A. & T. ASSOCIATION HAVE WARM TIME

The meeting called by the above association to finally consider the turning over of the deed of their grounds, to the city, was well attended by members of the association, and some of the leading business men. Mayor DeHart and most of the aldermen were also present.

Mr. D. W. Sutherland, president of the Association, took the chair, and the meeting was opened by the secretary reading over the agreement as passed at the last council meeting by the City Council. In his opening remarks, the chairman stated that the association had been behind financially, and last year were unable to pay some of the prize money. The directors therefore asked the City Council to take over the land, and by submitting a plebiscite, it was found that the ratepayers were in favour of this being done. The by-law was passed to raise the money, and the Council had agreed to the conditions laid before the meeting. Personally, he was not in favour of this agreement, and suggested that the Council grant the association about \$4,000 of the money realized on the debentures, the association to assume the liability and pay the interest and sinking fund, the grounds becoming the city's security. If the proposition was accepted, the association would find themselves with only an old wooden building on the edge of a slough, some distance out of town, with no revenue, and only the use of the ground for one week in the year.

Mayor DeHart, in reply, stated that Mr. Sutherland proposed to change the entire plans of the A. & T. Association as submitted to, and voted on by the people. The A. & T. Association in the first instance came to the city and asked for the land to be taken off their hands and the city had gone to the expense of going into the matter, drawing up and publishing by-laws, and the ratepayers, by a vote of two to one, approved of the deal. The directors had agreed with the council on the terms on which the grounds should be transferred.

Mr. Sutherland, disputed that an agreement had been effected, and such could not be done without a vote of the members of the association.

Mr. Stirling argued on behalf of the association, that he did not think it right that the grounds, worth \$15,000 or \$20,000, should be handed over to the city for practically only the use of the buildings for one week in the year.

Mr. Leckie protested very strongly against the agreement, particularly the last clause, in which the city could not dispose of the land without the association agreeing. In speaking for the ratepayers, Mr. Leckie stated that a number of the people who had voted in favour of it were disappointed at the outcome, and also a number did not understand the deal. A battle of words ensued here between Mayor DeHart and Mr. Sutherland, the mayor maintaining that the agreement as passed by the council had been accepted by the directors of A. & T. Association, to which Mr. Sutherland replied that the acceptance was subject to ratification by the present meeting, as it was a matter for a general meeting to decide.

Continuing his line of argument, Mr. Leckie said that he wanted to see the A. & T. Association continue, but that he thought it wrong for the Association to have an agreement of this kind with the city, when some of the ratepayers would be forced to pay for property that they did not want.

Mr. Sutherland could see no reason why the city should not adopt the proposal he had just submitted. By so doing they would have that extra land to

Ald. Elliott—"Mr. President, a deputation of the association waited on the council last year, asking that they would take over the grounds on certain conditions, if the ratepayers passed a by-law. Now you want to make another proposition altogether that was not thought of. The by-law was put through on certain conditions, and I, for one of the city council, am prepared to stand by it. Why did the A. & T. Association want to have the by-law put to the vote, if they want to draw back now?"

Some disorder prevailed at intervals, a few claiming that the city should have absolute control of the land, and the chairman had once or twice to call the meeting to order. Mr. Stirling, seconded by Mr. Taylor, moved that the Agricultural & Trade Association do not accept the proposition, and suggested that the association could borrow enough on a second mortgage to pay off the mortgage and interest.

Mr. DuMoulin, with considerable indignation, resented the stand taken by the association at the present time. He pointed out that some months ago the association, by resolution, decided that the grounds should be disposed of. He, with some others, were appointed to make arrangements for this, and after spending a lot of time and thought they had come to an agreement with the city, only to be turned down now like a lot of schoolboys.

In supporting him, Mr. Raymer reviewed the situation. A meeting of the A. & T. Association had in the first place gone to the council to ask for their help. The gentlemen appointed by the association had spared no pains in coming to an agreeable understanding with the city, and he did not see why the A. & T. should now go back on the agreement. The question raised during the meeting that the city should not go in for horse-racing, had nothing to do with the matter. The council were only asked to put the track in good repair.

Mr. Taylor—"If the city keep up the course and put the track in repair, the city would be going in for horse-racing."

Ald. Elliott—"You might as well say that the city is going into baseball and lacrosse, because it allowed this in the park."

The muddle that things were getting into was commented on by J. W. Jones, who urged that if it was possible to raise the money by a second mortgage, it would be to the best advantage all round.

Several complaints were heard that no public meeting of the ratepayers had been held in connection with the matter, and that it had just been rushed through, and many were the suggestions to put in order, a meeting that appeared to be getting more and more complicated.

An exciting few minutes ensued when Mr. Dilworth, commenting on the failure of the A. & T. in the past, laid the blame largely on the management. This started Mr. T. G. Speers off, and he roundly rated the members of the A. & T. for not turning out to the meetings and so help the management. Time after time he was there with just one or two, often without a quorum, and he had to go out and get them by telephone. "As to Mr. Dilworth," said Mr. Speers, reaching the climax, "he never appeared at one of the meetings."

Throughout the whole of the proceedings the real object of the meeting was conspicuously ignored, and many times the company were reminded that the subject had been overlooked, and a search for the tangled ends would lead to confusion worse confounded.

An amendment to Mr. Stirling's motion was moved by Mr. McEachren, seconded by Mr. Raymer,

(Continued on page 7.)

REORGANIZATION OF THE BASEBALL TEAM

A meeting was held in Raymer's Hall on Friday last for the purpose of reorganizing the baseball team for the coming season. The chair was taken by Mr. S. M. Moulton, who was captain of the team last year.

Mr. Moulton urged the boys to get together and practice regularly. He was of opinion that it was possible to pick nine good fellows to play for the town, and who, with the co-operation of the business men of Kelowna, would put their life and soul into the game and earn the reputation of playing the fastest ball game in the valley. He was sorry he could not stay with the team, but business called him to the coast. The further development of the team, he thought, would be better placed in the hands of an advisory board. The names of Mayor DeHart, Mr. C. B. Daniel, and Mr. J. Bowes were put forward as suitable people to fill this position, and a resolution was carried that these three be asked to act in this capacity.

Mr. Moulton also strongly urged the team to work for Kelowna, either by utilizing the gate receipts for music or uniforms for the band, or for some other purpose that would benefit the town itself. To do this, he wished to see the business men take an interest in the games, and give their support.

The question of ground was next gone into. Mr. DeHart said that the present plans were to expend \$3,000 for fencing and getting in order a ground suitable for first-class matches, where a gate would be charged and spectators well accommodated. This ground would be used for football, lacrosse, and baseball. He thought the baseball team would be able to have two triangles if it was found necessary.

The question of practice was next discussed, and as a suitable practice ground could not be fixed on that night, it was decided that Mr. Pettigrew and Mr. Josselyn be asked to search for a triangle suitable for this purpose.

Mr. Moulton then asked Mr. Pettigrew to take his place as captain pro tem, until the advisory board elected a permanent captain in his place. He (Mr. Moulton) was sorry he had to leave the team at this interesting juncture, but he wished it to be understood that even though he was away in body his good wishes would always be with the Kelowna Baseball Club.

It was finally proposed by Mr. J. W. Wilks and seconded by Mr. C. B. Daniel that a vote of thanks be given to Mr. Moulton for his services given to the team in his capacity as captain last season, and also for the interest he was taking in the reorganization and formation of a first-class baseball team to represent Kelowna. The resolution was carried amidst hearty applause and the meeting then dispersed until further plans could be made.

MOUNTED RIFLE CORPS.

The question of the formation at Kelowna of a corps of mounted rifles is not being allowed to drop without further efforts on the part of those interested. Mr. Harry Bower who has been conducting the correspondence with the Government with reference to the matter recently wrote to Mr. Burrell, M.P., asking for his influence in aid of the project and has received the reply that although Mr. Burrell was anxious to encourage all such movements, he had had a conversation with Sir Frederick Borden and found that it would be impossible to assist the formation of the corps financially for the present.

Mr. A. Montgomery arrived by the Aberdeen Tuesday last, having had a short stay at Penticton. He was so taken with this locality when passing through that he decided to return

Meeting of City Council.

The council had various matters to discuss last Monday. There was a full attendance of aldermen, with Mayor DeHart in the chair.

The minutes of last meeting were read and adopted.

Same discussion arose about a letter from the Canadian Fairbanks Co. asking for a statement of satisfaction of the electric light plant. The mayor explained that he saw no reason why the statement should not be signed and sent to the Fairbanks Co. He had spoken to Mr. Russell and he had said the plant was in excellent working order.

Mr. Raymer attended and asked the council for permission to move his hall, and if necessary cut the wires so that his building could pass underneath.

The Mayor thought it should be made a by-law that when wires were cut and damaged by the removal of buildings, the expense should be borne by the owner of the buildings.

It was finally proposed by Ald. Ball, seconded by Ald. Rowcliffe that Mr. Raymer should have permission to cut the wires, provided he have the work done by a city electrician and bore the whole expense. They thought Mr. Raymer ought to be given every consideration in view of the magnificent building he contemplated putting up in the place of the one to be removed.

Ald. Elliott was ready with an estimate for painting the fire hall as he said it was an eyesore to see a building of that description without paint. A little discussion was raised on this point, but it was finally decided to hold the matter in abeyance.

Ald. Rowcliffe mentioned that several bridges were unsafe, and that there was such a gap at the side of some to allow children falling in the water.

Ald. Ball suggested the putting up of a wire netting along the sides, but other Aldermen thought a board nailed up would be sufficient.

The question of the iron brace coming from the cross piece to the railing, on the bridge on Pendozi street was severely criticised by Ald. Bailey. He knew that many people had come into collision with it and considered it dangerous.

Ald. Elliott suggested the lengthening of the cross piece and it was finally proposed by Ald. Elliott, seconded by Ald. Rowcliffe to give the Board of Works power to fix this matter, as well as to board up the sides of the bridges.

A suggestion was also put forward for the raking off of stones on Pendozi Street and the matter was promised attention.

Ald. Ball next put forward a suggestion that a code of fire whistles be established so as to inform people whether the fire was in the east, over the creek or in town. It was decided to refer the matter to the Fire and Water Committee.

The Mayor next spoke about the work done at the Power House, and told the Council that the second engineer contemplated leaving at the end of the present month and Mr. Russel would have to get a man.

A lengthy discussion ensued which took up the different views of the situation and it was finally proposed by Mr. Ball, seconded Ald. Elliott that the resignation of the second engineer and the appointment of another one be left in the hands of the light committee to dispose of it to the best advantage of the city.

The following resolutions were carried.

Ball-Bailey—That no deed transferring the exhibition buildings and grounds will be satisfactory to the City Council, which does not give the City of Kelowna the right

to dispose of the property, should it be found advisable to do so.

Elliott-Rowcliffe—That Ald. Cox be asked to act as Building Inspector pro tem under By-Laws Nos. 57 and 58.

Cox-Ball—That By-Laws 57 and 58 be reconsidered and finally passed.

Cox-Bailey—That H. W. Beatty be appointed pound keeper for 1909 for city, according to by law.

Bali-Cox—That the sum of \$5,000 be paid to Mr. D. Lloyd-Jones on account of the purchase price of the park property.

A petition was presented by Mr. Reed from the tenants of the lots on the west side of Pendozi street asking that a sidewalk be constructed from Willitt's drug store up the west side of Pendozi street as far as A. Gagnon's corner, the sidewalk to be of cement and under the Local Improvement Act.

The following correspondence was read:

Letter from Thos. Cunningham in reference to the growth of willows along townside site, which passes through Mr. Pridham's orchard, and asking that they may be got rid of, as an effort would be made this year to clear all orchards of weeds.

Letter from W. H. Nott & Co., with reference to a hook and ladder truck for use in case of fire.

The following accounts were referred to the finance committee to be paid if found correct:

Hinton Electric Light Co.	\$120.00
W. J. Russel (salary)	150.00
T. Sampson	94.50
T. D. Colquette	83.33
J. Heston (salary)	65.00
T. Heston do.	80.00
G. H. Dunn do.	90.00
C. Mills (scavenging for March)	125.00

The meeting adjourned until April 5th.

Major S. M. Andain left Tuesday for his ranch at Short's Point, and is expecting to return to the coast to-day.

A meeting of the members of the football club will be held at 8 p.m. in Davis & Mathie's store to-day.

Moving of Raymer's Hall.

The weekly visitor to town will wonder what has happened to Raymer's Hall and when he finds out will wonder how it was done. The Hall during the last week has been cut in half, raised on jacks and the concrete foundations demolished. Quite an army of men have been employed on the job, and it is hoped to have the Hall ready to move next week. Several of the electric light wires will have to be cut to allow the building to pass. It is not to be moved so very far away, the position decided on being the N. E. Corner of Mill Avenue, down Water Street. The famous old building will have to make room for one of the finest pieces of architecture in the city, which will comprise Lawson's new store and the new hall. The work of moving is being undertaken by Messrs. Clark & Ferguson while Mr. Raymer is busy urging on the work of the new hall in hopes that it will be ready for use by the first part of May.

MAJOR SCHOOF

Major Gustave H. Schoof will speak in Knox Presbyterian church on Sunday, 4th April, at 11 a.m., on "Mission work in Africa, as seen by a Soldier." The Major will also speak in the Methodist church the same evening at 7.30, and deliver two lectures on Monday and Tuesday evening showing trophies from three continents.

Record Essay Contest

For the Boys and Girls of Kelowna and District

We are anxious to interest everyone in the columns of The Record, and in this endeavor we must not forget the boys and girls. There is often a good deal of literary talent lying dormant in the young people and we want to give them a chance to show what they can do in this direction.

We have therefore decided to offer two prizes each month for the best essay written by any boy or girl under sixteen upon a subject which we will announce each month. The first contest will be held during the month of April, as follows—

ESSAY CONTEST No. 1:

First Prize	\$2.00
Second Prize	\$1.00

There are hundreds of boy and girl readers of The Record on the prairies who would like to hear of the good times which the young people of Kelowna have during the summer months, so the above prizes will be awarded for the best imaginary letter from a boy or girl in Kelowna district to a boy or girl on the prairie, on

"Summer Life in Kelowna, From a Boy's (or Girl's) Point of View"

The essays should be sent in to the office not later than April 30th, and the prize will be awarded upon receipt of the judge's decision.

Conditions:

The contestant must be under 16 years of age, and the composition must be his or her unaided work.

JOB PRINTING

We are particularly well fixed to execute all your orders for printing. With new type, new machinery, skilled mechanics and every labor saving device we can do your work quick, well and at reasonable prices.

The fog which at present envelopes the affairs of the Agricultural and Trades Association seems to grow more and denser with every meeting held for the purpose of clearing the air. Each fresh meeting reverses the proceedings of the last. It would have been infinitely better if this question of the turning over of the grounds to the city had been more thoroughly discussed, and some definite understanding reached amongst the members of the Association themselves before the city council had been approached. Although the irrefragable step may not be taken, yet when the engagement has been announced, the banns published, and invitations sent out, so to speak, it is a little late to begin discussing the advisability of the union.

A by-law for the raising of the necessary money by the issue of debentures has been put through at some expense by the city, the vote of the people taken, and all seemed like straight going. But the best laid schemes of mice and agricultural societies "gang off agley," and here we are, off the track and in a mud-hole again.

The wisdom of the city's assuming the ownership, in addition to their already heavy burden, of a tract of land on an agreement so hemmed in with restrictions and conditions as that lately submitted to the council by the A. and T. Association is certainly not very apparent to the ordinary observer. It seems only fair that if the city is to pay the piper it should have the privilege of calling the tune.

On the other hand it seems bad business for the Association to hand over merely for the payment of its debts, the unrestricted title to land worth five or six times the amount.

Is it quite impossible to arouse in the district sufficient interest in the work of the Association to enable them to pay off their debts, make the necessary improvements to the grounds, and paddle their own canoe in a more vigorous and efficient manner than they have been doing?

Miss Lena Duthie was billed to appear at Raymer's Hall last Friday, but owing to a severe cold was unable to appear. We are certain she would have had a good house as her talents are not altogether unknown in the town. Her non-appearance caused much disappointment.

The Kelowna Choral Society are busy rehearsing Stanford's "Revenge." Next Monday and Thursday rehearsals are called for the "Pirates," previous to taking it down the lake.

Messrs. Davies and Mathie have secured the contract for making the policemen's coats to be used in the production of the "Pirates" when that opera goes down the lake.

Communications

Under this heading communications will be received upon any subject of interest. Letters must be signed, be brief, avoid personalities. The Editor does not necessarily endorse opinions given below.

Editor Orchard City Record,

Dear Sir,

The writer in the Nelson Daily News quoted by the "Courier" is quite right in advocating the use of a reliable brand of Blood and Bone fertilizer. But how is the farmer to know when he is buying a reliable article? He may insist on having a guaranteed analysis, but how much better off is he when he has it?

The writer of this article has seen many samples of reliable (?) Blood and Bone fertilizers analysed in the laboratory. They were generally up to the guaranteed analysis, but some of them contained as much bone to the bag as would make half a dozen shirt buttons, and sufficient blood to give one the impression that the women who had sewed up the sack had cut her finger. This small percentage of blood and bone is no doubt put in to satisfy the qualms of conscience of the makers in their endeavor to worship God as well as Mammon.

They are no worse however than the oil men we heard of a short time ago who were selling oil in Kelowna adulterated with water, and their integrity is on a par with the integrity of the gentlemen who sell embalmed beef in Chicago.

If it is our duty to protect our fellowmen from fraud as much as possible we may say for the protection of farmers, that an artificial fertilizer may have a guaranteed analysis showing a fair percentage of Nitrogen and Phosphoric Acid, but the nitrogen may be derived from woollen waste, leather dust, soap scum, horn shavings, etc., and the phosphoric acid may be derived from phosphoric rocks instead of Bones.

This makes a considerable difference in the value of the fertilizer as the chemical constituents though present are not in a readily available form for good plant nutrition.

If you desire to use a mixture of Blood and Bone the safe plan is to buy dried blood and also fine bone meal, and then you will know that you are about as near to receiving the pure article as you may hope to get.

Further, Bone Manures do not suit heavy soils but act best on light soils. Soluble manures such as Nitrate of Soda, Sulphate of Ammonia, Guano, etc., are more suitable for heavy soils, altho Guano will give good results on light soils also.

When Bones are used they should be finely ground and if possible it is better to procure slightly boiled bones, as the fat on raw bones interferes with their decomposition and makes the results appear much slower. Too much boiling however removes the gelatinous matter which contains the nitrogen and as the boiling or steaming is mostly done under great pressure by large manufacturers, to take out the gelatinous matter for other purposes, it is not always easy to find a good sample of Boiled Bones.

Soluble manures like Nitrate of Soda, Sulphate of Ammonia, Guano, etc., should be applied in the spring, whereas Bones, Phosphates, etc. should be applied in the Fall.

The best source of obtaining nitrogen and generally the most economical is from Nitrate of Soda or Sulphate of Ammonia. The best source of Phosphoric Acid and the cheapest is from Superphosphate of Lime.

Soda and Superphosphate should not be mixed however, as the free sulphuric acid in the phosphate will liberate the nitrogen from the Nitrate of Soda. The Superphosphate should be applied in the fall and the Nitrate of Soda or Sulphate of Ammonia as a top-dressing in the spring after the crop is up.

For a good complete fertilizer there is nothing to surpass a good Nitrogenous Guano.

A NOISY CONVENTION.

One in Which Comanches and Panthers
Were Outshined.

The noisiest, the jolliest, the most ex-
citing, and perhaps least logical cam-
paign was that of 1840. William Hen-
ry Harrison, hero of an Indian victory
at Tippecanoe, a plain old man who
had lived his opponents sneeringly
said, in a log cabin decorated with
coonskins and had drunk hard cider
was selected by Thurlow Weed as a
better candidate than Henry Clay.
The issues between Van Buren, the
Democratic candidate, and Harrison
were not clearly drawn, but the ad-
ventitious circumstances of Harrison's
early life were skillfully utilized for
theatrical effects. Processions, miles
long, with log cabins, cider barrels and
coonskin caps on poles stretched from
state to state. "Glee clubs" were a fea-
ture of the campaign, and the Indian
fighter was fairly sung into office.

In the convention of 1840 began the
modern custom of cheering and counter
cheering. The Seward contingent
gave a parade the day of the conven-
tion. While they were marching Lin-
coln supporters filled the Wigwam.
With the naming of the candidates
began the cheering. "Hurrah! Halstead
said that when Seward was nominated
and seconded, the shouting was ab-
solutely frantic, shrill and wild. Co-
manches and panthers never struck a
higher note or gave a shout with more
infernal intensity. Looking from the
stage over the vast amphitheater, noth-
ing was to be seen below but thou-
sands of hats—a black, mighty swarm
of hats flying with the velocity of bor-
nets over a mass of human heads
most of the mouths of which were
open."

But when Lincoln's nomination was
seconded the vast "heard" from.
"I thought the Seward yell could not
be surpassed," said Halstead, "but the
Lincoln boys were clearly ahead and
feeling their victory as there was a
hull in the storm, took deep breaths all
around and gave a scream that was
positively awful and accompanied it
with stamping that made every plank
and pillar in the building quiver."

On the third ballot Lincoln was nomi-
nated. The shouting was so deafen-
ing that the cannon which was dis-
charged on the roof of the building
could not be heard inside. — Chicago
Record-Herald

PERILOUS SLEEPWALKING.

The Tragedy on Which Bellini Wrote
His Celebrated Opera.

Somnambulists can maintain their
footing in the most perilous places so
long as they remain in a state of som-
nambulism, but if suddenly awakened,
they instantly lose their self posses-
sion and balance.

On one occasion a young woman liv-
ing in Dresden was seen at midnight
walking on the edge of the roof of her
house. Her family were immediately
told of her plight, but were afraid to
go near her. The neighbors gathered
about the house and placed mattresses
and blankets along the street in hopes
that they might save her in case she
fell.

She danced for over an hour on the
slanting roof, apparently retaining her
balance without difficulty, and every
now and then she would advance to
the edge and bow to the silent crowd
standing many feet below her.

At last she climbed down on to the
wide gutter which ran in front of the
window through which she had come
with the evident intention of re-enter-
ing the house. The crowd watching her
so intently drew a sigh of relief.
But unfortunately her terrified rela-
tives, thinking to assist her, had placed
two lighted candles in the room near
the window, and as she approached the
light fell directly in her eyes.

Instantly the shock awakened her,
and she swayed back and forth in her
perilous position; then, with a frightful
scream, she fell headlong to the ground.
She was fatally hurt and died in a
few hours. It was on this tragedy that
Bellini wrote his celebrated opera "La
Sonambula."

The Tragical Loco Weed.

The abominable Mexican plant known
as the loco weed has the peculiar prop-
erty of making irrational both men and
beasts who partake of it. Horses and
cattle out on the prairies after grazing
upon it go crazy, and a "locoed" pony
will perform all kinds of queer antics.
It is said that if a man comes under
its spell he never regains his senses,
the insanity produced by it being incur-
able. It is said that the loss of mind
of the ill-fated Carlotta was no doubt
due to the fact that some enemy, drug-
ged her with a preparation of loco, al-
though history has it that she went in-
sane by reason of her husband's exe-
cution. — Baltimore American.

A Gentle Husband.

Woman (to her husband, busily en-
gaged writing) — My dear, correctly
speaking, what is a dentist? Husband
(crossly) — Derived from dent, French
for teeth, a man who pulls teeth. (Hus-
band settles down to writing again.)
Wife — My dear, you said this morning
that linguist was derived from the Lat-
in lingua, a tongue. Husband (crossly) —
Yes. Wife — Well, dear, is a linguist
a man who pulls out tongues? Hus-
band — No, madam, but I wish he did.
— London Answers.

The Best Man.

"Why is it," asked the dear girl,
"that the bridegroom's attendant is
called the 'best man'?"
"I suppose it's because he is the best
off," growled the fussy old bachelor.

Considerate Censorship.

"Doesn't that fellow know I love you?"
"No. Papa isn't very well, and we've
kept it from him."

Old Country News

"Dear Old Charlie."

Admiral Lord Charles Beresford, of the
British Navy, hauled down his flag on
Wednesday, 24th inst., signifying his re-
tirement after 50 years active service. Ten
thousand friends and admirers assem-
bled at Portsmouth to give him an enthusiastic
send off, and Lady Reginald Talbot em-
braced him, kissing him, and calling him
"Dear Old Charlie," which appellation was
promptly adopted by the crowd.

Dam Breaks and Drowns Fourteen Men.

Overwhelmed by the bursting of a cof-
fer-dam fourteen men men lost their lives in
the new Victoria Dock at Birkenhead.

The men were engaged in excavating
work, and a dam had been constructed
between the outer dock and the point
where the men were working. Double
lines of piles, 60 feet high, filled in with a
bank of clay, formed the dam. The high
tide and heavy gale pressed together on
the dam all night, but the crisis came
about an hour and a half after the men
had started work. Unable to bear the
pressure any longer, the dam gave way
and the water rushed into the excavation
and onto the doomed men. The excava-
tion was a veritable death trap, and there
was no exit to safety. Only one man
escaped and then by a miracle. He was
carried with great force against a dock
wall and managed to cling there until help
arrived.

A heavy crane was fixed at the edge of
the excavation. This fell, carrying with it
the engineer, crane-man and crane signal
boy. The engineer clung to a floating
plank amongst the debris, but the signal
boy was pinned under one of the crane
supports and when rescued was found to
have a broken leg.

Leeds Church Wrecked.

Owing to the destruction caused by
hooligans to St. Philip's Church, Well-
ington street, Leeds, it was found impos-
sible for the congregation to worship within its
walls. All the windows on the north side
were broken and the building itself greatly
damaged. The church was built in 1847
and was situated in one of the poorest
quarters of Leeds.

Boy Thieves Have Long Innings.

Twenty or more cases of theft have been
traced to five boys, aged from twelve to
sixteen, who after baffling the police for
some time have at last been brought to
justice.

The arrest was due to a workman who
heard unusual sounds outside his workshop.
He went out and found one of the boys
handing confectionery to his companions.

When arrested the boys had in their
possession a "Jimmy" which corresponded
to marks on telephone boxes which had
been broken into, and also with several
letter boxes of business forms. Postal
Orders, which were left open were cashed,
the others were destroyed.

The magistrate said it was the most
extraordinary case he had ever heard
in court and sentenced to four years in a
reformatory.

Garage for Airships.

The Aero Club have acquired the land
at Shellbeach on Sheppey Island as a site
for its aerodrome, and it is understood that
within a month garage accommodation
will be ready for several machines.

Several villa residences are to be erected
and let exclusively to members of the
Aero club, and the enthusiastic "air travel-
lers" will find it just as necessary to have
his villa at Shellbeach as his hunting or
or shooting box.

Exhibition at Shepherd's Bush.

This year Mr. Imre Kiralfy will add to
his long list another success in the shape
of the Imperial International Exhibition
which is to open on the 12th May. There
will be a Scotch village and an Indian
theatre, with native actors. The North
Pole, with Polar bears, will be on view,
and an electric railway will pass through
scenery unequalled for splendour, while a
representation of the earthquake at Mess-
ina will be another attraction.

Unfrocking of Smythe Pigott.

John Hugh Smyth Pigott, of Abode of
Love fame, has been unfrocked by the
Bishop of Bath and Wells. The proceed-
ings were conducted in Wells Cathedral.

Japan Wants British Guns.

Messrs. Armstrong, Whitworth & Co.,
and Messrs. Vickers, Sons & Maxim, of
Barrow, have almost completed the erec-
tion of large steel works at Muroran, Japan.
It is reported that the works will be carried
on under the direction of the Japanese
Admiralty assisted by English experts.

The Tyburn Tree.

A gruesome memorial is to be erected
in London at the junction of Edgware road
and Oxford street. His Majesty's office of
Works has ordered to be cast a bronze
tablet, which will be placed within the
park railings, bearing the following inscrip-
tion: "The Tyburn Tree. The triangular
stone in the roadway 75 feet north of this
point indicates the site of the ancient gal-
lows known as Tyburn Tree, which was
demolished in 1760."

Stop! Look! Listen!

Before it is Too Late!

You are in good health to-day. Only
those in Good Health can secure protection
in a Fraternal Beneficiary Society. You
may become very ill to-morrow; why not
join a society that makes provision to care
for sick members?

The Modern Woodmen of America is
such a society. In its great Sanatorium
any member who becomes ill from Tuber-
culosis will be treated free of charge. This
one feature alone is worth much to every
member.

If you find it hard to pay interest on the
mortgage and meet every-day living
expenses of your family, how do you sup-
pose your wife could pay the interest and
keep the family together if you should
happen to die?

A certificate in the Modern Woodmen
of America furnishes the means by which
the wife can keep the family with her.

Are you a member? If not, you should
get in on the ground floor, and become a
Charter Member.

Cost to join: \$5 and medical examina-
tion.

Summerland Notes.

Rev W. Russell, who has been conducting special services at Summerland for the past three weeks, has met with great success, every meeting being well attended. His next field of work is in the Kootenay country, where he will take part in a great evangelistic campaign.

All the local business men have agreed to hold a half holiday on Thursday afternoons, beginning April 1st.

The Summerland Band has re-organized with about \$300 deficit.

A new rifle range has been completed in Garnet Valley, and the first shoot will take place on Saturday.

ONLY---ONLY.

Only a glass in the barroom;

Only a single glass;

Only a lack of courage,

Only the answer, "Yes."

Only an evil companion,

Slyly luring him on;

Only a "free-hearted Willie,"

And the fatal work is done.

Only "a little bit tipsy,"

Only bloodshot eyes;

Only a pleading mother,

Only a wife's surprise.

Only an aching forehead,

Only a bruised face;

Only a broken promise,

Only a deep disgrace.

Only a cheerless shanty,

Without fire or wood,

And little half-clad children

Waiting and crying for food;

Only curses for kisses,

Only sorrow for woe;

Only a drunken father,

Only an angry blow.

Only weeping children,

Only a dying wife;

Only another's promise,

Only a drunkard's life.

O, the woe and the anguish

That mortal tongue can tell!

Only a glass in the barroom,

Only a drunkard's hell!

The Cost of Alcoholic Insanity.

Dr. Frederick Paterson, of New York, in an address before the New York conference of Charities and Correction, declares, "Alcohol is the chief poison factor in the production of insanity. Twenty per cent of all the insane in the United States owe their condition to alcoholic poison." A medical expert has calculated that one insane person is an approximate loss to the state of \$400 per year, hence the actual loss to the United States amounts to the enormous sum of \$12,000,000 per year.

Value of Human Life Lost to The State by Drink.

According to bulletins of the New York State Department of Public Health, one hundred and five deaths from alcoholism occurred in the state of New York for the one month of September, 1907. Allowing each life to be worth \$3,000, an amount stated by State Commissioner of Public Health, Dr. Eugene H. Porter, to be a low estimate, drink was the direct cause of a pecuniary loss to this one state in one month of \$315,000, or, at the same rate, \$3,780,000 annually. This leaves entirely out of consideration 2,287 deaths from suicide and diseases such as apoplexy, liver cirrhosis, heart disease and pneumonia in which alcohol is admittedly a large causative or contributory factor.

Evangelist Russel was amongst the passengers on Tuesday's boat on the way to Vernon.

Mr. Pete Lantour arrived from Vernon on Monday and left on Tuesday for Westbank, together with the furniture for setting up a home there.

Mr. Marsden left for Vancouver last Tuesday to set up in a grocery business on Westminster Ave. A number of friends met him at the boat to wish him adieu, together with good wishes for his success in his enterprise.

Mr. Hugh Rose has resigned his position as Provincial Constable and has decided to leave Kelowna to take up a chicken ranch at Salmon Arm. Mr. J. Tooth has been appointed in his place and will commence duties on the 1st of April. Constable Tooth has been stationed at Penticton for about three years.

Provincial and General News

Calgary Old Timer Expires.

Mrs. Ann Boag, aged 78, died last Thursday at the residence of her daughter, Mrs. D. W. Moore. The deceased lady was twice married, and her second husband was Joseph Boag, principal of Calgary high school in the late eighties.

British Flag at South Pole.

Lieutenant Ernest P. Shackleton, of the British Navy, who left Cape Boyd last October on a geological trip in the antarctic regions, has returned after an arduous journey to within 111 miles of the South pole.

At this point, he was 354 miles nearer the pole than the expedition made by the Discovery, of which he was an officer, and the narrative of Lieutenant Shackleton shows that the party endured the greatest trials and privations.

Marking the spot nearest the South pole ever obtained by any man, flies the Union Jack, presented to the explorers by her majesty the Queen, and guarded all round by an expanse of silent, frozen wilderness.

War With Germany.

There appears to be a feeling abroad that a conflict between Germany and the Old country is imminent, and a Toronto military man states that there is reason to believe that the Canadian department of militia and defence has received a tip from the War Office, to be prepared for squalls. The Germans are ambitious and have for years been jealous of England's growing power.

Britain and "Uncle Sam."

In a speech at Victoria, B.C., recently, Rear-Admiral Evans of the U. S. Navy, stated, "We are always glad to hear of England building more warships; they constitute a defence for America. The two nations will always be found fighting on the same side for the supremacy of Anglo-Saxondom."

Hostilities Imminent Between Austria and Serbia.

It is considered that the Balkan situation has now reached its most acute stage, on account of the irreconcilable attitude of Austria-Hungary, and that peace or war will be decided in a few days.

King of Italy Wants General Peace.

At the opening of the Italian parliament the King said that the government would labour to find an equitable solution of the conflict between capital and labour, and to substitute co-operation of all the so-called classes for fruitless struggles.

His Majesty also stated that Italy was negotiating with other countries, with the object of ensuring general peace.

Generous Donation of Lord Strathcona for Military Drill.

Lord Strathcona, Canadian High Commissioner to Great Britain, has offered in a letter to Sir Frederick Borden, to donate the sum of \$10,000 per annum for the encouragement of physical military training schools in Canada.

Sir Frederick announced that he had cabled Lord Strathcona a grateful acceptance, and asked permission to name the fund "The Strathcona Trust." Earl Grey has agreed to become patron of the trust, and Sir Wilfrid Laurier vice-patron.

Canada's Attitude to British Navy.

A number of patriotic addresses were given at Vancouver, by members of the Board of Trade.

"Let Laurier cable to Asquith: 'Build a Dreadnought and send us a bill.'"

"And let it not be the first. Canada can afford to make this an annual contribution. Her import and export trade is now over \$465,000,000 yearly. Her proportion of contribution to the navy, figured at two and one-third per cent, would amount to \$10,847,000, roughly equal to one Dreadnought per annum."

"The mother country pays nearly seven dollars per head to imperial defences as compared with Canada's sixty cents. This is a humiliating position for Canada, a slur upon our character."

"If the Dominion does not see fit to act, it is a matter which might even be seriously considered and undertaken by British Columbia, and we should scarcely feel it. It would form the best kind of national insurance and repay itself many times over."

Not one note of opposition was heard, and the above are but a few of the high notes of patriotism heard at the meeting. The following resolution was also telegraphed to the premier.

"Whereas the safety of the empire and the peaceful development of commerce in all parts of it, depends upon the maintenance of the supremacy of the British navy."

And whereas a matter of such vital importance to Canada should not remain in doubt and should be above the exigencies of party politics in the United Kingdom."

Be it therefore resolved that this board is of the opinion that the Dominion of Canada should at once offer to the imperial authorities a sufficient sum to build a modern Dreadnought of the strongest type."

Ontario Suffragettes.

"Votes for Women," is the plea of one hundred and fifty members and friends of the Woman's Suffrage Association. A monster petition was presented to Premier Whitney and members of the Cabinet. The Premier was very non-committal, and stated that the petition would be seriously considered by the Cabinet.

Conference Between C. P. R. and Mechanics.

The Canadian Pacific railway and its mechanical employees have been considering a new working agreement at a conference opened in Winnipeg last week.

Among other important questions is the pension question, the men wanting the old workers reinstated to the positions they filled before the strike of last summer.

Renounces Serbian Throne.

George, Crown Prince of Serbia has renounced his right of succession to the Serbian Throne, on account of a bitter press campaign in which he was accused of being the cause of one of his servant's death.

Sobriety of France.

Statistics for 1907, just issued by the ministry of finance indicate that the consumption of alcohol is gradually diminishing. The decrease is more rapid in towns than in the country.

The prohibition of the sale of spirits in military canteens is given as one of the principal reasons for the decrease. Another evil arises to take the place of the alcohol decrease however, in the rapidly rising quantity of absinthe consumed.

C.P.R. Hotels Change Hands.

There will be a change in the management of the C.P.R. Hotel, Vancouver. Capt. Pym has resigned and will be succeeded by Charles Dervinville, who for some years has been in charge of the Chateau Frontenac at Quebec. Mr. Hutchinson who was Mr. Dervinville's assistant at the Frontenac will take over the management of that Hotel.

Horses Stolen at Moosejaw.

Several horses were stolen last week from a stable on a lane between River and High Street, Moosejaw. The chief loss is 3 horses one of which is a thoroughbred racing animal valued at \$400. The animals were the property of Mr. Robert W. Brown a large rancher and dealer in the district.

The thief made a clean out of the stable leaving only the grooming kit and a buggy. Mr. Brown has many friends in this district who will sympathise with him over this loss.

Sky Scraper for Victoria.

Mr. Angelo Calori is to erect a sky scraper in Hastings Street, Victoria, at a cost of \$150,000. It will be built of reinforced concrete, and will therefore be fireproof. The building will be 10 stories in height in front and six stories in height at the back, and will be used as a large rooming or apartment home, and all modern conveniences will be installed throughout the structure.

Danish Government Seek for Lost Explorers.

A telegram from Copenhagen gives information that Einar Mikkelsen the arctic explorer and leader of the Duchess of Bedford expedition will start shortly to look for the bodies of Mylins Erickson and Lieut. Hagen, who died on the north-east coast of Greenland in November 1907. It is believed the bodies can be found by papers left at the supply department at Denmark.

The expenses of the expedition will be paid by the Danish Govt.

The ship used in this expedition will be of the same class as the one used by Captain Roland Amundsen in making the north west passage in 1905 and will be named the Mylins Erickson. The expedition is expected to last until the fall of 1910.

Iron Works in Vancouver.

James A. Moore of the Moore Iron Works, Port Townsend, Wash., is negotiating a site in Vancouver on which to locate an immense iron works and possibly a steel factory. It is estimated that the initial expenditure will amount to half a million dollars.

Mr. Moore is a well-known capitalist of Seattle.

New Experimental Farm.

P. G. Black, of High River, Alberta, has gone to Rosthern, Sask., to take over charge of the new experimental farm in that district. Active operations will be started as soon as the snow has gone. Machinery, horses and supplies are being purchased.

A residence for the superintendent is to be built, but the government will only put up a small stable as they will not place much live stock on the farm this year.

AN IDEAL FRUIT RANCH

HAVE YOU EVER CONSIDERED THE ADVISABILITY OF OWNING ONE?

WITH Kelowna winning the highest awards at the different Fruit Exhibitions, this district will receive considerable attention from homeseekers and investors in the Prairie Provinces, United States and Great Britain.

NOW IS THE TIME TO BUY

Social and Personal

F. M. Buckland was amongst
Saturday's business visitors to Ver-
non.

Messrs. Ward Duncan and W. S. Watson, students at Okanagan College, were visitors to the city on Saturday. Mr. Watson, who is a divinity student at the College, conducted the services in the Baptist Church on Sunday, at which Mr. Ward assisted by some well rendered solos.

Mr. J. Wentworth Spittoll, who has been residing in Kelowna for the past year, left on Saturday for his home at Douglas, Isle-of-Man. During his residence here Mr. Spittoll made a large number of friends, who regret his departure, but who hope to see him back in the "Sunny Okanagan" again soon.

A. H. Bell, of South Okanagan, returned on Friday from an extended visit to the Old Country.

Mrs. H. W. Knight, who has been visiting at the home of Mr. and Mrs. D. W. Sutherland during the past week, returned on Saturday to Vernon.

H. W. How, who has been in city for the past three weeks on business, was a passenger on Saturday's boat, on his way back to Roleau, Sask.

Stanley Gore, who has been engaged for the past two years on the Guis Achan Ranch, has left for the ranch of Mr. D'Aeth, on the west side of the lake.

S. M. Moulton, captain of the baseball team last year, left on Saturday for Vancouver, to fill the position of assistant to W. Cunningham, Provincial Fruit Inspector.

Mr. and Mrs. Rutledge, who have been visiting points in Ontario during the past winter, returned to Kelowna on Friday and have taken up their residence in their former home on Bernard Avenue.

Mr. and Mrs. L. Hayman were visitors to Peachland on Friday, returning home on Saturday.

Mr. Ling has taken over the management of Mr. W. C. Cameron's ranch for the second time, he having been engaged there previous to Mr. S. M. Gore.

Mr. S. M. Gore crossed the lake last Friday to take over the management of Mr. D'Aeth's ranch at Westbank.

Mr. Humphries, the organist of St. Michael's church, was last Friday suddenly taken sick with la grippe. He is at present staying with Mr. Ernest Wilkinson, under whose care it is hoped he will speedily recover.

Mr. G. H. E. Hudson is putting up two show cases on Main street. They will surely be an attraction to visitors and newcomers, as well as a worthy addition to the street.

Mr. G. A. Benson, of Aguar Calientes, Mexico, is visiting his sister, Mrs. J. E. Wheeler.

Messrs. W. Shanks, W. S. Watson, and D. Ward were passengers by Monday's boat to Summerland, where they will resume their studies at the Okanagan College.

Mr. and Mrs. Martin and family arrived by last Monday's boat. Mr. Martin has been to the old country, while Mrs. Martin and son have been to Kirkwall, Missouri. They met at Sicamous Junction, and continued on the homeward journey together.

The Rev. Thos. Greene returned Monday from Vernon where he has been conducting the funeral services of the late vicar of that town.

Mr. D'Aeth paid a visit to Vernon, returning Monday.

Miss Mary E. Harvey is leaving shortly for Vancouver, where she intends to go through a course of training at the General Hospital for the nursing profession.

Major Andain has just bought the estate on Short's Point which lately belonged to Mrs. Dunsmuir.

Mr. L. V. Beaumont was a passenger by last Tuesday's boat to Vernon.

Dr. Mathison will be at Summerland from March 25th to April 5th.

NOTICE

Mr. Marsden, having retired from the firm of McJannet, Marsden & Hall, all accounts owing by and to them will be paid and received by the undersigned.

McJANNET & HALL, Kelowna.

Town and Country News.

Rev. J. H. Lambert, Rector of All Saints Church, Vernon, died very suddenly at the rectory last Thursday night from heart failure. The deceased gentleman was very well known, and his removal leaves a gap in Vernon. Saturday's boat conveyed Rev. Thos. Greene, Rector of St. Michael and All Angels Church, Kelowna, to Vernon to conduct the funeral services over the late Mr. Lambert.

Jerry Vacher brought some fine pelts to town last Friday, which were exhibited outside the office of J. W. Wilks. Two cougarskins, good size and in fine condition, were to be seen and found a ready purchaser, and also four lynx, well marked. An otter skin completed the outfit, and all were captured in the Bear Creek country.

A scheme is on foot to erect a substantial canning factory at Summerland and appears to meet with general approval.

A Chinaman at Armstrong, who had been arrested for misbehaving himself on the streets, made two determined attempts at suicide in the lock-up. The first time he tried hanging himself by means of his queue, and when he was prevented, nearly accomplished the job by tying his queue tightly around his neck.

Constable J. Tooth will be transferred from Penticton to Kelowna on the first of April—Penticton Press.

In this week's advertisement, Mr. F. R. E. DeHart announces that he is going out of the nursery business.

The building committee in connection with the Presbyterian Church meets on Thursday evening this week in Knox Church at 8 o'clock.

The party of excursionists brought in last week by Mr. Adams, of the C. O. L. Co., were very favourably impressed with Kelowna district. Some of the members bought fruit lots on the Company's sub-division, as well as residential properties at Woodlawn, and on Ellis Street. They are all newcomers from Alberta.

Mr. Blanchard had a narrow escape last Tuesday when driving from Bear Creek to Westbank ferry landing, his new buggy turning over. Luckily he was able to jump out in time, otherwise a serious catastrophe might have resulted.

Knox Church Sabbath School was favoured with a very practical address last Sabbath on the temperance lesson by Dr. Wright.

The C. P. R. steamer "York" arrived at the wharfe Tuesday with a load of settlers effects, the property of Mr. Maxwell who is settling in this district.

An unsigned communication was received at the "Record" office on Saturday enclosing 50c for the Sam Lister fund. We also have to acknowledge the receipt of \$2.50 from Mr. M. J. Monckton and a cheque for \$10.00 from D. Lloyd-Jones for the same purpose. The amounts will be duly handed over to Mr. C. Marshall.

The lessons at St. Michael's Church were read last Sunday by Mr. F. A. Taylor, in the absence of the Rev. Thos. Greene. No service was held in the evening.

Mr. J. W. Wilks has received a supply of "Regenerated Abundance" seed oats from the Department of Agriculture. They are a fine sample, grown by Messrs. Carton Bros., Warrington, England, and are being distributed to farmers so that they can make a trial of this variety. Mr. Wilks has also some 40 or 50 lbs. of Paris green which is supplied by the Government. The war against cut worms will soon begin and Mr. Wilks will be pleased to advise anyone how to stamp out these pests.

The Choir of St. Michael and All Angels Church will render "Fling wide the Gates" from Stainer's "Crucifixion" next Sunday evening.

The S. S. Okanagan is laid up at Penticton, it being found necessary to repair here before the daily service began on May 1st. The Aberdeen is taking her daily trips until she is in full trim again.

Messrs. W. S. Watson and D. Ward were present at the Baptist Church last Sunday. The former preaching the sermon and the latter sang a solo.

The Lake View hotel has been installed with electric switches and a new set of electric lights. The change is a decided improvement.

The Penticton Football Club has decided to play a match with Kelowna on Good Friday, April 9, when both senior and junior teams will visit the town. It is to be hoped that a good crowd will turn out to witness the game. It is practically settled to play the return game when the Kelowna Musical and Dramatic Society take the "Pirates of Penzance" down to Penticton.

A. & T. Association Have Warm Time.

(Continued from Page 1)

that the association do accept the city's proposal to take the grounds over.

The matter of voting on these motions started the meeting off in another direction as to who were members and who were not, and who were entitled to vote and who were not. The chairman's ruling on this was sustained with only one dissenting voice, though after the vote was taken, a number present appealed to him for another ruling.

For some time a deadlock of opinions kept the meeting at a standstill, and finally Mr. Leckie stated that to help the matters along he was prepared to see that the money required was raised on a second mortgage. The members of the city council raised strong objections, Ald. Bailey stating that the council had carried out the will of the people as shown by a vote of over 2 to 1. A vote was taken on Mr. McEachern's amendment, but it was lost by a good majority. Mayor DeHart and Ald. Elliott denounced the association's action in no measured terms. The city had the bonds ready to raise \$7,000, and an offer waiting, and now the A. & T. went back on their word.

In reply, Mr. Sutherland said a lot of trouble would have been avoided if the preliminary business had been done right. The by-law had been submitted too soon. The agreement should have been made first and signed by both parties, and then embodied in the by-law to be voted on. The fault lay in not having the agreement signed and embodied in the by-law.

Mr. Stirling, in reply to Mayor DeHart and Ald. Elliott, said that they apparently thought the agreement had been closed, and that the A. & T. had gone back on their word, while, as a matter of fact, the business had never been brought before the association before this. To explain matters, Mr. Sutherland stated that the regular procedure had, in this instance, been reversed. In this case, the council had agreed to do something, and then the association came in the last thing, and were then trying to agree.

It was moved by Mr. Taylor, that the second mortgage be consid-

ered.

At this Mr. DuMoulin condemned feelingly the action of the association. He and others had worked hard at the request of the directors and had laid a proposition before the council. Now they were turned down, although they were empowered by the general meeting. He wanted to do the right thing by the city, and would not hear of a second mortgage in the business. The association had had ample time to turn this thing down last year and this, and although very few seemed to take any interest before, now a lot of outsiders came and vetoed it.

Mr. Dilworth, in supporting Mr. DuMoulin, stated that at the annual meeting of the association last fall, they were unanimous in recommending that the grounds be taken off their hands, and now they were trying to get them back again.

It was finally decided to leave the matter of arranging with Mr. Leckie for the second mortgage.

A lot of excitement prevailed at the meeting, and terms used by no means mild.

At the close of the general meeting the directors remained to confer on the situation. In view of the turn things had taken, Mr. DuMoulin resigned his seat on the directorship, and the outcome of an animated discussion was to throw out Mr. Leckie's proposal with regard to a second mortgage. Mr. Dilworth claimed that the giving of this mortgage would place them in a worse position than before, as after the first mortgage was paid off there would not be sufficient funds to carry on the association's improvements. The whole business will come up again next Saturday before another general meeting, and the original proposal again submitted.

AVOID TYPHOID.

Chief Hudson has been making a tour through the town, and inspecting the sanitary arrangements in back yards, kitchens, etc., and reports that it is surprising the number of white people who keep their back yards in an unsavoury condition. There is no knowing what these unsanitary conditions may cause. Typhoid fever is a usual follower, and people should see that the backs of their premises are kept clean in order to ward off any disease.

KELOWNA

BROWN BROTHERS COMPANY, NURSERYMEN,

LIMITED, of ONTARIO.

Are extensive growers of all kinds of Fruit Trees, and other Nursery Stock, such as Roses, Shrubs, and Ornamental Trees, and offer to planters of Orchards, choice trees, true to name.

The most experienced planters realize that young trees grown in Ontario, under somewhat similar conditions as prevail in the interior of this Province, are the best.

We are prepared to furnish "One year old trees," on a three year old root, or a two year old tree on a five year old root, as desired, at prices that will be considered reasonable.

We grow the Duchess Dwarf Pear very extensively, which is being used as a filler by a good many planters.

Our Peach, Apple, Pear, cherry and Plum trees are all of first quality well grown, well rooted, and will please the most critical buyers.

Thorough cultivation in our Nurseries ensure a splendid root system which of course is most necessary in a young tree.

During the past two seasons we have successfully shipped our stock to all parts of the Province, and can guarantee satisfaction to all our patrons.

The members of our firm are all practical Nurserymen, with long experience, and they are giving their whole time to this one business, constantly overhauling every detail of the work of growing, packing, shipping, etc. The fact is, we live among the trees, watching with zealous care the development of every acre of our vast plantings.

This is a Canadian enterprise of 25 years standing, and our reputation is behind all our dealings, give us your order and you will not regret it.

We want a good reliable man to look after our business in Kelowna and vicinity.

Apply for particulars in regard to prices and terms to salesmen to our British Columbia Branch Office.

LOCAL BRIEFS

The old trick of appearing lame and asking for support, has reached Kelowna, but in this case it did not act. Chief Hildson has met cases like that before and knows the Vagrancy Act and gave the offender twelve hours to leave the town.

The Council has appointed Mr. H. W. Beatty to be Pound Keeper for this district, and from him all matters in relation to the pound will be obtainable.

Mr. Stevenson, representing the American Type Founders Co., was in town last week, leaving Monday for Penticton.

Mr. Neville H. Percy made a business trip to Westbank on Wednesday.

Mr. Percy Johnstone left by this morning's boat for Vancouver.

Mr. Shoultsy, who represents several Winnipeg capitalists, is at present looking through the Valley. Mr. Shoultsy is a relative of Mr. A. Patterson. He left on Wednesday for the Similkameen and the Kootenay countries.

Mrs. Stillingfleet is having a house built on the lake shore at South Okanagan. She will live there during the summer months with her mother.

Why You'll Always Want INVICTUS Shoes

If we can only sell you one pair of INVICTUS Shoes, we know you will never want to wear any other kind.

INVICTUS Shoes stand for perfect fit, highest class workmanship, best material, newest styles, and longest wear. Don't take our word for it, ask some of your friends who wear them what they think of INVICTUS Shoes.

We want every wearer of INVICTUS Shoes to be satisfied.

Don't leave our store until you get a shoe that fits your foot perfectly. If they pinch or cramp don't take them, we have others that will fit you.

If you follow these precautions you will never regret having invested your money in a pair of INVICTUS Shoes.

We want every wearer of INVICTUS Shoes to be perfectly satisfied, because a satisfied customer means a permanent customer.
