VICTORIA, B. C.

Kelowna Orchard City Record

VOL. V. NO. 13. KELOWNA, BRITISH COLUMBIA, THURSDAY, FEB. 20, 1913. $1.50 Per Annum.

Meeting of City Council

The council held its regular meeting last Friday.

The correspondence included an application from the union of B. C. Municipalities for the annual fee of $10. This was ordered paid.

A letter was read from Dr. Boyce in reference to the seating accommodation in the Opera House. He pointed out that the chairs were loose and the aisles not wide enough.

The renewal of the policy in the British Columbia Accident and Employer's Liability Insurance Co. for the benefit of the Fire Brigade was considered and a resolution passed that the premium of $450 be paid.

The application of the police magistrate for an increase of salary from $500 to $1,000 was then taken up.

The finance committee reported that they had made enquiries respecting the salaries paid elsewhere. They had found that while Kelowna was paying 40 per cent. of the police court receipts, no place could be found paying higher than 20 per cent. Although this might or might not be a good criterion, the committee was satisfied that the salary was high enough at present. A resolution was accordingly passed that the salary be $500 as before.

Mayor Jones announced that it had been the intention of the council tor some time to make some change in the office work, so as to bring the position of city assessor and collector directly under the control of the city clerk. They had decided to recommend Mr. P. T. Dunn for this office. This would leave his position of assistant in charge of the Light and Water Dept. books vacant. Two applications had been received for this position. One from Mr. R. H. Buchan of Whitewood, Sask., and the other from Mr. Fred Royle of Kelowna.

Resolutions were passed appointing Mr. P. T. Dunn as city assessor and collector, and Mr. Fred Royle to the Light and Water Dept., the latter at a salary of $90 per month.

Ald. Sutherland commenting upon the appointment of a permanent city assessor, stated that last year the work of assessment had cost the city $500, and from now on could not be done for less than $600 or $700. And this was for only about half of the work as it did not include transferring to the assessment roll and sending out notices. By having a permanent official in the city office he would be able to do considerable other office work.

Mention was made of the unsatisfactory way in which the scavenger was performing his duties, the office being deluged with complaints. It was decided to take action at once.

Ald. Sutherland stated that a new by-law to raise further funds for water and light extension would soon be necessary.

Ald. Cosens mentioned the large amount of paper which was blowing about the streets just now.

Ald. Taylor reported on his visit to Victoria as delegate to oppose the application of the Okanagan Telephone Co. for extension of charter.

Ald. Sutherland stated that he had been approached with reference to the moving of Willits' building to the opposite corner. It was found that the building would have to overhang the sidewalk seven or eight inches.

As the arrangement was only a temporary one the council decided to raise no objection.

Mr. R. S. Munson surprised his friends by returning hom this week from a trip east with a bride. Here's long life and happiness!

Mr. W. E. Tait, of Kamloops has rented the former shooting gallery premises, which he is having remodelled, and will in a few days open a first-class boot and shoe store. Mr. F Knapton is reserving a room at the rear for his shoe repairing business.

Board of Trade Monthly Meeting

Standing Committees Appointed for the Year

The Board of Trade last Thursday evening held the first regular meeting of the new year, president A. W. Bowser in the chair.

The principal business of the evening was the election of standing committees which had been left over from the annual general meeting held in January. The executive council had met in the meantime, and had decided to arrange for the election of several new committees who would take charge of the various phases of work which came within the province of the Board of Trade.

The idea was, explained the president, to do as much of the preliminary and detail work involved in the various matters which came before the attention of the Board as possible in committee, thus facilitating the work of the regular general meetings and doing away with much of the delay and tedious discussion which had hampered those meetings in the past. Any suggestions or resolutions submitted by the members would first be referred to the proper committee, and well considered before being placed before the Board.

The suggestions of the executive council were contained in a report read by the secretary, and included in it were names suggested by the executive as suitable members of the various committees. The members mentioned, said Mr. Bowser, had been interviewed by the executive with a view to ascertaining their willingness and ability to give the time to the duties asked of them. And it was the intention of the executive, added the president, that in order to secure the greatest efficiency, any member elected to a committee who neglected to attend meetings would be asked to resign and someone else appointed in his place.

The following were the standing committees elected:

PUBLICITY -- Messrs. Pangman, DeHart, G. McKenzie and N. D. McTavish.

FINANCE—Messrs. D. W. Sutherland, Benson and Rees.

HIGHWAYS—Messrs. J. W. Jones, M. Hereron, Pooley and Elliott.

TRANSPORTATION & WATERWAYS—Messrs. F. S. Coates, D. Leckie, and J. W. Jones.

INDUSTRIAL — Messrs. Rattenbury, DuMoulin, and Collett.

CIVIC IMPROVEMENTS-Messrs. L. E. Taylor, H. H. Millie, F. S. Coates and Dr. Dickson.

SETTLERS—Messrs. R. A. Copeland, C. C. Josselyn and R. F. Morrison.

BUILDING — W. Haug, DeHart and Calder.

Referring to the industrial committee, the president said that the executive desired that more steps be taken to secure and encourage industries to locate in the city, an important matter in the development of the city. He thought the committee would be able to do valuable work in this line.

The purpose of the Building Committee was to devise if possible, means of building or renting suitable permanent premises for the use of the Board of Trade.

Speaking of this matter, Mr. S. T. Elliott said he believed it was the custom in most towns for the Board of Trade to be given quarters in the City Hall and as he understood that a scheme was on foot to erect a City Hall for Kelowna, he thought the council should be approached with a view to the Board being granted a room in that building.

Ald. Sutherland, speaking on behalf of the council said, that it was their intention to go ahead this year, if the debenture market improved, with the erection of a City Hall. Premises for the use of the Board of Trade had been considered. It was probable that a small hall would be provided where the Board of Trade or any other committee could hold their meetings.

In view of this announcement the president suggested that there would be scarcely any need for the committee but Dr. Dickson expressed the view that there would be all the more need for such a committee to consult with the council as to the provision of a suitable room.

To the settlers' committee was delegated the task of receiving, welcoming and when necessary assisting new settlers coming into the district.

Included in the correspondence was the following letter from Mr. R. H. Parkinson, addressed to the secretary :—

Dear Sir,—As it seems very probable that the K. V. Railway will be in operation between the boundary country and the Okanagan valley by the end of this coming summer, I beg to suggest that the Board of Trade should use all its energy and influence to have a railway depot and cattle pens established at a suitable point on the railway as near as possible to Okanagan Mission. The advantages of this proposal for shipping horses or cattle to and from the boundary or from the prairie would be great and it would also be of great benefit to passengers bound for southern B.C. and Alberta or Spokane from Kelowna.

Yours faithfully,
RICHARD H. PARKINSON.

Owing to the absence of Mr. Parkinson, however, it was thought better to leave the matter for another meeting.

The Kelowna Farmers' Exchange submitted a resolution which had been passed by them at a meeting on February 4th, asking for certain amendments to the Agricultural Associations Act, which the president explained were to enable the Farmers' Exchange to take advantage of the government's willingness to loan money for the erection of a cold storage plant.

Some criticism was levelled against the resolution on account of its being not sufficiently explicit, and Mr. Pitcairn objected to statements in the preamble as to want of warehouse accommodation and packing facilities. Mr. Pitcairn, however, finally moved, seconded by Mr. Elliott, that the resolution be endorsed. This was carried.

A change in the schedule of the C.P.R. boat service about which there was considerable difference of opinion, was referred to the transportation committee.

On the suggestion of Ald. Sutherland ir was arranged that an effort be made to have the fire insurance rates reduced in the city in view of the much better fire-fighting facilities which the city now possessed.

A long discussion upon the Board's publicity programme for the year and the proposed appointment of a publicity commissioner for the city was introduced by Mr. Elliott who moved "That a committee be appointed to wait upon the council at the earliest possible date and ask for a grant of not less than $5,000, and more if possible."

The scheme to engage a publicity commissioner found an enthusiastic supporter in Mr. R. B. Kerr, who spoke of the extensive advertising which other towns were doing in comparisen with Kelowna. He contended that the district's fruit products should be better known to the consumer. Everything depended upon securing a ready sale and reliable market. He did not think the prairie market had been sufficiently studied. One of the first duties of a publicity commissioner should be to visit the new towns which were opening up on the prairie. He could find out their needs and make them acquainted with Kelowna. He could then come back and make his information known to the farmer. This would be infinitely more valuable than mere boosting.

The Board by resolution expressed themselves as strongly in favor of having a publicity commissioner without delay and the publicity committee were instructed to investigate the matter and report.

Ald. Sutherland suggested that before the committee waited upon the council for a grant they should prepare a definite programme ann estimates as was done by the School Board and other bodies. The council would then know better what to do. He said there was a general opinion abroad that the money voted last year had not been well spent by the publicity committee. This might not be the fact, but if some well-devised scheme were presented to the council such misunderstanding would be avoided.

It was arranged that the finance committee and the publicity committee, accompanied by Mr. Kerr, should appear before the council.

The delivery of express parcels, the need of mail boxes in different parts of the city, the tourist hotel scheme, the condition of Mission Creek and the Kelowna-Naramata road, were other subjects of discussion.

Mr. G. C. Rose brought up the daylight-saving question again, with the following resolution, which was passed :—

"That the Kelowna Board of Trade endorses the proposal to advance the present standard of time one hour from May to September inclusive, and in this connection instructs the secretary to ask the C.P.R. authorities as to the feasibility of operating the Shuswap and Okanagan system on mountain time."

Mr. R. B. Kerr spoke against the scheme which, he said, was strongly objected to by contractors and working men who got their best sleep in the cool hours of morning, and Mr. T. G. Speer created some amusement by a vigorous onslaught on behalf of the country people who it appeared did not favor the idea, which, said Mr. Speer, was only for the convenience of "a bunch of sports."

Mission Creek and Benvoulin Notes

(From our own correspondent)

The Benvoulin Literary Society met at the home of Mr. and Mrs. Grummett last Friday evening. Those present had the pleasure of hearing some of the younger members of the society debate on, "Resolved, that Summer Amusements are More Enjoyable than Winter Amusements." The affirmative side was led by Chas. Reid, supported by Sylvia Weeks and Jean Murray, the negative being led by Mr. Clifford Scott, supported by Beryl Grummett and Jennie Stephens. The judges gave their decision in favor of the affirmative side by one point.

There was also a debate on, "Resolved, that Country Life is More Conducive to Health, Wealth and Happiness than City Life." The affirmative side was led by Miss L. Munson, supported by Miss L. Patterson and Ewart Patterson, the negative by Miss M. Day, supported by Miss E. Patterson and Miss R. Reed. The judge's decision was in favor of the affirmative side by three points. Both debates proved very interesting and all hope to hear more of them in the future.

Mr. Wm. Patterson left Monday morning for Vancouver to attend, as a delegate, the meeting of the Orange Grand Lodge being held there this week.

At the Methodist church Epworth League last Monday night, the mock parliament discussed the important problem of "Government Ownership of Public Utilities," a bill introduced by the "government" being passed by a large majority. Next Monday the Rev. Wm. Vance will give a talk on "Heroism," the meeting being in charge of the civic department.

The Ladies' Hospital Aid will meet on Monday the 24th, at the home of Mrs. Blackwood, at 3 p.m.

Kelowna lodge, Loyal Order of Moose, will be instituted with a class of over 100 members in the Raymer Small Hall, on Friday evening, February 21. This meeting will be the closing of their charter, after which the fee will be raised from $5 to $25. Those who desire to join before that night will please call at the organizer's headquarters, Lakeview Hotel.

The merchants and shipowners of Cardiff, from which point the "Terra Nova" sailed for the Antartic, are arranging to erect a statue to Captain Scott.

"The Canadian Navy" is to be the subject of a debate at the Presbyterian Y.P.S. on Monday evening next, The Laurier policy is to be supported by Messrs. L. V. Rogers and A. R. Lord, and the Borden proposal by Messrs. C. Fulton and R. B. Kerr.

A Norwegian railway navvy fell into the lake off the Summerland wharf last Wednesday as the "Okanagan" arrived, and was drowned before he could be rescued. He had formerly been a fisherman and was a good swimmer, but he was too drunk at the time to help himself.

Methodist Bible Class Holds Annual Meeting

The Adult Bible Class of the Methodist church held their annual general business meeting at the home of Mr. W. Hunter, Tuesday evening. There was an excellent muster of the members, and the secretary-treasurer's report told of progress on every hand, the class now being in a flourishing condition. Business dealing with the past year's work having been transacted, the election of officers for the ensuing year was proceeded with, resulting as printed below. Later in the evening the friends were entertained by Mrs. Hunter and daughter, refreshments being dispensed.

President—Mr. W. James
Vice-Pres.—Mr. W. E. Adams
Leader—Mr. T. E. Cooper
Sec.-Treas.—Miss Storey

Okanagan Centre and Woods Lake

(From our own correspondent)

Mr. and Mrs. F. Waller, who spent the first half of the winter at the home of Mr. E. J. McCarthy, have left for Vernon, where they will take up residence.

Mr. T. F. Valentine, who a number of years ago conducted a half-way house at the 17½-mile post on the old Mission road between Vernon and Kelowna, is staying at the Grand View Hotel, Okanagan Centre.

Miss Scott-Coward arrived recently to take charge of the Okanagan Centre school, the former teacher, Miss F. Wentworth, B.A., who has taught for the past twelve months, haaing left for England. Miss Scott-Coward is a cousin of Mr. J. P. Stokes, of Woods lake and comes from England.

The party of C.N.R. surveyors staying in the old McClure residence, organized a hockey team and have played two successful games with Oyama. They expect to play a match with the Vernon team on Long lake, near the Rev. Despard's residence.

Mr. and Mrs. Horsnell had an anxious time last Sunday, when their little baby boy lay near death's door, having a serious attack of bronchitis. We are glad to be able to state that the little one is now out of danger and well on the way to recovery.

Good headway is being made with the rock work along Woods lake by the government road men in charge of Mr. G. M. Watt, a half-mile of solid rock protection wall having been built, and several of the severest turns have been eased appreciably and the road bed widened to twenty feet.

Mr. M. P. Williams has now harvested some five tons of ice for his use this summer and has still four tons yet to put up. The ice is not so thick as last year being only eleven inches, but it is of a good quality. Several smaller lots have been put up by a number of people in the district.

The annual bachelors' ball took place on the 3rd inst., at the Grand View Hotel. This most enjoyable affair passed off without a flaw, and the bachelors are loud in their praise of the appreciable hospitality on the part of Mrs. Rheam, the proprietress, by whom the ball was given.

The past week has been noted for a rapid rise in the temperature and a downpour of rain which has taken a large portion of the snow away, and many bare places are now to be seen everywhere. It has done away with the sleighing on parts of the roads, so that travelling is equally practicable with runners or wheels.

We understand that our local pierrot troupe have had invitations to appear in both Vernon and Kelowna and that these invitations will most likely be accepted at the close of the Lent season. It speaks very highly for the order of entertainment put on by our local talent and we bespeak for Vernon and Kelowna audiences something that will be greatly appreciated by them.

Messrs. S. Jones and F. Bready have almost finished a contract for cutting and delivering 60 cords of four foot wood for the O. K. Canning Co., a at Okanagan Centre, the thaw having made it difficult to get the last few loads down. This wood was secured in a favorable location on the property of the Okanagan Valley Land Co., alongside the new reservoir road out in by tue government road men last fall.

On Wednesday evening, the 12th inst.- a very interesting lecture was given in the Westbury Hal by W. H. Robertson on "Sprays," which included a reference to fungus, insects, garden pests, the latter being the turnip fly, green aphis, and cut worm. Upon the conclusion of Mr. Robertson's lecture, an address was delivered by Mr. Forsyth Smith, market commissioner for the province, who in an able and convincing way, showed the reason why market conditions the past year had been so disappointing to the farmer and fruitgrower, and gave his conclusions, based upon extensive travel and enquiry into market conditions on both sides of the line, for the betterment of prices in this and following years. Mr. Thornber also gave an address upon the cultivation of orchards, particularly in respect of fertility and spoke in a very interesting and instructive way upon the causes of winter injury to fruit trees of which he said that there were now some twenty-three. On the afternoon of the following day (Thursday), a pruning demonstration was given by Mr. Thornber in the Rainbow orchard. In the evening a lecture was given by Ben Hoy upon Pruning which was illustrated by stereopticon views put upon canvas by Mr. W. H. Brittain.

It is reported that the application to the government by the Okanagan Telephone Co. for an amendment to their charter to allow them to construct and operate a telegraph system in the valley has been rejected.

Rutland News

(From our own correspondent)

The usual Church of England services wil be held on Sunday afternoon next in the schoolroom at 3 o'clock.

A. Loosemore returned on Wednesday from his winter holiday in England.

Mr. and Mrs. W. Fleming are enjoying a short visit to the coast.

Will Quigley arrived from Brandon, Man., last week, having spent a pleasant holiday there with friends. His brother Gus returned with him.

The Rev. J. P. Westman, travelling secretary of the Epworth Leagues, gave an illustrated lecture on Tuesday night at the Methodist church. A large crowd turned out and enjoyed the very interesting talk on the "holiday" schools being formed to afford recreation and tuition for Sunday School teachers.

Mr. J. Gibb is in charge of the Packing School. A full attendance was expected, but, owing to a misunderstanding only four are taking advantage of this important instruction. The others were expecting night sessions.

The lectures given by the experts of the Dept. of Agrieulture were well attended and the local Institute officials hope that every Rutlander will take advantage of the small yearly their names placed on the mailing list of the Dept. Mr. John Woolsey can supply the membership cards.

Mr. A. W. Barber left Monday for a short visit to Vancouver.

Alwyn Weddell has been appointed assistant to Mr. A. E. Boyer in the customs office.

Mr. M. W. Russell, ranch manager for the Central Okanagan Lands, Ltd., left this week for North Yakima to superintend the shipment of nursery stock for the coming season. It is anticipated that the company will superintend the planting of some 500 acres this year.

Mr. Hehner has just sold his ranch between Bear Creek and Westbank to Mr. J. H. Kitson, formerly of Harrogate, Yorkshire. Mr. Kitson has been in the Okanagan for some time and intended settling further up the valley, but he was so impressed with the possibilities of the west side that he purchased Mr. Hehner's house and 80-acre ranch.

Births

LONGLEY.—On February 14th to the wife of Mr. W. Longley, a son.

MILLER.—On February 16th, to the wife of Jas. Miller, a son.

Meeting of Board of School Trustees

The Board of School Trustees met Monday last in the office of the new secretary, Mr. N. D. McTavish. There was a full attendance of trustees.

The following letter was read from Mr. A. Robinson, the provincial superintendent of education, addressed to the Kelowna Board of School Trustees: "As a result of an interview between Mayor Jones of Kelowna, and the Minister of Education, I have been instructed to write you to the effect that the government has placed to the credit of your Board an additional sum of $10,000, such grant to be available on the 1st April, 1913. This additional grant has been placed to your credit for the purpose of aiding you in the construction of the public school at Kelowna, the expense of which building, I am informed, very materially exceeded the expectation of your Board."

The secretary was instructed to write expressing the thanks of the Board for the additional assistance.

A member of the teaching staff, Miss McCool, applied for permission to leave at once owing to the illness of her mother. The Board promised to take steps at once to obtain a substitute so as to release Miss McCool.

Some discussion arose over the claim of one of the teachers for a full month's salary, she having been absent a portion of the month.

As the Board had obtained and paid a substitute to take the duties of the room during her absence they did not think her claim justified, and the Superintendent of Education having been written to he had also taken this view. The matter was eventually referred to Mr. Lawson to adjust.

The following accounts were passed for payment:—

Petty Cash	25 00
Dalgleish & Harding	4 00
O K. Lumber Co.	84
The McKenzie Co.	1 50
Morrison-Thompson Co.	6 90
Max Jenkins Co.	75
D. Leckie, coal	70 56
City, light, water and scavenging	14 00

The preparation of the year's estimates for presentation to the city council was discussed and Messrs. Trench, McKenzie and Bigger were appointed for the purpose.

It was also decided that in view of the prospect of many important matters for consideration during the year, that meetings should be held weekly, the time arranged being 5 p.m., Tuesday.

The question of irregular attendance on the part of some of the scholars was also discussed, and it was thought that a truant officer was necessary to see that scholars attended. The chairman was asked to interview the police commissioners with a view to having the chief of police act in this capacity.

Several letters regarding materials and supplies for the new school building were referred to the contractors.

Successful Year at Salmon Arm Farmers' Exchange

Mr. G. G. Barber, manager of the Salmon Arm Farmers' Exchange, is spending a few weeks in the city. Mr. Barber states that the exchange at Salmon Arm had a very prosperous year, having handled almost four times as much business as in any former year; they also erected and equipped one of the most up-to-date shipping warehouses to be found in the upper country, and closed the season by paying their shareholders sixteen per cent. in dividends.

The Exchange at that point has 185 shareholders, and they are so well satisfied with the outcome of the season and the prospects for the future that they voted unanimously against affiliating with any central selling organization for the present.

Mr. Barber has a standing offer of a handsome increase in salary to take charge of the Salmon Arm Exchange for the coming season, but has not yet decided as he has considerable property interests in Kelowna and vicinity that demand his attention.

Brick Long Used in Construction

It is Considered the Aristocrat of all Building Materials

Aristocrat of building materials is brick. It has a known pedigree which goes back to the day, more than three thousand years before Christ, when the Assyrians reared their terraced temples and palaces in Western Asia. In Ur of the Chaldees, whence Abraham went into the land of Canaan, in Nineveh, in Babylon, the important buildings were made of brick.

Great masters of architecture had established ideals of beauty in brick centuries before the Greeks perfected the structure of marble and stone. And the simple block of burned clay has held its place through the ages, ever appearing in centres where the art and taste of the world have taken up their head quarters. We are told by historians that, after Rome yielded its supremacy to Byzantium, brick came to the front, after a period of partial eclipse, and assumed the importance which it has been able to claim ever since.

It is natural that the old world should know more about brick, appreciate more clearly its infinite possibilities than does America. Europe has been a land of brick houses for hundrede of years; America is only just begginning to emerge from the "wooden age." Many a traveller has returned from abroad with tales of the picturesque homes of England, quite unaware that the underlying cause of their charm was in the material—solid, dignified brick, the appeal of which sunshine and storm.

Charles Thompson Matthews, author of "The Story of Architecture," says that "roughly defined, architecture is the art of ornamental construction; not ornamental in the sense of decorated, but in the harmonious distribution of mass, in the convincing beauty of proportion." The same standard applies to the modest home as to the vast public library or courthouse. "Convincing beauty is not a matter of money. Perfect taste taste and the the perfect material can be put into a $4000 or $5000 home as well as into the millionaire's palace. Is there anyone who has not been fortunate enough to see, at some time in his life, a little brick house that appealed to him as being all that it should be, an ideal companion for the trees and the grass and the hills around—a little house that cost no more than the gate lodge of some expensive and glaring "villa?"

Brick is the material that succeeds, as none other can, in adapting itself to the wants of the man with good taste and a moderate income. In the house built on a proper plan, it suggests all the qualities that should be associated with the word home—permanency hospitality, warmth, comfort, beauty. And brick has that rare and wonderful characteristic which is said to distinguish the elect among womankind—it grows old beautifully.

In a building it is not possible to have real beauty without strength. The eye cannot be thoroughly satisfied, if in the mind lurks the consciousness that the architect's creation is to be vanquished in the battle with Time. Time is powerless to mar the beauty or to sap the strength of brick. Generations may come and go, but the sturdy brick walls of the homestead stay on. Brick may reach a venerable old age but it never reaches the state of decrepitude. Brick comes from the bosom of Mother Earth in the form of plastic clay; it is hardened by the most powerful agent known in the world—fire, and is proof against the further attacks of fire; it defies wind and rain; it is as enduring as earth itself.

To be a success any work of art must have individuality, character. The painter produces his effects by combining colors. Each primary color is a unit, and the mixture and application of these colors make possible a limitless number of combinations. So it is with brick The number and variety of units give full play to the talents of the architect. He uses them as an artist uses his paints. He can procure a house with character.

Since the day when the Assyrians were in their glory, the inventive genius of man has wrought great improvements in brick. Nowadays it is turned out of the kiln in nearly every color and shade, in every degree of coarseness and fineness. It dams a river, it paves a street, it forms the walls of a factory, it adorns the inside as well as the outside of a home.

There was once a time when the mortar joint was regarded as an unwholesome necessity, but that time is passed. Modern art has shown that mortar can be made a valuable ally in attaining the ultimate object, beauty. With their units of many colors, the architect and clever brick-worker create a surface which has the look of a skilfully woven fabric. Thus the bonding together of brick permits of varied effects in what the architect calls "texture."

Brick has such a quality of humanity as clings to no other substance that goes into the making of a house. There is always the knowledge that here is the work of human hands—that every piece was made by man and put into place by man. The effect produced by man's harmonious arrangement of his many units, is one of lasting vitality.

It may be taken for granted that many a home builder has passed brick because of mistaken ideas about its cost. In these days there is no reason for any man who is planning to build, to yearn in vain for a home of brick; he may have it if he wants it. And he will want nothing else if he studies the course of present day thought in architecture—if he learns what the leading architects and builders of the world consider the most beautiful, the most permanent, the most economical of all materials.

To Advertise the District

The Bureau of Provincial Information has issued a circular letter soliciting information in a short concise form from the successful ranchers and farmers of this locality. Communications submitted should show how, from small beginnings, residents have established comfortable homes and are making fair profits on their capital and exertions. It is intended to use such information in the immigration bulletins and pamphlets published by the dominion and provincial authorities.

To those who have the interests of the immediate neighbourhood at heart the secretary of the bureau states that any letter sent in should give the writer's previous occupation, date of arrival in B.C., as well as what he has accomplished.

All such letters should be addressed to the secretary of the Farmers' Institute, Kelowna. The rate of progress of the vicinity compared with that of surrounding points depends upon the efficient and reliable advertising effected by those who have already "made good."

For British Columbia the C.P.R. are planning to establish a new and larger transcontinental train service. This service may be increased from three trains as it is today to five a day. This will mean that there will be five trains each way a day.

OKANAGAN DISTRICT

Ferry, Summerland—East Summerland, Okanagan Lake

IN accordance with chapter 78, R.S B.C., 1897, "Ferries Act," the Government of British Columbia invite applications for a charter for a ferry to ply between Summerland and a point on the opposite side of Okanagan Lake known as East Summerland, a distance of about two miles and three-quaters.

Applications will be received up to 12 o'clock noon, Tuesday, 4th March, 1913.

The charter will cover a period expiring on the 31st March, 1915.

The ferry shall make two trips each way every day, weather permitting.

Applications shall give a description of the vessel or vessels it is proposed to use, which must conform in all respects to the requirements of the "Canada Shipping Act" and amending Act.

Applications shall state the tolls it is proposed to ask for—

Each adult passenger.
Each child (not in arms) under 13 years.
Each head of cattle, horse, mule or donkey, &c.
Each calf, sheep, goat or swine, &c.
Each vehicle with one horse and driver.
Each cart or wagon with one horse and driver, loaded.
Each vehicle with two horses and driver, unloaded.
Each vehicle with two horses and driver, loaded.
Each parcel of 25 lbs. and under.
Freight, per 100 lbs. and under, non-perishable goods.
Freight, per 100 lbs. and under, perishable goods.

To the successful applicant the Government of British Columbia will pay at the expiration of every three months of satisfactory service the sum of two hundred and fifty ($250) dollars.

The Government of British Columbia is not necessarily bound to accept any application submitted.

J. E. GRIFFITH,
Public Works Engineer.

Department of Public Works,
Victoria, B.C., 11th February, 1913. 4

Women's Question in British Columbia

Petition Presented Before Government

The petition asking for the extension of the franchise to women was presented on Friday, February 14th, when the premier Sir R. McBride and other ministers received a deputation of fifty ladies representing most of the towns of the province. The petition contained 10,000 signatures and was supported by speeches from Mrs. Gordon Grant, Miss Dorothy Davies, and Mrs. Philip Tuckwell, of New Westminster. Kelowna was represented by two young ladies as proxies, Miss Mary Rudd and Miss Myrtle Noble.

Sir Richard in his reply testified to the splendid efforts put forth and the weight of the petition presented and also to the lucidity and directness with which the women's case had been stated, and the acquaintance with parliamentary procedure shown. He promised to declare on the following Tuesday or Wednesday what the intentions of the ministry would be, as to includtng this question in their policy. He also referred to the bill of Mr. Place, the member for Nanaimo, already announced, as a means of bringing the claim of the women before the house if the ministry should decide against the introduction by the government of this measure. Mr. Place had stated that if the government should decide to introduce this legislation he would withdraw his bill.

Moose to Locate School at Aurora

Chicago, Ill., Feb. 7th, 1913:—A $1,000,000 industrial and educational institution will be established on the Brookline and Van Nortwick farms, near Aurora, Ill., by the Loyal Order of Moose, according to action of the trustees of the order at a meeting in the Hotel La Salle yesterday afternoon. The purpose of the school is to provide industrial education for orphans and poor children, whose parents are or were members of the order, without expense, and to give them a practical education in all trades and also in scientific farming.

The order has voted $6,000,000 for establishing and conducting the school.

The order was founded in Louisville, Ky., in 1888, and now certifies to a membership of more than 500,000 in the United States and Canada.

Aurora was chosen for the industrial institution owing to its central location.

A public meeting of graingrowers at Saskatoon last week, unanimously passed a vote in favor of woman suffrage.

In getting your eyes suited, demand ability, reliability and above all demand experience. Dr. S. L. Taube, of the Taube Optical Co. of Calgary and Vancouver, who has had forty-two years experience in the profession, will be at W. R. Trench's Drug Store, Kelowna, on Wednesday, March 5th. If there is anything wrong with your eyesight, don't fail to consult him. Make your appointment early as you may need a second examination. All work absolutely guaranteed as tested.—Advt. 13-14

SATISFACTION

WOODEN culverts are unsightly, dangerous, expensive, short-lived.

Which kind of a culvert does your waggon cross?

DOES the road you use pass over rickety, dangerous wooden culverts, that are constantly in need of repairs and often washed away entirely? Or is it carried safely across the low places by modern, everlasting culverts? Build your

CULVERTS OF CONCRETE

which not only cannot be washed away, but actually grow stronger with age and use.

Every farmer owes it to himself to insist that the money he pays for road-taxes be spent to the best advantage. As a ratepayer, he is entitled to the best roads that can be made with that money. When culverts are washed out, and the road rendered impassable, he not only suffers inconvenience but may also be caused financial loss by inability to get necessary supplies in time for spring planting. And at best, with wooden culverts, part of the money that should be used to make better roads must be spent every year for repairs.

Insist upon Concrete Culverts

It will pay you and everybody else in your county.

Canada Cement Company Limited
505 Herald Building, Montreal

LET us send you a copy of our free book, "What the Farmer Can Do With Concrete."

IF you want to know more about Concrete Culverts, write our Information Department.

Town and Country

Mr. F. C. Knight, who has been visiting in town, left for Winnipeg by Saturday's boat.

Dr. Knox is at present on a short visit to Halcyon Hot Springs.

Mr. Staples, of Treherne, Man., is on a visit to his daughter, Mrs. Leslie Dilworth.

Mr. R. B. Kerr is to address the Brotherhood Sunday, his subject being "The Remedy for Poverty." Ladies are specially invited to this meeting.

Mr. and Mrs. A. R. Davy wish to thank the many kind friends for their sympathy and help during the late Mrs. Jas. Copeland's illness.

Mr. and Mrs. P. O. Bird entertained a large gathering of friends at their house yesterday, the occasion being the second anniversary of their wedding.

After a clean, fast game the Kelowna "speed artists" again suffered defeat against Penticton at the rink last Thursday afternoon, the score being 6 goals to 4.

A talent tea is being held by the members of Miss Knight's class at the home of Mrs. J. Curts, on Saturday next, from 4 to 6 p.m. The proceeds are in aid of missions.

The Kelowna Irrigation Co. will shortly be starting a construction camp at the north end of Glenmore for the purpose of extending their distributing system over several hundred acres of land. The work will be in charge of Messrs. Canavan & Mitchell.

The Epworth League of the Methodist church had what will probably be the last sleighing party of the season last Friday evening, the destination being Mrs. Dilworth's, where a social evening was thoroughly enjoyed by the large crowd of friends who attended. A programme was rendered.

Mr. R. Horner has taken the post of teller at the Royal bank this week, having been moved from the South Vancouver branch. He is filling the vacancy caused by the retirement of Mr. H. Whillis, who has taken a position with Gaddes-McTavish, Ltd.

The Rev. Mr. J. P. Westman, the travelling secretary for Methodist Sunday - schools and Epworth Leagues, is in town this week and speaking to the Epworth League on their work on Wednesday night and to-night to the Sunday-school and yonng people of the church. The lectures will be illustrated with lantern views. A round table talk will also be held at 3.30 this afternoon.

The Baptist church Y.P.S. held a social evening in the church on Monday, as is usual on these occasions the place being filled with young people bent on having a good time. A rather novel feature of the programme was a debate (which was voted for in the affirmative by a strong majority)—"Resolved that Women are Far More Extravagant than Men."

The Kelowna Study Club held a social last Thursday at the home of Mrs. Capt. Knight. The programme was opened with an address by Mayor Jones, which was followed by some excellent music. A contest on Canadian authors resulted in Miss K. Fullerton and Mr. G. Robison taking prizes.

The Rev. C. H. Huestis, M.A., secretary of the Lord's Day Alliance, stayed in town over the week-end, and spoke in the Presbyterian church in the morning, addressing the Kelowna Brotherhood on "The Contribution of Modern Thought to Religion," and in the evening conducting the worship in the Methodist church. After the service a meeting was held with the view of organizing a branch executive of the L.D.A., and the following gentlemen were elected: President, Mr. H. D. Riggs, Sec.-Treas., Mr. T. Cooper, Mr. G. MacKenzie, a representative from the English church, until now unchosen, and the combined clergy of the churches. The people of Kelowna subscribed $135 to the funds of the project.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the North-west Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for the lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the Agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the secretary of the Department of the Interior, Ottawa, or to any Agent or Sub-Agent of Dominion Lands.

W. W. CORY,
Deputy Minister of the Interior.

N.B.—Unauthorized publication of this advertisement will not be paid for.

Items from Ellison

(From our own correspondent)

We understand that the C.N.R. Co. have agreed with Mr. J. Carney as to the price to be paid for passing through his farm. This looks like business.

On Friday last a few of the batchelors of this district entertained the members of the Literary Society to a feast of song and story.

The chair was occupied by Mr. H. Bowser, who in a few well chosen remarks opened the proceedings, and the batchelors proceeded to render what proved to be a unique and interesting entertainment. Mr. S. Barron sang, "Riding Down from Bangor," causing much merriment by his quaint rendition. Mr. H. Veen also sang and Mr. J. Barron recited "The Parson's Son." Mr. Tom Carney gave "The L-bster Salad" and as an encore "The Two Bears." Mr. H. Bowser read a selection from "Songs of a Sourdough."

Owing to some of the batchelors suffering from a severe attack of "cold feet," the chairman enlisted the help of some of the fair sex, both married and single. Mrs. G. Whitaker gave an excellent rendering of "All the While," and as an encore "Sunshine and Rain," also "The Garden of Sleep," Mr. Whitaker, besides accompaning the vocalists also sang "The Boatswain's Story" and read "The Younger Son," from "Songs of a Sourgough." Miss Lizzie Carney played a pianoforte selection, and Mr. M. Hereron sang the evergreen "Nora Darling." Whilst waiting for the refreshments, Master R. Bulman entertained the younger members of the audience by "shocking" them with an electric battery of his own construction, which, judging from the shrieks of laughter, was thoroughly up to the mark.

A committee meeting was also held when it was decided that Mr. T. Morrison and Mr. G. Whitaker be selected to debate against East Kelowna Literary Society next week. We think it would be a decided advantage if the committee would select their debaters earlier and so give them more time to prepare their arguments.

Proposed Big Tunnel Through the Selkirks

One of the greatest engineering feats of the present day will be the C. P. R. tunnell through the Selkirks between Glacier and Bear Creek, which will commence shortly.

The tunnel in question will be the largest of its kind in the world and its construction, which will occupy between five and six years, will be watched with interest by all who are in touch with constructive operations of any magnitude.

The total length of the Selkirk tunnel will be over six and one half miles, the width allowing for double tracking, thirty feet, with a minimum height of twenty-two feet. The tunnel when in operation will be lighted by electricity, while all trains passing through it will be operated and controlled by electric power secured from the Illecillewaet and Kicking Horse rivers.

The construction of this section of the new C. P. R. double tracking system will cost in the neighborhood of $8,000,000 or at the rate of over a million and a quarter dollars per mile, which constitutes a record in American railroad building.

Amusements

"The Rosary" takes you into heart of a typical American family. It shows the peace and happiness there, then suddenly unmasks the canker spot—lack of faith in the husband. Slowly, little by little, is seen this devasting power of atheism; how it saps the strength and melts the will, so that when doubt and suspicion creep in, they find the soil fertile for their direct decendants, hatred and revenge, and the home goes down to ruin with a crash. Then comes the spiritual power of a great man, a Priest, whose life is given to mankind. Slowly by sheer faith he analyzes the situation and leads the two forth, the husband and wife whom he loves, out of the darkness of their despair to happiness and peace. Don't fail to see "The Rosary," at the Opera House on Friday, February 28th.

The Late Mrs. James Copeland, snr.

The death occurred at Kelowna, B.C., on January 30, at 11 p.m., of a very highly respected resident in the person of Arabella Copeland. The late Mrs. Jas. Copeland had reached the advanced age of 74 years, and death was due to heart failure. Although the end came unexpectedly she was surrounded by three sons and four daughters. The others were living at a distance and could not be hastily summoned. The funeral was on the 2nd of February and service was conducted by the Rev. J. W. Davidson at the Methodist Church. The funeral was a large one, many coming long distances to pay their last respects. The remains were interred in the Kelowna cemetery.

The deceased was a Methodist, a good citizen and a kind neighbor. She was born near Inkersham, Ont., in 1859; married Jas. Copeland and settled on a farm near Winchester, Ont. Six years later Mr. Copeland moved his family to the county of Gray, the township of Proton, where they farmed until the spring of 1894. Mr. Copeland being anxious to get more land for himself and his sons moved to Summerbury, Sask., with his family, where they farmed until Mr. Copeland died eight years ago, January 7th, leaving Mrs. Copeland and the youggest son alone on the farm.

In the spring of 1897 the son, who was Mr. R. A. Copeland, decided to move to Kelowna and brought his mother with him. She fell in love with Kelowna and district at first sight and always had a good word to say for B. C.

Of the eleven children which were born to her nine survive: Mrs. W. H. Fleming, Kelowna; R. A. Copeland, Kelowna; Thos. Copeland, Langdon, Alta., Mrs. R. G. Fleming, Grenfell, Sask., Mrs. J. J. Dale, Red Deer, Alta., Mrs. A. R. Davy, Kelowna; Mrs. Warner Braithwaite, Nokomis, Sask., W. J. Copeland, Kelowna, and Miss Maggie Copeland, Vernon. She also leaves three brothers and two sisters, A. D. Timmons, Winchester, Ont., J. S. Timmons Toronto, Ont., Thomas Timmons, Maitland Ont., Mrs. Wm. Richardson, Cobarg, Ont. and Mrs. Edward Suffel, of Walsh, Sask.

Notice

All growers of Tobacco, or those who think they have suitable lands and would like to experiment in this branch of Agriculture, are invited to meet our Mr. A. W. BOWSER and discuss the subject and plans proposed for the season of 1913.

Call at Manager's Office, new Factory Building, Ellis Street, Kelowna.
