### EDITORIAL COMMENTS

One central point which wage earners should endeavor to keep in mind is that cheap living and low wages always go hand in hand. It has been so from earliest times, and it is folly to assume that it may not be so now.

Toronto hotels are so full of Americans from Buffalo and other points, who have come over to help the Grits to bulldoze Canada into reciprocity, that the bell-boys have to sleep on the floors.

A truly Pugsleyish trick is seen in the announcement last week that the employees on the Rideau canal who have been trying in vain to get their pay increased were granted the raise. Of course, it would take a long explanation to tell what that's for.

Sifton tells that when Patterson and Fielding went to Washington to carry on negotiations with Taft and Knox they went under protest from many Liberals including himself but among all the dissenters only German, Lloyd Harris and Sealey had the backbone to refuse to be coerced into a thing they did not believe in when the party whip was cracked over them in the halls at Ottawa. It will be different with the electors.

In point of loyalty to the British flag and British ideals Australia and New Zealand have set an example that should make Canada blush with shame. After Laurier's attitude at the conference and McKenzie King's break to the German voters of Waterloo thoughtful Canadians who prize British ideals have indeed reason to wonder where they are being led and what is to be the end of all this treasonable talk and action.

Canadian railway employees ought to realize what they will be up against if reciprocity passes. The United States is now full of idle railway men, and should the tariff on the Canadian east and west lines which is now giving lots of employment at a good rate of wages to employees on this side, set in north and south it will be the chaps at the south ends who will collar the jobs and those on this side who are laid off in consequence will have to hunt new jobs with the hunting decidedly against them.

You young voters who are voting for the first time, be sure and vote right, for on you rests the responsibility of helping to decide one of the most momentous questions that have ever been put up to a Canadian voter. Even if a sordid motive should prevail in the country as a whole and

English speaking electors should allow their partyism to over-ride both their patriotism and their business sense, think what a satisfaction it will be in after years to be able to tell your children that in 1911 you did all in your power to ward off the calamity.

Laurier evidently realizes that his position is desperate for his appeals to his compatriots in Quebec are those of despair. At one time he shakes his silvery locks before them and asks them to take pity on him for those gray hairs made gray in their service. But a little later on, when he thinks of Sifton, he fires up and appeals to them as French-Canadians to keep the French on top by returning a French-Canadian premier. It must be pitiable to his English speaking supporters to see him thus a self-shattered idol resorting to petty artifices that reveal the weakling when they had all along accorded him the veneration and allegiance which belongs to stronger and truer men.

Will Dr. McDonald tell us where he was in 1891 and whether he was supporting the Liberal platform in that contest? Because, if he was, it means that the present reciprocity proposal does not go far enough for him, and he would be in sympathy with full commercial union such as Laurier was advocating at that time, and which he has recently threatened the manufacturers with if they oppose his present scheme too strongly. This is something the manufacturers and wage-earners of the Similkameen want to know from the Dr. right now, for if they expect the farmers to help them after a while to save the home market for their products it will be up to them now to lend a hand to the farmer to save his home market for his products.

Mackenzie King, one of Laurier's cabinet ministers, is asking the German electors of Waterloo country, Ontario, to vote for him because Borden wanted to send a Canadian dreadnought to Great Britain to help to fight Germany; and yet it is fashionable for Grit speakers in this campaign to throw out their chests and simulate a fine scorn at any imputation of their loyalty because they are advocating a course that their best men have admitted must lead to annexation with the United States. With Laurier claiming that Canada may stand aloof when Britain is at war and Mackenzie King trying to make political capital by condemning a Canadian statesman for wanting to help Britain against Germany, where is there anything wrong about imputing disloyalty to a party with such a leader, such a minister and such a policy?

The Canadian Liberals when compelled by the business men and farmers of Canada to retain the protective tariff of their predecessors, have had good times in spite of themselves. Now they want to import hard times through the medium of reciprocity. Canadian railways are prosperous and have all they can do, while four American roads, the Southern Pacific, the Chicago and Northwestern, the Union Pacific and the Achison, Topeka and Santa Fe have been experiencing depression for months and have already commenced to retrench and dismiss men. That is why they are all so anxious to get a share in Canada's carrying trade. When the present government would run us up against a thing like that isn't it about time Canada was having a change?

**Water Notice**

I, Joshua Wilson, of Hedley, miner, give notice that on the 21st day of September, I intend to apply to the Water Commissioner at Fairview for a licence to take and use 2 cubic feet of water per second from a small stream flowing from the side of the mountain and coming to the surface about 250 feet north of the north boundary line of pre-emption No. 7005, in Similkameen division of Yale District. The water is to be taken from the stream at the point where it comes to the surface and is to be used for pre-emption No. 7005 for irrigation purposes.

**Town and District.**

Mr. C. H. Brooks went to Spokane last week and returned home on Tuesday.

V. V. & E. rails are expected to reach Coalton by the middle of this month.

Rev. A. H. Cameron is in Vernon this week attending a meeting of the Kamloops presbytery.

Mr. E. H. Williams returned on Thursday last from a pleasant holiday trip to the Kootenays.

The Canadian Northern are expected to have their rails laid into Hope by the end of November.

The Steamboat Nugget and the Hope news and Gold Trail have both been merged in the West Yale Review.

Lost—On Labor Day in Hedley or somewhere on the grounds, a watch with silver case and Rockford movement—Finder will please communicate with this office.

There were no less than ten deaths by drowning in the Fraser in the vicinity of Hope within a month and the manner in which the remains of the victims have been disposed of is calculated to call up recollections of the old Oudemok stories of thirty years ago.

There were three small breaks in flume during the Labor Day rains but none of them interfered with the bottom of the flume. It carried about 18 inches of water which permitted work to start up again at the end of the holiday without having to wait for carpenters to make repairs.

General superintendent Jones has been giving a great deal of attention to the mine during the past fortnight and it is also known that the development work under way has been very successful in proving up new bodies of good ore and the Nickel Plate is in far better position to-day than it has been at any time in its history.

H. A. Hincks made another particularly low round of the golf links one day last week, making the round in 42 which had only been reached on one other occasion and that by himself. The next day, however, he did not play in as good luck and lost a ladder

contest with Rolls who won, out on it 4 up and 2 to play.

Nelson and Greenwood are both infested with fire-bugs. As a result the citizens of both burghs have their indignation worked up nearly to lynching point. As the police department do not appear to effect any captures it may seem necessary to fall back on the old method of vigilance committees with shotguns.

Many country merchants don't advertise because they don't know how, and the Greenwood Ledge thus describes the cause and the result: "On their shelves they carry goods that the people know nothing about, and in consequence send east for goods to the big stores that use plenty of printers ink in telling about everything that they have for sale."

The new organ for the church, purchased and owned by the Presbyterian congregation but to be used by other denominations as well, was put in place last week and used for the first time at Mr. Cameron's service on Sunday night. The instrument was purchased through the agency of Mr. J. A. Brown, of Keremeos, to whom the managers in Hedley are indebted for his generosity in procuring them so fine an instrument for the money. Prof. Brownell who has looked it over and tried its tones, considers it a particularly fine instrument. The case is of solid oak and the reeds of a high grade specially designed for church purposes and second only to the pipe organs.

An arc light has been placed at the corner of Scott avenue and Webster St. and the improvement it makes will well repay those who have contributed towards the purchase of same. One of the main objects in placing it was to light up the way to the hospital and it does this very well. In fact the whole vicinity for a couple of blocks around that corner is very well served by it. The generous way in which the Hedley Gold Mining Co. have responded in the matter of furnishing the current is, we are sure, appreciated as it should be and should go a long way towards exploding the charge so often thoughtlessly made that corporations have no souls and

care nothing for the convenience of the public.

Why all this delay in appointing a constable for Princeton? There is no sense in expecting one man to look after the whole valley from Hedley to Tulameen. For the past four weeks Hedley has had practically no constable at all and during the past week liquor was being given in Hedley to interdicted men. Hotel-keepers who do that sort of thing have no business to hold licences at all and the sooner they are weeded out the better. People who have noticed anything in this connection which the constable ought to know to aid him in securing a conviction should tell him and then if the constable does not act on it he will have only himself to blame. There is no kindness nor morality in screening sharks who for the sake of the little bit of gain there is in it for them will supply liquor to drunken or interdicted men or to anyone else who may want to act as go-between.

**KEREMEOS LOCALS**

Many names of electors, which should have been on the lists for Keremeos are not there. This is principally accounted for by the fact that last March when the names should have been sent in for the May revision, there was no thought of an election and nobody was sufficiently interested to make the effort necessary to have them placed on. In this respect both parties appear to suffer about equally around here.

On Wednesday of last week Dr. McGregor of Penticton was called over to attend Mr. T. E. Pares, of Ollalla, who has contracted typhoid fever. He was accompanied by Mrs. and Baby (wee) McGregor, and being an old acquaintance of your correspondent, drove down, when in the vicinity, for a few hours' visit. On the return trip that evening the car, at 25 h. p. McLaughlin and ordinarily well behaved and reliable, refused to work when a short

distance up the Keremeos canyon and the doctor and family had to spend the night at the home of Mr. Kennedy.

Messrs. Holman and Backlund, of Kelowna, were in Keremeos last week. The latter was seeking beef cattle and went as far down the valley as Richter's lower ranch. The former was over to note development in the tobacco crop planted here in an experimental way last June. He found the plants much further advanced than he anticipated and was vastly surprised at the growth they had made. He is loud in his assurance that the valley is suitably adapted to the culture of this plant, and that ranchers who engage in it can be sure of cleaning up at least \$150 an acre, with ready sale for all that can be grown.

 - - - surrounding - - -  
**EAST PRINCETON**  
 The New City with the Payroll  
 gives you the opportunity for one of the  
**SOUNDEST INVESTMENTS**  
 in British Columbia.

City Lots are being offered for Sale for the first time. It is inevitable that the value of these lots will Greatly Increase. Here are some of the reasons.

East Princeton is surrounded by huge deposits of coal, cement, copper, gold, and other important minerals.

The British Columbia Portland Cement Co. is erecting a half a million dollar plant which will employ between 300 and 400 men.

The United Empire Co. is shipping a lignite coal of the best quality and is developing immense copper deposits, requiring large reduction works and several hundred employees.

The Princeton Coal and Land Co. is increasing its daily

shipments to 300 tons of coal, providing employment to about 150 men. Other coal companies are spending over \$2,000,000 in development, and will give work to at least 1000 men.

For transportation, East Princeton will have, in the near future, the Great Northern and the Kettle Valley lines, both of which, will pass through the townsite.

East Princeton is beautifully situated on the Similkameen river, with an abundance of water power available. The new city has every factor for growth into a big industrial centre. It presents a rare opportunity for investment.

# THE KEREMEOS PAGE

KEREMEOS, the Centre of Lower Similkameen---Famed for Fruit Growing

## Town and Lower Valley.

Read E. M. Crooker's clearing sale advertisement on this page.

F. J. Sauve proposes leaving on Saturday on a trip to Vancouver via the Hope trail.

Only two weeks more till election day. Quick elections are not an un-mixed evil.

H. B. Meusette and Ben Nickel are spending the week at their pre-emp-tions up the Ashmola.

The E. T. Bank here will be open on Friday and Saturday of this week in-stead of the usual days.

Mrs. Carmichael and baby are visit-ing at the home of her parents, Mr. and Mrs. J. J. Armstrong.

Miss Violet Kirby returned home on Friday after a pleasant month's visit with friends at Kelowna.

Hunting season opened on Friday last. Little interest, however, was manifested by the sportsmen of Keremeos.

The early bird gets the early grab, and the early customers get the choic-est bargains at Crooker's big clearing sale of hardware.

At the auction sale of the imported French Coach stallion "Diplomate," held on Saturday last, the horse was bought in by the syndicate owning him.

MARRIED—At the Keremeos Church on Friday, 1st inst, by the resident clergyman, Rev. A. H. Cameron, David H. Bentley and Lillian Ash, both of Summerland.

Mr. D. H. Traube of Didsbury, Alta. is visiting at the home of his daughter Mrs. E. M. Crooker, and will also pay a visit to Mrs. Bamish at Coalmont, another daughter.

W. H. Armstrong and party from the coast are expected in Keremeos on their annual visit this week. They will travel by C. P. R. and motor over from Penticton.

S. M. Richards, Inspector for the Manitoba Assurance Company, paid the agency here a visit over Sunday and on Monday left for the upper val-ley to establish new agencies at Prince-ton and Coalmont.

Geo. Kirby, real estate agent of Kelowna came over to Keremeos on Monday and will likely remain here until after the election. It would be a tame election contest without George around.

Rev. T. A. Osborne, of Princeton, paid friends in Hedley and Keremeos short visits on Monday. The train ser-vice permitting him to spend a few hours in each place and still go home by the return train.

Mrs. Thomson and children arrived last week from Vancouver and joined the Doctor here. Their household ef-fects, which made remarkably good time on the way, arrived the same day and they are now comfortably es-tablished in their new place of abode on Mr. Cooper's ranch west of town.

C. E. Shaw, P. L. S., returned the latter part of the week from Coalmont, where he was engaged doing some work for the Coal Company. At present he is engaged running levels on the Lowe ranch by the people who have arranged for purchase.

Mr. Coleman, who returned last week from Tulameen, where he was engaged by the provincial government to conduct an auction sale of town lots, reports a successful sale netting in the neighborhood of \$7000.

The Misses Gertrude and Marjorie Smith, of Hedley, who were visiting friends here, were the guests of honor at a tennis party given by Mrs. J. A. Brown on Wednesday of last week. They returned home on Monday.

E. M. Crooker is engaged in mark-ing down his entire stock of hardware in readiness for the big clearing sale which opens on Wednesday next. Clearing prices will prevail as Mr. Crooker has disposed of the building to the Keremeos Land Company and is quitting the business. First come will get first choice of the bargains offered.

Elections of Keremeos have already had an opportunity of hearing Mr. Burrell set forth the short-comings of reciprocity. To-night (Tuesday) they will have the chance of hearing Dr. K. C. McDonald, Liberal candidate, extol its virtues. Notice of the meeting, as in the case Mr. Burrell's has been very short and a fair house can hardly be expected.

### Your Order Please

F. J. SAUVE & CO.

Studebaker lost out in his run over from Penticton to Keremeos on Mon-day, arriving at the top of the hill just in time to see the train pull out from the depot. Even at that he did a sprint to try and head off the iron horse at the crossing west of town but there was so much water on the streets that even the "big Mogul" had to capi-tulate, the excess moisture causing short-circuiting.

Even the Steady down-pour of rain, which set in Sunday morning and con-tinued until Monday afternoon, could not dampen the holiday spirits of many Keremeos people who had made their plans to attend the Labor Day sports in Hedley, and there was a good representation from the fruit belt. Had it not been for the rain there would have been the usually large at-tendance.

Work on the wagon road up the Ashmola has been suspended owing to the lack of any signs of activity on the part of the promoters of the tung-sten mines, up in that country, who agreed to begin immediate construc-tion of the road above the Forks if the B. C. government would build that far. We understand that in the event of the Tungston men getting busy work will be resumed at the govern-ment camp, which has been moved up beyond the first canyon.

We were pleased to see our old friend Joe Armstrong of the lower valley in town again last week after a long absence enforced by the painful accident which he sustained early last spring. The injured leg is slowly heal-ing and he hopes soon to be able to navigate better. Joe is strongly op-posed to the manner in which the authorities at Ottawa are tampering with the tariff. Last year he purchas-ed a large number of sheep from across the line on which he had to pay sev-eral hundreds of dollars duty and now when he is nearly in a position to take advantage of the protection it is re-moved. He also states that the changes of regulations in regard to the importation of sheep are also most disconcerting and place a man engag-ed in this industry in such a position that he don't know where he is at. Joe returned home after spending a couple of days here looking after some business which required his attention.
