VOL. X. NO. 42. KELOWNA BRITISH COLUMBIA, THURSDAY, SEPTEMBER 5, 1918.—4 PAGES $1.50 Per Annum

Water and Light Rates to Go Up

Increase of 12½ per cent. Provided for in New Bylaws

A raise in the rates for water, light, and scavenging service will result from by-laws introduced by the council at Tuesday's meeting. Increased running expenses due to the raise in wages was given as the immediate reason for the higher charges. The increase is to be applied indirectly by reducing the discount allowed for prompt payment of rates from thirty three and one third to 25 per cent In effect this means a difference of 12½ per cent. increase in the net payment. In other words the householder who formerly paid a net rate of say $4 will have to pay $4.50 in future.

The police report for the month showed a total of 19 cases (including 16 breaches of motor traffic regulations and 3 juvenile house breakers) and fines collected amounting to $150.

The milk sample tests were as follows: D. C. Middleton, 4 per cent.; Norman Day, 3.8 ; John Birch, 3.8.

Ald Rattenbury raised an interesting question regarding the property falling to the city through the tax sales. He doubted the advisability of giving to the original owners so much privilege in the matter of redemption. At present the policy was that where a lot had fallen to the city through non-payment of taxes and the redemption period of one year had expired allowing title to fall to the city, if an offer were received for the property, the original owner was given the first chance to purchase it. He was inclined to believe that this policy really defeated the purpose for which the tax sale was held, as delinquents did not bother about redeeming their property, knowing well that they would be notified if an offer was made to the city for it and the chance given them to purchase it. This policy, he believed, also had the effect of preventing offers being made for such property by prospective purchasers.

After some discussion it was decided that after the legal redemption period of one year had expired, original owners be given no preference of any kind and that the first satisfactory offer be accepted.

Ald. Knowles suggested that a curfew by-law to correct the evil of young boys roaming the streets at night would be a good thing to introduce in Kelowna, but although the matter was discussed for some time no action was taken.

Authority was given to instal a telephone in the house of the fire truck driver, F. Gore.

Death of Glen Rosa Resident

Robt. McKellar, a former resident of Glen Rosa, Westbank, passed away Sunday last at the Kelowna hospital, He was admitted several weeks ago suffering from acute anaemia, which ultimately caused his death. The funeral took place Tuesday at the Kelowna cemetery. Deceased was an unmarried man, 53 years of age, and was born at Lobo, Ont. He was a brother of Mrs. H. Oliver, also at one time a resident of Westbank, but now in California.

Mr. and Mrs. Longfellow and baby are visiting this week from Vancouver.

Dr. C. A. Arnott, of Salmon Arm and formerly of Kelowna, was in town Tuesday.

A. E. Ashcroft of Vernon was a visitor Monday returning by car Tuesday.

J. P. Rosenbaum, of Vancouver, has purchased several carloads of cattle in town this week.

Lloyd Day, who, representing the Kelowna High School, was down to the Vancouver Exhibition as guest of the management, had the further good fortune to carry off the prize for the cattle judging contest.

Dean Klinck Will Speak at Fall Fair Opening

Dean Klinck of the University of B.C., and the foremost agricultural authority in the province, will be one of the principal speakers at the opening of the Fall Fair next Wednesday evening. Mr. J. W. Jones, M.L.A. and Mayor Sutherland will also be amongst the speakers. By that time it is expected to have all the judging completed and the exhibition will be open to the public.

Intending exhibitors are again reminded of the importance of making early entries, and also of entering in every possible class in order to ensure a successful fair. It is anticipated that there will be considerable competition from outside points in some classes, and every effort should be made to keep the prizes at home.

A feature of the first evening will be an open apple-packing contest at which representatives from all the local packing houses will doubtless compete. It will be under the charge of Mr. J. Gibb, and entries should be in not later than Saturday night. Each contestant to pack three boxes, marks to be given for speed, height of ends, bulge, compactness, uniformity and wrapping. To secure the full twenty marks for speed the three boxes must be packed in twenty-five minutes. The management will provide tables, boxes, paper and apples for the contest.

A contest for pupils of the packing schools is also to be held.

Those who have been growing potatoes from the sample seed sent from the Summerland Experimental Farm will be pleased to know that a special prize is being offered for these.

Owners of live stock should note that all animalr must be on the ground before 10 a.m. Thursday morning.

Some further additions to the prize list have been made as follows:—

Instead of classes 11 and 12, read 11, Leghorn, white, single comb; 11a, Leghorn, white, rose comb ; 12, Leghorn, brown, single comb; 12a, Leghorn, brown, rose comb. In Division 8, Field Produce, classes 3 and 4, add 12 cobs.

Additional Special Prizes.—Poultry (children's class). For the best pen of any breed named in the children's class. First prize $3, given by J. F. Fumerten; second prize $2.50, given by D. Ennis.

Children exhibiting in the Children's Class (poultry) and in the Special prizes (poultry), should hand their entries to the secretary not later than Saturday 7th, so that pens may be reserved for them and kept together.

Rutland News

(From our own correspondent).

Miss Olive Gray returned to Vancouver on Monday.

The Rev. Gordon Tanner paid a flying visit to Rutland on Wednesday.

Miss Bruce, from Victoria, the new teacher for the intermediate classes has taken over her new charge and is staying with Mrs. Plowman.

Mrs. Locke had a narrow escape from what might have been a very serious accident. While holding the horses which moved off suddenly, she was thrown down under the wagon and sustained a bad shaking and bruised ankle.

Mr. and Mrs. Treadgold, snr., left this week to take up their residence at the coast, after having sold their home here.

Listed among the wounded this week was Capt. Douglas Cameron, of Kelowna. His wound is in the leg. Another wounded Kelowna man was Harvey Nainsmith, a step son of Mr. T. G. Speer.

Mr. Boucher, owner of the "big show" which is to form part of the Fall Fair attractions, arrived to-day. His outfit of merry-go-rounds, ferris wheel and other shows are already on the way here from Cranbrook a little ahead of time owing to transportation difficulties.

Allies' Successes Are Increasing Every Day

Loss of Famous Switch Line is Disaster for Germans

The Germans have abandoned the famous Drocourt-Queant switch line to the British. Queant at the line's southern extremity and Lens further north have both been captured. These are the outstanding developments of the great west front battle. General Haig's announcement says the Canadians stormed the switch line. He also announced that the British had entered Pronville, Doignies and Bortincourt, taking ten thousand prisoners in that vicinity.

The evacuation of the Drocourt-Queant line placed General Haig in possession of positions regarded by Hindenburg as the most important on this front. This line is considered by many as the holding point on the whole German west front. It was prepared by Hindenburg in the year 1917 as protection against any allied advance from the Arras region, along two great highways towards Cambrai and Douai.

The break in the Hindenburg line above Queant exceeds seven miles extending beyond Etaing to the north.

Coucy-le-Chateau is being outflanked by the Franco-Americans, south of the Ailette. Prisoners declare the Germans are preparing for a general retreat to St. Quentin. Franco-Americans are progressing along the road towards Laon.

Attempt on Life of Premier Lenine

Nikolai Lenine, the Bolsheviki premier, was shot twice by an assassin last Friday night at Moscow. He was wounded in two places. The shooting occurred at the close of an audience granted by the premier to two women social revolutionists who came to discuss the embargo on the shipment of foodstuffs into Moscow. One of the women, it is said, drew a revolver and opened fire on the premier. Lenine's assailant has been arrested.

The South African Government is drafting regulations to prevent the use of the German language in public places.

The Food Service most urgent at the present moment is sugar saving and the Food Board appeals to every loyal Canadian to do everything possible to reduce his or her personal consumption of sugar and to encourage similar conservation by others. This is absolutely necessary in order that our available supply of sugar be stretched until the new crop becomes available and that it be equitably distributed, with due consideration to the most important uses.

The British have recaptured large dumps of ammunition which they left behind last spring and which the Germans had not touched. They also have taken immense stores of German material. The British ammunition came in very handy and saved a lot of transport, as it offered bullets and shells when they were needed. Large engineer dumps, which are most useful in clearing the battle field in the wake of the advancing armies, also have been captured.

Free ferry service across the Fraser River on the lower mainland is maintained by the provincial government. According to a recent newspaper statement these ferries carry an average of fourteen cars each trip. The ferry between Mission and Matsqui makes sixteen round trips daily, that between Ladner and Woodward six round trips, and between Rosedale and Agassiz five round trips are made. These ferries give connection between the north and south bank of the Fraser, presumably where it is impracticable to build bridges, or where it is more practicable to operate ferries than to erect bridges.

Former Kelowna Man Killed at Coast

Riding Gasoline Speeder when Train Struck Him

After escaping all the perils of war, John Jardine, a former Kelowna resident and a returned soldier, was killed last Wednesday at Squamish, B.C., while riding a gasoline speeder in the yards of the P.G.E. It was while rounding a curve near the yards where he was employed that he was run into by a fast train and killed instantly—as one witness at the inquest expressed it: "never knowing what hit him."

The superintendent testified that he helped Jardine to get the speeder on the track and the last thing he said to him was: "Look out Jack, around those curves; you might run against something," and Jardine's reply was: "I have been around there hundreds of times; I know those curves."

Jardine, who is a son-in-law of Mr. John Laidlaw, of Kelowna, leaves a wife and two children, who are to arrive in Kelowna this week.

The funeral was held Saturday with full military honors the Great War Veterans' Association having charge of the proceedings.

Handbook for Dairymen

Report No. 10 of the Canadian Record of Performance for Pure-Bred Dairy Cattle constitutes a handbook that dairymen can hardly do without. It contains the rules and regulations governing the records of performance; the standards for registration; the records of performance of all pure-bred dairy cattle in the country; convenient summaries of reports, exact details of the records achieved, and the addresses of the owners; a record of the cows that have produced sufficient milk and fat to qualify but have failed to freshen within fifteen months after the commencement of the test; a list of bulls open to registration and an index to owners. The whole forms a valuable and concise book of dairy records that can be had free on application to the Publications Branch, Department of Agriculture, Ottawa.

The open-air concert which was to have been given by the City Band Friday evening in the park, has been postponed indefinitely owing to the fact that several of the members are too busy in the packing sheds to be present.

Canada's expeditionary forces for Siberia will be mobilized in Vancouver or Victoria. It is hardly probable that the forces will be ready to sail much before the end of the year.

The Okanagan United Growers state that their turnover this year will be by far the largest in the history of the organization, and other shipping concerns tell the same story.

Mount Kemmel, the famous stronghold southwest of Ypres, which was the scene of terrific fighting during the German offensive in Flanders late in April, has been captured by the British.

A despatch from Berne to the Matin quotes a prominent Swiss citizen coming from Germany as declaring that a formidable disillusion has swept over Germany. If the military situation does not improve, the informant said trouble that may surpass the acts of the Bolsheviki in Russia menaces the German Empire.

A transatlantic flight in an airplane guided by a British and American pilot, is not only a possibility but a probability this year. Within a week decisions will be reached as to whether an attempt will be made in 1918. A Handley-Page machine, driven by four engines, will be used. It is figured that a trip from Ireland to America can be made in twenty hours. The distance is approximately nineteen hundred miles—just a little more than a round trip to Berlin.

Reduce Pheasant Season to Three Days

The question of the shooting season for pheasants in this district is not yet ended, it seems, for in a telegram received last night by Mr L. V. Rogers from the deputy attorney general, it was stated that a recommendation was being made to the executive council to reduce the open season in South Okanagan from eight days to three (commencing October 26) and the bag limit from six to three cock birds only.

Following the desire of several local sportsmen Mr. Rogers had written not only the deputy attorney general, but the chairman of the game commission and the chief game warden, urging greater protection for pheasants in this district.

New Regulation Dealing with Sugar Scarcity

Following a series of conferences held in Ottawa in which bisbuit and candymakers and others using large quantities of sugar for manufacturing purposes, Food Controller H. B. Thompson has just issued a new order governing the use of sugar until conditions have been sufficiently righted to allow moderation. The recent four months' restriction effective in May, expired on the last day of August. The new restrictions, which are much more drastic than formerly, will affect all users of sugar in manufacturing. That portion of the public which patronizes the restaurants will find a considerable shortening in their supply at meals.

While a request has already been made asking Canadians to use but one and a half pounds per person per month, restaurant proprietors are obliged to confine their allotments to two pounds per person for 90 meals. This regulation is now effective, and after Sept. 30 ice cream parlors and soda fountains may not use more than 25 per cent. of their average monthly requirements during the year 1917. Up till the end of August this restriction had been 50 per cent. of the 1917 allowance.

The Food Board are confident that with care the sugar situation will be considerably improved in a short time as was the case with ham and bacon.

New Agent-General Visits Interior

Mr. F. W. Peters, general superintendent for the C.P.R., and Mr. F. C. Wade, the newly-appointed agent-general in London for the province have returned to the coast after a trip over C.P.R. lines in the Okanagan and Kootenay districts. Mr. Peters went to the Upper Country on an inspection tour of C.P.R. interests, while Mr. Wade took the opportunity presented as the guest of Mr. Peters to familiarize himself with conditions in this section of the province in preparation for his work in London.

Speaking of the fruit crop of the Okanagan, Mr. Peters said that the C. P. R. had shipped 300 more cars of fruit already this season than at this time last year. While the crop had suffered in places from frosts, the probability was that about the same quantity of fruit would be shipped as in 1917 and at very much better prices.

Mrs. E. Weddell returned to-day from the coast.

Arrangements are being completed by the ministry of information under Lord Beaverbrook's direction, for an approaching tour of Canada by the Right Rev. Dr. Henry Russell Wakefield, Bishop of Birmingham, and one of the most enlightened and progressive church prelates. Bearing the highest credentials, he will address Canadian clubs throughout the Dominion, also large public meetings, on Britain's part in the war.

Bronze Medals Given For Work on Farms

S.O.S. Boys "Did Their Bit" During Summer Holidays

Of the twenty-four Kelowna boys who enlisted in the S.O.S. movement and "did their bit" by working out on the land during their summer holidays, thirteen were presented Saturday evening with the bronze badges issued by the government as a recognition of their patriotic endeavor. These were Chas. Gaddes, Lloyd Day, Terence Crowley, Bert Davis, Carl McKenzie, Claire Rowcliffe, Geo. Clement, Gilbert Clarke, Dick Parkinson, Graham Evans, Dan McMillan, Frank Guest and Wm. Price. The rest of the boys were unable to be present and will receive their badges later. An Enderby boy, A. Antilla, was also present at the meeting and received his badge.

In the absence of the Mayor, the meeting, which was held in the Methodist church, was presided over by Mr. L. V. Rogers, who in a brief address outlined the work the boys had done and the excellent spirit in which they had carried out the objects of the movement. He hoped, however, that the enthusiasm of the boys would not lead them to neglect their studies, as a thorough education was the foundation of their future usefulness.

Mr. A. H. Sovereign, one of the principal organizers of the movement in Canada spoke in an encouraging way to the boys. The youth of Canada had taken no mean share in the production of this year's harvest, and while the badges they were receiving were not of much intrinsic value, the receivers would always treasure them with pride as an indication that while they were too young to go, as their brothers and fathers had, to fight for the Empire, they had done what they were able to do on the farms.

Mr. J. W. Jones, M.L.A., who was called upon to address the gathering, briefly outlined the situation which had started the movement—the shortage of men in Canada and the shortage of food in Europe. The call for greater food production had been made to the boys in the absence of their elders and they responded in a splendid manner. He felt sure that their work had not only aided the Allies at a critical time, but the boys themselves would reap great benefit from the knowledge and experience gained.

The Rev. C. M. Wright, supervisor of the S.O.S. movement in Alberta and British Columbia, also spoke, giving some interesting figures showing the unexpected enthusiasm which had been displayed. Almost as many boys had joined in B.C. alone as was expected in all the four western provinces. This was a very gratifying result of the campaign. He believed that not only had the work been good for the boys, but the influence on the farmers had been good, making them feel the reality of the war and put forward greater efforts than they would otherwise have done.

In addition to being supervisor of the S.O.S. movement, Mr. Wright was also in charge of the "Earn and Cive" scheme in connection with the recent Y.M.C.A. campaign for funds, whereby schoolboys had pledged themselves to earn a sum of $10 for the benefit of the fund. Sixteen local boys had given the pledge and so far six had completed the contract entitling them to receive the certificate. These certificates were presented to Leonard Gaddes, Carl McKenzie, Hugh McKenzie, Claire Rowcliffe, Gilbert Clarke and Bert Davis.

During the evening solos were given by Mrs. Ambler and Mrs. Braden.

Miss L. Evans left for the coast to-day.

A motor party consisting of Mr. and Mrs. R. J. Armstrong and Mr. and Mrs. E. L. Smith and son, of Chopaka, came from the north by auto. Monday continuing their journey south the following day.

All changes in contract advertisements must be in the hands of the printer by Tuesday evening to ensure publication in the next issue.

Next Wednesday and Thursday will be held Kelowna's annual Fall Fair and Exhibition, and no time should be lost, therefore, by intending exhibitors in getting their exhibits together and into shape for competition. Of late years there has been a tendency in some quarters to disparage fall fairs generally and to question the utility of making these annual displays of fruit and vegetables. Anyone who has had any kind of close touch with fall fairs knows how absolutely foolish and untenable such a position is. The practice of farmers and gardeners placing their stock and produce in competition with those of their neighbors, has been one of the most potent influences in bringing about the great improvement which has taken place in the quality of the output of ranch and farm during the past decade. Such an opportunity as the fall fair affords the farmer of merciless measuring up of himself as a farmer, and comparison of his products with the best that is being raised, can not fail to stimulate him to better efforts in the future. As the industrial exhibition is to the manufacturer so is the fall fair to the farmer, and the man who despises either stamps himself as a mere laborer and lacking the essentials of modern progress.

The interest of a fall fair depends largely on the keeness of the competition, and for this reason all who can enter in any class should make the small effort necessary to do so.

The London Police Force were out on strike over the week-end for higher pay and recognition of their union.

Newsprint paper made from sawdust is now a fact, and the London Times is using it.

The invention of a concrete freight car, which will solve steel conservation and troop and supply transportation problems, is announced by A. C. Grenwank, a draftsman employed in the office of the San Francisco harbor commission.

The government has under consideration the reorganization of the C.N.R. and a new board of directors, with Sir William Mackenzie and Sir Donald Mann eliminated, will be formed at once. The resignations of these magnates are in the hands of the cabinet.

NEW SHOES For the Fair

Next week is Fair week. Everybody will be decked out spick and span. Nothing looks worse than to see smartly-dressed people in old or worn shoes. I can fit you right now with neat, smart, well-fitting Shoes

Far more effective than Sticky Fly Catchers. Clean to handle. Sold by Druggists and Grocers everywhere.

Orders for Local Scouts

Kelowna Troop
Troop First; Self Last

Edited by Pioneer. Aug. 27, 1918

The directors of the Agricultural Association have been very generous in providing some prizes in the sports for scouts alone, and we trust that our appreciation will be shown by several entries for each event.

With the assistance of some willing workers, the tables in the Exhibition Building were all replaced on Friday evening last, to be ready for the fair.

* * *

A meeting of the Patrol Leaders will be held shortly to discuss plans for the coming season. If there are any intending recruits in the town or country who wish to apply to be taken on the strength of the Troop, and who are not at present attached to the Cubs, their names should be handed in immediately, as the patrols will be reorganized before the first fall troop parade. We again ask that every scout in the Troop who has not yet passed that first-class test which requires him to train a Tenderfoot in his tests, should hand in his name immediately, as there are now several recruits available for this purpose.

* * *

Last spring there was some mention of organizing a local troop of Girl Guides, and if such a troop is to be started what is first required is that a few of the mothers and other ladies interested hold an organization meeting. A mistake which is sometimes made with Girl Guides is that they endeavor too much to be Boy Scouts which is not the idea of the movement at all.

Quoting from a little pamphlet we have, issued by the Dominion Council of the Canadian Girl Guides, dealing with the aims and ideals of the organization, it says: "The Girl Guide movement was founded by Miss Agnes Baden-Powell, sister of Lieut. Gen. Sir Robert Baden-Powell, for the purpose of making girls useful and self-reliant and of developing those qualities of character which make good women and good citizens.

It is a purely womanly scheme and the aim of the pursuits engaged in is to make girls better housekeepers, more capable in womanly arts, from cooking, washing and sick-nursing, to the training and management of children. Girls are encouraged in every way to study the most useful subjects a woman can know in order that they may become 'better mothers and guides to the next generation.' The method of training is to give the girls pursuits which appeal to them, such as games and recreative exercises, which lead them on to learn for themselves many useful crafts.

Any girl over the age of 11, who is earnestly desirous of doing right and who is anxious for self-improvement, can become a Girl Guide upon presenting a letter of consent from her parents or guardian."

Roumania's toll of deaths for the period she was in the war numbered 600,000, or about 11 per cent. of the total population.

Estimates Furnished for all classes of work

Notes from the Prairie Fruit Markets Bulletin

By Commissioner J. A. Grant, Calgary.

The movement of fruits has been a little more satisfactory this week from a jobber's standpoint. Edmonton has especially noted an improvement. The wholesale trade there has conducted a campaign of educating the consumer as to the best time to preserve certain fruits and vegetables, especially crabapples and tomatoes, and the press of that city has cheerfully given space to some of our articles on this subject. B.C. producers should co-operate in a campaign to inform the prairie housewives on the peak of the season of each, especially in a year like this when we are offering our fruits two weeks ahead of our usual season.

Saskatoon is brisk but would be improved by taking a leaf out of Edmonton's book re advertising. Some very fine crabapples arrived there from Okanagan Centre. There were some fine Duchess No. 1 and No. 2 in the car and the shipment was reported as the finest to arrive in Saskatoon this year.

Calgary has had a better week than usual. The arrivals have been ample and fair trade has resulted. Prices are similar to last week. Some rather green Wealthy apples are on sale but no good quality apples have arrived in sufficient quantity to test their selling power.

Duchess apples, No. 1, sell from $2 to $2.50 per box.

Orchard run, $1.25 to $2 crate.

Crabapples, Transcendent, $1.50 to $1.75 box.

Peaches, yellow St. Johns, $1.50 to $1.75 box.

Plums, $1.75 to $1.90 4 basket crate.

Prunes, slow sale, $1.55 to $1.65 lug.

Blackberries, arriving soft or nubbins market, $3 crate, mostly selling at $2.50.

Blueberries, B.C., small, 15c lb.

Kootenay strawberries, fair quality, $5 crate.

Local potatoes and vegetables in good supply.

B.C. spuds, $43 to $45 ton.

Onions, f.o.b. Okanagan, $35, should be $40.

Consumption of fruit is being retarded, first by the high cost of the necessaries of life, and secondly by constantly changing sugar restrictions. There is no apparent scarcety of money and the former condition could be helped by a little well-placed advertising but the latter in view of the abundance of candy made and offered for sale would stand a little more explainig by the Food Control Board.

Until the meaning of recent recent restrictions is better understood, and we confess that we are at a loss to understand them, we would advise growers and shippers to sell several blocks of their produce at the opening prices, instead of holding too long for an advance. Prospects for good prices never were better but they should not be spoiled by holding on. The best market is the one that is constantly fed; besides sugar restrictions and uneven supply can reduce the brightest prospect to a panicky state as the one depends largely on the other. Already several cancellations of cars of fruit sold, mostly crabapples, are reported because it is feared that the new sugar restrictions will injure their sale. There is little use recommending to housewives that fruit can be canned without sugar as they well know that sugar will be needed eventually and no promise of a plentiful supply in the near future has been made. However, a great saving of sugar can be made in canning or bottling fruits in thin syrup and this propaganda, in our opinion, should have been more advertised by the powers that be, previous to endorsing restrictions as drastic as those we are now confronted with.

We think a general modification of the restriction should be made where it interferes with the sale and preserving of fruit, at least until candy making and other dainties are further restricted.

We have no doubt that conservation of sugar is necessary but why revoke the policy of encouraging the use of fruit as a substitute for butterfats.

There are some strange things happening here on the tomato market, and we are at a loss to know the why and wherefore of them.

We notice a mixture of green and ripe toms in the same box. What is in the mind of the packer when he does this? Again the letter "R" is stamped on toms that are wholly green. When ripe toms come here they are usually wrapped. Why is this? Wrapping hastens ripening and also decay. Wrapping tomatoes is a wasteful practice, in our opinion, and B.C. has a monopoly on the practice as far as we know.

There has been gross carelessness exhibited in many cases of packing tomatoes for this market, and this has been a regrettable factor both to the buyer and also to the seller.

Cucumbers are coming in unlimited supply and are a drug on the market. Good boxes are filled with cukes of all sizes, some picklers, and from that to yellows. Good, well graded stuff that should be sent here is unfortunately only being sent by a few.

In both tomatoes and cucumbers it will pay B.C. growers to get down to careful selection, and either send pickling stuff marked as such or fancy table stuff Both will sell on their merits separately but mixing all kinds in a mess will not produce satisfactory returns.

The Dominion Government has experts in B.C. searching the whole country for platinum.

At least one billion dollars will be raised in Canada during the present fiscal year from extra war taxation.

A Los Angeles young woman invited a thousand friends to her wedding, rented a big hall, and charged fifty cents admission, and gave the proceeds to the Red X.

A restaurant in Princeton a few days ago paid a local grocery concern 60 cents for one tomato. This particular tomato was a sight to behold. It tipped the scales at one and one-quarter pounds, and at 45c a pound it retailed for the price mentioned.

WATER NOTICE

STORAGE

TAKE NOTICE that I, David E. Gellatly, whose address is Gellatly, B.C., will apply for a licence for the storage of 800 acre feet of water out of Jack Lakes, also known as Fish Lakes, and comprising two lakes known as Jack Lake and Gellatly Lake, which flow North-Easterly and drain into South Fork of Power Creek. The storage dams will be located at outlet of lakes. The capacity of the reservoir to be created is about 1200 acre feet, and it will flood about 140 acres of land. The water will be diverted from the stream at a point at present point of diversion, and at point where public road to Peachland crosses Power Creek, and will be used for Irrigation purposes upon the land described as District Lot 487, Osoyoos Division of Yale District. The licence applied for is to supplement a right to take and use water as per Water Record No. 746. It is also proposed to lower the level of Jack Lake by an open cut, 7 or 8 feet. This notice was posted on the ground on the 26th day of August, 1918. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is August 29th, 1918.

Rhymes from the South-End Store

To the SOUTH-END STORE came the all mighty Dollar,
Wiping the sweat from under his collar.
"Everybody is chasing me hard," said he,
And I suppose you are out to capture me."
"Right you are; it is quite true
Our business is to capture you,
But only with your own consent—
We give full value for every cent
In Staple Groceries of every kind,
Both good and cheap as you will find.
We know when you drop in our till,
You will do so of your own free will."

MOVING!
to LARGER PREMISES

FOR some time past it has been apparent that our business has far out-grown the accommodation available in our present premises, and that in order to deal adequately with our various departments a change was necessary. An opportunity having presented itself to purchase the large building next door, we have taken advantage of it, and by next week we hope to have transferred our business there.

Store will be Closed Monday and Tuesday next in order to afford an opportunity in which to move.

TOWN AND COUNTRY NOTES

Miss Edna Magee left Friday last for Medicine Hat.

Mr. G. A. Chick was a passenger Saturday for Vernon.

Miss Laura Wilson left Saturday for Blackwook, B.C.

Miss Janie Rattray left Saturday for Regina.

Mrs. Gowen and Miss Gertie Gowen left Saturday for a visit to Vancouver.

Mr. W. Wakefield, of the T. Eaton Co., was in town last week, leaving Saturday for Vancouver.

Mr. H. Tod Boyd, whose wrist is at present undergoing medical treatment, will not be able to resume his teaching classes until the 16th of this month.

Mrs. Gordon Renfrew, with Gertrude and Clifford, left for the coast Monday. Clifford will attend University school at Victoria.

Miss Mabel Chastey, of New Westminster, has been visiting her sister Mrs. Braden, at the parsonage. She returned to the coast last Friday.

Next Sunday morning in the Baptist church the Rev. W. Arnold Bennett will preach on "The Joy of Salvation." At the evening service his topic will be "At Ease in Zion."

After almost two years of negotiation church union at Fernie is now assured. The new organization will be knows as the United Church and a new pastor will be called.

The special prize given by J. N. Cameron for the best yearling colt from "Local Option" has been extended to include colts of any age, and in addition to the $10 first prize a second of $5 is offered.

The local branch of the Great War Veterans Association are asking for prices on ten-acre lots or over, situated in the Kelowna district. All correspondence relating to same and further inquiries will be dealt with by the secretary, Mr. Geo. Reith.

The Women's Auxiliary of the Church of England will begin their autumn work on Friday of next week, the 13th. A business meeting will be held at Mrs. Grote Stirling's on Pendozi street, at 8 o'clock. All working and associate members are urged to attend to make arrangements for a bazaar to be held in December.

An old tree which for years has stood at the edge of the sidewalk close by the aquatic building fell during the high wind which prevailed over the week-end. The singular part about it is the manner in which it dropped, having missed all the men's dressing cubicles and reposed in the narrow pathway between them. Two inches more on either side would have resulted in destruction of the dressing rooms. It would have been a fatal minute for anyone standing in the passage-way as so many do when dressing. The top of another one fell behind the pavilion, breaking down the telephone wires but fortunatelv missing the building.

Those who have glass jars from the Domestic Science Kitchen kindly return them at once.

Choir practice in connection with Knox church will be resumed to-morrow (Friday) evening at 8 o'clock.

Visitors from Enderby last week were Mr. and Mrs. T. A. Sharpe, Mrs. Woodhouse and son, and Mr. A. E. Hayhurst.

Mr. L. Carswell of Vernon was a visitor in town last week.

Mrs. M. R. McArthur with her two children were visitors in Kelowna last Friday.

Mr. and Mrs. L. L. Merrill of Okanagan Centre were down on a visit Saturday last.

Mr. and Mrs. Rowlands of Kamloops were visitors last week.

Mr. and Mrs. H. M. Crocker, Mr. M. J. Reid, F. Gorse and P. A. Gorse of Salmon Arm motored down from there last Sunday.

The Rev. T. Keyworth, of Vernon, and Rev. Wesley Millar, of Armstrong, are visiting Mr. Braden at the Parsonage this week.

Mrs. T. W. S Taylor, of Creekside Ranch, returned Tuesday from England, having accomplished the journey in fourteen days, travelling via New York.

Sunday-school anniversary services will be held in the United Church next Sunday, the occasion being the union of the now separate Sunday-schools. The Rev. E. D. Braden will preach in the morning on "The Challenge of the Sunday-school," and in the evening his subject will be "The redemption of the child for the sake of the city, and the redemption of the city for the sake of the child." In the afternoon a Sunday-school rally will be held.

Public School Notes

Edited by Principal Gordon

School opened on Tuesday with 287 pupils who attended last term, 20 new pupils, and 34 beginners. We have a list also of 58 pupils who did not attend on the first day but who will be in school within a few days. This will make a total of 399 definitely known.

This term we have 50 pupils in the Entrance classes, and it will be safe to say that 40 of these will pass their Entrance examinations next June.

* * *

At the end of last term Mr. Lionel Taylor offered prizes to the two pupils submitting the best essays on Birds. Mr. Taylor gave a series of six talks on Bird Life to the senior classes. These talks were very instructive and interesting. Pupils and teachers alike greatly benefitted by them. Mr. Taylor, who corrected and valuated the papers, expressed himself as well satisfied with the results. The prize winners are 1st, Ralph Silver, 2nd, Ralph Ball.

* * *

As usual there will be a school exhibit at the Fair. This year the chief feature will be the school-garden display. All other branches of hand-work will also be displayed. We have been granted the use of twice the space we had last year and I should like to thank the management for their kindness in this respect.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that we, Washington Brown and Cecil Edward Clarke, whose addresses are Westbank, B.C., will apply for a licence to take and use one quarter cub. ft. per sec. of water out of West Branch of Smith Creek, which flows easterley and drains into Smith Creek about one half mile from the mouth of Smith Creek. The water will be diverted from the stream at a point on East side of Public Road on West line of Lot 10, Registered Plan No. 761, and will be used for Irrigation purpose upon the land described as Lot 10, Registered Plan No. 761, Osoyoos Division. This notice was posted on the ground on the 4th day of September, 1918. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is Thursday, September 5th, 1918.

WASHINGTON BROWN and
CECIL E. CLARKE, Applicants.

WATER NOTICE

DIVERSION AND USE

TAKE NOTICE that Edward G. Quick, whose address is Youngstown, Alberta, will apply for a licence to take and use five acre feet per annum of water out of an unnamed spring, which flows westerly and drains into the soil in adjoining lots. The water will be diverted from the spring at a point about 75 feet north of the S.W. corner of Lot 39, Map 426, and will be used for Irrigation purpose upon the land described as Lot 27, Map 426. This notice was posted on the ground on the 27th day of August, 1918. A copy of this notice and an application pursuant thereto and to the "Water Act, 1914," will be filed in the office of the Water Recorder at Vernon, B.C. Objections to the application may be filed with the said Water Recorder or with the Comptroller of Water Rights, Parliament Buildings, Victoria, B.C., within thirty days after the first appearance of this notice in a local newspaper. The date of the first publication of this notice is August 29th, 1918.

Printed Butter Wrappers

According to the new Dominion Government regulations all farmers who sell butter either to the stores or privately, are required to have it properly covered in a wrapper on which MUST appear in prominent letters the words "DAIRY BUTTER." The fact is also emphasized that all butter in such packages must be of the full net weight of sixteen ounces, and in default of same a fine of from $10 to $30 for each offence is imposed. Whey butter must be so labelled even when mixed with dairy butter and dairy butter retains its label though it be mixed with the creamery product.

You can be supplied with neatly-printed wrappers for your butter at the Kelowna Record Office, for the following prices:

100	PAPER & PRINTING INCLUDED	$1.50
200	" "	2.00
500	" "	3.15
1000	" "	4.50

These prices include Both the Paper, which is the best obtainable for the purpose, and the Printing of same. Please note this.

Owing to the extraordinary rise in the price of butter parchment (which has gone up over 100 per cent) we have been reluctantly obliged to raise our prices slightly. Nearly all this paper was previously manufactured in Belgium, and needless to say this supply has been entirely cut off. Unfortunately there is no guarantee against further increases, indeed, they are more than likely.

OUR NURSERY IS SITUATED IN GLENMORE

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and a portion of the Province of British Columbia may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for the lease must be made by the applicant in person to the Agent or Sub-agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns shall be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the Secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion Lands.

W. W. CORY.
Deputy Minister of the Interior.

(N. B.—Unauthorized publication of this advertisement will not be paid for)

Binder twine cost will run high the coming season. Mexican sisal the raw material of which most of the binder twine is made, had a pre-war price of about seven cents a pound, and indeed was only 7½c landed at United States ports of entry in June, 1916. By March, 1917, it had reached 16½ cents and in August was up to 19 to 19½ cents.

Okanagan Ambulance League

During August the following articles valued at $350 were sent to headquarters: 42 shirts, 6 ties, 24 stretcher caps, 42 suits of pyjamas, 1 odd pyjama coat, 18 towels, 7 trench candles, 48 personal property bags, 102 pairs of socks, 5 surgeon's operating gowns, 3 tray cloths.

The following articles were received from outside branches during the month:—

Okanagan Mission: 12 suits of pyjamas, 1 odd pyjama coat, 11 pairs of socks, 5 stretcher caps, 3 tray cloths, 1 piece of cheese cloth.

Westbank: 11 pairs of socks.

Benvoulin: 5 surgeon's operating gowns, 6 personal property bags, 8 stretcher caps, 7 trench candles, 15 pairs of socks, 18 towels

The following contribution is gratefully acknowledged: Mrs. Jones, 1 pair of socks.

Cash contributions for the month were, Mrs. Lyson's sweet pea show $30, Prisoners of War Fund $10.55, Mrs. Fletcher $1, Mrs. Dundas $2, Mrs. Faulkner $2, Prize Canoe $15, Mrs. Gaddes $2, Mrs. Bagley $1, E. D. Langille $5, Tag Day $228.29, Mrs. Murdoch $1, Women's Institute Flower Show $86, including the following prize money refunded: Mrs. Williams $10, Mrs. R. W. Thomas $5, Mrs. G. R. Binger $6.50, Mrs. W. C. Cameron $4.50, Mrs. G. Rowcliffe $1.85, Merchandise order, Mrs. Binger $4; together with a balance from July of $270.51, making a total of $654.15. Expenses for August are $86.30, leaving a balance in hand of $567.85.

Some of the Kelowna girls have formed a society to help with Red X work. They meet on Tuesday evenings in the rooms of the Okanagan Ambulance League. In their three meetings they have done most excellent work, having sent in a generous supply of much needed stretcher caps and personal property bags. They are also making red ties for the day shirts, which the league has been unable to finance for some time. The marking on the pockets of the day shirts, "Kelowna" is another "bit" they have undertaken.

Haiti at War With Germany

The declaration of war against Germany by the Republic of Haiti brings the total number of belligent powers—counting in Russia and Roumania—to twenty-five, exactly one-half of the world's total of fifty sovereign states. But far more than one half of the world's population—which is estimated at 1,60,,0,000,000—is in a state of war, as altogether the belligerent peoples aggregate approximate 1,200,000,000 or 75 per cent of the total.

More than one-half of the land area of the globe is involved in the war—some 30,000,000 square miles out of a total of 55,500,000 square miles, but only about one million square miles is actually in the fighting zones, and the greater part of this battle area lies in the near east and the territory of the Ottoman Empire. So far as there are reliable figures five per cent of the peoples at war are under arms, the percentages ranging from 0.02 in the case of Liberia to 10 in the case of Germany, which has made by far the heaviest call on its male population.

Indian soldiers in France last year had 14,278 bottles of hair oil from the Indian Soldier's Fund.

Prisoners taken by the Allies since July 1 totalled more than 112,000, while 1,300 guns of heavy calibre—field pieces and larger—were captured. Captures reported by the British and French since then have averaged more than 3,000 a day. This represents a loss to the enemy of four complete divisions.
