## Report on Patsey Mineral Claim

The "Patsey" Mineral Claim, upon which Mr. Rutherford's prospect is located, is in the Similkameen Mining Division of British Columbia. The claim lies on the northerly slopes of the range of mountains bordering the Similkameen on the South. The prospect is in close proximity to the confluence of Sterling Creek, to the West, and the Similkameen River. The portal of the upper tunnel developing the prospect is approximately one thousand feet above the level of the Similkameen valley.

The tracks of the Vancouver, Victoria and Eastern R. R. (branch of the Great Northern R. R.) parallel the Similkameen River at the foot of the slopes upon which the prospect is located. Corey, the nearest station, is one and one-half miles West, and Hedley, the nearest town, is four miles East of the location. The prospect is approached from the valley by means of trails.

The vein, upon which development work is now in progress, outcrops for a distance of approximately one hundred feet. Its strike is north 10° West and its dip is forty or forty-five degrees to the southwest. In thickness the vein varies from three to twelve inches on the surface and from four to ten inches in the upper (main) tunnel. Six inches may be assumed to be the average thickness.

The metallic minerals noted in the vein are: arsenopyrite, chalcopyrite, pyrrhotite and pyrite the order of succession indicating their relative abundance, with arsenopyrite predominating to a degree. The arsenopyrite is the gold-bearing mineral beyond question of doubt. It is found massive, and often in often in solid chunks, and very rarely, in distinct and clear-cut crystals. The massive variety is somewhat soft and neither as lustrous nor as silvery-white in color as arsenopyrite is generally conceived to be. Small disseminations of chalcopyrite are sparsely scattered through the vein, and pyrite and pyrrhotite in the main vein are rarely met with, although very abundant in nearby formations.

The gangue is composed almost exclusively of quartz with calcite sparingly present. The quartz varies from pure white to grey in color, the latter variety possessing an extremely greasy luster. As has already been noted, the quartz and country rock, chert, are very intimately associated and intermingled one with the other, and upon cutting with a hammer the quartz never breaks "clean."

The vein has been exposed for one hundred feet along the outcrop and intersecting the vein in its progress. A second tunnel, called the lower tunnel, has its entry down the slope, approximately 75 feet from the upper tunnel and was driven with the intention of intersecting the vein at depth. An error of judgment was made in deciding the course of the tunnel and to obviate this difficulty it was subsequently deviated from its original course and in a circular direction, in an attempt to get under and cut the vein. Although it has been driven seventy feet, the writer does not believe that it has yet reached the point where it would theoretically intersect the vein, always providing that the vein continues to maintain the dip and strike exhibited at the outcrop and in the upper tunnel. A small stringer of similar composition and character as the main vein was encountered in the lower tunnel.

## Labor Day Sports Draw Big Crowds

Labor Day of 1915 will long be remembered by the people of the Similkameen who were fortunate enough to be in Hedley for that occasion.

The rainy spell, which has always been the cause of anxiety to the committees in charge of the sports, this year turned out to be a genuine surprise, the rain holding off until the morning after, and the sun coming out just enough to make the days most enjoyable.

The program Monday went through nearly as arranged, a little switching being necessary in order to save time and accommodate those who came in on the trains.

The ball game in the afternoon between Keremeos and Princeton drew a large crowd and interest was intense throughout. The game turned out rather disastrously for Princeton, who went down to defeat to the tune of 4 to 0. Tom Daly twirled for Keremeos and pitched himself out of some nasty places with consummate skill and ease. Roy Corrigan caught his numerous curves and drops and they were supported by the following team:

Petre, cf; D. Cawston, 2b; S. Booth, 3b; W. Daly, lf; Larson, 1b; Callaghan, ss; G. Cawston, rf.

The Princeton boys put up a very game fight, but played against exceedingly hard luck. Several times, just on the point of a tally, the Jinx made his appearance and robbed them of well earned runs. But they smiled and played and became the admired of the fans for the gameness they displayed in the face of such poor luck. In the battery they were plainly outclassed but in the field pulled off some stunts that robbed the Keremeos victory of much of its sting.

Their line-up was as follows:  
Avery, rf; Marston, 1b; Pearson, lf; Gardner, ss; Digman, 2b; McDonald, and Kearns, c; Melrose, p; Potter, cf; Kearns, and Johnston, 3b.

The aquatic sports were a great feature and certainly ought to become a feature of all future celebrations. To the committee in charge much credit is due for the very satisfactory manner in which each event was handled. There is no question the honors of the second day were even between the aquatic sports and the races.

Of the latter much could be said, but the feature most prominent was the match race between Allison's horse and a horse from Chilliwack. The former the favorite of the Indians easily beat the latter and incidentally enriched the braves, whose jubulations still ring in one's ears.

The numerous events and winners appear below:

100 Yards dash—1st, G. Callahan; 2nd, H. Hunter.

Men's relay race—1st, H. Hunter's team.

Fat man's race—1st, F. H. French; 2nd, J. R. Brown.

Boys and girls under 10 yrs.—1st, Polly Murdock; 2nd, E. McClure; 3rd, Madge Murdock.

Girls' race, under 10 yrs.—1st, Vivian Simons; 2nd, Madge Murdock.

Boys' 3-legged race—1st, E. Burr and W. Lyon; 2nd, H. McKenzie and C. Loomer.

Boys' race, under 15 yrs.—1st, Geo. Wirth; 2nd, James Clarke.

Boys' race, under 12 yrs.—1st, Gomer Jones; 2nd, Geo. Wirth.

Girls' race, under 15 yrs.—1st, Nellie Murdock; 2nd, Viola Messenger.

Putting the shot—1st, D. J. McPherson;

son; 2nd, C. McPhail; 3rd, Eneas Squakim.

Nail driving contest—1st, Mrs. Simons; 2nd, Ruth Bowerman.

Tug-of-war, for men—1st, town; 2nd, mine.

Girls' race, under 12—1st, Vivian Simons; 2nd, Katherine Hossack.

Tug-of-war, for boys—

100 yards swimming race, for men—1st, C. Votaw; 2nd, F. Glover.

Ladies' swimming race—1st, Miss H. Graham; 2nd, Miss F. Daly.

Submarine race, for men—1st, G. Callahan; 2nd, C. Votaw.

Boys' swimming race—1st, W. Lyon; 2nd, G. Luke.

Graceful high diving—1st, Miss H. Graham; 2nd, G. Callahan.

Saddle horse race—1st, J. Dennis; 2nd, E. Snort; 3rd, H. Richter.

Turnstake race—1st, L. Evans; 2nd, T. Melville.

Klutchman's race—1st, Femie Lorenzetto; 2nd, Katherine Lorenzetto.

## MINING NOTES

The Day interests, of the Oœur d'Alenes, have acquired the Northport smelter from the old Le Roi Mining Company, paying \$80,000 for the layout. Men are now at work getting the smelter building in shape to receive the new lead furnaces and the copper furnaces are being repaired.

The new owners planned to have the plant ready to operate temporarily in about two months, but a delay in the arrival of some structural iron material ordered from Pittsburgh may result in nothing being done in the operating line until some time near the end of the year.—Kootenain.

The Granby Smelting company, operating smelters at Anyox and Grand Forks, and mines at Hidden Creek and Phoenix, and in Alaska, produced 26,705,928 pounds of blister copper in the fiscal year ended June 30, 1915. The precious metal production from the combined properties was 415,806 ounces of silver and 82,126 ounces of gold. This is an exceptionally heavy output, especially in view of the fact that the Grand Forks and Phoenix properties were shut down for three months last fall, while the Anyox smelter and the Hidden Creek mines did not begin operating at capacity during the period covered by the report.—Grand Forks Gazette.

Judge Grevy, of Altoona, Pa., spent some time in Camp McKinney this summer, and his son will remain until November assaying and examining properties. If his observations are satisfactory Altoona men are ready to expend \$50,000 in the camp. They already own the Gold Standard, Iowa, Gold Top, Last Chance and Gold Seal claims, and may acquire such claims as the Victoria, Snowden, Dayton, Old England and others.—Phoenix Pioneer.

It is reported that the Silver Hoard has closed a contract for a 50-ton daily capacity mill, to be installed as soon as the building can be erected and the machinery assembled. The decision of the directors to provide a concentrator is said to have been based on the report of the consulting engineer, Harold Lakes, who has been conducting a milling test of a 50-ton shipment of Silver Hoard ore at the Canadian Consolidated mill at Rossland. It is said that Mr. Lake's report states that a high percentage of recovery of the values is possible by simple wet concentration, followed by floatation, and the system to be employed in the mill will be devised and the installation superintended by him.—Kootenain.

## Reception to Pte. Robert McCurdy

Thursday last local Orangemen held a meeting at which it was decided to send to Keremeos and bring Private Robert McCurdy to town, the object being to tender him a reception. Geo. Biddle made the trip and managed to tear him away from Keremeos admirers.

Arrived at the hall, fitting addresses were presented and Bob McCurdy responded, telling the story of his experiences in the trenches and of the engagement at Festubert in which the Canadians made a name for themselves and struck terror into the hearts of the Germans.

His own part he mentioned in a very modest manner, only very briefly referring to the incident which deprived him of the sight of his right eye.

The Gazette could but imperfectly recite the story and as Private McCurdy will likely be in our midst for some time, our readers will doubtless have the chance to hear the story at first hand.

That he has won a very high position in the esteem of the people of the Similkameen Valley, is a fact which needs no further comment. The position was well earned and we are sure will be equally well maintained.

Tonight and tomorrow he will be the guest of honor at a public reception to be given by the people of Penticton, at which Reeve R. S. Conklin, with Guard of Honor of Boy Scouts, will receive and welcome Private R. J. McCurdy in front of the Incola Hotel, at 7:30 on Thursday night, after which a reception will be held in the rotunda of the hotel. There will be no invitations or admission charges, and all those, either ladies, gentlemen or children, who wish to meet Private McCurdy are invited to come and do him honor.

Emmerton's Orchestra, who have kindly offered their services free, will be in attendance, and the reception will last until about 9:30, when a banquet will be served.

Stirring speeches will be given during the banquet by the Reeve, Mr. W. A. McLean and Mr. G. P. Jones, of Hedley; Judge Coleman, of Keremeos; D. E. Hatt, of Summerland; J. M. Robinson, of Naramata; Magistrate Guernsey and others.

On Friday morning and afternoon Private McCurdy will be entertained by citizens, and will visit both Naramata and Summerland. In the evening at 8 o'clock there will be a patriotic concert at the Empire Theater, Reeve Conklin in the chair. Patriotic singers from Hedley, Keremeos, Okanagan Falls, Summerland, Naramata and Penticton will take part. Private McCurdy will be asked to speak.

Rod and Gun for September is out and is a special duck shooting number. Bonnycastle Dale the naturalist-writer contributes Decoy Ducks and Shooting over them. "Duck shooting in the Cariboo" is an amusing story of two duck hunters who saw plenty of ducks but failed to shoot any. "After the Black Ducks", "Two Hundred Acres of Geese", "Duck Breeding in the Park Country, Alberta", are other stories that give a wild duck flavor to this number, and in addition there are other interesting stories outdoor life besides the regular departments devoted to gunning and fishing. W. J. Taylor, Limited, Woodstock, Ont., are publishers of this magazine of outdoor life.

## A RIGHT EYE

"It is better for thee to enter into life with one eye, rather than having two eyes to be cast into hell."

In the light of modern conditions, some of the utterances of the Great Teacher become more easy of comprehension.

Perhaps it is the change of viewpoint. Perhaps it is the adoption of changing knowledge to unchanging truth. One thing retains its original significance and that is duty. The call of duty has as much force in modern times as when He drove the money changers out of the Temple.

It is the call of duty today that is sending the best of our young men to the front to fight the battles of the Mother Country. That call is so strong that men are giving up home and employment and native land, risking life and limb, suffering privations and hardships, because they feel it their duty to do so.

Private Robert McCurdy, impelled by that call, made the sacrifices and endured the sufferings and has now come home to his native land, having given an eye, his right eye, for what he deemed the call of duty. But he has entered into life, in the truest sense. First, by actually passing through the valley of the very shadow of death. With death all about him, he emerged, wounded, but alive. He has earned the right to the fullness of life. He is a veteran in warfare. He can now retire honorably from active service, and he is entitled to a pension for a wound received while engaged in one of the fiercest engagements of the war.

Second, to McCurdy there is no hell of thinking, no conscience nagging at him for having failed to do what duty laid upon him as imperative. No sneaking feeling that he is regarded as a shirker, a piker, a

coward.

What more hell than the thought, ever present, that I am regarded as a piker, a quitter, by the men and women I live with and meet every day. Are you living in this hell?

Would it not be better to enter into life, as Private Robert McCurdy has done, even though it cost an eye?

There is not a man or woman in the whole Valley of the Similkameen, who does not think more, immeasurably more, of Bob McCurdy, the poor fellow who has to go through life minus an eye, than they did of the splendid young man who left here last year, with two bright eyes, and with the smile of youth upon his face. And as years roll on he will always be remembered as the hero, the altruist, who lost his eye in the service of his country.

And you? Will sneak away with the hell of shame in your heart, and

"Doubly dying, Shall go down to the vile dust from which you sprung, Unwept, unhonored and unsung."

## ANOTHER TRIBUTE

"For a town of less than 400 souls to raise within a few weeks, the sum of \$3,500 for patriotic purposes is surely an unique record, and one that might be interpreted to give the impression that conditions there are 'good.' The town of Hedley, B. C., including the staff of the Nickel Plate Mine, lately raised \$3,000 for machine guns, and \$500 for the use of the joint Red Cross and St. John Ambulance Societies."—Summerland Review.

No, Review, conditions at Hedley are no better than usual, in fact, not nearly as good. We have our own problems, of men out of work, etc., but we are learning to take the war seriously and aim to impress our citizens with the responsibility which rests upon each individual. In addition to the above you can add hundreds of dollars in cash and hundreds more in supplies which the ladies have sent out and about which no mention has been made.

There is hardly a household in Hedley in which some work is not in progress, designed for the men at the front.

"If we hope for a peace that shall endure, and that shall usher in the dawn of a new and brighter day, we must not shrink from the sacrifice which the stern needs of the time demand from us. No life, surely, can be just the same during the war as it was before it. We are forced to postpone mere personal concerns in the face of public duty, and to lift our eyes to the wider horizons which now, thunder-riven, are presented to our view. It is sad, no doubt, to see our sons going across the sea, and to know that, in all likelihood, some will not return. But it would be far sadder to risk the loss, or even the transient interruption of

the blessings which we have come to regard as our inalienable birthright; it would be far sadder if, one by one, the lights of liberty went out around the world."—Hon. Lieut.-Colonel Rev. Dr. W. T. Herridge, in "The Call of the War."

## TEN YEARS AGO

(From the Hedley Gazette of Sept. 7th, 1905.)

Mayor C. H. Stevens, of Kamloops, came in on Tuesday to look after installation.

M. K. Rodgers went out to Ashcroft and the coast on Friday morning's stage. Harry Rodgers, who cut short his visit here, accompanied him back.

The St. Mary's Guild announce a rifle match and turkey shoot for Thanksgiving Day, and a concert in the evening.

A batch of telephone material arrived last week, and this with the delivery of poles points to the installation of a telephone exchange in Hedley.

Mr. M. D. Hall, superintendent of the B. C. Copper Co.'s development work in Apex camp, was in town for a short time on Tuesday but had to hurry back.

The 'Gazette' is in receipt of several healthy bunches of apple blossoms taken from a tree in Mrs. Daly's orchard at Keremeos, that has already borne a good crop of apples this year. This is a very unusual occurrence.

Mr. McPhail, foreman for the Olalla Company, was in town for the celebration. It was his first visit to Hedley and he was duly impressed with the development that has taken place. Mr. McPhail is pleased with the satisfactory showings being made by his company at Olalla.

A. H. McNeill, of Rossmund, solicitor for the Gt. Northern, Major Anderson and John S. Snapp, right of way agents, were in town on Tuesday and made the Gazette a pleasant call. They were on their way to Copper Mountain and went through on Wednesday morning.

The Granby Consolidated have completed negotiations acquiring a bond on the Gloucester group of mineral claims at Franklin camp, 45 miles north of Grand Forks. If satisfactory results are obtained the Granby will build a wagon road 3½ miles to the government road.—Phoenix Pioneer.

## NOTICE TO CONTRACTORS

**SEALED TENDERS**, superscribed "Tender for Hedley School," will be received by the Honourable the Minister of Public Works up to 12 o'clock noon of Tuesday, the 21st day of September, 1915, at the offices of Mr. J. R. Brown, Government Agent, Fairview; Mr. J. Mahony, Government Agent, Vancouver; Mr. L. Norris, Government Agent, Vernon; Mr. S. I. Smith, Secretary to the School Board, Hedley, B. C.; or the Department of Public Works, Victoria, B. C.

Plans, specifications, contract, and forms of tender may be seen on and after the 1st day of September, 1915, at the offices of Mr. J. R. Brown, Government Agent, Fairview; Mr. J. Mahony, Government Agent, Vancouver; Mr. L. Norris, Government Agent, Vernon; Mr. S. I. Smith, Secretary to the School Board, Hedley, B. C.; or the Department of Public Works, Victoria, B. C.

Intending tenderers can obtain one copy of plans and specifications of the above school by applying to the undersigned with a deposit of ten dollars (\$10), which will be refunded on their return in good order.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada, made payable to the Honourable the Minister of Public Works, for a sum equal to 20 per cent. of tender, which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer, and enclosed in the envelopes furnished.

The lowest or any tender nor necessarily accepted.

J. E. GRIFFITH,  
Deputy Minister and Public Works Engineer  
Public Works Department,  
Victoria, B.C., August 25th, 1915. 34-35

## The Convenience of a Joint Account

A JOINT Account may be opened in the names of two or more persons. Which ever one can most conveniently reach the bank can then deposit the joint funds or withdraw the cash needed. It saves time and trouble.

## NOTICE

SIMILKAMEEN LAND DISTRICT  
DISTRICT OF YALE

TAKE NOTICE that George Edward Tennant, of Vancouver, B. C., occupation Broker, intends to apply for permission to purchase the following described lands:—

Commencing at a post planted forty (40) chains north of the southwest corner of Indian Reserve No. 2899, about four miles south of the confluence of Stirling Creek and Similkameen River, thence eighty (80) chains south, thence twenty (20) chains west, thence eighty (80) chains north, thence twenty (20) chains east to point of commencement, and containing One Hundred and Sixty Acres.

GEORGE EDWARD TENNANT.

Dated 15th day of June, 1915. 25-10

## NOTICE

### Certificate of Improvements

OREGON, ST. BERNARD, WINCHESTER AND SAVAGE Mineral Claims, situate in the Osoyoos Mining Division of Yale District. Where located: On Sixteen Mile Creek.

TAKE NOTICE that L. W. Shatford, H. A. Turner, T. D. Pickard and F. H. French, Free Miners' Certificates No. 93-216B, 93226B, 90777B, and 93217B, intend sixty days from date hereof, to apply to the Mining Recorder for Certificates of Improvements, for the purpose of obtaining Crown Grants of the above claims.

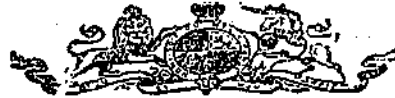

And further take notice that action, under section 37, must be commenced before the issuance of such Certificates of Improvements.

Dated this 11th day of June, A. D. 1915.  
22-9 F. H. FRENCH, Agent.

## SING LEE

Laundry, Contracting of all kinds, Ditch digging, Wood Sawing, Clearing land, Cooking and all kinds of Chinese Labor.

KEREMEOS, B. C.

## Synopsis of Coal Mining Regulations

COAL mining rights of the Dominion, in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for a lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. Coal mining rights are not being operated and returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10.00 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,

Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for. 9-6m

## TOWN AND DISTRICT

Out Flowers for sale. Mrs. Hamilton, Kingston Avenue.

Elton G. Rice and family were Oroville callers Tuesday.

Mrs. Dr. McEwen returned yesterday from a visit to the coast.

George Kirby, of Keremeos, paid us a visit Monday and enjoyed the sports very much.

C. Prosser, of Princeton visited J. Critchley over the holidays, and reported a very pleasant time.

The convention of the Western Canada Irrigation Association will be held at Bissano, November 23 to 25.

Miss Maude Beale is now on the staff of the Hedley Trading Co., her specialty will be the dry goods side.

A. Stark and Dr. F. W. Andrew, of Summerland, were visitors in town Monday, returning that same evening.

There will be services in St. John's Church next Sunday at 11 a.m. and 8 p.m. Rev. G. D. Griffiths, B. A. officiating.

The Hedley Liberal Association will hold a meeting in Fraternity Hall this evening. All members are requested to attend.

Stirling Creek was represented at the sports by B. A. Randall, who arrived Monday and registered at the Similkameen.

Miss M. A. Ramsey and Miss Betty Richter were among the Keremeos belles who came over to witness the Labor Day sports.

Our progressive moving picture show man put on a show for Tuesday evening and drew quite a crowd of the holiday visitors.

Charley Votaw was in town for the sports, paying a visit to his father and incidentally taking a couple of prizes in the aquatic events.

Constable Sproule had a business trip to Princeton yesterday, taking an Indian in tow. He made the round trip in the record time of 4 1/2 hours.

Mrs. G. E. Graham and Miss Helen Graham and Miss Eileen Callaghan came up from Keremeos Monday to foot for the home team, and of course the home team won.

Messrs. Anderson, Taylor, Johnson, Potter, Farrier, Pierson and Day, all of Princeton, made the trip down by auto for the dance Monday evening and all report a very fine time.

Miss Easton, who teaches at Similkameen, brought up an auto load of people for the Labor Day celebration. They were Mrs. Clark and Jimmy and George Clarke, Mrs. and Miss Graham.

Harry Tweedle brought up a load of Keremeos people for the celebration and dance. He had to return in the early morning, but report a most enjoyable time at the Red Cross dance, Monday evening.

D. G. George and H. R. Mott, of Vancouver, came into town Tuesday by auto and registered at the Great Northern Hotel. They have come all the way from Fort George and report that town very quiet.

Mr. and Mrs. F. A. Howse, Miss Blake and G. F. Crosby were among the Princeton people who were attracted to Hedley by the Labor Day sports. Mr. Howse was not entirely a visitor having a branch house here.

Mrs. K. H. Douglas, who teaches the Nickel Plate school, returned Sunday from a visit to Princeton. Mrs. Douglas stayed over for the sports and the dance Monday evening returning to the mine Tuesday evening.

Robt. Strachan, of Merrit is in town for a few days.

A. S. and Mrs. Long, of Loomis, were Hedley visitors Friday.

Mr. and Mrs. H. Richter, of Keremeos, were here for the sports Monday.

Harry Morrison and T. Peterson, of Rosslund were registered at the Similkameen, Tuesday.

Mrs. McLeod's daughter, Miss Margaret Lake, arrived Tuesday from Calgary. She will make her home here for the winter and attend school.

W. A. McLean isn't busy man these days. What with Labor Day and Patriotic demonstrations, and road work, etc. it keeps him pretty well on the move.

Dr. and Mrs. Webb, of Republic, Wash. paid Hedley a flying visit Friday. They report the roads in excellent condition and the trip a most enjoyable one.

We hear considerable comment as to the condition of the sidewalks at the present time. Some parts are in particularly poor shape and ought to have immediate attention.

Roy Corrigan, Bobby Robertson, and J. Knudsen leave today for Penticton and Vernon. The former two will play ball with Keremeos this afternoon and hope to again score a victory over the Princeton team. They leave in the afternoon for Penticton and then on to Vernon and—Berlin.

A. G. Ingraham, Gordon Harris and H. O. Turner arrived Saturday to begin the survey work on the new road to be built up to the Nickel Plate mine. We are informed that this road will open up some exceptionally fine mining country, so we may look for more activity in this line of industry before long.

Mrs. A. B. S. Stanley and children arrived Friday from Creston. The editor went as far as Nelson to meet them. The big metropolis of the interior is just now receiving much attention from mining men from all corners of the country, and it is expected the mining industry will begin to show developments in the near future.

A jolly bunch of Penticton people came over for the sports Monday, they were W. A. Wagenhauser and family, Geo. L. Faull and family, Arthur Thompson and W. P. LeMessurier. Incidentally they were handing out literature regarding the big reception Penticton is giving to Private Robert McCurdy this evening and tomorrow.

One of the most enjoyable auto trips of the Okanagan-Similkameen country is from Summerland to Penticton, to Keremeos, to Hedley. This was the jaunt made by Mr. and Mrs. E. B. May Mr. and Mrs. R. F. Theed and E. C. Graham, Sunday. In the journey they covered some of the most beautiful and productive territory in the richest province in the Dominion.

An exchange remarks that the most powerful king is working; laziest, shirking; the leanest, thin-king; the most thirsty, drink-king; the sly-est, win-king; the best liked by all ladies, tal-king; the most humiliating, sin-king; the most stern, span-king; the most necessary, ha-king; the most lovely, spar-king; the most optical looking; the most vibrating, sha-king; and the most despised, snea-king.

A party of roughriders arrived in Hope Sunday morning. They were Hans Richter, Ben Geary, Pat Bensen, Jim Sinclair and Ed Poller. All were headed for their homes in the Similkameen country from Vancouver where they had been giving exhibitions at the fair. Richter won for the second time the relay championship of British Columbia, lowering the world's record by 4 seconds. Geary brought back the championship belt in the bucking contest.—West Yale Review.

## THE FORUM

A Column For All the People

The Gazette will be pleased to publish letters from its readers on all questions of public interest, provided the writer gives full name and address. The letter may be published under a nom de plume if so desired. In no case will the editor be responsible for the opinions expressed and does not necessarily endorse them.

Editor, Hedley Gazette,  
Hedley, B.C.

Sir: Replying to your correspondent J. M. Wright, regarding my denunciation of Christian Science or mental assassination, let me assert that if I had not read the "Christian Science and Health" text-book, I would be no authority on the subject. Not only have I read the text-book carefully and prayerfully, but I have also compared it with the Bible, and again I maintain that it holds that God is but a principle; thus it denies and ignores a personal God.

With regard to sin, Christian Science and Health says, "evil is nothing, page 330." "The unreality and nothingness of evil," page 209, and numerous other similar statements reaffirmed now in one form then in another, therefore no act of any kind can be sin.

The Bible says, all have sinned and come short of the glory of God. Thus Christian Science contradicts every statement in the Bible from beginning to end concerning sin.

2nd. We do not omit Christ's command of healing, either in the foreign field or in the homeland. We emphasize the necessity of the salvation of the soul before the healing of the body. Christian Science in putting the body before the soul is not only a system of treason and betrayal; it is the most monumental system ever invented to fool the people. It fools christians who are more taken up with their body than with their souls. It fools the unsaved by assuring them that they are already saved, guaranteeing them security for a price current with the times. It fools people generally and mainly, because it comes on the same basis as any other patent medicine bringing in its testimonials as evidence of its cure, appealing to that which is ever the most quick to respond—the hope of relief from physical ills.

3rd. Regarding the works. I do the works according to the gift of faith given me. Christian Science does not do the works. It repudiates medicine, says "man is never sick," page 393. Thus it is a peril in repudiating the system of medicine, the skill of the physician, and throws the sick into the hands of charlatans, binds them up in the bonds of ignorance or fanaticism, making them a disaster to themselves, and channels of contagion and disease to others.

Would the retired editor of the Princeton Star answer the following questions dogmatically and without elusion:

1. Did you ever read the Bible through from Genesis to Revelation.
2. Give a candid reason for the denial of matter.
3. Why deny the death of Christ when the Bible everywhere affirms it?

REV. R. G. STEWART.

Editor, Hedley Gazette,  
Hedley, B.C.,

Dear Sir:

2nd Peter, 2:1-3, "But there were false prophets also among the people, even as there shall be false teachers among you, who privily shall bring in damnable heresies, even denying the Lord that bought them, and bring upon themselves swift destruction.

"And many shall follow their pernicious ways; by reason of whom the way of truth shall be evil spoken of. "And through covetousness shall they with feigned words make merchandise of you."

Thus Christian Science substitutes another book for the Bible and, point by point, denies every fundamental statement of the Holy Scripture.

Christian Science denies the creation of a material universe.

## FLOUR TALK

WITH the present increased cost of living it is really a serious question. If you can get a few more loaves each bake day, would you not be prepared to at least try the flour which guarantees this result?—OUR BEST. So why not order a sack next time? and if you don't like it—if it does not suit you—we will cheerfully refund you the full purchase price.

**CREELMAN & LYALL**  
"STORE OF QUALITY"

## ADVERTISE IN THE GAZETTE

Christian Science denies the existence of sin.

Christian Science denies the facts of sin.

Christian Science denies death. Christian Science denies that God formed man from the dust of the earth.

Christian Science denies that God is three persons in one God head.

Christian Science denies that the Holy Spirit is a person.

Christian Science denies that God is a person.

Christian Science denies that Jesus ever had a real body.

Christian Science denies that Jesus is the Christ.

Christian Science denies that the blood of Christ shed on the cross is of any avail to cleanse from sin.

Christian Science denies that Christ bore our sins in his own body on the tree.

Christian Science denies that Christ died for our sins.

Christian Science denies that Christ offered himself as a sin offering.

Christian Science denies that in his death Christ endured the wrath of God and was forsaken of him for our sins.

Christian Science denies that Christ died at all.

REV. R. G. STEWART.

## Home Canning of Tomatoes

This recipe has been sent out by R. M. Winslow, B. C. Fruit Markets Commissioner's Office, Calgary.

Tomatoes are surely a most important and most valuable fruit because they enter into some dish at nearly every dinner.

They are used in soups, entrees and sauces, and are used whole for baking made overs and for salads. They are also most useful in giving a tasty touch to left over meat dishes. In the making of pickles, chow chow, etc. green tomatoes are indispensable. The Prairie House wife may readily have her own supply of home canned tomatoes and home made tomato stock for Winter use, as well as some tomatoes ready to serve at any time with lettuce as a salad. Macaroni baked with tomato sauce is gradually displacing macaroni baked with cheese, being much more tasty and digestible.

Of all tomatoes, those grown in the interior valleys of British Columbia are unequalled in fine grain, richness of color and firmness of flesh. The supply of these ideal tomatoes is now at its height, and the housewife must buy promptly to secure the choicest of the crop, being assured that prices as well are at their lowest; besides the peach and plum preserving season is here now.

The following general directions on tomato canning and recipes have been prepared by Mrs. R. J. Deachman, who has the reputation in Calgary of an expert on Home canning:

Canned goods keep because they are properly sterilized and properly sealed. Tomatoes may be canned, and will keep indefinitely by the following method:

1. An ordinary wash boiler with a tight-fitting lid, and a false bottom put in a wire netting or a piece of board to fit the boiler, will answer the purpose of a cooker.

2. Sterilize jars, tops and rubbers thoroughly by boiling them.

3. Choose sound, firm but not over-ripe stock.

4. Blanch the tomatoes by placing them in a muslin bag, boiling water poured over them to entirely cover, and allowing to boil a minute. Then plunge in cold water to loosen the skins and harden the pulp.

5. Peel at once, and pack in the jars, adding tomato juice to fill the jars, and a level teaspoon of salt to each quart. Do not add any water as tomatoes are themselves 94 per cent water.

6. Place rubbers and tops in place, partially tighten tops and sterilize the given time.

7. Remove from boiler, tightening the tops as you lift each one, and stand the jars upside down to cool.

### Canning Whole Tomatoes

Preparing the liquid:

After blanching and removing skins from some tomatoes, cut up and boil in a preserving kettle for 25 minutes. Rub through a sieve to remove seeds and to make smooth. Return to the kettle and reheat. While the strained liquid is heating, select some small firm ripe tomatoes just big enough to slip into the jars. Place these in boiling water for a moment, core and peel. Pack carefully in the jars without crowding or spoiling their shape. Add a level teaspoonful of salt to each quart and fill up the jars with the strained hot liquid. Put on rubbers and tops, partially tighten tops, and place in the boiler on the false bottom. Have the water in the boiler rather hot, to prevent the already hot jars from breaking. Sterilize for half an hour, tighten tops, remove from boiler and cool.

Tomatoes, canned in this way are available for serving in any way where fresh whole tomatoes are used, such as in salads, branding or baking and the strained juice is the basis of many soups.

Canned Tomatoes for General Use  
Blanch and peel the tomatoes and

pack in jars as nearly whole as possible filling the jars completely. Add a level teaspoon of salt to each quart. Place rubbers and tops in place, partially tighten, put in boiler on false bottom, with water sufficient to come about half way up the jars. Bring to the boil and sterilize for one hour. Tighten tops, remove from boiler and stand jars upside down to cool.

### Thick Canned Tomatoes

Prepare tomatoes as usual, place in a preserving kettle, without adding any water, and boil until the desired thickness. Fill the jars immediately, add a little salt, put on rubbers and tops and partially tighten. Place in boiler and sterilize 25 minutes. Tighten the tops and remove from the boiler—stand jars upside down to cool.

### Kruger's Gold

A lucky find was made by a South African farmer. One of his barns was burned not long ago, and when it was decided to plough the burnt ground, an extraordinary discovery was made. The share turned up among the stone and earth a number of metal bars encrusted with sand. Upon closer examination this proved to be soft and yellow. No time was lost in getting them to the farm and having an assay made. It was then found that there were 16 bars of nearly pure gold, each weighing about 7½ lbs., and their value was between \$40,000 and \$50,000. Some of the ingots bear the raised letters Z. A. R., apparently representing the old South African Republic of the Kruger days.—Phoenix Pioneer.

### KEREMEOS

Divine service will be conducted in the church on Sunday, Sept. 12th. Morning service 11 a.m. Subject:—Christly Life and Gainful Death. Evening service 7.30 p.m. Subject:—Parable of the Lost Piece of Money. A hearty invitation is extended to all. Preacher:—R. G. Stewart.

"Rough on Rats" clears out Rats, Mice, etc. Don't die in the House. 15c. and 25c. at Drug and Country Stores.
