Man Awaiting Trial Suicides at Penticton

Was Charged With Complicity in Recent Shooting Affair

The final chapter of the Penticton anonymous letter writing episode came Tuesday when Elgin C. Myers, formerly secretary of the Kettle Valley Railway Company shot himself in his room above the C.P.R. depot. Myers had faced a preliminary trial some weeks ago on a charge of firing into the Aquatic Club building one night when citizens were bidding farewell to members of the R.M.C., leaving for camp at Victoria with the second contingent. Two men were wounded by the bullets. It was alleged that Myers had shot at his roommate J. H. McCoy, formerly manager of the Bank of Hamilton and a member of the contingent. For some months anonymous letters reflecting on the character of McCoy had been sent to prominent residents, and placards were posted up throughout the district. Suspicion pointed to Myers as being the person responsible. At the preliminary trial on the shooting charge he was bound over for trial, and was to come up at Vernon on January 13. The young man took his life about 6 o'clock Tuesday by firing a bullet through his heart from a rifle. He was found lying on his bed by friends five hours later.

Recall English Interpreters from France

There are no more British interpreters with the Allied forces in France. All of the big assemblage of British linguists who were assigned to accompany the units of Britain's expeditionary force for the purpose of parlaying with French and Flemish peasants and interviewing German prisoners of war have either been recalled or assigned to other duties. Their places have been taken by French interpreters. The reason for this step is that the French interpreters are privates or non-commissioned officers and draw pay corresponding to their rank, whereas the British all had commissions and received officers' salaries. This is a move in the direction of economy; but what is more important is that it provides the war office with a large number of well educated youths, who, through their experiences on the firing line, have gained a certain amount of military training and can be turned into real officers for Kitchener's army with very little training.

A lawsuit in which the claim reaches the huge figure of \$500,000 is being heard in the Supreme Court, Messrs. J. Mollwee & Sons, railway contractors of Denver, Colorado, as plaintiffs suing Messrs. Foley Bros., and Messrs. Foley, Welch & Stewart. The action arises out of the boring of the five-mile tunnel under Mount McLeod at Rogers Pass in the Selkirk mountains, for which the defendants are contractors in chief and the plaintiffs were sub-contractors. Some disagreement between the parties led to the sub-contractors having their contract cancelled after they had been at work on the pioneer tunnel for four or five months.

Many would be glad, says a correspondent to see Miss Porte elected on the school board. She is well known in our city for her intelligent sympathy and travelled experience, and is well fitted to strengthen the links between home and school which are so valuable in school life. A woman school trustee is no new thing in the west. Both Victoria and Vancouver, and also Calgary and Kamloops, and recently Winnipeg have elected such representatives. Miss Porte is to be nominated by Mr. R. B. Kerr and Mr. H. H. Millie.

Council Reaches End of Term of Office

Grant Made to Fire Brigade-- C.P.R. to Build a Lighthouse--

The council met last Thursday morning for a brief session the principal business being the winding up of affairs for the old year, and the passing of the resolutions necessary to the election of the new council.

The auditor's report and financial statement for the year was received and adopted.

Alderman Sutherland informed the council that heretofore the council had made a small grant to the Kelowna Fire Brigade after large fires, but recently, owing to funds being so scarce, they had been unable to make such grants. He suggested that although the council was not in a position to pass a grant of an amount sufficient to recompense the brigade for their valuable services during the past year, they should make a small donation as evidence of the council's appreciation of their services.

Alderman Rattenbury said that he as chairman of the Fire Protection committee was in sympathy with Ald. Sutherland's remarks and would be pleased to support a resolution to that effect.

Accordingly on the motion of Alderman, seconded by Alderman Taylor a grant of \$100 was made to the Fire Brigade in appreciation of the excellent service furnished during 1914.

Alderman Adams reported that he had taken up with the power house engineer the complaint of the brigade regarding the weakness of the sound of the fire siren on several occasions lately. The engineer had given as his opinion that the trouble had been due to atmospheric conditions as the siren was in perfect condition.

Alderman Sutherland reported that the C.P.R., had under consideration the construction of a light house on Manhattan Beach and would like to know the rate of the city's electricity for that purpose. The council decided to give them the power rate for electricity used in connection therewith.

Referring to the relief work which had been started by the city, the Mayor stated that if this work was to be continued to the end of February it would be essential that a loan of \$1000 be raised by some means. Several persons had been approached in reference to such a loan, and one person had offered to lend \$1000 to the city for eight months with interest at the rate of 10 per cent. per annum.

After giving the matter due consideration the council decided that it would be advisable to consult the city solicitor as to the best method of negotiating a loan, and also to endeavor to obtain funds at a lower rate of interest.

Mr. A. Bornais renewed his application for assistance to construct a retaining wall along the bank of the creek where his property was threatened by the action of the water. He suggested that in the event of the council being unable to assist him in any other way, exemption of his property from taxation for five years would be acceptable to him. He also requested that the council open the lane at the rear of his lot as at present it was necessary for him to drive over private property in order to deliver materials for the building of his house.

His Worship replied that the council had decided to take no action in reference to the retaining wall, but Mr. Bornais was at liberty to renew his application before the new council. As to opening the lane the only work the council could undertake at present was to lay a plank crossing over the sidewalk at the E.H. avenue entrance to the lane, and the Board of Works was instructed to see to this.

Resolutions were passed fixing the time for re-nomination of Mayor, Aldermen and School Trustees for Monday, January 11th from 12 o'clock noon to 2 p.m., in the council chamber, and polling if necessary for Thursday, January 14th, between 9 a.m., and 7 p.m.

The correspondence included a letter from the secretary of the British Columbia Active Service Emergency Fund suggesting that the Mayor form a branch of the fund in Kelowna. The clerk was instructed to reply that owing to the city having to provide a large amount of relief work they would be unable to comply with the suggestion.

New Law Covering Weights of Vegetables

Standard Weights Fixed for Bushel and Bag Measures

Beginning with January 1915, according to new Dominion laws, a sack, bag or package of flour meal, rolled oats, rolled wheat, or feed must have the weight of the contents marked distinctly upon it. Uniform weights have also been established for the whole of Canada for the "bushel" and for the "bag" of vegetables of various kinds. These new regulations which are of great interest to all agricultural communities are contained in an amendment to the Inspection and Sale Act, which was passed at the last session of parliament and came into force on January 1st.

In section 337 of the amended act, the weight of the bushel measure is laid down as follows:

	bushel
Artichokes	55
Beans	60
Beets	50
Carrots	50
Onions	50
Parsnips	45
Potatoes	60
Turnips	50

The weight of the standard bag is in each case:

	lbs. per bag
Artichokes	84
Beets	75
Carrots	75
Onions	75
Parsnips	65
Potatoes	90
Turnips	75

The penalty for selling or offering for sale such vegetables in bags not conforming to the above standard will be liable to a fine of \$25 for the first offence and \$50 for each subsequent offence.

In the above tables only those vegetables affecting B. C. are given, but copies of the Act may be obtained from T. C. O'Hara, deputy minister of Trade and Commerce, Ottawa.

Opium Den Keeper Fined

Leong Coy, a Chinaman of Leon avenue was tried before Magistrate Weddell this morning on charge of keeping an opium joint. On Tuesday afternoon, the police, acting under suspicion, raided the place, and though not finding any victims actually engaged in smoking discovered pipes, opium, ashes, scales and other paraphernalia, connected with the practice. Mr. J. F. Burns prosecuted, while Coy was defended by Mr. E. C. Weddell. He was fined \$100 or six months. The fine was paid under protest by Coy's legal adviser who gave notice that he would appeal against the decision.

Mine Explosion at Fernie

A bad mine explosion, but in which only one life was lost occurred at Fernie Saturday in the Coal Creek mines. Just after the men had gone off shift and before the new shift had come to work a roar was heard and the ground seemed to lift over the workings. Following the explosion, Mine Inspector Evans, equipped with rescue apparatus, entered the mine, seeking anyone who might be there. He was overpowered by gases and died the following day. Several hundred men narrowly escaped death in the underground workings of the mine from the mere fact of changing shifts.

Sir Donald Man, in Ottawa on business connected with the militia department, made the definite statement that the Canadian Northern would not apply to Parliament this year for additional aid. The only C.N.R. legislation would be a few bills to extend the time for the construction of the branch lines in the west, including British Columbia, the construction of which must be deferred until after the war. Sir Donald intimated that the Canadian Northern proposes to go to the New York money market for funds.

A remarkable telegram from Overholt, in Belgium, states that all young Belgians available for 1915 and 1916 levies have been ordered by the Germans to present themselves at the town hall for enrollment in the German army. Commenting on this the Amsterdam Telegram says it has received the telegram from a reliable source, but as forced enrollment of Belgians in the German army is absolutely against precedent it publishes the statement with all reserve.

So many presents for the soldiers at the front are being received that the transportation department of the French army is virtually overwhelmed for the time being. On Tuesday last a large party of friends, some coming from far distant South Okanagan Mission, invaded the peaceful homestead of our respected neighbor, Mr. Hereron and spent the evening in the good old fashioned style. After passing the evening in song, story and dancing, the merry-makers accorded their genial host a hearty vote of thanks along with the best compliments of the season and wished their way homeward under the bright moonlight, just in time to commence their next day's labors.

The bride who was dressed in pale pink silk and carryin' carnations, was attended by her sister, Mrs. C. Fowler. Mr. F. Pedlar acted as best man. At the conclusion of the ceremony, which was performed by the Rev. J. C. Switzer the guests were entertained to luncheon, the tables being tastefully decorated with carnations. The happy couple will reside in Kelowna.

Probable Price of Peace

One of the greatest military authorities in England, and a member of the Privy Council, has contributed to the Century Magazine a forecast of what the Allies will demand as the price of peace. Since it is in line with all other forecasts that we have read it is interesting as showing that in the British Empire at least there is practical unanimity as to the terms that will be offered. The item that has provoked most discussion, and that is in most doubt, is the fate of the Kaiser. There is a universal belief that he is chiefly responsible for the war, and probably the German people know better than anyone else who rules their country. In victory the greatest honors would be accorded the Kaiser. In defeat the deepest disgrace will be his. The writer of the Century article says that the German Royal family will be looked upon after the war as was the family of Napoleon III, when the French nation was overwhelmed by the military disasters of 1870. Should the Kaiser survive all vicissitudes the probability seems that he and his family will be exiled from Germany.

But before the terms of peace are agreed upon, it is believed that Germany's internal political conditions are likely to exert a pressure hardly less strong than the military pressure

NO ALUM

of her enemies. This is likely to take one of two forms. Either there will be a Socialist movement in favor of founding a German republic, a movement that would likely be resisted by the present ruling classes with all their remaining strength, or there will be a movement to resolve the German confederacy into its original parts, some of which may continue as monarchies, and some resolving themselves into republics. Probably the victorious Allies would have something to say on this point, having regard to their future safety, and would insist upon the present empire undergoing the change that promises most for the peace of the world. Whatever change is made the most that the Kaiser could hope for, should he escape banishment, would be the title of King of Prussia. It is impossible to conceive him in the role of President of Germany.

Britain Does Not Want Colonies

That Alsace and Lorraine will be restored to France is taken for granted, and that France also will want returned with interest the \$1,000,000,000 that was exacted of her in 1917 may also be assumed. The indemnity will be a huge one, but the Privy Councillor does not think it will be as large as the Allies might wish, for the simple reason that none of them will want to bankrupt Germany. In fact, she must be left solvent in order that their own trade will not suffer, and in order that their own security may be maintained, which is an argument used by Mr. Norman Angell. Germany's colonial empire will also pass away but the writer says that Britain has enough colonies and should content herself with Togoland, leaving Russia and France to divide up the others. He neglects to say, however, that a strip of German East

Africa is very necessary to Great Britain if the Cape-to-Cairo railroad is to be an "all-red" line.

What Belgium Will Receive

Denmark is likely to expect the return of her lost province of Schleswig-Holstein as a reward for her neutrality. Serbia will get Bosnia and Herzegovina, and Italy will also help herself to the Irredenta, which formed part of the old Venetian Empire, and was filched by the Hapsburgs. What will be done for the greatest sufferer of all, heroic little Belgium? There can be no doubt that Belgium can have anything she asks for; but probably she will content herself with a money indemnity. Territory is of little use to her, and, besides, the world now understands pretty well the utter folly of handing over to Belgium, for instance a territory inhabited and owned by individual Germans. Europe is not likely to make again the great mistake that Germany made when she took Alsace Lorraine to be a thorn in her flesh.

Disarming Germany

Turkey will be bundled bag and baggage out of Europe, and probably

Russia will be able to file the strongest claims upon Constantinople; or it might be that the remaining Turkish empire in Europe would be attached to some Balkan state in sympathy with Russia, so that if she did not actually get Constantinople she would be the commanding influence there. Roumania whether she remains neutral or enters the war with the Allies, is certain to be enriched at the expense of Austria when the day of reckoning comes. Should she draw the sword against Austria she will also receive a former Roumanian province from Russia. The writer believes that the Allies will not be satisfied with merely changing the map of Europe. They will demand hostages for Germany's future good conduct. They will insist that the German army be greatly reduced, and that if any ships survive they also shall be cut down so that never again can they threaten British interests. Austria, too, will have to scale down her army so that only enough remains to defend her against Slav aggression. The victorious Allies, finally, will come to some understanding among themselves to limit armament so that some of the private sums that now go for military purposes may be diverted into channels of social reform.

Coal mining rights of the Dominion in Manitoba, Saskatchewan and Alberta, the Yukon Territory, the Northwest Territories, and in a portion of the Province of British Columbia, may be leased for a term of twenty-one years at an annual rental of \$1 an acre. Not more than 2,500 acres will be leased to one applicant.

Applications for the lease must be made by the applicant in person to the Agent or Sub-Agent of the district in which the rights applied for are situated. In surveyed territory the land must be described by sections, or legal subdivisions of sections, and in unsurveyed territory the tract applied for shall be staked out by the applicant himself.

Each application must be accompanied by a fee of \$5 which will be refunded if the rights applied for are not available, but not otherwise. A royalty shall be paid on the merchantable output of the mine at the rate of five cents per ton.

The person operating the mine shall furnish the agent with sworn returns accounting for the full quantity of merchantable coal mined and pay the royalty thereon. If the coal mining rights are not being operated, such returns shall be furnished at least once a year.

The lease will include the coal mining rights only, but the lessee may be permitted to purchase whatever available surface rights may be considered necessary for the working of the mine at the rate of \$10 an acre. For full information application should be made to the secretary of the Department of the Interior, Ottawa, or to the Agent or Sub-Agent of Dominion lands.

A hint that the British government contemplated the introduction of conscription for increasing the army and navy was dropped by Dr. Thomas Macnamara, parliamentary secretary of the admiralty, while speaking at the Browning Settlement recently. Referring to the fact that there were thousands of young men in the United Kingdom without dependents who had not answered the call to the colors, Dr. Macnamara said: "If they think they are going to enjoy a life of freedom at the other fellow's expense they won't enjoy it much longer."

In the case of the calling of Austria's last reserves, medical examinations appear to have been dispensed with and every man is considered fit for service although he may be suffering from heart or kidney disease or even have weak lungs. Highly significant is the following passage from army orders from the Austrian monarchy calling out the landsturm: "Furthermore, when those recognized as fit for military service actually join the ranks, they must bring with them a bowl from which to eat their food, and a knife, fork and a spoon, stout, well-fitting, comfortable boots, warm clothing for winter equipment, and if possible a blanket." This looks as if the Austrian war office was no longer in a position to afford to equip the soldiers adequately and therefore throws upon them the duty of equipping themselves.

A telegram received by Reuter's from Pretoria says: "It is officially announced that the government intends to commandeer men for service in German Southwest Africa and in the Union of South Africa, as the union cannot be defended by depending on the volunteer recruits. As a reason for this action it is pointed out that Lieut.-Col. Maritz who escaped to German Southwest Africa with a few hundred rebels, is now attempting to return with German reinforcements, armed with field guns and rifles, to stir up the rebellion afresh and prosecute it more effectively."

Germany is putting forth Herculean efforts to cause public opinion in the United States with reference to the war, to veer in its favor. Numerous lecturers specially chosen from the German universities are understood to be touring the United States delivering lectures for the purpose of influencing public opinion. Numerous periodicals in the form of daily or weekly publications are being scattered broadcast throughout the land plying the public with specious articles adroitly presenting information and arguments designed to gain favor for the German cause.

The blowing up of the battleship Mesudieh by a British submarine made a great impression in Constantinople, as it was considered that the Dardanelles were inaccessible. On account of this fact the commanders of the forts and of a torpedo-boat destroyer have been held responsible. On the third day after the disaster a special court martial, presided over by high Turkish and German officers was held to try twenty Turks and ten Germans. Three were condemned to death, it being held that they had shown neglect. Less severe sentences were passed on seventeen others among them some Germans.

A German airman paid a visit to Dunkirk during Christmas week but he dropped a bomb, only peaceful Christmas greetings. The hazardous trip from the German lines was undertaken at the request of a Prussian colonel, who wanted to know where his son, killed at Soissons, was buried, and the parcel of letters and cards which the aviator dropped into the principal square of the city contained a letter asking for this information, together with letters from several French airmen, prisoners in the hands of the Germans. The cards were signed by the aviator himself and bore the conventional greetings of the season, together with a message that he had been led to undertake the mission by his admiration for the gallantry of the captured French airmen.

BETTER LIGHT
At LESS EXPENSE from COAL OIL (Kerosene)

THIS wonderful new incandescent mantle lamp gives more than ten times as much light as the common coal oil lamp. At the same time it burns less than half as much oil as the old style open flame, center draught lamps. Beats electric, gasoline or acetylene. The

Aladdin Hanging Lamp

is equipped with the adjustable chimney and baffle generator which makes it the most reliable incandescent mantle oil lamp ever made. For evening reading, writing or sewing there is no light that can compare with the powerful, steady white light of the Aladdin. Safe, durable and economical, beautiful in design, no noise, no odor. Women and children can operate it. You can't appreciate the great difference between the light of this lamp and the common coal oil lamp 'til you see it. It has all the good qualities of the high priced system but with the advantage of being as simple as the ordinary coal oil lamp.

Let Us Demonstrate it To You

You'll never want to go back to the dingy, reddish, flickering light of your old style lamps. You can have the most cheerful and best lighted home in your neighborhood by getting an Aladdin Mantle Hanging Lamp. There are also other Aladdin styles such as table lamps, bracket lamps, etc.

We are in receipt of the following: Mr. Editor,—Your lady friends notice your wrongfully stating last week that "the motion was lost" at the meeting of the Kelowna Debating Society, when the resolution was "That Women should have the vote." Kelowna is not so far behind the times! They would like to forgive you if you will kindly make correction by mentioning the fact that the affirmative won by 26 to 10 votes.—One of them.

Taylor who was passing through from Victoria on his way to the old country, as one of a contingent of 100 picked men who were being sent forward to reinforce the "Princess Pats" who are now sharing the heavy work at the front.

Much amusement was caused among the scholars of the public school Wednesday by a nanny goat, which followed them into school. Though no longer a kid herself, she seemed to be very anxious to be with the other kids, who we hear are revising the old rhyme about Mary who had a little lamb.

There arrived in town last week end a magnificent specimen of the bovine species in the shape of a fine Holstein bull. The animal was one which had been shipped by the Dominion government in pursuance of their policy of improving stock breeding throughout the country. Ten farmers of the Ellison district have undertaken to be responsible for the care of the animal which has been shipped in absolutely free. In two years the government will remove the bull and replace it with a fresh one. Its permanent quarters will be at the ranch of Mr. M. Heron. The advantage to farmers who are endeavoring to work their way into dairy and mixed farming of having a bull of this quality in the district will at once be realized, for it has already carried off considerable honors, including first prizes this year at Westminster and Victoria, and championship of the province.

Bowling
LOCAL BOWLERS PLAY AT VERNON TONIGHT
Owing to the fact that some of the representatives of the Vernon Bowling team found it impossible to make the trip to Kelowna tonight as at first arranged, the Kelowna team will play at Vernon tonight and the return match will be played here on Thursday night of next week, January 14th. Kelowna will be represented by F. O'Neill, J. Rossi, W. Pettigrew, H. Treadgold and F. Purdy.
The boys left this afternoon by car and will play at 8 o'clock. The arrangements for the series will be completed on their arrival in Vernon and will in all probability result in a five-game series being played in each town total pins to count to decide the winners of the series.

On Tuesday night two picked teams played a three-game series at the alleys to see what the team that will represent Kelowna against Vernon tonight could do rolling together. The scores below show that the first team, which will in all probability be the line up against the northerners in tonight's contest gave a good account of themselves, despite the enthusiastic rooting and cheering, as well as good natured roasting heaped upon them throughout the contest by the large crowd of spectators who were present to see the games.
The noise during the first game was at times deafening and while the players, not being used to this, doubtless felt the effect to some extent they rolled fairly steady, and considering it is the first time that this team have rolled together the total of 2497 pins speaks well for them, and no doubt after a few games their total will increase considerably.
Following are the scores of the contests of Tuesday night:

FIRST TEAM			
O'Neil	145	158	165-468
Rossi	146	158	164-468
Pettigrew	137	143	157-437
H. Treadgold	218	153	141-512
Purdy	223	204	185-612
Totals	869	816	812-2497

Strange Cry From a Prison

Out of 1,478 persons confined in the eastern penitentiary of Pennsylvania, 1,008, apparently without any instigation or influence from within or without their prison walls, signed a petition to the Pennsylvania legislature asking for the passage of a state-wide prohibition law. Many of the men volunteered to go before a legislative committee to tell how the saloon had wrecked their lives. Here is an anti-saloon argument overwhelmingly convincing.—Christian Herald.

Do not worry; eat three square meals a day; say your prayers; be courteous to your creditors; keep your digestion good; exercise; go slow and easy. May be there are other things your special case required to make you happy, but my friend, these, I reckon, will give you a good lift.—Lincoln.

Canada's Building at the Panama Exhibition

The Canadian commissioners to the Panama-Pacific International Exhibition have built and fitted the Dominion pavilion with an eye wholly to business. From basement to roof the big \$400,000 structure—the largest foreign building on the grounds—is devoted to exhibits of products and of models and panoramas designed to fill the visitor with the lure of the north. Of ball rooms and club rooms, to which most of the other foreign and state buildings are largely devoted, the Canadian pavilion has none, with the exception of a smoking room for men and a rest room for women.

Explanation of this strictly business policy is found in the fact that the building and its contents are of

government origin, and maintenance, and designed chiefly to promote immigration and commerce.

Covering an area of 450 by 225 feet, the ground floor is divided into a loggia 60 x 40 feet square and the offices of the commissioners. The three courts communicate through numerous square arches, and the whole effect of the interior is that of a vast arcade, with cardinal and gold prominent in the upper decorations and rustic grills, through which transparent panels can be seen depicting Canadian scenes, mostly rural, on all sides. To stand in any of the courts and survey the environment is a pleasurable experience.

Picked out of a newspaper: "The procession at Judge Orton's funeral was very fine and nearly two miles in length, as was the beautiful prayer of the Rev. Dr. Swing of Chicago.
