Kelowna Orchard Record

VOL. VI. NO. 19. KELOWNA, BRITISH COLUMBIA, THURSDAY, APRIL 2, 1914. $1.50 Per Annum.

LEGISLATIVE LIBRARY APR 1914 VICTORIA

City Assessment Complete for Year

INCREASE OF NEARLY $85,000.00 OVER 1913 VALUATION

According to the report of the city assessor which was read before the council at last Friday morning's meeting, the total value of all property in the city is $1,714,120.00 of which $3,089,275.00 is on lands, and $1,624,745.00 on improvements. This, however is not all taxable for lands assessed at $360,150.00 and improvements at $255,100 are exempt from taxation under Provincial statutes and city by-laws, this leaving a valuation of $2,729,250.00 for lands and $1,369,645.00 for improvements subject to taxation.

The increase over the 1913 valuation of taxable property is $84,940.00 consisting of $94,295.00 on improvements, less $9,355.00 which is a decrease on land, due to the fact that the property which the Dominion government held as post office site is exempted.

The increase on exempted improvements is $50,800.00 and on exempted land $12,000.00

Over 500 changes have been recorded on the new roll.

The assessed value of property outside the municipality, but within the Kelowna school district is $260,025.00 being a decrease of $425 on the 1913 valuation, this being due to the opening of a road through the Guisachan property.

The report was signed by Mr. P. T. Dunn, the city assessor.

Several letters were read from different financial firms seeking information and statistics, and particulars of bond sales and prospective issues. The enquiries of this nature have considerably increased lately, which is regarded as a very hopeful sign.

Mr. A. Welsh asked permission to place a post with a sign attached at the intersection of Pendozi street and the lane south of Mr. G. F. James' building. This was referred to the Board of Works.

A resolution was passed approving of the action of the Public Works committee in ordering an additional 600 gallon street sprinkler at a cost of $385.00.

The Water and Light Committee were authorized to purchase a car of wood pipe with the necessary valves, tees, etc., and also to arrange for a deeper intake for the water system.

EXTENSIONS NECESSARY TO POWER PLANT

Discussion then turned to the city's electric light plant, and the need of additions to the power plant. Mayor Jones reported having received a visit from Mr. DuCane, of the engineers who had prepared the plans of the Mission Creek Hydro-electric scheme for the Belgo Canadian Co. Mr. DuCane had promised to prepare further data on the scheme for the council's information. In view of the fact that no reliable information in reference to the Couteau Power Co.'s scheme was available, his worship thought that the council should ascertain what additional equipment will be required at the power house.

Alderman Sutherland read a report from Messrs Mather, Yuill & Co., in reference to power house equipment. He said the report arose out of the matter of the proposed new system of street lighting. Mr. Yuill had come to Kelowna to make a report on the street lighting and had suggested that a special map of the city be made for that purpose. Arrangements were made with one of the city engineers to prepare this map, and in the meantime, Mr. Yuill had been requested to go into the matter of power house equipment.

ENGINEER'S REPORT

The following is the report which they submitted:

His Worship the Mayor,
Kelowna, B. C.

Dear Sir.—Complying with your verbal request for information regarding the possibility of increasing the equipment at the Electric power house station, we have the honor to report as follows:

The present plant was carrying an overload of thirty five per cent at heavy demand periods last winter. This will eventually result in impairment of the efficiency of the machinery if practiced regularly. Provision therefore should be made to relieve the situation before next winter.

As you now have some reserve boiler power, a steam driven unit might be installed in the vacant space in the engine room. As there is no available space in the building suitable for the required feed of water heater and condensed, we would suggest an addition to the west side of the engine room of about 16 x 25 ft. which might also contain a work bench and shop, the space in the boiler room formerly used for this purpose being now almost completely occupied by the boilers.

The exhaust piping of the present 75 horsepower engine might be so arranged as to discharge alternatively into this condenser if desired.

The size of the suggested extension to the building is such that a corresponding addition to the boiler room would accommodate two more boilers when required.

The cost of a 100 horsepower steam engine, generator, exciter, switchboard panel, condenser, feed water heater and extension to building, all installed and in operation would be approximately ten thousand, four hundred dollars, ($10,400).

The cost of a 150 horsepower ditto would be approximately eleven thousand, five hundred dollars ($11,500).

The cost of a 300 horsepower ditto ($16,000).

The maximum load last winter was 295 horsepower, a natural increase of 30 horsepower is expected this year and an additional 25 horsepower of street lighting is contemplated, making the total probable load for the coming winter 350 horsepower.

The rated capacity of the present equipment is 225 horsepower leaving 125 horsepower to be provided for. The addition of a 100 horsepower engine would render the plant capable of taking care of this demand but with already nearly a ten per cent overload. The engines are, of course guaranteed to carry twenty-five per cent overload for two hours but it would not be policy to purchase a plant that would be overloaded as soon as installed.

The installation of a 150 horsepower engine would leave a margin of 25 horsepower the coming winter. As-

Proposed Paving of Main Streets

MEETING OF PROPERTY OWNERS CALLED FOR TOMORROW

Discussion has been going on for some time amongst the members of the council as to the advisability of improving the condition of Bernard avenue and Pendozi street, or at least those portions lying in the strictly business section, by the laying of some kind of permanent pavement, and reports have been obtained from various local engineers on several alternative schemes. Asphalt, macadam and concrete have all been discussed, the question being of course largely one of cost. It has been suggested that the work be done under the local improvement plan, the council bearing a part of the expense and the owners of property fronting on to the sections in question the rest, distributed in the usual way over a term of years, and levied as an annual tax. For the purpose of discussing the scheme with those vitally concerned the council has issued the following circular:

"Being desirous of learning the wishes of owners of property affected by the proposed works, the Public Works Committee of the Municipal Council has called a public meeting for the purpose of discussing the laying of permanent pavements, as works of local improvement, on Bernard avenue from Abbot street to Ellis street, and on Pendozi street from Bernard avenue to Eli Avenue.

"You are earnestly requested to attend this meeting, which will be held in the Board of Trade rooms on Friday, April 3rd at 8 p.m.

Geo. McKay, who was at one time in the employ of the city as night constable was brought before Magistrate Weddell at the City Police Court on Wednesday on a charge of stealing a gold watch and chain, the property of Jas. Murray, who resides on the Vernon Road. As there are other charges of theft against him McKay was remanded until tomorrow (Friday).

ULSTER VOLUNTEERS IN CAMP PREPARING TO RESIST HOME RULE

This picture shows some of the army of volunteers, organized under the leadership of Sir Edward Carson, holding manoeuvres. It is feared that if the Home Rule Bill is passed by Parliament that a revolution will break out in Ireland. The leaders of the anti Home Rule organization state that they will not accept home rule in Ireland and that they are prepared to fight to the last man. "War" in Ulster is thought by many to be a matter of days only; rumors and movements of military bodies and leaders mixed up in the controversy seeming to indicate that the climax is at hand.

Bank of Commerce In New Premises

HANDSOME NEW MAIN STREET BLOCK COMPLETED

After some little delay, caused by the non-arrival of some of the doors from the east, the new premises of the Canadian Bank of Commerce are ready for occupation and today the staff and their helpers are busy moving in.

The building is a handsome one, of neat and dignified design. The facade is of red "Menonimini" brick from Wisconsin, with a fine porch and other embellishments of Winnipeg Tyndall stone. The building is 36 by 40 feet and comprises two storeys with full basement. On both sides of the main entrance are placed electric flambeaux, with white globes, which present a very effective appearance at night. The doors and all interior woodword are of selected, polished oak, ornamented with brass, the effect being rich and massive.

To the right of the entrance is the manager's room with handsome open fireplace and oak mantel. In the public room the counters and desks are of oak, the teller's cage, which faces the entrance being of brass. The walls are finished in an artistic shade of brown with a dado of burlap and oak moulding, and the floors are covered with heavy linoleum. Altogether the impression conveyed is that no expense has been spared to make an attractive interior. To the rear is a large concrete vault built as an addition to the main building, and lined with steel throughout.

To the left of the entrance is the stairway to the upper floor, which is fitted up as chambers for the staff. There are four bedrooms with large sitting room, all handsomely furnished in fumed oak, bathroom and toilet and linen cupboard.

In the basement is a large boiler which supplies heat to the whole building, and hot water for the bath. On each floor is 50 feet of 2-inch hose with nozzles, connected with a stand pipe from the city main, affording ready protection in case of fire.

Mr. A. D. McLean, building superintendent for the Bank has had charge of the building throughout, the various branches of the work having been sub-let to local contractors. The excavation and concrete foundation was put in by H. Witter; the brickwork and masonry by A. G. McGregor; the metal work, cornices, etc., by the Morrison-Thompson Co.; plastering by W. Logan, Vancouver,; painting and decorating by Edwards & Finch; heating and plumbing by J. A. Morrison & Co.; the electric wiring by F. V. Moffat.

United Service of Local Sunday Schools

LARGE GATHERING OF CHILDREN IN PRESBYTERIAN CHURCH

For the first time in the history of Sunday schools in Kelowna a United service was held in the Presbyterian church on Sunday afternoon. The three schools, Presbyterian, Methodist and Baptist met as usual at their respective places of worship, and after the usual routine work had been attended to marched in classes to the place of meeting. The church was filled to its utmost capacity with the scholars of all ages and grades. The children occupied the centre and the older ones the outer pews. It was an inspiring sight that met one's gaze as the whole congregation stood up to sing children's hymns.

Mr. Ball, superintendent of the Presbyterian Sunday school presided, and in the course of a few remarks hoped that would be the beginning of many such gatherings. Others on the platform were Revs. A. Dunn, J. C. Switzer and D. J. Welsh, and Messrs. S. J. Curts, J. A. Bigger and H. C. Jenkins. Mr. Geo. S. McKenzie led the singing, and under his guidance the children sang heartily hymns that they knew well.

After the children had recited the Twenty-third Psalm the Rev. D. J. Welsh read the story of Jesus in the temple when he was a boy. The Rev. J. C. Switzer then gave a short address illustrating his remarks with a pistol from which he drew such lessons as (1) have an aim in life, (2) aim straight and (3) keep the body in good condition. The Rev. A. Dunn also spoke a few words, emphasizing the remarks of the last speaker.

Mr. McKenzie and Miss Duthie sang solos during the afternoon and a collection amounting to $20.70 was taken on behalf of the hospital.

WILL PHOTOGRAPH BACK YARDS

Having become weary with urging negligent property owners to clean up their premises, the board of health of Millville, N. Y., has employed an official photographer and instructed him to make views of the lots having rubbish and garbage piles, and will use cuts with the names of the owners in newspapers until the nuisances are abated.

The board has decided to pay particular attention to old tin cans which fill with water and breed mosquitoes in the warm weather, and intends to preserve the reputation of Millville for being the cleanest municipality in the section.

Rutland News

(From our own Correspondent.)

The baseballers of Rutland and Benvoulin Schools have decided to combine in forming the Black Mountain baseball club and intend making a strenuous effort to lift the Trench trophy. The following officers have been appointed:

President.—Fred Plowman.
Secretary.—Wilfrid Pearce.
Committee. — Wm. Plowman, El. Fleming, Sid Berard and J. P Pfeffer.
Captain.—Cliff Scott.

They are scheduled to play Ellison on Saturday at the Rutland school grounds.

The election of officers of the Methodist Epworth League was held on Monday evening and resulted in the following:

President.—Miss Annie Gay.
Secretary.—Miss Joy Fleming.
Vice Presidents.—Rev. W. Vance, devotional dept.; Miss Ruby Hunter, missionary dept.; Miss Ida Fleming literary dept.; Arthur W. Gray, citizenship dept.

Mr. J. Mack has been appointed care taker of the new school.

Mr. W. Mugford and family have taken up their residence at their orchard, recently purchased from Mr. C. H. Leathley.

Items from Ellison

Mrs. S. Thompson and family of Los Angeles are visiting Mr. and Mrs. T. Bulman at their Kelowna residence.

Rev. P. S. Vernier preached at Glenmore last Sunday.

Mrs. J. and Sid Barron are in partnership with Mr. J. Guest (Windermere) this summer.

Mrs. McKillican is a guest at Windermere this week.

Last Sunday was "Livingstone Day" at the Whelan Methodist school and the somewhat novel program was very successful. A paper was given by Miss Marjory Bulman on "Livingstone, the Pathfinder", upon which a great deal of time and thought must have been expended to condense so many facts into such a short space. Miss Mary Hay read a paper on "Dr. Livingstone' in which the sterling character of the great explorer was emphasized and proved an inspiration to all who heard it. Livingstone's devoted wife was the subject of a reading by Miss Wilhelmina Homuth, Mary Livingstone being in her way as heroic as her husband.

Miss Fleming, Miss Dilworth, and Mrs. Vance accompanied by Mr. Vance on the guitar rendered beautifully, "Speed Away". The closing hymn was "Blest be the tie that binds."

FRUIT INSPECTOR TO GIVE GRAFTING DEMONSTRATIONS

Mr. R. H. Helmer, assistant fruit inspector is making arrangements to give demonstrations on the grafting of fruit trees at Rutland on the afternoon of Thursday, April 9th and on the K.L.O. Bench on the morning of Good Friday, April 10th. Owing to the fact that notice has only just been received of these meetings, we are unable to announce the exact orchards in which the demonstrations will take place, but notices will be posted by the secretary of the Farmers' Institute.

Mrs. Capt. Knight and Miss Knight will be at home on Monday afternoon and evening in honor of Mrs. W. T. Ashbridge of Toronto and Miss Baker of Penticton.

Mrs. K. F. Oxley arrived home this afternoon from the coast where she has been spending the past month.

Cambridge won the annual varsity boat race from Putney to Mortlake on Saturday by four and a half lengths, the official time for the race being 20 minutes and 23 seconds. The weather was ideal which caused an immense number of spectators to gather on either bank of the Thames and also on the bridges.

Popular Concert By Dramatic Society

HIGHLY SUCCESSFUL EVENING'S ENTERTAINMENT

The Kelowna Musical and Dramatic Society treated their patrons to a most enjoyable evening's entertainment on Thursday last. The Opera House was well filled with ladies and gentlemen who listened to a program replete with interesting items, every one of which met with a hearty reception. It was indeed a musical treat. Mrs. A. L. Soames and Miss Alison Hogarth were unavoidably absent, but Miss Frances A. Pearson stepped in to the breach and proved a splendid substitute for the first named lady. The orchestra, under the leadership of Mr. Drury Pryce rendered three pieces, of which two were overtures, these being from "Poet and Peasant" (Suppe) and Handel's famous "Occasional," both of which received good interpretations at their hands. The other items, two Hungarian dances by Brahms was also so much appreciated, the quaint and somewhat difficult music being well rendered.

The solos by Messrs Fred. Pedlar, Frank Arundel and H. Burley were well received. Mr. Arundel was heard to great advantage in the Prologue to "Pagliacci" (Leoncavallo) and "Drake goes West," for the latter of which he had to respond twice, his encore "Thy so Pale Lover?" being demanded a second time. Mr. Burley was also enthusiastically encored. Miss Pearson gave an acceptable rendering of "I have no Crown to give Thee" with violin accompaniment and for an encore sang a pretty lullaby. Mr. Drury Pryce's violin solos as usual were received with great delight by the audience and his clever performances of Papinis "Saltarella" Walther's Preislied," from the Meistersinger were accorded enthusiastic encores. Messrs. Pryce, Meyrick, Lupton and Quinn, played four movements from Spohr's Quartette in G. Minor. But the piece that caught on most was a delightful minuet for strings alone, which was given by special request by the orchestra. An encore was demanded and a part of the piece was re-played.

Mrs. Armstrong's contribution to the program was a humorous reading, "Taking an elevator" which was given with such dramatic force as to invite an encore. In response to this Mrs. Armstrong recited "Two sides to a question".

Mrs. Thayer and Mr. H. Tod Boyd were the accompanists and Mr. Drury Pryce acted as leader and conductor.

Below is the program:

PART I

Overture "Poet and Peasant" ..Suppe
ORCHESTRA
Song. "I'll sing thee songs of Araby" Fredk. Clay.
MR. F. PEDLAR
Violin Solo "Saltarella" ... ... Papini
MR. DRURY PRYCE
Song. Prologue to "Pagliacci" Leoncavallo
MR. FRANK ARUNDEL
Two movements from Quartette in 'G' minor ....: Spohr
Messrs. PRYCE, MEYRICK, LUPTON and QUINN
Song, "I have no crown to give thee"
MISS FRANCES A. PEARSON
L. R. A. M.
Two Hungarian Dances ..... Brahms
ORCHESTRA

PART II

Violin Solo. "Walther's Preistied," "Meistersinger" ... Wagner-Wilhelmj
MR. DRURY PRYCE
Song, "The Blacksmith" ...D. D. Slater
MR. H. BURLEY
Minuet for Strings Alone ... Boccherini
ORCHESTRA
Reading "Taking an Elevator" Anon
MRS. FRED ARMSTRONG
Two last movements from Quartette in 'G' minor .... Spohr
Messrs. PRYCE, MEYRICK, LUPTON and QUINN.
Song "Drake goes West" W. Sanderson
MR. FRANK ARUNDEL
Overture "Occasional" .... Handel
ORCHESTRA

The annual meeting of the Kelowna Growers Exchange is in session today.

The Good Templars spent a pleasant time on Tuesday listening to a paper on Tennyson, by Mr. Blenkarn. The local lodge is going ahead and the membership is now 88.

City Assessment Complete for Year

(Continued from Page 1.)

suming again an increase of ten per cent for the year, the demand in the winter of 1915 would be about 385 horsepower or 10 horsepower more than the rated capacity of the plant as it would be with the addition of the 150 horsepower engine. In 1916, at the same rate of increase, (which is very conservative), the load would be 425 horsepower or nearly 15 per cent overload.

If it be the intention of the council to continue the use of steam power until such time as water power is available, (even though it be several years) we would recommend the installation of a 300 horsepower engine if it can be put in the space available. In the event of the space being too limited for the above, we suggest the largest that may be conveniently installed. The boilers might be added as required. In addition to giving a higher operating efficiency this would give a reserve capacity for a few years. If, however, it be the intention of the council, at a later date, to change to Diesel Oil Engines we would suggest that the investment in steam plant be kept as low as possible. As the investment for an oil engine plant would be large it would probably be wiser to continue the use of steam in the event of reasonably cheap coal being obtained from the Okanagan Lake mines. This is however, a very large question which we cannot answer without considerable study.

Trusting that the above contains the information you desire,

We have the honor to be
Your obedient servants
MATHER, YUILL & Co. LTD.

Alderman Sutherland said that a number of things would have to be taken into consideration in reference to this report. He pointed out that excepting a hydro electric plant the Diesel oil engine was the cheapest method of generating power. The approximate cost of a 375 horsepower Diesel oil engine and equipment would be $45.000 and a building for same $10,000. In the event of a breakdown in the equipment the city would be without light as the present steam plant would not carry the load. He thought it might be advisable to purchase another steam unit and then in the event of the city purchasing the Diesel equipment, or making arrangements to purchase power from some other concern the steam plant would be able to take care of the load should an accident cut off the main source of supply.

In reference to the term of debentures, he thought for a Diesel equipment they should be ten years. The yearly interest and sinking fund for such would be about a 14 per cent., basis. On a $50,000 proposition the interest and sinking fund would amount to $7,125.00 a year, whereas the yearly charges for a steam equipment would be only a quarter of that, amount. The point that he particularly wished to make was that nothing would be lost by delaying the installation of either a Diesel or hydro electric plant.

It was left for the Light and Water committee to gather further information on the matter.

CORRESPONDENCE

Editor Kelowna Record.
Kelowna, B. C.

Dear Sir,—The fruit growers of the Okanagan Valley have shown a great increase of interest, in making remunerative, unsuitable varieties of trees, by working them over to the best commercial kinds. Enquiries and requests to the Horticultutural Branch of the Department of Agriculture have been far more numerous than in any previous year.

While top-working fruit trees, especially apples, is often justifiable by the increased returns after the new top is well established, there are certain conditions under which it is not advisable. I refer particularly to the op-working of black-hearted trees, or hose which have been badly affected by fire blight.... The wood of a black-hearted tree is brittle and much of it is dead; decay starts very readily in the cuts made for grafting and the scions either fail to grow, or if they grow, make a poor union and eventually break off.

The appearance of a tree severely cut ack in the effort to control an attack of blight naturally suggests top-working to a blight resistant kind. If blight were quiescent or absent from the district, top-working might be feasible, but when blight is active, the inevitable crop of water sprouts furnish the best possible conditions for blight, and effort to save the blighted stock on which to build a new tree is likely to meet entirely with failure.

Aside from blight or black-hearted trees, there is a large number of the sound, healthy, vigorous trees, of non-remunerative or non-productive varieties; these may be grafted over to the better commercial kinds; in fact, it is highly desired that they should be so treated.

The Department of Agriculture has ecured a competent instructor, Mr. R. H. Helmer, late of the Balcomo Ranch Summerland, to give a series of top-working demonstrations, under the auspices of the local Farmers' Institutes, at the following places:

Summerland, April 6th at 2.30 p.m.
Naramata, April 7th at 2.30 p.m.
Penticton, April 8th at 2.30 p.m.
Rutland, April 9th at 2.30 p.m.
K.L.O. Bench, Apr. 10th at 10 a.m.

Yours very truly,
R. M. WINSLOW.
Horticulturist

In the little country of Denmark are 230 pulp and paper mills. In Canada, according to the latest available statistics of the Dominion Forestry Branch, there are only 48 pulp mills in actual operation. The Canadian mills are, however, many times larger than those in Denmark.

Railway Commissioners to control Bond Issues

Control by the railway board of stock and bond issues of Canadian railways, adequate protection of the rights of municipalities with respect to highways, level crossings, etc., extension of jurisdiction over the placing of poles or wires in streets of cities, are prominent features of the revised and consolidated railway act, details of which were announced last week by the government.

The present reconstruction of the railway act is the first since 1906, and in the intervening period there have been twelve amending acts, which are now consolidated with the act of 1906 and contain other changes made.

The growth of the act has consisted, not only in more complete regulations of the railway act itself, and in provisions for regulation by the railway commission, but also in the application of the act to a number of questions other than railway matters, including express business, telegraph, telephone, power and electricity, and traffic by water between ports in Canada when carried by railway steamship companies.

A clause is added to the act to prevent evasion of the board's control over traffic rates, etc., where companies acquire control of and operate the railways standing nominally in the names of other companies. Provision is made for applying the act and the authority of the railway board to railways in insolvency or under mortgage or receivership. Formerly there was considerable difficulty over this question. The new act gives the board power to submit questions of jurisdiction to the supreme court, with a view to more speedy determination and to avoid expense to litigants. Provision is also made to more quickly deal with appeals generally.

One of the most important clauses is that relating to stock and bond issues It is provided in the bill that hereafter the issue of stocks, bonds and other securities by railway companies shall be subject to control. Leave must be obtained from the board before any issue of stock, bonds or other security payable more than a year after date of issue, otherwise than solely for the money consideration, can be made.

The board is given power to impose terms and conditions respecting6 such issue, and may refuse leave, or may limit the amount to what it is satisfied is reasonable and proper. The board is also given power to see that the proceeds of any such issue are properly applied and duly accounted for.

LORD STRATHCONA'S DIRECTORS' FEES

Lord Strathcona has always boasted that he never cashed in a cent from the C.P.R., in the shape of directors' fees. After his death a number of cheques, amounting to around $50,000 and covering his thirty-two years' directorship, were found among his private papers. They represented the usual payments to him as director, and had not been cashed. As the cheques were received by Lord Strathcona they were filed away without endorsement. The executors have now notified the company, that these cheques, drawn upon it, are held by the estate, and a formal claim has been filed.

Lord Strathcona was a director of the C.P.R., from its inception in 1881 to his death. Directors' fees for a time were $1,000 a year, but later they have been $2,000. The estate, it is estimated, will collect from $40,000 to $50,000 from the uncashed cheques which Lord Strathcona kept as souvenirs.

His lordship, of course, received a handsome return for his investments in C.P.R., capital, both original and new issues.

The Philippine Islands which are extremely heavily wooded, are supposed to contain 200,000,000,000 feet, board measure, of timber. This is about one-third the estimated timber wealth of Canada, not including pulpwood, of which there are approximately 400,000,000 cords.

Five thousand cords of poplar are used annually in Canada for the manufacture of excelsior, according to statistics recently gathered by the Dominion Forestry Branch. The wood must be clear of knots, peeled, and cut into four foot lengths, to command the highest price from the manufacturer. In Switzerland excelsior is chiefly made from pine and fir and is used largely for upholstering, for it retains its elasticity longer than hair and the small percentage of resin in the wood is said to protect the furniture from moths. The Canadian product is used chiefly for packing furniture, but by using pine and spruce the present uses of excelsior might be extended.

Seeing is believing.

TOWN AND COUNTRY NOTES

Mrs. Knox and child arrived home on Monday after a visit to the coast.

* * * *

Mrs. H. J. Williams will not receive tomorrow (Friday).

* * * *

Among the departures from the city on Saturday was Miss O'Neill who has gone to Belfast, Ireland.

* * * *

Mr. Frank Fraser was a passenger on Monday morning's boat on a business trip to Winnipeg.

* * * *

Mr. H. G. McCulloch of the Bank of Montreal, left for a visit to Vancouver on Tuesday

* * * *

W. H. Keenlyside of Vancouver who had been in the city for a few days on business returned home of Tuesday.

* * * *

Mr. Dan Harvey of the K.L.O. Bench was an arrival on Monday afternoon's boat after spending the winter in England.

* * * *

Do you want to see the Panama Canal? Well come to the lecture at the Baptist Church on April 9th, when 8 specially obtained views will be shown.

* * * *

The directors of the Agricultural Association have decided to make arrangements for the holding of sports on the 24th of May, and it is likely that a meeting will be called in a few daysto draw up a program.

* * * *

Mr. T. Heeney of the Natural Resources Dept. of the C.P.R., Calgary was a visitor in town Saturday last. Mr. Heeney was much impressed with the attractiveness of the district and hopes to be able to spend a few weeks here with his family during the summer.

* * * *

Mrs. Thompson of Penticton spent the week end with Mr. Dan Campbell, Miss Thompson was on her way to Regina where she will pursue her studies in singing. On Sunday she sang in the Presbyterian church at the morning and evening services, her solos being "The Ninety and Nine" and "Abide with Me."

* * * *

The financing of the baseball club is to be carried out this year on a somewhat different plan. The executive has decided to issue "members tickets" for which a charge of $5 will be made, and a thorough canvass of the town is to be made to dispose of these and thus enlist a wider support and avoid the position of having the burden fall on the shoulders of a few. Itis hoped that in view of the fact that a thoroughly first rate team is to be got together, ensuring a good class of ball, that the executive will meet with a ready response.

W. T. Ashbridge and family were arrivals in the city on Tuesday from Toronto. They are making a short stay here.

* * * *

Mr. and Mrs. Griffin and child left for western points on Monday. They will be absent from the city for a couple of weeks.

* * * *

Provincial Constable E. A. Vachon went to Vernon on Tuesday to attend the County Court sittings in connection with a burglary by an Italian who was recently sent up for trial there.

* * * *

Miss D. McLean, wno has been visiting Mr. and Mrs. A. M. Dalgleish for the past four months left on Wednesday for her home in Ontario. On the way there she will stay off at Calgary visitingfriends.

BIRTHS

WILLIS.—On March 24th at Miss Lindsay's Nursing Home to Mr. and Mrs. Willis, a daughter.

AMBERG.—At Kelowna on March 24, to Mr. and Mrs. Amberg, a daughter

KELOWNA FOOTBALL TEAM DEFEATED VERNON SATURDAY

The Vernon football club appeared against the locals at the city park on Saturday afternoon last and met defeat at the hands of the home club by a score of 20 to nil.

At 4.30 Lloyd kicked off for Kelowna before about the largest crowd that has attended a football match in this city. Kelowna were soon pressing hard and from a good movement Whillis ran in with a beautiful individual try. The kick at goal failed and the score was three points. Soon after this Pyman ran in with a good try and the score read six as another shot at the goal was unconverted. Soon afterward a free kick was awarded Kelowna and Bell with a well judged kick sent the ball between the uprights, but owing to come misunderstanding the touch judges were not behind the posts and the referee did not see the kick so the goal was not allowed.

Bell scored another try almost immediately, this was converted and half time arrived with the score 11 to 0 in favor of the home team.

Inthe second half Kelowna again attacked the visitors goal, and Bell taking a pass scored between the posts. Manifold scored soon after and Bell followed with another score wide out, thus Kelowna won easily by 20 to 0.

Vernon never became dangerous and were beaten in all departments of the game. They lacked the speed and combination while Kelowna seemed to improve as the game proceeded.

The locals appeared on the field wearing their new jerseys for the first time and made a very attractive appearance. The colors are myrtle, maroon and blue, and are certainly an improvement on those worn by the club in the past.

On Saturday the locals will travel to Vernon for a return match, leaving by autos at 12.30 from the Bank of Montreal. The players who will accompany the team are Heyland, Nilson, Whillis, Favell, Bell, Manifold, Hopkins, Lloyd, Pyman, Fordham, Thomson, Cameron, Mathias, D. Anderson and G. Anderson.

KELLEY'S UNEMPLORED DRIVEN FROM CITY WITH AID OF HOSE

When "General Kelley" and his army of twelve hundred unemployed who are marching to Washington, arrived at Sacramento, Calif., they were greeted very heartily. They were told if they created any disturbance they would be immediately driven from the city. They did not heed the warning and began demanding food and shelter. The Fire Department then came forth with a big hose, and in this picture they are shown driving the hobo army from the city. One hobo is reported as saying that he would rather have to work the balance of his life than have taken a bath. He is confined in the local hospital with nervous prostration.

Weak Eyes

That drawn, squinting expression; seen on the faces of many older people is often erroneously attributed to age, or a "life of care" or "raising a large family." Such alleged reasons may occasionally be valid ones; but the fact still remains that these unnatural facial conditions are OFTEN due to defective eyes and the need of right glasses to remove muscular and nervous strain. Save your nervous energy. Let inanimate glass do the work now imposed on overtaxed muscular and nerve force.

DECLINE SUBSTITUTES

BAPTIST YOUNG PEOPLES' SOCIETY

The meeting of the Baptist Young People's Society was of a missionary character and was in charge of Miss M. I. Reekie.

The Misses Beatrice and Mildred Wilson and Louie and Dorothy Evans went through a dialogue entitled 'How the W.F.M.S. won the young ladies," and did it well. Miss M. Duggan sang "Speed Away" and Mrs. Blenkarn gave a dialect reading. "My Becky's Thank Offering," both of which were well given and much enjoyed.

Next Monday Mr. Blackaby is to read a paper on "How we got our Bible." and will give some humorous breaks in the earlier editions of the Bible.

KELOWNA CRICKET CLUB ORGANIZED

An organizing meeting was held in the offices of Hewetson & Mantle Ltd. on Friday evening at which it was decided to form a cricket club. The following officers were elected:

President.—Mr. W. E. Mitchell.

Vice Presidents.—Messrs. B. F. Boyce D. W. Crowley and W. R. Pooley.

Committee.—Messrs. Crichton, Greenstead, Farris and Frank Wickens.

Secretary.—Mr. H. B. Gribble.

It was stated that Mr. D. W. Crowley had kindly offered the club the use of his field for a practice ground, and a cordial vote of thanks to Mr. Crowley was passed for this offer.

Anyone desirous of joining the club is requested to communicate with H. B. Gribble at 9 Willits Block.

OVER THE CLIFFS

"Over the Cliffs" is a three part drama, or rather a melodrama with a good strong punch and chuck full of scenes that thrill and grip you. This film is by the Eclair Company, with Barbara Tennant and Jack Johnston story is full of startling and sensational incidents it is not by any means of the lurid type, but has a pretty love romance running all through the story. The photography in this picture is said to be remarkably good. "Over the Cliffs" and two Europea comedies will be the photo play program offered at the opera house next Monday afternoon and night.

JACK JOHNSTON
UNIVERSAL

At the Opera House Monday, April 6

The new British Columbia loan of $7,500,000 at 4½ per cent has been underwritten at 99.

With the opening of the Panama Canal, the development of the forest resources of the near-by tropical countries should receive considerable stimulus. The wood of the mangrove tree, which grows along the low-lying coasts of British Guiana and adjacent countries, is said to be twice as strong as oak, and, when stood on end, will sustain, without crushing a load of 8 tons to the square inch. It is said to be immune to decay which, with its great strength makes it an ideal wood for railway ties.

JOE LALLY SPEAKS TO THE SCHOOL BOYS ON LACROSSE

On Wednesday, the 25th of March there assembled in the new public school an enthusiastic crowd of boys who had been called together to hear Mr. Joe Lally, a keen lover of Canada's national game, lacrosse. The purpose of this gentleman, who hailed from Cornwall, Ontario is to encourage the playing of this game among the school boys of the west, and for this purpose be is visiting different cities and towns, and arranging for the organizing of the boys into clubs and offering gold medals to be competed for. Mr. Lord, principal of the school presided and there were a number of other gentlemen present.

Mr. Lally spoke on the benefits of boys playing lacrosse and urged that they play it in a gentlemanly spirit. He did not want the game to interfere with their education in any way. Every boy would receive an amateur card which made him eligible to play for the medals and he would have to sign a pledge to play in amateur games only. Any boy who disbehaved himself in any way would have his card withdrawn. The organization would be left to the teachers and principal lacrosse men in the city. They would be affiliated with the Canadian Amateur Lacrosse Association which, in its turn was affiliated with the Canadian Amateur Athletic Union.

The boys took up the scheme as outlined and several clubs have been formed already.

PROVINCIAL CONSTABLE VACHON TRANSFERRED TO TETE JAUNE CACHE

On Saturday morning, while the small debts court was in session at the Provincial Police Court, Constable Vachon received a telegram communication from the superintendent of Provincial Police Campbell that he had been transferred to Tete Jaune Cache as Senior Constable. This is a promotion for Mr. Vachon, who is to be heartily congratulated on his good fortune. The constable had been stationed in Kelowna exactly thirteen months, to the day when he received the intelligence of his transfer and during that time has made many friends. The phone message was followed later by a telegram instructing him to proceed to his new appointment as soon as possible. Tete Jaune Cache is near the Yellowhead Pass on the Grand Trunk Pacific and Mr. Vachon will have a long journey before he gets to his destination. He leaves the city on Monday next.

At an average cost of less than one cent per square mile, 15, 203 square miles of Dominion Crown timber lands in the northwest were examined last summer by forest survey parties sent out by the Forestry Branch of the Department of the Interior.

The Easy Laxative

In justice to yourself you should try Rexall Orderlies,—your money back if you don't like them. They are a candy confection that really do give easy relief from constipation.

Good health is largely dependent upon the bowels. When they become sluggish the waste material that is thrown off by the system accumulates. This condition generates poisons which circulate throughout the body, tending to create coated tongue, bad breath, headache, dull brain action, nervousness, biliousness and other annoyances.

Avoid harsh cathartics and physics. They give but temporary relief. They often aggravate the real trouble. They are particularly bad for children, delicate or aged persons.

Rexall Orderlies

Come in tablet form, taste just like candy and are noted for their easy, soothing action upon the bowels. They don't purge, gripe, cause nausea, looseness, nor the inconveniences attendant upon the use of purgatives. Their action is so pleasant that the taking of Rexall Orderlies almost becomes a desire instead of a duty.

Children like Rexall Orderlies. They are ideal for aged or delicate persons as well as for the most robust. They act toward relieving constipation, and also to overcome its cause and to make unnecessary the frequent use of laxatives. They serve to tone and strengthen the nerves and muscles of the bowels and associate organs or glands.

Make Us Prove It

We guarantee to refund every penny paid us for Rexall Orderlies if they do not give entire satisfaction. We ask no promises and we in no way obligate you. Your mere word is sufficient for us to promptly and cheerfully refund the money.

Doesn't that prove that Rexall Orderlies must be right? You must know we would not dare make such a promise unless we were positively certain that Rexall Orderlies will do all we claim for them. There is no money risk attached to a trial of Rexall Orderlies, and in justice to yourself, you should not hesitate to test them.

Rexall Orderlies come in convenient vest-pocket size tin boxes. 12 tablets, 10c; 36 tablets, 25c; 80 tablets, 50c.

CAUTION: Please bear in mind that Rexall Orderlies are not sold by all druggists. You can buy Rexall Orderlies only at the Rexall Stores. You can buy Rexall Orderlies in this community only at our store:

P. B. WILLITS & CO. Corner Pendozi St. and Bernard Ave

The Rexall Store

There is a Rexall Store in nearly every town and city in the United States, Canada and Great Britain. There is a different Rexall Remedy for nearly every ordinary human ill—each especially designed for the particular ill for which it is recommended

The Rexall Stores are America's Greatest Drug Stores

Build Concrete Barns and Barnyards

YOU will find that they are best at first and cheapest in the end.

Concrete buildings cannot burn and many dollars are saved in lower insurance rates. They need practically no repairs and never need painting.

Concrete barnyards make the best kind of a feeding-floor and save many dollars in feed bills, as your stock gets every particle that you feed to them.

Send for this free book "What the Farmer Can do With Concrete." It shows just how to build your own concrete barn, feeding-floor or any other building that you may need.

"I didn't know I needed an Elevator until I saw this Book."

THAT'S what a merchant said in our office recently. We had just sold him an Elevator for use in his small, but growing factory in a little town in Western Ontario. He is enthusiastic over the economies he has been enabled to effect through the installation of a small hand-power Elevator costing but $70.00. He has discovered the secret of efficiency in handling goods and filling orders. He has learned how to cut out unprofitable methods and reduce the cost of labor by eliminating waste time and needless effort.

Perhaps you may find in this Book the solution of your most difficult problem. Isn't it worth writing for?

BIG AREA OF LAND FOR PRE-EMPTION

Eighty thousand acres of land, adjacent to the Grand Trunk Pacific railway, which is to be completed from ocean to ocean during the coming summer, a large proportion bordering on the railroad, will be opened to pre-emption in the valley of the south fork of the Fraser River in June, according to an announcement made this week by the Hon. William R. Ross, Minister of Lands.

When the work of building the Grand Trunk Pacific Railway was begun, this valley, which contains a large amount of agricultural land, favorably situated was placed in reserve. In 1907, a reserve was created, under which a strip of six miles, covering the valley was reserved for the pre-emptor. Now that the railroad is completed, the agricultural lands are being opened to the settlers.

The land being opened to settlement is in two parts, the eastern half stretching on either side of McBride, the young city ninety miles from the eastern border of the province, where a divisional point has been created. Car shops, large yards, etc., are being built, and a city is in the making. The western half stretches from Willow station, on the G.T.P., not far east from Fort George, to join the other part of the tract.

The lots in the eastern half will be opened to entry by pre-emption on June 1, at 9 a.m., a special office being opened there by the land commissioner of the district for one week, in order to give those who seek a homestead an opportunity to file their records at the nearest city to the land. After a week records will be made at the office of the government agent for the district at Fort George. The lots in the western half will be opened to entry by pre-emption on June 15, at 9 a.m. at the office of the government agent at Fort George.

McBride, where the lots in the eastern half will be opened for a week, beginning at 9 a.m., on June 1, was the first townsite laid out in the district, and the first post office in the district was created there. It is a bustling young town, and as it lies in the heart of the agricultural land, it is expected to become a great centre. It is 145 miles from Fort George, 20 miles from the eastern border of the province and 245 miles from Edmonton. The town, named in honor of British Columbia's premier, is both the passenger and freight divisional point, and a large amount of money has been expended by the railway company to make preparations for the future, all its construction being of a large type. The yards cover eight miles, and the station yards, roundhouse, shops, etc., are the largest between Winnipeg and Prince Rupert. The G.T.P., have a hospital, and there are a few permanent buildings, the number of which is being increased. There are some rooming houses and three or four well stocked stores.

The valley of the south fork of the Fraser, in which the large area of land set aside when the railroad was begun and held until transportation facilities were provided for the pre-emptor, varies in width from one to two miles in its upper part at Tete Jaune Cache to five miles at McBride, six at Goat River, and about ten miles at the Canyon. It lies at a mean altitude of 2,250 feet above sea level.

The main industry of a great part of the valley, other than farming will be lumbering, and this should reach considerable proportions. There is a large amount of good timber, and the lumber mills built to handle it, together with the towns along the railroad between Fort George and Mount Robson Park, which, before long will prove a great tourist resort, reached from the west through this valley, should prove a ready market for farm produce from this district. A large mill, with a daily capacity of 100,000 feet, has been built up by the Fraser Mills Company at Mile 142, near Dome Creek. Another big mill is projected for Mile 128, and a number of other sites are being sought for mill purposes.

A pamphlet of the district with special maps showing the various lots which will be available for pre-emption in this valley in in June, is now being prepared and will shortly be issued by the department of lands.

MANY AMENDMENTS TO LAND RIGISTRY ACT

With a view to removing the crop of difficulties which had arised under the old Land Registry Act, and of further protecting titles to land, no less than seventy-seven paragraphs of amendments, including many more minor amendments have been added to the Land Registry Act. These are now being brought into force by Registrar C. H. Dunbar of the Kamloops Land Registry Office.

The first and common difficulty which applicants for registration are having with the new amendments is that the full name, surname, address and occupation of all the parties to any document produced for registration have to be furnished.

Another highly important amendment is one which requires every vendor of land under agreement of sale, sub-agreements or assignments where the purchase price is payable in instalments, to register his title and all agreements of sale must be in such form and executed by such parties that it can be registered.

Large game preserves have recently been set aside in Somaliland, Ugaada and other British protectorates in Africa, in which the hunting is prohibited of elephants, giraffes, rhinoceroses and other valuable game in danger of extinction. This policy has also proved successful in perpetuating the game supply on certain Dominion Forest Reserves in Western Canada, and as occasion demands the number of these game preserves will be increased.

TWENTY-ONE YEAR OLD ANARCHIST UPSETS NEW YORK

For the last week New York has been considerably worked up by the adventures of Frank Tannenbaum, the twenty-one-year-old anarchist, I. W. W., leader and his band of unemployed followers. During the recent blizzard Tannenbaum led his band into churches of all denominations and not satisfied with making the church their shelter for the night demanded the best of food. For two nights they fared well. On the third night they invaded St. Alphonsas' Roman Catholic Church, against the wishes of the clergy, where they started a demonstration resulting in the destruction of some of the church property. During the course of the demonstration eighty policemen arrived in patrol wagons and arrested Tannenbaum and 190 of his followers. After a night in the Tombs the gang were released, but Tannenbaum was held on $10,000 bond, charged with inciting to riot. He has subsequently been released on a smaller bail. Emma Goldman and Alexander Berkman, anarchist leaders, state that the work has only begun and that before long they will show New Yorkers a thing or two on a larger scale. This picture shows Tannenbaum in a characteristic pose delivering a speech to his supporters in Rutgers Square, the Central meeting place of the new social revolvers.

Vernon Fruit Union In Annual Meeting

The big cry among the shareholders of the Vernon Fruit Union at their annual meeting was economy, on both packing and operating charges. It was made quite evident that the expenses would have to be cut down in the union and central this year. R. Robertson, the manager, said the cost of operation in the central would be cut down by half this year, if only through the purchasing of box material, paper, nails and other supplies needed by the farmers for marketing their crop. A saving of $10,000 will be made on box material alone.

"This is our first years experience and we have made wonderful strides," said Mr. Robertson. "We have been congratulated on our great success by many of the business men up and down the valley.

"We have made far greater headway for the length of time we have been in operation than Washington or Oregon with similar organizations. We have the government behind us to insure our success."

Mr. Robertson then mentioned the brokers and how the Central happened to link up with them. "The basis of our agreement was that they would handle 62 2-3 per cent of our fruit shipped to the prairies at $30 per car, and they gave us the best distribution we have ever had. We finally ended by selling them 75 cars of No. 2 apples outright, the price being the same for which they could buy "C" grades from the states.

"I don't know how we are going to go by the brokers. They are the buyers for twenty big wholesale houses in Alberta and Saskatchewan, and I think it would be unwise not to remain with them. When we are strong enough we will have our own wholesale houses, but at present we have no opportunity of distributing our fruit through the prairie markets, unless through them.

The brokers have treated us fairly and have given us the preference on more than one occasion, without them I don't know how we would have marketed our fruit last year."

The question of contracts came up for a great deal of discussion on account of the growers having to bind themselves to the Central for the handling of their entire crop. "We will not object to the growers selling a small percentage of their crop locally," said Mr. Robertson, "but that is as far as we can go, otherwise they would be selling in competition with the Central.

"That is where we made our big mistake last year in not making the growers sign contracts, and the individual got the benefit of our work in making the prices, and in most all cases where the individual got better prices it was caused by the work of the Central.

"We have made some changes in the pool system, last year we had one pool for each season, but under the new system a grower will be put in a pool by himself if he grows a superior quality of fruit or vegetables, and he will get the better price.

"The value of the Wagner crop has increased 20 per cent we have found by storing them they will lose the water core, and greatly increase their sale, but in all cases restrict the packing of No. 1 as much as possible. The Spokane growers are our biggest competitors, for their fruit is put on the market at the same time with the Okanagan fruit.

Mr. Robertson said the growers would get much quicker returns on their shipments this year than ever before.

The Shareholders' Meeting, which was held in the Board of Trade room was crowded until there was scarcely standing room, more than 100 being in attendance in the forenoon. The number far exceeded that in the afternoon, arrangements being made for the adjoining reading room which was also filled to its capacity.

The union was incorporated on May 15, 1913, and a total number of 552 shares have been applied for up to date. The profits for the year have totaled about $4,200, according to the directors' report.

A bumper crop that would tax the utmost capability of those entrusted with its handling was foreseen by the directors, and they had deemed it best to make early arrangements for a capable manager. It was decided that E. C. Skinner of Roseburg, Oregon was the best man for the position. Mr. Skinner has been seven years at the business and was manager of the Producers Fruit Company of Sacramento. Calif.

In September last the directors opened a department for the supplying of flour, grain, feed and poultry supplies to the growers, and have reported as being very successful. It is now in operation in the old Vernon Fruit Companys' building on Ellison street.

The directors reported that the packing and handling charges would be cut down to some extent this year, and the charges would be the same at all points in the district exclusive of the teaming and transportation. Last year packing charges were 35 cents per box. George Heggie, the president said the union would welcome the day when the growers would pack their fruit in the orchards.

The election of officers took place, and the whole of the board was re-elected. A hearty vote of thanks was tendered the directors for their earnest efforts rendered on behalf of the growers. The old board was George Heggie, President; F. B. Cossitt, vice-president; W. C. Ricardo; J. D. Godwin; J. W. Hayward; Baron Harry; P. V. Verhaegan; S. Freeman; E. Trask; and W. Scott Allen, secretary-treasurer.

The fruit crop in the Vernon district was badly damaged by hail last year, causing heavy expense in sorting. On the average it cost 3½ cents per box, for the sorting of the Coldstream and the fruit which would have been No. 1 made poor No. 2.

The ashes of Baron Carl Gromadzinsky, who died at New Rochelle of apoplexy a month ago, were shipped Friday by parcel post to his old home in Germany by his friend Robert Lesser. The package weighing eight ounces, cost $1.05 to send.

Ellison News

(From our own Correspondent.)

The Ellison Literary Society is a strictly temperance organization and the trouble into which they got last Friday night can therefore be ascribed only to the worst of ill-luck. A party of eight of these Ellison highbrows set out for East Kelowna to engage the debating society of that district in wordy warfare over a momentous question of the day. They travelled in rigs as far as McKinnon's place on the Black Mountain Road, from where after a brief rest they set out on foot, led by the dauntless Michael with the intention of crossing the new bridge which now spans the creek between Rutland and the K.L.O. Bench. Alas! however, and likewise Alack! they missed their way in the bush, and the hours sped swiftly by as the eigh wandered to and fro in the darkness.

But they continued their search though with a secret determination to devote more of their evenings to the study of astronomy and the science of navigation by the aid of the stars. They succeeded at length in finding the bridge, but it was ten minutes to ten before they reached their goal (don't spell this g-a-o-l-, Mr. Printer!) which was the house of Mr. Geo. Allen. There was a debate—but it was not on the subject they had been preparing for some time past. They found that there had been a misunderstanding about the date, and that that debate was to take place next week!

LOST ARCTIC EXPEDITIONS

Two Arctic expeditions which sailed from Russia in the summer of 1912, have now not been heard from for so long a time that grave fears are felt for their safety. One, under Captain Russanov, after visiting Spitzbergen for the purpose of taking possession of some coal fields on Bell Sound, attempted to proceed to Nova Zembla, but never reached there so far as can be ascertained. The other, a large and well-equipped expedition under Lieut. Brusilov, sailed for the Kara Sea, intending to attempt the north-east passage to the Pacific, and to make extensive explorations all along the route. Provisions were carried for three years. Wreckage of a ship reported to have come ashore near the mouth of the Pechora River may indicate the fate of one or the other of these expeditions, and a steamer has been sent from Archangel to investigate.

W.C.T.U. Discuss Social Problems

AT LARGE GATHERING HELD IN KELOWNA

The members of the W.C.T.U., held a successful social gathering at the home of Mr. Jas. Harvey Sr. on last Friday week. The ladies had been allowed to invite their male friends and there was consequently a good sprinkling of gentlemen. Mayor Jones presided and after singing and prayer, followed by a solo "Queen of the Earth" by Mr. G. Fuller, the Rev. A. Dunn was called upon to give an address on "Women's Suffrage". In the course of his remarks Mr. Dunn referred to the honorable and useful work of the W.C.T.U., since its organization in 1883. Friends and foes alike recognized that in the advance of temperance sentiment a large share was due to the efforts of this body. It was sometimes said that the Union insofar as it shared the objects of the Woman's Suffrage Association was forgetting its own distinctive purpose. But the reply to that that the Union was still vividly aware of its primary purpose. This purpose was still unchanged and it was only employing an extra instrument which it adopted in common with the Suffrage Association. Most suffragettes, especially in Canada, regarded the suffrage movement as hurtful to their cause. Some, however, justified militancy and pointed out that every intellectual, spiritual and political liberty we possessed had been won for us by men of revolutionary spirit. It was needless to rehearse the array of arguments that could be adduced in favor of woman's claim to equal rights with men—including the right to the ballot. Universal suffrage was now in operation in many countries and states and the number was constantly increasing, since objections offered before trial were afterwards proved groundless and evidence seened to point but one way and that in favor of its adoption.

Too great dependence upon the powers of the ballot to remove existing evils is however a danger. A striking instance of this was given at the great social congress, recently held in Ottawa to show that the ballot was not the only, or even the main instrument for the establishment of those conditions for which the white ribbon society exists and works.

Mrs. Blair sang "The Swallows," and then Rev. D. J. Welsh gave a short address. He said he stood for woman suffrage but not with the idea that the granting of the vote was going to solve the problem that looked to the moral betterment of the race. It was a matter of citizenship. The vote was not and never could be the solution of any problem that affected the life of any people. The problem is a problem of character, not of legislation, not of material interests but in the last analysis of character. What we ought to do was to direct our efforts to the formation of character. There was something in human nature that must be changed. There must be brought about that change in the life of the individual, before they could be sure of it in the life of any province. He described a visit to a big brewery in the United States. In the bottling room there were only a few men, the great majority were young girls from 17 to 22 years of age. Probably more than a hundred, bottling that liquor. The question that came to him was, "What will that mean for the city of Milwaukee?" In this institution what kind of characters have you got? What must be the influence of these upon the city?" They had got to draw the attention of every preacher of the church to this important question; get every parent in every home enlisted in this great work of forming character to resist temptation.

The W.C.T.U., had a mission along these lines. It had not done as much as it could do. Many home influences were not what they ought to be. If the members were acquainted with any young woman in this town that had not proper associations thrown around her life; then through the associations, the best woman might go to such as had not good homes and say a word that might be helpful. Perhaps many that had fallen would because of a kind word by someone be able to chose the better part of life, the path of virtue and truth.

After a solo by Miss P. Pitt, the Rev. Mr. Switzer spoke on the social evil. The great temptations to which young people were exposed at the present day were dealt with. Ignorance was the great cause of so many falling from virtue and he urged that the young should be instructed in the matters relating to sex. Parents, he claimed never said a word to their children on this subject and many parents did not know how to go about the matter. In such cases he advocated sending responsible parents to give such instructions. When children began to know about things they would gan to know about such things they would not be so easily tripped up as they had been in the past. Social hygiene should be taught in the school.

Miss Duggan then sang, and on the motion of Mrs. Fuller, president of the Union, a hearty vote of thanks was accorded the ministers for their addresses and to those who had contributed to the musical part of the program. Refreshments were handed around, and the rest of the evening was spent in social intercourse.

ANNUAL MEETING OF TENNIS CLUB

The fifth annual general meeting of the Kelowna Tennis Club was held on last Saturday week in the offices of the Okanagan Loan & Investment Co., at 8 o'clock in the evening. There were present Messrs W. Metcalfe (president), G. Seon, A. Seon, H.G.M. Gardner, W. Greensted, R. J. Stone, J. E. Lloyd, E. C. Weddell, O. St. P. Aitkens, W. L. D'Aeth, H.G.M. Wilson, Dr. B. F. Boyce, Miss T. Seon, Miss B. Seon, Mrs. Mitchell, and Mrs. H.G.M. Gardner.

The principal business was the election of officers for the coming season, and these were as follows:

President.—H. A. Willis.

Vice-President.—H. G. M. Gardner.

Hon.-Secy.—O. St. P. Aitkens.

Committee, Mrs. Mitchell, Mrs. Mathison, Miss T. Seon, Dr. B. F. Boyce, and Messrs. G. Seon, R. J. Stone, R. Manifold, J. E. Lloyd and W. E. Adams.

Mr. E. C. Weddell was elected to fill the vacancy on the board of trustees caused by the death of the late G. W. Mappin.

Mr. R. J. Stone was appointed to act as delegate to the meeting of the Okanagan Valley Lawn Tennis Association, which is to be held in Kelowna, April 1st, at 8 p.m.

The balance sheet for the year was read and adopted. It was noted that many members were in arrears with their subscriptions to the club, and a resolution was passed "That the secretary notify delinquent subscribers that they cease to be members of the club until their subscriptions are paid."

A resolution was also passed "That members supply their own tennis balls which will be sold by the club as reasonably as possible."

The meeting closed with a vote of thanks to Mr. Aitkens for his services to the club as secretary during the season of 1913.

ANNIVERSARY OF FAMOUS PLAY

To commemorate the fiftieth anniversary of the masterpiece of that sterling English dramatist "Tom" Robertson, the Orchard Players have decided to present this season an elaborate revival of "David Garrick." It was with this play that Robertson made his first success as a dramatist in 1864, and owing to the excellence of its construction and stagecraft, its light and merry humor, its wholesome healthy tone and nappy contrasts, and the sunny spirit that shines through it, it has held the boards almost continuously for the last half a century.

The plot of the piece is so well known to theatre goers as to require *no comment*. A young girl, daughter of a wealthy London merchant, falls in love with the famous actor David Garrich, whom she has seen act several times. In order to cure her of her passion, that he may wed her to a rich young man whom he favors, her father invites Garrick to dine at his house, secretly persuading him to feign intoxication in order that Ada may be disgusted with her idol. The dinner scenes abound in humorous touches, and the plot bids fair to succeed, until mere chance reveals to Ada the deception which has been practiced upon her and thus intensifies her love for Garrick. In the last act everything comes out well and the rich merchant begs Garrick to "do me the honor of accepting my daughter's hand."

The title role, which was one of the great parts of the elder Southern, and which has been essayed by many renowned actors, will be in the hands of Mr. William Sauter, who has won his theatrical spurs with such notables as Sir. J. Forbes Robertson, E. S. Willard, James K. Hackett, Eleanor Robson and William Terriss.

Miss Dora Rignold who will be remembered for her engagement with Sir Herbert Tree at His Majesty's, London in "Pinkie and the Fairies" will play "Ada" and prominent in the supporting company will be Mr. Arthur L. *Soames* and *Mr. L. Race Dunrobin.*

The company are now hard at work rehearsing "David Garrick" being already well advanced. The first performance will be on Easter Monday; "The Truth" following on Tuesday.

Baseball Schedules for the coming Season

By the following schedules it will be seen that Kelowna will have her share of sports the coming season, especially in the baseball line. Below will be found the schedules of the British Columbia Interior league, comprising Revelstoke, Kamloops, Vernonand Kelowna, in which league the season will open on May 6 and close on Labor day, September 7. The second schedule is that of the local district Schools League, being comprised of teams from the city high school and public school, Rutland and Ellison.

British Columbia Interior League Schedule

	KAMLOOPS	VERNON	KELOWNA	REVELSTOKE
AT KAMLOOPS		May 13 June 10 August 5	May 20 July 8 August 26	May 6 June 3, 24 July 1, 22 August 12
AT VERNON	June 17 July 15 August 19		May 6 June 3, 24 July 22 August 12 Sept. 7.	May 20 July 8 Sept. 2
AT KELOWNA	May 25 July 16 Sept. 3	May 7 June 4 July 1, 23, 30 August 13		May 14 June 18 August 6
AT REVELSTOKE	May 7 June 5 July 23, 30 August 13 Sept. 7	May 25 July 14 August 27	June 11 June 25 August 20	

Schools League Schedule

	RUTLAND	HIGH SCHOOL	ELLISON	PUBLIC SCHOOL
AT RUTLAND		May 2	April 4 June 20	June 6
AT HIGH SCHOOL	April 18 June 13		April 11 May 9 June 6	April 4 May 16 May 23.
AT ELLISON	April 25 May 16	May 30		April 18
AT PUBLIC SCHOOL	April 11 May 9 May 30	April 25 May 23 June 20	May 2 June 13	

*All games scheduled for Ellison will be played at Rutland, where the playing field is being put in splendid condition.

PAINT SAVES YOU MONEY—IT'S A GOOD TIME TO BUY

"It'll cost you more NOT to Paint your house than it will to paint it."

Thirty or forty dollars spent on painting your house may save you $500 each year on its selling price.

For PURE Paint is a wood-preserver. It prevents decay—arrests depreciation—and helps to increase the value of your property from year to year.

And if you do your painting with

Bapco Pure Paint

you secure the maximum of Paint Protection at MINIMUM cost. Because BAPCO PAINT covers 25 per cent. more surface than ordinary cheaper paints—and outlasts and outwears them by years.

BAPCO

BAPCO saves you most.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,500 acres will be leased to one applicant.

Application for the lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion lands.

W. W. CORY.
Deputy Minister of the Interior.

THE MILKMAN

The milkman goes his weary way before the rising of the sun; he earns a hundred bones a day, and often takes in less than one. While lucky people snore and drowse, and bask in dreams of rare delight, he takes a stool and milks his cows, about the middle of the night. If you have milked an old red cow, humped o'er a big six gallon pail, and had her swat you on the brow with seven feet of burry tail, you'll know the milkman ought to get a plunk for every pint he sells. He earns his pay in blood and sweat, and sorrow in his bosom dwells. As through the city streets he goes, he has to sound his brazen gong, and people wake up from their doze, and curse him as he goes along. He has to stagger through the snow when others stay at home and snore; and through the rain he has to go, to take the cow-juice to the door. Through storm and flood and sun and rain, the milkman goes upon the jump, and all his customers complain and makes allusions to his pump. Because one milkman milks the creek, instead of milking spotted cows, against the whole blame tribe we kick, and stir up everlasting rows. Yet patiently they go their way, distributing their healthful juice, and what they do not get in pay, they have to take out in abuse. —Walt Mason.

"PETER" WONDERFUL TALKING CROW IS DEAD

The School Children of Goderich, Ontario and many of their elders are regretting the death of "Peter", the wonderful talking crow, which was the popular pet of little Miss Verna Sallows, and was highly regarded by the townspeople as well as by many visitors to Goderich. Toronto friends have been notified that "Peter" passed away on Sunday last while waiting for the merry springtime, when he could go forth to parade the town square or to accompany the youngsters to school, as was his habit. He was a regular attendant at school, and while lessons were on would now and again tap the windows with his his beak to make his presence recognized, in the meantime keeping up a chatter and calling to his playmates.

"Peter", had a wonderful vocabulary but shunned bad language. He had a hearty laugh and a cherry "Come on" to his little friends, with whom he delighted to play around the school.

On the day he died he remarked several times, "Peter is sick— Peter is awful sick." Those are said to have been his last words. Peter was indeed a most gifted bird and a great curiosity. His fame has spread far and wide.

A suffragette arson squad burned Abbeylands, the splendid country house of Major-General Sir Hugh McCalmont, near White Abbey, on Belfast Lough, early last Friday. The loss is about $75,000. The grounds of Abbeylands have been used recently for drilling Ulster Unionist "volunteers.

INQUIRIES INVITED

EXTRACTS FROM THE NEW "GAME ACT"

A new "Game Act" came into force throughout this province on the first day of April, 1914. Its provisions are not essentially different from the requirements of the existing act, however. Following are some regulations compiled from the text of the new act:

The open season regulations shall apply to big game, bear and game birds.

Farmers, resident Indians, prospectors and surveyors are allowed under certain conditions to kill game and deer for food.

Hunting at night, and over cleared or enclosed land is prohibited.

The use of pump, repeating or automatic shotguns of any description is prohibited.

Three deer of any one species, or more than four in all, and two hundred and fifty ducks are two items on the bag limit list.

Resident hunters are required to take out licenses, good for one year, as follows: Game birds and deer, $2.50; big game and birds, $5.00; big game, birds and trapping, $10.00. For non-residents the fees will be: fishing, big game and birds, $100; game birds, $50, or $5 per week; bear hunting, $25; fishing, $15.

Licences are not transferable.

No license will be granted to any boy under sixteen years of age, excepting at the written request of parents or guardians, who must undertake to see that such a licensee is under constant supervision.

"DO A GOOD TURN DAILY TO SOMEONE"

This is the promise of the Boy Scouts, and they certainly did something to carry this out recently.

A fire which swept through the long grass over a large part of the exhibition grounds on Saturday, threatened to do considerable damage to residences east of Richter street and would have done, but for the promptness of two members of the Boy Scouts, who passed by on their way to drill and succeeded in checking the flames until the street put a stop to its progress. A strong southwest wind was blowing at the time and it was therefore only possible to head the fire towards the road. After about twenty minutes of hard work the efforts of the two fire fighters were greeted with the following remarks from half a dozen men who had watched with interest. "Did you light it on purpose?" "Out for some physical exercise?" "If you couldnt manage it we would have helped you!"

Speaking of the occurrence the Scout master states for the benefit of those who are not in sympathy with the Boy Scouts that "this is the kind of work for which they exist; they are not imitating soldiers."

CITY WILL PROSECUTE THE KNOCKERS

The Dade, Fla., city council "knocks the knockers" in an ordinance just passed in which it provides a jail sentence of not less than fifteen days and a fine of from $25 to $200 for the "knockers."

The preamble of the ordinance sets forth that "whoever slanders the title of any property in Dade city or speaks evil concerning its value, quality or healthfulness, shall be deemed guilty of an offence against the city of Dade.

QUEEN ASKED TO DESIST FROM PRISON VISITING

Home Secretary McKenna has been obliged to ask Queen Mary to restrain her philanthropic efforts in behalf of women prisoners.

The Queen recently visited the female wing of Brixton Jail and became interested in a former lady's maid sentenced for two years for stealing jewelry. Owing to extenuating circumstances the Queen obtained the girl's release and obtained a position for her in an industrial home.

Since then the Home office has been flooded with applications from relatives of female prisoners for their release and the Queen has been requested to desist from further visits to the prisons.

We have Never Tried to Secure Trade by advertising Low Prices

We have pinned our faith on the watchword—
QUALITY FIRST

BELIEVING that the highest quality will attract and hold more trade than the lowest price. This belief resulted in our stocking, for this season, a large range of Boy's Clothing; known as "Lion Brand." It is the best we know of to buy. It is, apart from our personal investment in it, the best we can advise you to buy. It is made from honest materials, made in an honest way, and sols at an honest price. It is "Made Right."

We believe, that if you will call and see it, you will realize that you can enhance the value of your dollar by buying it.

DOUBLE SEATS, DOUBLE KNEES, DOUBLE ELBOWS

SAVE TROUBLE—Lion Brand Clothing will do it. Where? It will retain its shape longer than any other make we know. This means much to your genteel son who likes to feel well dressed. It will not always be a coax for a new suit because the present one is out of shape. In the first place our garments are well and truly designed, the quality of canvas and hair cloth is good, the collar and lapels are padded, and the shoulders made concave.

Will these features not save you trouble?

THOUSANDS of WOMEN

are demanding the "UTILITY" garments because of their simplicity of adjustment, their cleverness of style and the very attractive designs used.

Only two buttons required to put the garment in readiness. No undergarments are visible as in the case of the old kimona.

When one side is slightly soiled, it can be reversed with the clean side on top.

All these desirable features are to be had at prices no higher than you are in the habit of paying.

Become a wearer of the "UTILITY" and you will become enthusiastic in its praises. See our big display.

It is typically a Utility garment as it is practical for every kind of service—a house dress, negligee or apron. Also a slip-on over other garments.

It is shown in a wide variety of materials such as crepes, plisses, silks, challis, voiles, lawns and fancy flannelettes, in a good range of styles at interesting prices.

Let us demonstrate the many features of this patented garment. You will like it.

THOMAS LAWSON, LIMITED
