

Council Gives Wage Increase All Round

Kelowna Aquatic Association Seeks Grant

The city council met Monday morning at the usual hour, with the Mayor and Ald. Buck, Duggan, Harvey and Rattenbury present.

The correspondence which was first taken up included an invitation from the B.C. Anti-tuberculosis Society to the Mayor and Aldermen to be present at the annual general meeting of governors to be held in Vancouver June 27th.

The Rev. Ferguson Miller wrote from Penticton on behalf of the United Sunday Schools there asking permission to hold their annual picnic in the park on July 12th.

It was decided to give them free use of the Park for the occasion.

An amended plan of subdivision of Block 38 Plan 202 submitted on behalf of the O. K. Lumber Co. by Messrs. Burne & Weddell was approved.

A petition from six of the city employees for an increase in salary was received and discussed. The petition pointed out that in addition to the increasing cost of living, and the better pay to be earned elsewhere, they had all voluntarily submitted two years ago to a reduction in salary. This was at a time when work was scarce, but conditions had much improved since then.

A resolution was proposed that \$5 per month be added to the salaries of Messrs. G. Balsillie, F. Swainson, A. E. Nash, F. Freeman, F. Varney, W. Sabine, J. L. Wilson and E. Fowler. This was eventually carried, an amendment to increase the salaries from \$6 to \$10 each according to prepared schedule, being defeated.

Mr. B. McDonald, of the B.C. Growers, sought the permission of the council to place weigh scales upon the street in front of their proposed new warehouse on Cawston Avenue. Permission was granted.

Messrs. W. M. Crawford and H. G. M. Wilson waited on the council to solicit financial assistance in order that the aquatic pavilion might be kept open for the balance of the season. It was pointed out that owing to the absence of so many men the sale of season tickets had shown a big reduction this year. It was also feared that the profits from the regatta this year would not be large. Unless the council could grant some assistance it seemed probable that the pavilion would have to be closed.

The council expressed themselves as being fully in sympathy with the Association's request, especially as it was fully recognized that the pavilion was a great benefit to the citizens generally. It was doubtful, however, whether the council was at liberty to make such a grant at the present time, and it was decided to leave the matter over for further consideration.

The mayor reported that he had been asked by the manager of the Kelowna Land and Orchard Co. whether the city would be willing to defray half the cost of a fence between the city's sewerage site and the property of the company.

Ald. Rattenbury stated that the sewerage property had been rented to Mr. A. R. Davy who was willing to pay half of the expense.

Capt. G. C. Rose of the Kelowna Forestry Draft wrote informing the council of the orders moving them to the coast and thanking the council for the assistance given by them during their stay here.

The meeting then adjourned to July 9th.

Mr. H. S. Rolston manager of the Vancouver Exhibition to take place in August was here during the week. It is likely that arrangement will be made for the sending down of an exhibit of manual training from the Kelowna school.

Owing to the many picnics and other events planned for the first ten days in July and the fact that the campers are not yet settled at Manhattan beach, it is deemed advisable to eliminate from the programme of the Women's Institute the picnic set down for July 7th.

Rutland News

(From our own correspondent).

Lance-Corp. W. Gay is home on furlough.

M. S. Coxworth and daughter arrived from the coast on Wednesday and will take up residence on the Houston ranch.

Del Barber met with a painful accident last week while fixing some wire on a fence. One eye was badly torn but fortunately the sight was not destroyed.

The Red Cross committee of the Rutland Women's Institute gratefully acknowledge the receipt of 18 pairs of hand-knitted socks and 20 vermin shirts from the Girls' Enterprise Club.

School closed to-day to the relief of the scholars and probably to the teachers also. We are sorry to lose Miss Quinn and Miss Faris, both of whom will be greatly missed in social and patriotic circles.

Mr. C. Sallans, who has been here for several months building Mr. W. T. Barber's house, has enlisted in the Forestry battalion. Before leaving he gave \$5 to our Red Cross Fund.

The Girls' Enterprise Club held a meeting at Mrs. S. Elliott's on Wednesday evening, when they presented Miss Quinn and Miss Faris with boxes of stationery as a small acknowledgment of the signal services they had rendered to the club during their term of residence in the district.

According to a letter just received from the front Charlie Edwards who was resident here for some seven years, has been killed in action. He joined the C.M.R.'s some two years ago being transferred later to another regiment. His home was in England.

Wilson Landing and Westside Notes

(From our own correspondent).

"Cherry ripe." Since June 19th Cotvale ranch has been shipping sweet cherries.

Bear Creek is true to its name. On Sunday last as Mrs. A. Raymer accompanied by her little son Tommy were going up to the water gate, they saw a huge specimen of the species who, however, did not offer to shake hands after the introduction.

Lieut. P. H. L. Seeley is at the ranch. He was accompanied from Vernon by Mr. Phillips, snr., and Mr. and Mrs. Phillips and their little son. They are taking off the first cutting of alfalfa hay.

Coast Labor Ready to Come

As a result of an advertisement in the Daily Province by the Farmers' Institute, the secretary has received in two days twelve applications by men to work in the hay harvest, and it is expected that more will be received as the advertisement is still running. Particulars of these men can be obtained from the secretary.

A wire has also just been received from Mrs. J. C. Kemp, Vancouver, stating that she has 300 women and girls ready any day.

As the secretary has also a list of those ladies in Kelowna who are ready to work at once in pick-fruit etc., it would seem that the extra labor is ready for the farmers if they wish it.

Particulars for Mrs. Kemp must be full and definite as the Institute is not prepared to help to bring in women unless it can be shown that there is regular work in sight, and that accommodation etc. is satisfactory.

The United Presbyterian and Methodist Sunday schools picnic will take place on Monday next July 2nd to Dilworth Grove. The cars will start from the Presbyterian Sunday school at 10 o'clock sharp. The baskets are to be left at the Presbyterian church, Methodist church, Mr. Hunter's or Mr. Curtis' before nine o'clock. All arrangements as made before.

B. C. Dairymen's Convention Will Stimulate Industry in Kelowna

Delegates from Coast Districts Surprised at Evidences of High Fertility - Kelowna Pre-eminent for Corn and Alfalfa

Undoubtedly the special convention of the B. C. Dairymen's Association held here last Friday and Saturday was the most successful event of the kind ever held in the district. The growth of the dairying industry around Kelowna during the past year or two lent a special significance to the gathering, and it is safe to say that this tendency towards mixed farming received an impetus and stimulus which will not soon be forgotten. It is amazing how little is known of the extent and possibilities of the agricultural district around Kelowna to those living even in other parts of B.C., and without exception the visitors were very agreeably surprised, not only with the great areas of open country capable of cultivation, but also with the astonishing fertility of the soil and the quality and abundance of the crops grown.

It was freely stated, for instance, as inspection was made of some of the alfalfa crops, that nowhere on the American continent could alfalfa be grown better or more easily than in the neighborhood of Kelowna. It was the same with corn, the soil and sunshine apparently suiting that important crop to perfection. Specimens of seed corn grown here were shown which experts declared could not be excelled anywhere. Many of the delegates were men who had spent a lifetime in the dairying business in the older districts, and had conducted the most extensive operations, and it was interesting to hear their favorable opinions, given without any desire to flatter or boost.

The convention was an extra one, arranged principally to enable B. C. Farmers to see what this district was like, and there is no doubt they were well pleased with their visit. For the excellence of the programme thanks are largely due to the acting-secretary of the B. C. Dairymen's Association, Mr. I. A. F. Wiansko, who had come to a lot of trouble in securing the best speakers available. The local arrangements were in the hands of a special committee organized for the occasion, with Mr. M. Heron, local director of the Association as chairman. Generally speaking the meetings were well attended, though the shortage of farm help and the pressure of season's work, prevented many farmers from being present. Amongst the visitors from outside points were: Dr. Tolmie, of the Dominion Live Stock Branch; Mr. and Mrs. M. Dean, Keatings; Mr. and Mrs. F. Turgooze, Saanich; W. E. Scott, deputy minister of Agriculture; Prof. W. T. McDonald, provincial Live Stock Commissioner; L. Stevenson, of the Experimental Farm, Sidney; W. H. Hicks, Experimental Farm, Agassiz; R. H. Helmer, Experimental Farm, Summerland; R. V. Agur, Summerland; Mr. Dodwell, Summerland; Mr. Murdin, Peachland; W. J. Gibbons, Penticton; J. W. Berry, Langley Prairie; G. S. Harris, Moresby Island; P. H. Moore, Victoria; Prof. Boving, of the University of B. C.; Prof. J. A. McLean, of the University of B. C.; S. D. Barrow, M.P.P. of Chilliwack; E. A. Wells, Chilliwack; A. W. Hunter, Armstrong; Mr. Fowler, Armstrong; L. Patten, Armstrong; Capt. Mutrie, Vernon; Col. Perry, Vernon; P. E. French, Vernon. Several of these arrived by Thursday afternoon's boat, but a further contingent came in over the K. V.R. and were met by autos at Summerland. Owing to the lateness of their arrival the preliminary meeting in the Board of Trade room was dispensed with, and the cars, a

large number of which had been loaned by citizens, were at once lined up for the journey to Mr. Leslie Dilworth's farm where the day was to be spent, and where several typical specimens of horses and cattle had been assembled for demonstration purposes.

Prof. W. T. McDonald headed the programme with an interesting talk on "Draft Horses," outlining the principal features to be aimed at in the breeding of heavy horses for farm purposes. Size and weight were the first essentials in animals destined to pull heavy loads. The day of the light horse was to some extent gone, he having been replaced by the motor, but it would be long before any mechanical substitute was found for the heavy team, and today there was an excellent market for good heavy draft horses. Quality, of course, must accompany size in the really good horse, and those who followed Prof. McDonald's remarks were able to glean many valuable points on what was desirable or undesirable in the conformation of good stock.

Prof. McLean was equally instructive in his demonstration of the dairy cow. While realizing that the final test of a good cow was in actual production, only to be judged by careful and systematic weighing and testing of the milk, there were certain features in the shape and structure which were inseparable from good production, and these could be recognized by a careful study of the best dairy types. Careful breeding from the best stock, and weeding out of all which did not measure up to the required standard would pay farmer in vastly increased profit. The object of the dairy cow was to furnish a profitable market for crops not easily marketed otherwise, and to perform this function well it was necessary that the cow should be brought to the highest stage of efficiency. To secure this the cow must have a capacity for consuming large quantities of food, and an accompanying digestive system to turn it to account in the full pail. Beefiness was to be avoided in the animal bred for milk production.

Not the least pleasant feature of the day's outing was the picnic luncheon which was served under the trees. Well-filled baskets were plentiful, and the efforts of the ladies who had provided the good fare, and also those who had busied themselves with its preparation, met with well-deserved appreciation. Tea and coffee were handed round, and there was no lack of willing helpers.

After the luncheon, the gathering, which had by this time been considerably augmented, arranged themselves on a shady slope to hear the lectures which had been arranged for the afternoon programme.

In the absence of the Mayor Mr. J. W. Jones, M.P.P., delivered a hearty address of welcome to the delegates visiting the convention. He referred to the great progress which had been made within a comparatively short period in the dairying industry in the Kelowna district, and to the gratifying success which had attended the establishment of a local creamery. He felt sure that the visit of so many leading dairymen from the older districts would have a stimulating effect upon local farmers, and the convention would prove of mutual benefit.

Mr. E. D. Barrow, M.P.P. for Chilliwack, said he had heard a great deal of the advance in dairying made by the Kelowna district in a very short time, and so far he had been delighted with what he had seen. He felt confident that the interchange

First Year High School Examination Results

The promotions in this class are based on the work throughout the year together with the standing obtained at this final examination. The total marks possible are 1000; passing mark 500 with an average of 40 marks in each subject.

Out of a class of 18, 13 have obtained the marks necessary for promotion, the other five may go on with the work of the second year at the opening of school on the fourth Monday in August, but in order to remain in this class they must show that they are able to keep up with the class, particularly in the subjects they have failed in at this examination, thus their promotion is wholly conditional on their efforts during the next term.

The following are the total marks obtained by the candidates:—

Passed	
Dorothea Buck	789
Frank Gray	688
Sara Gray	686
Robert Dykes	678
Carl McKenzie	652
Lloyd Day	648
Delia Perry	641
Robert Hall	625
Ida Reekie	622
Russell Leckie	604
James Calder	580
Winifred Lang	561
Beryl Bulman	560
Passed Conditionally	
Will Raymer	586
Phyllis Teague	573
Bert Davis	508
Eileen Fowler	507
Judson Copeland	502

of ideas would have a material effect on everyone concerned. The Kelowna delegates to the last convention at Nanaimo had he said really put Kelowna on the map so far as dairying was concerned.

Prof. McLean then took up his address on the feeding of dairy cattle, illustrating the comparative value of different rations by means of charts.

Mr. J. W. Berry, a practical farmer of Langley Prairie, who presided during the afternoon, both interested and amused the audience at intervals with his racy remarks and shrewd common sense. He was much struck with the suitability of the district for dairying. He did not covet the Okanagan sunshine nor the dust he added amid laughter, but there was one thing he did covet and that was the alfalfa. If there was any place where dairying could be carried on successfully it was surely here where alfalfa could be grown so well.

Mr. L. Stevenson, of the Dominion Experimental Farm, Sidney, Vancouver Island, contributed an excellent address on "Corn in its relation to the dairy industry." He laid great emphasis on the necessity for proper seed selection, showing the huge losses due to sowing poor seed.

Mr. T. A. F. Wiansko spoke of the "Causes of Variation in Cream Tests," a matter of great importance he said because it was often a sore point between managers and patrons of creameries, the former being unjustly accused of manipulating tests. He himself had been in the creamery business for a good many years and he knew the difficulties. So far as the local manager was concerned, he said, he could speak particularly as to his honesty. He had known Mr. Thomas for years past in different parts of Canada, and would take off his hat to him every time (applause).

Those who were in the habit of weighing their milk daily and having it tested by a Babcock tester only knew how tests would vary for no apparent reason. In proof of this he gave some startling figures showing how the tests made with the same cow's milk varied in the same day between different milkings as much as 3 per cent. and over. Tests were also influenced by various causes such as temperature of separation, speed of separator, excess of water in flushing and vibration due to insecure foundation for the separator.

Mr. G. S. Harris, of Moresby Island, gave some valuable wrinkles on pig keeping as a side line to dairying. This closed the afternoon session and automobiles being in waiting the party returned to town.

In the evening the party was driven out to Rutland where a meeting was held in the schoolroom. Mr. J. W. Berry made an excellent chairman and kept the meeting in good humour in spite of some difficulty with the lights. He complimented the people of Rutland on their school building, which, he said, was the finest country school he had ever seen.

Dr. S. F. Tolmie, who is an authority on cattle diseases, gave a valuable talk on "Contagious Abortion, Milk Fever and Bloat." Part of his address was continued in the dark, owing to the failure of the lamps, but this was finally righted.

Mr. P. H. Moore spoke on "Ensilage," specializing clover and alfalfa. This address was supplemented by Mr. W. Hicks of the Agassiz Experimental Farm, who gave some pointers on preserving oats and peas in the silo.

Prof. Boving of the B. C. University gave an illustrated lecture on "Roots," which brought up a good deal of interesting discussion.

Mr. W. E. Scott, deputy minister of agriculture, spoke for a short time in response to an invitation from the chairman. He had noted with pleasure he said, the change which was taking place in the district from

Kelowna Creamery is Making Good

Annual Meeting Reveals Satisfactory State of Affairs

Judging from the remarks of some of those who attended the second annual meeting, Monday, of the Kelowna Creamery, the very favorable financial statement and report there presented were the cause of much satisfaction. In these days of difficult financing and hard-pressed industry it is gratifying indeed to find an institution of so great importance and value to the community showing a good balance on the right side as well as a big increase in its scope and usefulness.

There was only a moderate attendance, probably due to the fact that farmers are up to their eyes in work just now, and could not spare the time to attend. Or was it as one farmer put it—that there was nothing to kick about and therefore no use in going?

In the report of the directors it was stated that since the last report the operations of the Creamery had not only made up the deficit incurred during the first year, but had paid off incorporation expenses and produced a substantial amount to the credit of the surplus account.

The directors did not make any further call on the subscribed shares, but paid off the indebtedness out of the profits of operation and the sale of new shares. During the year seven shares had been sold.

The increase in the volume of cream to be handled made it necessary to enlarge the premises and to secure new equipment. Another room was added to the Creamery and most of the new plant had been installed and paid for. The Creamery was now prepared for a very large increase, which could be handled with relatively small expense.

The high price of butter had enabled the Creamery to pay a correspondingly high price for butter fat, and the farmers had received \$26,420 as against \$16,600 for the first year. In all 82,170 lbs. of butter had been made the quality of which was proved at Nanaimo last January when Kelowna Creamery butter won first prize for prints in competition with twelve other creameries, and sixth prize for solids with ten entries.

The company was now completely out of debt and had a surplus of \$1,141.23, representing net profit. Of this about \$300 was available in cash and most of the balance was represented in the plant and equipment, with a small amount in other assets not quickly convertible.

A dividend of ten per cent. recommended by the directors to be paid from the profits on all shares in good standing was discussed for some time but finally carried unanimously. Opinion was at first divided as to whether the money should be retained and added to a reserve fund against future misfortunes and the necessities of management, or whether it was not better to pay a dividend which the profits amply warranted and so give a real commercial value to the shares issued. In this connection it was pointed out that there were many business men in the city who had put up money to get the Creamery started and who had not received any benefit from it.

Another matter which was debated for some time was whether the sale of shares should be stopped in view of the fact that the Creamery had no need at the present moment of further capital. This proposal, however, was defeated as was also a further suggestion that the share issues be limited to 100. The opinion of the shareholders seemed to be that present or future shippers to the Creamery should be able to secure an interest at any time if they so desired. Another suggestion that the balance outstanding upon the shares be called up at once to form a reserve fund was left with the board to decide.

Messrs. Crehan Martin & Co. were elected auditors for the com-

Westbank News

(From our own correspondent).

Mrs. J. Nichols and son Fred, of Okanagan Landing, arrived by the Sicamous on Saturday to visit her father and sister.

Mr. Bughman, of Penticton, drove up with the team this week to do some irrigating and cultivating on his ranch here.

Messrs. L. Mills and A. Town, of Peachland, were visitors here this week buying horses that were able to work in the bush.

Mr. T. McAlpine spent a night here on his return from Nahon where he had been road inspecting. He also visited Glenrosa for the same purpose.

Mrs. Lindstrom and daughter left on Monday's boat for their home at Brownlee, Sask. Westbank has set them both up in the best of health again.

We are pleased to see Mr. Dennis here again, he having spent quite a time under the doctor's care, but as he says, he beat them to it, and he sure looks well.

Mr. R. McCracken who arrived on Thursday's boat was only just in time to see his father alive. Much sympathy is felt for the family who have only been here a short time.

Mr. and Mrs. F. Exell, of Edson, Alberta, have arrived here. They purchased some property here a year or more ago and now have come to make their home here. At present they are the guests of Mr. and Mrs. Basham, their household effects not having arrived.

Mr. Steele is busy fixing up the trunk road that runs through the valley. This needs keeping in good condition as a lot of people now come in by the K.V.R. to Penticton and then motor up to Kelowna. Quite a few of the delegates to the dairymen's convention did so and were delighted with the changing scenery.

The funeral of the late Mr. Alec McCracken of Glenrosa, took place at Peachland on Sunday afternoon. Besides the family of the deceased the following persons were in attendance as sympathizers: Messrs. Joslyn, Stribling, Brindle, Robinson, Basham, Webber, Last, Carre, Hussey, Gore and Mrs. and L. Hitchner. Mr. Merchie officiated at the grave.

The return baseball game between Westbank and Trepanier schools was played on Saturday at Peachland. Quite a large party drove down to witness the game. Included amongst the visitors were Mr. Jones (umpire), Mrs. Jones, Miss Davidson, Miss L. Davidson, Miss Weeks, Arthur and Miss Hewlett, Mrs. Stribling, Mrs. Gore, Miss Brown and others. The game resulted in a win for Westbank. After the game supper was provided in the Trepanier school by the local ladies and needless to say justice was done to it amid fun and frolic which brought a very pleasant afternoon to a close.

In a recent issue our correspondent in making reference to the scarcity of labor, stated that he had heard Mr. Butt was offering \$3 per day and board. Mr. Butt writes to say that this was a mistake as he has never paid more than \$2.60 per day without board.

Laugh and the world laughs with you; weep and you stand alone, still holds good.

Big Decrease in American Fruit Crop This Year

A tremendous decrease in the production of apples in the North American fruit sections in 1917 is predicted by the United States Department of Agriculture, according to a report published under the date of June 14th and quoted below. In the United States apple growing districts the decrease is estimated to amount to some forty-two million barrels or sixty-two per cent. Canadian fruit sections also have light crops. Ontario is reported to have considerably below a normal yield. Information to hand from various eastern sections ranges from a twenty-five per cent crop to seventy-five.

In the Okanagan Valley preliminary estimates based on heavy blossoming, indicated a bumper crop, but present indications point to a much lighter yield. The June drop has been heavy and it still continues. Difficulties of marketing anticipated some weeks ago in view of the prospects of a heavy crop and an embargo on export shipments have given way to a more optimistic view relative to marketing, and the prospects appear good for the United States and the Canadian markets to readily absorb the crops of the respective countries.

The quotation referred to is as follows:

"According to estimates of the United States Department of Agriculture, the nation's crop of fresh fruit will this year be less than half that of a year ago.

Some question regarding the reliability of this estimate is raised, however, by the statement in the same report, that Washington's fruit crop will be one-third less than that of 1916.

It has been the belief of growers and shippers that the two principal districts, Yakima and Wenatchee, would each produce bumper crops. Yakima's crop has been estimated by traffic officials at 10,000 carloads and of course it was immediately necessary for Wenatchee to claim 10,000 carloads.

According to the Governments forecast of June 1st the apple crop of the state will be 1,075,000 bushels short of last year's crop, and the crop of the Nation 42,015,000 bushels short of last year.

The State's crop this year is estimated at 2,150,000 barrels of three bushels each, as compared 3,225,000 barrels last year. This year's crop for the entire nation is estimated at 25,400,000 barrels, as compared with 67,415,000 barrels last year."

The train which brought the royal party back to London, after a visit to Hull a few days ago, was escorted the greater part of the journey by three airplanes.

Replying to a series of questions in the House of Commons as to whether the British government had decided upon reprisals for the German air raids on England, Andrew Bonar Law, member of the British war council, said the government intended to take steps not only for damaging the enemy but for preventing further raids on England.

Orders for Local Scouts

KELOWNA TROOP
Troop First; Self Last

Edited by Pioneer. June 26, 1917

Orders by command for week ending July 7th, 1917.

Parades: The combined Troop will parade at the Club Room on Tuesday, the 3rd July, in full uniform with staves and full camp kit at 7.45 p.m. Each Scout will also bring in his haversack a lunch, as the first meal to be cooked in camp will be the evening one on that day.

All Scouts who can raise the price of admission to the moving picture theatre will parade at the Club room on Monday, July 2nd, at 7 p.m. in full uniform without staves. The troop will then parade to the theatre to see the eight-reel film being shown that evening, entitled, "The Making of a Boy Scout." We are very fortunate indeed to have the opportunity of seeing these pictures just before going to camp, and it is hoped that all our parents and other friends will be there too with as many others as they can perhaps in his way succeed in interesting in the movement. Our late Chief Scout H. R. H. the Duke of Connaught expressed the wish that this film would be exhibited in every city and town throughout the Dominion.

We are now certain of having 27 Scouts in camp, including two Patrol Leaders from Summerland. That is, we shall have practically our full strength including the four Patrol Leaders and Seconds. Unfortunately we shall be without a bugler, unless Bugler R. Stillingfleet, of the B. C. Horse is able to attend. We should have more buglers in the Troop than just two to meet a contingency like this.

We go to camp on Tuesday, the 3rd of July, and return on Saturday, the 14th. The two days set aside for visitors are the afternoons of Sunday the 8th and Thursday the 12th. On Sunday we hope to hold a Camp service, and Thursday will be Sports Day. Monday and Tuesday, the 9th and 10th, will be occupied by most of the Troop in travelling to the railroad, and Sawmill Creek, Canyon, and Bridge.

We shall be very glad indeed if any of our friends who have cars will volunteer to make one trip to camp for us in the evening or late afternoon as we hope to have our mail and any parcels brought out to us in this way. Last year Mr. Mantie very kindly undertook this job for us with his boat, but it is not in commission this year, and anyway it is a very long trip by boat. If we had ten volunteers with cars, each to be responsible for one day's trip, that is all we should require. Anyone wishing to send out any mail or parcels to camp will please leave the same at the offices of Messrs. Burne & Weddell, as early in the afternoon as possible, where there will be called for by whoever is making the trip to camp for us that day.

At last our uniform has received official recognition as the following extract from Canadian Militia General Order shows: "The Boy's Scouts' Uniform (B. P. hat or Sea Scout cap and fleur-de-lis badge essential) is recognized as the uniform of a public service, non-military body." We trust you will all appreciate the significance of this, and the great honour it involves.

A league of boys and girls has been formed in Saskatchewan to kill gophers. On May 1st when a province-wide slaughter was organized, 514,000 were accounted for.

All kinds of Repairs

BERNARD AVENUE,
KELOWNA.

The Ford Is Economical

THE average man can easily afford a Ford car. It is the most inexpensive car to drive.

\$1000. You can run both Fords at about the same expense as for one large, heavier car.

20 to 25 miles on a gallon of gasoline is an every-day occurrence. 33 miles is frequently reported by Ford owners. Yearly repair expenses of less than one dollar are not unusual. The car is light in weight, and tires give more mileage on a Ford than on any other car.

You can always sell a 'used' Ford at a good price. You have to accept a big reduction for a "used" larger car.

Go and take a ride in the 1917 model. See how comfortable it is. And stylish, too—stream line effect, tapered hood, crown fenders, beautiful finish. You need one for business. Your wife and children need one for pleasure and health.

You can buy a Ford for yourself and one for your wife for the price of one car at

Ford Motor Company of Canada, Limited, Ford, Ontario

THE MORRISON-THOMPSON HDWE. CO., LTD., Local Dealers

Printed Butter Wrappers

You can be supplied with neatly - printed wrappers for your butter at the Kelowna Record Office, for the following prices:

100	PAPER & PRINTING INCLUDED	\$1.50
200	" "	2.00
500	" "	3.15
1000	" "	4.50

These prices include Both the Paper, which is the best obtainable for the purpose, and the Printing of same. Please note this.

Owing to the extraordinary rise in the price of butter parchment (which has gone up over 100 per cent) we have been reluctantly obliged to raise our prices slightly. Nearly all this paper was previously manufactured in Belgium, and needless to say this supply has been entirely cut off. Unfortunately there is no guarantee against further increases, indeed, they are more than likely.

Kelowna Record

FOR SALE

Saddle Bred Horse

Roan Gelding, rising six, sound, and is bred from Kentucky thoroughbred saddle stock

This horse is one of the best saddle horses to be had—very showy, high spirited, trots well and can run very fast for an eighth or quarter of a mile. He is the winner of the quarter-mile running race at the Fall Fair, 1916, and was second in the turn stake race, and is trained for polo. He is well broken to harness, drives single and double, and has done light work.

Also set single driving harness in good condition.

HAROLD N. DeHART

AUCTION

ON
Saturday, July 7th

Commencing at 2 p.m.

Property of
Miss Buchanan, Keller Bk.

Ribbons, Silks, Velvets, Trimmings, Wings, Feathers, Flowers and all kinds of Millinery Goods, to close out the stock as I am obliged to give up the store on July 7th. Terms cash

J. C. Stockwell - Auctioneer

TOWN AND COUNTRY NOTES

Mr. and Mrs. Lynch, from Brandon, Man., arrived in town yesterday and are renting a house.

Mr. T. C. McNab, district superintendent of the C.P.R. was in town Tuesday.

Kelowna beat Peachland in a ball game last Thursday—the score—never mind.

The Anglican Church Sunday-school services will commence at 9.45 a.m. on and after July 1st, instead of at 2.30 as heretofore.

Mr. Geo. Barber, of Salmon Arm motored in this week for a short stay.

As Miss Buchanan has to be out of the store she is occupying in the Keller Block by July 7th, she is running her stock off at very low prices.

Mr. J. R. Beale will be much obliged if subscribers to the Canadian Patriotic Fund will make a special effort to hand in their subscriptions before the end of the current month.

The regular fortnightly dance of the Kelowna Aquatic Association will be held on Wednesday, July 4th. Non-members will be admitted upon payment of 50c each. This privilege will obtain throughout the season.

Members of the Boys' and Girls Club who are taking part in the weed competition can obtain Bulletin No. 18—Noxious Weeds, their Identification and Eradication—by calling at the institute room any afternoon.

The Benvoulin Red Cross Society are arranging a strawberry and ice cream social for July 3rd, to be held at the home of Mr. and Mrs. E. Day. An interesting programme has been arranged and tea and cake besides the good things mentioned above will be on sale from 7 p.m. in aid of Red Cross funds. Come along and help.

'The Making of a Boy Scout'

Local Boy Scouts will be interested to know that a moving picture film especially for them has been prepared and will be shown at the Theatre on Monday July 2nd.

The whole story involves a young boy who has been incorrigible until he has had occasion to come in contact with the great boy scout movement. He eventually joins, and becomes one of its most worthy members.

The boy's father, like himself until he becomes reformed, possessed all the earmarks of a downright criminal. On one occasion after the boy joins the scouts he is called upon to chase a house-breaker, whom he afterwards discovers to be his own father. The story goes on through interesting detail, and eventually the father of the boy, and the man whose house he had robbed, became reconciled really through the influence of the boy scout movement.

Every phase of real Boy Scout camp as well as city life is well represented in the picture. The innumerable scout games and drills are all depicted, and some really clever boy scouts appear in the character roles.

FOR SALE

Fast Driving Mare

Breeding the best you can get

SIRE

Capt. Brino, 2:07½, by Wildbrino, 2:19½, by Hambrino, 2:21½, by Edward Everett, 2:48
Capt. Brino's dam is by a son of Red Wilkes, 2:40, sire of Ralph Wilkes, 2:06½, Red Wilkes, 2:40, is by Geo. Wilkes, 2:22.

Note—Capt. Brino, 2:07½, is the fastest record standard-bred stallion in the interior of British Columbia. He is the sire of Mabel C, 2:11½ and Lady Louise, 2:16½.

DAM

A mare that was brought out from Guelph, Ont., bred from standard bred stock and very speedy. Her owner stated that she had trotted to a buggy in better than three minutes.

This mare is 5 years old, sound, stands about 15½ hands, weighs about 11:50, color light bay, drives single and double, very showy under the saddle, and as her breeding shows the best you could get for a brood mare. She is the fastest trotting mare in this district.

HAROLD N. DeHART

Monday next is a holiday.

Mr. F. R. E. DeHart left yesterday for Enderby.

Mr. Harry Orchard was a passenger to Kamloops Friday morning last.

The Sunday boat service has not yet come into operation, but it is probable that it will be running by July 15th.

Keep Tuesday evening, July 10, open for the dance to be held in aid of the Kelowna hospital at the aquatic pavilion. Further details will be announced later.

It has been decided to hold the Baptist Sunday-school picnic on the lake shore near the Mission. Scholars, parents and friends will please meet at the church at 9.45 sharp on Monday next.

The new C.P.R. time tables came into effect Sunday last. There is no change in the train or boat service in the valley but some extra trains have been put into service on the main lines amongst them a through Seattle express.

Mr. J. C. Stockwell has rented the store in the Keller block at present occupied by Miss Buchanan, who is closing out her business. Mr. Stockwell who has just returned from the east has undertaken several important agencies principally in the line of ladies' wear.

So Kelowna has had her first circus, and on the whole it was a pretty, good show. Though a little disappointing owing to the lack of wild animals making a street parade impossible, the show in the "big top" was distinctly good, and the clever performers both two-legged and four-legged were fully up to standard.

A strawberry fete will be held under the auspices of the senior and junior branches of the Woman's Auxiliary of St. Michael's church on the spacious grounds of the residences of Mesdames Binger and Temple, on Saturday next, June 30th. This being the first affair of its kind for the season the ladies hope for a good attendance. Proceeds will be used for parochial expenses. Please leave your dog at home.

On Tuesday Chief Engineer Rindall and District Engineer Martin of Revelstoke visited Kelowna. They were here to go into the question of some new trackage required by the B.C. Growers and also to examine the C.P.R. wharf. The latter which has gradually been falling into a disreputable state, has had one or two hard knocks lately. It is pleasing to know that the wharf is to be rebuilt in the near future.

Orchardists in the Glenmore district having suffered considerable loss and inconvenience by the inroads of roving bands of cattle, the local branch of the United Farmer's of B.C. decided to petition for a pound district to be formed. Official notification has been received that there being no opposition is now in order and formal notice is now given that all stray animals etc. that come under the act will be impounded, but so as not to work a hardship on owners the act will not be made operative until Friday July 6th. Mr. G. H. Watson, who is renting the Central Okanagan Land Co's Glenmore ranch has consented to act as pound keeper. The carrying through of this important matter emphasizes the value to the community of such associations as the U. F. of B. C.

DAIRMEN'S CONVENTION

Continued from page one.

exclusive fruit growing to dairying and mixed farming, for which the district was eminently suited. He was particularly pleased with the quality of corn grown here, which he said was some of the finest he had ever seen. He urged that greater use be made of the Farmers' Institutes, and that every effort be made to increase production at the present time.

Later he touched upon the labour problem, and related the steps which had been taken by the department to supply the shortage. In Vancouver alone there were 2,000 women and girls enlisted in the movement and were quite ready to come up. He was afraid the farmers were not taking much trouble at their end, and it was very difficult to get them to make known their wants.

Dr. Tolmie brought up an important matter when he announced that the Canadian railways had decided after August 3rd to cancel the half rate on pure-bred cattle. He urged that representations be made in order to secure its continuance. It was after 11 o'clock when the meeting came to an end.

On Friday evening also a special meeting was called of the boys and girls in order to give Prof. McDonald who is supt. of Boys' and Girls' Clubs, an opportunity to speak to them on that subject. There was a very small attendance, however, and though the professor gave a brief address it was decided to try to arrange a better meeting at a future date.

On Saturday morning at 9.15 the cars were again in readiness and the party gathered together at the Bankhead ranch, and were received by Mr. L. E. Taylor. Here amongst the various root crops Prof. Boring gave several interesting talks. In demonstrating certain methods of seed growing, he took occasion to strongly recommend the use of home-grown seed. Experience had shown that much superior results were obtained with it than with imported seed. He

was very enthusiastic over the possibilities of the Okanagan as a seed growing centre, and he looked for a great future in that line. The facilities here for that industry were so much better than anywhere else that the sooner it was taken up the better.

The party then passed on to Mr. Taylor's own ranch adjoining Bankhead, where a visit was paid to a plot of ground where some interesting experiments in growing seed corn were proceeding. The variety was Northwest Dent, and the crop was well forwarded and in excellent shape, the visitors especially pronouncing it to be the best they had seen this year. Mr. Taylor has already achieved some distinction for his seed corn and some cobs he exhibited from last year's crop were much admired.

On the way down from the corn field a raid was made upon Mr. Taylor's strawberry patch, but this was unnecessary as dishes of the ripe berries with delicious cream were ready near by for the party.

After thanking Mr. and Mrs. Taylor for their hospitality the party once more boarded the cars and continued the journey through the Glenmore valley to Ellison where a stop was made at Mr. Hereron's. Here Mr. Stevenson lectured on alfalfa and corn. Of the former he said he had seen during his progress round the district some of the finest tracts to be seen on the American continent. Irrigation and the abundant sunshine apparently produced ideal conditions, and it could be grown in this district with much less labor than elsewhere.

In the Ellison schoolhouse a luncheon such as the Ellison people know so well how to provide was awaiting the visitors, and over a hundred people sat down to the tables loaded with all manner of good things. Needless to say all were pleased with the hospitality presented, much to the delight of Mr. Mike Hereron, who pronounced the whole thing to have been a

"clear success." The Ellison Girls' Club had apparently a large share in the arrangements and they had to line up in a bashful row to receive the enthusiastic votes of thanks passed to them. In honor of the Irish chairman Mr. J. Berry, who advertised his nationality with a brilliant green tie, and of the Irish director of ceremonies, Mr. Hereron, an Irish colleen, Miss Tully, was called upon for some Irish songs which brought down the house.

As time was fleeting all too quickly in this pleasant manner it was thought advisable to cancel the afternoon meeting arranged for in town and Mr. Berry was called upon to give his talk on "Co-operation." Mr. Berry is one of the moving spirits in the Fraser Valley Dairymen's Association, and his experiences in getting the farmers into line (and no less his manner of telling it) made this one of the best items on the programme. If Mr. Berry could be induced to spend a week here and address camp meetings in different parts of the district, he would have a big co-operative revival going which would speed up some of our local institutions in a wonderful way.

Barrow, M.P.P. who is also a member of the Fraser Valley concern, had also something to say in that connection. From very small beginnings the thing had grown into a huge business which handled 90 per cent. of the dairy products of the Fraser Valley, and sold amongst other things over one hundred tons of milk per day. Well over \$100,000 per month was being paid to the farmers for their produce.

The next hour was spent in a rather hurried motor trip over the Rutland, Kelowna and K.L.O. benches, arriving in town in time to catch the boat south. A call was made on the K.L.O. bench to inspect a fine crop of clover on the ranch of Mr. F. A. Taylor.

An irrigation dam of the Price River Irrigation Co. in Utah has burst and property damaged to the extent of three million dollars done.

Some Items of Local Interest

The ladies of the Baptist church resident in the country are planning to hold a strawberry and ice cream social on Friday, July 6th, at the home of Mrs. D. McGregor, Rutland. A cordial invitation is extended to friends in the surrounding district and in Kelowna to be present. It is expected a jitney will make trips from town.

Mr. W. Haug left this morning for Calgary on a business trip.

Mr. R. Archibald who has been staying with Mr. and Mrs. McFarlane, left Friday for the coast.

The Rev. E. D. Braden returned Friday last from the coast.

Miss Bateman who has been the guest for a few days of Mrs. Geo. Barrat left for Summerland Monday on her return to the coast.

The B.C. Growers Ltd. are commencing the construction of a new building on the corner of Ellis street and Cawston avenue to accommodate their increasing business. The building will be of brick with a concrete basement capable of sorting an immense amount of produce.

The ladies of Whelan church, Ellison, are giving a strawberry and ice cream festival on Thursday, July 5th, in the pine grove surrounding Mr. F. Bell's house. No admission will be charged and a good programme will be rendered. Ice cream, strawberries and cake, &c., will be on sale.

Messrs. Ike Chamberlin, Jack Cameron, Jim Bowes, and Victor Borrie, are sending horses down to Penticton Monday to take part in the races.

Capt. G. C. Rose will be in Kelowna about the 2nd or 3rd of July to round up the men who were anticipating joining the Forestry draft. This disappointed recruits are requested meanwhile to get in touch with Serg. Chaplin here.

ORCHARD-DUNNING

The wedding took place at the English church, Kamloops, on Tuesday of Mr. Harry Orchard of the "Kelowna Courier" staff and Miss Evelyn Florence Dunning, of Kamloops. Mr. Geo. Orchard acted as best man and Miss Beatrice Dunning as bridesmaid, Chaplain Reid performing the ceremony. Supper was served afterwards at the home of the bride's parents, the couple leaving by the 6.30 train for Kelowna.

R. M. Winslow Resigns

Mr. R. M. Winslow, provincial horticulturist, has resigned his position in the Department of Agriculture to accept that of manager for British Columbia of the Mutual Brokers, Limited, of Vancouver, one of the greatest concerns dealing in fruit now operating in British Columbia. He will sever his connection with the department with which he has been connected in his present position since February, 1909, on July 7th next.

Hon. John Hart, minister of finance, was returned in Friday's by-election over his opponent, Dr. Earnest Hall, Independent Liberal, by a majority of 135, after one of the quietest polling days in the history of provincial elections. Out of a total of over 13,000 voters on the lists less than 4,000 went to the polls. At that, with a decidedly better organization and apparently unlimited funds, Premier Brewster's selection for the portfolio of finance had but a small lead. The count was Hart, 1,799; Hall, 1,666. The total number of ballots cast was 3,475.

Fresh disturbances have broken out with the Sinn Feiners in Ireland and at Cork the police have had to use machine guns to restore order.

KELOWNA CREAMERY ANNUAL MEETING

(Continued from Page 1.)

ing year and the following board of directors was appointed: Messrs. P. B. Willits, E. M. Carruthers, H. B. Burtch, J. W. Jones, M. Hereron, John Leathley, S. A. Wilcox, W. R. Powley, W. Price, J. F. Bell, W. G. Benson, L. E. Taylor, F. M. Buckland, E. R. Bailey and Lynn Harvey.

A vote of thanks was passed to the retiring directors, with special reference to the president Mr. P. B. Willits and the secretary Mr. W. G. Benson for the close attention they had given to the work of the Creamery during the past year. In responding Mr. Benson paid a tribute to the valuable service which had been rendered by the president whose knowledge of business and retailing had contributed largely to the success of the Creamery.

Mr. H. F. Rees proposed a vote of thanks to those who had been responsible for the success of the recent convention here of the B.C. Dairymen's Association, which he said had done more for the district than any convention ever held here.

Mr. Hereron in replying expressed his appreciation of the help which had been given by the business men of the city. The whole affair had been a clear success and he looked forward confidently to being able to have the entire regular convention of the Association here in the near future.

Mr. Hereron also strongly urged the formation of a cow-testing association. He believed the district was more or less drifting in the matter of cattle breeding, and he believed it was time farmers got down to a clear understanding and adopted community breeding and proper methods of testing.

Mr. L. E. Taylor supported this contending that it would be worth thousands of dollars to the farmers to be able to speak definitely regarding the actual performances of their cows.

Messrs. Taylor, Hereron and Lynn Harvey were eventually appointed a committee to act with the Farmers' Institute in the organizing of the district for cowtesting and improvement of herds.

At a subsequent meeting of the new board of directors Mr. P. B. Willits was re-elected president, Mr. M. Hereron vice-president, and Mr. W. G. Benson secretary, with the addition of Messrs. F. M. Buckland, L. E. Taylor and S. A. Wilcox to the executive committee.

Government and Telephone Co. Reach Agreement

It has been announced by Mr. W. H. Stevens, superintendent of Government telephone service for the district, and Mr. G. H. Dobie, manager of the Okanagan Telephone Co., that satisfactory arrangements have been made between the Government and the Company for an interchange of business between all points and local exchanges of the two systems. A new schedule of rates has been prepared and approved of by the department at Ottawa which is figured on the basis of an air-line mileage between local as well as to points on both systems. This schedule cannot be changed without the consent of both parties.

The new rates will have a minimum charge of 20c for three minute conversations, and a maximum charge of 55c for three minute conversations to points between Salmon Arm and Penticton. This will not mean any increase of rate on the whole as the rates to near-by points such as Vernon, Armstrong, and Enderby have been reduced, and to points of further distance there will be a slight increase.

The Summerland Telephone Co. will enjoy the full privilege of connection and the same rate to all points on both systems. Business will be transferred from the government lines at Salmon Arm, Enderby, Vernon, Kelowna, and Penticton. The government will withdraw from all local offices between Salmon Arm and Penticton with the exception of Sicamous, Vernon, Penticton and points beyond such as the Whiteman's Creek line and the Shuswap Falls line, but the government will retain its lines in the valley for through business. Also government telegraph offices will be kept open at Vernon, Kelowna, Peachland, Summerland, and Penticton.

The agreement will take effect July 1st, and will remain in force until cancelled by either party giving the other six months notice.
