COLD WEATHER ON THE FIRING LINE

The last few weeks have witnessed piercing cold weather along the firing line in Belgium and northern France. The suffering among the soldiers has been intense, especially among the Indian and Turco troops. The hardy Belgians, however, merely wrap themselves up in their army blankets as shown in the picture and march along as usual.

## German Warships Bombard Towns on Yorkshire Coast

Scarborough, Hartlepool, Redcar, and Whitby Shelled - Much Damage Done and Lives Lost

For the first time in modern history, English towns have suffered from the attack of a foreign enemy. A German squadron, the size of which is not known, crept upon the northeast coast of England yesterday during the darkness of a misty night. When the fog cleared between 7 and 9 o'clock, the vessels of this squadron opened fire on the towns of Scarborough, Whitby and Hartlepool. British flotillas are engaging these invaders of British waters, and the fortress at West Hartlepool, off the mouth of the River Tees, fired upon the enemy.

The official reports do not set forth the number of the attacking force, nor do they say whether the seacoast towns were fired upon simultaneously or one after another.

Scarborough is wholly unfortified, except for a small battery which is popularly believed to be obsolete. Whitby is also unfortified, and Hartlepool has only a small fort at the mouth of the river Tees, but it is a large shipping centre and therefore tempting to an invading fleet.

The ruined castle on the cliff 500 feet above the sea, together with the grand hotel and the tower of the municipal amusement hall, make Scarborough an easy target. One report says the old castle was shelled.

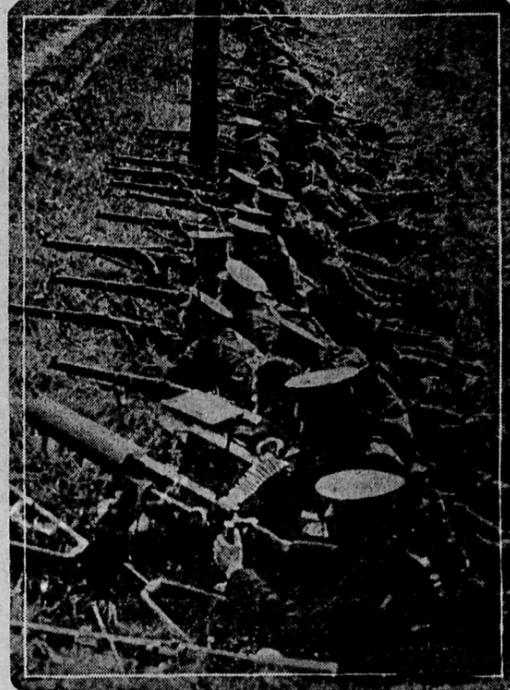

A despatch from Scarborough, passed by the London censors, says that eighteen people were killed at Scarborough by the bombardment of the

German warships. In one house four persons were killed outright and in another house three were killed by hursting shells.

Forty-seven persons are reported to have been killed at Hartlepool and a number injured. The bombardment of Hartlepool lasted for twenty-five minutes. The several vessels which took part in the operation are estimated at from two to six but never were they clearly visible from the shore.

The outpouring civilians from Scarborough as the bombardment got under way, gave that port temporarily the appearance of some Belgian town. The streets were crowded with hurrying throngs, and crowded with vehicles of all descriptions moving out of the danger zone. The biggest crowd went to the railway station, and the first train carried a great number of women and children without baggage. As the residents of the east coast of England have been keenly alive, ever since the war began, to danger of a raid, many of them put into operation plans formed long in advance for their personal safety in case of a German attack.

At least one person was killed and several wounded in the bombardment of Whitby. A number of houses were demolished and the historic abbey which stands on the site of the Abbey of St. Hilda was partly destroyed.

HOW THE BRITISH FIGHT IN THE TRENCHES

A typical British firing line. This picture was taken in Belgium when the British forces and the Belgians were defending themselves against the attacks of the Germans. The two men nearest the camera are operating one of the machine guns which have proved to be so successful in close fighting.

## Petition Against Reducing Hotel Licences

Temperance Bodies Wait on Council - No Money Left for Relief Work

The knowledge that local hotels were agitating for a reduction of licences in consequence of the fact they were suffering from the general depression, and that the council were supposed to have the matter under consideration, has brought forth the not unexpected opposition of the local temperance bodies, and at last Friday morning's meeting of the city council, deputations were present from the local lodge of Good Templars and also from the Kelowna branch of the W.C.T.U., who strenuously opposed any reduction being allowed.

The Good Templars, who were represented by Messrs. Geo. E. Thompson and W. C. Fuller submitted the following petition, signed by some 41 owners and members of the lodge: "Your Worship and Gentlemen,

"We, the undersigned petitioners, having noted that letters have been received by your council from the proprietors of two of the hotels in the city, asking that the amount payable for licences to sell intoxicating liquors be reduced, respectfully beg to request that you will not accede to such application.

"We are fully convinced that we are voicing the sentiment of a very great majority of tax payers of the city including those who may be indifferent to the temperance cause, when we state that the licence charges for selling intoxicating liquors are certainly not too high, particularly when it is considered that very high profits have been made in the last few years in this business amongst this community and that an enormous percentage of profit is still made from the actual sale of intoxicants.

"If owing to the present scarcity of money, felt so seriously throughout the province, the liquor sellers are finding it necessary to reconstruct their businesses, curtailing all wasteful expenditure, and finding difficulty in making the business pay, they are only sharing the experience which is unfortunately common to almost every other business house in the city, an experience which we also know, as far as retrenchment is concerned is even shared by the city council.

"We feel confident that all disinterested parties in this city will feel strongly that should it be necessary for the corporation to make any further sacrifices by reducing any taxes, or licences payable by any particular class of the community, the class least requiring, and least entitled to such sacrifice is that holding licences to sell intoxicating liquors."

Both Mr. Thompson and Mr. Fuller spoke in favor of the petition, while the views of the W.C.T.U., were voiced by Mrs. Swardfager and Mrs. Fletcher. The Revs. A. Dunn and J. C. Switzer were also present and spoke briefly.

The mayor informed the delegation that as yet no action to introduce the by-laws which would be necessary before any reduction of hotel licences could be made had been taken by the council. He promised that in the event of any such steps being taken the arguments which had been advanced by the delegates would receive full

consideration upon which assurance the delegation withdrew.

The secretary of the Kelowna Fire Brigade wrote asking that the council would, if possible see to it that the sound of the fire siren was increased, it having been on several occasions lately so faint as to be scarcely heard.

A further communication was also read from the Fire Brigade recommending the appointment of James Patterson as driver of the new auto truck and caretaker of the Fire Hall at a monthly salary of sixty-five dollars. A resolution was passed concurring in the appointment.

Alderman Copeland reported that Mr. A. L. McNaughton had taken a survey of the proposed drain for the sloughs in the north ward, and had found that it would cost considerable money to do this work which had been suggested as a means of providing relief employment, as it would be necessary to use the full length of the drain. For this reason the committee had decided not to have this work done at present.

Alderman Duggan said the Parks committee had provided a certain amount of relief work by having the mouth of Mill Creek cleared of sand. The foreman had estimated that this work would be completed in a week or ten days.

Alderman Copeland asked what steps had been taken to provide further relief work, and this raised a general discussion as to how the situation could be met.

Alderman Sutherland warned the council that the only possible means of continuing the work was by public subscription, as the council had absolutely no money to pay for it.

Alderman Adams reported that the machinery comprising the new unit for the power house had arrived, and that work had been commenced on the unloading of the car. Arrangements had been made whereby a few of the strongest men who were working on Mill Creek would be given a job unloading this machinery. Owing to the work being a little more hazardous than ordinary labor, the Light and Water committee had decided to pay twenty cents an hour for same. Any skilled labor necessary during the installation of the machinery would be paid for at the rate of thirty cents per hour.

The following accounts were passed for payment:  
A. R. Webster, office repairs . . . \$1.95  
Oxford Grill, prisoners' meals . . . .75  
Geo. Cox, electric work . . . . . 8.90  
K. Schmidt, electric work . . . . . 1.50  
W. A. Newton, electric work . . . . . 6.60  
J. Simonds, electric work . . . . . 4.20  
W. Tindley, electric work . . . . . 1.50  
D. McMillan, cemetery work . . . . . 11.90  
D. McMillan, digging graves . . . . . 15.00  
G. Baisillie, digging grave . . . . . 5.00  
G. H. Dunn, petty cash . . . . . 24.35  
C.P.R., freight . . . . . 4.60  
G. Baisillie, park work . . . . . 8.10

A strike at the Sydney dockyards delayed the departure of Sir Ernest Shackleton's Antarctic ship Aurora. It is likely she will not leave till next year. Shackleton, with a section of the expedition, left Buenos Ayres on October 26.

A store detective, who saw a four-year-old boy drop a toy horse and tin wagon from under his coat as he toddled out of a South Chicago department store, followed the child to an abandoned barn, captured two boys, one 13 and the other 14 years of age, and recovered more than \$1000 worth of goods stolen from South Chicago retailers.

## Help the Children to Have a Happy Christmas

Benevolent Society Arranging to Distribute Good Cheer to Distressed Families

Last Christmas the people of Kelowna responded in a generous way, in aiding the Benevolent Society to give the poor children of our city something in the way of dainties to brighten this festive time, that we are now making another appeal. This year the number of children dependent on such kindness is much increased and the need is of a more substantial nature. Donations of fruit, fowl, meat, puddings, pie, cake, candy and other Xmas dainties will be gratefully received. It was not considered advisable to suggest toys, but should any one wish to contribute in that way we will be glad to distribute them. As the Society has arranged to pack the hampers on Wednesday December 23rd we would ask that contributions be left at Mrs. Rowell's not later than Tuesday, Dec. 22nd.

## BAPTIST YOUNG PEOPLE'S SOCIETY

That boys of eight and ten years of age had been seen drinking the dregs of whiskey bottles in the park was the statement made at the meeting of the Baptist Young People's Society on Monday night. It was temperance evening, and the meeting was in charge of Mrs. Swardfager. Miss Porter read a most interesting and instructive paper on her experiences as a nurse in connection with the evils of intemperance, and gave her hearers an insight into the sad scenes witnessed in hospital wards, by nurses who had to deal with all kinds of horrible diseases which are aggravated by indulgence in drink to any extent. Mr. S. Weeks sang "Have Courage to Say No," and Louis Evans gave a reading, "The Echo." An interesting discussion took place on temperance matters during the course of which it was stated the men left whiskey bottles lying around in the park and boys drank the dregs of them. The gentleman who made this statement said he had collected the bottles and put them where boys could not get them. On Monday, December, 18th, Mr. Evans will give an address on his experiences as a missionary in Spain.

Miss K. E. Watson, of the school staff recently handed her resignation to the school trustees.

School closes tomorrow for the two weeks Christmas vacation, the closing exercises taking place tomorrow morning. The schools will reopen on January 4th.

The marriage took place Tuesday at St. Michael's church of Mr. J. Charlton of Rutland, to Miss Ada Cox, late of Birmingham. The ceremony which was performed by the Rev. Thos. Greene was attended by a large number of friends. The happy couple left the following morning for Jack's old home in Toronto, where they will spend the winter.

Mrs. D. D. Campbell was the luck winner of the 17-jewel Racine watch which was offered by Mr. J. B. Knowles in his annual guessing contest. The watch actually ran 34 hours, 10 minutes and 4 seconds. Mrs. Campbell's guess was nearest 34 hours, 10 minutes, 10 seconds. John H. Roberts' miss missed the prize by 10 seconds. His guess being 34 hours, 10 minutes. The entries for the contest were the largest on record.

## Will Endeavor to Lift Heavy Debt

Agricultural Assn. Discuss Finances at Annual Meeting

That a vigorous and united effort be made by the directors and members of the Agricultural Association to reduce the heavy financial burden which now presses upon that organization was the determination arrived at by the present at the annual general meeting which was held last Monday afternoon in Kaymer's hall, and arrangements were made for a campaign to solicit the aid of all the farmers of the district. It was felt that if each one could be prevailed upon to do a little to help an association in which the interests of the agricultural community were particularly bound up, the outstanding liabilities of about \$3,000 resulting from the erection of the new building, and loss upon the recent fall fair, could easily be wiped out and the whole concern once more placed upon its feet to carry on the good work.

The reading of the financial statement which is reproduced in full on another page, revealed the unpleasant fact, that the 1914 fair, although successful in every other way had resulted in a loss of \$558.68. This was accounted for in the first place by the drop in the gate receipts, which were \$789 less than in 1913, a difference not altogether due to smaller attendance, but to a reduction in the charge for admission to the grand stand. The attendance, indeed especially on the second day of the sports, had probably been higher than any previous year. The sale of members' tickets, had brought in \$170 less than last year, and in addition there had been some substantial increases made in the prizes offered for live stock. This had been done with a desire to encourage that class of exhibits, and it was pointed out that as a result of this policy Kelowna's stock parade had advanced to a leading place in the valley.

The president, Mr. F. R. E. DeHart, said that although owing to present conditions the fair had come out a little behind financially yet he did not think there was anyone who would regret its being held. It had been, generally speaking, very successful, and had demonstrated to outsiders that we in Kelowna could keep our fair going in spite of adverse conditions. It had been the second largest in the province this year and one of the few which had been held. He believed if it had only been for the sake of having the President and Dean of British Columbia's new university present, and showing to them what the Kelowna district could produce in the way of fruit and vegetables it had been worth while. The advertising value of holding a successful fair under such conditions had been added to not a little by the fact that not less than 1000 feet of moving picture film had been taken of the fair and scenes in the district and this had been exhibited in Vancouver and was now on the regular circuit and would be shown all over the world.

Coming back to the financial aspect of the fair, Mr. DeHart said that had the receipts come up to those of last year there would have been a profit of about \$200 or even as they were if they had not had the heavy payment to make on the new building they would still have been about \$140

ahead. The various details of the statement were discussed at some length, criticism being levelled from some quarters against the amount expended in prizes for the "Round-up" sports. This expenditure, however, was stoutly defended by Mr. DeHart who compared the inferior sports and poor attendance of previous years with the enthusiasm which had been aroused on the last two occasions.

The most serious problem caused by the deficit in the finances was the fact that a large amount of the prize money remained still unpaid, and it was to overcome this difficulty that ways and means were discussed of making a strong appeal for support. Several of the prize winners, it was stated had already generously offered to donate the amount to the association towards the reduction of the debt and during the meeting several spontaneous offers of this kind, some of considerable amounts, were made. It was decided to leave it to the directorate to appoint a committee to undertake a careful personal canvass of the district for support, and a committee was also charged with the duty of preparing a circular letter to be mailed to all interested in the welfare of the association.

A suggestion was made by Mr. J. L. Pridham that the city council be approached to deed over the grounds to the Association. He said that a few years ago the council had rescued the association from debt by taking over the grounds. Since then they had spent considerable sums in improvements and had gone ahead with the erection of a new building and were consequently back again in the same position.

The nomination for the new directors for the year and a subsequent ballot resulted in the following being appointed: Messrs. H. W. Raymer, L. Dilworth, J. L. Pridham, A. McQuarrie, M. Heron, C. C. Provoe, R. A. Copeland, J. Bowes, R. S. Hall, W. E. Scott, R. Lambly, C. C. Josselyn, A. Cook and W. B. M. Calder.

Votes of thanks were proposed to the retiring directors, and also to the retiring president, Mr. F. R. E. DeHart.

Mr. G. A. Fisher was appointed auditor for the members for another year.

At a subsequent meeting of the directors, Mr. R. A. Copeland was unanimously elected president for the coming year with Mr. M. Heron as vice-president.

Mr. T. E. Cooper who was heartily thanked for the energetic and efficient manner in which he had looked after the business of the association during the past year, was unanimously urged to accept the position of secretary. He was unable to give a definite reply, but promised however to act in the meantime, and the appointment was laid over to be dealt with by a subsequent meeting of the directors. Mr. B. E. Denison was appointed auditor for the directors.

Mr. C. F. Rush, of Glenmore had the misfortune last Monday evening to meet with a serious accident while riding home along the Glenmore road. The slippery nature of the road caused his horse to fall suddenly, Mr. Rush was thrown to the ground and sustained a fractured thigh. There was no one about at the time and the injured man lay in the road for nearly three hours before he was discovered by Mrs. Rush who came to meet him. He was quickly removed to the hospital where he lies at present.

**German's Supreme Effort Has Past**

Writing a short time ago Col. F. N. Maude, C. B., gave some encouraging statistics to the pessimists who feared a German invasion of England, or who believed the wild tales about Germany having a great number of picked troops in reserve for the purpose of a final and successful assault upon the Allies' lines in Flanders. He showed conclusively that already Germany had put her best fighting men into the battle line, and that by no possibility could the lines of the Allies be subjected to such fierce attacks in future as they successfully repulsed in October. In other words Germany has shot her bolt; she has made her extreme effort and unless we are to assume that her enemies have been correspondingly weakened in their powers of resistance there is not the slightest ground for any feeling of uneasiness. In fact, there is reason to believe that the crisis has been passed, and that however desperate and bloody may be the fighting before the end of the war is reached, the tide has already turned, and nothing but a miracle can save the German armies from utter destruction or unconditional surrender.

That the Allies have not been correspondingly weakened is plain enough. Leaving out of account the Belgian army, which is growing smaller each

day, but is each day becoming more dangerous on account of the lessons that the war has taught, the fact remains that up to the present time France has not put more than half of her trained men in the field. Her only ally as the British contingent is fighting the truth is that it is not an advance guard. In four months there will be another million trained British soldiers at the front, and another million will be training. The reserves of the Allies have hardly been called upon, and as far as Russia is concerned, her resources in men are practically unlimited. If the war should last for ten years, at the end of that time the British, French and Russians would have under arms far more men than they have at present. As we all know the German military calculations were based on a short war. Already she has lost more men than any other nation ever lost in the longest war. Every day that passes sees her further from her goal.

As Col. Maude says, German statistics are not secret. The total population of Germany in round numbers is 68,000,000, of which almost exactly half are males. Of the 34,000,000 male inhabitants 17,000,000 are either less than 18 years old or more than 70, leaving 17,000,000 of age to bear arms. From this number again must be deducted the criminals, the maimed, the blind, the insane and others who are negligible as combatants. At the outbreak of the war the most sanguine estimate of fighting men between the ages of 20 and 45 trained to bear arms by service with the colors was 4,300,000. There remained a similar number of trained men above the age of 45. At least 1,000,000 of the immediately available fighting force would be needed to work the railways, the arsenals, the dockyards, the equipment factories and other industries that are as important to the empire as soldiers of the line.

It is estimated, therefore, that the number that went to the front as fast as trains would carry them was 2,500,000, of which four-fifths went to Belgium and France, only 500,000 remaining to oppose the Russian advance, for at that time a good deal of reliance was placed upon Austria. This would leave about 1,000,000 trained men less than 45 years old in Germany about the end of the first month of war. This million would be formed into units to replace the wastage of war and into the new reserve for the eastern frontier, and when it was absorbed Germany's resources of trained men under 45 would be exhausted. That it was exhausted some time in September is clear from the fact that before October the Landsturm formation began to appear in Belgium, composed of men under 20 and over 45. To suppose that Germany would send these untrained, overtrained or immature troops to the front if she had better material is absurd. An official British dispatch tells of the bravery of the German lads who faced the British,

but they were mowed down in heaps, and cannot be expected to have the fighting powers of grown men.

War's wastage is not to be calculated so precisely, but Colonel Maude says that he does not believe that in killed, wounded and prisoners, Germany could have lost fewer than 1,500,000 men up to the beginning of November. Since then there has been much desperate and costly fighting but if we assume that even up to the present time the German losses on both frontiers have been no more than he estimates at the beginning of November, and if we recognize the fact which he lays emphasis upon, that battlefield losses are the least in such campaigns as we have been witnessing and the sickness and exhaustion supply an equal number, four of the remaining five millions of Germany's available men have been sent to the front, or will shortly be sent there. This leaves a bare 1,000,000 in reserve in addition to the 3,000,000 men which it is estimated are fighting on both frontiers. Four-fifths of Germany's resources in men have already been squandered. France holds one-half of her strength in reserve. Neither Britain nor Russia has put more than one-tenth of her available men on the firing line. What end can there be to one; and how is it possible to believe that the war will last for another year?—Mail and Empire.

### Former Resident Approves of the Creamery Project

Editor Kelowna Record.

Dear Sir,—I read with interest in the last issue of your paper that there is a likelihood of a creamery being established at Kelowna. No step I believe could be taken by the farmers of the district which would contribute more to their continued success and prosperity than this.

No matter where you are, mixed farming is the only safe and sane method to follow. The wheat grower on the prairie has found this out and is now governing himself accordingly, and in every farming community, no matter what the specialty at present may be, the same course will have to be adopted sooner or later, and the sooner the better, if lasting prosperity is to be assured.

In a trip this fall through the great stretch of agricultural country lying between the mouth of the Fraser River and Chilliwack. I was much surprised to find to what an extent the dairying industry had taken hold there. In the Chilliwack district especially, the whole country appears to be cut up into small farms, generally from 20 to 30 acres in size, although of course some are larger, and every man appears to keep as many cows as he possibly can. Many in fact keep more than they can feed, and find it necessary to rent some land adjacent to their own if possible, to provide for winter feed.

Milk cans are seen everywhere, at every station, on all the roads and at every farm house. A farmer there considers his dairy herd to be his principal asset and sure revenue producer, and generally, an evidence of prosper-

ity is apparent in all these dairying districts.

On some of the larger farms big crops of potatoes and oats are also grown, and small orchards are scattered all over the country, the older trees of which are usually very badly in need of pruning. In some of the better orchards, good clean looking fruit was seen on the trees, but as there is at present no selling organization of any kind in the Fraser Valley, farmers say that fruit growing does not pay, as the expenses of packing, shipping and commission leaves little or nothing for the producer. A grower of good fruit at Langley said that his prunes, which were first class quality, and well packed, only netted him 7 cents a crate in Vancouver.

On a large ranch near Ladner in Delta municipality, a fine crop of pears was being pulled and shipped out in boxes branded with the name of a well known Kelowna packing house.

If farmers in the Fraser Valley find that dairying pays, as I believe they do, I see no reason why, if there is a sufficient number of cows available, that Kelowna farmers will not also have equal, if not better results as the price of dairy products at the coast is I think lower than in the Okanagan. Good milk, pasteurized and bottled being delivered here retail at 10 cents a quart.

New Zealand butter is also very much in evidence, and apparently there will be a good market for the home-made product in B. C., for many years to come.

Wishing the proposed Kelowna creamery every success, I am,

Yours truly,

T. RENWICK.

Kerrisdale, Vancouver.

Christmas Day will come on the 25th, and that's next Friday! Consult our ad. columns; the stores are making a worthy effort for you.

## TOWN AND COUNTRY NOTES

Mr. J. Levitt returned this week from the coast.

Mrs. A. Edwards will be at home on Saturday afternoon and every third Saturday.

The local Baptist church is being thoroughly cleaned and kalsomined this week.

Mr. Harry Small a local member of the R.M.R., who is stationed at Glacier is home this week of a leave of absence.

Mr. H. D. Riggs spent last week end on a hunting trip down the lake, returning Monday morning with a fine deer.

The Baptist choir members are asked to make a note of the fact that the usual Friday night practice will be held at the home of Mr. and Mrs. McGregor, corner Wolsley avenue and Ethel street at 7.45 sharp.

During the past week skating has been the favorite pastime of the young people of the city. Large crowds find their way both afternoon and evening to the various places where the ice is good.

Services in the Methodist church on Sunday will be conducted by the pastor. The morning theme will be: "Star and Missions" and the evening: "Closing Life's Account."

W. Crawford & Co., are continuing this week and until Christmas their special discount sale on all Christmas presents and fancy goods with the exception of phonographs and records.

A hockey game is in progress this afternoon at Whitby's pond between a couple teams of players selected from the best material in the city. One of the teams will represent the Fire Brigade.

The local customs office has received notification that during the war personal gifts from members of the Canadian overseas expeditionary force to relatives or friends in Canada may be entered free of duty.

Following their usual custom the Baptist choir will render the special Christmas music on the Sunday nearest Christmas day, December 27th. All members of the choir are requested to make a note of the special practice on Tuesday, Dec. 22 at 7.45 p.m.

The local banks will be closed all day Saturday following Christmas Day and also the Saturday following New Years in compliance with an order-in-council which has declared these days general public holidays.

The death took place last Sunday at New Westminster hospital at the age of 45, of Mrs. Louisa Maria Stiff, the wife of C. E. Stiff of Naramata. Mr. and Mrs. Stiff were at one time residents of Kelowna, and the former's sad bereavement will be regretted by many friends.

Mr. Frank Knapton has this week installed some interesting new machinery for boot repairing, which will enable him to handle his business in a much more expeditious manner. The machine is really a series of machines driven by an electric motor, and provides the very latest appliances for quickly performing all the finishing operations necessary in soling or heel-ing boots.

### ELLISON SCHOOL REPORT FOR NOVEMBER

Pupils enrolled ..... 28  
Average attendance ..... 24.02  
Fourth Reader.—Elizabeth Conroy, Lois Homuth and Frances Hereron, equal, Winnifred Lang.  
Third Reader.—Annie Conroy and Eunice Teather, equal, Ernest Homuth.  
Second Reader.—Agnes Conroy, Percy Geen, Lily Geen.  
First Reader.—Robert McInnes.  
First Primer.—Alike Booth, Stanley Teather.

### A MERRY XMAS—GUARANTEED

F. Stuart Whyte's all star English "Versatiles" will be the Christmas offering at the Kelowna Opera House for both the afternoon and evening performances.  
On Christmas matinee they will repeat their former success "Scottie in Japan," while in the evening they will offer an entire new program, never before given here, called "Pierrot and Pierrette."  
The "Versatiles" are on their way to the coast after a highly successful tour of western Canada, Ontario and a portion of the north western states, and although they had the entire valley to choose their Christmas date from, Kelowna was their favored city.

### Correspondence

Editor Kelowna Record,  
Understanding that there is a number of people in the city requiring fire wood, who at this time are unable to pay for same, we wish to state that there is a considerable quantity of fallen timber on our property in the north end of Glenmore, and upon application at our office we would gladly grant permission for them to obtain a supply.

CENTRAL OKANAGAN LANDS  
W. E. ADAMS, Manager

A big Christmas Party is being arranged for at the Methodist church on the evening of Christmas Day. Music, games and refreshments will be provided. Particularly intended to give a happy evening to any strangers or lonesome ones who may be in our city on that day, but all are welcome. Don't wait to be personally invited, just go right in. "We shall be happy if we make you so." 7.30 p. m. Christmas Day.

A very quiet wedding took place last Saturday in St. Michael and All Angel's Church when Mr. Chas. Thomas Hubbard was married to Miss Ruth Bedding, late of London, Eng. The ceremony was performed by the Rev. I. H. Greene and took place in the presence of a few personal friends. Mr. I. H. Pitt acted as best man, also giving the bride away. The couple left on Monday morning's boat for Salmon Arm, where Mr. Hubbard will take up a position with his old firm The Okanagan Telephone Co.

Bankhead pond has for many years been a favorite skating place, but the fact that in previous years it was usually nobody's business to look after the ice, which consequently soon got out up and spoiled, detracted somewhat from its popularity. This year Mr. L. E. Taylor has taken the matter in hand and has devised a plan whereby not only will the ice be kept in good condition and illuminated at night, but those who can afford to pay for a little pleasure will be contributing to help those who are in distressed circumstances. The idea is that a charge of 25 cents is to be made for adults using the pond (10 cents for children,) half of the money so received going to swell the funds of the Benevolent Society, and the other half being retained to defray expenses.

### Rutland News

(From our own Correspondent.)

Mr. M. Bird returned from the coast last week.

Rev. Dr. Sanford, of Columbian College, New Westminster, preached in the Methodist church last Sunday evening.

Skating is in full swing on the Rutland lakes, and a rink is being made on the school grounds so the lovers of this outdoor pastime will be well supplied this winter.

A surprise party consisting of some two dozen young people visited the home of Miss Lillian Sproul last week and were welcomed and entertained by Mr. and Mrs. R. J. Sproul.

The two pruning classes consisting of twelve pupils in each and conducted by Mr. Ben Hoy, have been in operation the last few days. The members speak very highly of his ability to impart information. They are all thoroughly satisfied, and glad to have had the opportunity of receiving instructions in this important branch, in fact, as one member expressed himself, "It has been the best dollar's worth since coming to the Okanagan."

# Gleanings of War News

A Canadian banker states that Canadian banks secured \$20,000,000 of the British war loan.

Cunningham Morris, formerly of Revelstoke, who held a commission as Lieutenant in the Naval Reserve has been transferred to the Royal Naval Flying Corps.

Negotiations for the purchase of 30,000 horses and 12,000 mules which, it is said, are to be sent to Germany are under way in Texas.

A British cruiser landed 190 German prisoners who had been brought from the British Islands of St. Lucia and transferred them to the detention camp.

The Henley regatta, the blue ribbon event in English rowing circles, will not be held next year. The stewards decided unanimously to abandon it in view of the conditions brought about by the war.

Russia is twenty times larger than France and Germany put together (8,400,000 square miles) and her population is supposed to number 165,000,000, that is 100,000,000 more than that of Germany.

News has been received at Copenhagen, that the great Gottrop Barracks, near Kiel, have been destroyed by fire, the origin of which is kept secret. The Gottrop Barracks are about twenty-five miles northwest of Kiel on an island which lies between the Sahiel and Burgees. The old dual Schloss Gottrop is the main building of these barracks.

The body of General Christian Beyers, the rebel leader, who was drowned recently while attempting to escape from government troops, has been found at Vliege Krall, not far from the spot where General Beyers was seen to sink. The official announcement says that there is no doubt with regard to the identification.

James Ramsay McDonald, member of the British Parliament, and chairman of the Labor party, has gone to the front with an ambulance corps, according to Leicestershire Post. Mr. McDonald for a time was bitterly opposed to the war. He accused Sir Edward Grey, the British foreign secretary of being responsible for England's participation in the war.

Bela Singh, Babu Singh, Dr. Raganath Singh and friends have wired the minister of militia offering to raise a company of Hindus in British Columbia for service at the front. Dr. Raganath Singh is an ex-warrant officer, while Bela and Babu have both served in the Indian army. Bela was for five years a signaller and was in China with the British forces at the time of the last Boxer rebellion.

Submarine B-11, in charge of Lieutenant Commander Norman B. Holbrook of the royal navy, entered the Dardanelles last week and in spite of the difficult current, dived under five rows of mines and torpedoed the Turkish battleship Mesudieh, which was guarding the mine fields. Although pursued by gun fire and torpedo boats the B-11 returned safely after being submerged, on one occasion for nine hours.

An order-in-council has been passed forbidding the export from Canada to any foreign country other than part of the British empire of rubber and graphite. This action has been taken to prevent supplies of these commodities from reaching Germany. Canada imports about \$4,000,000 worth of crude rubber yearly and exports about \$500,000. About \$120,000 worth of graphite is exported, principally to the United States, and the production in Canada amounts to about \$100,000 worth per year. It is produced at Buckingham, Quebec, Calabogie and Port Elmslie, Ont.

There are at present 13,563 boy scouts in Canada; of these 6979 are in Ontario; 1818 in Manitoba, 1423 in Quebec, 1889 in Alberta, 933 in British Columbia, 400 in Saskatchewan, 323 in New Brunswick, 200 in Nova Scotia and 100 in Prince Edward Island.

Owing to the B. C. Horse going into camp next to the pens of the fourth international egg laying contest now being held at Victoria Class 1 laid five dozen fewer eggs during the last week of the period covered

### CRIMINAL WASTE

American distilleries last year turned into poison 34,089,277 bushels of grain. This amount would have made 1,768,697,398 loaves of bread—enough to supply two loaves a day for six months to five million families. In addition, the breweries destroyed grain that would have made 3,236,158,606 loaves of bread.—California Voice.

## Christmas Day Opera House The Versatiles

Sweden has nearly 100,000 soldiers mobilized and is ready to act on the instant of possible aggression by Russia, according to a report brought to New York by a passenger from Glasgow.

The dismissal of Gen Von Moltke as chief of staff, and the appointment in his place of General von Falkenhayn, was gazetted without a single word of eulogy for the former, whose disgrace has therefore become a matter of official record.

It is announced at the headquarters of the Belgian general staff that the Belgian army in the field is composed of 125,000 men, and not 25,000 as the Germans assert. The spirit of the Belgian soldiers is better than ever, as the Germans who sustained considerable losses on the Yser well know.

The Vatican authorities have made public a document setting forth the efforts of the Pope to obtain a truce in the European war during the Christmas season. The effect of the pontiff unfortunately failed, according to the Vatican announcement, "owing to the opposition of a certain power." It is stated by persons in close touch with the Vatican that the Turkish and Russian governments declined to agree to a Christmas truce.

The war office has asked the militia department to send an additional seventy-five trained nurses to England as soon as possible. All the nurses sent over with the first contingent are busy and more are required. As the department has received no less than 2000 applications from nurses desirous of accompanying the second contingent, no difficulty will be experienced in complying with the request of the war office. The extra batch of 75 will not wait for the second contingent, however, but will go forward at an early date.

More than half of the stock of the Canadian gift of flour received to date has been distributed, according to a statement made by an official of the government board, which has the flour in charge. A good part has been placed at the disposal of the war office and the admiralty, as public distress is not abnormal, and therefore no pressing need for its widespread distribution to the poor. In those cases, where the flour is being used for relief purposes the loaves baked from it are issued with a paper band, on which is inscribed the words: "This loaf is made from flour sent by the people of Canada."

### Must You Be Bald?

What have you done to stop your hair from falling? Have you tried Rexall "93" Hair Tonic? If not, we want you to try it at our risk.

If you have dandruff; if your hair is falling out and your scalp is not glazed and shiny, if you use Rexall "93" Hair Tonic according to directions for thirty days, and at the end of that time you are not thoroughly satisfied with the results and will tell us so, we will immediately hand back your money. We won't ask you to promise anything. We will take your mere word and return your money.

Doesn't it stand to reason that Rexall "93" Hair Tonic must be a mighty good remedy and have given great satisfaction to our customers if we endorse it like that? We know of no similar remedy that is as good. It is because of what Rexall "93" Hair Tonic has done for others that we back it with our own money.

Why suffer scalp and hair trouble or be bald, when Rexall "93" Hair Tonic will remove dandruff, make your scalp comfortable and healthy, promote hair growth and tend to prevent baldness—when we will pay for the treatment should it fail to please you?

We don't obligate you to anything. You simply buy the treatment; use it, and if not pleased, come back to us empty-handed—and we will hand back what you paid us. Two sizes, 50c and \$1.00 a bottle. You can buy Rexall "93" Hair Tonic in this community only at our store:

P. B. WILLITS & CO. Bernard Ave.

#### The Rexall Store

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Remedy for nearly every ordinary human ailment especially designed for the particular ailment for which it is recommended. The Rexall Stores are America's Greatest Drug Stores
