Country Sections of Volunteer Reserve

To Accommodate Members Living Out of Town

The Kelowna Volunteer Reserve, although experiencing a slight falling off in attendance at drills, due no doubt to the arrival of somewhat unfavorable weather, and perhaps in some degree to the wearing off of the novelty has still kept up the enthusiasm to a remarkable degree, and those who have remained faithful have accordingly made considerable progress in the profession of arms. The beneficial effect of the summer's drill is also beginning to assert itself. One observant lady indeed was heard to remark the other day that the military bearing of some of our prominent citizens was quite noticeable. Instead of slouching along the sidewalk with shoulders bent and eyes directed on the ground a few feet ahead of them, no doubt pondering on the fearful possibilities of next year's tax sale, they now march along with head erect and soldierly stride as if daring the Kaiser and the tax collector to do his D——his worst.

It has been a matter of regret to many people out in the country that their distance from town made it practically impossible for them to join the Reserve with any hope of attending regularly to the practices. A drive of a few miles after supper is not much in summer when the days are long and the weather fine, but to splash through wet and mud on a dark night is to severe a test of patriotism, that is when the necessity is not urgent.

To accommodate these country residents therefore, sections are to be organized in several different districts. Such a section is already organized on the K.L.O. bench with a membership of 22 and more promises, and organization is in progress at the Mission, Rutland and Ellison. At an executive meeting held Monday Messrs Macready and Greensted were appointed section commanders to drill the new sections at the Mission and the K.L.O. for the present, with Messrs. Gray and Brown to fill the same office at Rutland.

Messrs. Drury Price, Dr. Shepherd, J. R. Beale and L. E. Taylor were appointed section commanders for Kelowna with Col.-Sergt. Finch as acting commandant.

It is the intention to have a combined drill for the whole company in Kelowna once a month. The Kelowna section will parade as usual of course Monday and Friday evenings.

Special classes are also being arranged in the following subjects: 1.—Signalling, under the instruction of Mr. J. L. Macready; 2.—Ambulance work, by Dr. Boyce; 3.—Map reading and Field Sketching, by Mr. F. W. Groves; 4.—Physical Training, by Col.-Sergt. Finch.

The new regulations regarding the distribution and billeting of recruits which will be raised during the present winter, have been the subject of an interchange of telegrams during the past few days between Major-General Sir Sam Hughes and Mayor Jones of Kelowna, and as a result, all men recruiting for the overseas contingents after this date will be quartered and trained here, that is providing there are at least twenty-five.

On October 22nd the Mayor wired the Minister of Militia as follows:

Hon. Sir Sam Hughes,
Ottawa.

Since August 1914 Kelowna has given almost 600 men for active service and has a Volunteer Reserve of over 100 men. Would respectfully request that we should be made a training depot under your new recruiting schemes. Splendid accommodation easily secured. Winter climate unexcelled in Canada.

J. W. JONES,
Mayor.

The Hon. Minister replied as follows:

Ottawa, Ont., Oct. 23, 1915.

Mayor J. W. Jones,
Kelowna, B. C.

Kelowna, in common with every other centre large and small in the Dominion of Canada, will be allowed to retain within its own borders, until the needs of the cause require their removal, all troops over a minimum number of 25, who pass the strict medical examination, are of good character and are otherwise acceptable, raised after this date. These men may not be billeted or boarded in any place where liquor of any kind is sold. While we have every faith that the soldiers everywhere in Canada will, as in the past, conduct themselves as gentlemen, and that the citizens in each locality will establish high standards yet should any place permit abuses to remain the troops will be promptly removed.

Already in some localities both the citizens and the soldiers are establishing systems of their own for getting rid of all improper characters. I appreciate very highly the splendid spirit of Kelowna. Details will follow from district officer commanding your locality.

SAM HUGHES.

Supposed Wild Man Taken in Charge by Police

Early this week a report was received at the local police office that a "wild man" had been seen roaming through the bush near the mouth of Mission Creek. Some most alarming yarns were being handed around town as to the condition of the man.

Chief Thomas in the absence of the provincial police went out at once to investigate. He found, camped amongst the trees a figure which certainly looked like a wild man. His hair was grown down over his shoulders and a heavy beard covered his face. His clothing consisted of a pair of tattered trousers, which would scarcely hang together and an equally ragged shirt. For shelter he had a piece of canvas stretched across the bushes. A fire was burning close by on which were boiling in an old can a few potatoes.

The man, who gave his name as Duncan Morgan, was perfectly rational, however. According to his story, he had been there about two weeks. He said that owing to lack of work he had got "up against it" and finally his clothes had got so bad he was too ashamed to see work, as no one would give him a job. Lately he said he had been living on potatoes and onions.

He was 23 years old, he said, and had come from Monashee, where he had been prospecting.

It was apparent that from whatever reason the man was in a bad way, and he was accordingly brought into Kelowna. His appearance was greatly improved by a visit to the barber where he indulged in the luxury of a good bath and his superfluous locks were trimmed. He was also fitted out through the kindness of a local gentleman with a suit of clothes. On Wednesday he was brought up before the magistrate and charged with vagrancy. Upon instructions from the provincial police at Vernon he was remanded until Saturday in order that enquiries could be made in the neighborhood of Monashee.

Pretty Local Wedding

McCLURE-THOMPSON

The home of Mr. and Mrs. George Thompson, "Burnside Ranch" was the scene yesterday morning of a very pretty wedding, when their daughter, Miss Sarah Grant (Sadie) Thompson was married to Mr. Harry McClure. Both the young people are widely known and popular in the district and they have many well-wishers for their future happiness.

The ceremony took place in the morning at 11 o'clock, the officiating minister being the Rev. J. C. Switzer. The decoration of the room was very pretty, use having been made of autumn tinted Oregon grape, roses and white bells. Miss Birdie Thompson, sister of the bride was the bridesmaid, while Mr. Fred Munson acted as best man. The bride was handsomely attired in white corded silk with veil and wreath of orange blossoms. After the wedding a luncheon was served of which some forty guests partook. Appropriate music was rendered, including a solo by Miss Frances Pearson, L.R.A.M., "Morning and You" and the wedding march by Miss E. Jones. The bride was the recipient of numerous and beautiful presents.

During the afternoon the happy couple left by motor for Vernon at which place and at Kamloops and Salmon Arm the honeymoon will be spent. The bridal dress had been changed for a handsome travelling suit of amethyst blue with velvet hat and ostrich feathers, and there was a merry party to wish them luck as they left on their journey.

England's Offer to Greece Withdrawn

Island of Cyprus Had Already Been Offered by Germany

England's offer of the Island of Cyprus to Greece for her participation in the war on the side of the Allies has been withdrawn, Foreign Minister Grey announced in the House of Commons Tuesday.

In announcing that England had withdrawn her offer Foreign Minister Grey said:

"Great Britain is bound to use every possible effort to assist Serbia. We offered inducements to secure Greece's aid. Greece did not take advantage of the offer and it has lapsed."

It is stated that the island of Cyprus had already been offered to Greece by Germany.

Enemy Losses 5,000,000

The Nieuw Rotterdamsche Courant, as quoted by Reuters Amsterdam correspondent, gives German losses from October 11 to 20 as 57,424, in dead, wounded and missing.

The total Prussian losses are given as 2,021,078.

The newspaper says there also have been issued 228 Bavarian, 209 Saxon, 286 Wurtemburg and 53 naval casualty lists as well as lists of officers and under-officers with the Turkish army.

The Courant figures the total losses to the Central Powers at 5,000,000.

Sandow Denies Spy Rumor

Eugene Sandow, the famous athlete and once reputed to be the world's strongest man, was rumored shot as a German spy in the Tower of London about two months ago. Sandow, for a number of years, conducted a physical culture institute in the west end of London, which was the resort of many fashionable clubmen and officials of the government.

Sandow, however has publicly denied the rumor. Although born in Germany, near the Russian border, he explains his parents were Russian subjects, and he himself, according to Russian law, is still Russian, although he became a naturalized Englishman some years ago.

Mr. C. H. McLeay left yesterday on a visit to the San Francisco exhibition.

Mr. C. A. Crosbie, general supervisor of the Royal Bank of Canada, is visiting in town this week accompanied by his wife.

The men of the Vernon camp have collected over $300 as a donation to the Y.M.C.A., for the good work done by that organization during their stay in the valley.

Mrs. Cooper, of Treesbank, Man., left this morning for her home after a visit to Mr. and Mrs. A. E. Harrison of Rutland. She is a lecturer on poultry matters for the C.P.R.

Six new recruits for the 102nd regiment, on bridge guarding duty left on Monday morning's boat for Kamloops, from where they will be sent to various posts along the railway. They were C. Perrin, G. Weir, P. Cossetto, H. R. Hamilton, J. Cossetto and L. Reoddo.

Lieut. J. A. McDonald was a visitor at the home of Mr. and Mrs. L. V. Rogers this week. Lieut. McDonald is well known in Kelowna, having been some two or three years ago on the staff of the public school. He will also be remembered for his prowess in the art of wrestling, his match with "Bob Sutherland" having been the first event of the kind in Kelowna. He is with the 47th at Vernon, but leaves shortly for the coast.

Basil Jack, a Westbank Indian was arrested last Saturday afternoon in a drunken condition on Pendozi street. He was acting in a disorderly manner and jostling ladies off the sidewalk. He pleaded guilty to the charge and was fined $25— $15 for the offence and $10 for refusing to reveal the name of the person who supplied him with the liquor, with an alternative of one month.

The Most Damnable Crime of the War

Murder of Miss Cavell Creates World-Wide Indignation

The shooting by the Germans of Miss Edith Cavell, the English nurse in Belgium on a charge of assisting Allied soldiers to escape, has created an immense furore all over the world, and even neutral countries without exception are strong in condemnation of this latest act of barbarism. One of the results in England was a big boom in recruiting.

She was fired at by a party of 12, but only one bullet touched her and that did not kill her. It was after this that the officer of the firing party drew his revolver, and putting it to her ear, fired. The priest present at the execution was overcome with horror and is now suffering from nervous breakdown. The execution of Miss Cavell has evoked consternation among the people of Holland, a feeling that will probably do more damage to German sympathies in Holland wherever such sympathies still exist, than any happening during the war.

The London papers in their editorials, while paying tribute to the efforts of the American diplomatic representatives, in her behalf, characterize her execution as "the most damnable crime of the war."

Wild Goose Bill Acquitted

Wildgoose Bill or to give him his proper, but less familiar title, W. McLachlan, appeared at the Vernon assizes last week on a charge of wounding a horse.

The alleged offence took place on the west side of the Okanagan Lake, opposite Kelowna. The owner of the horse, W. A. Dimmock, and the accused, W. McLachlin, are neighbors. According to the evidence, the horse wa wounded on the evening of August 5, by the discharge of a shot-gun, the marks of the shot being along the horse's side from head to hip. The witnesses were Messrs. Dimmock, Dane, Raymer, Childers and Mrs. Dimmock. Messrs. E. C. Weddell and J. A. Murphy were counsel for the defence. The verdict of the jury was "not guilty," and the prisoner was discharged.

WOMEN AND CHILDREN ARE FIGHTING IN SERBIA

From German sources comes the story of how stubbornly the Serbians are defending their country against the invaders. They are fighting like fatalists. Women are fighting side by side with the men. Boys and girls are dying beside their parents. The Serbian army has been augmented by practically every private citizen, male and female, capable of bearing arms. Few prisoners are taken. It is a fight to the death. Inch by inch that is gained by Teuton and Bulgar is captured at a frightful cost—as deadly to the invaders as to the defenders. All of the energies of General Mackensen are being put to the test. His Galician campaign was as child's play compared with this desperate attempt to cross Serbia.

Private Frank Bird, who has been home on a short furlough, left today for Vernon.

There will be no meeting of the Ambulance Class at Rutland next Tuesday.

Mr. H. M. Hart of the K.L.O. bench has joined the 102nd regiment at Kamloops.

A large number of excellent bulletins are in the hands of the secretary of the Farmers' Institute for distribution and may be had any day from 2 to 4 p.m., or Saturday 8 to 10 p.m.

Members of the Farmers' Institute having library books out are requested to turn them in at once so that the set may be exchanged for a new one.

At a meeting of the Poultry Association held Tuesday evening it was decided to hold the winter show as usual, and arrangements were discussed.

Mr. Chas. Mair, inspector of immigration at Fort Steele, who has been on a visit to Mr. B. E. Crichton returned home this week.

Rev. I. W. Williamson on Prohibition

The Rev. I. W. Williamson, the energetic secretary of the British Columbia Sunday School Association was in town this week, and last night addressed a large gathering in the Methodist church on the subject of "Prohibition." It lieu of an ordinary lecture Mr. Williamson recited selections from an exceedingly clever dialogue supposed to take place between a saloon keeper and a retired politician. Mr. Williamson though regretting that he had no partner at present to take the other side, assumed the role of Tim O'Neil, the saloon keeper. The dialogue abounds in the keenest witticisms and arraignments of the liquor interests and some of the points made were loudly applauded. The hardest knocks were delivered at the methods employed by the liquor interests in different parts of America to combat the temperance cause and to forward their own. The liquor men, he said, concealed their identity under fanciful and misleading names, such as the "Hop Growers' Association" of Oregon, the "Grape Growers' Association," of California and in British Columbia the "Merchant's Protective Association." Most of the arguments against prohibition were skilfully introduced and their fallacies wittily exposed.

Notwithstanding this jesting attitude Mr. Williamson declared that all the temperance forces in the province would have to work their hardest to secure the passing of the bill.

Owing to the high wind last night the S. S. Sicamous had to pass by Summerland and continue straight on down to Penticton. This was the first time that the captain had been unable to make the landing at Summerland. The same storm was also responsible for the lateness of the boat at Kelowna this morning. One of the car barges had been blown ashore during the night and the Sicamous was detained to pull it off again.

Templars Hold Big Social

The Hallowe'en Fancy Dress Social held last Tuesday evening under the auspices of the Good Templars proved to be a most successful and enjoyable affair. The lodge room was filled to the doors by the members and friends who had come to enjoy a good time.

Some new novelties, in the way of entertainment were introduced, when all attending, on entering the door had to take a trip through "The Mystic Cave," which was inhabited by ghosts, witches and other spirits, (non-alcoholic) to try the nerves of the travelers.

After a program of Hallowe'en games the judging of costumes was proceded with and proved to be no easy task, especially in the ladies' costumes as it is very seldom that there have been so many deserving costumes gathered together at one time.

Mayor Jones and Principal Rogers acted as judges and their decisions met with the hearty approval of all.

The first prize, which was a beautiful stirling silver manicure set, for the best ladies' costume went to Miss Jennie Stephens, who was dressed as a Milk Maid. The second prize, an electric iron went to Miss Gladys Tickney, who represented a Gypsy Girl.

The first prize for gentleman's best costume was won by Mr. H. W. Swerdfager and the second prize by Mr. John Pavle.

When the judging was over and the prizes presented a hearty vote of thanks was accorded to the judges.

Refreshments were then handed around after which the singing of the National Anthem brought a most enjoyable evening to a close.

The complete success of the social was greatly due to the untiring energies of the committee, who had charge of the arrangements, which consisted of Bros. W. Pearson, S. Simpson, T. Ellis, R. Bouvette, J. Pavle, E. Newmeyer, A. Ritchie, T. Pitt and Mr. J. Trenwith.

BIRTHS

DUNCAN.— To Mr. and Mrs. J. Duncan, at Rutland, on October 23, a son.

MALLET.—To Mr. and Mrs. J. Mallet, on Tuesday, October 26, a son.

Germany Ready to Offer Peace Terms

Rumors That Prince Buelow Will Submit Terms

A significant report from Madrid, dated Tuesday, makes the announcement that "Prince Camporeale, Italian senator and brother-in-law of Prince Von Buelow, states that Von Buelow shortly will submit to King Alfonso and President Wilson an outline of the terms on which Germany is willing to make peace." The general inference drawn is that Germany is weakening, and may be nearing the last of her resources.

Summerland is holding a fall fair on November 10th and 11th.

Mr. and Mrs. Goodrich and Mr. M. A. Alsgard returned on Tuesday afternoon from an auto trip into the Cariboo country. They report having had a fine trip.

B. B. Webb, a telephone engineer has been successful in projecting his voice across the Atlantic, thus adding still another to the list of marvels of science which have distinguished the last few years.

J. E. Wheeler and C. H. Fox of the K.L.O., and E. M. Emmens of Kelowna, B. Graham and Stanley Clark of Woods Lake left this morning for Vernon to join the 54th, they will leave next week for the old country.

Westbank News

(From our own Correspondent.)

Mr. Fred Gore, of Kelowna visited his parents here last Sunday.

* * *

Mr. O. C. Etter spent last Sunday at Westbank with his family.

* * *

Messrs. L. Featherstonehaugh and J. Campbell left last Friday for a few day's hunting back of Summerland.

* * *

Mr. and Mrs. Jones, Mrs. Hewlett, Mr. Nicol, Mr. Sharpe and Masters Halpin, Moffat and George Brown were among the visitors to Kelowna last week.

* * *

Mr. Jenner attended the sale held by the South Kelowna Land Co., at the Mission last Thursday and returned with a span of horses, two sets of harness and a wagon.

* * *

Mr. David Gellatly left last Saturday for Calgary where he will assist in the managing of a wholesale fruit house recently opened up there by his father, Mr. D. E. Gellatly. Mrs. Gellatly intends following in a few weeks.

* * *

The annual meeting of the shareholders of the Westbank Irrigation Company was held last Friday in the school house. Although there was a poor attendance the business of the evening was promptly entered upon, and consisted chiefly in the election of the directors for the ensuing year. As a result of the balloting Messrs. L. L. Lake and W. Brown were returned to the offices of president and secretary-treasurer respectively. Mr. A. W. Joselyn was elected as vice-president and Messrs. C. Clarke and J. Sinclair, as the other directors. In spite of the large percentage of unpaid taxes, the financial report showed that the company was entirely free of debt. Various improvements were considered and it is hoped that next season will prove even more successful for the Irrigation Company.

* * *

A very pretty but quiet wedding took place at Gellatly on Wednesday of last week, when Miss Edith Grace, third daughter of Mr. D. E. Gellatly, and Mr. Charles Butt, for some years superintendent at the Gellatly ranch, were united in marriage. The ceremony, which took place at the bride's home was performed by the Rev. Alex Dunn of Kelowna in the presence of the bride's family and a few guests. The bride's sister, Miss Pearl Gellatly acted as bridesmaid and Mr. H. C. Etter as best man. After the ceremony the bridal party sat down to a sumptuous Redding supper. The tables and large rooms were very prettily decorates with white flowers. Mr. and Mrs. Butt have taken up residence at Gellatly.

In Praise of the Ayrshire

Good progress is indicated for the Ayrshire breed of cattle by the annual report of the Canadian Association which is a bulky volume of 173 pages. Complete lists of cows and bulls that have qualified in the Record of performance have been compiled by the secretary. Mr. W. F. Stephen, of Huntingdon, Que. Along with the report is a brief circular outlining the merits of the Ayrshire as a producer of milk and butter. The Ayrshire, it is claimed, produces the largest quantity for the food consumed and yields the largest net profit. This has been proved in competitive public tests. The Ayrshire produces the most desirable milk for the milkman of any of the dairy breeds because of the uniform high quality in total solids, placing it above the standards required by municipal laws. The Ayrshire milk is the most satisfactory to peddle because it will bear transportation without churning to butter, and will hold its uniform quality to the last quart in the can.

The Ayrshire has proved by official tests that she is a big producer as the following summary of tests will show the results of five years record of performance work in Canada.

One hundred and sixty-eight cows gave a yearly average of 10,234.44 pounds of milk, 411.43 pounds of butter fat.

Fifty-three 4 year olds gave 9,276.20 pounds of milk and 376.79 pounds of butter fat.

One hundred and two 3 year olds gave 8,276.38 pounds of milk, 343.16 pounds of butter fat.

Two hundred and forty-four 2 year olds gave 7,489.03 pounds of milk and 306.42 pounds of butter fat.

White Leghorns Win in Egg-Laying Contest

In the final month's record for egg laying in the Fourth International Egg Laying Contest, conducted under the provincial department at Victoria, E. W. Estridge, of Duncan, B.C., owner of Pen No. 5, six white leghorns, won the first prize, $100, in class 1, non-weight, with a total for the 12 months of 1341 eggs and for the month 96 eggs. Second prize, $50, was won by L. M. Ross, Cowichan, B. C., with white leghorns, 1242 eggs, third prize, by Norie Bros., Cowichan, 1228 eggs; fourth prize by Koksilan Park Ranch, Cowichan, also white leghorns, 1202 eggs; fifth prize, bronze medal, by H.A. Hincks, Langford station, 1121 eggs. B. & K. silver medal for largest winter egg yield went to Pen No. 18, L. M. Ross, Cowichan.

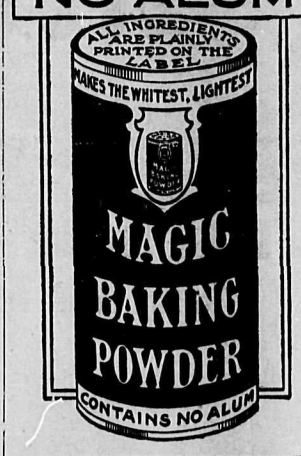
A. Unsworth, Sardis, held ninth place in this contest with 966 to his pen; 878 eggs, and J. A. Thurston, Central Park, with Silver Campines, 639 eggs.

In class 2, weight varieties, six birds to a pen, first prize was won by D. Gibbard's pen No. 40, Mission City, Barred Rocks, with 1342 eggs for the twelve months. Second prize, $50, was won by pen No. 27, G. Adams, Victoria, with White Wyandottes, 1212 eggs; third prize, pen 34 E. D. Read, Duncan, also White Wyandottes, 1180 eggs; fourth prize pen 31, R. N. Clerk, Vernon, B.C., Rhode Island Reds, with 1152 eggs and fifth prize, J. H. Cruttenden, New Westminster, with Buff Wyandottes 1112 eggs. D. Gibbard, with pen 40, won the B. & K. silver medal for the largest winter yield. Winner of B.C., Poultry Association's special prize in class 1, L. M. Ross, Norrie Bros., Koksilan Park Ranch, H. A. Hincks and G. O. Pooley.

In class 2, winners were D. Gibbard, G. Adams, E. D. Read, W. S. Stewart, and P. S. Lampman.

In class 1, 18,633 eggs were laid during the twelve months by the 19 pens of six birds each; in class 2 21,122 by the 21 pens of six birds to a pen. The grand total of eggs laid being 39,757.

NO ALUM



FIGHTER AND FARMER

The warrior in his armor is slaying fellowmen, the while the peaceful farmer goes forth to plow again. All through the day the former is wasting shot and shell, and making Europe warmer than the gates of . . . . And all day long the latter is wrestling with the soil, and makes the welkin clatter with sounds of useful toil. The farmer cleans his horses, and gathers luscious eggs, the soldier's making corpses and wounding people's legs. The farmer fills his mangers with good and wholesome hay, the soldier butchers strangers for thirteen cents a day. The farmer "sets" his biddy, and leads a useful life, the soldier leaves a widdy where was a happy wife. The farmer props the nation and builds the smiling town, the soldier earns his ration by burning buildings down. The man who lives on danger, and leaves a trail of woe, looks cheap beside the granger, whose weapon is the hoe.

WALT MASON.

The Edgewater Hotel in the Columbia Valley, near Golden, was destroyed by fire last week. The hotel which was built by the Columbia Valley Orchard Co. Ltd., was unfinished. It was designed as a tourist resort and about $15,000 had been spent upon it.

Botanical Notes

In the following notes, 186 to 191, those within quotation marks were kindly sent by Mr. Eli Wilson, formerly of Armstrong and now at Green River, Ontario, in reply to questions.

186.—A Western Honeysuckle, Lonicera ciliosa. Leaves ovate, flowers orange to scarlet, in whorls, single or rarely two or three. Grows near Mission. Seems common round Shuswap Lake. A specimen from near Vernon was promised for identification, but was not obtained. Mr. Eli Wilson says: "It is very common at Armstrong. Of course it is related to "the Trumpet or Coral Honeysuckle, "L. Sempervirens, but the leaves and "flowers differ. The hairs on the edges of the leaves, observed under a "lens, explain the term ciliosa."

187.—Canadian Honeysuckle, (Lonicera canadensis). Leaves oval, flowers light yellow, in pairs. Fruit globose, semi-transparent red, Mission valley. "It is not uncommon at Armstrong, "in damp places, and blossoms quite "early in the spring. It is quite com-"mon in the Selkirks."

188.—Lewis' Beard-tongue, (Penstemon Lewisii). Flowers deep violett in color, corolla tube to over 1½ inches. Fragrance resembles that of primrose. Grows on rocky ground, Knox, mountain and elsewhere. Stems shrubby. A specimen was not obtained this year, for identification. Mr. Wilson says: "The common showy Beard-"tongue is Penstemon Lewisii. P. "menyiesii occurs in the Selkirks, but "high up; it is not so common as P. "Lewisii, and has broader leaves."

189.—Penstemon confertus. The narrow corolla nearly cream color, is about three-quarters of an inch long. Flowers in an interrupted spike; sepals usually white-margined and toothed. Grows on the benches and elsewhere. Mr. Wilson says: "It is com-"mon in July on the dry land just "north of Kelowna. A variety of P "confertus with blue flowers grows on "the heavy clays about Armstrong. "To me P. confertus as it grows at "Kelowna is very attractive."

190.—Aster Wilsoni. This name and the next, 191, are not given on authority from the Botanical office; but the descriptions do cover the variations chiefly noticeable in our commoner asters of this district. Mr. Wilson says: "The plant named after "me by Dr. Rydberg, of New York is "one of the asters. It is probably a "variation of A. Lindleyana, which it "much resembles in habit but it has "stiff hairy stems, the hairs running "often in decurrent lines, and the "plant is much stouter than the typi-"cal A. Lindleyana; the basal leaves "similar, but not cordate."

191.—Leafy-bracted aster, (Aster foliaceous). Stem stout, branches ascending. Leaves rather thin, ovate, lanceolate, acute, glabrous on both sides. The basal leaves are long-petided. "A. foliaceous is quite distinct "from A. Lindleyana. The basal leav-"es are quite abundant, broadly lan-"ceolate with no signs of being cos-"date, and sometimes 4 to 6 inches in "length. From close examination dur-"ing a number of seasons, I conclude "that the three species Aster Lindley-"ana (which is quite common at Arm-"strong), A. Wilsoni, and A. foliace-"ous are quite distinct."

Mr. Wilson mentions that the Indian Pipe, Chootplant, grows in damp woods near Armstrong. He also remarks that the "Lady's Slipper" Cypripedium montanum (white lipped) and C. parviflorum "used to be quite "common about Armstrong, but the "beauty of the flower is proving its "ruin."

Two hunters near Creston recently shot a cow in mistake for a grouse.

If Britain emerges from this war with conscription, Germany will have won a victory.

Chickens are selling at six cents apiece at Hankow, China, so says an Associated Press despatch—but it's a long way to Hankow.

A fairly accurate sun dial has been invented that can be held in the hand and adjusted to tell the time in any latitude.

Moose have again made their appearance in the Elk River valley and are wintering there in small bands of two or three. Last summer a cow dropped two calves in the vicinity of the C.P.R. headquarters, about 40 miles north of Michel.

The Post-master General states that a large number of parcels for prisoners of war abroad are still found to be unfit for onward transmission in consequence of the inadequate packing. A single sheet of brown paper or a thin cardboard box, such as a shoe box, does not afford sufficient protection. Even where proper materials are used, it is important that the contents should be tightly packed so as to not shake about in transmission.

Prices Talk Loud

We can only give a few samples, but these are of staple lines, the sellers, and not obscure lines where the prices mean little or nothing.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Applications for the lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded, if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns shall be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion lands.

W. W. CORY.
Deputy Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

George Goulding, of the Central Walkers Club, Toronto, won the A.A.U. national championship seven-mile walk at New Brunswick, N.J., Saturday, breaking the world's record by 10 seconds. His time was 50; 40 4-5.

Correspondence

KELOWNA PHILHARMONIC SOCIETY

Editor Kelowna Record,

Dear Sir.—You will be interested to know that the Kelowna Philharmonic Society will commence its orchestra practises on Wednesday, November 3rd and I would take this opportuoity of asking, through the medium of your valuable paper, a more generous and hearty support of our efforts from the music-loving people of the city than was accorded us last session. It will be seen from our balance sheet that $100 was donated by our Society last session. It is the aim of the society to assist in raising funds for local benevolences, the whole of its profits being devoted to this purpose.

If the Kelowna public would only realize what a valuable asset the orchestra is to this city, I feel sure we would see larger audiences at our concerts, especially as it affords such a pleasurable means of contributing to local relief.

Thanking you for your valuable notice. Yours truly,

SYDNEY H. OLD.
Secy.-Treas.

Following is the balance sheet:

French Use Liquid Air Bombs

A well known French aviator describes how a 60 year old professor of science joined the air service as sub-lieutenant to try out a new liquid air bomb he had invented. A member of the Academy of Science and an officer of the Legion of Honor, the professor offered his bomb free on condition that he be allowed to direct the first military trial, but as the regulations forbid anyone, says a member of the army, taking war flights, he very promptly volunteered and received a commission. He took the observer's seat in a biplane during operations near Hebuterne and accurately dropped a bomb weighing 100 pounds, on a chateau, the local Germans headquarters. When the smoke cleared away he saw the chateau had been practically demolished. The airman asserts that the bomb if tenfold more destructive than the same weight of dynamite. The professor is now directing the manufacture of these bombs which have contribited largely to the success of the recent raids by French airmen.

The C.P.R. made a record for tourist travel this summer. More than 40,000 tourists saw Banff.

Facts and Figures of War

The population of the world is variously estimated at between 1,600 and 1,700 millions, and over 963 millions (or more than half) are now at war, in that they are subjects of, or under the protection of, states now engaged in hostilities. Of this total 421 millions, or nearly one half, are subjects of King George or under British protection.

The land surface of the earth (including all the waste places, such as the Polar regions) is estimated at 55,500,000 square miles. More than half of the world, in this geographical sense, is at war, the territories, colonies and protectorates of the nations concerned totalling 28,916,000 square miles.

Of the sixty nations usually given in the list of nations of the world, nineteen are at war or directly concerned in it.

The British Empire, before the war, comprised 11,454,862 square miles, excluding Egypt, the Soudan and Cyprus, which were technically Turkish. The empire has increased by some 2,326,000 square miles, or nearly one-third, during the first yeat of the war. This figure includes the Cameroons, the conquest of which is not yet complete, and is a Franco-British enterprise, so that the territory will probably be divided.

The new territori?s captured, incorporated in the empire, or added to our sphere of influence, are in square miles.

Egypt, 500,000; Soudan, 984,000; Cyprus, 3,500; Arabia, 1,200,000; German Southwest Africa, 322,450; Togoland, 33,700; Cameroons, 191,200; German New Guinea (including Kaiser Wilhelm's Land, the Bismarck Archipelago, and the Caroline, Pelew, Marianne groups of islands) 100,000; Samoan Archipelago, 1,050.

Of the Arabian Peninsula, the Aden Protectorate (about 9,000 square miles) belonged to Great Britain, Turkey owned about 436,000 square miles, and the remainder comprises huge deserts, sparsely inhabited by normal tribes. It has a total population of some 4,870,000.

At the Salmon Arm tax sale held recently all the lots put up for sale were bought in by the city with only two exceptions.

Surprising Figures Regarding Submarine Blockade

To correct the emotional impression produced by the more or less spectacular feats of German submarines, it is well in estimating the real value of this kind of warfare to consider the dry figures of losses incurred by the war risk associations under the British state insurance scheme, says a British exchange. A summary of all losses since the war began has lately been published.

After a year of war the number of vessels destroyed amounted to only 4 per cent. of the total number employed. As to the value of the cargoes lost in the same period, it is put at $362,000,000, while the total value of the cargoes carried—apart altogether from those of the government transports—is estimated at $7,510,000,000. The loss, therefore, has been at the rate of about one-half of 1 per cent.

It will be seen, then, that German hopes are still a long way from fulfilment, and that the expectation that trade would be paralyzed by fear has come to naught.

But the most surprising fact to be brought forth by the figures is that, whereas in the first six months of the war the loss was at the rate of two-thirds of 1 per cent., in the following six months it fell to little more than one-third of one per cent. As the second half year includes the whole period of Tirpitz's much-heralded blockade, a true estimate of the importance of that terrifying enterprise is now possible.

Commenting on the foregoing, the New York Tribune says:

"The figures are really amazing. If anyone had ventured to predict in the first days of the war that after a year British supremacy on the sea would be so nearly complete few would have dared to believe him. As to the Germans, those who think seriously on the matter must realize by now that the submarine campaign is little better than a very costly advertisement."

Numerous arrests have been made in Soffia following the discovery of a plot to kill King Ferdinand. Among the prisoners are several political leaders who opposed Bulgaria's alliance with the Germanic allies.

When the Other Fellow Steps Over Your Head

It jars to have some other fellow step over your head and take possession of the job you've had your eyes on for some time.

A little thinking brings you face to face with the undeniable fact that **training** is responsible for it.

To advance you must have the practical training that makes you an expert at the occupation of your own choice.

Without any cost to you whatever, the I. C. S. will tell you how YOU can get in line for promotion. Simply mark the attached coupon opposite the occupation you like best, and mail it today.

Every month upward of 400 students voluntarily report salaries increased and promotion secured wholly through I. C. S. training.

Mail the Coupon NOW.

Furnished House, fully modern and up-to-date, situate near the lake shore. Three living rooms and four bedrooms. Immediate entry.

Rent $25 a month

Printed Butter Wrappers

According to the new Dominion Government regulations all farmers who sell butter either to the stores or privately, are required to have it properly covered in a wrapper on which MUST appear in prominent letters the words "DAIRY BUTTER."

The fact is also emphasized that all butter in such packages must be of the full net weight of sixteen ounces, and in default of same a fine of from $10 to $30 for each offence is imposed. Whey butter must be so labelled even when mixed with dairy butter, and dairy butter retains its label though it be mixed with the creamery product.

You can be supplied with neatly-printed wrappers for your butter at the Kelowna Record Office, for the following prices:

100	PAPER & PRINTING INCLUDED	$1.50
200	" "	2.00
500	" "	2.75
1000	" "	3.75

These prices include Both the Paper, which is the best obtainable for the purpose, and the Printing of same. Please note this.

Kelowna Record

TOWN AND COUNTRY NOTES

Mr. N. S. Dagleish of Kamloops is spending a few days in the city.

* * *

Miss Caldwell came in on Monday's boat from a week end visit down the lake.

* * *

Mr. H. H. McDougall of Glenmore left yesterday morning for the old country. He sails on the Pretorian.

* * *

Mrs. Minnie Bessett left last Saturday for Ashcroft where she will take charge of the government office.

* * *

Mr. W. B. Pease and family are leaving this week for La Jolla, California, where they will spend several months.

* * *

Mrs. Thos. Allen returned to the city Monday afternoon after a couple week's holiday spent at Vernon with her husband.

* * *

Private W. Easton, of the Army Medical Corps who spent a few days in the city recently left yesterday for camp. He expects to leave for the old country about the middle of next month.

* * *

The Methodist Ladies' Aid are holding a Hallowe'en supper in the Board of Trade rooms on Saturday, Oct. 30, from 5.30 to 8 p.m. A large patronage is solicited, the admission being 25 cents.

* * *

The first parade of the Volunteer Reserve for the K.L.O. bench will be held next Thursday evening, Nov. 6th in the packing shed of the Kelowna Growers' Exchange, provided permission can be obtained to use the building.

* * *

The Woman's Auxiliary of St. Michael's church are holding a "Novelty Tea" in the Parish Room on Saturday, November 27th. Christmas novelties of every description will be for sale and afternoon tea will be served. All associate members are asked to co-operate in making the afternoon a success as the proceeds are to be devoted to the Parish funds.

* * *

Mr. W. A. Scott of Benvoulin was much surprised this week, when picking up a recent issue of the "Winnipeg Telegram" he found a picture of his nephew, Mr. Douglas R. Johnston of the medical corps of the 5th Winnipeg artillery. who had met his death at Otterpool Camp, Kent, England during the Zeppelin raids there early in the month. Lance Corporal Johnston enlisted at Winnipeg last December and went to the old country with his regiment about two months ago, never reaching the front. He was 25 years of age and single.

* * *

The girls of the Red Cross evening class held a most successful "At Home" last Thursday evening "Trafalgar Day." There were over 150 people present. The sum of $58.50 was realized as a result which will be handed over to the local Red Cross fund, with the exception of $5.00 which was donated to the "Trafalgar Day Fund." The girls also announce that they will hold a series of these "At Homes" during the winter in Morrison's Hall on the third Thursday of each month. The admission to each will be the same, 50 cents.

* * *

Sunday next, October 31st will be Choir Sunday at the Methodist church and in addition to special Anthems by the choir at both morning and evening services the following solo items will be rendered. In the morning Miss Frances Pearson will sing "O Divine Redeemer" (Gounod). At the evening service Mrs. J. Harvey will sing "Let us have Peace" (Ball) and Mrs. W. Greensted will play a violin solo, "Andante" from Mendelssohn's Concerto. Miss E. Jones will preside at the organ. Everybody welcome.

* * *

His Grace, the Most Rev. Timothy Casey, Archbishop of Vancouver who is on a confirmation tour of the archdiocese will arrive in Kelowna this week-end. On Sunday morning His Grace will say Mass at 8 o'clock and at 10.30 he will administer confirmation which will be immediately followed by High Mass. In the evening there will be Benediction at 7.30. His Grace will preach the sermon at both morning and evening services. Monday November 1st being All Saints' Day the services will be the same as on Sunday: High Mass at 10.30 a.m., and Benediction at 7.30 p.m.

On Saturday a meeting is to be held at the Mission for the purpose of forming a section of the Volunteer Reserve.

* * *

Lord and Lady Aberdeen are to pay a visit this week to their ranch at Vernon. They were at one time large land-owners in the Kelowna district.

* * *

Mr. and Mrs. Rodgers, whose wedding was reported in last Thursday's issue left for Vernon last Monday morning, after spending a short honeymoon at Penticton.

* * *

Mr. W. F. Bouvette who has been serving on the jury at the Vernon assizes for the past week returned home today.

* * *

The special prizes awarded at the fall fair by Mr. Neil Gregory, for an essay were won by the Misses Doris and Phyllis Teague.

* * *

An effort is being made in this district to form a branch of the Volunteer Reserve. All wishing to join may hand in their names to the Rev. Gordon Tanner.

* * *

Next Tuesday evening at the regular meeting of the Good Templars the election and installation of officers will take place. Every member is asked to make a special effort to be present.

* * *

The Kelowna Study Club will meet on Thursday evening, November 4th at 8 p.m. at the home of Mrs. J. Dayton Williams, corner of Beach avenue and Abbott street.

* * *

It should be borne in mind by all desiring to have their names placed upon the voter's list for the city for 1916 that Saturday is the last day on which householders and licence holders can register. No matter if you were on the list last year, you must register again.

* * *

The sad news has come to hand of the death of Mr. Conway Jackson, a well known Kelowna resident, whilst fighting in France. The report to hand describes him as falling whilst at the head of his regiment, in a battle about the 27th of September. Mr. Jackson has a large circle of friends in town and at Peachland who will mourn their loss.

* * *

Lee Bon who has been managing the business of Lee Sang Lung & Co. general merchants, Leon avenue is leaving Saturday on an extended visit to China. During his absence the business will be in charge of Lee Kam. Lee Bon will be accompanied by his son Tom Lee. They expect to spend the winter in China and return to Kelowna next spring.

* * *

There was a crowd of soldiers on Monday morning's boat bound for Vernon, and many farewells were said on the Kelowna wharf. It was reported that probably the 47th and 54th battalions would leave Vernon either this week or next week, and a bunch of old Kelowna boys come up on leave for the week end. Included amongst these were Corp. A. J. Clarke, Lance Corp. Wm. Shugg and P. Holes, and Private Snashall, who left Monday whilst a number had furlough for a longer period.

OKANAGAN AMBULANCE LEAGUE

Will those ladies who have taken home suits of pyjamas to make for the above kindly return them, not later than Tuesday next, as we wish to send off all the suits that are now in the making by that date. The rooms will be open on Saturday afternoon from 2.30 to 5 o'clock until further notice, as well as on Tuesday.

The Woollen Industry

Under the present conditions, it is practically impossible for the woollen and worsted industry to have the development that is its due, says a recent issue of the Textile Journal. It is a valuable adjunct to a country such as Canada, which is recognized to be so adapted to mixed farming by providing a home market for a valuable product of the farm and investors claim that the quality of our domestic wool is second to none. The sheep raising industry in Canada has gone down with the woollen industry and it is safe to say that there will be no great revival until a home market is provided. The industry is one that pays good wages and gives employment to a sturdy and industrious class of people. It can be carried on to advantage in small towns which require some sort of industrial life to add to their stability and many of the mills that are at present in operation provide the only source of employment in dozens of small communities throughout the country. In other countries it has been looked on as a necessity, clothing being one of the prime necessities of life, and invariably has had to be protected. In Germany, France and the United States it has been developed and in none of these countries do the people have to pay more for their clothing than in Canada, when all conditions are taken into consideration. It is erroneous to think that low tariff means cheap clothing for the actual working out of the principle has not verified the claim

The woollen and worsted industry is not in need of an enormously high tariff. There are some of the schedules that are now satisfactory and this very fact substantiates the claim that a readjustment is necessary. We are convinced that if those who are now working against this readjustment would look into the matter without prejudice, little opposition would be forthcoming and an industry that has deteriorated while every other industry in the country was being rapidly developed would be given sufficient protection so as to take its proper place in the industrial life of the country.

A Simple Fence Post Puller

Pulling posts is a very hard task if done by hand methods. Here is a device whereby two men and a team of horses can pull posts easily, economically and also with the expenditure of practically no hand labor. A good chain is hitched to the bottom of the post. A two by six or other suitable heavy stick, about four feet long, is placed in a slanting position and the horses set to work. The post usually comes out easily. If the ground is hard a two by twelve block on the ground will not be needed. In soft ground this block prevents the slanting member from being forced into the ground. If you have never pulled posts in this way, try it once. The efficiency will surprise you.

SAFETY FIRST

The prevention of accidents and injuries by every means possible is a personal duty which every man owes not only to himself, but also to his fellowman. Safety should be your first thought. Accidents to yourself or another are usually somebody's fault; don't let them be your fault. Finding the danger points about your job first is the safest way; then report your findings to the proper authority. Every time you prevent an accident to yourself or to another, you become somebody's benefactor. Time lost through an accident is waste, if the accident could have been prevented. Your duty to yourself, your home and society is to help prevent that waste by being careful.

"Venus de Milo" is in the Louvre's vaults for fear of airship bombs." Naturally being unarmed.—Wall Street.

The German government has lifted its interdiction on correspondence with prisoners of war detained in the occupied portions of Belgium and France, which previously it had resolutely refused to do. Letters and parcels may now be sent to these prisoners, in the same manner as is permitted in the cases of Germans held in internment camps in France.

Robert Fay, Lieutenant in the German army, confessed at New York that he came to America for the express purpose of blowing up vessels bound for Europe with munitions for the allies. Fay declared his passage to the United States was arranged by the German secret service and that he reached America on April 1, without experiencing the slightest difficulty. He is under arrest.

Distribution of Seed Grain and Potatoes

By instructions of the Hon. Minister of Agriculture a free distribution of superior sorts of grain and potatoes will be made during the coming winter and spring to Canadian farmers. The samples will consist of spring wheat (about 5 lbs.), white oats, (about 4 lbs.), barley (about 5 lbs.), and field peas (about 5 lbs.) These will be sent out from Ottawa.

A distribution of potatoes (in 3 lbs. samples) will be carried on from several of the Experimental Farms, the Central Farm at Ottawa supplying only the provinces of Ontario and Quebec.

Each application must be separate and must be signed by the applicant. Only one sample of grain and one of potatoes can be sent to each farm. If both samples are asked for in the same letter only one will be sent. Applications on any kind of printed form cannot be accepted.

The destruction by fire of the cereal building at Ottawa, which contained grain-cleaning machinery and a large stock of seed grain for distribution, may make it necessary to curtail the distribution to a certain extent. We shall fill as many as possible of the applications which conform to the rules; but requests received after the end of December will probably be too late. Samples cannot be sent in response to applications (no matter when received) which fail to state clearly the needs of the applicant, his experiences in crop-raising, and the character of the soil on which he intends to sow the seed.

All applications for grain (and applications from the provinces of Quebec and Ontario for potatoes) should be addressed to the Dominion Cerealist, Central Experimental Farm, Ottawa. Such applications require no postage. If otherwise addressed, delay and disappointment may occur.

Applications for potatoes from farmers in any other province should be addressed (postage prepaid) to the superintendent of the nearest branch experimental farm in that province.

J. H. GRISDALE,
Director, Dominion Experimental Farms.

The Food Value of Milk

The fact that milk is one of the cheapest and at the same time one of the most palatable and digestible foods is not generally known. This is shown by the decrease in the consumption of milk in times of money stringencies. When a family is forced to economize on its allowance for food, the milk bill is about the first to suffer. The amount purchased is reduced from a quart to a pint or discontinued altogether. A knowledge of this dairy product as compared with various other articles of food would cause some people to find some other source of cheapening the cost of living.

PROFITS IN ROAD DRAGGING

Good roads save money, because:
They cheapen transportation to the markets.
They reduce the drain upon capital invested in horses.
They prevent wast af time, and "time is money."
They add to the joy of living, and joy adds to the effectiveness of life.
Good roads may be had by dragging so use the drag.

There are now 1500 undergraduates of the university of Toronto serving with the colors.

Women farm laborers, mail carriers, porters, conductors, chauffeurs and munition factory workers customarily garbed in regulation trousers, are setting a style which suffragettes through out England are advocating for universal adoption.

A Stockholm newspaper, on the authority of a business man, who has just returned from Germany, says that a great explosion occurred in an ammunition factory at Wittenburg, Prussia, on August 23. Two hundred and forty-two workmen were killed and many injured.

A proclamation by the Kaiser, declaring Bulgaria is to be mistress of the Balkans, reigning southward to the Aegean Sea and from the Black Sea to the Adriatic, has been received by the Bulgarian troops, according to press despatches.

Pope Benedict has received from King Albert of Belgium a reply to an autograph letter from the Pope urging the King to initiate steps looking to the conclusion of peace. King Albert replied in the negative. "I shall never lay down the sword while Belgium is in slavery," was the concluding sentence of Albert's reply.

American Tourists in Canada

The annual report of the Canadian Pacific Railway Company proves that Canada has received, during the past twelve months unprecedented attention from American tourists. Part of this traffic came to Canada, no doubt because of the uncertainty or impossibility of European travel at present and part was due to the desire of those bound for the Panama-Pacific exposition at San Fraacisco to enjoy as lengthy and as attractive a trip as possible.

A trip through the Canadian West is an education for foreign tourists, as it is an inspiration for Canadians. Canada contains in the unrivalled scenery of the Rockies an asset capable of catching the interest and the imagination of all who see it, while a trip through the grain belt is an enlightened experience as well. It, as is estimated, fifty thousand Americans visitors have enjoyed this experience during the past year, Canada has a new and powerful advertising force at work today in the United States.

All this means a step forward in the country's growth and strength. The American people, being largely of Anglo-Saxon stock are welcome settlers in Canada. Since the war began, they have been paying unusual attention to this nation because of her participation in the conflict, and the example given by the sturdy Canadians on the battlefield is constantly held up to the Americans by such men as Theodore Roosevelt. The kind of Americans Canada is attracting as settlers now is the kind Canada wants most.

Advertising has done much for this country, but Canada's resources and possibilities have never been over-advertised. It is satisfactory to know that, even while the nation is at war, her growth in population and wealth is keeping up in a satisfactory manner. The American tourist traffic is one of the most attractive in the world, and if Canada can retain it in succeeding years, the country will benefit materially as a result.

How "Puffed Potatoes" Are Made

Puffed potatoes baffle the ordinary cook, but they are so pleasant a variation of the day-by-day article of diet that specific directions may be welcomed by readers. A well-known chef gives the following instructions:

To begin with, Dutch potatoes are preferable, although ordinary Irish potatoes will serve. For success, three things are essential: First, the potatoes must be cut across in even slices about an eight of an inch thick, with one straight cut made by a very sharp knife, so that the surface is absolutely smooth. They should then be washed well and dried on a cloth. Second, the slices should then be thrown one by one into clean, moderately hot fat, which should be heated gradually until the potatoes are cooked—which may be seen when the slices rise to the surface. Third, the potatoes should then be withdrawn from the fat, with the aid of a skimmer, and placed in a frying basket.

The fat should now be heated to the smoking degree; that is, until a light blue fume rises from it, and the potatoes plunged into it until crisp and of a nice color. The immersion into the hotter fat puffs the potatoes. Now drain on cloth and salt.

The phenomenon is explained in this way. When the potatoes are put into the moderately hot fat, a light outer crust is formed which encloses sufficient water to create steam, and this steam expands when the potatoes are plunged into the hotter fat. The crust previously formed prevents the escape of the steam and thus causes the puffing.

When the potatoes split open, declared the chef, it is due to the slices being too thick, or because they were fried at first in fat not sufficiently hot.

"POUND DISTRICT ACT"

Whereas under the provisions of this Act application has been made to the Lieutenant-Governor in council to constitute the following portion of township 26 of Osoyoos Division of Yale District; viz.

The west ½ of section 11, section 10 east ½ of section 9, east ½ of section 16, that part of section 15 lying south of Mission Creek and that part of section 14 lying west of Mission Creek a Pound District.

Notice is hereby given that, thirty days after the publication of this notice, the Lieutenant-Governor in Council will proceed to comply with the application, unless within the said time objection is made by eight proprietors within such proposed pound district, in Form "A" of the schedule of the said act, to the undersigned.

Private Personal Christmas Greeting Cards

THE Christmas season is again approaching—the time for reviving old memories and greeting absent friends. No more beautiful custom ever grew up than that of the interchange of the Christmas Greeting Card. Friendships of other days which would be altogether lost and forgotten in the change and hurry of modern life are kept green and fresh by this means.

This year in particular, when so many people have left, some to fight for their country in distant lands, and others to take up life in new districts, the need of these reminders will be much felt.

We Have Some Beautiful Samples to Show You

to meet the needs of everyone. Call in the office and see them.

Kelowna Record

The Prevention of Fire in Fall and Winter

The following is the substance of a timely bulletin on fire prevention which is being circulated by the provincial department of insurance.

Ashes placed against wood or in wooden boxes or barrels, defective, chimneys, fireplaces, stoves, furnaces, or pipes figure prominently in the list of causes of fall and winter fires.

Such fires are, in the majority of cases, caused in reality by some one's carelessness. Furnaces and stoves are put into use without inspection or without proper protection. No provision is made for ashes or for the removal of rubbish in which sparks may alight and cause fires.

Ashes should not be placed against wooden walls or in wooden receptacles—metal receptacles should be clear of all wood.

Before the cold weather sets in see that chimneys, fireplaces, stoves, furnaces, and pipes are in good order, and that the latter are properly supported. See that floors, walls, and ceilings are properly protected so that overheating of stoves or pipes cannot start a fire. A sound stove properly placed and protected cannot burn a house by being overheated.

Boxes, crates, cartons, and paper are sometimes allowed to accumulate in basements of dwellings. The furnace is started in a hurry without cleaning up. Cleaning up should be done in good time, before the furnace is started, so that sparks from the furnace or hot cinderd accidentally dropped may not start a fire. All such inflamable material assists fire to spread rapidly.

Do not hang paper of clothes on the wall behind the stove pipe. See that clothing which is being dried is so placed that it cannot be ignited. Fires caused by papers, clothes, or firewood left too near stoves are frequent.

Do not dry wood in the stove. Keep the wood-box where sparks cannot fall into it.

The fire loss in our municipalities during last winter from causes above referred to was about one-fifth of total loss reported.

Destruction of the German cruiser Prince Adelbert by a British submarine in the Baltic was officially admitted today. The statement stated that a small part of the crew was rescued. Two torpedos accomplished the destruction of the German vessel.

Striking indications of the progress of recruiting in Canada is contained in official enlistment figures for the last four weeks. The figures show that in nine military divisions 22,368 men volunteered for service during the month ended September 22. Western Canada, Alberta and Saskatchewan, continues to be the most fruitful portion of the Dominion for volunteers.

The British Colonial Office announces that an attempt was made on September 23rd to assassinate General Christian Smuts, minister of defence of the South African Union. The attempt was made in the course of a meeting addressed by General Smuts. A mob of 2,000 hoodlums attacked the meeting and shots were fired at the minister of defence. General Smuts escaped in an automobile.

Mr. Horatio B. Bottomley, ex-British Liberal member of parliament, while speaking at Hackney Saturday night said that he had discussed the new recruiting scheme with the Earl of Derby, who told him that his experience already had convinced him that the voluntary system would be saved. The Earl of Derby added, according to the speaker, this was something to be proud of and that he confidently anticipated that by the end of November he would have sufficient recruits to meet all requirements.

The Canadian soldier gets $1.10 a day, the British 28 cents, the Germans five cents and the French two cents.

A very decided campaign in favor of more air raids on England is being carried on in the German press. The leading Berlin journals urge the government to turn all attention possible to attacks on the British people in their homes, and declare that nothing less than the destruction of London will satisfy Germany. The leaders of this propaganda call upon the government to send the entire fleet of Zeppelins to the heart of England to create havoc and ruin that cannot soon be forgotten.

Wife.—"The heavy explosions of a battle always cause rain. It rained after Waterloo. It rained after Fontenoy. It rained after Marathon."

Husband.—"But Marathon was fought with spears and arrows, my dear."

Wife:—"There you go again! Always throwing cold water on everything I have to say."

ITALY

is, of course, the natural place of production for

Macaroni, Vermicelli, Spaghetti, &c.,

but with Europe at war, all the manufacturing plants preparing food and munitions for the soldiers, and the commerce of the seas disturbed, the question of getting goods imported is more or less of an impossibility.

Ever since these conditions have existed we have been casting around to find some place where these goods could be procured that would correspond in quality to the imported article, *and we have found it.*

Skinner's is the best domestic article on the market.

Skinner's is made under absolutely clean conditions.

Skinner's devote all their energies to making a success of this one line.

We recommend Skinner's to all particular buyers.

Skinner's Macaroni, Skinner's Vermicelli, Skinner's Cut Macaroni, Skinner's Spaghetti, Skinner's Soup Rings, Skinner's Soup Noodles.

All put up in one pound packets; all clean, sanitary and wholesome.

All sell at the one price which is **15 cents** per 1-lb. pkg.
