LABOR DAY SPORTS

Rain Interferes Seriously with Enjoyment of Event.

ATTENDANCE FROM OUTSIDE, FAIR

A Greenwood Team Takes the Drilling Contest—Local Talent Bagged the Shooting Events—Athletic Honors Went to a Chillwhacker.

The weather came very far from doing the square thing by the Hedley Labor Day celebration. The attendance of outsiders was somewhat better than last year. Among the visitors, Princeton, Keremeos, Oroville, Penticton and Fairview were represented, but the rain started in early in the forenoon of the first day and kept it up steadily until well on towards the evening.

THE RIFLE SHOOTING

was the first event and took the greater part of the forenoon, although more than half the match had to be shot off in a steady rain. The shooting on the whole was fairly good and remarkably so considering the conditions, beating that of the Labor Day match of two years ago by a long odds. There were fourteen entries, and the following were the winners:

200 Yards—1st Boeig, 2nd Corrigan, 3rd Rolls.
300 Yards—1st Forbes, 2nd French, 3rd Boeig.
400 Yards—1st Corrigan, 2nd Boeig, 3rd French.
Aggregate—1st French, 2nd Boeig, 3rd Corrigan, 4th Rolls.

To save time, ties were decided by the range officer on the value of shots in reverse order. The only instances where it had to be done were: between Corrigan and Rolls for second prize in the 200 yards match; between Forbes and French for 1st prize in 300 yards match, and between Boeig and Woodmass for 3rd prize in 300 yards match. As all competitors did not shoot the full complement of shots at each range, the full aggregate standing is not given, but the following is the standing of the highest seven, which takes in all the prize winners:

	200	300	400	Total
F. H. French	20	23	20	63
E. D. Boeig	22	19	21	62
J. Corrigan	21	14	22	57
L. C. W. Rolls	21	14	20	55
Capt. Woodmass	17	19	16	52
W. J. Forbes	17	23	12	52
C. E. Oliver	20	13	17	50

The highest aggregate of two years ago was 52, out of a possible 75.

ROCK DRILLING CONTEST.

The steady rain which prevailed during the rock-drilling, marred the enjoyment of this event. Three teams entered for it, although the third was generally understood to be for the purpose of filling in, and it was generally believed that the contest would be between the Greenwood team, made up of Sandrys and Manulson, and the Nickel Plate team, composed of Chas. Burch and Carlson. The Greenwood team drilled 31½ inches, and the Nickel Plate team 30½ inches, with the third team, Tom Wilson and Tim Griffin, showing 24 inches. Last year the winning team did 33½ inches in the same boulder, and Burch and his partner 30½ inches. It is but fair, however, to the Greenwood team to state that they had bad luck with their steel, several drills breaking. Tommy Murray, who accompanied them, assured us that the impression which seemed to be entertained in some quarters that their steel had been sharpened by "Chateaugay," the noted steel sharpener of the Boundary, was a mistake. They sharpened the steel themselves, and did it hurriedly before coming away. Burch and Carlson's steel was sharpened at Nighthawk, and stood the rock very well.

CONCERT AND DANCE.

It was most fortunate that the Committee in making arrangements for evening entertainment abandoned the idea of an outside platform such as they had last year, and the experience gained should make them careful not to run such risk again. The Hedley Dramatic Club had for some time in view the plan of giving a play in aid of the hospital, and to bring it on as part

of the evening entertainment for Labor Day was a capital arrangement, for it provided some variety for those who do not care for dancing. The new school building came in most opportune to provide room for it, and the situation was helped out admirably by the assistance lent by the Daly Reduction Co. whose management kindly attended to the lighting and did it in good style. Not only was the stage daily supplied with a row of bright incandescents, but an arc light made night brighter than day in the ballroom, and what was perhaps appreciated more than either was the lights placed at the corner of the streets to light the way over the rough ground leading to the school building. In the lighting, Mr. Anderson, the Company's electrician, and his assistant, Coile, gave their time gratis in doing the wiring. Mr. Ross and his staff have the thanks of all concerned for the courteous aid which contributed so much to the success of the event.

That Family Affair had some exceedingly amusing situations and was thoroughly enjoyed by the large audience which packed the room. The cast did their parts admirably—particularly those taken by the ladies. Between acts, a few specialties were given, among which special mention may be made of the fine rendering of Lascia by Mrs. S. E. Hamilton, who also had what might perhaps be termed the leading role in "That Family Affair," although the play seemed to have been written with a view to bringing out all the parts. It is hoped that the Hedley Dramatic Club will follow up this initial success with other performances during the fall and winter.

Shortly after conclusion of the play, the ball was in full swing in the adjoining room. Music was supplied by an Oroville orchestra, at the head of which was Hedley's old protege the Professor. About thirty couples were present taking part, with many on-lookers.

BASE BALL.

The baseball game, which was billed for the first day, was postponed for drier weather and was finally pulled off on Tuesday. The Oroville baseballers, who during the present year have taken numerous scalps, put in an appearance. Hedley during the summer has had no team, but as two or three "good uns" came down from Princeton, and Tommy Daly was up from Keremeos, they got together a nine, to give the visitors from across the line a game, with Daly in the box for Hedley and Elmo Henderson catching. Considering the want of practice this make-up nine played a fair game. Elmo, however, was too light behind the bat, and as no other man on the team was prepared to say he could do any better, he was allowed to play it out. Daly started in throwing an effective ball, but there is nothing more calculated to take the heart out of a pitcher than errors behind the bat and in the field. Long, the Oroville pitcher, after the second innings, discovered in his satchel of curves a variety that required a heap of fanning and continued to fish them out with shameful regularity for the balance of the game. The Hedley field was played for the most part in pretty fair shape, there being some neat pick-ups and throws and a healthy appetite for flies. The teams were made up as follows:

Oroville.—Isbestor 1. f., Sargent 2nd b., Keve 1st b., Long, pitcher, Jordan catcher, Sailing s. s., Gier 3rd b., Sain c. f., Teddy r. f.

Hedley.—Campbell 1st b., Hughes 3rd b., Daly p., Henderson c., Revelly s. s., Turner r. f., Allen c. f., Coile 2nd b., Hamilton 1. f.

The score by innings:

Oroville — 6 0 2 4 3 4 — 19.

Hedley — 3 3 0 0 0 0 — 6.

TRAP SHOOTING.

Although the trap-shooting, like others of the early morning events, did not draw as many spectators as some of the others, keen interest was felt by all who were present, among whom were a fair percentage of ladies. In this, as in the rifle-shooting, the competitors numbered 14. The contest was neck and neck for a considerable time, and for first place was not fully decided until the last round was fired, Bert Harris, of Hedley, winning the sweep-stake of \$25 with 14 birds out of

Continued on Page Two.

BUILDING NOW TO HEDLEY

Full Arrangements for Construction North of Keremeos.

The V. V. & E. have succeeded in convincing all between Grand Forks and Keremeos that work on the way to Hedley is practically now beginning.

Supplies for the work are just arriving in Keremeos, and on Tuesday a phone message was received from Geo. Cunningham, jr., superintendent of commissary for Stewart & Welch, who is now on the ground, asking for permission to locate the first camp out of Keremeos on the flat this side of Webster's ferry, and forming the upper part of the Price property, owned by L. W. Shatford, M.P.P., and others.

It is reported that most of the work between Keremeos and Hedley will be done by Stewart & Welch themselves, and very little of it done by sub-contractors. Chief Engineer Kennedy is also reported to be in favor of completing the grade from the present end of the steel (which is now something over a mile this side of Keremeos) to the next bridge over the Similkameen and laying the track on it so as to deliver material required for the portion across the river by rail.

If that programme be followed, it would mean that the next camp to be established north of the present one, now being put in, will be somewhere this side of Brushy Bottom.

OUR COAL DEPOSITS

The Coal Beds of Nicola and the Similkameen

Minister of Mines Report

During the last three years a considerable amount of prospecting with Diamond drills has been done. The Diamond Vale Coal and Iron Co. has been operating extensively with the drill on its coal areas in the Quilchena basin, and recently on its Coldwater property. The disclosures on Quilchena were satisfactory, but too remote from a railway for a present shipment. This company secured a large area of the best coal lands in the Nicola and Coldwater basin, through which the C. P. R. branch line passes. After several drill tests, which resulted favorably, the company selected a colliery site, and things are now in preparation for the opening up of these properties. All the work is done substantially and with a view to permanency. Everything is now ready for shaft-sinking, and, as the depth of the first seam is comparatively small, the company hopes to have an output of coal at an early date.

The Nicola Valley Coal & Coke Co. (locally known as the Garesche-Green), also located on the Coldwater, has a large coal seam to start on, an outcrop on the hillside of a good quality of coal, which can be worked by tunneling. Under the efficient management of A. Faulds, M. E., this property is being prepared for coal shipment. The local demand has been fully supplied; also the Canadian Pacific Railway engines on the Nicola branch get their coal from the tunnel output. A car is now being loaded for shipment to Vancouver. Counting the different seams known to exist on this property, there is fully 18 feet thickness of coal accessible by tunnel. The work so far has been chiefly exploratory and preparatory; but as soon as proper shipping facilities are afforded the company expects to have an output equal to the demand.

PENTICTON NOTES

J. D. McDougald returned from Qu' Appelle on Wednesday's boat.

L. W. Shatford M. L. A. is relieving his brother as manager of the Southern Okanagan Land Co.

Chas. Greer's new concrete house is now well under way, as is also F. H. Latimer's new frame residence.

Certain prominent citizens here are trying to get the town to buy 23 acres of meadow land at the foot of Fairview Avenue to be used as a race course and park. If the land is purchased a most suitable name would be "Skidoo Park."

R. L. Borden has promulgated a Conservative platform, which is in every way admirable. There are sixteen clauses in the platform, and some of them are directed to the correction of evils and abuses that exist under the Liberal administration. There are others which are of a progressive character, and which if put into operation, would tend towards a better distribution of wealth among all classes. Under the former head, says the Ottawa Citizen, comes the proposal to prohibit contributions to campaign funds by corporations, contractors and promoters, and the providing of more effective measures to punish election frauds. Mr. Borden proved his sincerity in this connection during the campaign of 1904, when he issued a manifesto directing that no campaign contributions were to be received from any source, the acceptance of which contribution would imply the expectation of a quid pro quo. The issue of that manifesto at a time when the Conservative party was notably in need of the sinews of war secured for Mr. Borden the high approval of all right thinking people, though it probably lost the party many large contributions. It is appropriate that his action should be recalled at the present time as an evidence of the sincerity of the leader. He also proposes that appointments to the civil service should be taken out of party politics and placed in the hands of an independent commission. Also that immigrants who are to form the future citizens of this country shall be carefully selected, and that the honours system, which, as in the notorious North Atlantic Trading company case, has been productive of such scandalous abuses, should be abolished. That the Intercolonial and other government railways shall be managed by an independent commission, as is the T. & N. O., under the Whitney government. Chief among the new proposals is the nationalization of telegraphs and telephones under conditions which shall be just to capital already invested in these enterprises: the improving of existing postal facilities, a very much needed reform; the promotion of inter-imperial provincial trade, and the development of our great national enterprises under conditions by which a proportion of the increment shall inure to the people. These and the development of our transportation facilities in directions which will ensure the reduction of freight rates between

the point of production and the market, form the main planks in the platform, which is sure to appeal to the people as being drafted with a sole regard to the public interest.—Columbian.

LABOR DAY SPORTS.

Continued from First Page.

20. In the consolation prizes the winners in order were: G. Harris, of Penitence; Dr. Whillans, D. Currie and Bert Schubert, Hedley. Below are the individual scores of the highest eight:

HORSE RACES.

The principal racing event was the 600 yards open, for a purse of \$225. It was run the first day in a steady down-pour on a soggy track. The winning horse was owned by Chief Charlie Allison, and ridden by his 9-year-old boy Charlie. Some stop-watches gave the time as 27 secs., which is going some.

600 Yards, open—1st Allison's Johnny Hooker, 2nd Richter's Panhandle Pete.

Cowboy Race—1st Michel Tobasket, 2nd Hans Richter.

Saddle Horse, owners up—1st Danny Baptiste's "Johnny," 2nd Saul's "Dan," a Penitence horse.

Pony Race—1st Hans Richter's McGinty, ridden by Charlie Allison, jr.; 2nd, Okun's "Snow-ball," a Nicola horse, ridden by Austen Henderson.

Turncoat Race—1st Baptiste's Johnny, ridden by himself; 2nd C. Allison's Sorrell, ridden by Wm. Kruger.

Klootchman's Race—Ridden by Ashnola John's two daughters, Charlotte and Matilda. Charlotte won, Matilda's horse bolting.

1 Mile Boys' Race—1st Edwards, 2nd Johnny Lorenzetto.

ATHLETIC EVENTS.

100 Yards dash—1st T. Press, 2nd H. Brewer.

Running High Jump—1st T. Press, 2nd Tommy Tobasket.

Standing Broad Jump—1st T. Press, 2nd H. Brewer.

Putting the Shot—1st T. Press, 2nd H. Brewer.

Ladies' Race—1st Miss Christianson, 2nd Miss Helma Jackson.

Klootchman's Race—1st Matilda Ashnola, 2nd Charlotte Ashnola.

Boys' Race, 14 years and under—1st Leo Brown, 2nd Roy Corrigan, 3rd Maurice Daly.

Boys' Race, 10 years and under—1st Charlie Allison, 2nd Johnny Lorenzetto.

Girls' Race, 14 years and under—1st Emily Jackson, 2nd Gladys Brown.

Girls' Race, 10 years and under—1st Annie Jackson, 2nd Vera Shatford.

Indian Girls' Race—1st Mary Lorenzetto, 2nd Josephine Nahumshan.

The sawing contest and the packing contest failed to fill and consequently did not come off.

Town and District.

The Twenty mile wagon road is now
completed almost as far as the Forks.

For sure returns plant an advertise-
ment in the Gazette.

Word has been received from Rev.
D. G. Macdonald, who is now in Al-
berta.

Mr. E. P. Chilson and family have
moved from Loomis to Nevada, where
Mr. Chilson is putting in a mill.

Dr. Mathison, dentist, will be in
Hedley about the 20th inst. Further
notice will be given of probable length
of stay.

A meeting of the Hedley Rifle Asso-
ciation is called for Friday evening,
Sept 6th at 8:00 in Hairsine's billiard
parlor.

Mr. F. A. Ross general manager of
the Daly Reduction Co. has been un-
der the weather for a few days past
with a severe cold.

W. A. Maclean of Penticton came
over on Labor Day, and received
numerous hand-shakes from friends in
Hedley. This is his first visit for about
a year.

It is stated that after this week, the
Oroville stage will no longer make the
trip by way of Richter's pass but by
Fairview, until regular train service
to Keremeos begins.

Messrs J. D. Brass and E. D. Boe-
ing came down from Princeton on
Saturday for the Labor Day sports,
and P. Heldstab came with the crowd
on Monday.

L. A. Manley of Grand Forks, who
is joint owner with H. Swanson in the
Great Northern hotel, Princeton was
in town last week on his way to and
from Princeton.

Mr. Kelly, a prominent mining man
of the Kootenays has been in town
for a week looking over the country.
While here he met, among the miners,
several who had worked for him in
other parts.

D. J. Innis of Keremeos has pur-
chased the stable and livery business
of W. Hopkins, and took possession
this week. The new stock added and
to be added to the establishment com-
prise some good working teams and
drivers.

I. L. Deardorff, road supervisor, re-
turned last week from the eastern
portion of the riding, where the sea-
son's road-work is now pretty well on.
He reports severe frosts over in that
section which blackened the potato
vines everywhere except a few patches
at the mouth of Rock Creek.

Mr. J. J. Irwin, who has been teller
in the bank of B. N. A. since it opened
up here in the spring of 1905, is being
moved to Vancouver. This is a pro-
motion for Mr. Irwin which is well-
deserved, and his many friends in
Hedley, while sorry to see him leave,
will offer him their congratulations.

Among the visitors to the Labor
Day celebration was Robt. Stevenson
who has seen many gatherings of the
kind in this valley, although on a
much smaller scale, and from remin-
iscences of other old-timers he was
generally himself a prominent figure
owning and riding horses in some
memorable events. While he still en-
joys the sport and is an appreciative
on-looker, he is now content to let
others take the leading part.

The very apparent lessening in the
amount of drunkenness among the Si-
washes present at the Labor Day cel-
ebration was noted by quite a few.
Various causes contributed to this de-
sirable end. Among them may be
mentioned improved police protection,
summary dealing with sundry offences
last year, with also the better influ-
ence of a sober tribal chief and the
absence of outside Indians. The after-
math of last year's games gave one
fellow four months in Kamloops for
supplying booze, and several drunken
Indians were made to contribute to
the public treasury for their expensive
tastes. This year the sports went off
without a single arrest.

The bounteous rains of the past few
weeks have been helping out in grand
shape on the water question, and the
sun of sweet content has re-risen in
the eyes of the management. For
several weeks past the creek has been
doing all the work, not a drop of
water being drawn from Twenty mile
lake which in its turn is filling up sat-
isfactorily, and increasing the reserve.
For the greater part of last week
something over 400 miners' inches
were wasting over the dam, and un-
less a lengthened spell of dry weather
again sets in, the creek should be good
for it for the autumn before it be-
comes necessary to again fall back on
the lake.

KEREMEOS NOTES.

Monday being Labor Day, the pub-
lic school here will not re-open until
Tuesday Sept. 3rd.

Summer of 1907 is knocked cold.

The Rev. Mr. Jones was encouraged
by the attendance at the evening ser-
vice held by him last Sunday. Messrs
Jones and Thomas added a dent to the
usual order of the services.

Mr. Walker, with his family, is liv-
ing on his ten acre fruit lot. The tem-
porary building occupied by him will
soon give place to a more commodi-
ous house.

The work on the Keremeos-Ashnola
water ditch is making steady progress,
but from the force now at work on it,
your correspondent is not warranted
in saying that the ditch will be com-
pleted this year. The Company has
not yet received from the Indian De-
partment, Ottawa, permission to cross
the Indian reserve. The matter has
been before the Department for
months.

Mr. F. Reynolds returned on Tues-
day from Kelowna. He came by
stage from Penticton.

Mrs. Greenhill of Hedley was in
town for a day last week.

It is reported that Mrs. Lowe has
sold her ranch. In company with Mr.
and Mrs. Coleman she went to the
Coast.

J. K. Patton, agent for the Oregon
Nursery Co., of Salem, Oregon, is here
taking orders for trees &c.

Why should not the citizens of Kere-
meos and the settlers on the south
side of the Similkameen from Chepaco
to Ashnola agitate for a bridge. A
bridge would accommodate many.
Where is the petition?

Mrs. Dowling, of the Lancaster
House, Midway, and her son Sher-
man Haynes were in Keremeos on
Tuesday.

On Tuesday a fine young horse be-
longing to the Keremeos Land Co.
was kicked by another horse, and his
leg was so badly fractured that he had
to be shot.

Mr. Pete Bromley is putting a large
addition to his blacksmith shop. Busi-
ness is brisk.

The material is on the ground for
the Keremeos Land Co.'s warehouse.

An informal meeting of a majority
of the resident directors of the Fruit
Growers' Exchange was held in Mr.
Jelly's room on Tuesday evening,
when the business of the Exchange
was freely discussed.

The 10,000 cans ordered for the Ex-
change are at Penticton.

The first to occupy a cell in the goal
is Lamb—not the innocent, but one
full of booze.

Rev. Mr. Jones says that the boys
and girls enjoyed the religious service
in the school house on Wednesday
evening.

Mr. Francis McLean is finishing the
stairs, halls and third story of the
Central Hotel. The work is that of a
master workman. The third story
adds to the hotel accommodation 21
good sized rooms. The Central when
completed will be second to no other
hotel in the Similkameen district.

Mr. Boyd of Spokane is in charge of
the barber's chair at the Central Hotel.

Miss Violet Kirby, who was ailing
for a day or two, is now fully recover-
ed.

The stack yard on Mr. W. H. Arm-
strong's ranch near Delmar, compares
favorably with the best in Manitoba,
the wheat garden of the world. In
two years, Mr. Jas. Elmhirst has
changed a wilderness into one of the
finest farms in British Columbia.

Keremeos is making a good start at
the V. V. & E. station. The new
buildings have a finished look. The
office of the Keremeos Land Co. is the
latest to receive a coat of paint.

Mr. Scott of Blind River purchased
a ten acre lot South of Rev. Mr.
Cameron's from the Keremeos Land
Co. and has an option on three other
lots adjoining.

A CONVENTION

of the

Yale-Cariboo Conservative Association
will be held at the Conservative
Club at Kamloops, B. C., on

FRIDAY

SEPTEMBER 27, '07

Local Conservative Associations
throughout the Riding of Yale-
Cariboo are requested to appoint
delegates to represent their dis-
tricts at the Convention.

HON. R. L. BORDEN, K.G., M.P.

Leader of the Opposition in the
Federal Parliament, will be
present at the Convention and
will also address a PUBLIC
MEETING at Kamloops in the
evening of the same day.

J. T. ROBINSON, Secretary.

C. A. SEMLIN, President Yale-Cariboo
Conservative Association.

Notice of Forfeiture

To Joseph McDermott and any person or per-
sons to whom he may have transferred his
interest in the Edwin Fractional Mineral
Claim, situated on Nickel Plate mountain,
in the Osoyoos Division of Yale District.

YOU are hereby required to take notice that
I have expended for assessment and for re-
cording certificate of work on the above named
claim, \$102.50, being the expenditure necessary
to enable me to hold said claim, and you are
hereby required to contribute your share or
proportion of such expenditure together with
all costs of advertising. If you fail or refuse to
contribute such amount, including advertising,
within 30 days of first publication of this notice
in the Hedley Gazette, your interest will be-
come vested in me, your co-owner, under the
provisions of the "Mineral Act and Amending
Acts."

Dated this 5th day of Sept., 1907.

LITERARY ALLUSION.

A Recent Case Which Indirectly Bears Upon the Question of Education and the Study of Literature.

As illustrating the matter of allusiveness in literature, we venture to quote a letter just received from one who signs himself "One of Campbell's life-long friends." Indirectly it bears upon the question of education and the study and uses of literature. The writer says:

"As a lifelong personal friend of the late Professor Campbell, I wish to express my grateful thanks for the true and beautiful appreciation in this morning's Globe. In sentiment and feeling and form it is perfect. The delicacy of touch makes me certain that the fault is mine when I pause over one phrase in the last sentence. The sentence is a gem, but I feel I miss the beauty of the phrase 'his own gray spirit.' I have read it over and over again, and each time feel more sure that it is no misprint, but that it has a background of literary allusion with which I ought to be familiar. The phrase has haunted me all forenoon, and I cannot rest until I fix it."

The phrase referred to is, in fact, an almost unconscious glint from a line in Tennyson's "Ulysses." In using it the writer did not have the poem in mind, nor was there at the first any sense of similarity between the brave old Greek hero and the eager Canadian scholar. Its use illustrates one of those mysterious workings of the mind in its own secret laboratory, where, without the conscious effort or direction of the will, it draws up out of some forgotten cranny some form of expression that is fitted by instinct to some heart emotion or some unformed thought. Psychologists may have an explanation of these mental processes; the most the rest of us can do is to appreciate the fact and to provide favorable conditions. George Paxton Young used to talk to his students about "old sense movements returning on their former tracks." That may offer a clue. The unremembered line from "Ulysses," under the stimulus of the emotion awakened by thought about John Campbell, found its way back along the track it made years ago, and, without conscious choice, the two men so widely separated were bound together in one association. That, too, is a matter for the philosophers.

But second thought over these things, and over the discussion the phrase provoked, brings out into greater distinctness the aptness, unseen before, not only of the phrase itself, but of the whole passage to which it belongs. The passage is familiar, but, as one literary friend of the dead professor said, it is worth quoting, and it may send some readers of *The Globe* back to their English classics for the summer reading they so much desire:

"I am a part of all that I have met;
Yet all experience is an arch where thro'
Gleams that untravelled world, whose mar-
gins fade
On life.

Were all too little, and of one to me
Little remains: but every hour is saved
From that eternal silence, something more,
A bringer of new things; and vile it were
For some three suns to store and hoard
upself.

And this gray spirit yearning in desire
To follow knowledge like a sinking star,
Beyond the utmost bound of human
thought."

Were we to point this moral it would be to urge upon teachers and parents, and all who care for the real education of the young, the inestimable importance, for the purpose of true culture as well as in the interests of literary expression, of making the young mind familiar with the best things in the best literature. Biblical literature, classical literature, modern literature, all literature that is true and enduring, has in it the matchless elements of intellectual and spiritual culture. It would mark the turning back of civilization, alike for the individual and for the State, were education to lay aside that old-time habit of steeping the young life, its thought and imagination and memory, in the undiluted wells of literature. And it is not as bits of ornaments with which to trick out a prize essay or to hide the intellectual cheapness of an address that one should gather into one's treasure-house those literary gems—

"Jewels five-words-long
That on the stretched forefinger of all Time
Sparkle for ever";

Not for so base an end as that, but rather that the common clay of our own moulding may be touched to preciousness and worth. There is perhaps no other discipline so transforming and vitalizing as literature, and, whether we read Homer and Virgil or not, we have in our mother tongue the master-literature of the modern world, and by it we may save ourselves and our generation from the barrenness and death of the world of things.—To our *Globe*.

Cheap Contempt.

In an American court a defendant who had just lost his case rose up and loudly gave his opinion on the judgment. His words were frank, and as a result he was fined \$10 for contempt of court. A bill for \$20 was handed over to the clerk.

"I have no change," said that functionary, tendering it to the offender.

"Never mind about the other \$10," was the retort. "Keep it. I'll take it out in contempt."

PROPERTY IN HEDLEY Is A Good, Safe Investment

And
Will
Make
Money

Hedley is the supply point for the Nickel Plate mountain, on which is situated the famous "Nickel Plate"—the richest gold mine in Canada—and many other promising mines and prospects. It is the mining and business centre of the

Similkameen

the new mining district which has already been proven, by a small amount of development work, to be one of the richest gold, copper and coal mining sections of

British Columbia.

HEDLEY is the chief town on the route of the proposed Coast-Kootenay Railway; and with the advent of this road, which is assured in the near future, it will unquestionably become a large and important city, and town lots will bring big returns on money invested at the present time.

...PRICE OF LOTS...
