Meeting of City Council

Glenmore Residents ask City to Supply Light and Water

The city council met Monday morning, the Mayor presiding, and Ald. Sutherland, Raymer, Blackwood and Taylor present.

The following accounts were passed for payment:

Dr. Dickson, salary as sec. of Irrig. Convention.	$100.00
Luigi Curti, work on water exten.	7.77
K.L.O. Co., payment on acct. of lot 9	450 00
Board of Works, time sheet from Aug. 5th to 12th.	363.00
G. Feldman, sewer time check	10.33
H. Rumblow, do.	11.67
J. Mann, do.	10.00
C. Hince, do.	15.67
A. Karn, do.	15.33
J. Nikos, do.	18.00
J. Morris do.	15.67
C.P.R., freight on car of pipe	151.00
G. H. E. Hudson, photos for Irrig. Convention.	8.50
Coates, Edwards & Gowen, plate for plow.	1.25
Imperial Oil Co., gasoline	17.75
Canadian Pipe Co., wood pipe	722.98
Clark & Stuart Co., tracing cloth	7.45
Kelowna Irrigation Co., sewerage supplies	10.80
D. Leckie, supplies, sewerage	42.84
" " streets	24.65
C.P.R, dockage on tank and roller	1.00
Burne & Temple, expense acct.	61.50

District manager Dobie and local manager Webster of the Okanagan Telephone Co., waited on the council in reference to the location of certain lines of telephone poles and these matters were discussed at some length with them.

A deputation representing the residents of Glenmore, and consisting of Dr. Gaddes, Mr. Prowse and Mr. Drysdale interviewed the council in reference to the supplying of water and light from the city plant. Mr. Prowse said that the Glenmore residents had decided to ask the city council if they could supply the Glenmore people with domestic water and electric light, provided the latter bear the expense of putting in their own pipe and pole line.

Mayor Jones pointed out that the Municipal Act only made provision for supplying water and light within the city limits, and for outside users a meter would have to be placed at the city limits and any further piping and wiring done by the users. This had been done in the case of Bankhead.

Ald. Sutherland said he did not see any difficulty in the city supplying electrie light, but the water supply was a different matter, owing to the elevation to which it would have to be pumped. They could not connect such a service to the present plant, as it would mean raising the pressure from 50 lbs. to about 180 lbs. If the pressure was increased in this way, they would have to supply all the city at the same pressure, which would not be advisable. The only way would be a separate unit and separate main.

Dr. Gaddes said the reason they had come before the council at the present time was that they thought the committee might be increasing the size of their plant, and they wished to ascertain the disposition of the council to such a scheme. If the council favored supplying water and light to outside users in this way, they themselves were willing to get infomation as to the feasibility of the scheme. They had other schemes under consideration for getting a domestic water supply, but they had thought that as the bulk of the settlers were as yet at the end of the valley near the city, the latter could supply them with water more cheaply than they could with any plan of their own. There were about fifty prospective users at present which number would probably increase to about 300, so that this end was thickly enough populated to make it a paying proposition from the start. If the council were willing to undertake such a contract they would go ahead at once and get an engineer's report as to the power and pressure required to force water up to Glenmore.

The members of the council in discussion were of opinion that such extensions might eventually become a source of revenue to the city, and the deputation was given to understand that there could be no harm in securing data as to the scheme.

Ald. Sutherland thought that electric light could be supplied for the present winter if needed. The council would put a meter at the edge of the city, and the residents would take the current from there, putting in their own system and looking after their own collections. The only expense to the city would thus be for the measuring devices at the point where the current was taken up. There was, of course, the question of boiler capacity at the power house, but that was only periodically, when it was necessary to clean one of them. To provide for this arrangements had been made to use a small boiler belonging to Mr. Munson.

After some further talk on the subject the deputation withdrew.

Before the question of light was left, a resolution was put through fixing a minimum rate for light users. In last amending the by-law dealing with light rates, the Mayor explained, the minimum rate had been unintentionally struck out, and the object of the resolution was simply to restore it to what it was before, a minimum charge of $1.00 per month. The change would affect the light bills for August.

The following letter was received from the manager of the Bank of Montreal and read:

"To the Mayor

"Dear Sir,—This Bank has gone to considerable trouble and expense in planting trees on the streets opposite the bank building. Several times some of them have been broken down and within the last week the long tops of two of the trees on Bernard avenue have been deliberately broken off. I would suggest that your council draw the attention of the public through the press to such outrageous behaviour on the part of hoodlums or fools and that the police be instructed to give their attention to the protection of trees on the streets.

Yours faithfully,
P. DuMOULIN,
Manager."

A resolution was passed authorizing the city clerk to issue a cheque for $65.00 in payment of debenture coupons Nos. 4 and 5, By-law 38, which had been lost in the "Titanic" disaster.

A letter was read from the Provincial Board of Health, advising the city that the sewerage plans recently submitted had been approved and filed.

The Mayor read a number of petitions from property owners requesting sewers to be installed under the Local Improvement By-law.

The petitions called for sewers on:—

1. The alley behind the stores on the south side of Bernard Ave. from Ellis street to the end.
2. The alley north of Bernard avenue from Water street to Ellis street.
3. On Bernard avenue from Ellis street to Richter street.
4. On Bernard avenue from Richter street to Ethel street.
5. From Bernard avenue along Richter street to Glenn ave, and up Glenn ave. to Ethel street.

The applications were filed for the present, a by-law it was mentioned was being prepared to deal with the installing of sewers.

Mr. F. S. Coates attended in reference to the opening of the lane behind the Lakeview hotel, a roothouse belonging to the latter being built across where the lane should run. Mr. Coates said that Mrs. Newson, the owner of the property, had been in town last week and he found that she had no papers or records in her possession which could give her any claim to the ground on which the building stood He had, therefore, had the building examined with a view to moving it but found that this could not be done without destroying it. He asked as the lane was not immediately required, that the building be allowed to stand until the sewers had been put in. If he pulled the building down he would have to erect a fireproof structure, and he did not wish to do this until the location of the sewers had been fixed.

There was some demur owing to the fact that the limit of twenty-one years during which the council could claim its right to the lane was near at hand, and there was, moreover, some doubt as to the exact date when the shed was erected. It was agreed, however, to wait until the sewers had been placed in.

Ald. Blackwood brought up the question of the water connection to the exhibition grounds. He said he would like to see the council provide free water and light as an encouragement to the Association.

Ald. Sutherland said free light had been given last year because they had no meters in hand at the time. As to free water, he pointed out that the main pipe line had been put along in the direction of the grounds mostly for the use of the Association. It was doubtful if it would ever be used except by the Association. Consequently he thought that if the city placed a connection into the grounds they had done all that could be reasonably expected.

Chief Sutherland drew the attention of the council to the condition of the life-saving apparatus on the wharf. The life-belts were rotten and new ropes were required. The dragging apparatus too seemed to be of very little use.

The matter was left in the chief's hands to see that the apparatus was put into proper shape.

Ald. Blackwood introduced a discussion on street grading, advocating a uniform system, to be fixed by a resolution of the council.

Ald. Sutherland pointed out that no resolution they could pass would be binding upon future councils or prevent them from following their own ideas.

The meeting adjourned until Tuesday next.

Large Crowd Visits Peachland Regatta

Between two and three hundred people from Kelowna visited Peachland Regatta last Thursday. Most of these were carried on the s.s. "Orchard City," which had been chartered for the occasion by the Fire Brigade boys. Two trips were made, one in the morning at 9 o'clock, which included the Senior War Canoe crew who were scheduled to race in the morning against Peachland for the Forester's cup,—and won it too by about half-a-dozen lengths. The Junior War Canoe race went to Peachland after a good contest. Kelowna won the Senior race for the Lang cup and medals, but tied with Peachland for the Robinson shield. In the Mixed War Canoe race Peachland carried off the honors. Foote of Kelowna broke his paddle and jumping overboard swam ashore.

Several of the other events were won by Kelowna contestants. I. Weddell won first in the boys' swimming race for 12 years and under, and third in the 15 years and under.

The 60 yards men's swim drew only three entries—all Kelowna men. Errington tied with Beale, and swimming again Beale came first.

The diving resulted, Neale of Kelowna first, Batchelor of Peachland second and J. F. Burne third.

The Peachland committee were favored by splendid weather, and the result was a most enjoyable day's sport.

Government Appoint Local Irrigation Engineers

The government has decided to appoint a number of local engineers to be stationed in the dry belt of the province and to have charge of the distribution of water to the farmers for irrigation purposes. It will be their duty to decide how much water each farmer shall have in view of the kind of crop he is growing and upon what days of the week the water shall be utilized by each farmer. These engineers will also help to collect data for the provincial water survey, which is now being undertaken, and which when completed will constitute a complete record of all the streams of British Columbia; their height and flow at different seasons of the year; the amount of power that can be developed; the quantity of water available for irrigation, and any other information about them that may be useful. It is probable that the new officials will be named as soon as the Minister of Lands, the Hon. W. R. Ross, returns from his present trip to the east.

—"Province."

Sad Drowning Disaster

As the news of the sad drowning accident which occurred last Saturday afternoon became circulated around town, expressions of horror and sympathy were heard on every side. The victim, Mrs. Eva P. McMillan, while bathing near the Aquatic building, got out of her depth, and being unable to swim sank out of sight and was drowned before help could reach her.

The deceased young woman was the wife of Niel McMillan, formerly of Kelowna, now living at Seattle, a daughter-in-law of Mr. Dan McMillan, and was here on a visit from Seattle, where her husband is at present working. She and her sisters-in-law, Annie and Jessie, had been down to the bathing beach frequently during the past few weeks, and on Saturday afternoon had followed their usual practice. They had been in the water some little time when Annie McMillan heard her sister-in-law shouting for help. She saw that Mrs. McMillan was getting beyond her depth and swam to her assistance, but after a few frantic struggles had the horrifying experience of seeing the unfortunate woman throw up her arms and sink from sight. Several people were in the water at the time but it seems that only one or two heard the pathetic cry for help, and it was not until some time after that even those in the immediate neighborhood realized that someone had been drowned.

As soon as they heard that someone had gone down Messrs. Willis, Beale and Foote and others made gallant efforts by diving at the spot indicated to recover the body but at the time no trace of it could be found.

Chief Constable Sutherland was summoned and getting assistance commenced dragging operations at once. The accident happened about four o'clock in the afternoon, and although dragging was continued until midnight the efforts were fruitless. Sunday morning as soon as daylight appeared the dragging was recommenced and about nine o'clock the body of deceased was found in about 70 feet of water some twenty yards out from where she sank. Sadly the remains were conveyed to the undertaking parlors to await an inquest.

A jury was summoned Monday morning and the inquest was commenced before Dr. Boyce about ten o'clock. The witnesses called were the Misses Jessie and Annie McMillan, Ruby Raymer, Mr. Beale, Dr. Knox and Mr. Foote, the latter in charge of the bathing cubicles for the Aquatic Association.

The story of young Annie McMillan, who was practically the only eye-witness of the dreadful calamity was pathetic in the extreme, twice had the deceased, as she slipped further and further down the sand into the deep water, grabbed her, but each time she had managed to get free. She had told the other girls near that Mrs. McMillan had sunk, but for a time they had believed her to be only fooling them, and thus valuable time was lost before a general alarm was given.

It was this element of doubt which was the saddest part of the unfortunate affair. No one seemed to know just what had happened. The children were naturally excited and could not give any coherent account, and those who had rushed to the rescue and were diving in search of the body were themselves scarcely convinced that the whole thing was not a hoax. Mr. Beale in his evidence said it was fully twenty minutes betore he was quite sure that someone was drowned. If the alarm had been given at once the young woman could have been saved.

Evidence was given as to the nature of the shore which slopes down gradually to a depth of about six feet when the edge of a kind of bench is reached beyond which the water is of very great depth. The Association has placed a rope with floats to mark the limit for non-swimmers, but as it was stated bathers frequently take chances and get out beyond the rope. Mrs. McMillan was beyond the rope at the time and it is supposed that the strong wind from the south and the wash from the s.s. "Okanagan" which passed at the time had swept her from her feet.

In the examination of the witnesses an endeavor was made to secure suggestions as to how such an accident could be avoided in future, and it is probable the Aquatic Association will take the matter up.

The jury's verdict was to the effect that Mrs. Eva P. McMillan was accidently drowned, and a recommendation was added that the buoy rope be extended along in front of the grand stand, and that some alarm be placed in a suitable position with instructions as to its use.

The sorrow-stricken husband who was wired for to Seattle, arrived by Monday's boat, accompanied by his unfortunate wife's sister. He left again Wednesday morning taking his wife's remains to Seattle which had been her home previous to their marriage about two years ago, for interment.

Neil was well known in Kelowna which he had left about four years ago, and the sympathy of everyone is extended to him and the two families in their sorrow.

Dominion Fruit Crop Report

Apples Plentiful in Canada but Short in Europe

The fruit crop report of the department of Agriculture issued last week states that the prospects of the apple crop are favorable. From most quarters the growth is reported to be excellent and in many cases larger than usual.

At the same time all apples are likely to be smaller than usual, and the average in parts of the St. Lawrence Valley districts is less than half a crop, and in some instances total failures are reported.

The conditions of the market so far as Canadian apples are concerned is fairly re-assuring. The apple crop in Europe is short, and this shortage has a direct influence on the export price of Canadian apples.

Germany imports an average of three million barrels of apples from the surrounding continental countries annually, and there seems no reason why there should not be a splendid opening this year in Germany and probably other countries on the continent.

The prospect for improved transportation from Canada direct to Germany is good. France may be expected to take fairly large quantities of the late winter varities of apples, and the British markets, where there is undoubtedly a general shortage of fruit, offer more than ordinary attractions this year.

In Eastern Canada pears are light and in the Lake Ontario country north to Sharbot Lake and Georgian Bay, they are almost a failure. The grape crop is excellent.

The report states that the small fruit crop of Canada is suffering a decline, the causes being difficulty in getting packers, the inadequate transporiation facilities, and sometimes low prices.

Mr. Geo. Meikle returned yesterday from his holiday at the coast.

Mr. J. W. Jones and his daughter Winnie left for Sicamous this morning, the latter on her way to Whitby, Ont., where she will attend college.

The Court of Revision held three lengthy sessions Thursday last considering complaints against the assessment roll. These were numerous, some 60 or so, but only a small proportion were allowed.

Monday is Labor Day and the opening of the shooting season. Local Nimrods have been making preparations for a long time for the auspicious occasion, and a good many rifles have received their annual clean up. In town the Sports Association will hold their annual Gymkana at the polo grounds.

Fire broke out this afternoon at the residence of Mr. Harker on Abbott street during his absence at the tennis court. The rear of the house was badly damaged, but the remainder of the house and its contents escaped thanks to the fire brigade whose usual promptness averted what might have been a serious conflagation.

Rutland News

From our own correspondent

Mr. John Charlton has sold his 20-acre bench lot to Mr. E. Kelly.

Mrs. Sam Gray and Arthur have joined the stampede to Calgary for ten days.

Mr. and Mrs. Lee have left for a prolonged visit to England.

Miss Edna Wanless, of Fort William, is visiting her cousin Miss Gladys Bird.

Mr. A. W. Dalgleish and family returned from Winnipeg on Tuesday.

Mr. W. Schell's new two-storey house is to be 22 ft. by 25 ft.

The friends of Mr. and Mrs. Vance will be sorry to hear of the severe illness of their little child at Winnipeg.

Mr. J. Clever is putting up a substantial two-storey residence, 16 ft. by 30 ft., with addition, 15 ft. by 16 ft.

The school flag is once more flying. Mr. Warden reports several children who are attending school for the first time.

Mr. and Mrs. J. W. Ford and family, of Sarnia, Ont., have moved into the district. Mr. Ford has bought the Riley orchard.

Mr. Ford's house is to be a two-storey one, 18 ft. by 26 ft. He is also building a good sized barn and stable.

A few Kelowna friends gave a surprise visit to Mr. and Mrs. J. Stoddart on the occasion of the 20th anniversary of their wedding day.

Mr. W. McDonald is completing a temporary bungalow and will commence the permanent building later on.

Building operations have taken a sudden boom and four houses have already been started and others are being arranged for. Messrs. Schell Bros. are working on three houses.

Miss Ruby Hunter, of Kelowna, has been appointed to the position of second teacher. She comes well recommended and we hope she will be welcomed and made to feel at home amongst us.

The Methodist Bible Class picnic was not very largely attended and many who drove to Woods Lake were caught in the heavy rain which would tend to put a damper in a double sense on the day's pleasure.

Okanagan Centre

(From our own correspondent)

Born.—To the wife of James Lidstone jr., on Saturday, the 17th inst., a son.

Born.—To the wife of Rev. D. Robertson, on Tuesday, the 20th inst., a son.

A farewell dance and supper was given at the residence of Mr. J. Goldie on the Rainbow Ranch, in honor of Miss Goldie and her friend Miss Ross, who after a most enjoyable visit extending over several weeks, left for the east on Monday's boat.

Another of the fortnightly series of "At Homes" held by the Okanagan Centre Tennis Club took place place on Saturday last. The dance in the evening in the Westbury Hall was attended by the members of the tennis club, and a number from the outside including parties from Rutland and Ellison districts.

Mrs. W. T. Ashbridge and family returned Saturday last from a visit to the coast.

A gay little party consisting of Mr. and Mrs. Chas. Regenery, Capt. and Mrs. Bertram, Mr. and Mrs. Downing and Mr. Storey, spent last Monday picnicing across the lake at Mr. Pease's orchard, amongst the ripe peaches. Perhaps this will explain the sounds of revelry which were heard floating across the placid waters during the forenoon.

Under this heading communications will be received upon any subject of interest. Letters must be signed, be brief, avoid personalities. The Editor does not necessarily endorse opinions given below.

To the Editor of
The "Kelowna Record,"

Dear Sir:--

I would be glad if you would acknowledge through your press the receipt by me of the following amounts, subscribed for the purpose of erecting a monument in memory of the late William Constable, who met his death by accident on the 4th of March last.

Thomas Clarke $5, W. H. Green $5. S. S. Ross $5, J. W. Roberts $5, G. Ralle $2, J. W. Edwards $2, A. McLaughlan $2, F. M. Bryan, $2, W. Wescott $2, E. H. Thomas $2, J. Lawrence $2, J. Burt $3, A. W. Thompson $5, H J. Johnson $5, I. MacRae $2, H. Arthurs $2, Geo. Wallace $5, H. T. Chapman $2, A. Taggart $2, R. Stenhouse $2, D. Chapman $5, G. C. Hume $2, A. R. Reed $5, Geo. Royle $5, Lee Brown $5, F. Royle $5, Kelowna Irrigation Co. office staff $10, D. Sullivan $2, J. Constable $4.80, M. Perry $5, C. Buck $5. Total $115.80.

A rough granite cross has been purchased and erected at the grave at a cost of $85, leaving a balance of $30.80. With the balance it is intended to purchase a granite curbing to go around the grave. this curbing will be placed in the spring of 1913 when the earth will be well settled.

Yours faithfully,
W. R. REED.

P.S.—The inscription on the stone is as follows:

"In Loving Memory of William Constable, (late of Scarboro, Yorkshire) who met his death by accident on 4th March, 1912. Aged 38 years. Erected by his friends and co-workers."

Vaccine to Prevent Typhoid

The provincial Board of Health has issued a bulletin on the value of inoculation as a protection against typhoid fever. The vaccine may be injected by a doctor or by a trained nurse and three injections are sufficient, at intervals of ten days. Dr. Bapty, in the bulletin, states that after the first injection there may be a slight feeling of illness and headache, but seldom sufficient to cause a man to abstain from work, while the subsequent injections cause no discomfort. Statistics, he adds, have shown that of those properly inoculated wherever it has been tried practically *none have taken typhoid* within a year, and protection is probably afforded for a much longer period.

"Were all medicines as meritorious as Chamberlain's Colic, Cholera and Diarrhœa Remedy the world would be much better off and the percentage of suffering greatly decreased," writes Lindsay Scott, of Temple, Ind. For sale by all dealers.

EXTENSION OF TIME

NOTICE is hereby given that the time for the reception of tenders for the construction of the Victoria Harbour, B. C., Breakwater, is extended to Wednesday, September 18, 1912.

By order,
R. C. DESROCHERS,
Secretary.

Department of Public Works,
Ottawa, August 23, 1912.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for the lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Canadian Forestry Convention at Victoria

Everything is now in readiness for the Canadian Forestry Convention in Victoria, September 4, 5, 6.

The association is providing a strong program with the leading authorities on fire protection, lumbering, reforestation and forestry education in Canada and many prominent men will come from the United States.

The government of British Columbia has taken a keen interest in all the arrangements and Sir Richard McBride and Hon. W. R. Ross, Minister of Lands, will address the convention. Among those from a distance are the Minister of Crown Lands for Quebec, Hon. Jules Allard; Dr. B. E. Fernow, one of the leading forest engineers on the continent; Aubrey White, Deputy Minister of Crown Lands for Ontario; Hon. W. A. Carlton, ex Minister of Crown Lands, of Ontario; R. H. Campbell, Dominion Driector of Forestry; Clyde Leavitt, Forester of the Commission of Conservation; E. T. Allen, Forester of the Western Forestry Association, Portland, Leading lumbermen and timber owners from all parts of Canada and the United States will be present. Mr James Lawler, the secretary, has been for several weeks in Victoria, making arrangements and a strong local committee has been formed to look after the social arrangements which include a reception by the government, a garden party and a banquet at the Empress Hotel. The railways have granted special rates and everything promises one of the most important conventions ever held on the coast.

First Convocation of the New B. C. University

The first convocation of the new University of B.C., held last Thursday resulted in the appointment of the following executive:

Chancellor.—Hon. F. L. Carter-Cotton, Vancouver.

Secretary.—J. S. Gordon, Victoria.

Treasurer.—C. D. Rand, Vancouver.

Senate.—Messrs. R. E. McKechnie, Vancouver; F. O. Howay, New Westminster; N. Wolverton, Nelson; J. S. Gordon, Victoria; Mrs. J. W. de B. Farris, Vancouver; W. P. Argue, Vancouver; F. C. Wade, Vancouver; W. D. Brydone-Jack, Vancouver; J. M. Turnbull, Trail; E. W. Sawyer, Summerland; Mrs. M. A. Watt, Victoria; C. D. Rand, Vancouver; G. Hunter, Victoria; J. M. Pearson, Vancouver; and E. P. Davis, Vancouver, and Bishop A. U. de Pencier, New Westminster, tied for the fifteenth and final place on the Senate.

Executive Committee.—Dr. L. O'Brien, Nanaimo; Mr. C. H. Lugrin, Victoria; Mr. W. H. McInnis and Mr. Cecil Killam, Vancouver; and Dr. Walker, New Westminster.

Over five hundred were present. Professional men and educationists from all over the province were in attendance.

The deliberations of the convocation were marked by the unanimity of purpose shown and the earnestness and dignity attendent on an event which everyone present regards as marking an epoch in the progress and advancement of the province.

Dr. Young, minister of education looked forward to degrees being conferred at the Convocation in 1914.

At present it is expected that the average yield of grain in Manitoba will be 20 bushels per acre. In Saskatchewan and Alberta the yield is expected to average 25 to 30 per acre. Twenty-five per cent. of the crop has been cut about Medicine Hat and at Lethbridge; fifty per cent. at Calgary; thirty per cent at Langdon; forty per cent. at Irricana and twenty five per cent. on the Crow's Nest line.

In the presence of all the Salvation Army commissioners and the principal officers in London, General Booth's testament, entrusted to the army's solicitor twenty two years ago, appointing the late commander-in-chief's son, Mr. Bramwell Booth to succeed him, was opened and read. Bramwell Booth who has been chief of staff of the Salvation Army since 1880, accepted the succession formally with much feeling.

A vast amount of ill health is due to impaired digestion. When the stomach fails to perform its functions properly the whole system becomes deranged. A few doses of Chamberlain's Tablets is all you need. They will strengthen your digestion, invigorate your liver, and regulate your bowels, entirely doing away with that miserable feeling due to faulty digestion. Try it. Many others have been permanently cured—why not you? For sale by all dealers.

DEPARTMENT OF WORKS

NOTICE TO CONTRACTORS

SEALED TENDERS superscribed "Tenders for School-house, North Kelowna," will be received by the Honourable, the Minister of Public Works up to noon on Wednesday, the 11th day of September, 1912, for the erection and completion of a large, one-room frame school house on concrete foundation and detached toilets.

Plans, specifications, contract and forms of tender may be seen on and after the 22nd day of August, 1912, at the offices of the Government Agent, Vernon; the Secretary of the School Board, J. S. MacKenzie, Kelowna, and the Department of Public Works, Parliament Buildings, Victoria, B. C.

Each proposal must be accompanied by an accepted bank cheque or certificate of deposit on a chartered bank of Canada made payable to the Honourable, the Minister of Public works, for the sum of $200 which shall be forfeited if the party tendering decline to enter into contract when called upon to do so, or if he fail to complete the work contracted for. The cheques or certificates of deposit of unsuccessful tenderers will be returned to them upon the execution of the contract.

Tenders will not be considered unless made out on the forms supplied, signed with the actual signature of the tenderer and enclosed in the envelopes furnished.

The lowest or any tender not necessarily accepted.

J. E. GRIFFITH,
Public Works Engineer.

Town and Country

Mrs. Thos. Lawson and family returned Monday from Victoria.

Miss Greenwood left Monday morning to visit her sister near Edmonton.

Mrs. J. W. Jones and family returned Monday after a stay at Victoria.

Mr. and Mrs. T. W. Stirling and family left Monday morning for a visit to the Old Country.

There will be evensong as usual on Sunday next at St. Michael's church.

Mrs. A. Edwards will be at home to her friends on Thursday afternoon, September 5th.

Mrs. Hugh McAninch who has been spending a few days with her brother, Alex M. Cowan, Benvoulin left for her home in Vancouver yesterday morning.

The steam roller has been busy during the past week on the government road between the end of Bernard avenue and the Five Bridges. A much needed improvement will thus be effected.

The Rev. D. J. Welsh is commencing a short series of addresses on Our Great Hymn Writers. The first will be given next Sunday evening when the life of Isaac Watt will be discoursed upon.

Mr. and Mrs. A. W. Barber had the great misfortune to lose their only child, Della, a little girl of some nineteen months Saturday last. The funeral took place Monday morning, a large number of sympathizers attending the service which was held at the house.

The Kelowna War Canoe crew were fitted out this year with handsome new uniforms presented by Messrs. T. Lawson, Ltd., a generous and practical encouragement of a manly sport, for which they deserve the greatest credit. But Lawson's are generally to the front with that kind of thing.

Mr. D. C. Foster is commencing next Tuesday an auction sale of his stock of crockery, as he has no intention, now that he has disposed of the hardware to Messrs. Dalgleish & Harding, of continuing in the business. The latter firm require the whole premises.

Saturday afternoon last was hard on delivery rigs. A saddle horse tied to the fence on Abbott street first pulled loose and bolted, extending an invitation to Lequime's team which stood near. They followed with a bold dash leaving the rig a little further on by the side of a telephone pole with the tongue broken and otherwise damaged. A little later the McKenzie Co.'s team started on a joy ride down the back lane. The rig was over turned and portions of it strewn or a considerable distance.

Miss Edna Wanless who has been visiting friends in town, left Wednesday morning for her home at Fort William, Ont.

Dr. Gaddes, Mr. N. D. McTavish and Mr. C. A. MacLeay left Tuesday for Calgary to take in the big "Stampede."

The Oak Hall Clothing Co. have built a considerable addition to their warehouse at the rear of the store, and are making alterations and improvements and redecorating the store itself.

An innocent attempt to air a damp bed unintentionally caused considerable excitement last Sunday afternoon, Mr. Norman Day being the principal actor. Some sparks from the stove set fire to the bed, and to save the house the bed was thrown out of the window. Here it flared up and scared a small boy who turned in an alarm of fire. The brigade rushed valliantly to the scene, but the fire had been extinguished with a garden hose.

One of the most common ailments that hard working people are afflicted with is lame back. Apply Chamberlain's Liniment twice a day and massage the parts thoroughly at each application, and you will get quick relief. For sale by all dealers.

Wilson Landing and West Side Notes

(From our own correspondent)

(Too late for last week)

Miss J. Wilson has returned from a visit to Penticton.

In spite of the abundance of fruit that has been grown here it seems to be in fair demand on account of its large size, good flavor and keeping qualities.

Mr. and Mrs. J. B. McKinley were visitors here during the past week. They report a bumper crop of grapes at their place. Several cougar were noticed over there quite recently, being within a few yards of Mr. McKinley's, as they drank at the lake.

Mr. J. Somerset and his sister spent the day with the Misses Goodacre on Tuesday last. Miss Somersett who with her mother has lately arrived from England, seems to be very interested and appreciative of life out here. Their arrival marked a pleasant epoch in the lives of their bachelor brothers.

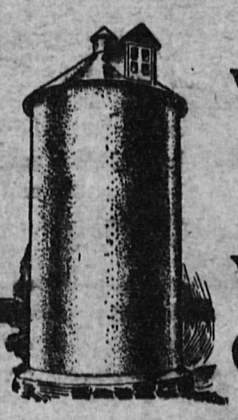
One of our crying needs here is a road that can be used. A small road gang is out now patching up to some extent such a one as we have had, but it has been for a long time quite inadequate. Until now even for a few miles near the wharf it had not been fit to haul fruit upon, and further south the road would make an excellent goat trail only. When any of the residents here run out of hay, they have to have it shipped in instead of buying from a neighbor, who though only a few miles south of the wharf cannot be reached with such a road. We have no road communication with West Bank which place would greatly benefit by a through road. There has been much talk of a lake shore road, but the already expensive attempts at such should prove its futility. If such a thing were possible and it was used as a motor drive, one would view the beautiful scenery of the country about as well by going down in a well and gazing aloft as attempting to view it from such a position.

DAVIES & MATHIE

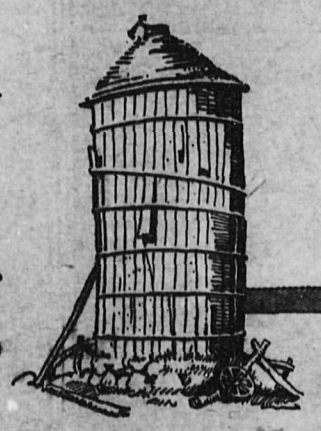
Ladies' and Gents' Tailors

PENDOZI STREET

Repairing and Pressing promptly attended to.



What kind of a silo will yours be?



Wood—or Concrete?

IF you were to build two silos—one of wood, the other of concrete—side by side, and then could see them as they will look after five years of service, you wouldn't have to think twice to decide which is the best material. In a few years more there wouldn't be much of the original wooden silo left—the repairing you'd have to do would be as troublesome and cost as much as the building of an entirely new one. But the passage of five, ten, fifteen or even twenty years will make no difference to the hard-as-rock wall of the concrete silo.

CONCRETE SILOS LAST FOREVER

WIND, rain, fire and lightning are alike defied by concrete. You need no insurance against its destruction, because it *cannot be destroyed*. Concrete silos are best for another reason. The concrete keeps the ensilage at an even temperature, so that it "cures" better, and therefore contains more food-value for your stock.

YOU CAN BUILD ONE YOURSELF

No matter whether you have ever used concrete or not, you can build a concrete silo. Our book, "What the Farmer Can Do With Concrete," gives all the information you will need, not only about silos, but about scores of other uses for concrete on the farm. It isn't a catalogue, nor an advertising circular. A handsome book of 160 pages, well illustrated, and written for farmers. It is free. Just send your name and address on a postcard or in a letter and the book will be sent free by return mail.

Address Publicity Manager

Canada Cement Company Limited

503 Herald Building, Montreal

WHEN you buy Cement be sure that the "Canada" label is on every bag and barrel. Canada's farmers have found it to be the best.

The Three Guardsmen

The Gurney-Oxford Range is fitted with three devices which constantly and uncompromisingly stand on guard to see that the fire is always under perfect control—that the coal bills are sheared down to the lowest figure—that the oven is always evenly and properly heated—that no clinkers obstruct the free burning and proper ventilation of the fire.

The Gurney-Economizer, fitted on the smoke pipe, is the only draft you have to attend to; a small lever put up or down entirely regulates the fire. It saves one ton of coal in six. It carries little heat up the chimney—only the smoke. It feeds the gases which burn to the fire-box, and it cannot be had on any other range than the Gurney-Oxford.

The Gurney-Oxford oven is surrounded by flues that carry an equal amount of heat to all sides. This almost guarantees results in cooking by providing an oven evenly heated, without cold corners or variation.

The Gurney-Oxford Grate is the result of exhaustive tests to find the proper carrying surface for the fire. The fire has abundant air to breathe, and the less amount of coal burned is all consumed. So then, the housewife who has the "Three Guardsmen" watching over her range, will experience security and satisfaction in cooking that is not provided by any other range.

D. LECKIE - Kelowna
