## Will Enforce Health Act

### BOARD OF SCHOOL TRUSTEES AND JUVENILE DISEASES

That the provisions of the Health Act, in respect to infectious diseases, be more rigidly enforced was the subject of a request from the Board of School Trustees to the city council, read at Friday's meeting.

The letter, which was signed by Trustees D. Leckie, and F. M. Buckland as a committee of the Board, was as follows:

"We are directed by the Kelowna Board of School Trustees to draw your attention to the Public Health Act, and to ask that its provisions be enforced, especially with regard to the public notifying the Health Board as to the existence of infectious diseases.

"The school board finds that in the past much expense, inconvenience, and even ill health has been caused by allowing apparently unimportant diseases to exist, without regulation, besides which many children have been deprived of the benefit of attending school through acquiring these juvenile diseases.

"As there are some cases of chicken pox and mumps existent in the city at the present time, the board is very desirous of having the Act enforced immediately and will give all the assistance in their power to attain this end. We would advise that the public be informed as to the provisions and penalties of the Health Act."

#### The Health Act.

The clause of the Health Act particularly referred to is to be found in Section 99, Chapter 98, of the 1911 Revised Statutes of British Columbia which enacts as follows:

"Whenever a case of small pox, cholera, scarletina, diphtheria, whooping cough, measles, mumps, glanders, or other contagious or infectious disease exists in any house or household belonging to which are persons attending school, the householder shall, within forty-eight hours of the time such disease is known to exist, notify the head or other master of such school or schools, and also the local Board, of the existence of such disease; and no member of such household shall attend school until a certificate has been obtained from the Medical Health Officer that infection no longer exists in the house and that the sick person, house clothing and other effects have been disinfected to his satisfaction, and until such certificate shall have been obtained, it shall be the duty of every member of the household, and of the said master, to use all reasonable efforts to prevent the association of members of the said household with other children."

It was decided to instruct Dr. Boyce the city's medical officer to act with the medical inspector of schools in the matter and to take action where the provisions of the health act are not complied with.

Dr. Boyce entered the council chamber.

(Continued on Page Two.)

### SIX MONTHS FOR EX-CONSTABLE

George McKay, formerly night constable for the city was brought before Magistrate Weddell on Friday morning at the city police court on charges of stealing a gold watch and chain from the Royal Hotel, the property of James Murray, on January 21st and four sets of dishes from the store of J. B. Knowles, jeweller, Bernard avenue. McKay pleaded guilty to the first charge but denied stealing the dishes. The evidence of Mr. Knowles, however, was so convincing that the magistrate convicted him, and sent him down for six months on each charge, the sentences to run concurrently.

### BIRTHS

MACLAREN.—At Kelowna on March 27th, to Mr. and Mrs. Kenneth MacLaren, a son.

DILWORTH.—On Saturday, April 4th, at Rutland, to Mr. and Mrs. V. E. Dilworth, a daughter.

WILCOX.—At Rutland, on April 8th, to Mr. and Mrs. A. Wilcox, a daughter.

### B. C. SWIMMING AND DIVING CHAMPIONSHIPS FOR KELOWNA REGATTA THIS YEAR

Under the auspices of the Canadian Amateur Swimming Association of which the Kelowna Swimming Association, which was only organized last season is a branch, we are advised by Mr. A. Edwards that he has been successful in procuring two of the British Columbia championships to be held at Kelowna's Regatta in August.

A meeting of all bodies was held in Vancouver last Saturday and representatives were present from Victoria, Vancouver and Port Alberni, all with strong claims for the different events for their respective cities. Mr. Meugens who is now resident in New Westminster was wired to represent the Orchard City, with the result that Mr. Edwards has received a wire to the effect that the one mile swimming championship of B. C., also the diving competition which also carries a championship award of the province has been allotted to Kelowna association.

To all lovers of the art, this should prove interesting reading, and it is to be hoped that our locals will put forth every effort and contest every inch of the way, against the swimming and diving experts from the coast cities, who will most assuredly be here representing their various associations.

Appended is a list of the B. C. championship events, and where they have been allotted.

Victoria, Y.M.C.A.—50 yards, 100 yards and relay, indoor.

Port Alberni—50 yards junior, 100 yards senior and water polo, outdoor.

Kelowna—diving, outdoor.

Vancouver Rowing Club—220 yards junior, 220 yards senior, 440 yards senior and relay, outdoor.

Victoria Amateur Swimming Club—50 yards ladies, 50 yards senior, 880 yards senior, outdoor.

Local swimmers will no doubt receive this announcement with pleasure. There are several in Kelowna who will be in line for one or the other of the contests. F. Roxby, the present holder of the Okanagan Lake one mile championship will most likely enter for the mile championship for the province, while A. Edwards and F. Foote will no doubt prove formidable opponents to the coast entries for the diving.

### RAILROAD ENGINEERS ENTERTAIN FRIENDS AT DANCE

The engineering staff of the Kettle Valley Railway engaged on construction work near Kelowna, and the staff of Messrs. Grant Smith & Co., who during their stay in the district have made quite a number of friends entertained some 150 of them to a dance last Friday evening in Morrison's hall. The affair was a most enjoyable one, and a complete success from every point of view. The representatives of the railway company were Messrs. G. W. Buck (resident engineer), G. G. Gladman, A. R. Moore, and J. C. Denkel, while the staff of Messrs. Grant Smith & Co., were Messrs. A. W. Henning, K. D. Hauser, H. H. Cloutier, G. S. Harcourt, F. L. Ekstrom, C. N. Martin and G. L. Johnson.

The room was prettily decorated, the electric lighting by Mr. Frank V. Moffatt adding greatly to the effect. The program bore a photograph of a portion of the partly constructed grade of the line and were unique in their way, the dances being given such appropriate names as "The Dynamite Drag," "The Canyon Creek Crawl," "The Tunnel Tango," "The Work Train Wiggle," "The Kettle Valley Kickup," etc. The music was provided by Mr. R. Duncan's orchestra.

### LONG DISTANCE CHESS

Four members of the local chess club Messrs. R. B. Kerr, Jas. Harvey, R. Mathie, and Chas. Harvey, played four members of the Armstrong club last Saturday. The long distance telephone wire was leased for the games and the moves phoned by an operator at each end, Mr. J. Levitt taking the messages at the Kelowna end. Play started on each of the four games at 8.30, Mr. Kerr beating his man by about 11 o'clock. Mr. Mathie was the second to score a victory and Mr. Jas. Harvey, after a most interesting struggle check-mated his man about 1.30 a.m. Mr. Chas. Harvey's contest continued until 4.30, when both sides agreed to go to bed and finish the game through the mail.

## Discuss Paving of Main Business Streets

### VOTE OF PROPERTY OWNERS IS RIGHT TO TWO IN FAVOR

The question of improving the condition of Bernard avenue and Pendozi street, or at least those portions lying in the strictly business section by the laying of some kind of permanent pavement was considered at a meeting of those interested at the Board of Trade rooms on Friday evening. Mayor Jones presided over the gathering, and in introducing the matter explained that the question of securing a permanent pavement in the main street had been before the council for the last three years. Last year on account of the financial stringency it was impossible for them to go into the matter very deeply, however, this winter the Street Committee under Alderman Copeland proceeded to secure the best information in connection with it, all of which was now there on the table. They thought that if any action was going to be taken towards the laying down of a permanent pavement a meeting should be called and the matter decided at once, as there was considerable red tape to go through and they would have to pass the bylaws and have the government's approval before they started a work of that kind. They had also to be sure, in connection with the debentures required to be raised, but they would be able to secure the money for the work.

Alderman Copeland, called upon to speak, said the real object of that meeting was to get the property owners together and get an expression of opinion from them as to whether they thought the time was ripe for having a permanent pavement on Bernard avenue and also on Pendozi street. He might say that their committee had given the matter a good deal of time. They had written to engineers of the various cities and municipalities of British Columbia, Alberta, Saskatchewan and Manitoba asking them for their expert opinion on the best pavements, and he must say that those gentlemen had treated them very kindly indeed. They got some very valuable information from these different cities. They also took the matter up with four local engineers, and there was a great deal of credit due their local men for the time they had given to it. They had before them four very elaborate reports on various pavements, asphalt, macadam, concrete and others.

As to his reasons for wishing to go ahead this year, in the first place he might say that he felt quite satisfied that this was going to be one of the most favorable years they had had to sell debentures, as the market was improving each day. He felt that owing to the dull times throughout the country they could get the work done cheaper this year than they could in any previous year. In the second place it would be a good thing if they could put some money in circulation in this town, (applause) as owing the rather stagnant condition of affairs there were many out of employment. In his opinion the work would have to be taken up within the near future, and it was just a question in his mind whether they should start to pay taxes this year or wait another year. If they did not do something in the way of permanent work on Bernard avenue this year they would have to spend a considerable sum of money in regravelling it, in fact it should be reggraded before it was even reggraded, and any money they spent on Bernard avenue in the way of patching was money lost. Last year there was something like \$1200 spent on Bernard avenue from Pendozi street to Abbott street. A person would wonder where that went to. The material was put there, but they could see the condition the street was in this spring.

Speaking of the probable cost of the pavement, Mayor Jones said that this varied for the different kinds of pavement, from \$4.50 per square yard for vitrified brick, \$3.75 for wood block, and \$3.00 for asphalt, to \$2.50 for concrete. Most of the engineers seemed to favor concrete, as the cheapest and best, for the purpose. Using this material, the total cost for Bernard avenue alone from Abbott street to Ellis street was estimated at \$40,124 which included discount on debentures

## Leg Broken in Bad Runaway Accident

### TELEPHONE CO.'S RIG SMASHED AGAINST BRIDGE

A serious accident yesterday befell C. Hubbard, lineman with the Okanagan Telephone Co., who with his father and younger brother was diving towards town in the company's rig in the early part of the afternoon. Just before reaching the bridge on Pendozi street the horse, which is a mean brute at best, began to kick and plunge without any apparent reason. It splintered up the dash board and seemed likely to run foul of the bridge. Charlie jumped out but in doing so got his leg entangled in a long ladder which was lying across the vehicle, sustaining a nasty fall. When he was picked up later he was found to have sustained a compound fracture of the lower left leg. The horse continued its course and collided with the lower part of the bridge, throwing out Mr. Hubbard, Sr., and his younger son. The rig was smashed to pieces and Mr. Hubbard was badly kicked on the leg.

Dr. Know was hastily summoned and Charlie was taken in his car to the hospital where his injuries were attended to.

### OPENING GAMES IN THE SCHOOLS LEAGUE LAST SATURDAY

The first games in the schools league were played on Saturday last when the city High School and Public school clashed at the city park and the Ellison team crossed bats with the Rutland aggregation at Rutland.

The game between the High school and Public school at the park started promptly at 3 o'clock before quite a respectable gathering.

The high school team began early in the game to score and before the public school boys got going had piled up 8 runs. Then the battery of the public school team was switched around and the public school boys began to make matters interesting for the high school team, gradually cutting down the big lead they had gained until at the close of the contest the score was Highschool 13, Public school 8.

The game throughout was fairly fast and free from errors, many of the youngsters showing a great amount of real baseball ability, taking into consideration their lack of weight and experience.

Ellison won the game at Rutland by a score of 23 to 10.

This Saturday the Ellison team will meet the high school team at the park grounds, the game being called for 2 o'clock. The Rutland-Public school game will be called immediately after the first game.

The diabolical murder of Mrs. Chas. J. Millard, and the ghastly disposal of her body by cremation in the house furnace, at Vancouver has resulted in a wave of public indignation that is now sweeping over that city. Since Saturday when there was no longer any doubt that the Chinese boy John Kong had committed the terrible crime, hundreds of Chinese employed as house servants in Vancouver have been discharged, and the Chinese employment agents declare that their business is ruined.

and flotation expenses. Suppose the city were to pay one-third, this would leave \$26,750 to be levied against the owners of the property on the three blocks. The total taxable frontage was 2420 and the cost would be \$11.78 per frontage foot. Capitalized at the present rate of 6 per cent debentures it would cost \$1.10 per foot per annum or for 50 foot lot \$55.00 as an annual tax on each owner for twenty years, the life of the debentures. He might mention for the benefit of the gentlemen on Pendozi street that one of the estimates for the three blocks on that street for a 40 foot pavement would amount to \$20,000, which would include debentures and contingencies. This would work out at about 93 cents per foot for each owner.

Replying to a question by Mr. H. G. Pangman, Alderman Sutherland said the additional cost of taxation would be half a mill.

Mr. B. P. Little, one of the engineers who had submitted a report was called upon to give his opinion.

(Continued on Page Ten)

### ODDFELLOWS REBEKAH LODGE FORMED

With a membership of forty-four for a beginning, "Kelowna Rebekah Lodge No. 36" was instituted by Mrs. A. E. Parker, of Cranbrook, the president of the Rebekah Assembly. The president was assisted in the institution of the lodge, the conferring of the Rebekah degree on a large number of ladies and Oddfellows and the installation of officers by the District Deputy President. Mrs. Rea of Okanagan Centre and a number of officers and members of the Armstrong and Summerland Rebekah lodges. The Summerland members, fifteen in number, chartered a boat and came up for the occasion. The following are the elective officers for the current term:

Mrs. J. M. Johnston, N.G.; Miss Lena Wilson, V.G.; Mrs. McCarty, P.N.G.; Miss E. Harvey, Rec.-Secy.; Miss E. Magee, Fin.-Secy.; Miss R. Patterson, Treas. The lodge meets at the hour of 8 p.m.

An interesting and instructive address was given by Mrs. A. E. Parker on the history, growth, principles and work being done in the course of "Friendship, Truth and Love" in the Rebekah branch of the Independent Order of Oddfellows. She congratulated the new lodge on its good beginning and wished it every success.

Mrs. Parker left on Tuesday morning to make official visits to other lodges.

### Rutland News

(From our own Correspondent.)

J. Nelson, of Cobalt, has returned to the district to look after his promising orchard.

The Kelowna Irrigation Co., have a staff of men in camp above the second subdivision. They are employed in making a concrete ditch for about 1600 yards, which will prevent excessive loss through seepage.

Another real estate deal has been put through in Rutland. Mr. M. Bird has sold his 10 acre orchard next to the store to Mr. Geo. Schopfield, of Vancouver. The price, \$900.00 per acre, proves that the confidence of those who bought the raw land six years ago and planted their orchards, has not been misplaced.

The Rev. Mr. Vance will have the heartfelt sympathy of his many friends in the sad accident that befel his younger boy Gordon on Monday afternoon. Mr. Vance has been cleaning up his yard and had a small pile of rubbish that he was burning. The fire was nearly out, but in some manner the little boy got his hands and face severely burned. Dr. Campbell was at once summoned and the boy was removed to the hospital.

The opening baseball game in the schools league between the local boys and Ellison on Saturday proved quite an attraction, a good crowd being on hand when the game was called at 3 o'clock.

Ellison got away to a good start and in the second and third innings secured a dozen runs, or enough to win the contest. At this stage Plover was sent to the slab for Rutland and from this on there was little to choose between the two teams. Ellison won by a score of 23 to 10.

On Saturday the local boys will play the Kelowna Public school team at the public park at 3.45.

## Kelowna Growers' Annual Meeting

### DR. DICKSON IS NEW PRESIDENT FOR YEAR—RE-ADJUSTMENT OF THE OFFICE STAFF

The first annual meeting of the Kelowna Growers' Exchange was held in Raymer's small hall on Thursday morning. The president, Mr. G. L. Allan, presided and among others present were Messrs. R. Robertson, manager of the Okanagan United Growers, J. E. Reekie, Dr. W. W. Jones, J. W. Woolsey, manager of the local Growers' Exchange, and W. D. Brent, secretary.

After the minutes of the previous meetings had been read and confirmed on the motion of J. E. Reekie, the annual report of the directors, and balance sheet were adopted after some discussion.

From a financial standpoint, said the director's report the year had been a hard one. The crop was short and in some cases much below the quantity it was estimated would be produced.

With the prospects of a much larger crop in 1914 and of the increase in bearing orchards which should occur during the year the business to be handled by the association should be more in proportion to its financial outlay. A very much larger quantity of fruit and produce could be handled with little more or no increase in the fixed expenses.

The Board recommended that the policy for the coming year should be to keep the handling charges for fruit and produce as low as possible, but felt that, at the present moment no definite statement could be made, and everything would depend on the support the association received from its members. Fixed expenses must be met, and the greater the support, given the association, the lower packing and handling charges would be.

The total turnover, including feed department, was \$149,319.67, and the total expense \$19,011.31, the proportion of expense to turnover being 12.73 per cent. Expense is divided—Wages \$13,506.99 or 71 per cent. Other expense \$5,504.32 or 29 per cent.

The exchange handled 71,888 boxes of fruit and 2,560,632 pounds of produce at a cost to the Growers of \$28,415.73.

A net profit of \$2,008.13 was shown but out of this amount there had to be refunded a percentage on the feed profit.

The following gentlemen were elected as directors: Messrs J. E. Reekie, Dr. Jones, C. S. Smith, G. K. Salvage, C. G. Buck, Dr. C. W. Dickson and Leslie Dilworth.

Mr. C. H. Jackson of Kelowna was appointed auditor for the ensuing year.

A discussion took place on the payment of the executive, and eventually a resolution was carried that \$1,000 be paid to the executive for 1914. The apportioning of this sum was left to their discretion.

A vote of thanks was accorded to the directors, and Mr. J. W. Woolsey and W. D. Brent, secretary, for their services during the past year.

Another motion of thanks was also heartily passed to Mr. G. L. Allan for his services during 1913.

This concluded the real business of the meeting but the growers remained to hear addresses on future policy.

Mr. J. Forsythe Smith attended the meeting in the absence of Hon. Price Ellison who was unable to be present and give an address. Mr. Smith said the Minister of Agriculture recognized that there were many serious obstacles to be overcome in connection with the successful growing and marketing of fruit. As a grower of fruit himself, quite apart from his public position as Minister of Agriculture, he also had an active personal interest in this subject and had shared the feelings of partial disappointment with some of the results of the past year. He (the speaker) thought he had a full realization of the difficulties in the way and that a new organization had many at the beginning and must feel its way to a certain extent. Mr. Ellison was absolutely convinced, as he thought were most of those present, who had had anything to do with that side of the question that many of these difficulties were merely those that were

 This special privilege is granted for the  
 purpose of advertising the city and district.

**Will Enforce Provisions  
 of Health Act**  
 (Continued from Page 1.)

her as this matter was being discuss-  
 ed. He stated that the local physi-  
 cians did not report their cases of in-  
 fection diseases to him as required  
 by the act.

The clerk was therefore instructed to  
 notify the local physicians that here-  
 after they will be expected to strictly  
 comply with the provisions of the  
 act, especially with regard to notify-  
 ing the Medical Health officer of all  
 cases of infectious or contagious dis-  
 ease coming to their notice.

**Day Work or Tenders**  
 A further request from the School  
 Board that the city lay sewer pipes  
 from the school buildings to the street  
 lines, charging the cost to the school  
 board, raised some little discussion on  
 the comparative advantages of the  
 city doing its sewer work by day  
 or calling for tenders.

Alderman Taylor said that although  
 he did not know why the sewerage  
 department should be different from  
 any other city department, yet in view  
 of the fact that the Health committee  
 had been criticized for not having the  
 sewerage works constructed by con-  
 tract he was in favor of the school  
 board doing the work required, or if  
 that was not practicable, the city call-  
 ing for tenders.

Alderman Sutherland said that with  
 the exception of larger undertakings  
 he was of opinion that the city should  
 not be bothered with calling for ten-  
 ders where the work was of an im-  
 portant nature. He thought the coun-  
 cil would agree with him that work  
 done by contract was more or less  
 likely to be skimmed. The manner  
 in which sewer connections were made  
 was of vital importance to the city,  
 as bad connections would permit a  
 large quantity of water to enter the  
 sewerage system. He strongly recom-  
 mended that all sewer connections be  
 laid by the city.

It was decided to comply with the  
 Board's request.  
 The clerk reported that the assess-  
 ment roll for 1914 had been returned  
 by the assessor, and a resolution was  
 passed fixing the date of the custom-  
 ary court of revision for Monday,  
 May 11 at 10 a.m.  
 Alderman Copeland brought in a re-  
 commendation that the city purchase  
 a steam roller for use on the city  
 streets. He said they would either  
 have to buy one or borrow the gov-  
 ernment roller.

The matter had been considered in  
 committee and with very little further  
 discussion it was decided to submit a  
 bylaw to the ratepayers for the raising  
 of \$3500 on debentures for the pur-  
 chase of road machinery which would  
 include the roller.

Alderman Copeland suggested that  
 a bylaw be submitted to raise suffi-  
 cient money to open up new streets.

Alderman Sutherland said he was  
 opposed to floating debentures for  
 street work of a temporary nature.  
 He contended that such work should  
 be paid for out of current revenue and  
 debentures only issued for concrete,  
 bitulithic or similar pavement of a  
 permanent kind.

A petition was received from five  
 rate payers for the placing of a by-  
 drant on Christleton avenue. This was  
 referred to the Fire Protection Com-  
 mittee.

A resolution was passed engaging  
 Mr. A. L. McNaughton as city engineer  
 for the construction of sidewalks under  
 local improvement.

It was arranged to hold the regular  
 meeting on Saturday this week, to  
 avoid the Friday holiday.

**ORCHARD PLAYERS WILL BE  
 BIG SUCCESS**

A bumper house is assured "The  
 Orchard Players" in their production  
 of "David Garrick" at the local Opera  
 House on Easter Monday, and it is  
 safe to assert that a rare treat is in  
 store for those present. Mr. William  
 Sauter and his company of sterling  
 artists, will carry the recollections of  
 some of the audience back again to the  
 theatrical atmosphere of "Good Old  
 London town."

But there is another feature in con-  
 nection with Mr. Sauter's undertaking  
 which must not be lost sight of, and  
 that is the excellent advertising the  
 Okanagan Valley and Kelowna in par-  
 ticular will derive from the company's  
 tour through various parts of B. C.,  
 and the States, and he is co-operating  
 with Mr. Beaver Jones in this respect.  
 If it were only for this alone Mr. Sauter  
 is entitled to strong local support.

The story of "David Garrick" ap-  
 pears at once to the imagination, and  
 ever since "Tom" Robertson made his  
 first success in the play, half a cen-  
 tury ago, its excellence of construc-  
 tion, its light and merry humor, its  
 wholesome, healthy tone, and the sun-  
 ny spirit that shines through it, has  
 held the boards almost continuously  
 ever since. "David Garrick" affords  
 splendid scope for true histrionic art,  
 and in the capable hands of "The Or-  
 chard Players" right from the rise, to  
 the final fall of the curtain, interest  
 will not flag for one moment.

On Tuesday evening the company  
 will stage "The Truth." There are per-  
 haps many sorts of "fibs", and those  
 told by "Becky Warden" lead to no  
 end of misunderstandings. Becky loves  
 her husband, but also likes other men  
 to admire her. Fred Lindon, whose  
 relations with his wife, are to say the  
 least strained, is one of Becky's chief  
 admirers. Mrs. Lindon naturally is  
 jealous and comes to Becky with the  
 intention of "combing her hair" but  
 with little result, for Becky is quite  
 unconscious of having done anything  
 very serious. Mrs. Lindon appeals to  
 Becky's husband, who, however, has  
 such faith in his wife that he refuses  
 to listen to her, until Mrs. Lindon pro-  
 duces evidence which shatters even his  
 confidence.

He questions his wife, who to excuse  
 herself seeks refuge in lies, which only  
 involve her the more, and the case  
 looks so black for Becky that her  
 husband leaves her, believing her con-  
 duct to have been much worse than it  
 really had been.

To learn how matters are straighten-  
 ed out one must come to the Opera  
 House on Tuesday evening next. Al-  
 though the motive of the play is ser-  
 ious it abounds in comedy scenes of a  
 most amusing nature.

**SUDDEN DEATH OF A GRENFELL  
 GIRL**

The current issue of the Grenfell Sun  
 contains the following:

"It is with deepest regret that the  
 Sun has to again record the sudden  
 death of one of our citizens. Needless  
 to say the entire community was  
 shocked on Friday morning to learn  
 of the death of Miss Mabel Fleming.  
 The end came on Thursday evening in  
 the Armory after a short game of  
 basket ball. While along with her  
 companions, she was helping to pre-  
 pare a lunch, apparently in the best  
 of health, when suddenly without any  
 warning she was seen to sway and  
 fall heavily to the floor. It was at  
 first thought it was only a faint. All  
 that kind and loving friends could do  
 was done, but in vain, her young life  
 had fled. Mabel, as she was familiar-  
 ly called by all who knew her, was of  
 a singularly bright and happy dispo-  
 sition, and she leaves a host of sor-  
 rowing friends. She was employed as  
 a stenographer in Mr. Nell's law office  
 during the past year. She was a mem-  
 ber of the Presbyterian church and  
 was an indefatigable worker in church  
 and Sabbath school, being a member  
 of the choir since almost a child. Her  
 Sunday school class of little boys  
 were not the least of the many mourn-  
 ers at the funeral service. A pathetic  
 incident in connection with this was  
 brought to light after her death in a  
 little store of Easter gifts she had laid  
 aside for each of its members. The  
 memory of her sweet young life will  
 live long in the hearts of those she has  
 left behind. The funeral, which took  
 place on Monday to the Summerberry  
 Cemetery was largely attended by  
 friends and relatives from a distance.  
 Mrs. R. A. Copeland and Miss Cope-  
 land, and Mrs. W. H. Fleming from  
 Kelowna, B. C.; Mrs. A. W. Barber,  
 Salmon Arm, B.C.; Mrs. Thos. Cope-  
 land, Langham, Alta.; Mrs. Munson,  
 Redcliff, Alta.; J. J. Dal, Red Deer,  
 Alta.; G. A. W. Braithwaite, Nokomis,  
 Sask.; Albert Fleming, Edmonton, Al-  
 ta. The business houses were all  
 closed during the services. The pall-  
 bearers were Messrs. Stewart, Richard-  
 son, Coy, Suter, Smith and Merfield.  
 The bereaved brothers and mother  
 have the heart felt sympathy of the  
 entire community in their great sor-  
 row.

**SYNOPSIS OF COAL MINING  
 REGULATIONS**

Coal mining rights of the Dominion  
 in Manitoba, Saskatchewan and Alber-  
 ta, the Yukon Territory, the North-  
 west Territories, and in a portion of  
 the Province of British Columbia, may  
 be leased for a term of twenty-one  
 years at an annual rental of \$1 an  
 acre. Not more than 2,500 acres  
 will be leased to one applicant.

Application for the lease must be  
 made by the applicant in person to  
 the Agent or Sub-Agent of the district  
 in which the rights applied for are  
 situated.

In surveyed territory the land must  
 be described by sections, or legal sub-  
 divisions of sections, and in unsurveyed  
 territory the tract applied for  
 shall be staked out by the applicant  
 himself.

Each application must be accom-  
 panied by a fee of \$5 which will be  
 refunded if the rights applied for  
 are not available, but not otherwise.  
 A royalty shall be paid on the mer-  
 chantable output of the mine at the  
 rate of five cents per ton.

The person operating the mine shall  
 furnish the agent with sworn returns  
 accounting for the full quantity of  
 merchantable coal mined and pay the  
 royalty thereon. If the coal mining  
 rights are not being operated, such  
 returns should be furnished at least  
 once a year.

The lease will include the coal min-  
 ing rights only, but the lessee may  
 be permitted to purchase whatever  
 available surface rights may be con-  
 sidered necessary for the working of  
 the mine at the rate of \$10 an acre.

For full information application  
 should be made to the secretary of  
 the Department of the Interior, Ot-  
 tawa, or to any Agent or Sub-Agent  
 of Dominion lands.

W. W. COBY.

Deputy Minister of the Interior,  
 N.D.—Unauthorized publication of  
 this advertisement will not be paid

### The Manufacturer's Problem Solved!

THE solution will be found on page 4 of "The Elevator," a new book just off the press. We want to place a copy of this Book in the hands of every progressive manufacturer in the country.

It may prove to be worth hundreds of dollars to YOU. In its pages appear many illustrations and suggestions for manufacturers, retailers, jobbers and wholesalers, any one of which may be the solution of your individual problem. The successful manufacturer owes much of his success to the intelligent arrangement of his plant and the elimination of needless effort and wasted energy. This Book points the way to bigger profits and greater efficiency. Write to-day for YOUR copy.

## HALF OF THE HOPE MOUNTAIN GRADING DONE

Practically one-half of the grading on the joint section of the Hope mountain route, between Hope and the Coquihalla summit has been completed, according to advices from the scene of operations. The Kettle Valley Railway Co., which is building this 38-mile section, has nearly 2000 men employed on grading work along the route and rapid progress is now being made consequent upon the improved weather conditions.

Construction was commenced last November and the operations have been continued all winter.

Grading gangs are also now engaged on that section of the Kettle Valley line which will afford connections with the V. V. & E., at Princeton. A 33-mile section will be built to the junction point from Osprey Lake. As mentioned previously, the provisions of the Kettle Valley Railway Bill passed at the last session of the provincial legislature, relieved the K.V.R., from constructing its line from Osprey Lake to Otter Summit and the line is accordingly being diverted south to link up with the V. V. & E. at Princeton.

The section of the V. V. & E. Railway which is being built by the American company, between Princeton and Otter Summit, and which will be used jointly by the K.V. and the V. V. & E. is expected to be graded by the end of August, when steel laying will be immediately started and the line will be rushed to completion. In order to be ready for service at the same time as the Hope-Coquihalla Summit section, which will also be used jointly by the Great Northern V. V. & E. and the Kettle Valley.

Announcement was made last January by Mr. J. J. Warren, president of the Kettle Valley railway, that a through service between the Okanagan and the coast would be in operation by next autumn.

### A CAMEL'S STOMACH

The stomach of a camel is divided into four compartments, and the walls of these are lined with large cells, every one of which can be opened and closed at will by the means of a powerful muscle, explains a writer in the Presbyterian. When a camel drinks, it drinks a great deal. Indeed, it drinks for such a long time that you really would think it never meant to leave off. The fact is that it is not satisfying its thirst, but is filling up its cistern as well. One after another the cells in its stomach are filled with the water, and as soon as each is full, it is tightly closed. Then when a few hours later, the animal becomes thirsty, all that it has to do is to open one of the cells and allow the water to flow out. Next day it opens one or two more cells, and so it goes on day after day until the whole supply is exhausted. In this curious way a camel can live five or even six days without drinking water at all, and so is able to travel quite easily through the desert, where the wells are often hundreds of miles apart.

## Western Canada at Panama Exhibition

PLANS COMPLETED FOR C. P. R. BUILDING

Mr. D. C. Alexander of the Natural Resources Department of the Canadian Pacific Railway states that the plans for the C.P.R., building at the San Francisco Exposition next year have been completed, and are now awaiting the approval of Mr. J. S. Dennis, assistant of the president and head of the Natural Resources Department of the company, which has full charge of the building and exhibits.

The building which was designed by Mr. F. S. Swales, architect for the Hotel Vancouver, and also designer of the C.P.R. buildings at the recent exhibition in Brussels, will cover a ground space of 65 square feet. It will be a one storey structure and will have a warm grey marble effect. The roof will be of tile, and the wide cornices will be colored to conform with the general style of the neighboring buildings.

The interior will be divided into an exhibition hall 40 feet wide by 65 feet in length, and a cinematograph hall, 22 feet in width and 50 feet in length. The ornamentation is renaissance in character but emblematic of the products of the Canadian West, fruit and grain being used throughout.

The chief feature of the exhibition hall will be a working model of the great Bassano dam, near Calgary, 12 feet in width and 50 in length. The method of collecting the water, the operation of the dam, and the way in which the water is distributed to irrigate the farms in the vicinity will be renaissance style, and will harmonize with the architectural scheme that is being carried out on other buildings of the exposition. The building itself shown. At the end of the hall it is proposed to hang a huge painting 60 feet long, showing scenes on one of the model farms of the company.

Around the wall, exhibits of the natural resources of the country will be shown, including grain, fruit, minerals and game. One of the chief ideas of the company is endeavoring to bring out in this exhibit is that the C.P.R. is not simply a great railway system, but also a nation building concern. And they will endeavor to correct the erroneous impression held by so many people in the United States that Canada is a cold country.

In the cinematograph hall a lecturer with the aid of moving pictures, will point out the advantages to the farmer in the Canadian west. Around the walls of this hall there will be about twenty-five transparencies, showing farm scenes on the prairies.

It is expected that work will be commenced in a short time, as the land has finally been allotted and every thing is in line for the erection of the building. The National Resources Department of the company has full charge of the exhibits that will be placed in San Francisco next year.

As a result of the recent theft of a navy code book from a warship at Sheerness, the Admiralty has decided to issue a new set of code books at a cost of many thousand pounds thus rendering the stolen book useless.

TEXAS RANGERS WATCHING FOR MEXICAN OUTLAWS

This picture shows Texas Rangers patrolling the banks of the Rio Grande in the hopes of catching some of the Mexican outlaws who cross the border into the United States, commit atrocities and outrages and make their escape. The recent killing of the postmaster at Tecate, Calif., has caused the doubling of the number of rangers who patrol the border. Meanwhile the United States is welcoming with open arms refugees of every walk of life from Mexico. From the lowly bandit to the millionaire they come trooping in. It is costing the United States \$900 daily to feed and care for them and reports from the camps say they seem to be having the time of their lives from the eating and sleeping standpoint.

## TOWN AND COUNTRY NOTES

Mr. H. D. Riggs, Sr., is paying a visit to Armstrong on business.

Mrs. J. W. Jones will not receive tomorrow (Friday).

Mr. Wm. Emmerton of Penticton was a visitor to Kelowna over the week end.

Mr. and Mrs. H. S. Wake left the city on Monday for Vancouver, where they will reside in future.

Mrs. (Rev.) Ferguson Miller, of Penticton is spending the week in Kelowna, the guest of Mrs. D. D. Campbell.

Rev. J. C. Switzer was a passenger on Saturday's boat for Enderby, where he preached the anniversary services the following day.

Mrs. Scharf of Winnipeg has arrived in the city where she will reside in future with her brother, H. D. Riggs, Ethel street.

Mr. D. A. McDonald, of Vernon arrived in Kelowna to take over the duties of provincial constable in the city.

Mrs. Fallis and boy who have been staying for some time past with Mrs. L. V. Rogers, left this morning for Elbow, Sask.

D. Wigglesworth, the sale of whose household furniture took place Saturday last has gone to Edmonton for a business visit.

A number of boys of Chesterfield house school were passengers on the Okanagan on Tuesday morning bound for their homes for the Easter holidays.

Mrs. Hanning of Vancouver who was well known in the city as Miss Cowdrey before her marriage is staying with Mrs. J. F. Burne and renewing old acquaintances.

The monthly meeting of the Political Equality League is postponed for a week, until Thursday, April 23rd, when it will be at the house of Mr. and Mrs. Gore.

J. E. Reekie, president of the Okanagan United Growers, left on Saturday to visit points on the prairie on business connected with the association. He was accompanied by Mr. R. Robertson, manager.

The services at the Baptist church on Sunday were in charge of Rev. C. A. Britten, of Penticton, in the absence of Rev. D. J. Welsh who was conducting anniversary services at Kaleden.

Mrs. H. S. Wood, of Vancouver is visiting Mrs. Dr. Knox for a few days. Mrs. Wood is a daughter of Professor A. Knight of Queen's University, Kingston, Ont., the well known physiologist and author of several works on that subject, one of them being used as a text book in the public schools of Canada.

A long felt want has been supplied at Kelowna by the building of a plank sidewalk, nearly half a mile long, on Bernard Avenue.

L. Holmen, of Kelowna, is preparing to plant about an acre of land in tobacco. He thoroughly understands its cultivation and curing, and thinks the soil and climate admirably suited to it.—Vernon News (20 years ago).

Capt. C. H. Taylor arrived home from England on Tuesday.

Mrs. J. C. Switzer will not receive on Friday of this week.

Miss Eva Reekie is visiting her Aunt, Mrs. Reekie of Water street.

Mr. Geo. Whelan and daughter returned this week from a visit to Tacoma, Wash., where they spent about seven or eight weeks, both returning very much better in health for their holiday.

District Deputy Grand Master D. W. Sutherland paid his official visit to the Masonic Lodge at Penticton Tuesday. He was accompanied by Worshipful Master Geo. F. Meikle, and several of the local lodge.

Mr. R. A. Binger of Benvoulin has sold his 32 acre ranch to Messrs V. and B. Stephens, of London, England. The purchase price, we understand was \$20,000, and the sale was put through by Messrs. E. W. Wilkinson & Co.

The work on the new maternity wing of the hospital is well under way. The concrete blocks of the first storey have been put in and the carpenters are now busy putting up the timber superstructure. It is expected that the new wing will be opened in July.

A. R. Lord left yesterday for Vancouver and Alderman D. W. Sutherland has been prevailed upon to return to his old profession for a couple of days and take charge of the public school until Thursday, the Easter vacation beginning Friday. Mr. Sutherland, as probably most readers know was the first school teacher in Kelowna.

Axel Hemmelbach is in the hospital suffering from a broken ankle. On Saturday last he and a few men were outside the Royal Hotel. Hemmelbach and another man engaged in a friendly scuffle. The former slipped and broke his ankle and was taken to the hospital where his injuries were attended to.

At the provincial police court yesterday John Ward was brought before Magistrate Weddell on a charge of unlawfully having venison in his possession in the district of Peachland or Rocky Point on the 3rd inst., during the prohibited season. Ward pleaded guilty, and was fined \$25.00. Game Warden Sullivan prosecuted.

James & Trenwith have a novel advertisement in their store in the way of an electrical apparatus which is being used to re-charge storage batteries of motor cars. This consists of an electric arc electrifier. There is a bulb, containing mercury, and from which the air has been exhausted. Through this from different points electric currents are sent to the mercury, which is vaporized and through the vapor a current of electricity is sent, the result being to change an alternating current of electricity to a direct current. The vaporized mercury emits a bluish flame and the effect is very striking, especially at night.

The skating season at the roller rink was brought to a conclusion on Thursday when a carnival was held for the benefit of the Baseball club. A large crowd turned out, so large was it that there were not enough skates to go round. The band was in attendance, and those present spent a good time. Mr. Chris Feggare left for Kamloops on Saturday morning, and the rink will be closed down for the next six months, re-opening in October.

## BAPTIST YOUNG PEOPLES' SOCIETY

"Printers have persecuted me without a cause." To the ordinary reader of the Bible this quotation from Psalm 119: 161, would appear inexplicable inasmuch as it is not to be found in our modern editions. But it was in one of them, and that published by William Tyndale in the 16th century. The story of how we got our Bible was told by Mr. G. S. Blackaby at the meeting of the Young People's Society at the Baptist church on Monday evening, and in an interesting way the speaker showed the evolution of this great series of books. The history of the Bible from the time when it existed merely in miscellaneous manuscripts of parchment in the early Christian era, then when these were brought together and compiled, of Jerome's translation known as the Vulgate the translation of the Venerable Bede, down to Wycliffe's translation, on to that of Tyndale and finally the great Authorized Version of King James was given. Samples of the early translation were read and when the address was brought to a conclusion those present had a view of the Bible altogether. Mr. Blackaby spoke of the revised version of England and America, and urged their use, even though as he pointed out, there was a strong prejudice in favor of the King James' version. A hearty vote of thanks was accorded him for his instructive address.

Next Monday the high cost of living will be discussed by Rev. D. J. Welsh, and those who want to know how to live cheaper may get a few wrinkles from the rev. gentleman.

## RAILROAD WORK NEARING COMPLETION

The work at the railroad construction camps is rapidly nearing completion, and only a few men are employed in the grading, which will be completed by the 15th of the present month. George Chew has practically completed his contract and the track is laid down to the east bank of Canyon creek. The grade at the Narimata end of the tunnel is about the only piece of work that is left undone, but this will be finished in May, and will allow the track to be laid down to Sawmill Creek. The bridge work will probably be commenced late in the fall to allow passenger trains to go through to Osprey Lake from Midway.

## PROVISION MADE FOR TELEPHONE EXTENSIONS

Provision has been made by the government telephone department for the extension of the Okanagan Valley Telephone System to the U. S. Boundary, from Fairview via Osoyoos, Sidney, Bridesville, Rock Creek and Midway. The distance which is approximately 54 miles calls for an expenditure of \$9000, and when completed will connect up with the Washington State Telegraph, affording communication with the town of Oroville.

A lock of President Lincoln's hair sold for \$65 the other day at the auction sale of Lincolniana, from the effects of Major General William Lambert of Philadelphia.

The lock was cut from the head of President Lincoln the day after his assassination.

A large increase in the peace effective of the Russian army is impending. The increase is likely to amount to 460,000 men. This would bring the total of the Russian first line of defence up to 1,700,000 men. The estimated cost will be £50,000,000, to be spread over three years. These figures probably refer to the European force alone.

## City of Kelowna COURT OF REVISION

Notice is hereby given that the first sitting of the Annual Court of Revision of the Municipality of the City of Kelowna, will be held in the Council Chamber, Bernard Avenue, Kelowna, B. C., on Monday, the Eleventh day of May, 1914, at ten o'clock in the forenoon, for the purpose of hearing complaints against the assessment as made by the Assessor, and for revising and correcting the assessment roll.

G. H. DUNN, City Clerk's office

Kelowna, B. C. April 4th, 1914. 20-21

## Amusements

"CHELSEA 7750"

The Opera House management has completed arrangements to show another "Famous Players Feature" production on Wednesday next. This may correctly be termed an event of importance in local theatricals as Henry E. Dixie, the famous "legitimate" star is one of the foremost favorites of the American stage. He distinguishes "Chelsea 7750" by his convincing characterization of an eminent, able and conscientious detective.

Mr. Dixie is provided with one of the strongest parts which in all his versatile career he has ever portrayed. Startling revelations, ingenious machinations and overwhelming climaxes crowd fast in thrilling succession; and through it all the mystery and fascination of the world that lives under cover. It is a detective play, startling in conception, novel in construction, unique in development, and having the hallmark of expert production under Daniel Frohman and J. Searle Dawley. Patrons of the Opera House who saw "In the Bishop's Carriage" will undoubtedly avail themselves of this opportunity to see another Famous Players production.

## AN IRISH ROMANCE— "RORY OF THE BOGS."

Warren Kerrigan supported by a very capable company has made a splendid three part feature photo play an Irish romance of the eighteenth century that will undoubtedly create a genuine furor. A story of the Emerald Isle that fairly reeks of the past, a story of love and intrigue covering a period of about twenty years and only reaching a climax when the tolling of the death bell arouses the conscience of Sir Everett Burke, the wicked who kidnapped "Rory" in his infancy. Of course, Rory married Kathleen and they lived happily ever after. "Rory of the Bogs" will be included in the big program which Manager Duncan has arranged for Saturday at the Opera House. Presented in the same program will be a three part "Imp" feature entitled "Love or a Throne." The backgrounds and historical settings, and the pomp and elegance that abounds in the old world courts makes this picture one of exceptional beauty and interest. William Shay and Leah Baird play the principal parts and are supported by an excellent cast. This special program also included two very amusing comedies that are guaranteed to create a smile that won't wear off.

## NON-AGRICULTURAL LAND SHOULD BE RESERVED

The Minnesota State Forestry Association is agitating for an amendment to the state constitution, to provide for the retention as forest reserves of all state lands found upon examination to be unsuitable for agricultural purposes. At present, such lands may be filed upon under the guise of homesteads, but, after the removal of the timber—and possible an attempt at farming, foredoomed to failure—the lands are abandoned, usually in a completely denuded and burned-over condition, and revert to the state. A much better policy would unquestionably be to restrict agricultural settlement to lands clearly suitable for that purpose, and retain the non-agricultural lands for permanent forest production.

This same problem arises in many parts of Canada in a similar way. Previously, there was no direction of agricultural settlement, and, as a result, much non-agricultural timber land was taken up under the homestead laws. This tendency was particularly strong at the time lumbering operations were being carried on. At that time the homesteader was able to find winter work in the woods, as well as an excellent market for the agricultural products that could be raised during the few years that elapsed before the surface fertility of the soil, derived from the decayed mould from fallen leaves and branches, was exhausted. In very many cases, settlers have been stranded on these poor lands, and have become so impoverished that they are wholly unable to move away and settle on lands really suitable for farming. More recently, the provincial governments have made attempts at directing settlement, but the pressure for the opening up of the timber lands has been strong, and arguments that the lands are suitable for agriculture have been so strongly urged that the attempts to withhold lands essentially non-agricultural have in many cases been unsuccessful.

A fork carried above an aeroplane has been invented by a French aviator to enable a machine to alight by clutching a cable.

## Comfort Your Stomach

We pay for this treatment if it fails to promptly relieve indigestion and dyspepsia.

Reckall Dyspepsia Tablets remedy stomach troubles because they contain the proper proportion of Pepsin and Bismuth and the necessary carminatives that help nature to supply the elements the absence of which in the gastric juices causes indigestion and dyspepsia. They aid the stomach to digest food and to quickly convert it into rich red blood and material necessary for overcoming natural body waste.

Carry a package of Reckall Dyspepsia Tablets in your vest pocket, or keep them in your room. Take one after each heavy meal and prove our assertion that they will keep indigestion from bothering you.

We know what Reckall Dyspepsia Tablets are and what they will do. We guarantee them to relieve indigestion and dyspepsia, or to refund your money, if they fail to do so. Doesn't it stand to reason that we wouldn't assume this money risk were we not certain Reckall Dyspepsia Tablets will satisfy you? Three sizes, 25 cents, 50 cents, and \$1.00.

You can buy Reckall Dyspepsia Tablets in this community only at our store:

## Proposed Plan of Redistribution

ELECTORAL MAP OF  
BRITISH COLUMBIA

The redistribution committee of the House of Commons has prepared a tentative electoral map of British Columbia, showing the thirteen constituencies which will have representations in the next House of Commons. Some changes may be made yet, but on the whole the redistribution is likely to follow the lines laid down. Under the bill now before the House, British Columbia will receive six additional members.

Vancouver city will be given two members, to be elected at large. Another member will go to South Vancouver, consisting of the municipalities of South Vancouver and Point Grey. The present New Westminster riding will be divided into two. One of the new ridings will comprise the provincial constituency of New Westminster city and Delta and all that portion of the provincial electoral district of Richmond, lying south of Burrard inlet, excepting the municipalities of Vancouver city, South Vancouver and Point Grey.

The other district will be composed of the ridings of Dewdney and Chilliwack and all that portion of the provincial electoral district of Yale adjoining the provincial electoral districts of Chilliwack and Dewdney, bounded by a line commencing at the southeast corner of the provincial electoral district of Chilliwack thence easterly along the international boundary to its point of intersection with the westerly boundary of the provincial electoral district of Similkameen, thence northerly following the said last mentioned boundary to the northeast corner of the provincial electoral district of Similkameen, thence in a straight line westerly to a point on the north bank of the Fraser river, one mile east of the village of Yale, thence following a straight line to the northeast corner of the provincial electoral district of Dewdney.

The present constituency of Kootenay will be divided into East and West Kootenay will comprise the provincial ridings of Cranbrook, Fernie and Columbia. West Kootenay will

comprise the ridings of Nelson city, Ymir, Rossland, Slocan, Kaslo and Revelstoke.

Victoria city riding will remain practically as it is today. Nanaimo also will be about the same, consisting of the ridings of Cowichan, Esquimalt, Nanaimo city, Newcastle, Saanich and the islands.

A seat called Skeena will consist of the provincial ridings of Skeena and Atlin.

Yale-Cariboo will be divided into two seats. One will consist of the provincial ridings of Cariboo, Lillooet, Kamloops and Yale, excepting that portion of Yale contained in the electoral district of Westminster district as the same is above described and including the whole city and historic municipality of Salmon Arm.

The other will consist of the electoral districts of Okanagan, excepting any portion of the city or district, municipality of Salmon Arm, which may be contained therein and the provincial electoral districts of Similkameen, Greenwood and Grand Forks.

The thirteenth seat has not yet been named, but will consist of the ridings of Alberni, Comox and all that portion of the provincial electoral riding of Richmond, thence in a southwesterly direction to the mouth of the east branch of the Squamish river at the head of Howe Sound, thence in a southerly direction along the easterly shore of Howe Sound to Burrard Inlet.

### COULDN'T RESIST

A trained ostriech recently disconcerted its exhibitor at a London music hall by continually endeavoring to break away from all restraint, and to climb over the footlights into the orchestra.

The widely advertised act came to a sudden end, and the professor emerged from behind the curtain and apologized for the actions of his pet in about these words:

"Ladies and gentlemen: Hi am very sorry to disappoint you this evening. We are compelled to cease our engagement until the management engages a new orchestra leader.

"The one at present employed 'as no air on top of 'is 'cad, and my bird takes him for a hegg."

## Blight and Frost-Proof Potatoes

IMPORTANT AGRICULTURAL  
DISCOVERY IN NEW ZEALAND

A new blight proof and frost resisting potato has been discovered by Mr. John Harris, of Chura Road, Raetihi, New Zealand. The discovery is said to be the most important one in agriculture for many years, and the Agricultural Department of the New Zealand has investigated the phenomenon and admitted that the properties that are claimed for the new potato are beyond question. Mr. Harris has been experimenting with potatoes for some years, and some time ago he noticed a healthy stalk growing among a crop of Northern Stars and El Dorados, all of which were affected by blight, and finding it in perfect state began to experiment. The result is that a potato now called the New Era has been grown. The plant was carefully nourished and tended, and for several seasons a new crop was propagated from the seeds of the previous crop. The variety has been placed under the closest observations, but on no occasion has there been the slightest trace of blight or disease caused by frost, though the crop planted next to it has been blackened by severe cold and badly affected. The average yield is about nineteen tons per acre. Mr. Baylis, of the Government Agricultural Department, has made an inspection of the growing crop, and though he has formed no theory to explain the origin of the New Era, he admits that the potato is really frost proof and blight proof.

Revs. A. Dunn and J. Rowan O'Brien are attending the meetings of the P. C. Presbyterian Synod this week.

The W.C.T.U., will hold their regular monthly meeting next Tuesday, April 14th at 3 p.m., at the home of Mrs. Stockwell (the house previously occupied by Mr. Thos. Lawson, Bernard avenue). Members will kindly see that all arrears of fees be paid so that the books may be straightened before the annual meeting in May.

## Glenmore Notes

G. U. Thompson of Moose Jaw, has been spending a few days in the district and has purchased property in Glenmore. He returned home on Monday.

We understand that the Central Okanagan Lands Ltd., has made quite a number of sales in this district recently.

G. H. Kerr, who has been spending the winter at his old home in Sherbrook, Quebec, returned on Wednesday of last week.

L. G. Mayhew, another Glenmore resident, who has been absent about a year at Medicine Hat, Alta., has returned to the district to work on his farm.

H. K. Todd has completed a handsome residence on his property.

G. M. Stanley has just moved into his new house.

Mrs. Maubray, who recently purchased property in this district, is about to build a house on it.

Spring planting has been commenced by the Central Okanagan Lands. In addition to planting quite an acreage for non-resident owners, they will this year plant about 150 acres of orchard on their own property.

H. H. McLeay, manager of the Columbia Valley Orchard Ltd., with headquarters at Edgewater, in the Columbia valley, who has been spending a few days visiting his farm in Glenmore, returned home on Saturday. He was the guest of Mr. J. S. MacKenzie while here.

Rev. P. S. Verner has left for his home in Montreal after spending the past few months in the Ellison district for the benefit of his health.

Special Easter services will be held in the Methodist church on Sunday. The subject for discussion will be the Resurrection of Christ which will be considered in the morning as a factor in character building and in the evening as an indisputable fact of history.

## Hints on Hair Health

If you use our treatment, we will either stop your hair from falling or pay for the treatment ourselves.

Dandruff is a contagious disease caused by a microbe, which if not removed causes baldness. This microbe often comes from a comb or brush belonging to someone else.

If you are troubled with dandruff, itching scalp, falling hair, or baldness, we believe that Rexall "93" Hair Tonic will do more than anything else to remove the dandruff, destroy the germ, make the scalp healthy and stop falling hair, and if there is any life left in the roots, also promote growth of new hair.

We believe that probably 65 per cent of the cases of baldness could be overcome if people would only use Rexall "93" Hair Tonic for a reasonable time, as directed.

We don't want you to take our word for this. We want you to test the merits of Rexall "93" Hair Tonic at our risk. If you use it and it does not give satisfaction, just come back to us and tell us, and we will immediately hand back to you the money you paid for it. You promise nothing, sign nothing and your mere word will be taken for it.

We are dependent upon your confidence and patronage, and we would not make these claims, or make this offer if we did not believe that Rexall "93" Hair Tonic is the very best hair preparation you can use. Two sizes of bottles, 50c and \$1.00.

You can buy Rexall "93" Hair Tonic in this community only at our store:

P. B. WILLITS & CO. Bernard Ave

## Ellison News

(From our own Correspondent.)

Mr. W. Davenport who has lately resigned his position with Mr. Crowcroft is at present staying at Sunny Brae prior to taking up his duties at the K. I. Co.'s headgate.

The baseball team played their first game in the schools league schedule against the combined forces of Rutland Benvoulin and Mission districts, and won with a margin of 13 points, the score being Ellison 23, Rutland 10.

On Sunday next, being Easter, the English Church service will be conducted in the Whelan Methodist church by the Rev. J. F. Smith at 8.30 a.m., when a celebration of the Holy Eucharist will take place. We sincerely hope a large congregation will attend at this Easter festival.

A party of eight from the Ellison Literary Society visited the East Kelowna society on the occasion of the mock trial for divorce, but owing to their missing the trail along the Mission Creek did not arrive until the end of the proceedings. However, we understand that everyone enjoyed the trip and no doubt by next winter the road to the bridge will be completed and many good times will be spent with the societies.

### WIRELESS TELEPHONE PROBLEM

Signor Guglielmo Marconi, who has been conducting experiments with wireless telephony, has gone to London. The naval officers who assisted him in his experiments are convinced that he has completely solved the question of radio-telephony. They say that Signor Marconi in his experiments did not use any special apparatus. The existing aerographic installation served his purpose with slight modifications. One of these was a new receiver of his own invention, including a microphone, which is essentially different from all others.

Signor Marconi's improved high-sounding receiver with a dictaphone arrangement, which has now been adopted in radio-telephony, can be employed in wireless telephony to such an extent that the human voice can be clearly heard by everybody present in addition to the operator. Communication was maintained with the slightest energy day and night with ships 45 miles away and 15 miles apart. In spite of the intervening loud sounds, whatever is said is invariably clear. Distance, instead of diminishing, increases this clearness.

Atmospheric perturbations affect aerophony considerably less than aerography, and hence if the energy is sufficiently increased wireless telephony is possible at any distance. Signor Marconi has confided to his friends here that he will shortly aerophone across the Atlantic.

### RAISE A PIG

If you wish to own an auto that will travel fast and far—

Raise a pig.

If you have a dear desire for a splendid private car—

Raise a pig.

If your daughter yearns for jewels that will make a lurid haze,

If your wife would leader be where some other matron sways,

If you wish to give up toiling and in comfort spend your days,

There's a way—don't overlook it—

Raise a pig.

If you're sick of serving others and are looking for a chance,

Raise a pig.

If your son would like to spend some money on a neighbor's girl,

If you yearn to own a castle having walls inlaid with pearl—

Raise a pig.

If within a senate chamber you would like to hold a seat,

If you wish to be untroubled by the raising price of meat—

Raise a pig.

If you wish to get from under the big burden that you bear,

If you want to go to Wall street and create a furore there,

If, in short, you have a longing to become a millionaire—

There's a way—don't overlook it—

Raise a pig.

## Town Falls After Six Days' Battle

FEDERALS OUSTED FROM STRONG HOLDS BY MEXICAN REBELS

Torreón, the Mexican Federal headquarters, strewn with the dead and wounded of a six day battle was occupied by the rebels last Friday, pressing in on the heels of the flying federals. In all the fighting no foreigners were killed or injured. The taking of the city marks the climax of the first campaign of revolution to oust Victoriano Huerta from the presidency of Mexico City, and gives the Constitutionalists virtual control over the whole of northern Mexico. The fighting which began last Friday, week, had been almost continuous until the final assault. Positions were taken and lost repeatedly. Several night attacks sent the federals from strong positions, but at daybreak the captors would be compelled to abandon them by the strength and accuracy of the enemy's artillery fire, much of which, it is said, was directed by French and German gunners. Villa estimates his losses at five hundred killed, and fifteen hundred wounded, while the federal loss is a thousand dead and twenty-five hundred wounded.

The battle line was four miles long, and was bounded by three great hills in a triangle at the ends of which lay the towns of Gomez Palacio and Torreón. There were about ten thousand men in each army. The federals had fortified the hills with rifle pits, trenches, and barbed wire entanglements, and the nature of the ground made it difficult to recover the wounded, so that many died of thirst and hunger where they fell. Automobiles played a prominent part in the rescue ambulance work, but could not ascend the steep hills to the fortifications on the summit where hundreds were killed in the trenches by daybreak assaults. Each side used an armored train with big guns mounted, and on one occasion the two trains had a sharp engagement almost like a naval battle.

The Nelson street railway receipts for the two weeks March 14 to 28 were \$570.20, an increase of \$59.05 over the same period last year.

## SKELETON FOUND IN KAMLOOPS DISTRICT AT LEAST 15,000 YEARS OLD

That a skeleton discovered near Savona, B. C., is the oldest skeleton ever found in North America, is the interesting theory put forward by Mr. Geoffrey F. Monckton in the course of an article contributed to the Geographical Magazine. Mr. Monckton was the discoverer of the skeleton and has arrived at the conclusion that it at least is 15,000 years old.

The bones were seen projecting from a cliff near Kamloops Lake, and were embedded in the silt. As to its position, the bones of the body were all bunched together, the legs stretched forward, and the skull close to the knees, as if the body had rested in the soft mud in a sitting position, and as it decayed the bones had fallen together. There were no implements whatever found with the skeleton. Unfortunately the lower jaw is missing, but most of the other parts of the skeleton were found. A careful search revealed no teeth.

## FISHING SEASON IS NOW OPEN

From information received it appears that legally the fishing season is now open, being eleven days later than last year. The idea is prevalent that under the new act of the legislature licences must be taken out before angling can be indulged in. This is not so, the Attorney-General having stated that all anglers resident in the province being at liberty to use rod and line as formerly. The regulations governing trout fishing this year state:

"No one shall fish for, catch or kill trout of any kind, including steel head of two pounds in weight, undressed, or under, from November 15 in each year to March 25 following, both dates inclusive, except in the waters east of the 120th Meridian, where no one shall fish, for, catch or kill trout of any kind from November 15th in each year to April 30th following, both dates inclusive, provided that these close seasons shall not apply to Seton and Anderson lakes and waters tributary thereto, nor to Dolly Varden trout nor Steel Head caught in tidal waters by rod and line, or in Okanagan, Kamloops, Shuswap, Arrow and Kootenay lakes, nor to landlocked salmon, weighing five pounds, undressed, or over.

## KELOWNA FOOTBALL CLUB WINS AT VERNON

The local rugby team travelled up to Vernon last Saturday and again demonstrated their superiority over the Vernonites by defeating them by a score of 17 points to nil.

The game started promptly at 3.30 before a meagre crowd. Kelowna immediately secured possession of the ball and Wilson soon raced over the line for the first try. The kick at goal failed.

After play was resumed Kelowna gradually worked the ball up to the Vernon twenty-five yard line, where Manifold secured the ball from the scrum and passed to Hopkins who made a beautiful catch while running at top speed and carried the ball over for a splendid try, between the posts. Again the kick for goal failed. Some strenuous play took place in the centre of the field and Bell, securing the ball carried it over for a try which Wilson converted and shortly afterwards the latter scored another try, just before half time. The score at half time was 14 to 0.

Lloyd kicked off for Kelowna in the second half and with the home crowd encouraging their favorites with loud cheering, spurred them to almost superhuman efforts and for once they began to look dangerous. However Creese was very safe and relieved with long kicks to touch. Ashcroft, the fast Vernon three-quarter got possession and with a splendid kick put Vernon in a strong attacking position but Hopkins by some nice work relieved the pressure. Kelowna scored again through Anderson and the game ended as stated above.

Tomorrow (Friday) cars will leave the Bank of Montreal at 9 o'clock for Vernon where the locals will again meet the Vernonites in the last game for the Owen cup. It is to be hoped that as many enthusiasts as possible will be on hand to encourage the Kelowna team. Anyone with a car at their disposal kindly communicate with the secretary, J. E. Lloyd, Bank of Montreal.

Vernon will play here again on Saturday, April 18th, the game starting at 3.30 sharp at the city park.

E. A. Vachon, former provincial constable for this district, left for his new appointment at Tete Jaune Cache on Monday.

## OBSOLETE WARSHIPS

Mr. Molteno, a British M.P., having asked the first lord of the admiralty the number and cost of the vessels condemned as unfit for war purposes since 1904, when 130 vessels were struck off the list of vessels suitable for war, and were condemned to be broken up or sold out of the service, Col. Seely, in a written reply says the information asked for is as follows:

	Total Cost (excluding Armaments)
23 battleships .....	£17,584,453
3 cruisers .....	1,989,660
21 light cruisers .....	4,048,790
42 torpedo boat destroyers .....	*1,848,136
18 torpedo boats .....	**209,636
12 submarines .....	521,091
2 special service vessels .....	91,880
2 torpedo gunboats .....	123,658

£26,417,304

\*Exclusive of the value of His Majesty's ship Taku, captured from the Chinese.

\*\*Exclusive of the value of torpedo boats Nos. 100, 102 and 103, presented by the Indian government.

## THE BONES OF COLUMBUS

The proposal to take the bones of Columbus to the Panama Exhibition will, if carried out, add to the post-mortem mileage of that dead hero. Neither in life nor death has Columbus known peace. He died on Ascension Day, 1503, and served a sort of seven at Valladolid. Then he was removed to the Carthusian Convent of Los Cuevas in Seville, and in 1536 his body was exhumed and carried across the Atlantic to be buried in the Cathedral of San Domingo.

For 250 years he lay in peace, but in 1795 part of the island was ceded to France, and it was deemed unfitting that he should sleep anywhere but on Spanish soil. The coffin was accordingly removed to Cuba and buried in the Cathedral of Santiago. It is said that the bones of the explorer were divided and a piece of the skull and a few bones left in San Domingo. After the cession of Cuba to the United States, Columbus once more set out on his travels, and what is left of him now rests in the Cathedral of Seville.

## Kelowna Growers' Annual Meeting

(Continued from Page 2.)

incidental to the growth of an efficient organization and that the final solution of fruit marketing must lie in the building up of a strong, loyal and energetic cooperative association of growers.

Mr. Smith proceeded to deal with the question of marketing of fruit on the prairie, and spoke of three solutions that were worthy of consideration. One was that of direct dealing with the retailer from a British Columbia shipping organization. The second was that of establishing warehouses on the prairie, and the third was that which was carried on last year, that of working through existing wholesale houses on the prairie. The first seemed to be the least satisfactory of all the solutions, for there were immense difficulties in the way of the ultimate distributing of such fruit direct to the retailer, those of supplying exactly the assortment that the retailers needed, the quantity he needed at the time he needed it. Although those were difficulties they were not absolutely insuperable, but he did not think that solution would be the one finally adopted for the great fruit industry of British Columbia. The second solution, that of having their own warehouses in the prairie territory, was, he thought, possibly deserving of more serious consideration, and many people regarded that as a ideal towards which they should work. But there were serious difficulties in the way of doing that in the near future. There was no doubt that if they went into a business of that kind they would have to go into it in very much the same way as the wholesalers who were already established and arrange to do a year round business. The financial difficulty also would be a very great obstacle.

That brought them to the third solution, and many people regarded that as scarcely a solution, but more or less a makeshift. That solution was endeavoring to make use of the existing wholesale houses and secure their services for the distribution of their fruit.

Mr. Smith proceeded to speak of the Nash Bros., system of wholesale fruit houses on the prairie, and spoke of it as the most efficient marketing system on the prairie. There were 42 houses in all, and 23 of them were in Canada. He gave interesting particulars of the operations of this concern and concluded an instructive address by urging cooperation and loyalty among the growers.

Mr. R. Robertson

Mr. R. Robertson congratulated the members of the Growers' Exchange on the result of the operations in 1935. When those present that day recalled the circumstances under which they organized a year ago and the very great doubt there was in the minds of some at least, he thought they might congratulate themselves that they had gone through the season with the magnificent statement they had in their report. He had failed to find a man interested in fruit growing in the Okanagan Valley who had not congratulated the Valley on the result of the operations of this, the first year of operation. He thought that meant a very great deal for the future success. There had been complaints at various points that charges had been excessive. Possibly they may have been right and they may have been well founded in Kelowna, but he thought they would reduce the cost of operations the coming season. It seemed to him that the primary principle of success was that they should first recover the cost of operation in which they were engaged. If they increased their production they could reduce the cost of operations. With the exception of Enderby, every association in the valley had come through the year with a large surplus, and Enderby might have had that quite easily if they had not sold their growers' supplies at cost. From Salmon Arm to Penticton every association had done well indeed and had come through with a surplus on an operating basis.

As some of them knew very well, all of their growers did not see eye to eye with the policy they had been operating under. Some thought they should have done one thing, and some thought they should have done something else; but he was more convinced than ever as a result of consideration that the policy they adopted last year was the only safe and sane policy they could have adopted, without risking disaster in the year's operations, and he quite agreed with the suggestion that the first step in solution of their problem would possibly be the establishing of their own distributing warehouses at points in the north-west. How soon that would come he did not know. He was not very much interested in that. He was interested very much in the fact of being able to knit their growers and

local organization so solidly together that they would be just like the cooperative company, they could not tear them apart. Whenever they came to feel that then they would be prepared to take any forward step.

Some of them had learned that Ontario had recently come into the light in the cooperative movement, and only ten days or two weeks before there were formed in Ontario two cooperative movements very closely knit to the Grain Growers' Co. It had been arranged that that new association, which was called the United Farmers' Cooperative Co. Ltd., of Ontario, should be the eastern selling agent of the Grain Growers' Co., of the north west, that they would distribute the grain and feed to one point and another, and the Grain Growers would be the western agents for the Ontario fruit growers. As they knew, he had said more than once that that movement had come to stay, and nothing that any individual could do would ever stop it. It might slacken its pace a little, but they could not stop it. There were big problems ahead that would require the most serious consideration to solve to the benefit of the growers. The conditions in Kelowna were a little different from those in other districts, and yet in some respects he thought it was the best thing for them that they were as they were. The average returns to the growers in Kelowna district compared favorably with the returns of any other organization. For every individual case they could give him where the grower got better returns outside the association, he would give another one where he got better returns with the association. They would find difficulties in every local association. Sometimes they were hard to get over and it required patience and tact and careful management to do so. He had no hesitation in saying that the outlook was much better than it was a year ago, and they would give the soft fruit people better returns than they got a year ago. If they could make further progress this year in comparison with what they did last year he was not afraid of the future, the future would take care of itself.

Let him repeat to every local association he had been at—let them stick to their association through thick and thin and not let anything or anybody draw their attention or affection from it, because it was the child of their own creation, and if they did not take care of it the outside world would not do it for them. The organization was here, and it was here to stay. It was here for their profit and benefit.

Dr. Dickson, New President

At a subsequent meeting of the directors, Dr. C. W. Dickson was elected president and Mr. G. K. Salvage, vice president. Messrs. J. E. Reekie, D. Jones and C. G. Buck were appointed as members of the executive.

We understand that the management of the exchange has been re-arranged. Mr. W. D. Brent, who hitherto has been secretary-treasurer has been appointed manager and secretary and A. W. Hamilton, hitherto in charge of the warehouse is now superintendent.

## FIVE RULES OF HEALTH

Are you living up to these five rules of health?

1. Keep fresh air circulating in your sleeping room.
2. Exercise regularly every day—walking whenever you can.
3. Eat wholesome plain food and avoid alcohol.
4. Don't grind too long on one task—rest by changing work and interests.
5. Laugh at small troubles and wait till the big ones come before worrying over them.

The doctor who prescribed these rules admitted that if they were followed faithfully by the people he'd be put out of business.

They are not hard to follow. Not one costs an extra penny—indeed compared with the way most of us live, they would save money.

We once asked a very successful merchant to what one thing he must attribute his great achievements. He replied instantly:

"To will power. That humanly possible thing which if you have a will to do you can do."

It oughtn't to invoke a big tax on your will power to follow those five simple rules of health.

But we'll wa— a cookie to a caramel you aren't obeying them.

And leave it to you. Honest, now, are you?—Minneapolis News.

## Discuss Paving of Main Business Streets

(Continued from Page 1.)

Ie disclaimed any partiality to any particular kind of pavement, except that, taking it all round the asphalt surface was more pleasant to the eye and gave better surface in the long run if it was put down right. He advised the chairman of the committee to adopt the concrete pavement because it would probably be considerably cheaper in first cost. The job was very small and the cost of getting in the plant and expert supervision required to put down a perfect asphalt pavement would be out of all proportion to the additional value received. By putting down a concrete pavement with a concrete base and concrete finished surface it would probably last a good many years and might outlast the life of the bonds. It might then be resurfaced at any future time without anything like the cost of putting on the asphalt would be. For that reason he advised the city to have a concrete pavement as the best thing for the present and he had faith that it would be the best thing in the end. Concrete was only just coming into favor, and had not been used long enough to establish its life, but there were pavements down now that had been down six or seven years, and they were giving good service.

Alderman Sutherland offered an explanation as to how the city arrived at the one-third basis which was the proportion of the cost the city proposed to pay. It would cost the city

## Kelowna Steam Laundry.

in the ordinary way say \$1500 a year to keep the section of the street in good repair with crushed rock. They figured the amount of debentures upon which this \$1500 would pay the annual interest and sinking fund for 20 years, and took as a proper proportion that the city should pay as their share of the work. The principle from a municipal standpoint was this. They felt it their duty to give the citizens a street that was good enough for all ordinary traffic that would allow purchasers to go to the different business houses with their rigs and allow them to do ordinary business, but if the people on that street wished to have any fancy pavement or anything over and above what was actually necessary then it was their duty and it was only right that they should pay for this extra expense. The city assumed the responsibility of giving an ordinary fair street that would fulfil ordinary requirements, and that was all they presumed to do.

Mayor Jones, while stating that he had no objection to the proposed expenditure if the citizens wished it said he must call their attention to the city debt. A large amount of that debt had been caused through non-producing work. The assessable property of the city had made no change whatever in the last two assessments. There would be no change in the total value of assessable property this year. They had been informed by the school inspector that it was absolutely necessary that the schools should have sewer connection this year. That was going to mean a heavy expense to carry the sewer to the school. They had

to increase the city's power plant, otherwise when they came to the fall they might have to curtail the lights on the streets and in other places owing to the heavy load.

They had voted \$16,000 for water and light extensions and if they voted this \$40,000 for street improvements he had no objection, but it would mean that they had to spend \$125,000 this year, and interest and sinking fund on that would amount to 5 mills on the dollar. These were matters that should be put squarely before them, and if they took the step of undertaking that debt, the city would say they had done it with their approval, and they could not come back on the council.

The different methods of paving were freely discussed, a suggestion to leave a 20 foot boulevard down the centre receiving support from several quarters. The general feeling of the meeting was a strong desire for the pavement but a fear as to the heavy expense involved.

Ultimately a vote was taken, Mr. S. T. Elliott moving that Bernard avenue from Abbott street to Ellis street be paved this year and that the council be requested to draw up the necessary plans and specifications and pass the necessary bylaws for that purpose. This was seconded by Mr. Rowcliffe and carried by eight votes to two, only the property owners on Bernard avenue taking part in the voting.

As the work will be done under the Local Improvement Act, however it is necessary to present a petition to the council signed by the ratepayers involved.

## A Matter of Quality

When you are going to buy anything to eat, it is a great satisfaction to know that you are getting the very best that can be found

## Hunt's Supreme Quality Canned Fruit is that kind of an article

Hunt's Supreme Quality is NOT Lye Peeled; it is NOT Unripe Fruit; it is NOT put up to sell cheaply at the sacrifice of Quality

On the contrary, Hunt's Supreme Quality is peeled with a knife; is picked ripe from the tree; and the whole idea is to give a good pure wholesome article for a people who want good things to eat.

We have opened, tested and tasted almost every known pack of Canned Fruits, and can find nothing to compare with Hunt's Supreme Quality in Flavor, Color, Richness and Appearance. Any of the following are worthy of a place on even a king's table—

## Hunt's Supreme Quality

Lemon Cling Peaches, choice Apricots, Bartlett Pears, Royal Anne Cherries, Green Gage Plume, Egg Plums, Hawaiian Sliced Pineapple

Your choice for 40c per tin of 2½ lbs. each

## The McKenzie Co., Ltd.

Quality & Service our motto.

50c Bottles of Olives for.....25c

## We have Never Tried to Secure Trade by advertising Low Prices

We have pinned our faith on the watchword—  
QUALITY FIRST

BELIEVING that the highest quality will attract and hold more trade than the lowest price. This belief resulted in our stocking, for this season, a large range of Boy's Clothing, known as "Lion Brand." It is the best we know of to buy. It is, apart from our personal investment in it, the best we can advise you to buy. It is made from honest materials, made in an honest way, and sold at an honest price. It is "Made Right."

We believe, that if you will call and see it, you will realize that you can enhance the value of your dollar by buying it.

DOUBLE SEATS, DOUBLE KNEES, DOUBLE ELBOWS

SAVE TROUBLE—Lion Brand Clothing will do it. Where? It will retain its shape longer than any other make we know. This means much to your genteel son who likes to feel well dressed. It will not always be a coax for a new suit because the present one is out of shape. In the first place our garments are well and truly designed, the quality of canvas and hair cloth is good, the collar and lapels are padded, and the shoulders made concave. Will these features not save you trouble?

## THOUSANDS of WOMEN

are demanding the "UTILITY" garments because of their simplicity of adjustment, their cleverness of style and the very attractive designs used.

Only two buttons required to put the garment in readiness. No undergarments are visible as in the case of the old kimono.

When one side is slightly soiled, it can be reversed with the clean side on top.

All these desirable features are to be had at prices no higher than you are in the habit of paying.

Become a wearer of the "UTILITY" and you will become enthusiastic in its praises. See our big display.

It is typically a Utility garment as it is practical for every kind of service—a house dress, negligee or apron. Also a slip-on over other garments.

It is shown in a wide variety of materials such as crepes, piques, silks, challis, voiles, lawns and fancy flannelettes, in a good range of styles at interesting prices.

Let us demonstrate the many features of this patented garment. You will like it.
