Regular Meeting of the City Council

Council Consider Resolution From Penticton--Court of Revision to be Held Monday

At the meeting of the city council held last Friday morning, consideration was given to a communication from the Penticton Board of Trade dealing with the proposed Transprovincial Highway, the completion of which would furnish communication for automobile tourists with the prairie provinces and also open up road communication rom the interior to the coast. Only two short stretches of the road remained to be constructed and the Vancouver Board of Trade had lately been stirring up an agitation to have the government finish these.

"Within the past few weeks," stated the letter from Penticton addressed to the council, "you have doubtless received a resolution from the Vancouver Board of Trade with regard to the early completion of the Hope-Princeton Road.

"With this resolution we have no quarrel. It is a necessary road. But it may be that you are not aware that the Transprovincial Road crosses the Okanagan Valley at a point close to the International Boundary line where there is comparatively no development. Unless touring motorists were to make a wide detour to the north they would not see the developed section of the Okanagan Valley at all.

"In this connection this Board has a counter proposal to make to this effect: That between Keremeos and Rock Creek the route of the road should be changed. Instead of running through Richter's Lower Pass, through Osoyoos and then up that notorious steep sand hill, climbing Anarchist mountain, that from Keremeos the the road should run via Marron Lake—eleven hundred feet lower than the road running via Clarke's, and completed all but a few miles—to Penticton, and then up to Carmi on a good hard road and a lower summit than at Osoyoos, and from Carmi down the Kettle River to Rock Creek on a water grade. On the other road there is a very steep high hill on each side of Rock Creek—the creek, not the town. A goodly portion of the road from Penticton to Carmi is already finished.

"The advantage of the change is obvious. At Penticton the touring motorist could be easily induced to take a run up the Okanagan Valley and the other towns might be expected to reap some advantage. Crossing at Osoyoos, where there is no hotel or garage, touring parties would have to go to Oroville for accommodation, and if they wanted to take a side trip into the fruit districts, would be as likely to run one hundred and fifty miles to the south into the American Okanagan, as to run one hundred and fifty miles north into the Canadian Okanagan.

"A special committee is drafting a resolution which is being carefully prepared. You may expect to receive a copy shortly. In the meantime we would suggest that you take no action, unless you are prepared to qualify your endorsa- of the Vancouver resolution by endorsing our position with regard to a change of route.

"We believe that our move is of sufficient importance and interest to your district and the whole Okanagan to warrant this request for your assistance. We should be glad to hear from you.

"Penticton Board of Trade."

The council expressed their approval of the proposed change, but desired to have more complete information regarding the location of the road. The clerk was therefore instructed to write for this and also to suggest that the information be sent to the two members for the district and also to the Minister of Public Works.

A communication from the Comptroller of Water Rights respecting a licence to the city to take water from Mill Creek was left over for the incoming council to deal with.

The secretary of the Union of B. C. Municipalities wrote enclosing a copy of a resolution passed at the last convention of the Union asking the government to take over the Tranquille Sanitarium. The resolution was as follows:

"1. That the Union of B.C. Municipalities recommend to the Provincial Government that provision be made in estimates of years 1917-1918 for a sum sufficient to construct and equip a building at Tranquille for the treatment of advanced cases of tuberculosis.

"2. That this Union of B. C. Municipalities further recommend that the Provincial Government be urged to take over the Tranquille Sanitarium and operate same as a provincial institution.

"3. That this Union recommend that the Dominion Government be requested to pay for treatment of all cases of tuberculosis of patients who have not resided in this Province at least one year previous to their admission to Tranquille Sanitarium.

"Further moved, that a copy of this Resolution be sent to all women's organizations throughout the Province."

It was requested that the various women's organizations of the district and also the Board of Trade be urged to take the matter up. The council unanimously endorsed the resolution.

The chief constable's report for the month of November showed a total of nine cases brought before the magistrate, seven of which were Chinese gamblers. The fines collected and bails forfeited amounted to $70.00.

In his report the chief mentioned that of late many complaints had been received about the overcrowding of the post office which takes place daily soon after the arrival of the boat in the afternoon. The trouble seemed to be caused mainly by people who, when they heard the boat whistle, immediately made for the post office and remained there talking until the mail was sorted. This was unreasonable and hindered and annoyed the officials inside. It would facilitate matters considerably, it was pointed out, if the general public would wait at least an hour before going to the office for their mail, as this would give the sorters a chance to get through their work without hindrance, due to the noise, etc. The hope was expressed that parents would also assist by instructing their children to keep out of the post office unless they had business there.

Ald. Copeland submitted a letter from Mr. H. C. Seddon requesting that the continuation of Abbott Street giving access to his reisdence be made passable. He stated that it would cost a considerable sum to put the street in good condition but that it could be greatly improved at a small outlay.

Ald, Copeland was authorized to do sufficient work to make the street passable.

Ald. Millie reported that the Fire Brigade had made a request for twenty rubber suits for its members and he recommended the council to sanction the purchase.

It was decided that the suits be purchased at a price of $7.25 each.

Alds. Copeland and Millie, acting in conjunction with the Mayor, were appointed a Court of Revision of the Municipal Voters' List for the year 1917, the Court to be held in the council chamber on Monday, December 11th, at 10 a.m.

A lengthy budget of accounts was passed for payment.

Great Britain's New Premier

The sensation in old country politics this week is the resignation of Premier Asquith and the placing of the onus of forming a new government upon David Lloyd-George. It has been apparent for some time that trouble was brewing and that some shake-up in the cabinet would have to come before long. The resignation of Mr. Asquith, however, came as a complete surprise, and now appears to have been the outcome of pressure by Mr. Lloyd-George and others for a more vigorous prosecution of the war, and a re-modelling of the war council.

Shareholders of the Quebec Bank have ratified the merger with the Royal Bank of Canada by which the latter takes over the business of the Quebec Bank.

Important Convention of Farmers' Institutes

Form District Institute for the Southern Okanagan--Interesting Address and Discussion

What was virtually the initial step in a new movement to revive and reenergize the farmers' Institute organizations all over the province, was taken last Tuesday at a convention held in Kelowna. As was stated by the president of the local Institute and chairman of the meetings, Mr. Lionel E. Taylor, the conference had been called together by Mr. J. R. Brown, of Vernon, member for the district on the advisory board of the Central Institute with the object of paving the way for the formation of a "District Institute" for the South Okanagan riding.

The scheme, said Mr. Taylor in his address, was the outcome of the action taken at thelast Central Institute meeting in appointing an advisory board to advise the government upon all matters of interest to the agricultural community. Provision for the appointment of such a board had existed since the inauguration of Farmers' Institutes, but prior to this year no board had been appointed. The general feeling at the Central meeting was that the time had come for farmers to take more part in the management of their own affairs, and to be independent of government spoon feeding, and that the appointment of an advisory board in accordance with the Act would be a step in the right direction. The formation of these District Institutes was the outcome of the board's activities, and should receive careful consideration. The work of the Central Institute had been hampered in the past through too much time being taken up with discussions of matters of more or less local interest, such as gophers and Doukhobors, and it was felt that if the details of these local problems could be worked out locally, and only major points discussed at the Central meetings, more time would be available for work more profitable to the whole community.

Mr. Taylor urged the need of farmers waking up to the organization of their industry as was being done in nearly every country to an extent which had never before been attempted. Apathy and suspicion were the greatest obstacles to united action and this must be replaced by a spirit of helpful cooperation if the farming industry was to be raised to the position it should occupy amongst the industries of the province.

Visiting delegates were present from the Institutes of Vernon and Summerland, the former being represented by Mr. J. R. Brown, and the latter by Messrs. J. Tait and S. Young. There was a very decided feeling in favor of forming the District Institute, and this was accomplished later at the evening meeting by the passing of a formal resolution providing for representation of each local Institute in the riding, and including Penticton and Kaleden, in the proportion of one delegate to each fifty members.

Resolutions were also passed asking the Central Institute to appoint a committee to act with the Education department in preparing supplementary agricultural reading matter for use in the schools, and also upon the suggestion of Mr. George Chick, the department of agriculture was asked to continue the instruction of the packing schools through the year to as near the actual shipping period as possible.

Mr. Casorso brought up an interesting matter in connection with the growing of onions in submitting a resolution petitioning the department of agriculture to conduct an experiment in the Kelowna district on a large enough scale to determine the difference in costs and yields between hand and horse cultivation. Mr. Casorso submitted figures and data gathered over a number of years in small experiments, the idea being to find out whether the farmer could not do better by smaller yields to the acre under horse cultivation than by large yields under the half-share system with Orientals. Incidentally, the horse method would reduce enormously the amount of labor needed, an important factor at the present time.

LABOR QUESTION

The question of a possible labor shortage next year was again discussed at considerable length, though it must be admitted that the discussion largely retraced that already gone over at the Board of Trade and upon other occasions. The plan of importing Oriental labor was urged by some and just as vigorously denounced by others, while the immigration of "war widows" from England or Belgium was apparently beset with too many difficulties in the way of housing and providing occupation all the year round, to be seriously considered.

Several more or less definite suggestions, however, were finally adopted, one being to extend the period of the school holidays so as to enable the older boys and girls to assist in fruit picking and other work, and another calling for the establishment of labor bureaux "for the purpose of mobilizing all capable of rendering assistance, and making their labor available where it was most required."

A plan was also discussed of bringing up parties of the older boys and girls from the Vancouver schools to assist in fruit picking during the summer holidays.

The whole labor question was discussed from many angles, and although no definite solution was arrived at, the interchange of ideas and plans will no doubt have a good effect.

The evening meeting was very much better attended, and in addition to excellent addresses from Mr. W. E. Scott, deputy minister of agriculture, Mr. J. W. Gibson, director of agricultural education, and Mr. Hopkins, assistant instructor in the live stock branch, the discussions on the various resolutions was renewed, and much interesting matter brought to light.

Mr. Scott, who was given a hearty welcome by the meeting, pointed out the great power and possibilities for good work which lay in the Farmers' Institutes, now numbering over 8,000 members, if they could be got to act together in the right spirit. The advisory board appointed at the last meeting would do much to coordinate and consolidate the efforts of the Institute. The "get together" spirit was one of the lessons of the war, and every country was facing the necessity of organizing its resources. Whatever we might say about the Germans we could not but admire the splendid organization which had very nearly accomplished what it set out to do. We had got to get ready for the end of the war, and it was a problem which would tax the best brains in the country. We had been living a life of artificiality, selfishness, and indulgence, and this must give way to greater simplicity and co-operation.

In the meantime it was the duty of those farmers who could not fight to help by increased production. He appreciated the difficulties imposed by the high costand scarcity of labor but much might be done by better methods of farming. Many farmers were not getting what they could from the land, and might double their output by proper scientific methods. Raise more and better crops; raise more and better stock—this should be the farmer's aim for the future.

So far as stock was concerned, if he had his way, he would pass a law prohibiting the use of scrub breeding stock. He strongly advised farmers to keep good stock, as it was only in that way that their farms could be made self-supporting. It was impossible too to conserve the fertility of the soil unless stock were kept. He was glad to see the large number of silos which were going up all over the province. It was a good sign.

Speaking of the past history of farming in B. C., Scott referred to the extraordinary real estate mania which had resulted in much good farm land in the neighborhood of cities being cut up into subdivisions, and was now lying in weeds and idleness. We had realized some of our mistakes, however, and for the past three years agriculture had been looking up. Imports had decreased and exports were increasing.

There were some retarding influences, such as the high price of land and of labor, but these would come down to a proper level. The only salvation of farming was proper organization and cooperation glong real business lines. The Farmers' Institutes might be made a powerful means in that direction he pointed out, indicating some of the many ways in which the organization had already been of service. Cooperative buying of materials and feed, land clearing and spraying outfits, and pure bred sires; boys and girls' clubs and competitions; fruit packing and pruning schools, and demonstrations by trained experts; all these things were good Institute work.

He thought the difficulties over the labor problem had been somewhat exaggerated, but the government was prepared to do all in its power to assist. It was difficult to get men from outside, however, and every district must make the most of its own people. We should not forget that every extra pound of produce was helping to win the war.

Mr. Gibson's address dealt with the value of agricultural education to all classes, but more particularly to the young people in rural districts. Education had originally meant that which best fitted the young for their life's work, though it had been deflected for a time to the study of letters and symbols of learning. There were indications that it was once more moving back to its original purpose.

By the introduction of simple nature study, which formed the first step, boys and girls were made more appreciative of the things around them. The first studies of animal and plant life followed the natural lines of child interest, leading on to a study of natural laws, and then to the application of those laws in agriculture and such constructive studies as the growing of plants. That was the meaning

(Continued on Page 6.)

Women Will Have Candidate For School Trustee

The Kelowna Women's Institute met on Saturday, Dec. 2nd, in the home of Mrs. Dayton Williams on on business and pleasure bent. One question which came up for consideration was that of lady representatives upon the School Board. There was no adverse criticism of the present Board or its administration, but the discussion showed a unanimity of opinion as to the desirability of co-representation of those most deeply interested in the education and general welfare of the young. A resolution was passed endorsing the principle and a committee appointed to secure a candidate for a place on the School Board at the next election.

A social hour followed the conclusion of the business, during which the following programme was rendered: Pianoforte duets by Mrs. Leslie Dilworth and Miss Jones, and Mrs. L. V. Rogers and Miss Pugh; reading by Mrs. Colquette and sole by Mrs. Dilworth, with selections on the Victrola while refreshments were being served.

Trans-provincial Highway Should Touch Lake

Suggested New Route Would Bring Tourists Through the Okanagan

The people of Penticton are taking up with great enthusiasm the question of diverting the proposed trans-provincial highway in order to tap the Okanagan Valley. There has been lately a renewed agitation for the completion of this road, especially on behalf of the coast cities, the idea rightly being that great benefit would accrue to the province from the providing of a through road for the tourist traffic from the prairie provinces and from the United States which is expected in very great abundance next year. A comparatively small portion of this highway remains to be linked up and the government is to be urged to fill these gaps as soon as possible.

A very strong case is being made out for the bringing of the road through the southern end of the Okanagan Valley, and the support of all towns and cities interested, including Kelowna, for the following resolution which has emanated from the Penticton Board of Trade is sought:

"Whereas, the route of a transprovincial highway has been surveyed across British Columbia;

"And whereas, the highway passes through Keremeos, Richter's Lower Pass, Osoyoos, Bridesville and reaches the Kettle Valley at Rock Creek;

"And whereas, the location of this road between Keremeos and Rock Creek is open to objection on many points, the most serious of which being: That it crosses the Okanagan valley at a point where there is little or no development, and the touring motorists would see nothing of the beautiful lake and valley district that has become famous for its fruit; there is no hotel at Osoyoos to provide accommodation, and no garage between Princeton and Greenwood; the touring motorists would have to go across the line to the American town of Oroville to secure hotel and garage accommodation, and this would probably have the effect of deflecting travel to the American Okanagan, in case the touring parties desired to go through a wellknown fruit district without leaving the highway for any considerable distance; the sand hill at Osoyoos is very steep and a very hard hill on cars; between the Osoyoos Summit and Rock Creek village there are two very steep hills—one on each side of Rock Creek; it would cost a great deal of money to put this road in shape, especially the Osoyoos hill, which is sandy, and there being no good road material nearby: the road between Osoyoos and Keremeos via Richter's Lower Pass, would require the expenditure of a great deal of money to put it in good condition for through tourist travel.

"And whereas, there is an excellent alternative route by way of Marron Lake to Penticton, and then over the summit and down Williamson Creek to Carmi, and down to Rock Creek on a water grade, the principle advantages of the new route being: That the road via Marron Lake is almost finished and would cost very little to complete the elevation is low, almost as low as Richter's Pass and the road is better in every respect. All motor men appear to be agreed that there is no comparison in the two roads. That in touching at Penticton touring parties would have the advantage of the accommodation of a first class tourist hotel, in addition to other hotel accommodation, also two first-class garages; that this town and district possess very many attractions for the tourist in the way of good fishing, and an excellent bathing beach, said to be the finest in the interior of the province, a claim that we have never heard contested, the water being quite shallow, with a bed of clean sand free from pebbles or stones; beautiful fruit orchards; a point from which motor parties would be likely to make a detour to the north and see the Canadian Okanagan Valley, which produces about 80 per cent. of the fruit crop of the province; that a splendid road can be secured to the summit, part of which is road which was made in 1912, already completed, following a from the summit on the east survey of the Penticton Carmi down Wilkinson Creek to Carmi and on to Rock Creek the road would be on a water grade the whole way. This road would serve some four to six thousand acres of undeveloped farming land ten miles east of Penticton which the government has gone to a great deal of expense in surveying, and which will be idle until a good road to Penticton is built. Settlers along Wilkinson Creek above Carmi would be served by the same road. It would thus be seen that this road is a necessity for local purposes, aside from forming a link in the proposed diverted route of the trans-provincial highway.

"And whereas we believe that the cost of completing the highway on the proposed route would be less than making a good road on the old route;

"And whereas we believe that an impartial consideration of the two routes would show there is a distinct advantage in favor of the Penticton-Carmi route;

"Be it therefore resolved that we petition the provincial government to have the route changed forthwith, and that the links uncompleted be finished as soon as possible; and that copies of the resolution be forwarded to the members of the government and to the various boards of trade and other organizations in the province for endorsation."

The Free Trade League of Canada, which was organized in Winnipeg last spring, is preparing for an active campaign at once. A series of public meetings has been arranged to be held during the fall and winter throughout the west.

The following platform of immediate demands has been adopted:—

(1) Free trade with Great Britain by annual reductions of at least 20 per cent. of existing customs tariff so at to ensure complete free trade with the Mother Country within five years.

(2) Immediate legislation making effective the reciprocity agreement of 1911 with the United States.

(3) Abolition of customs duties on agricultural implements, farm machinery and vehicles, coal, lumber, and cement and all articles used in primary production, and all natural products.

(4) A general lowering of the customs tariff on the necessaries of life so as to secure a measure of relief from the present high cost of living.

Those in sympathy with the movement are invited to send in their membership or to write for literature and information to the headquarters of the League at Winnipeg.

In the first instalment of jam sent through the provincial chapter of the Daughters of the Empire, there were 14,000 lbs or seven tons.

The casualty lists showed that Great Britain lost 18,632 killed in November, 48,063 wounded, and 6,427 mitsing. These figures include all military, naval, and colonial losses.

A large German submarine attacked the Brixham fishing fleet without warning last week and sank three trawlers. The remaining vessels were shelled. The crews were all saved.

It is reported that a determined effort is to be made during this month in France by the liquor interests of B. C. to defeat the Prohibition Bill, a vote amongst the soldiers there having been authorizeh.

Two cars of Chinamen passed through Cangda westwards this week. They were in bond, most of them from New York city. They are going to China, having made enough in the States to live on for the rest of their days.

Census of Germany Taken

The census of the population was taken this week throughout the German Empire. Formerly army officials were employed to do this work, which is repeated at regular intervals of five years, but this time landlords were required to send in the names of all persons who slept in their houses on the night of November 30th. Blanks were provided for the purpose. The census will be used in the enforcement of the new civil service law. A census of cattle and certain other domestic animals took place at the same time.

There was a revolt in Antwerp on November 30, in which between two and three hundred inhabitants and many German soldiers are said to have been killed. The reported revolt was due to a call upon the inhabitants for work in Germany.

Christmas Gifts for Smokers

Nearly all your men friends are smokers, and you cannot please them better than by a well-chosen gift of

Cigars, Pipe or Cigarettes

It is an economical gift, too, and one that is sure to be appreciated

We have CIGARS in boxes of 10s, 25s and 50s; CIGARETTES in 50s and 100s, and a nice range of PIPES with or without cases.

For the convenience of Ladies who can not visit our store in the daytime, we are open every evening until 10 o'clock.

The Club Cigar Store

NOTICE

Notice is hereby given, that at the next statutory meeting of the Board of Licensing Commissioners for the City of Kelowna, I, Arthur Peabody, intend to apply for a renewal of my licence to sell liquor by retail in the premises known as the Palace Hotel, situated on the North side of Bernard Avenue, between Water Street and Pendozi Street, in the City of Kelowna, B.C.

Dated November 15th, 1916. 52-4

J. A. BIGGER
BUILDER AND CONTRACTOR

Estimates Furnished for all classes of work

SYNOPSIS OF COAL MINING REGULATIONS

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of $1 an acre. Not more than 2,500 acres will be leased to one applicant.

Applications for the lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated.

In surveyed territory, the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of $5 which will be refunded if the right applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns shall be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of $10 an acre.

For full information application should be made to the secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion lands.

W. W. CORY.
Deputy Minister of the Interior.

N. B.—Unauthorized publication of this advertisement will not be paid for.

Printed Butter Wrappers

According to the new Dominion Government regulations all farmers who sell butter either to the stores or privately, are required to have it properly covered in a wrapper on which MUST appear in prominent letters the words "DAIRY BUTTER." The fact is also emphasized that all butter in such packages must be of the full net weight of sixteen ounces, and in default of same a fine of from $10 to $30 for each offence is imposed. Whey butter must be so labelled even when mixed with dairy butter, and dairy butter retains its label though it be mixed with the creamery product.

You can be supplied with neatly-printed wrappers for your butter at the Kelowna Record Office, for the following prices:

100	PAPER & PRINTING INCLUDED	$1.50
200	" "	2.00
500	" "	3.15
1000	" "	4.50

These prices include Both the Paper, which is the best obtainable for the purpose, and the Printing of same. Please note this.

Owing to the extraordinary rise in the price of butter, parchment (which has gone up over 100 per cent) we have been reluctantly obliged to raise our prices slightly. Nearly all this paper was previously manufactured in Belgium, and needless to say this supply has been entirely cut off. Unfortunately there is no guarantee against further increases, indeed, they are more than likely.

Kelowna Record

Orders for Local Scouts

§Kelowna Troop
Troop First; Self Last

Edited by Pioneer. Dec. 5th.

Orders by command for week ending 16th December, 1916.

DUTIES: -- Orderly Patrol for week, Kangaroos; next for duty, Wood Pigeons.

PARADES:—The Otters, Eagles, Wood Pigeons and Beavers will parade at the Club-room on Tuesday, December 12th, at 7.15 p.m. The Wolves, Curlews and Kangaroos will parade at the same time and place on Wednesday, December 13th. The combined troop will parade at the same place on Saturday, December 16th, at 2.30 p.m. The Wolf Cubs will parade at the old school house on Friday, December 15th, at 7 p.m.

Weather permitting, we hope to be able to arrange for another hockey match with the Bankers' Team on Saturday of this week.

We ask every Scout in the troop to bring to his parents' attention the fact that the Annual Meeting of the Local Association will be held on Monday evening next, the 11th inst., at 8 p.m. in the Club Room.

We shall have our Annual Bun Feed on Wednesday, the 28th of this month.

On Friday, the 24th ultimo, Recruits C. McKenzie and I. Thomas passed their Tenderfoot tests successfully and Scout J. Parkinson, of the Wolves, also re-passed the same. On Wednesday, 29th ult., P. L. G. Groves, Second B Davis and Scout T. Taylor also re-passed their Tenderfoot tests. There is very little time left before the end of the year and we certainly will not be able to spend the last few days of the year in taking Tenderfoot Tests entirely. Also, if a Scout does not try until the last few days and then fails, he will probably not have a chance of trying again. There will be no exceptions to the new rules.

We re-print the following from the November Headquarters Gazette, commonly known as "The Green 'un."

"'He being dead yet speaketh.' Before going out to the front, where, we regret to say, he was killed in action last month, Captain H. Martin, Scoutmaster Lingfield and Dormansland Troop, and District Scoutmaster, Surrey, wrote a letter to be read to his boys, should he fail to come back. We are very glad to have obtained permission to publish the following extracts from this letter: 'I am writing this on the eve of my departure. God only knows whether I am to return or not, but should it be His will that I am not to, I write these few lines to help you boys as far as within me lies the power. . . . Remember boys that each one of you brings an influence on your fellows either for good or bad. You will have many trials, many temptations, but if, when they come, you think to yourselves how can I help other people best, or what is the right thing to do, there is little doubt but that you will do right. In all that you do don't trouble about what people think, just do what you believe to be right yourselves. Don't be goody-goody and just do what you think looks good, because you want people to think you are good, but be just simple, straightforward, honest, kind-hearted, pure-minded boys, and you will turn out to be men well worthy of glorious England boys, and all her noble traditions."

Report of Provincial Botanist

In a pleasingly illustrated booklet, which is much more readable than government blue books usually are, Mr. John Davidson presents his third annual report as provincial botanist for British Columbia. The range of the work covered is indicated by the chapter headings, which include items on the herbarium, botanical gardens, lectures on botany, experimental work, garden competitions and reports of the several botanical explorations of out of the way corners of the province. The botanical office keeps in touch, by means of local correspondents, with as many districts as possible at all times, in addition to sending out these surveys. Over ninety such correspondents are now on the list. They send in specimens of any new species discovered, and report on local conditions generally. Most of them are school teachers, who supply specimens and data for information for their classes.

The office also supplied data for and assisted in the judging of the home garden competition last summer, in which only children were allowed to compete. Mr. Davidson also helped judge the amateur gardeners' competition for the Mayor's Cup.

The work of the office also extended to an examination of weeds in connection with the reported poisoning of some cattle last summer. Farmers requiring information to help them find or exterminate noxious weeds need only write to the office.

Revenue Reaches High-Water Mark

November proved to be the greatest revenue month in the history of the Dominion. Collections from all sources for the month exceed $23,000,000. This is more than the total revenue for the Dominion in 1880. For the first eight months of the fiscal year the revenue is slightly under $145,000,000, an increase of over $40,000,000 as compared with the same period last year.

Expenditure on capital account was $69,517,000 against $65,345,000 for the corresponding period last year. When allowance is made for increased interest charges this is really a decrease.

Expenditure on capital account has been approximately twenty millions. Last year it was $26,000,000. For the eight months there has been a general betterment of forty million dollars as compared with the same period last year.

Ninety per cent. of the Fernie miners have resumed work since the recent strike.

A resident of Owen Sound has a snowball tree in his garden which burst into bloom early in November.

German marks normally equal to 23.8 cents of United States money, are now only worth about 16⅔ cents in New York.

The United States government awarded contracts for twenty-seven coast defence and two 800-ton fleet submarines.

TOWN AND COUNTRY NOTES

Mr. and Mrs. Fred Pedlar returned from the coast Saturday.

The Rev. T. W. Scott, of Peachland, was in town yesterday.

Let Knowles solve your Xmas present difficulty.

Mr. and Mrs. A. N. Harker are are now staying in New York, having gone there from Los Angeles.

The service at St. Andrew's Okanagan Mission, will be at 8 a.m., Sunday next, the 10th inst.

Mrs. Caesar and Miss Comyn Ching were visitors in town Tuesday from Okanagan Centre.

Dr. Ilsley, veterinary inspector for the district, was in town Tuesday.

The W.C.T.U. will hold its regular meeting on Thursday afternoon, December 14th, at the home of Mrs. H. H. Millie.

Mr. and Mrs. Copeland invited the Fire Brigade, their wives and friends to their home last Friday evening. Mayor Jones and Ald. Millie, chairman of the Fire Protection committee, were present.

The Mission Band of the Baptist church is giving an entertainment in the church to-night under the direction of Miss Reekie and Miss Edna Clarke, who have for a long time been training the children. A collection is to be taken up in aid of missions.

R. Wanless, of Penticton, is reported as having died of wounds. This has since been verified. He was a brother of Miss Ruth Wanless, who was employed in the government telegraph office here during the summer.

Please remember the Twigs are holding a sale of fancy articles and homemade candies at Morrison's Hall, on Saturday afternoon, December 16th. Mothers unable to attend the ladies' weekly sewing meetings can help the cause by donating cakes for the afternoon teas to be served. Donations, however small, will be gratefully received at J. B. Knowles' store.

A large number of the members and adherents of the Baptist church took advantage of the invitation to a social evening at the home of Mr and Mrs. Geo. Patterson last Thursday evening. Needless to add a most enjoyable time was spent and the following programme rendered by members of the choir, was given during the evening: —

Solo.....I See Red Rose Blooming
Mr. S. Weeks

Quartette, Who Killed Cock Robin?
Mrs. H. Jenkins, Mrs. A. Clarke, Messrs. Weeks and Bartholomew

Solo.....A Perfect Day
Mrs. P. Harding

Duet ..... The Gipsy Countess
Mrs. H. Jenkins and Mr. S. Weeks

Quartette.....Sweet and Low
Mrs. H. Jenkins, Mrs. A. Clarke, Messrs. Weeks and Bartholomew

Duet..... .....Larboard Watch
Mrs. H. Jenkins and Mr. S. Weeks

Miss Clarke accompanied. An item which caused much amusement was the first duet by Mr. Weeks and Mrs. Jenkins, who appeared in costume. Sid. who had to appear as the count, was garbed in a Prince Albert and high silk hat and the gipsy, whose costume was exceptionally true to style, could hardly be blamed for "accepting his fortune" and fixing the date!

Mr. Geo. Ritchie was a passenger to Vancouver Monday.

Mr. D. Leckie returned Monday from a visit to Calgary.

Knowles' watch guessing on Saturday, December 16th.

Mrs. Earl Blackwood and her daughter went to Hamilton, Ont., Tuesday.

Mr. and Mrs. T. Duggan and their daughter Mabel returned yesterday from the coast, the latter being much improved in health.

Mr. and Mrs. W. J. Rankin were passengers for Seattle Monday.

Mrs. Fumerton went up to the Landing yesterday to meet her daughter, who was arriving from Winnipeg.

Although the new picture theatre in the Lequime building has not been quite completed yet, it is so far advanced that a start was made Tuesday.

The government dredge has been at work for some weeks past deepening the approach to the C.P.R. freight slip.

Pte. Alec Smith arrived home from the front last Thursday. He will spend some time in town before proceeding to the coast.

Don't worry over what to give your friends for Xmas. Go to Knowles. he will do the worrying for you.

The monthly meeting of the Country Girls' Hospital Aid will be held at the home of Mrs. Whitehead on Saturday, December 9th, at 3 o'clock.

The name of Mr. John Symonds appears among the list of wounded this week. Mr. Symonds joined up in town during the early part of the war.

Mr. and Mrs. Percy Bird desire to thank all friends for their kind sympathy and help in the loss of their little girl, also for the many flowers and wreaths and other tokens.

Mr. and Mrs. Glen Ives returned Friday from Armstrong where they have been residing since leaving Kelowna a couple of years ago. They intend to remain in Kelowna over the winter.

Mr. Percy Harding left Saturday afternoon for Nelson where he has secured a position. Percy was well known in town and enjoyed the confidence of a large circle of friends. He will be missed by the Baptist church, especially in the Sunday school, of which he was secretary for a considerable time. Mrs. Harding is remaining here until the new year.

Messrs J. F. Fumerton & Co have an interesting relic of the war on view in their window this week in the shape of a "gas mask," one of the fearsome looking appliances which are necessary to protect the men against German "kultur." It was sent home by Mr. Fumerton's son who is with the overseas boys.

Dr. Boyce has been appointed temporarily to fill the position of medical officer to the B. C. Horse at Vernon, in place of Dr. Morris who has left for overseas. Dr. and Mrs. Boyce went up to Vernon Monday and will probably be resident there for the next few months. In the meantime the Red Cross workers are bemoaning the loss of their efficient and energetic president.

IMPORTANT CONVENTION OF FARMERS' INSTITUTES

(Continued from Page 1.)

of the school garden movement. The idea was to put something more tangible before the boys and girls which would seize their interest and be of more use to them than a smatter of the classics.

Men in all walks of life would be better for a knowledge of agriculture. Bankers, commercial and professional men would do their work better for a knowledge of the agricultural work going on around them.

In conclusion, Mr. Cibson gave a hint of a scheme which would be tried in the public schools next year, to interest the boys and girls in the "Patriotism and Production" movement. The idea was that they shall turn into money something which they had been responsible for growing—it might be the produce of the school garden, poultry, pigs or calves. The schools would thus be helping in the patriotic movement and at the same time helping and educating themselves.

Mr. Hopkins' address was unfortunately very brief, owing to the lateness of the hour, but he managed to leave a very strong impression of the value of the stock and dairying industry in any community. The fact that labor was occupied all the year round, that there were no great ups and downs of prices, snd that the best of all fertilizers, barnyard mannre, was constantly being returned to the ground were only a few of the advantages. He was glad to see the progress which dairying was making here.

Mr. Hopkins concluded with a reference to the work of the boys' and girls' clubs and competitions with which he had been concerned during the past year, and urged that every enccuragement be given to them.
