Meeting of City Council

The council met as usual Monday, with a full attendance. The minutes of the last regular meeting and of the special meeting on Tuesday were read, and the following accounts referred to the finance committee for payment :

Thos. Lawson, Ltd., uniform for constable and supplies for indigent	$ 44.35
Power House, pay sheet for Feb....	535.00
Dalgleish & Glenn, snaps	.30
Ian MacRae. Feb. salary and balance of expense acct.....	95.85
D. Fitzpatrick, night const. sal.....	70.00
Claude Newby, 5 days special police duty	15.00
Geo. Hill, 4 days spec. police duty..	12.00
P. T. Dunn, assist. clerk's sal	60.00
G. H. Dunn, clerk's sal., petty cash..	135.00
Arthur Quinn, work on srteets.....	28.00
G. F. Teal, salary.....	100.00
Wm. Paisley, scavenger	166.66
" " removing rubbish.....	6.00
P. Burns & Co., supplies for Mrs. Draffin.....	1.05
C.P.R., freight.....	4.23
Office Specialty Mfg. Co., transfer case and folders.....	18.80
R. A. McKillican, work on Abbott Street bridge	2.70
F. Swanson, work on streets	21.45
Peter Kraubauer, " "	14.40
John Johnson " "	14.83
Frank Avder " "	14.40
Wm. Craize " "	17.10
Wm. Haug, coal for fire hall.....	8.75
Morrison-Thompson Co., supplies..	13.49

Mr. T. N. Morrison submitted a rough plan of a proposed subdivision, to which the council suggested a few changes.

A letter was read from the Peachland municipality, offering for sale some incandescent lights which had been ordered in error. It was decided to hand the letter to a local electrician as the council had no use for them.

Ald. Millie gave notice of his intention to submit an amendment to the fire by-law, so as to prevent the piling of loose hay within the fire limits, and also a by-law to regulate the sale of fire-wood. He contended that at present people were being charged the same for 12, 14 or 16 inch wood, which he did not think a square deal.

Ald. Sutherland mentioned that the Light and Water committee had intended going into the matter of revising the plans of the system, but had not been able to do so, owing to the absence of Mr. Leckie who had some necessary information.

It was mentioned that there was an application in for the position of road foreman.

Ald. Raymer said there were no doubt others who would like to apply if they knew the city wanted a foreman. He suggested advertising the position.

Ald. Sutherland thought it would be well to wait until the estimates had been prepared.

A telegram and letter which had been sent to the Canadian Westinghouse Co., in reference to the new generator, was read. The company had promised to look into the unsatisfactory working of the generator, but had neglected to do so, and the committee had intimated to them that the council would hold them responsible in case of loss or damage. The result of these communications had been a visit from Mr. Yuill, the city's consulting engineer, and Mr. Hartney of the Canadian Westinhouse Co. They had examined the plant but were coming back in a week's time to make a thorough test.

Ald. Millie contended that the Canadian Westinghouee Co., should be held responsible for the interest on the cost of the generator, which was of very little use to the city in its present state.

Ald. Sutherland said it was not quite clear where the trouble was and very little could be done untill the proper tests had been made. There was a matter which the council might take up, and that was the difference in the winding of the two exciters, which would operate their respective generators, but would not run together owing to a difference in voltage. The rewinding of one of them would cost $45 and it was a question whether the city should pay this or those responsible for the installation.

Ald. Millie said he thought the council should obtain the services of another engineer to examine the plant, as he was of the opinion that there was something seriously wrong.

Ald Sutherland declared the plant would be perfectly satisfactory when the heating of the new generator was corrected, and the two exciters adjusted to work in parallel.

Ald. Copeland spoke of the destruction of trees on the streets. He said it was no use for the city to plant them if they were not protected.

The mayor mentioned a case which had been brought to his attention of some boys who had gone down the street with a stick knocking off branches of trees.

It was felt that something should be done to make an example of offenders.

Ald. Taylor complained of barbed wire being allowed to remain alongside of streets, and it was decided to instruct the constable to notify owners to remove same.

Ald. Raymer drew attention to an overflow of waste water from the kitchen of the Lake View hotel which was causing a bad smell. The health committee was requested to take steps to have same remedied.

A discussion arose on the drainage of the streets, Ald. Taylor contending that it was a waste of money doing anything until proper atreet grades had been established.

Ald. Blackwood said he had been informed by Mr. M. Hereron that funds were available for the continuation of Water street from the city limits along the lake shore and around the point of Knox mountain if the city would continue the street to the limits. A large supply of good gravel was available around the point, and the new road would give a straight level haul into town.

Mayor Jones said he thought Messrs. Buckland and Crowley would probably oppose the road going through their property.

This raised a discussion on the question of leasing the foreshore. Ald. Raymer said that Previous councils had acted very unwisely in granting away the city's foreshore rights. He strongly advised the council to oppose the application now being made by the D. W. Crowley Co. The council would certainly want to extend Water street to Manhatten Beach, and if the leases were granted it would be another obstacle in the way.

Mr. R. H. Parkinson who was present informed the council that he had prepared plans of foreshore leases two years ago for Mrs. Stirling and the Crowley Co. The council had approved of the plans, and Mrs. Stirling had secured her lease. The Crowley plans had been sent to Victoria, but had been somehow lost in the mail or in one of the government offices. They were therefore under the necessity of making a fresh application.

In reply to a question of the mayor the clerk said the original plans had been passed on March 26th 1910.

Ald. Taylor said he was opposed to the council raising any objection to the lease, as it had been approved by the council, and it would be unjust to take advantage of the loss of the plans.

Ald. Raymer, however, contended that the previous council had been foolish in giving away such rights, and he would not agree to endorsing their action.

Mayor Jones said the council should certainly endeavor to get the road put through.

Mayor Jones reported that the Police Commissioners had received a large number of applications for the positions of day and night constables, after considering which they had appointed Robert Sutherland of Winnipeg as day constable at a salary of $85, and W. A. McCubbin as night constable at a salary of $70.

Sutherland had served five years in the Leith, Scotland, and some time in Winnipeg, and McCubbin had formerly been a member of the Glasgow police force.

The mayor mentioned that so far very few applications had been received for the position of assessor. It was decided to extend the time for receiving applications.

The mayor said he had been informed by the Dominion Express Co.'s agent that the company had decided to grant the Board of Trade's request for free delivery of parcels, but such delivery would only be within the city's fire limits. The agent wanted the council to write the Railway Commissions approving of this arrangement. The council decided to approve of the proposed free delivery, but to request that same be extended.

Mr. R. H. Parkinson submitted a plan of subdivision of Lots 3 and 4, Block 8, Map 168, which the council approved.

The council then resolved itself into committee for the consideration of By-laws 103 and 104, which were afterwards read a second and a third time.

Ald. Millie stated that he would be away for about a month from the city.

The council then adjourned until Monday next.

The Kelowna Study Club will meet at the home of Mrs. Robison on Tursday, March 14th, at 8 p.m. Subject for study : "Clergymen in Recent Canadian Fiction." Roll call answered by quotations from the works of eminent Canadian clergymen.

Presbytery Meets at Kelowna

Considers Resignation of Rev. A. W. K. Herdman and Separation of Churches

The Presbytery of Kamloops met in session on Monday night last in Knox church, Kelowna, to consider the resignation of the Rev. A. W. K. Herdman and relative matters.

The request of Knox church to be separate from Benvoulin was acceded to, and henceforth this will form an independent charge. Representatives from Benvoulin and Rutland were then heard in their desire to form an ordained charge with Mr. Herdman set over them, if he would consent. The whole matter as regards the situation in the country together with Mr. Herdman's willingness or unwillingness, was left in abeyance for two weeks pending a reply from the synod's home mission committee, but it is expected that Presbyterian services will be begun in Rutland at a very early date.

The resignation was then gone into, and representatives from both congregations were heard, who spoke very highly of Mr. Herdman and his work and in support of a resolution passed unanimously by Knox church at a congregational meeting previously held, which is printed below.

At Mr. Herdman's own request and motion the pastoral tie is to be severed at the end of the present month (although the Presbytery wanted a longer delay) and the pulpit of Knox church declared vacant on the first Sunday of April.

Rev. Fergusson Millar, Penticton, was appointed interim moderator of session.

The Presbytery then adjourned to meet in Vernon early in April for the introduction of Rev. Mr. Main to the pastoral charge there.

The following is the resolution above referred to :—

> The Rev. A. W. K. Herdman, having informed this congregation that he had resigned his charge as minister of Knox church, Kelowna, and Bethel church, Benvoulin, to the presbytery of Kamloops, this meeting of the congregation of Knox church, Kelowna, receives his resignation with feelings of regret, and desires to place on record its sincere appreciation of Mr. Herdman's faithful services during his ministry of six and a-half years, and wishes to bear testimony to his able pulpit ministrations. His conscientious discharge of the varied and at times difficult duties devolving upon a minister of the gospel, has left its impress for good upon many a life.
>
> The congregation also wishes to express its warm appreciation of the services rendered to the congregation and to the Sabbath School by Mrs. Herdman; and wishes Mr. and Mrs. Herdman many years of usefulness in their high calling.

Curts Wedding Anniversary

Judging by the tone of the congratulatory addresses, and the number of gifts presented to Mr. and Mrs. J. Curts on the twentieth anniversary of their marriage (Thursday last), no doubt can be entertained as to the very high of esteem in which they are held after their nineteen years residence in Kelowna. About 75 guests assembled at their home on Bernard Avenue Thursday last, when a most entertaining evening was passed, towards which Messrs. W. Cooper and L.Dilworth contributed solos. Mr. J. W. Jones acted as chairman, and Dr. B. F. Boyce proposed the health of "the happy couple," which was seconded by Mr. J. A. Bigger and responded to in suitable speeches by Messrs. Davidson, Sutherland, Munson, Haug, Hunter and Gaddes. Incidentally we may mention that Mr. Curts' wedding day is also leap year day, so that, speaking literally, twenty years will elapse before the silver wedding can be celebrated.

Master Willie day won the matinee dot contest ot Dreamland last Saturday afternoon.

Some amusement was caused at the "Passion Play," Tuesday night by the inevitable "small boy at the back." When the "wonderful draught of fishes" was hauled above the surface of the waters in the nets of the future disciples, this irreverent youth called out "Kickininnies!"

Fatal Accident to Kelowna Teamster

Loaded Wagon Passes Over His Head

A distressing accident occurred about 9 o'clock Monday morning near the C.P.R. tracks, resulting in the death of Wm. Constable, an employee of the Central Okanagan Lands, Ltd.

Deceased was engaged along with others in hauling wood pipe for irrigation work in Glenmore. He had loadsd his wagon from the car and was climbing to his seat on the top, when some of the pipe slipped causing him to fall to the ground. Startled by the noise the team started forward and the wheel of the heavily-loaded wagon passed over the poor fellow's head fracturing his skull and causing instant death. Dr. Boyce was hastily summoned, but pronouncing life extinct. A formal inquest was held on the spot, after which the body was removed to the undertaking parlors of the Kelowna Furniture Co.

Constable, who was a steady, reliable man, and well liked by all who came into contact with him, had been in the employ of the company for some time, last year having acted as water baliff. He was an Englishman hailing from Scarborough, Yorks, where his relatives at present reside. The company at once communicated news of the sad occurrence to his mother by cable and a reply has been received.

Interment took place Wednesday at the Kelowna cemetery, service being previously held at St. Michael's church, the Rev. T. Greene officiating. The church was crowded with friends of the deceased, the camp having been shut down for half a-day to allow the men to attend. The funeral was also attended by the heads of the Company, the office staff, and a large number of local sympathizers. A beautiful wreath of flowers, the product of Mr. H. Lyson's green - houses, was sent by Constable's fellow boarders.

There is a rumor current that sums of money were owing to the deceased by persons in the Kelowna district amounting to $250, and at Okanagan Centre to $175. Those concerned are asked to kindly communicate at once with the Company, who will see that the cash is placed to his estate.

Clever Shooting Exhibition

Mr. Chas. E. Mink, expert demonstrator for the Dominion Cartridge Co., was in town last Monday and gave an exhibition of shooting in the afternoon which was an eyeopener to those who witnessed it.

Mr. Mink's work with the shotgun was clean and quick, keeping several of the onlookers busy filling the air with bottles, cans, etc., doubles and trebles being apparently easy work, judging from the very few misses made.

The work with the .22 rifle was good, too. Walnuts, pieces of coal were thrown into the air and shot to pieces. A piece of card placed edgeways was cut in half, and several bullets placed in the same bullet hole in succession.

The best work was done with a big 30-30 rifle. Oranges, halfbricks and pieces of coal were thrown in the air and shot before reaching the ground. A piece of quarter-inch steel was thrown in in the air and shot through as easily as if it were a piece of paper, while the same bullet fired into an orange did not pass through it entirely, but spread as soon as it entered, leaving very little of the orange to be seen. In addition to this Mr. Mink did a number of fancy revolver and rifle stunts in various positions, with mirrors, etc. making in all a splendid exhibition of marksmanship.

In the evening he visited the Indoor Rifle Range, but not being a specialist on target work did not do so well as out-doors. However he did excellent shooting and made the htghest score of the day.

Mrs. Norman Symonds and family, who have been visiting Mr. Symonds for the past few weeks, left for their home in Vancouver by this morning's boat.

Drunken Quarrel Ends in Murder

Half-breed Shot Through Head at Westbank

The citizens of Kelowna were startled and horrified last Sunday to learn that on the previous night a brutal murder had been committed at Westbank, and that three men of the already notorious McDougall family of half-breeds had been arrested. As the details leaked out it appeared that Dave McDougall, of Duck Lake, had been shot and killed in a drunken row near the farm of his uncle, Edward McDougall, and that Albert McDougall, son of the latter, had been arrested as author of the crime. The father and another son, Dan, were also arrested on suspicion of complicity.

In the early hours of Sunday morning, constable Tooth, of the provincial police, was summoned to Westbank, and proceeding to the McDougall farm found the murdered man lying face down in a pool of blood on the hillside a short distance below the barn. In the back of his head was a gaping wound which had evidently been caused by a rifle shot. No satisfactory explanation was forthcoming on inquiry at the house but strong suspicion fell upon Albert McDougall and he was arrested and brought to Kelowna along with his father Edward, and brother Dan.

On Monday a jury was summoned, consisting of Messrs. P. B. Willitts, A. Edwards, E. Weddell (foreman), R. F. Morrison, D. W. Sutherland and Geo Rowcliffe, and an inquest on the body of the murdered man was held by Dr. Boyce.

A large number of witnesses were examined by Mr. J. F. Burne, but their evidence was very conflicting and contradictory. No definite motive could be assigned for the crime which seemed to have been the outcome of a drunken quarrel, the result probably, of previous illfeeling.

The McDougall house has long been a general rendezvous for all that is disreputable and vicious in the district. The family is a large one and on Saturday night a party of them, consisting of Ed. McDougall, snr., the sons Albert, Dan and August, two daughters, and a cousin Dave from Duck Lake, seems to have been assembled along with two Englishmen, Wm. Miller and Jack Huston, who admit having taken whisky with them. Considerable drinking appears to have been going on. Later, the party left the farm taking the trail to August's house which is some distance away. They did not go altogether, but in ones and twos. Albert evidently stayed behind, and after going some distance Dave seems to have turned back. From the evidence of the witnesses who were ahead at the time, quarrelling was heard when Dave got back, and four shots in quick succession, the inference being that Albert shot his cousin near the house.

The jury returned a verdict to the effect that "Dave McDougall met his death by being shot in the head by some unknown person."

On Tuesday, the accused, Albert McDougall, was brought up for preliminary trial, his father and Dan being charged as accomplices after the fact. Later the two latter practically admitted having seen Albert fire the shots, and were allowed to go free. Charged with the crime prisoner, who was more visibly affected by the seriousness of his position than on the previous day, stated that he had been drunk at the time of the murder and could not remember anything about it.

He was committed for trial at the next assizes.

McBride and Bowser to visit Kelowna

Election Campaign Started

The proclamation is out for the forthcoming Provincial elections. Nomination for the Okanagan is to be held at Vernon on March 14th. Polling will take place on Tuesday March 28th.

Arrangements for the campaign have already been made. It was at first doubtful whether the Liberal party of the province generally would contest the election, but later a decision was made to put up a vigorous opposition. So far as the Okanagan is concerned no announcement has yet been made.

Premier McBride and Mr. Bowser are to tour the province and according to a telegram received they expect to address a meeting in Kelowda on Tuesday afternoon at 2 p.m. March 19th.

The Rev. P. Henderson, of Armstrong, was in town Monday, attending the meeting of the presbytery in Knox church.

Mr. and Mrs. Campbell, of Miami, Sask., were visitors during the week of Mr. and Mrs. D. McMillan.

Five per cent. of the receipts of Calder's sale on Saturday are to be given to the hospital. If the rush of buyers continues as it has been doing for the past week or two the Hospital should benefit to a considerable extent.

Opening of New Catholic Church

Interesting Ceremony Took Place Sunday Last

The new church erected by the Catholics of Kelowna and district was opened with due solemnity on Sunday last. The church, which although not yet entirely finished, is a beautiful structure, into which considerable taste in designing and skilled workmanship have been put, was crowded to its utmost capacity with Catholics from all parts of the Valley, as well as a number Protestant sympathisers.

Grand Mass was celebrated in the morning by the pastor, the Rev. Father Verbeke, assisted by the Rev. Father Choinell, of Greenwood as deacon, and the Rev. Father Garon of Vernon as subdeacon. An eloquent and appropriate sermon was delivered by Father Choineil. The choir of St. James Catholic Church, Vernon, took care of the musical part of the service, and their excellent rendering of the beautiful mass music was much appreciated.

The evening service consisted of the Rosary, Sermon and Benediction.

Mr. M. Hereron and A. O. Brunette acted as ushers.

The new church supplies a need which has long been felt by Kelowna Catholics and has received generous support from many of the other denominations, who, as the Rev. Father expessed it, were Catholics in heart. It has been built under the immediate supervision of Rev. Father Verbeke, who contending against many difficulties has brought it to its present condition at a cost of somewhere about $5000 and it is estimated that $2000 more will be required to complete the building.

The interior of the church is well worth a visit. Even apart from the religious point of view, the beautiful stained glass windows, especially the window of the Sacred Heart, just aver the main Alter cannot but please the eye, and the workmanship and designs of cealing and walls are most effective considering the slight cost entailed.

Large Crowd Sees Passion Play

The moving picture reproduction of the famous "Passion Play" of Ober-Ammergau, which was given in the Opera House Tuesday evening attracted almost a record crowd and as the largest share of the proceed went to the Hospital Aid, the institution should benefit to a considerable extent.

The films, which were shown by Mr. Duncan, of the Dreamland theatre, were excellent in every way, and gave a wonderful impression of the life-story of Christ as presented by the actor-villagers in the queer old Bavarian hamlet once every ten years. The Kelowna orchestra rendered appropriate music, while Mr. G. Ferrier sang "The Holy City," to the accompaniment of Mr. H. T. Boyd.

The monthly meeting of the Country Girls' branch of the Hospital Aid will be held on Saturday, March 9th, at 3.30 p.m., at the residence of the Misses Metcalfe.

The results of the voting on the question of "Church Union" which took place a month ago, have been made known so far as the local Presbyterian churches are concerned. At Knox church the vote showed 58 in favor and 20 against; the country, 41 were for and 8 against. A large number of those elegible, however, did not record their votes at all.

A meeting of the Kelowna Conservative Association is to be held on Saturday next, March 8th, in Raymer's small hall, at 8 p.m.

At the meeting of the Kelowna Brotherhood on Sunday afternoon next, in the Baptist church, at 3.30, Mr. C. Groves is to give a paper on "Arbitration."

The Rev. and Mrs. F. Millar, of Penticton, spent Monday and Tuesday in town, the guests of Mr. and Mrs. D. D. Campbell. Mr. Millar attended the meeting of the presbytery in Knox church.

Mr. and Mrs. Geo. Fraser and Mrs. Plaskett passed through on the boat Monday to Penticton, returning from a three months' trip to Ontario.

Dr. Knox had so far recovered from his illness to be able to leave for the coast Saturday. He will also probably visit the Hot Springs.

THE ORCHARD CITY RECORD

JOHN LEATHLEY, Editor and Proprietor.

Subscription $1.50 per annum.
To United States $2.00 per annum.

Advertising rates upon application.

The evidence given at the inquest on the murdered half-breed, news of the brutal tragedy connected with the death of whom shocked the city at the beginning of the week, served to bring to light some unsavory details respecting the visits of so-called "white" men to the hot-bed of vice and drunkenness which has long been a festering sore on the other side of the lake. If the man who has been sent up for trial is convicted of the crime he will no doubt richly deserve his fate, though the deed was most likely committed in a drunken frenzy. But what of the filthy scoundrels who go out of their way to supply the Indians with the whisky which sets their savage brains on fire? It seems a pity that the arm of ths law is not long enough to bring them to book.

Complaint was made in the council chamber last Monday of the wilful damage being done to shade trees along the streets of the city. This is a matter which is constantly recurring. The damage is usually attributed to thoughtless schoolboys whose destructive instincts are apparently similar to those of a young pup, and a similar remedy should be applied, namely, a good licking when caught; but they are not responsible for all the harm done, nor perhaps even most of it. Drivers of rigs who take the sides of the streets, and take them recklessly not caring what damage they do, are the worst offenders. If such have not brains enough to appreciate the value of shade trees in the beautifying of the city, and the necessity of protecting them while young, it is to be hoped the police authorities will endeavour to teach them with sharp fines.

Communications

Under this heading communications will be received upon any subject of interest. Letters must be signed, be brief, avoid personalities. The Editor does not necessarily endorse opinions given below.

Rutland School Question

The Editor.

Dear Sir: Your correspondent of last week writing on this subject, evidently left the meeting "too full for utterance" and was constrained to fly to "printer's ink" with such haste forcing one to think he had dabbled in it for so long a time that he turned instinctively to its use. If "Fair and Square" had turned loose such lovely arguments when the discussion was on, perhaps (?) the result of the vote would have been different.

Most of us can think of grand and eloquent thoughts after it is all over, but its while the fight is on, that its necessary to do the firing. Has he never heard of resolutions being rescinded after additional light and knowledge have been brought on the subject? The truth of the old adage, "Second thoughts are best," was fully verified by the action taken at the meeting last Tuesday. The graciousness of the South-enders to allow the school to be built on the centre line is neutralized by their knowledge that the store, (around which most of the south end children live) is but a short distance from that line, and by ignoring the claims of those living in the N. E. and N. W. of the district.

The Porter lot was brought to the notice of the trustees, and one of the members, at least, would not entertain the idea, and refused to bring its purchase before the voters but spent a lot of time inducing another owner of land to offer 4 acres at the high price of $750.00 per acre rather than the school should be placed contrary to his own ideas. One of the points "discreetly kept in the background" was that the Reilly lot would have had to be bought "en bloc" and $4,700 was the price to be paid. Will someone kindly rise and explain why the chairman did not see fit to take the meeting into his confidence, and give his reasons.

"Fair and Square" apparently contends that 32 from 53 in attendance is not representative, showing him to be a little weak in arithmetic, and as another instance of a point "discreetly kept in the background" he does not record the fact of one lot receiving only 9 votes and the other 13 in favor as against 32 to 2 for the lot chosen. No sir. The fact is that a personal element has crept into the question and the minority hate to give in, but as this is a public matter, and the Trustees but the mouthpieces or acting managers for the people, they should do as the majority of the voters desire, and show themselves men with public spirit enough to to view the question in broad minded way and work together for the good of the district as a whole. Many south enders were known to have voted for the Porter lot from an economical motive.

PRO BONO PUBLICO.

Proposed Poultry Association

Sirs: I was appointed to write to the Department of Agriculture, Victoria, urging them to send a representative to Kelowna to organize an Association.

I have just received a reply stating that it is impossible at the present time to do so, but advising us to go on and organize and they will send on a man to help us later.

If persons wishing to join the Kelowna Association will please give me their names, or send me a post-card or letter stating their willingness to be members, as soon as we have twenty-five names (the number required) I will call a meeting by letter to each applicant, and then we can organize.

Yours truly,
J. C. STOCKWELL.

You judge a man not by what he promises to do, but by what he has done. That is the only true test. Chamberlain's Cough Remedy judged by this standard has no superior. People everywhere speak of it in the highest terms of praise.

Town and Country

The monthly meeting of the W. C. T. U. will be held at the home of Mrs. Reekie, snr., on Tuesday afternoon next at 3 p.m. The meeting will be addressed by Dr. Maud McNaughton on the subject of "Home Nursing." All mothers are especially invited to attend.

We beg to acknowledge receipt of the following on behalf of the Chinese Famine Fund:

A friend - -	$10.00
A. Patterson - -	2.00

A meeting to organize a base-ball league for the city is to be held in the office of Messrs Josselyn & Cooper (next to Rifle Range) on Wednesday next, March 31st at 8 p.m.

At a meeting of the Young People's Society of Knox church on Monday March 11th in the Presbyterian Sunday school hall, a lecture will be given by Mr. Geo. E. Boyer, on "Some Amusing and Other Reminiscenses of a Lay Preacher in the Old Land."

Mrs. R. F. Morrison will not receive Wednesday afternoon March 13th.

Capt. and Mrs. Knight wish to announce that they will be "at home" to the friends of Mr. J. G. Fraser and family on Wednesday evening, March 13th. and ask that a special note be made of this date. Pending departure for Vancouver by Thursday's boat, the Frasers are the guests at the home of Mrs. Knight.

Jack Kincaid went up to Armstrong Saturday last returning Sunday afternoon.

Miss. George, teacher of the Primary class at the Public School left last week end for Nanaimo, in response to a message announcing the death of her niece. Miss J. Bell of Vernon has temporarily taken her place.

Mr. M. W. Russell of the Central Okanagan Lands, Ltd., returned Thursday last from North Yakima where he had been for the purpose of buying nursery stock for planting this spring in Glenmore.

It is the intention of Mr. C. D. Tuckey, who had his house burnt last week in Glenmore, to rebuild at once.

The annual meeting of the Women's Auxiliary of St. Michael's church will be on Friday next, March 8th. Holy Comunion will be celebrated at 10.30 a.m. with an address by Rev. Mr. Greene. The business meeting will be held at 3 o'clock at Mrs. DuMoulin's.

A large appropriation has been made by the C.P.R. for repairs to be carried out on the steamer Okanagan.

Apropos of the difficulty of securing a local assessor, an exchange notes that seven women assessors have been appointed in Spokane, remarking at the same time that what these new officials do not find out about the financial rating oJ Spokane's bachelors will not be worth knowing.

Hospital Subscriptions

The secretary of the Kelowna Hospital Society acknowledges with thanks receipt of the following donations of fruit and vegetables, etc., to the end of February 1912.

Mr. G. Francis, fruit and vegetables.
Mr. F. A. Taylor, box of apples.
Mrs. W. C. Cameron, jelly.
Mrs. Cal. Blackwood, eggs and vegetables.
Mr. and Mrs. Craig, onions, potatoes and jam.
Mrs. Armstrong, jam.

First Convocation of New B. C. University

Formal notice of the first convocation of the University of British Columbia is given in the official gazette. The meeting will be held in Victoria in the auditorium of South Park school on Wednesday, August 21, 1912, at 10 a.m.

The first convocation will consist of all graduates of any university in His Majesty's Dominions who have been actually residing in the province two years prior to August 21, 1912, and who, at least six weeks prior to this date, have registered themselves as members of such convocation;

Twenty-five members to be selected by the lieutenant-governor-in-council.

Every applicant for registration as a member of convocation should forward to the provincial secretary, Parliament buildings, Victoria, not later than six weeks before August 21, 1912; his name, the Christain name or names being given in full; his post office address in full; the degree or degrees which he holds, or in lieu of parchments a certificate signed by the registrar of his university to the effect that he is a graduate of such university; the date on which he graduated; a statement giving the number of years during which the applicant has resided in the province; the statutory fee of two dollars.

After the first convocation, all convocations shall be composed of the chancellor, the senate, the members of the first convocation, and all persons who shall have become graduates of the University of British Columbia.

Death of Hon. Ed. Blake

After an illness extending over five years, the Hon. Edward Blake, one time leader of the Liberal party in Canada, and former Premier of Ontario, and one of the foremost politions of the day, passed away at his residence in Toronto last Friday. His death was not unexpected. He had been growing weaker, and not expected to rally.

British Army Expenditures

The estimates of expenditures for the British army for the fiscal year of 1912-13, including both effective and non-effective services, aggregate $133,300,000, or an increase of $850,000 over those of the year 1911-12. The entire increase in the estimates is due to the proposed expenditure by the government in development of aviation in the British army, as it is planned to spend $800,000 on the acquisition of aeroplanes alone.

The first consignment of J. Pierpont Morgan's European art treasures has arrived in New York, appraised at $700,000. Almost every incoming liner from now on will bring a parcel of the treasures gathered in all parts of the old world, the total value of which was placed a more than $50,000,000.

Mrs. Emmeline Pankhurst, Mrs. Lukes and Mrs. Marshall, the three leaders of the window smashing campaign by which the suffragettes succeeded in terrorising the London tradesmen, were sentenced each to two month's imprisonment.

Sir. John Tenniel, the famous cartoonist, who was on the staff of "Punch" for fifty years, celebrated his 92nd birthday last Wednesday. He is still in good health and is looking forward to the summer to renew his walks from his home in Kensington. His great pass-time is to be read aloud to by a companion. For some time he has been quite blind.

Chamberlain's Cough Remedy has won its great reputation and extensive sale by its remarkable cures of coughs, colds and croup. It can be depended upon. Try it. Sold by all dealers.

Okanagan Mission

Proposed Separate Parish

A special vestry meeting was held at St. Andrew's church on Thursday, February 29, at 8 p.m. to receive the report of the lay delegate to the Diocesan Synod, Mr. G. C. R. Harvey, with regard to the proposed severance of Okanagan Mission from the parish of Kelowna. The Rev. C. H. Meyrick presided over a numerous attendance, which included Mr. and Mrs. Wansborough Jones, Mr. and Mrs. E. A. Barneby, Mr. and Mrs. R. Gray. Mr. and Mrs. W. Hobson, Mr. and Mrs. Chaplin, Mr. and Mrs. A. H. Bell, and Messrs. Harvey, Chater, Woodmas, W. M. Thomson, Dodd. Dalgleish, B. Crichton, Taylor, R. Favell, B. Meyrick, Miss Townsend After the minutes of the previous meeting had been read, the chairman called upon Mr. Harvey to give his report of the Diocesan Synod. Mr. Harvey briefly referred to Bishop De Pencier's charge, and the appeal made to every parish in the diocese to assist the church at Fernie in the financial difficulties under which it was laboring. With regard to the Clergy Pension Fund he stated that a committee had been appointed to consider the matter and report to the next Synod. Coming to the separation of Okanagan Mission from the parish of Kelowna, he said that the Bishop had expressed himself in favor of it as soon as the question of a vicarage could be satisfactorily settled, and he then proceeded to lay the financial situation before the meeting. The half-acre next to the church could be bought from the South Kelowna Land Co. for $250; Mr. B. Crichton had offered an acre of land free, but this offer could not be definitely accepted until it was known that water could be obtained. Meanwhile Mr. Crichton received the thanks of the meeting for his generous offer.

A discussion ensued as to the probable cost of building a vicarare, and on the motion of Mr. Hobson, it was decided that the building should cost not less than $2,000 nor more than $3,000.

A motion by Mr. A. H. Bell was then passed, to the effect that the parishoners of Okanagan Mission thought it advisable to have a separate parish, and that the church committee should find out what financial support was likely to be forthcoming. A building committee was appointed, it being understood that nothing should be done by them until a favorable report had been received from the church committee. Those nominated on the building committee were: Mrs. R. Gray, Mrs. Wansbourough Jones, and Mesers. Dalgleish, Harvey, Mallam, Chater, W. M. Thompson, Barneby, and B. Crichton.

Many sufferers from rheumatism have been surprised and delighted with the prompt relief afforded by applying Chamberlain's Liniment. Not one case of rheumatism in ten requires any internal treatment whatever. This liniment is for sale by all dealers.

TO

CANADIAN ARCHITECTS

Competition for New University Buildings to be erected at Point Grey, near Vancouver, B.C.

The Government of British Columbia invite Competitive Plans for the general scheme and design for the proposed new University, together with more detailed Plans for the buildings to be erected first at an estimated cost of $1,500,000.

Prizes of $10,000 will be given for the most successful Designs submitted.

Particulars of the competition and plan of site may be obtained on request from the undersigned.

The designs to be sent in by July 31st, 1912, addressed to

AN OLD SAYING NOW AMENDED

Civic Cleanliness is as Necessary as Private Cleanliness and it is the Duty of Citizens to See that Streets are Clean.

The old saying, "Cleanliness is the Mother of Godliness," has been revised by modern science. It now reads, "Cleanliness is the Mother of Health."

Clean houses, clean yards, clean streets, clean lanes, clean water are essential to good health.

In the cities, towns and villages, individual cleanliness is not sufficient. You make take the utmost pains to keep your own house and premises clean, but if the public streets are dirty, dust laden with disease will be carried into your home. Civic cleanliness is as necessary as private cleanliness, and it is the duty of every citizen to use his vote and influence in favour of keeping the lanes, streets and other public places perfectly clean at all seasons of the year.

It costs money to keep a city clean, and the citizen should not grumble about any taxation that may be necessary for this purpose. There is danger, however, in every community that unless the right men are selected for municipal offices money which should be used to ensure civic cleanliness may be used for other purposes. The best way would be to have a special tax for street cleaning purposes, and restrict the municipal authorities from using the revenue obtained from this tax for any other purpose than street cleaning.

FACTS ABOUT THE DEAD SEA

The Celebrated Sea of the East is, on Account of its Buoyancy, Good for Swimming In.

The Dead Sea is some forty-seven miles long, and about ten miles wide at its greatest breadth. Curiously enough, it lies 1300 feet below the level of the Mediterranean. Many ridiculous stories are told about this sheet of water, even in Palestine itself. For instance, people will tell you in Jerusalem that it is impossible to swim in its waters, and that no animals or vegetables can exist near its shores. While it is true that fish cannot live in the lake, birds may frequently be seen, in certain places, flying over the surface.

As for swimming, the excessive buoyancy of the water merely renders it difficult to make much headway, but swimming is both feasible and refreshing. Among the party on an exploring vessel there were several who could not swim, yet in the evening they often ventured into the water, and floated about on their backs. What one has to be careful about is not to get the water into the eyes. Indeed, did Palestine belong to any other Power but Turkey, probably the northern shore of the lake would be a popular bathing station. No doubt the chrolide of magnesia which enters so largely into the composition of the water would be found to have medicinal and curative properties.

The water is certainly very dense, containing twenty-three per cent. of solid matter, and is, bulk for bulk, heavier than the human body. How dense it is may be realised from the following table:—In a ton of water from the Caspian Sea there are 11 lb. of salt; in the Baltic, 18 lb.; in the Black Sea, 26 lb.! in the Atlantic, 31 lb.; in the English Channel, 72 lbs.; in the Mediterranean, 85 lb.; in the Red Sea, 93 lb.; and in the Dead Sea, 187 lb.

It has generally been believed that this famous inland sea is decreasing in size, but the reverse is the case. Some twenty years ago there was a small island about half a mile from the north shore. This has now entirely disappeared, whilst on the west, east, and south shores evidences of the encroachment of the waters upon the land were noticeable in the presence of partially submerged forests of large trees still standing in the death-dealing waters.

RECORD IN TRANSPORTATION

Railway shippers and especially shippers of live stock will be interested in the record made by the Soo in transporting a shipment of horses from St. Paul to Vancouver recently. The shipment which consisted of one hundred and fifty thoroughbred horses was made from Lexington Kentucky, by Irving H. Wheatcroft, a retired United States Railway man and the owner of several large stock farms. In shipping his stock, the only stipulation of importance made by Mr. Wheatcroft was that the horses should be delivered in good condition at Vancouver in not more than six days after they had left St. Paul.

In forwarding the shipment, the railway not only made delivery at Vancouver within six days but cut the time down to under four days,—three days and twenty-one hours to be exact. The special train containing the horses left Minneapolis at 10.15 A.M. one morning. The following day, at 6.30 P.M. it reached Portal and it left Portal the same night at 8.05 o'clock. The trip from Portal was made in sixty-two hours, Vancouver being reached four days after. This is remarkably good time and on the arrival of the horses at Vancouver Mr Wheatcroft complimented the Canadian Railway officials on the high standard of their freight service.

The horses were eventually shipped to Australia on the steamship "Kish".

THE OLDEST NATION

China is the Oldest Live Nation with the Most Homogeneous People.

The age of China is, says a writer, so great that the beginnings are lost in the mists of antiquity. It was probably old when Egypt was young. China was China when Abraham went out from Ur of the Chaldees and became the founder of a new nation. Beyond all questions, China is the oldest living nation, and most homogeneous.

The sages, rather than the kings, have shaped China. The teachings of Confucius, who lived in the sixth century before Christ, expounded a moral philosophy and a scheme of human government which, roughly speaking, made China. His "five relations" have fixed the social order; these are the relations of ruler and his officials, husband and wife, father and son, elder and younger brother, and friend and friend. These account for the formalism and fidelity of social ties in China, and for the complete subordination of the individual. Filial piety is the cardinal virtue. The Emperor, who is the "Son of Heaven," is an absolute autocrat, because the people stand toward him in the relation of children to parent. The system of government is thoroughly patriarchal. Through all storms and stress, this doctrine has held the literati loyal to the throne, and has furnished, down to recent days, sublime instances of devotion. Confucius is the Atlas who has borne the "Middle Kingdom" upon his shoulders. And Confucius kept his own face, and the faces of his people, turned toward the past. The colossal conservatism of China is directly traceable to the sage's teaching concerning the "good old days" and the rights of the dead.

PROGRESS IN THE WEST

A piece of railway construction that is almost unique is now under way on the British Columbia Division of the Canadian Northern Railway. It is a three mile stretch between Spuzzum's Bridge and Welhachin located at a point about an equal distance from the towns of Lytten and Ashcroft and in that strip of right of way four tunnels are to be built. One will be fifteen hundred feet in length, another a thousand feet and the two others five hundred feet each.

Recently six hundred men were employed there but this number will probably be doubled in the immediate future. Owing to the anxiety of the Canadian Northern to complete the entire section of their line from Edmonton to Vancouver it is probable that construction work will be proceeded with during the winter. This, however, should prove in so sense a hardship because of the mellow climate of the coast province and of the fact that this underground cutting will place the men employed beyond the interference of conditions obtaining outside.

In addition to this section of heavy rock work there are two other tunnels to be built in this mountain district that are even of greater size. One of these, which is located near the town of Yale is to be almost half a mile long, or to be exact 2,070 feet. The other bore is to be made in the Black Canyon close to the town of Ashcroft.

IMPERIAL WIRELESS POST

An early announcement may be expected that negotiations have been concluded between the British Post Office and Marconi Company for the erection of a chain of wireless telegraph stations around the world, linking up the British dominions, and giving Great Britain an independent system of telegraphic communication with any part of the globe. Connection with the Western Hemisphere will be affected by means of a station already existing at Glace Bay, and it is proposed to establish another station at Montreal to communicate direct with the West Indies, where all the Islands will be connected by short-distance stations. From Glace Bay it will be possible to communicate direct with Vancouver, where a large power station is to be established which will provide direct communication with Hong Kong.

The Sea Not Blue

The poets are always singing of "the sea, the sea, the deep, blue sea," but as a matter of fact the sea is not always blue. Off the coast of California some time ago the waters turned black without any known reason, and in the Red Sea the water has a dull red tint, caused by millions of small seaweeds and subaquatic plants. The Yellow Sea of China owes its colour to the floods of muddy water the great river pours into it. The Mediterranean is true blue because very few large fresh-water rivers enter it, and being practically landlocked and exposed to powerful sunlight it has the greatest evaporation of all seas.

One of the Wrong Methods

A little girl from the East End of London (Eng.) was invited to a garden party given by a very aristocratic lady to a group of little slum children.

The little girl, as she drank her tea and ate her plum cake on a velvet lawn under a blooming cherry tree, said to her hostess—

"Does your husband drink?"

"Why—er—so, not to excess," was the astonished reply.

"How much does he make?"

"He doesn't work," said the lady. "He is a capitalist."

"You keep out of debt, I hope?"

"Of course, child. What on earth—"

"Your colour looks natural — I trust you don't paint?"

"Look here," exclaimed the hostess, "what do you mean by all these impudent questions?"

"Impudent?" said the little girl. "Why ma'am, mother told me to be sure and behave like a lady, and when ladies call at our room they always question mother like that."

IN THE SCIENTIFIC WORLD

SOME FLY FALLACIES

Flies Don't Grow in Size and it is not the Case that the House Specimen Bites.

It is quite a common belief that flies grow in size, and that the small flies one comes across in the house are but the young of the larger house-flies, but this is quite a misconception. The difference one notices in flies of very similar appearance is due to their belonging to a different species. The feet of flies are wonderfully adapted to their habits, for they are equally useful for moving in any position over either rough or smooth surfaces. When walking over a rough surface there are two claws which come into play and enable them to grip tightly, but when the foot falls on to a smooth surface the claws are automatically withdrawn, and, a pad comes into contact with the smooth plane. This pad is provided with minute glands, which cause the air to be expelled from between the pads, the surface to which the feet cling. Bristles are also provided in the feet, and these probably contain the nerves which enable the insect to feel its way along and select its foot-hold. Another popular fallacy with regard to the house-fly is that at certain seasons of the year it bites, but this is due to confusion with another species, very similar in appearance, the stable-fly, which possesses the piercing mouth-parts that are so modified in our common house-fly that it makes biting or rather piercing, an impossibility.

SPONGE CULTIVATION

Sponges are becoming scarcer and scarcer, the higher qualities fetching extraordinary prices, as compared with those of a few years ago, and this condition has led to the suggestion that some artificial substitute for the sponge be devised, or that sponge cultivation take on a new and better phase.

Experiments in the Mediterranean show that the cultivation of sponges may be undertaken with excellent prospects of success off the French coast,and that such cultivation need not, as it was first feared, be confined to the Tunisian shores.

Sponges from the opposite shores of the Mediterranean have already been carried to France and planted on its coasts. It is expected that the sponge industry will be greatly strengthened by these methods.

Fragments of sponge transported to another locality heal in about three months, when they again begin to grow. Irregular bits soon become spherical and rapidly increase in size, adding twenty-five times their own value in the course of four or five years. The growth is, of course, slow, especially during the first year, mainly because of the necessity for healing the wound caused by the tearing off of the fragment from the main body for transplanting.

The character of the spongy tissue is altered by cultivation, that dark tint becoming much clearer. It has not as yet been ascertained whether there is sufficient change in this respect to alter the commercial value of the product.

THE EARTH'S AGE

One of the most interesting results of Professor G. F. Becker's summing up of recent investigations as to the age of the earth is the general agreement in the figures arrived at by different methods. "These," as Professor Becker says, "seem to be mutually confirmatory, and to give results which converge towards some value near 60,000,000 or perhaps 65,000,000 years." And these figures approach more nearly to the time allowed by Lord Kelvin from physical consideration than to the practically unlimited period demanded by some evolutionists. One of the methods of estimating the age of the earth is by dividing the amount of salt in the ocean by that yearly carried in by the rivers of the globe. And Professor Becker draws attention to the remarkable fact that 200 years ago the famous astronomer Halley suggested a way of determining the age of the earth from the saltness of the ocean. "If," he said, "we determine the quantity of salt in the sea, and then some centuries after make a second determination, we may by the rule of proportion take an estimate of the whole time wherein the water would acquire the degree of saltness we at present find in it."

To Hear the Fly Tramp

The inferiority of the human sense organs to the instruments of science is pointed out by Dr. Carl Snyder. He says that whereas the human eye can see but little more than 3,000 stars in the heavens on the clearest of nights, the photographic plate and the telescope can discover countless millions. It is difficult for the eye to distinguish divisions of the inch if they are smaller than 1-200 of that unit of measure, yet a powerful microscope will make an object 1-10,000 of an inch in diameter look comparaitvely large. It would be a delicate ear which could hear the tramp of a fly, yet the microphone magnifies this sound until it sounds like the tramp of cavalry. The most sensitive skin cannot detect a change in temperature less than 1-5 of a degree, but the bolometer will register on a scale an increase or decrease of temperature of 1-1,000,000 of a degree, and can easily note the difference in temperature caused in a room when a match is lighted one mile away.

Wax from Weeds.

The discovery of a process for extracting wax from the candelilla weed has created a new and important industry in Mexico and Texas. The candelilla weed is a desert plant which grows abundantly upon many millions of acres of semi-arid land in Northern Mexico. The candelilla contains wax to the amount of 3 1-2 to 4 per cent., and the cost of producing a ton of the wax is $75.

Do You Care for Your Hair?

Of course you do—every man and woman does. That's why no one likes to lose his hair.

One of the greatest enemies of the hair is Dandruff.

Dandruff is not merely an unsightly nuisance, its a real menace. It indicates a diseased scalp. And still people say, "I can't see why my hair comes out."

Hirsutone : :

gets at the root of the trouble by overcoming the Dandruff.

We do not claim that this will restore hair in cases of complete baldness but it will keep you from losing what hair you have.

Jeunie Lock	70	100	69
Elisha Monford	70	100	69
Mary Pease	70	91	73
Mona Woolsey	65	100	70
Elva Fleming	65	92	73
Donovan Woolsey	60	100	70
Netta Monford	60	100	70
Elmer Rice	70	100	60
Mabel Duggan	75	74	81
Stanley Duggan	60	100	68
Will Lansdowne	70	86	70
Evelyn Sproule	65	90	72

The Rutland Literary Society held its final its meeting of the season Friday evening last, a fairly large attendance being present. An interesting address was given by the Rev. D. J. Welsh, of Kelowna, on the subject of "Masters of the situation." The address was full of wise counsel and help to the young on the value of patience and perseverance in overcoming obstacles and mastering difficult situations. Examples were taken from the lives of some of the world's greatest men, who had achieved success after surmounting apparently overwhelming difficulties. In addition to the address there were a number of musical selections by Mrs. Gray, Misses Gladys Bird and Alda McDonald, songs by Mr. Gay, and a "coal-oil tin" obligato by Mr. Wigglesworth. Before closing, the president, Mr. Warden, referred to the success which had attended the meetings of the society, but while acknowledging with gratitude the valuable help which had been given by outside speakers, expressed the hope that in future sessions more might be done in developing talent amongst their own members. The proceedings were closed by the singing of "Auld Lang Syne."

Children are much more likely to contract the contagious diseases when they have colds. Whooping cough, diphtheria, scarlet fever and consumption are diseases that are often contracted when the child has a cold. That is why all medical authorities say beware of colds. For the quick cure of colds you will find nothing better than Chamberlain's Cough Remedy. It can always be depended upon and is pleasant and safe to take. For sale by all dealers.

Notice to Telephone Subscribers

The Okanagan Telephone Co., Ltd., desires to inform its subscribers that no change will be made in the present rental rates until such time as improvements to the system and service warrant it. The demand of the company's late manager for increased rates at the present time was unauthorised by the Board of Directors and was immediately stopped as soon as it came to their knowledge.

The Company wish to state that it is their intention to give the city and district a system and a service which is both modern and up-to-date, and which will be in keeping with its growing needs. The same regular rates, which are authorised by the government, and which rule in all other cities in British Columbia equipped with a similar system and service, will apply to the City of Kelowna.

The Board of Directors much regretted to learn that there had been incivility and discourtesy on the part of it's late manager towards the Company's subscribers in the lake towns, and they have taken effectual steps to prevent any recurrence.

By Order of the Board,
J. A. RENNIE,
Secretary.

City of Kelowna

ASSESSOR WANTED

Applications for the position of City Assessor for the year 1912 will be received by the undersigned up to 5 p.m. on Saturday, March 23rd, 1912. References and testimonials must accompany all applications.

G. H. DUNN,
City Clerk.

Kelowna, B.C., March 6th, 1912. 15-17

Wilson Landing and West Side Notes

(From our own correspondent)

Our residents must be loyal supporters of the Homesteads for Women question, judging by their readiness in signing the petition which is now almost filled.

Miss Reid was the recipient of a leap year surprise party at her home on Thursday, February 29th., much amusement being created by ensuing proposals ; and with music and cards a very enjoyable time being spent.

Evidences of spring are to be noticed—logging nearing completion—the orchards being reported in good condition. Pruning and spraying is becoming general. Song birds are coming on. Mr. Goodacre gathered the first snowdrops Sunday morning last.

Amongst our visitors we are pleased to see Mr. A. Burrows-Rawkins, of Harlington, Middlesex, England. Being a fruit grower of considerable experience he is able to compare conditions and prospects (we hope, favorably with us) with his ranch life in the old country.

East Kelowna News

(From our own correspondent.)

There was skating all last week on the K. L. O. pond.

Mrs. E. C. Paynter sailed from the old country on Friday, March 1.

Debating Society's First Concert

Without being guilty of boasting, the East Kelowna Debating Society may claim that it's first attempt at a public entertainment, held on Friday, March 1st, was an unqualified success. In the unavoidable absence of the president, Mr. George Allen proved himself a most efficient and genial chairman.

The concert commenced at 8.30 with a pianoforte solo by Mrs. Dunn, followed by a reading of "The Pied Piper of Hamelin," by Mr. Wallace ; a sketch, "An Afternoon at Rome," by Mr. Shaw ; a musical monologue, by Captain Ridley, entitled "The Game of Life ;" a song by Mr. Leggatt ; a dialogue from "The Yeoman of the Guard" by Messrs. Shaw and Gillespie ; another pianoforte solo by Mrs. Dunn ; a comic song by Mr. J. T. Pearce ; a musical monologue, by Captain Ridley ; a song by Mr. Shaw, and a song by Mr. Leggatt.

Refreshments were then dispensed, after which dancing was begun. The music for the dances was supplied in turn by Miss Martin, Miss Hoy and Mr. Leggatt at the piano, Mrs. McGibbon on the melodeon, Mr. Geo. Allen on the violin, and Mr. Chas. Lodge on the gramophone. The sword dance by Mr. McGibbon and the highland dancing by Mr. and Miss McGibbon were especially appreciated. At 2 a.m., the singing of "Auld Lang Syne" brought a very pleasant evening to a close.

Besides the above-mentioned names the best thanks of the society are due to Mrs. Teague for the decorations of the schoolroom, Mrs. Wallace and Mrs. Shaw for the refreshments, Mr. Geo. Allen for the loan of the piano, and Messrs. Newbold and Anderson for bringing it to and from the schoolhouse.

There were over 80 present.

The management of Dreamland promise an exceptionally fine programme on Friday and Saturday. "A Home Melody" is a beautiful heart stirring drama with the very essence of pathos. "Pathe Weekly" showing recent events of interest. "The Early Settlers" is a thrilling western drama, and for those who dearly love a good honest hearty laugh "The Anarchist Grip" and "Dream Pills" will surely get you.

You can say goodbye to constipation with a clear conscience if you use Chamberlain's Tablets. Many have been permanently cured by their use. For sale by all dealers.

NOTICE TO GROWERS

The Kelowna Canning Company, Ltd., beg to give notice that they are now open to enter into contracts with farmers for the season of 1912 for the following products —Tomatoes, Beans, Corn and Pumpkins.

Our seedsmen ship to us on February 1st a consignment of the best varieties of seed which will be distributed amongst the farmers at cost price,

Not only this but these as well

DON'T think that concrete can be used only for building bridges, silos, walls and walks; because if you do, you will probably overlook all the places where you can use it *now*.

T. L. Irving, of North Georgetown, Quebec, used concrete for 81 different purposes on his farm in 1911.

There are probably at least a dozen *profitable* uses for concrete on your farm at the present moment.

Perhaps you haven't thought of Concrete, except for a new barn, or a silo, or some other *big* improvement for which you aren't quite ready yet. That's why you should read

"What The Farmer Can Do With Concrete"

It will open your eyes to the hundreds of uses that other *farmers* have found for this material. In plain language, and with the aid of many photographs, it explains just what these uses are, and how they can be applied to your farm.

Concrete can not only be used for all the purposes to which wood has been applied, but also many others for which wood would never be suitable.

It is not only a building material; it's a "handy" material, something that you'll grow to depend upon more and more, as you learn its possibilities.

So write for this book. You'll find it isn't a catalogue, nor an argument for you to buy our cement. Every one of its 160 pages is devoted to telling you what farmers have done and can do with concrete.

IT'S FREE FOR THE ASKING.

Your name on a postal, or in a letter, will bring the book to you by return mail. Or use the coupon. Address

Danced Into Lake

An incident which afforded considerable amusement, occurred Monday afternoon as the boat left. According to an eye witness it appears that a "puir wee laddie," who had indulged to a marked extent in the cup which cheers but also inebriates, had gone to wave a parting farewell to some chums. In doing so he overbalanced and fell into the lake, which appeared to have a distinct sobering effect. The "Okanagan" put back and a line thrown to him, after which he was landed on the wharf sadder, but much wiser, for the experience.

FOR SALE
Small Safe, suitable for doctor or small office. Practically new. Apply P.O. Box 209. 15

EGGS FOR HATCHING
From pedigreed utility, s.-c. White Orpington birds. Great laying strain. $1.50 per setting of 15. W. J. Shain, Orchard City Poultry Ranch, Kelowna, B.C. 15-16

WATER NOTICE

I, John Casorso of Kelowna, B. C., by occupation a Farmer, give notice that I intend, on the twentieth (20) day of March next, at eleven o'clock in the forenoon, to apply to the Water Commissioner at his office at Fairview for a license to take and use two cubic feet of water per second from Summit lake near the 13th mile post of lot 2711, Similkameen, to be diverted at a near suitable point about 150 yards above what is known as Crawford's upper falls on Sawmill creek. The water will be used on the North ½ of section 5, township 26, Osoyoos, for irrigation purposes. I intend to apply at the same time for permission to store 250 acre feet of said water in a reservoir at said Summit lake.

JOHN CASORSO,
Joseph Casorso, Agent.

Dated this 14th day of February, 1912.
12-16

WATER NOTICE.

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a licence in the Osoyoos Division of Yale District.

a. Applicant: Cornelius Martin, rancher, Kelowna, B.C.

b. Name of lake, stream or source: A spring, situated in Dist. Lot 140, about 10 rods west of F. E. R. Wollaston's house.

c. The point of diversion: At the spring.

d. Quantity of water applied for: One-half cubit foot per second.

e. Character of proposed works: Ditch and pipe to the lands of the applicant.

f. Premises on which water is to be used: Part of District Lot 141, group one.

g. Purpose for use of water: Irrigation.

h. Describe land to be irrigated: That part of Lot 141, Group One, lying south of the public highway leading from Kelowna to Vernon—22 acres, more or less.

j. Crown land to be occupied by said works: None.

k. This notice was posted on the 15th day of February, 1912, and application will be made to the Commissioner on the 25th day of March, 1912.

l. Riparian proprietors or licensees who or whose lands may be affected by said works, either above or below the outlet: Messrs. F. E. R. Wollaston, W. Barlee, R. E. Harriss.

CORNELIUS MARTIN, Kelowna.

WATER NOTICE

I, Rosa Casorso, of Kelowna B. C., by occupation a farmer give notice that I intend on the twentieth (20) day of March next, at eleven o'clock in the forenoon to apply to the Water Commissioner at his office at Fairview, for a license to take and use one cubic foot of water per second from Summit lake near the 13th mile post of lot 2711 Similkameen, to be diverted at a near suitable point about 150 yards above what is known as Crawford's upper falls on Sawmill creek. The water will be used on the South East ¼ of Section 5, township 26 Osoyoos, for irrigation purposes. I intend to apply at the same time for permission to store 125 acre feet of the said water in a reservoir at said Summit lake.

ROSA CASORSO,
Joseph Casorso, Agent.

Dated this 14th day of February, 1912.
