## City Council Holds Regular Meeting

### Endorses Appeal For Highway to Coast --- Year's Estimates Held Over to Next Meeting

The city council held its regular meeting on Monday evening last, the business transacted being chiefly confined to matters of ordinary civic routine.

The correspondence, which was first dealt with, included a copy of a resolution passed by the council of the City of Kamloops urging the immediate adoption of a route for a highway connecting the coast with the interior, and the commencement of construction in the spring. This was endorsed.

A discussion took place upon the rate of wages of the power house staff. At a previous meeting it had been arranged to pay according to the prevailing Union scale for engineers and firemen, and inquiries were made to ascertain what these rates were. The information which came to hand showed that the Union scale would place the chief engineer's wage at 90c per hour, second and third engineers at 70c per hour, and fireman at 50c per hour, with time and one-half for Sundays and legal holidays. After a long discussion it was decided to adopt these rates.

Tenders were received for repairing and painting the firehall and the contract was awarded to G. F. Budden for $282.80.

Building Inspector Bigger suggested that the council take into consideration the expediency of amending the Building and Fire Limit By-law to permit the erection of garages on residential property within the fire limits. He pointed out that the present limit for outhouses was 120 square feet which did not permit the construction of a garage within the fire limits of other than fire-proof materials, and he had received several applications for garages which would not be of fireproof material.

The council promised to take the matter into consideration.

Mayor Sutherland submitted a letter received from the Soldiers' Settlement Board suggesting that the council obtain the names of all practical farmers in this district who are willing to employ Imperial veterans for a term of from one to two years and thereby enable them to qualify for loans under the Soldiers' Settlement Act.

As the matter was deemed one of considerable importance the communication was laid on the table for further consideration.

Ald. Rattenbury reported that a further proposal had been submitted by the owner of the city police offices, namely, that in consideration of a cash payment of $1,250 the price would be reduced to $2,500 and that no further payments would be expected until a sufficient time had elapsed, at the rate of $30 per month, to reach the sum of $1,250. The council decided that as there were no funds available, to adhere to their former decision to purchase the property at the rate of $30 per month.

Financial estimates were submitted by several of the committees but were laid on the table until the next meeting.

The resignation of Miss Muriel Crawley as a member of the office staff, was received, the clerk reporting that he had already advertised for a successor and had selected from amongst the applicants Miss H. E. McTaggart, whose appointment he recommended. Miss McTaggart had been employed in the Vancouver city office for four years and had received very high testimonials. Miss McTaggart was accordingly appointed at a salary of $80 per month.

---

The British Columbia government is asking the Dominion to turn back to the province the lands within the C.P.R. belt and the Peace River block.

The evaporating plant at Penticton erected in the fall of 1913 by the Penticton Fruit Growers, Dehydrating Co., has been dismantled. It has not been in operation since the first year.

## Rutland News

(From our own correspondent).

Geo. Cross and family returned Saturday from their visit east.

Flu has been very prevalent in Rutland during the past week with two or three rather serious cases.

Leslie Richards returned this week to his work on the K.V.R. line which was suspended for the winter.

A. H. Eldridge came back last week from the coast for a short visit. He plans to dispose of his property here when he will go to Detroit where he has taken a position.

The Rutland Athletic Club concert, which was postponed on account of the flu epidemic, will be held on Thursday, March 25th. Further details will be given next week.

## New Dance Orchestra Organized

A new musical organization to be known as the "Lyric Orchestra" has been formed in town. While the primary object is to play for dances it is announced that the members of the orchestra intend giving during the summer months a series of concerts in the aquatic stand, which will no doubt be greatly appreciated by the public. The orchestra as constituted at present, consists of Mrs. A. McMillan, piano; Mrs. Rutherford, violin; F. V. Coxon, cornet; Bain Calder, trombone; and B. Treadgold, drums. Mr. Coxon is also the executive head of the concern to whom all applications for information should be made.

In order to introduce themselves to the public the orchestra is offering their services free to any society or individual who will organize a dance, provided the proceeds are handed over to some public institution.

## To Open New Auto Showroom and Garage

Mr. M. A. Alsgard announces the opening of a new show-room and automobile service station on Lawrence Avenue in the former sample room. Mr. Alsgard has for some time been one of the most active and enterprising of the automobile salesmen in the city, and has probably been successful in placing more cars and trucks than any other dealer. He has felt the need of a permanent show room and service station and the opportunity came in the starting of a new garage and repair shop which is to be opened to the rear of Mr. Alsgard's showroom. This new venture will be in the hands of Mr. R. Johnson, long known in the city as an expert machinist, and Mr. George Sutherland, who has had several years' experience in automobile and engine work.

Mr. Alsgard's agencies now include in addition to the Chevrolet and Studebaker, Commerce Trucks and Allis-Chalmers Tractors. Shipments of all these are on the way, a car of Studebakers arriving on Saturday.

## Wednesday's Wedding

### BURNE—DeHART

The marriage took place Wednesday morning at St. Michael's Church of John Holland Burne, son of Mr. and Mrs. J. F. Burne, to Miss Gertrude Bay DeHart, daughter of Mr. and Mrs. F. R. E. DeHart. The ceremony which was performed by the Ven. Archdeacon Greene was a quiet one, only the immediate friends and relatives being present. After a wedding breakfast at the home of Mr. and Mrs. DeHart, the bride and groom left by car on their way to the coast.

---

A settlement of the differences between the Federal and British Columbia governments are provided for in a bill to be introduced by Hon. Arthur Meighen, minister of the interior.

## No New Flu Cases Since Wednesday

### May Remove the Restrictions Next Week if This Continues

The flu epidemic, though now apparently on the wane, has claimed several more victims during the past week, the most distressing feature being that they were all mothers with young families. The thought of so many young children thus left without the loving care and protection which only a mother can give adds greatly to the pain of bereavement.

The course of the epidemic has been very sweeping, and it would be difficult to estimate the number of cases which have resulted.

On Wednesday only five new cases were reported and since then none, so that it seems reasonable to hope that the dread scourge has run its course. The ban is still on, however, in fact it was further tightened a few days ago by the closing of all bars and poolrooms. In answer to inquiry, the medical health officer states that should there be no new cases break out, it is likely that the restrictions will be removed towards the end of next week.

**The late Mrs. T. A. Woods**

Death visited the home of Mr. T. A. Woods, of Glenn Avenue, last Friday morning, when his wife Doris Christine, passed away suddenly after giving great promise of recovery from the influenza and pneumonia, from which she had been suffering. Mrs. Woods was born out in the old country but had lived for many years in the Kelowna district. She was a daughter of the late T. Vernon, who at one time owned a ranch on the west side of the lake. Her sister, Mrs. R. C. Bennett, is now living in Vancouver. Through her death Mr. Woods is left with the care of three young children, and has the sympathy of the whole community in his great loss. A funeral service was held Saturday morning at St. Michael's church, conducted by the ven. Archdeacon Greene.

**The late Mrs. F. V. Royle**

Only two weeks following the death of her sister, Mrs. Leathley, Mrs. F. V. Royle passed away on Monday morning from pneumonia and other complications following an attack of influenza. The shock of her sister's death had no doubt much to do with the serious turn her illness took. As Miss Janet Turner the deceased came to Kelowna nearly twelve years ago with Mr. and Mrs. Leathley. Six years ago she was married to Mr. Royle whose distress at this sudden bereavement is naturally very keen. There is one little girl, five years of age. The funeral service was held Tuesday in St. Michael's church by the ven. Archdeacon Greene.

**The late Mrs. E. Gauvin**

A particularly sad death added to the toll of the flu epidemic was that of Mrs. E. Gauvin, which took place Monday night, by which six young children, all under eleven years of age, and the youngest but a baby a few weeks old, are left motherless. Like so many cases, Mrs. Gauvin was apparently getting over the danger, though she had been in a critical state several times. Her condition was aggravated by the fact that just before her confinement she had suffered a bad fall, which had been a severe shock to her. "Joe" Gauvin, as her husband is generally known, returned about a year ago from overseas service with 172nd. The funeral took place Wednesday from the Catholic Church.

**The late Mrs. W. Shand**

Mrs. Margaret Campbell Shand, wife of Wm. Shand of Okanagan Mission, died Tuesday in the Kelowna Hospital from pneumonia and influenza following confinement a few weeks ago. Mrs. Shand was a native of Ontario, and came to Kelowna on her marriage about a year ago. She was well-known and highly respected at Okanagan Mission where she took a great interest in church and social work

The funeral service was held Thursday afternoon at St. Andrew's Church, Okanagan Mission.

---

A death from flu last week of which mention was omitted, was that of the infant child of Mr. and Mrs. Arthur Gardner, who recently came to Kelowna from Penticton. Every sympathy is extended to them in their loss.

## Judge Hears Cases of Juvenile Shopbreakers

### Is Lenient Out of Consideration For Their Youth

Judge Swanson was down Tuesday and held a session of the court for the purpose of going into the case of the three young boys who were charged some time ago with breaking into Campbell's bicycle store on Pendozi street. Owing to the youth of the offenders and the previous bad records of one or two of them, difficulty had been felt in deciding just what to do with them, and the whole matter had been laid before the attorney-general. The absence of a juvenile court in Kelowna made it necessary that they should be brought before Judge Swanson.

Reluctant to impose the heavy penalty which the serious nature of their offence had merited, His Honor let the boys go on suspended sentence with bonds of $200 each for their good behaviour for a year. They were warned that no further leniency could be expected should they be involved in any further breaches of the law.

## Comparative Returns from Amusement Tax

The people of Vancouver who attended the theatres and moving picture palaces last year contributed $137,788.45 to the provincial treasury by means of the amusement tax. This was made known last evening by Hon. John Hart, in answer to questions asked by Mr. W. A. McKenzie. In the same period the amusement lovers of Victoria contributed $37,285; New Westminster, $5,237; Kamloops, $2,197; Vernon, $1,644; Nelson, $2,679; Kelowna, $678; and Penticton, $698.

## Budget Will Be Brought Down Next Week

The budget will be brought down on Monday, March 15, according to a statement made yesterday by Hon. John Hart, minister of finance. Departmental business combined with sickness which has kept the minister confined to his club for several days has caused some delay in getting his budget ready. With the budget down, night sittings will begin.

Premier Oliver is engaged in his spare time in the work of helping to get the estimates to a balancing point. Although the provincial revenues have risen by $1,500,000 since last year, the demands for money to meet interest on borrowed money and to provide funds for land settlement and other soldier enterprises have grown in excess of the increased income.

---

The fire which destroyed the wharf and buildings of D. Gellatly and Sons on the west side of the lake did damage estimated at about $2,000, with $4,000 insurance. The crew of the tug Castlegar assisted in fighting the fire. One of Mr. Gellatly's daughters suffered a broken leg while taking an excitable horse out of the stable.

Compulsory vaccination, as provided for in the Health Act, will be enforced among the school population of New Westminster. The intention is to have this put into effect at once so that the children will have the Easter holidays to recover from the effects. Provision will be made for the exemption of conscientious objectors.

## Wilson Landing and Westside Notes

The stork was a recent visitor at the Big Horn Ranch, bringing a little daughter to Mr. and Mrs. Perdue.

A number of the ranchers rode up to Ewings on Monday, March 1st to attend a meeting of the Westside Farmers Institute, amongst them being Mr. and Mrs. G. C. Browse and Mr. Leeley of Wilsons and Messrs. Leney, Perdue, Biggan and Cheeseman of Nahun. Amongst matters taken up were that of the very necessary road work and the organization of a Live Stock Association.

Mr. A. B. Rawkins went up to Vernon on Friday last, returning on Saturday. He brought with him Mrs. J. A. Rawkins and her little son of Vancouver, on a visit to Mr. and Mrs. Browse of Cotvale.

The recent news of the death at Vernon of Mr. R. St.John Wright, of pneumonia, came as a great shock to those who have been associated with him in the telephone service. He made many friends here amongst us, and deserved the sincere appreciation he has gained, as much for his conscientious attention to duty as for the genuine courtesy shown towards all with whom he came in contact. His loss will be much felt by many.

## Automobile Has Greatly Improved

"The appearance of the automobile has kept pace with its mechanical development," says M. A. Alsgard, local dealer in Chevrolet passenger cars and trucks.

"This fact is the more clearly emphasized by contrasting the trim, light, well proportioned cars of today with the bulky, pretentious affairs that only a few years ago were usually to be seen laid up for repairs by the wayside.

Those old cars were loaded down with wholly unnecessary weight, and their towering tonneaus only emphasized their snub-nosed hoods where one or two cylinder engines labored and gasped under burdens way out of proportion to their power.

It is no wonder that motors and parts continually gave out. Such is the penalty of weight; and even today a car that remotely resembles those heavy old relics immediately suggests trouble, inconvenience and expense to the motorist's mind.

The beauty of up-to-date light cars suggests their triumph over all these handicaps. Their clean low lines, their perfect finish, the neat one-man tops and tilted windshields, the absence of every unnecessary detail and the presence of every item of equipment that makes for greater comfort and convenience, are all signs of the great care that has been taken throughout in their mechanical construction.

In the most efficient cars the same perfect balance of size and line has been carried out in proportioning the weight to the motor so that maximum power is obtained with a minimum of fuel, and greater strength, comfort and dependability have displaced excess weight.

It is these things that have lifted the automobile from the plane of a sporting experiment to an indispensible part in modern transportation, and its ability to play the part is reflected in the general appearance of the modern car."

---

SLATER—On Thursday, March 4th, to the wife of Mr. H. Slater, a daughter.

Sir Oliver Lodge will lecture in Vancouver during his western tour.

That a powerful British iron and steel company will locate in British Columbia and establish a complete plant for the turning out of all the products of this industry is the news reaching Vancouver from the old country. The concern is a big organization and work on the preliminaries connected with its flotation for activity in British Columbia has already started.

## Annual Meeting of Boy Scout Assn.

### New Officers for Year --- Rutland to Have Troop --- Will Purchase the Camp Site

The long deferred annual meeting of the Scouts association was held on Wednesday the third instant as advertised and the officers for the year ahead are: honorary vice-presidents, the Ven. Archdeacon Greene and the Rev. Mr. Braden; president, Mr. P. DuMoulin; vice-presidents, Messrs. L. E. Taylor and Geo. S. McKenzie; committee, Messrs. F. W. Groves, W. J. Mantle, Chas. McCarthy, W. D. Walker and G. W. Cunningham, together with the Rev. Mr. Griffiths and Mr. E. Money of Rutland, and the scoutmaster and cubmaster ex officio. Messrs. Griffiths and Money are organizing a troop in Rutland and desired to act under the Kelowna association in the meantime, so they were both added to the committee. It will certainly be nice to have a strong troop in Rutland.

The secretary reported the resignation of Mr. Gordon last September as cubmaster, which was accepted with regret, but Mr. Gordon had made it clear that it was absolutely definite. In view therefore of his having been the first cubmaster of the pack and as a token of appreciation of his services it was decided that he should be made an honorary cubmaster of the pack and that he should be awarded the Thanks Badge. A letter was also read from Mr. Bartholomew, assistant cubmaster, who has been acting as cubmaster since Mr. Gordon's resignation, resigning his position as from the end of March. As he had since stated that he might be able to retain the position if given a few months leave of absence, it was decided that we should tender him our appreciation of his services and ascertain from him exactly how long he could carry on and for what period he would like leave of absence before dealing further with his letter.

Correspondence was also read with Provincial Headquarters relative to the appointment of a district commissioner for the Okanagan district and it was decided that they be asked to broach the subject to the other towns, but at the same time we write to the Rev. and Hon. Mr. Heneage expressing our appreciation of his visits in the past and the hope that he would still be able to continue them.

Messrs. W. J. Mantle and George Rowcliffe were appointed a special committee to wait upon the Okanagan Loan & Investment Trust Company to arrange terms of purchase of the Cedar Creek camp site and to see if the matter could not be financed.

A hearty vote of thanks was moved to all those ladies and gentlemen who had so kindly helped the scouts and cubs throughout the year particularly with the concert and camp and in acting as examiners for the different badges, to the Kelowna Courier and the Kelowna Record for publishing the weekly scout column, to Mr. Hewetson for his lessons in physical training, to Mr. Fred Gore for his instruction to the bugle band, to Mr. Mantle for auditing the troop cash, to the directors of the Exhibition Association for the free use of their building and to the Kelowna Board of School Trustees for the free use of a room in the old wooden school building.

---

The relations between the government and the farmers of the province, says Premier Oliver, have never been more cordial than at present, and the government will continue to aid agricultural development. Despite resolutions passed at conventions, the relations of the Farmers' Institutes and the United Farmers are still undecided. It sometimes happens that locals do not endorse what has been done at a central gathering, and it might be that many locals would not endorse the proposed amalgamation. Until they had decided their position, the government must legislate in order to carry on.

## Will Hold Important Press Conference

Arrangements for an Imperial Press Conference to be held in Canada next summer are rapidly approaching completion. This conference which will be attended by 100 of the leading editors and publishers of the British Empire, including men like Lord Northcliffe, Lord Burnham, Sir George Riddell and others of similar prominence, as well as publishers of Canada and some distinguished Americans promises to be the greatest event of its kind in the history of the British Empire.

The meetings of the conference itself will be held at Ottawa and will extend over three days, but before and after that event it is planned to take these distinguished journalists on one of the most extensive tours of Canada that visitors have ever had opportunity to make. The tour is to include a trip through the Okanagan valley, the date for which is at present given as August 23rd.

## Indians Are to Have the Vote

Among the important pieces of legislation which will be brought before the Federal House this session will be an act designed to do a measure of justice to the first possessors of this country. It will be placed before parliament by Hon. Arthur Meighen, and will be the most advanced legislation of the kind ever introduced on the continent dealing with those who have been the wards of the white race so long. It contemplates nothing less than the elevation of the Indians of Canada from the position of wards of the crown to that of complete and responsible citizenship by means of compulsory enfranchisement and compulsory education.

Under the old Indian act a member of a band could only be enfranchised after passing through two probationary periods of three years each, and then only with the consent of his tribe. The new act will release him altogether from tribal control, and make him to all respects and purposes an independent Canadian citizen.

Constructin work is being vigorously carried on on the Kelowna-Kamloops extension of the C.N.R. According to reports track laying is to begin early in spring.

A new government headed by Sali Pasha has been formed in Constantinople, a dispatch states. The actual situation in the Turkish capital is not clear. The latest reports indicate that Constantinople is under martial law, being controlled by British soldiers. The Turks are reported to be stirring up Arabians, Mesopotamians and Thracians.

## Local Boy Scouts

Edited by Pioneer. March 9th.

We trust that by the time this column is published the influenza ban will have been lifted, but at the moment of writing we know nothing definite as to whether this will be so or not. The K.A.A.C. and ladies basket ball clubs have been practising regularly all the time, and of course there are several scouts in the former, but unless the other scouts in the troop show more interest in the game and commence practising regularly at once again we are afraid that we shall have to give up the use of the building. Taking exercise is one of the best ways possible to keep well.

* * *

Scout Lloyd Cunningham recently had an altercation with his father's car, and having turned on the gas sufficient to send the car along at a speed of about forty miles an hour, essayed to crank it. Result—one back-fire and one broken arm. However, the patient is now doing well we are glad to say.

## Interesting Details of Dairying Industry

Interesting statistics of the dairying industry in this province are given by Hon. Mr. Barrow, minister of agriculture, in reply to questions by Mr. Jones of South Okanagan.

The minister says there are 22 creameries manufacturing butter in various parts of the province. There are four cheese factories and three farm dairy factories for manufacturing fancy cheese. Of dairies handling or distributing milk or cream or manufacturing ice cream there are 45.

In answer to a question as to what is the output of each creamery and dairy annually, the minister says that individual returns are confidential, but gives the totals as follows:—

Creamery butter, 1,668,290 lbs, value $1,018,197.73; dairy butter 630,000 lbs., value $357,500; total 2,298,290 lbs., valued at $1,375,-697.73.

Imports of butter from all sources in British Columbia, 1917-18-19, as follows:—

1917—Butter, pounds: Canadian 7,550,736; foreign, 253,390; total, 7,804,126. Value: Canadian, $2,-814,403; foreign, $93,254; total, $2,957,657.

1918—Butter, pounds: Canadian, 5,980,163; foreign, 754,240; total 6,734,423. Value: Canadian, $2,-648,353; foreign, $266,591; total, $2,914,944.

1919—Butter, pounds: Canadian 4,563,212; foreign, 978,546; total 5,541,758. Value: Canadian, $2,-441,318; foreign, $422,850; total, $2,867,168.

Details of last year's values are as follows:—

Dairies: milk, fresh, gallons, 9,470,377, valued at $3,977,558; ice cream, gallons, 217,225, valued at $355,124; dairy butter, pounds, 630,000, valued at $357,500. Cheese factories: 204,502 pounds, valued at $88,305. Condenseis: evaporated and sterilized cases, 243,515, valued at $1,362,004.

## Sir Robert Would Sweep the Country

Speaking in the House of Commons Sir Thomas White, the premier's former finance minister, said that during the last five years the government had carried on under tremendous difficulties. When the history of those stirring times had been written, Canadians would see that in Sir Robert Borden they had a premier to be proud of. Looking back over the last five years, one could see that the history of the Union government abounded in glorious traditions on which to build a party. If a national Liberal-Conservative party was formed from the old Conservative party and the Liberals who joined the Unionist cause who thought alike on fiscal questions, Sir Robert Borden would sweep the country.

Penticton proposes to make an expenditure of over $7000 on domestic water extensions this year.

## London Audience Greets Isolde Menges

The violinist so well known to Kelowna people, Miss Isolde Menges, is, judging from a recent report in the London "Daily Telegraph," receiving a most enthusiastic reception on her re-appearance before English audiences after a long absence in America and Canada. The musical critic of the Telegraph is high in his praise of her talent.

He says: "Quite beautiful is her warm tone, lovely its accuracy of intonation; fine was the vigour of the Wieniawski and of Bach in a prelude—superbly fine this, neat beyond words the phrasing and the delicacy and restraint of the playing of Tod Boyd's Samoan Lullaby (which we feel sure is destined to become almost a nuisance to us, so popular is it likely to be), and high the polish of the encore piece played after the Francœur pieces. In a word, Miss Menges, as solo violinist, is a Kreisler *in petto*. She was beautifully assisted by Miss Eileen Beattie at the piano forte, and it is a pleasure to know that she will be here for many months before returning to America to fulfil a number of engagements. To hear a player who is herself filled with the joy of playing is rare—all the more, then, is it also a joy."

## TOWN AND COUNTRY NOTES

Major McDonald was a passenger Saturday for Victoria.

S. T. Elliott paid a visit last week-end to Revelstoke.

Mr. and Mrs. W. A. Smith left Monday for Edmonton.

Miss Grummet was a passenger Monday to Moosejaw.

L. Hayes left Monday on a business trip to Winnipeg.

Mr. and Mrs. Armstrong left Monday for Coaldale, Alta.

Mr. and Mrs. J. E. Young were visitors from Penticton yesterday.

Mrs. Mellan and family of Calgary have been staying in Kelowna this week.

Mr. and Mrs. W. A. Palmer, of Salmon Arm, were down Monday on a short visit.

The Jack McMillan Chapter, I.O.D.E., will not meet again until further notice.

Kelowna golf enthusiasts will be pleased to learn that a splendid golf course has been discovered in the vicinity of Kelowna, and a meeting in this connection will be held in the Board of Trade room as soon as the ban is lifted.

Jas. Inglis of the Okanagan Brokerage reports the sale of the Binger Ranch at Benvoulin containing 33 acres, to Mr. R. Durnin, for the sum of $17,000. Mr. Durnin is to be congratulated on his recent purchase, as Mr. Brian Stephens, the vendor, paid $20,000 for the place in 1914. The present valuation of the buildings alone is in the neighbourhood of $7,000.

Owing to the crowded state of the Aquatic pavilion during last season the directors decided last fall that the building was now quite inadequate to accommodate the various branches of the Association's activities. The verandah was usually overcrowded as were the bathing cubicles. Visitors in the city who attended any of the dances found it difficult to move around while dancing was sometimes impossible. The building is only about half the size of the one erected at Penticton. In order to provide for an addition to the present building of 30 feet extending towards town the Directors have authorised the issue of 80 shares $25 each. All who desire to see the building enlarged are invited to subscribe for shares at the office of the secretary, Mr. H. G. M. Wilson.

Miss C. O. Marcey left Tuesday for Huntindon.

Mrs. Davidson was a passenger Tuesday to Indian Head.

Mr. McGorman left yesterday on a visit to Penhold, Alta.

Mrs. Suter left yesterday for Calgary.

W. W. Perry who with Mrs. Perry has been in town for the past week or two, left yesterday for the coast.

D. D. Campbell is a visitor this week to the coast.

Mr. Goldsmith returned Saturday last to Salmon Arm.

Mr. James Linton desires to thank all friends for the kind expressions of sympathy in his recent sad bereavement.

A. DeStoutz left this morning on a visit to Halcyon.

Miss Austin was a passenger to Kamloops this morning.

District Engineer Gwyer was up from Penticton last weekend.

J. E. Reekie who was back to attend the funeral of his mother, seturned to the coast Monday

Mr. and Mrs. H. E. Leigh and family of Rutland left this morning on their way to England. Miss Richards accompanied them. Mr. Leigh recently sold out his orchard and ranch here, and an auction sale of his effects was held last week.

## Benvoulin Notes

Mr. R. Durnin has purchased the Binger property in Benvoulin.

Miss Enid Johnson who has been visiting the DeMaras, left on Thursday for Vernon.

The Rev. P. Connal who has been staying at Rutland during the past year, has moved into the Manse. The community extend him a hearty welcome.

We are glad to see so many of our Benvoulinites who had the flu are able to be up and around again.

Mr. and Mrs. Hardy and family who have been visiting Mr. A. Hardy, left last week for Vancouver.

Mr. and Mrs. G. P. Findlay arrived last week from the coast to visit their daughter Mrs. G. Scott. Mr. Findlay has returned to Vancouver while Mrs. Findlay intends staying in Benvoulin for a few weeks.

## Orchard for Sale

53-acres. 26 acres in trees, all good varieties of Apples, 8 to 10 years old. Balance of 27 acres is good orchard land, at present used for pasture. Water for domestic purposes on property all the year round. Also connected with good system for irrigation.

## Another Reason

**Why Dark Sells Cheaper**

If I open up business in a town and erect a very elaborate store costing $40,000, and fit it up with the very best fittings that money can buy, place in it an abundance of costly show cases, and, in fact, make it look more like a manor house than a place of business—somebody has got to PAY FOR IT. Now then, when I start selling, it is obvious I must charge higher prices than the man down the street who erected a $20,000 store, seeing that my expense is double as much. Of course my customers don't own the store—but they PAY for it! Be sensible and go to Dark.

TO RAISE FREIGHT RATES

Freight rates on ocean shipping from England will be increased at least 50 per cent. by a movement now in progress, says the London Times, in order to meet the high cost of bunker coal. Coal in the port of London this week will cost about $39 a ton compared with $3.50 to $4.50 before the war, the newspaper says.
