Kelowna Orchard City Record

VOL. V. NO. 47. KELOWNA, BRITISH COLUMBIA, THURSDAY, OCTOBER 16, 1913. $1.50 Per Annum.

City Expenditure Must be Kept Low

REVENUE NOT MORE THAN SUFFICIENT FOR SALARIES

The council held its regular meeting Friday morning last with a full attendance.

A letter was read from Mr. H. A. Heggie, solicitor for the Canadian Northern Railway Co., and Mackenzie, Mann & Co., enclosing an affidavit in reference to the ownership of the property held in Kelowna by these companies, and stating that the taxes levied against them would have to be declared uncollectable. The clerk was instructed to reply that the council had decided to levy taxes against the property in question until satisfactory proof was received that the property was being used for railway purposes.

Mr. Geo. Rowcliffe wrote requesting the council to have two loads of earth or gravel placed at the intersection of Ellis street and Haynes avenue. Mr. L. Hayes of the Canning Company also asked for a few loads of gravel to be placed on Cadder avenue west. These matters were referred to the board of works.

Mr. A. L. Burke asking to be advised of the council's decision in reference to his application for a refund and the licence fee collected from him as an insurance agent. The clerk reported that he had submitted the matter to the city solicitors who had advised laying it before the secretary of the Union of B. C. Municipalities. The clerk, was, in the meantime instructed to ask Mr. Burke for a copy of the Attorney-General's letter to which he referred in a communication of Sept. 8th., last.

Mr. S. D. Colquette applied for an increase in salary by $25 per month. As the council was, however, approaching the end of its term of office, the letter was laid on the table to be dealt with by the incoming council.

Several letters were read in connection with the sale of the city debentures.

The chief constable submitted his monthly report for September. A total of 25 cases had been brought before Magistrate Boyce, 22 of them were "drunks," 2 begging on the street, and 1 refusing to pay trade licence. In the latter case a fine including cost of $3.50 was inflicted and an order made to pay the $50 licence. An appeal was entered against this decision. The report also included a detailed statement of city work done by prisoners during the month, amounting in all to 252 hours. The total of fines collected during September was $71.

A form of agreement between the city and John Casorso in reference to a temporary connection of their new block with the sewerage system, in which the cost was equally shared between the city and Mr. Casorso, was submitted, and a resolution passed ratifying the same and ordering its signature.

Alderman Copeland was requested to secure estimates for the laying of a storm drain on the lane south of Bernard avenue from the Casorso block to the lake.

Rebates of certain taxes were allowed to Mr. L. Holman and to the Kelowna Canning Co.

The clerk reported having been requested by Mr. Mulholland to attach the corporate seal to his plan of subdivision of part of Block 37, registered plan 202. Mr. Mulholland having received these plans from the land registrar with a request that the seal be attached. The clerk pointed out that there were arrears of taxes on a part of the property, and Mr. Mulholland had disputed his liability for these arrears.

After some discussion a resolution passed as follows: "That the corporate seal of the city be attached to all plans previously passed by the city council (by resolution) and on which taxes had been paid."

Alderman Copeland was given authority to have a new flooring placed upon Pendozi street bridge, which was in bad condition.

Alderman Copeland suggested that Alderman Thompson should be paid $82.50, being the cost of a sidewalk which he had put in at his own expense on Wolseley avenue. The discussion, however, drifted away from the point and no action was taken.

His worship, the mayor, strongly advised all departments to keep down their expenditures to the lowest possible figure as the revenue in sight would only be sufficient to pay the regular salaries. The city had borrowed the full amount of this year's taxes from the Bank of Montreal, and payments on taxes would have to be applied on this loan. Although the finance committee were using their best endeavors to negotiate private loans he could give no assurance that their efforts would meet with success. Under these circumstances he thought all expenditures on capital account should be stopped.

The clerk was instructed to wire the Municipal Construction Co., to await further orders before shipping the car of wood pipe, etc, on order.

The following accounts were then passed for payment:

J. Amberto	$ 3.00
J. Ottilie	3.00
Dominion Express Co.	8.33
C. P. R. freight	1. 7
P. E. Corby	51.50
Dr. H.L.A. Keller	9.50

Canadian Westinghouse Co.	3.03
Vernon Hardware Co. Ltd.	16.00

Awful Explosion in Welsh Colliery

ENORMOUS DEATH LIST IN MINE DISASTER

One of the most horrifying disasters recorded in the recent annals occurred near Cardiff, Wales, Tuesday and it is feared that no less than four hundred and eighteen miners have perished from fire, and after damp. Shortly after 9.30 a.m., subsequent to the descent of the men into the pit, a terrific explosion shattered the works of the Universal Colliery, and the ventilating and hoisting machinery was blown to atoms. So violent was the concussion that a man working 60 feet from the pit head was decapitated by the force of the terific blast ensuing. Immediately men and women from the neighborhood, only too familiar with the dread sound, flocked to the pit head and a scene of tragic horror followed.

The men of the night shift formed rescue parties and seeking an entrance by an adjoining shaft made frantic preparations to enter the mine to succor their entombed comrades. As they penetrated the workings they encountered several groups of men huddled together for safety in the pockets of the mine, many of whom were unconscious by reason of the bad air generated by the explosion. These men were hurried to the surface, and at noon no less than 412 had been brought up from the recesses of the mine. Many of them are in a serious condition, but hopes are entertained for their recovery.

At the same pit an explosion thirteen years ago killed 120 miners, only one of those below at the time being brought up alive.

Subsequent news is of a most serious nature. The fire is rapidly spreading in the mine, and has now reached the intake airway, thus shutting off the air supply, and the gravest doubts are now entertained as to the possibility of rescuing any more of the miners alive.

Improved Lake Service Promised

As a result of the recent visit to the Okanagan from Mr. F. W. Peters, general superintendent of British Columbia lines for the C.P.R., there is likely to be a number of improvements in the facilities at many of the different places in the valley. The advisability of enlarging the steamship service on the lake, and also of extending the train service will as a result of Mr. Peter's visit have serious consideration. It is generally understood that when the new boat, which is being built at the Landing, is completed, there will be a double daily boat service on the lake, says the Summerland Review.

DARING AVIATOR FLIES UNDER FOUR BRIDGES

This photo shows William Thaw, the wealthy young sportsman and aviator performing the unprecedented feat of flying under the four bridges which span the East river, separating New York from Long Island.

Together with Stephen MacGordon, Thaw started on his aerial voyage from New Haven, Conn., to New York, in a Curtis flying boat shortly after 8.30 on Sunday morning. The journey of approximately one hundred miles consumed an hour and twenty minutes. Taking of the time for stops and manoeuvring the flying time was at a rate of over a mile a minute.

The last stage of the journey, in which the aerial travellers flew under the bridges, was the most spectacular. Aviators have shunned this feat on account of the treacherous air currents which eddy about under the bridges and over the famous Hell Gate. No trouble was encountered at any of these points by Thaw, and MacGordon. They said that Hell Gate was one of the smoothest spots in the entire journey.

After sailing under Brooklyn bridge, the aviators flew around the statue of liberty and encircled an ocean liner in the bay before landing at Oakland Beach, Staten Island.

This illustration shows the air boat about to pass beneath Manhattan bridge.

CAFE CHANTANT

Saturday, Oct. 25th will be a day to rejoice the heart of man, woman and child in Kelowna—Why?, You ask —Because it is the day of the Cafe Chantant!

There will be a matinee and evening performance, and at both there will be a continuous stream of fun and frolic.

Amongst the various items will be those popular favorites, Mr. and Mrs. A. L. Soames, in one of their inimitable sketches: While several other leading ladies' and gentlemen of Kelowna have promised their services. Mrs. Hankey, of Vernon is coming down with her pierette troupe in their "Moonstruck" turn (in costume.) Mrs. A. L. Soames will be the soloist in this item.

The side shows will consist of Hat Trimming competition for gentlemen. Candy store, Aunt Sally and Ring Board, bran tub and caricatdres by that well known artist, Mr. H. Leslie, and then the guessing competition when there will be several very useful articles to win. The orchestra of the K. M. and D. S. have kindly consented to play selections in the evening.

Then last, but not least is the Japanese tea shop, which will be open at both performances. This will be held in the gallery of the hall and is under management of Mrs. Lionel Taylor and Mrs. Crawford.

The price of admission to the hall will be 25 cents.

The Cafe Chantant is in aid of the K. M. and D.S. So all come and help to place on a sound basis a Society which has done so much for the pleasure and amusement of Kelowna.

Next Sunday will be held the Anniversary services at Knox Presbyterian church.

Mr. and Mrs. Macauley lost their infant son on Sunday last, the funeral taking place Monday.

The wedding is to take place tonight at the home of Dr. Gaddes, of William Cannon to Miss Marian McClarty.

An interesting wedding took place Thursday evening last when Mr. Ernest W. Saunders, proprietor of the Kelowna Dairy, was married to Miss Eva J. Birch. The ceremony which was a quiet one was performed by the Rev. J. C. Switzer.

SONS OF ENGLAND LODGE GROWING

The regular fortnightly meeting of the local lodge of the Sons of England Benefit Society was held last Thursday and was one of the most successful of the year. The attendance was excellent and the occasion was remarkable for the number of candidates initiated, the largest since the inauguration of the lodge. The branch of the society was started in Kelowna over two years ago and since that time has had a difficult career, owing to scarcity of members. Now, however it appears to be thriving and is receiving more hearty support, although there is still room for more members, but is matters progress as favorably as they have been doing in the past three months it will soon be the strongest lodge in the city. There are a number of men in the vicinity who are eligible for membership and ought to give their support to the society in view of its excellent aims and objects. It is thought that the present quarters in the Keller block may soon be too small to accommodate a large meeting. Space forbids mention of the benefits accruing to members but enquiries are solicited and it is hoped that soon every available Englishman in the district will be enrolled in the support of the traditions of which he professes to be so justly proud.

The Kelowna Furniture Co., is unloading this week a car of grass chairs shipped from Hong Kong.

The monthly meeting of the board of trade has been postponed from the 21st to the 28th of the present month.

The funeral took place last Sunday afternoon of W. J. Shain, who was best known in town as a prominent poultry fancier.

On Monday morning last at the Presbyterian church, John Galbraith, foreman plumber with the J. A. Morrison Co., was married to Miss Jean Nairn, who arrived from Scotland only the previous Friday.

Fred Addison, aged 30, an employee of the C.P.R., met instantaneous death shortly after eleven o'clock Monday morning in Kamloops, while engaged in assisting in the unloading of piles on Main street west, in connection with the double tracking work of the company.

Burden of Increasing Armaments

DR. DARBY PLEADS FOR PEACE—GRAFTING METHODS OF THE SHIP BUILDING INTERESTS

At a meeting in the Presbyterian church last Tuesday night Dr. William Evans Darby, the great writer and speaker on the abolition of armaments made an appeal on behalf of the Peace Society of Western Canada for the formation of a branch of that organization in Kelowna.

Dr. Darby is an eloquent and forceful speaker, and his years of experience in working for peace have brought him into contact with some of the greatest British and continental statesmen of the day, and given his words a weight and authority which few men possess.

The subjects of "war" and "peace" he said, were two sides of one of the greatest questions of modern times. That of war was always most prominent. From the false patriotic standpoint in which it was usually regarded it made an almost constant appeal to the public which amounted almost to hypnotic suggestion. What war really was,, however, it was impossible for people who had no experience of it to form any idea. No adequate conception of its horrors was conveyed by the newspaper reports. "There was nothing so awful," said the Duke of Wellington, "as a battle gained, except a battle lost."

Nearly all wars, he said sprang from the same cause, greed for new territory, and were alike in their character and final results.

He referred to the recent wars in Europe and the dire effect on commerce and financial stability, due to the wonderfully complex condition of modern life, which made other countries feel the consequence when nations went to war.

The gigantic evil of the growth of modern armaments was condemned in strong terms. Dr. Darby being particularly emphatic in exposing the fallacy of the phrase "If you want peace, prepare for war." People usually get what they prepare for, and threw their energy into. If nations worked for peace with anything like the enthusiasm with which they prepared for war there would soon be no need for armaments.

The resources of nearly all the nations were being wasted on preparations for war. Great Britain's expenditure had grown in a few years from seven millions to seventy-three millions. The most sinister part of the evil was however, that this growth was not due to natural causes but because of persistent and organized efforts to push the thing forward.

The German war scares, he hinted were nothing more than an organized effort on the part of the big ship building concerns to secure more orders for ships. The recent exposures in connection with the German firm of Krupps, proved that they had been using all kinds of expedients to push their business, even to the extent of sending agents to other countries to stir up war scares.

These exposures had set certain investigators to work in Great Britain and many curious discoveries had been made. There were seven great firms in England, with capital ranging from five to fifty million dollars forming a steel and ship building ring which had the government at its mercy. This ring had adopted the same tactics as the German firms. They were actuated by no patriotic sentiments, but only a desire to pay big dividends.

There was a movement, said the speaker, to introduce this kind of thing into Canada. "If you do put this burden upon your neck" he said, "you will never get rid of them." He failed to see any reason for such an action on Canada's part.

Mr. Lloyd George had recently announced that naval expenditures would be greater this year instead of less. There was no help for it, it was said. "Other countries were doing it and Britain would have to do the same." ignoring the fact that Britain was setting the pace.

He sketched the progress of the Hague conferences from their inception at the invitation of the Czar of Russia to the recent opening of the new Palace of Peace, made possible by the generosity of Andrew Carnegie. The Hague conference although they had done much for the advancement of arbitration methods, would not discuss disarmament, owing to the fact that so many of those taking part were drawing dividends from the manufacture of ships and war material.

In conclusion he warned the people of Canada to beware of following the example of Japan, which had entered the game of war, and than which no country was more heavily burdened or weary of the whole business.

At the close of the meeting a committee was appointed to proceed with the formation of a branch of the Peace Society in Kelowna.

Another Terrible Disaster at Sea

MANY LIVES LOST WHEN SHIP BURNS IN MID-OCEAN

A terrible marine disaster which recalls some af the horrors of the sinking of the "Titanic" occurred last week end in the burning of the Steamship Volturno in mid-Atlantic with a loss, so far as known, of 135 lives and the rescue of 521. The survivers are now aboard a fleet of steamers summoned by the Volturno's wireless call for help, some of which are bound eastward and others westward.

The Volturno sailed from Rotterdam on October 2nd, for New York, and according to the official statement, she carried twenty-two first cabin passengers, 539 steerage and a crew of ninety-six.

The fescue ships reached the scene of the disaster in plenty of time to save all, but for hours stood by the blazing vessel, impotent because of the storm to reach the agonized men, women and children crowding the after part of the ship and within a stone's throw of them.

All night Thursday the lifeboats made a desperate effort to get alongside the Volturno, but the waves beat them back again and again, and not until the storm abated at daylight on Friday did the rescuers succeed in removing the survivors from the doomed ship.

Even now only the fringe of one of the most thrilliog tales of the sea is available. Exactly how the rescue was effected is not known. The Volturno was equipped with boats sufficient, the agents say, for 1,000 people, but the boisterous sea or lack of boat drill or panic among the passengers prevented the successful employment of them.

The rescue ships were able to lower lifeboats, but apparently most of the boats launched from the Volturno were smashed or upset and the occupants drowned.

The Volturno was still afloat on Sunday afternoon in latitude 47.37 north, longitude 33.45 west. There is a possibility of the hulk yet reaching land unless the British cruiser sent out for the purpose reaches and destroys her. Failing this, she would be a prize for salvage according to a wireless dispatch from the Campania, which last sighted the Volturno when the hull of the abandoned vessel was good condition and was moving south east at a knot an hour, and appeared likely to float indefinitely

The La Touraine arrives at Havre, Tuesday morning with 42 survivors of the Volturno aboard. Among them were eight children of from three to twelve years, whose parents either perished or are aboard some other of the rescuing steamers.

The Devonian has also reached Liverpool with fifty survivors, several of them crazed.

GROWTH OF APPLE INDUSTRY

The enormous growth of the apple industry in Washington, Idaho, and other northwestern states was demonstrated at the recent convention of the Northwestern Pacific Fruit Distributers at Spokane. One thousand cars for future delivery were sold through the association for a total price of approximately four million dollars. The cars approximated one thousand dollars each. One of Wenatchie apples in New York brought two thousand dollars. It consisted of Winter Bananas, Jonathans, King Davids, and Grimes' Golden. All the one thousand dollar cars averaged from $1.35 to $2.00 a box, f.o.b., shipping point The northwest apple crop for 1913 is estimated at seventy-five hundred cars, or about four million five hundred thousand boxes

WILL STUDY FRUIT INDUSTRY IN UNITED STATES

Mr. R. M. Winslow, provincial Horticulturalist, is accompanying Mr. J. A. Kidston, a member of the commission appointed to inquire into the condition of the agriculture of the province, on a journey into the United States, undertaken with the object of making a study of the working of district organizations, marketing organizations and the development of industries for the utilization of by-products of the orchard. During this visit both California and the apple producing states will be covered and information gathered in regard to the citrus fruit industry as well as the fruits also grown here in British Columbia.

THROUGH C.N.R. TRAINS BY AUGUST NEXT

"By June next, the Canadian Northern will run through trains between Toronto and Edmonton, and by August through trains will commence running from Montreal to the Pacific Coast via Edmonton, over the C.N.R."

This announcement was made Monday by Sir Donald Mann, vice-president of the C.N.R., on his trip through the west. Sir Donald said that the line connecting Sudbury and Port Arthur would be finished by December, and the two ends of steel on the main line between Edmonton and the Pacific Coast will be connected about the middle of next summer.

About 1,000 miles of new track are being laid by the Canadian Northern this year, and by the time the line from Montreal to the Pacific Coast is opened, the Canadian Northern will be operating 10,500 miles of railway in the Dominion.

SUFFRAGETTES ATTACK KING AND QUEEN

King George and Queen Mary, who attended a command performance at a London music hall Saturday night, had a narrow escape from being mobbed by suffragettes. The women, who had gathered in considerable numbers, made a dash for the Royal carriage on its arrival at the theatre, shouting "Women are being tortured in prison." They had almost reached the carriage when the police closed around. Still shouting "Votes for women." they were hurled back. The suffragettes were treated roughly by the crowd, but all managed to escape arrest.

C.P.R. WINTER SCHEDULE

Another postponement of the time for the new winter schedule to become effective is announced by C.P.R. traffic officials. The new time card will come into operation on October 26, according to latest reports, difficulties in arranging the schedules in the east being responsible for the change.

Three transcontinental trains will be operated daily during the winter into and out of Vancouver.

In consequence of the resignation of Baron Alverstone, Sir Rufus Isaacs, Attorney General, will, it is expected, be appointed Lord Chief Justice. Sir Rufus will be succeeded by Sir John Simon, the present Solicitor-General.

An Englishman who has made a study of trade, advises Canada to take the duty off British machinery, steel and iron girders, and such heavy goods. These would be loaded on big tramp steamers, which would bring back Canadian wheat and other produce at low rates. The plan is worth think over.

HOSPITAL DONATIONS

The secretary of the Kelowna Hospital acknowledges receipt of the following donations:

Mrs. A. S. Mills, marrows; Friend, tomatoes, apples, corn; Mrs. Willits, musk mellon; Mrs. Rowcliffe, eight crates fruit, two boxes tomatoes; F. A. Taylor, plums; Rembler Paul, box prunes; Mrs. Geo. Patterson, two boxes apples; L. Ramponi, two sacks of onions; Mrs. Richards, fish; Fall Fair, four boxes apples; Mr. Wrigglesworth, fish; D. W. Sutherland, grapes; Mr. Barlee, box apples and prunes; Mrs. R. F. Morrison, two quarts pickles; Mrs. J. Nicol, box peaches and tomatoes; Baptist Church, harvest festivals, fruit and vegetables; Church of England, harvest festival, fruit and vegetables; Mrs. Newby, pickles; Mrs. Lytle, box tamatoes; Mr. Morrison, two crates peaches.

Cash contributions:— The Mackenzie Co., $25. F. Thorneloe, $5. F. Thorneloe, to maternity building, $5.

That the Chisana stampede is nothing more or less than a transpartation and road house game, is the opinion of H. T. Boyce, who returned to Prince Rupert from the northern country, but it has yet to be found, he said, and adds. "The stampede has busted." A great many of the old timers have gone back to the United States.

A material change of policy in farm machinery is noticeable in Saskatchewas this year. Whereas in the past the farmers have been buying threshing outfits costing from four to six thousand dollars, they are now purchasing a smaller outfit, and quite capable of taking care of the work of an ordinary farm, at a cost of $700 An enormous number of these small outfits have been sold.

City of Kelowna

WARNING

Notice is hereby given that the Municipal Council has this day ordered that the Provincial Traffic regulations be strictly enforced in this city. Vehicles meeting must turn to the left. A vehicle being overtaken must turn to the left. A vehicle overtaking another must turn to the right. Furious racing or driving on the streets is prohibited.

MUNICIPAL VOTERS' LIST, 1914

Notice is hereby given that the Voters' List of the City of Kelowna, for the year 1914, is being prepared.

The following are the qualifications required by municipal voters:

1.—AS AN OWNER: Any male or female, British subject of the full age of twenty-one years who is the assessed owner of land or real property within the corporate limits of this City of the assessed value of not less than one hundred dollars;

Provided that when the assessed owner is the holder of the last agreement to purchase said land or real property or the last assignee of said agreement, such assessed owner, before having his name entered on the voters' list shall have filed with the clerk or assessor of the city before the closing of the voters' list a statutory declaration proving that he or she is the holder of the last agreement to purchase land or real property or is the last assignee thereof, by the terms of which such holder or assignee is liable to pay the taxes, has paid the current years taxes and is a British subject. OWNERS' declarations must be filed before 5.00 p.m., on Monday, December 1st, 1913.

2.—AS A LICENCE HOLDER: Any male or female, British subject of the full age of twenty-one years who is the holder of a trade licence, the annual fee for which is not less than Five Dollars.

3.—AS A HOUSE HOLDER: Any male or female, British subject of the full age of twenty-one years who occupies a dwelling house, house, tenement, hotel or boarding house, who has been a resident of this city from the first of January of the current year and who has paid directly to the city, all rates, taxes and assessments which are not chargeable on land, which rates, taxes or assessments so paid amount to not less that Two Dollars, due to the city for the current year, other than water rates or taxes or licence fees for dogs.

LICENCE-HOLDERS and HOUSE HOLDERS must, during the month of October, 1913, make and cause to be delivered to the City Clerk a statutory declaration which must be filed within forty-eight hours after same is made. All declarations made by Licence holders and House holders must be filed before 5.00 p.m., on Friday, October 31st, 1913.

Forms of declaration may be obtained from the undersigned.

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,560 acres will be leased to one applicant.

Application for the lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns should be furnished at least once a year.

The lease will include the coal mining rights only, but the lease may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the secretary of the Department of the Interior, Ottawa, or to any Agent of Sub-Agent of Dominion lands.

W. W. CORY,
Deputy Minister of the Interior.

World's Baseball Series

ATHLETICS AGAIN WIN WORLD'S CHAMPIONSHIP

Once more the American League has proved their superiority over the older organization, the National League.

The Giants suffered a crushing defeat in the world's championship series last week by loosing four out of the first five games to the Athletics. Philadelphia won the opening game and New York, with "Bix Six" Matthewson in the box took the second game. From that time on there was only one team in the race and that was Philadelphia. The next three games went to the American League leaders, thus giving them the necessary four games and the title, "World's Champions for 1913."

Throughout the country, among the Giant supporters the inability of Merkle, and Snodgrass to play was sadly lamented, while it was reported that Doyle was in none too good condition and this, it is thought (by the Giant supporters) to be the cause for their poor showing against the Athletics, however, we might mention the fact that two years ago with Merkle and Snodgrass, as well as Doyle all in the best of condition, with Matthewson, Marquard and Tesreau all star pitchers of the National League Philadelphia outclassed the National Leaguers in almost as decisive a manner, winning four out of six games.

There is little doubt that the New York Club were crippled by the loss of a couple of their stars, but in any event we venture the opinion that the Athletics, composed at they are of young players, heavy hitters and with the brains of the old fox "Connie Mack' at their head would have carried away the flag, even had the Giants been in the pink of condition.

KELOWNA WINS RUGBY GAME FROM VERNON 31 TO 0.

On Saturday afternoon at 3.30 the football season opened in Kelowna, the opposing team being the Vernon club. A good crowd of spectators were on hand when the whistle blew and they helped the Kelowna team materially by their cheers and plainly showed their appreciation when the Kelowna men broke away and made substantial gains, of when some man downed a Vernonite who was attempting to carry the ball down the field, by a well-timed flying tackle.

The play throughout was fast and although the Vernon team were far superior in weight the Kelowna team held them on the scrimmage line and when an opening appeared the lighter players of the home team made many fine runs, carrying the ball close to opposition goal and many times, as the score will indicate across for touch downs and in each case, with one exception converted their trys.

The combination play and passing of the Kelowna team was far ahead of anything shown by the visitors. The work of Whillis and Wilson was especially worthy of mention, and to this pair belongs the lion's share of praise for the victory of Saturday last. We might also say that Kelowna had thirteen other men on the field and each did his share to bring victory to their club and deserve credit for their efforts.

Amusements

A BACHELOR'S HONEYMOON

That great Hoyt theatre success "A Bachelor's Honeymoon" under the management of A. Mayo Bradfield, which is to be at the opera house on Wednesday, October 22, is one of those bright, airy, clean-cut comedies, that leaves a good taste and makes you feel better for having seen it. The play tells the story of a widower, Benjamin Bachelor, who falls in love and marries a young actress. Benjamin does not tell his lady-love that he has been married before and that he is the father of twin daughters, aged seventeen years, nor does he tell a maiden sister that he has again entered the life of a benedict, for the maiden sister has a strong objection to actresses and is expected to leave her brother a generous part of a large fortune. Mr. Bachelor does not even inform his daughters that they have a stepmother. The truth is that he wants to keep all his family secrets to himself. After the marriage, he is at a loss where to go to spend the honeymoon, and finally decides that about the best place to go will be to his own home, as the twins and the sister are at a summer resort. To the servants at the home Bachelor explains quietly that his wife is the new governess that he has engaged for his daughters. The actions of Mr. Bachelor and the supposed governess arouse the suspicions of one of the servants and she sends word to the sister and twins who arrive on the scene without sending word that they are coming. To add to the troubles of Mr. Bachelor, an old sweetheart of his wife appears on the scene and insists on making love to her. A lawyer who thinks he is in love with one of the twins, decides to transfer his affections to Mrs. Bachelor, and Bachelor dares not tell him that she is his wife. The servant who sent the news of her suspicion to the maiden sister and the twins, gets an idea that she can straighten the whole thing out and only adds to trouble. The wife demands information, so does the maiden sister and the twins, and it is up to Mr. Bachelor to furnish the desired information and try to make good for the many falsehoods which he has told since his marriage to the actress.

The production has been given an elaborate setting and from all reports will be one of the best offerings at the opera house this season.

Lord Roberts was 84 years of age on Tuesday, Sept. 30. The veteran field marshal, who was born at Cawnpore, India, is hale and hearty still. He attended the recent British army manoeuvres and is planning now to address a great meeting in London in December on national service.

The British soldier has declared his dislike of mutton, and it is to be struck out of the army menu. Mutton is at present served once a week to the troops at home. Next month it is to be supplanted by beef, which will then be the principal article of food for six days. "The Soldiers say they much prefer beef," said an official of the war office.

Vernon's exhibition buildings were totally destroyed by fire last week.

• • • •

Inspector Clark of the Royal Bank of Canada has been visiting the local branch this week.

• • • •

Mr. Angus McMillan returned from a two weeks holiday spent at the coast on Monday afternoon.

• • • •

Mr. and Mrs. James Kincaid returned last week after a ten day's visit to the coast.

• • • •

The recent heavy rains are regarded as the principal cause for the S. S. Okanagan arriving late.—Delaying the trains.

• • • •

Mrs. F. E. Pardy returned home on Tuesday afternoon, after spending a month's visit to her parents at Ponoka, Alberta.

• • • •

Mr. A. Timmons, of Kamloops, who has been visiting friends in Kelowna for the past two weeks returned home on Monday.

• • • •

Rev. A. M. Sanford, D.D., principal of Columbian College will preach in the Methodist Church on Sunday morning, and the pastor will conduct A Thanksgiving service in the evening.

• • • •

The Allen Players closed their engagement here on Saturday night and left for Penticton on Sunday, where they are playing this week. This is their first visit to the southern end of the valley.

• • • •

A special meeting of the Canadian Order of Foresters will be held on Saturday, Oct. 18th at 8 p.m., in Sons of England Lodge room. Keller Block, to meet Organizer Rand. Visiting brothers welcome.

• • • •

Any person wanting a good old-fashioned supper will be on hand Friday, Oct. 31st in Raymer's small hall. This supper, given by the Presbyterian Ladies' Aid will be from 6 to 8 p.m. Admission 50 cents.

• • • •

There will be a meeting of the Kelowna Badminton Club in the offices of Messrs. Burne & Temple, on Friday October 17th, at 7 o'clock p.m., for the purpose of electing officers for the coming season and general business. All interested are requested to be present.

• • • •

Under the auspices of the Methodist Ladies' Aid, a fowl dinner will be given on the evening of Thanksgiving Day, Oct. 20th in Raymer's small Hall. Dinner will be served from 6 to 8 p.m., after which a musical program will be given in the church. Everybody welcome.

Mr. W. E. Adams paid a flying visit to Calgary this week.

• • • •

Dr. and Mrs. Gaddes and family left yesterday for San Diego, Calif., where they will spend the winter.

• • • •

Mr. J. A. Bigger left this morning for Victoria to attend the convention of the B. C. School Trustees' Association.

• • • •

SALE

Announcement

THE management of Richmond's Store have received instructions to put on the greatest Stock-Reducing Sale ever held in Kelowna. When we took over the Lequime Bros.' store last spring we were compelled to receive all goods on order for this fall, and together with our fall purchases we find we are overloaded and many large shipments not yet in the store

The people of Kelowna know that when Richmond's make a Sale there will be something doing

Time will not permit to give you a list of prices to-day, but everything in the store will be reduced. We are busy marking down prices for Sale

To Open on

FRIDAY, OCT. 17

This sale will be of the utmost importance to every man, woman and child in the valley who want Winter Clothing, Boots and Shoes, Staple and Fancy Dry Goods. **Sale will continue for two or three weeks until the stock is reduced to One Half**

RICHMOND'S

KELOWNA, B.C.

Letters of a Self-raised Office Boy to His Pal

In which Jimmy tells of Kelowna happenings to Mr. Sidney Harper, of Vancouver, B. C.

Dear Sid.— The bum weather I spoke of in my last letter has left us, and in its place we have had some of those crisp, snappy days, neither too hot nor yet too cold, just the happy medium, the kind that stirs a man's blood, and makes him feel that life after all is worth the living. After all, Sid, a little bad weather in Kelowna, is really a good thing, it arouses us to a greater appreciation of the ideal weather which is the rule, here, rather than the exception.

We have been having uousually fine pictures of late. If I mentianed as many as I would like, it would take too much space, so I will be satisfied to speak of what, in my mind is the best picture of its kind I have ever seen. We ran the film on Tuesday night, the title was "The Lion Hunters." The picture was wonderfully realistic, in fact so true to life it was that several lions were shot directly in front of the camera, and with it all, a delightful plot ran through the picture, quite an uncommon thing in itself. It certainly has got anything of the kind, that ever came here beaten a city block.

Speaking of beating reminds me that our football team took an awful fall out of the Vernon team last Saturday afternoon. I don't know what the score was, but it was so lopsided it wouldn't stand alone No use talking, Sid, when it comes to athletics Kelowna is the bell cow—we lead, others follow.

Did I tell you about the show that's coming next Wednesday?

The "Bachelor's Honeymoon," is the name of it, aod it's about the classiest little comedy that's hit our nook of the woods for many moons. I've heard of a good many kinds of honey-moons but a Bachelor's is a new one on me, and I am being consumed with curiosity to see how he pulls off the stunt. One thing I know, from the reports which have reached us, it's going to be some swell show.

I guess by now you benighted folks around Vancouver know that we can raise some fruit down our way. Kind of poor the way our apples swept the boards at Westminster? I tell you, Sid, when this Kelowna outfit go after anything, they get it or bust a trace trying. It's just that spirit that has made Kelowna the garden spot of Canada, and if continued, will make it the envy and despair of all the towns in B. C. I know what you are thinking now "There he goes, crowing about that Kelowna again." Believe me, old boy, we have got something to crow about, and I know that if you ever got a look at this country you who come to scoff would remain to pay.

With these few remarks I think I will close. Yours until next time,

JIMMY.

C. E. M. S.

A very pleasant evening was spent on Tuesday, under the auspices of the Church of England Men's Society in the room of the Sons of England. Piano solos, songs, recitations and readings were indulged in the programme which was of a very high order. The following gentlemen contributed to the success of the evening. Piano solos,—Mr. R. Drescoll, Songs,—Rev. Meyrick, Messrs, Martin, Ward, Stocks and Leggett. Reading and recitation.—Mr. J. B. Whitehead. Besides two piano solos we were indebted to Mr. Drescoll for his effective accompanying. The songs were chiefly patriotic and sentimental and were thoroughly appreciated. Mr. Whitehead's reading by W. W. Jacobs was most amusing. Several other members of the society were present, namely Rev. Greene, Messrs. Silcocks, Rogerson, Slater, Buchanan and Weddell. Thanks are due to Mr. F. A. Martin for the arrangement of the concert, and may the Church of England Men's Society prosper in this branch with such an energetic secretary.

The next meeting, on Monday, November 10th at 8 p.m., will be an educational one and an address on modern topics will be given by Mr. E. C. Weddell.— Con.

Professor Robinson Ellis, corpus professor of Latin at Oxford university, and considered to have been one of the greatest English Latinists, died last Thursday at Oxford, following a recent operation. He was 70 years of age.

The continuance of the emigrant premium frauds in the Canadian West, has compelled the British government emigrants information office to issue a warning against the payment of any money to agents there for forms, instruction, or employment in Canada.

The people of Winnipeg has voted thirteen and a half millions towards a new water system. This is an immense sum of money, but Winnipeg is a very large city and is still growing very fast.

Gurney-Oxford

The Aristocrat of the Kitchen

After a glimpse into the kitchens of thousands of well managed homes throughout Canada, the Gurney-Oxford Range may truly be spoken of as the "Aristocrat of the Kitchen." It is the first range to-day in Canada both in point of appearance and cooking efficiency.

A bright nickel trimming that never tarnishes, a smooth polished top that never requires black lead, this range is to woman just one beam of gratification.

But besides its handsome appearance, the Gurney-Oxford more than fulfils the purpose every range is built for—successful cooking. It contains a device called the Economizer which not only actually saves one ton of coal in every six burned in the ordinary range, but so regulates the heat in the oven that deliciously dainty cakes, golden brown biscuits, and light flaky pastry are sure results from every baking.

It is a range which elevates woman from the constant toil and labor in the kitchen to a higher level of life. Its Economizer allows her to go visiting or shopping and keeps a low fire ready for her return, when by simply turning the lever a hot fire is quickly produced.

Employ the Gurney-Oxford in your household.

D. Leckie - Kelowna (A)

Items from Ellison

(From our own Correspondent.)

A shower of articles, useful and ornamental, was accorded Mrs. G. M. Watt, nee Miss L. Geen the other day at the home of Mrs. T. Bulman. A large number of friends assembled and a very pleasant afternoon was spent. Great credit is due to Mrs. Bulman and Mrs. Guest who arranged the affair.

The Rev. Mr. Vernier, who has recently retired from the Presbyterian church at New Glasgow, Quebec, has taken up residence on his fruit ranch in the Cloverdale subdivision. The orchard, which has been cared for by T. Bulman Esq., has now come into bearing, and is in the pink of condition. The reverend gentleman is accompanied by his wife and daughter.

A rather amusing episode took place on Carney's Lake a few days ago. A well known city officer, whom we will call "Bobs" so that the man in the street (and other places) may not identify our hero, sallied forth in quest of ducks. On arriving at the lake in question he spied five plump birds, serenely bobbing up and down on the face of the waters, caring nothing whatever for the man, who, with slaughter in his heart, and visions of roast, boiled or fried duck looming largely before his minds eye, was, with trembling eagerness loading up his fire stick preparatory to taking their young, innocent lives. Having made all necessary preparations our valiant sportsman quick'y potted the floating innocents, every one, then, dashing down to the waters edge to gather in the results of his merciless fusilade found to his great chagrin and consternation, that he had shot five decoy ducks, the property of young Tommy. We presume that a certain doctor in Kelowna is primarily responsible for the mishap, he having left the decoys with Tommy the previous season and will no doubt enjoy the joke on the wooden duck hunter.

Glenmore Notes

(From our own Correspondent.)

Mr. McDougal, Mr. Leslie and the Misses MacDougal left on Saturday en route to their home in Glasgow. They will visit Toronto and other eastern points.

Mrs. Barclay who has been spending the summer with her brother, Mr. Frank Benson, left on Saturday to spend the winter in Brandon.

Mr. Russell, of Glenmore Ranch is away on a few weeks vacation.

Mr. P. A. Lewis is having a well bored on his ranch by Mr. W. S. Wake

Potato digging is common in the valley this week.

The tobacco crops grown in the valley are safely harvested in the tobacco houses on Mr. J. M. Ritchie's property.

THE LAST DIKE

Pressing a button at the White house, President Wilson of the United States, released an electric current that travelled overland and under sea to the Panama Canal and exploded a charge of dynamite which destroyed a large portion of the Gamboa Dike. The dike is the last great obstruction to the opening of water communication between the two oceans, although the wreckage of the dike and two of the earth slides, one at Cucaracha and another at Goldhill, must be cut thru before the canal actually can be opened.

PRINCE EDWARD ISLAND FUR FARMS

Divihends of $1,500,000 on Investment of $9,000,000.

The magnitude of the profits made in the fox raising industry is indicated by the facs that Prince Edward Island companies engaged in the industry, paid dividends for this year amounting to $1,500,000, after the September delivery. The following table shows the names of the corporations and the dividends declared:

	Capital	P.C.
Magic	190,000	172
Union	190,000	60
Banbury	108,000	320
Spring Park	90,000	*45
Peerless	20,000	900
Prospect	60,000	**119
Smith	150,000	40
Dalton	625,000	40
Silver Tip	25,000	95
Murray Harbor	650,000	145
Eureka	30,000	170
Riverside Farming Co	50,000	295
Maritime	40,000	20

*And 100 per cent., stock bonus.

**And 200 per rent., stock bonus.

Mr. J. E. B. McCready, of Charlottetown, has prepared a return showing that companies having a total capitalization of $8,400,000 have been incorporated, by special acts of the Prince Edward Island legislature or by letters patent, to breed foxes in captivity Two other companies, The Silver Fox Ranching Company, secured their charters in Massachusetts and in Nova Scotia respectively. Their capital amounts to $600,000 bringing the total capitalization of incorporated companies engaged in the industry up to $9,000,000 on August 52th last. There are, however, more than 128 ranches not owned by chartered corporations.

2,381 Captive Foxes.

Statistics being compiled by the government of the province indicate that there are 232 fox ranches on the island and 2,381 foxes in captivity on them. The animals are classified as follows:

Old Silver Blacks	642
Young Silver Blacks	683
Old Patches	230
Young Patches	223
Old Reds	337
Young Reds	244
Old Cross	14
Young Cross	18

Fur farming is still an infant industry, but it has grown rapidly, and ranches on which foxes, mink, skunk, and other fur bearing animals are raised have been established in Ontario and other provinces. as well as in Prince Edward Island.

More Foxes Trapped

For a time ranchers made large sums from the sale of live foxes for breeding purposes to other persons taking up the industry. Of late, however, the increasing supply of animals of the rare breeds from the northern latitudes has caused the price of the animals to fall from 35 to 50 per cent., A single shipment of 126 cub foxes, valued at $100,000 was received not long ago at Vancouver from Skagway, Alaska. It included red, black and silver foxes which had been purchased in Alaska and the Yukon territory, and were consigned to fox farms on Prince Edward Island, New Brunswick and the eastern states.

The shipment of 219 live foxes from Edmonton is also reported during a portion of the season. The animals were valued at $320,000, and included among them ten black cubs which sold for $3,000 apiece to a New York firm.

Advertise in the "Record" if you want quick results.

KEEPING QUALITY OF APPLES

In a list published some years ago of the keeping quality of apples, founded on the experience of Mr. G. Harolf Powell, the well known authority on apples, the following sorts are found among the late keeping varieties: Will keep until April: Spitzenberg, Fallawater, Jonathan, Missouri Pippin, R. I. Greening, Rome Beauty, Stayman Winesap, Walbridge and Yellow Belleflower. Will keep until May: Arkansas, Baldwin, Lady Sweet, Lankford, Peck's Pleasant, Red Canada Salome, Swaar, Tolman Sweet and King Until June: Golden Russet, Roxbury Russet Willow Twig and Pewaukee. Until July: Ben Davis, Lawver, Limbertwig, Mann and Stark.

It is stated as being well known that apples grown in northern latitude are much better keepers than those from a more southern one; also that fruit from old trees keeps longer than that from younger ones. At the present day apples can be had on one's table the whole year through. There are apples from the new crop in our city markets in July, from southern sodrces, and also from storage kept fruit of the old crop.

TWENTY-FIVE LIVES LOST WHEN CHIMNEY COLLAPSES

A giant chimney collapsed at Workington, Cumberland, a few days ago, and caused the loss of twenty-five lives. The disaster has not known parallel in the country. A street chimney 180 feet high, at the local ironworks fell suddenly at a quarter to seven, three-quarters of an hour after the day's work had started. The base of the chimney looks now as if the top had been shaved off with a giant scythe, and a portion lies intact on the ground. The remainder of the chimney crashed through the roof of one of the workshops, where fish-plates for railway construction are made. The day shift of about fifty men had started work in the shop and many of them had miraculous escapes. The roof of the workshop was crushed like an egg shell. Great girders were twisted and bent, and the corrugated iron roof was buckled and in places swept off the building in jagged squares. The whole disaster happened in sixty seconds. Then hundreds of men from other mills started the work of rescue. Clouds of dust had risen from the scene of the disaster, and hung dark and heavy over the works, making the task of the rescuers more difficult.

NEW CONTINENT DISCOVERED IN ARCTIC OCEAN

Confirmation of the discovery of new land in the Arctic Ocean reported to be about half as large as Greenland was receiped by the Russian Admiralty in a brief official wireless report from Commissioner Wilkitzky, of the Russian navy. This new land extends in a narrow strip from about sixty miles north of Cape Echelyuski to 81 degrees north. The discovery of this territory which is now known to stretch for some two hundred nadtical miles, was made accidentally while Commander Wilkitzky's expedition was proceeding to the river Yenesei to winter. He met with solid ice and proceeding to the north encountered the new land. Landing at Bennett Island, he found the diaries and documents of the ill-fateh expedition under Baron Toll, which was lost in the year 1900. He also discovered another small island. The discovery of this new continent is regarded as having a very important bearing upon the ice conditions of the Kara Sea.

LARGEST BUILDING IN THE WORLD TO COST $30,000,000

New York's new Equitable Building, foundation work for which now is under way, it has just been estimated will cost $30,000,000. It will be the largest building in the world.

Some idea of what is required in the construction of a building of the type of the new Equitable may be derived from the fact that 36,000 tons of steel will be used in its construction, against 24,000 tons in the Woolworth building, which established a new record in the number of tons used in putting up a building. The building will have 162 steel supporting columns and the weight of the heaviest column will be thirty-two tons.

One of the most interesting features of the building will be that the structure is to be divided into what in reality is four separate buildings. Each of these buildings or sections will have separate shafts for carrying the electric light wires, telephone wires and the fire connections with the two 12,500 gallon tanks on the thirty-eighth floor, the two 5000 gallon tanks on the twenty-sixth floor and the two 5000 gallon tanks on the sixteenth floor and the pipes from the three up through which water is forced at high pressure. By this system if, through some unavoidable accident, a fire should break out in any one of the different sections the rest will be entirely isolated by the fire walls and will not be affected in the least, but will be operated as if they were separate buildings in the true sense of the word.

AIRSHIPS AS SANATORIUMS

The use of airships to enable sufferers from incipient tuberculosis to obtain "the very best of fresh air" is the novel suggestion put forward by Lieut.-Col. J. F. Donegan, R.A.M.C., in an article in the "Hospital." Nowadays the open air treatment for consumption is an accepted fact. Already with the revolving cone system of anchorage an airship can remain in the air like a ship at anchor. Why should not this means of obtaining fresh air for tuberculosis cases be tried as the years roll on.

On January 15th and 16th the Conservative convention will meet in Victoria. It is expected that more than a thousand delegates from all parts of the province will be present.

SIR RICHARD RETURNING

Sir Richard McBride will leave Southampton on October 15th and will arrive in New York on or before the 21st day of the month. He is booking a passage on board the Olympic, the leviathan of the White Star Line. After arriving in New York he will proceed to Ottawa to attend the conference of the Provincial Premiers on October 27th.

WATER ACT

NOTICE OF APPLICATION FOR THE APPROVAL OF WORKS

Take notice that Rosa Casorso, of Kelowna, B.C. will apply to the comptroller of water rights for the approval of the plans of the works to be constructed for the utilization of the water from Summit Lake which the applicant is by water permit 81 authorized to take, store and use for agricultural purposes. Rutland News

(From our own Correspondent.)

Miss Pearl Sproule, of Victoria is visiting her uncle, Mr. R. J. Sproule.

Mr. and Mrs. A. L. Cross and baby left last week for a prolonged visit to Ontario.

Mr. W. Quigley had good luck when hunting last Saturday, he shot a fine buck and on going up the mountain to fetch it in on Monday he bagged another. His friends are now enjoying venison.

The new game law requiring hunters to take out gun licenses, has put a stop to the promiscuous shooting of previous years, and grouse have been lower down the hills than usual, several being shot among the fruit orchards on the benches.

The tea meeting and concert on Tuesday night was well attended at the Methodist church. The ladies surpassed their previous efforts with a profusion of delicious cakes and pies, and the bachelors and young people couldn't get to the end of the supply. No serious accidents occurred during the acrobatic feat of balancing a cup of hot tea in one hand and a plate of eatables in the other. After everybody had confessed to being "full-up" the musical program was proceeded with Rev. W. Vance in the chair. During the evening Mr. W. Fleming submitted the financial statement and Rev. J. C. Switzer of Kelowna delivered an address. The following ladies and gentlemen contributed towards the making of an enjoyable program:

Song. "Asleep in the Deep."
Mr. Jack Hall.
Songs. "The Toilers" and "In Old Madrid." Mrs. Whitaker.
Recitation. "The 49-Cent Store."
Mrs. Dreibelbis.
Song. "Moods and Tenses."
Mr. A. Crowcroft.
Song. "Anchored" Mr. Whiteway
Recitation. "The Strike in the Church"
Miss Annie Gay.
Song. "Caller Herring."
Mrs. A. Crowcroft.

The proceeds reached the goodly sum of nearly fifty dollars, which will be devoted to the parsonage building fund.

Mrs. Earl Clever left this morning for Nanton, Alta. She expects to be away about a month at least, that is the limit Earl puts on his batching.

FARMING IN THE ARCTIC CIRCLE

Number one hard wheat grown 800 miles north of Edmonton, prize vegetables raised on the Arctic circle and spruce trees six feet in diameter, are some of the wonders of the northern territories which Mr. Henry A. Conroy, inspector of Indian agencies saw on a northern inspection tour from which he has recently returned.

The territory over which Mr. Conroy exercises supervision, is inhabited by about 8,000 Indians. Once a year Inspector Conroy visits the 15 agencies and distributes to the Indians about $35,000 in money and several thousand dollars' worth of other necessaries of aboriginal life.

Mr. Conroy is evidently proud of the achievment of the agency at Fort Simpson. This is 500 miles north of Edmonton. "Our agent there last year Mr. Card, experimented with three varieties of wheat, the yields from which were taken down to Edmonton and graded Number One Hard. He grew also 300 bushels of oats, a sample bag of which I took out with me. They weighed 38 pounds to the bushel. Rye and barley were also successfully grown.

"This year when I was there, in July, the grain crop and vegetables looked well, although the weather had been dry. Fort Goodhope, still further north, within the Arctic circle, the very best gardens I saw on the whole trip, are there."

TOBACCO GROWING IN THE OLD COUNTRY

Over thirty acres of land at Cnurrh Crookham, Hampshire, where a few years ago the only things that flourished were thistles and rabbits, over a dozen men recently harvested the biggest crop of tobacco ever grown in England. The crop is the result of the experiments which have been carried on by Mr. A. J. Brandon, chairman of the British Tobacco Growers' society,6 who declares that tobacco-growing in England has now passed the experimental stage.

The services in Westminster Abbey Sunday afternoon was interrupted at the conclusion of the third collect by seven women, who began to chant, "God Save Mary Richardson and Jane Short. They are being forcibly fed in prison." They repeated this three times when two vergers reached them and escorted them to the door.

THERE is big money in chicken raising if you want to go into it for profit. But there is also a lot of money in it if you desire to raise them for your own table or to sell them to your neighbours. You can have a chicken dinner every day for 'next to nothing' if you will take our advice.

We have much land suitable for chicken raising from a back yard space to a large tract. Call and see our list and let us also give you some Money-Making Pointers

MOTOR BUS SERVICE FOR VICTORIA

A motor bus company, in which every citizen of Victoria may be a shareholder, which will charge fares varying from two to five cents a ride, is the project which a number of prominent business men of Vancouver have determined to carry through as a result of the increased street car fares. The company will have a capital of $500,000, divided into 50,000 shares of $10 each. The object of having the shares so low is that every workingman may have a share in the concern.

Payments aggregating $9,800,000 have been made to the Canadian Northern Railway in connection with the Dominion Act passed last session appropriating $15,000,000 of subsidy for the transcontinental line. The money is paid out on receipt of certificates of completion of the lines and in compliance with the requirements of the special act.

GOOD PASTURE

Good pasturage at Meadow Ranch, three miles from town, S. K. L., Co. Apply to R. S. HALL 42tf.

VINEGAR

Every year we have something to say about Vinegar and although a lot of the pickling has already been done it is not yet too late to mention it this year. What we want to tell you is that we handle only

Heinz Pure Vinegar

in bulk

Malt, White Wine and Cider - all 75c. per gal.

We add no water; we do no monkeying; but give you absolutely Pure Vinegar, guaranteed to contain no acids, guaranteed to preserve your pickles from spoiling for as long as you wish to keep them

Heinz Aromatic Malt Vinegar
Heinz Pure Apple Cider Vinegar
Heinz White Wine Pickling Vinegar

75c. per gallon

Remember our motto: "QUALITY AND SERVICE"

The McKenzie Co., Ld.

FINE FALL CLOTHES

FOR MEN AND WOMEN

"Fine feathers make fine birds," and fine clothes make you feel "just fine." We sell fine clothes, but we do not "fine" you when you buy from us by charging you more than the clothes are worth. We can make more money by selling lots of goods at a little profit than by selling few goods at a big profit. Come in and "we will show you."

An Exceptional Assortment of
Fall and Winter Knitwear for Women

We have taken considerable pains in the selection of our Women's, Misses' and Children's Underwear and think we have merit in every garment

Women's Vests and Drawers in Cream White and natural guaranteed all wool, and unshrinkable at $1.25 per garment.

Women's Heavy Fleece lined 90 per cent., wool, both in two piece and combinations at $2.00, are sure to be appreciated.

Women's Silk and Wool Combinations. Sizes 34 to 40. Closed Krotch at $5.00

Misses, Girls and Children's underwear are here in endless variety and we will be most pleased to have you examine and compare these with many lines. Vests and Drawers at from 50c. to $1.25
Combinations in all these lines.

THOMAS LAWSON, Ld.

The Fastidious Man About his Underwear

Can exercise his peculiarity to any degree and it is doubtful if he will be able to find anything wanting in this representative showing. We calculate we will be able to defy competition as regards quality and price in anything in the knitted line.

AT $3.00
There is a fine, all wool, pure white, lovely winter weight made in shirts and drawers, also combination Ceetee Brand.

AT $2.00
Our natural, all wool, heavy weight, in natural colors is surely a dandy, in Shirts and Drawers, or Combinations. This line we also have in Boy's sizes 22 to 32 at $1.25 and $1.50

AT $4.00
The Famous Viking Gold Fleece, made in England, Ventilated Gussets are a fine feature in these garments. Also in Combinations at $8.00

AT $3.00
Our Natural Grey Camel-hair is exceptional, as it is good. Medium weight and guaranteed not to irritate the tenderest skin. We have these also in Klosed Krotch Combinations at $6.00

AT $1.50, $1.75 and $2.25
We have all Stanfield's heavy rib lines, Blue Label, Red Label and Black Label, for the working man that desires combinations. We had this heavy line made specially for them.

AT $5.00
We claim we have the finest Sweater Coat in the Trade made by the Harvey Knitting Co. They come in that real heavy Shaker Knit, also the finer weaves at $4.50

AT $5.50 to $7.50
The Jaeger Coat Sweater is surely attracting some attention as the Green and Greyish Greens are certainly very exclusive.

SWEATER COATS
Acme Knit Sweaters and Sweater Coats are certainly all that could be desired for a less expensive make, made with Vest necks and Heavy Roll Collars at from $1.50 each to $3.50
Our $2.75 grade is a winner.

JUST RECEIVED
All our new Dr. Jaeger Shirts in Wool Taffeta, Wool Zephyr, Twill Flannel and Crepe Flannel.
