons tendering are notified that tenders will not be considered unless made on the printed forms supplied and signed with their actual signatures, stating their occupations and places of residence. In the case of firms, the actual signature, the nature of the occupation, and place of residence of each member of the firm must be given.  
Each tender must be accompanied by an accepted cheque on a chartered bank, payable to the order of the Honourable the Minister of Public Works, equal to ten per cent (10 p.c.) of the amount of the tender, which will be forfeited if the person tendering declines to enter into a contract when called upon to do so, or fails to complete the work contracted for. If tender is not accepted the cheque will be returned.  
The department does not bind itself to accept the lowest or any tender.  
By Order  
R. C. DESROCHERS, Secretary.  
Department of Public Works,  
Ottawa, August 8, 1912. 32-2  
Newspapers will not be paid for this advertisement if they insert it without authority from the Department.

**Town and District.**

P. Scott, locator of the Kingston is in town.

Mrs. Rotherham left on Tuesday for Nelson to visit friends.

Miss Catlin of Princeton accompanied her brother-in-law Mr. Brooke to Hedley this week and was the guest of Miss Lyall.

J. F. Mosby of Victoria, secretary of the Gold Plate Mines Limited that are now operating the Golden Zone was in town last week.

J. D. Brass is completing an addition to his residence these days and expects to have it ready for occupation in a few days more.

Mrs. G. P. Jones returned on Friday last from Victoria where she had accompanied her daughter to school. Mr. Jones met her at Keremeos on Friday with his auto.

H. B. Meunette was down from Princeton last week doing some tin-smith work for Böeing & Brass, putting on eave-troughing in connection with their recent contract.

Miss Easton and her brother Mac went to Keremeos on Friday last after school and spent the week end with their parents, returning Sunday evening, when Mrs. Clark drove them up.

An aftermath of the Labor Day celebration is seen in several cheques given by cheap sports floating around with no money to back them up and hearing the bankers' comment on the backs thereof "no funds." That sort of performance looks like sailing very close to the danger line.

The fall assizes are coming off on October 7th at Vernon and sundry Hedleyites will have to attend to give evidence in the stealing case sent up for trial. These are little legacies that Labor Day invariably leaves to remember it by and that make the more thoughtful begin to wonder how much is gained by holding the celebrations at all.

Mrs. J. A. Brown of Keremeos was a visitor to Hedley last week and was accompanied by George Herald, formerly of the Chronicle staff, and his friend, Art Wells, of Winnipeg. On Wednesday they made the trip to the mine returning by the last car in the evening and next morning they made the return to Keremeos in short order in Mr. Jones' auto.

N. Thompson, the western manager for Cammell Laird & Co. the great steel manufacturers of Sheffield, England, spent Sunday in town and took advantage of the opportunity to pay a visit to the Nickel Plate mine accompanied by Mr. Gibbons of Vancouver. Hedley is a point which Mr. Thompson always takes in on his itinerary in this part of the district and it is a point where his firm are well known as their shoes and dies have been used extensively in crushing the ore of the Nickel Plate.

T. C. Brooke the poultryman of Princeton was in town yesterday. Some of his customers here have been trying to increase their stock from his yards but he is unable at present to supply their wants as he has sold off all the birds he can spare and now he would like to buy back some that he has sold if he could get them. Exceptional laying strains are not easily got and when the public find out who has them the owners sometimes have more trouble to get keeping their stock than to find sale for them.

The people of Grand Forks are firmly of the belief that a good town like a good man cannot be kept down. If the town cannot grow in one way it can in another. Fearing that the Doukhobours may swamp them in population the residents have proclaimed against race suicide in a most substantial way. In about ten days there were no less than eight births in the town. All of them were girls too except one lone boy and that will mean a further attraction for more population later on.

The municipality of Pentiction invite all ex-members of H. M. Forces to attend there on October 4th and take part in a veterans' parade at 4 p.m. to furnish a guard of honor for and be inspected by Field Marshal H. R. H. the Duke of Connaught who takes a great interest in veterans whether of His Majesty's regular imperial forces or of the colonies. The Duke himself served in Canada in the Fenian raid of 1836. Ordinary dress may be worn and veterans are requested to wear their medals if any. Ex-service men wishing to attend are requested to notify Police Magistrate Geo. F. Guernsey of Pentiction as soon as possible.

Sanford S. Davis of Vancouver, general manager of the British Columbia Life Insurance Co. which is the latest financial concern of the kind to be launched in Canada, was in town this week with Mr. Shatford who is vice-president of the company. Mr. Davis is well satisfied with the success which has so far attended the operations of the company, the amount of business they have done being almost unprecedented.

The Grand Forks Agricultural Association are holding their third annual fall fair on Thursday and Friday Sept. 26th and 27th, and have issued a very interesting programme of events in the way of special attractions, the principal of which are in the line of race track events. Grand Forks itself is somewhat of a drawing card in view of the improvements now going on there.

Mrs. J. D. Brass returned to Hedley last week bringing back with her W. Baxter, her son, whom she went to Moosejaw to see. On her arrival there she found him ready to start for Colorado where he had been ordered to go by his doctor. She did not like the idea of having him go there alone and especially as the doctor was prepared to admit that the climate here might suit him quite as well. As a result he was persuaded to come here instead and since his arrival he has been a great deal better.

A. Winkler showed the Gazette some apples plucked from one of the trees on his ranch and they certainly were beauties. He was not sure of the variety but the apple resembles the Hood River very much. It is a large apple, firm in texture, of fine flavor and might be classed sub-acid. The skin is yellowish streaked plentifully with red and making an altogether very handsome apple. Mr. Winkler says the trees have had very indifferent care but when they can produce apples of the sample shown it is evidence that he has a ranch which will enable him to go in extensively for fruit raising. In altitude it is less than 1000 feet above Hedley.

L. W. Shatford, M. P. P., accompanied by Mrs. Shatford and by Mr. Davis, general manager of the British Columbia Life Insurance company of which Mr. Shatford is vice-president, came in from Pentiction on Monday evening in Bentley's auto. Mr. and Mrs. Shatford are both looking well although Mr. Shatford has had a busy summer of it and has stuck very closely to his work as manager of the Bank of Vancouver. In spite of his plans to escape hay fever this year by remaining on the coast during the months of June, July and August when he is subject to it in the dry belt, his old enemy laid him by the heels when he was crossing the continent and he developed a beautiful attack of it between Winnipeg and North Bay which he did not manage to shake off until he got down to Halifax. Next time he has to cross the continent in those prohibited months it may be advisable for him to hunt out a new north-west passage all for himself and go round by Behring straits and the polar seas. He had a business engagement which took him back to Pentiction on Tuesday but he expects to be through here again today or tomorrow on his way up the valley.

Mr. C. H. Brookes was seen a couple of days ago by the Gazette with reference to the matter said to be pending in the United States courts about which reference was made in these columns two weeks ago. Mr. Brookes says that he has had no communication whatever from the parties who were alleged to be making the charge of embezzlement against him nor from any of their legal representatives nor from United States government authorities, and the fact that this amount of time has been allowed to go past with nothing from them but sphinx-like silence is further evidence that the whole affair was a frame-up to injure him. Neither has Constable Sproule received any orders from his chief to do anything in reference to the matter nor any warrant from the other side to be executed, and a suspicious feature that makes it look all the more fishy is that telegrams which were received about the time of the arrest in Oroville are strangely contradictory, some specifying an embezzlement of \$100,000 and another making it \$25,000. In a country where the spirit of habes corpus which they had handed down to them from old English law is supposed to obtain, they have funny ways of trifling with a man's liberty.

YAKIMA VALLEY NURSERY CO. Toppenish, Wash.

**Synopsis of Coal Mining Regulations**

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal sub-divisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$3 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$100 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior. N.B.—Unauthorized publication of this advertisement will not be paid for. 9-6m

# THE KEREMEOS PAGE

## KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

### Town and Lower Valley.

H. B. Measutte was home to spend the week end.

J. J. Armstrong paid Granite Creek a business visit last Monday.

Miss Jones of Spokane is visiting Mr. and Mrs. Joe Armstrong of Chopaca.

Mr. W. H. T. Galan, barrister, of Pentiction, was a business visitor to town Monday.

J. A. Brown and George Allison went up Sheep creek Monday in quest of a little venison.

Not much venison has come into Keremeos up to the present; guess deer are getting pretty wise.

H. C. Fritts, of the Colonial Investment Co., has been in town the last few days selling Port Mann property.

Miss A. M. Easton and McLaren Clarke came down from Hedley to spend the week end with their parents.

H. A. Turner, road supervisor, was in Thursday looking over the work done by the road foreman in the district.

J. J. Darling has bought the barber shop and pool room building and was open to customers Monday for the first time.

All the hay in the district is almost all in by now. Unusual wet weather delayed haying to a considerable extent this summer.

Mrs. Sinclair, who has been visiting Mrs. Keeler for the past week, went down on Monday's train to visit her daughter, Mrs. Hans Richter.

O'Connor & Saunders put on a very clever three act vaudeville in the Richter hall on Monday evening last. "Lady Jessie" the singing dog delighted the audience.

Charles F. Law, who has in hand some valuable mineral claims in the Tulameen district, passed through Monday evening on his way to Oroville and Nelson.

The plasterers have completed the ground and first floor rooms at the Keremeos hotel and it makes them all rank along with the best rooms in any hostelry in these parts.

Mr. and Mrs. F. B. Gibson and baby, Mrs. L. A. Keeler, Mrs. A. Robertson and Mrs. E. M. Crooker drove over to Pentiction last Wednesday week to attend a convention of the W. C. T. U.

H. O. Heinbecker of the Columbia Coal & Coke Co. and Hugh Martin, of McTavish & Co. of Coalmont, stayed over night in Keremeos Monday before going on to spend a few days in Vernon.

T. W. Coleman drove over to Pentiction Saturday last accompanied by Mr. and Mrs. Frith and children. Mr. Coleman and Mr. Frith returned on Monday leaving Mrs. Frith and children as the guests of Major and Mrs. Moody.

Owing to the harvest thanksgiving service being held in Pentiction on Sunday, Sept. 29th the Church of England services will not be held on that date at Keremeos but will be postponed until the second Sunday in October.

On Thursday the 19th quite a number turned out to the Richter hall to see "Rip Van Winkle". The scenery was splendid, the best ever produced here; Rip was excellent, and it is to be regretted that not the usual play crowd attended.

Bill Whitty who is doing extensive irrigating incidentally strayed in the mountains and had an awful scrap with a bear. We don't really know whether it was a real bear or one of the goats around here that he got mixed up with. Nevertheless he is still irrigating.

Time Nickle left for Toronto Monday last to go into the shops of an automobile manufacturer of that city. Time has been taking a correspondence course for the past eight months and having now completed it will work for some time on the practical side. We join in wishing him all success and hope it won't be long before he is back as an expert.

George Herald and Arthur Webb, who have been staying with Mr. and Mrs. Brown for the past three weeks, left Monday for their homes in Winnipeg. The boys were delighted with their stay, making many new friends and were only too sorry that they had to return so soon.

L. W. Shatford our worthy M. P. P. accompanied by his wife and Mr. S. S. Davis stayed an hour in Keremeos Monday evening before going on to Hedley and Princeton. Mr. Shatford is feeling his old self again and looks in the best of health.

While driving beef cattle from the ranges around Hedley a month ago six head got away in the hills. On Monday news came to town that six head of beef cattle were seen at the head of Bradshaw creek so it won't be long before Charley Burtch will have the pleasure of asking them why they delayed their own slaughter.

Keremeos lacrosse players journeyed to Princeton to play the metropolis on

Friday last and after a hard struggle emerged victors by the score of six goals to four. It was anybody's game to the last quarter but Keremeos as at Tulameen on Labor Day saved their breath for the final spurt and were not found wanting. The Princeton goal tender played a fine game and stopped shot after shot which were rained in on him. A very pleasing feature of day's outing was the kindness in which the Princeton citizens treated the team; practically all the business houses closed down to enable them to view the game. The town band was in attendance and helped to liven up things by some popular airs between quarters.

### Sale of Lands for Unpaid Delinquent Taxes

IN

#### The Kettle River District, Province of British Columbia

I hereby give notice that on Saturday the 12th day of October A. D. 1912, at the hour of 10 o'clock a. m. in my office at Fairview, B. C., I shall sell by public auction, the lands of persons in the list hereinafter set out, for the delinquent taxes unpaid by the said persons, on the 31st day of December, A. D., 1911, and for interest, costs and expenses, including the costs of advertising the said sale: if the total amount due is not sooner paid.

**F. RICHTER ESTATE**

## THE PROOF

Of What Keremeos Fruit Lands Have Done for Early Purchasers is Now Here  
This year the trees in bearing will give an output which although showing handsome profit on the original investment, is only a mild suggestion of the profit to be realized with a larger market.

**REMEMBER**  
We offer no land but what has the water already on it  
**Fruit Lots of any size to suit your means; at \$175, 215 and 350 per acre. Town Lots.**
