Meeting of City Council.

Council Hold Short Session - Dredging of Mill a Matter for Next Council to Deal With

The City Council held a short session last Monday, the business only occupying one hour.

The councillors present were Aldermen Bailey, Cox, Elliott and Rowcliffe, with Mayor DeHart in the chair. The minutes of the meeting held on October 11, were read and adopted, and the following correspondence attended to:

Polman and Mooy, Haarlem, re bulbs for the park and enclosing bills of lading and invoice.

From the Cameron Lumber Co., re the supply of cross-arms, etc. Filed.

The Canadian Fire Engine Co., re the supply of fire apparatus. Filed.

Secretary of the Literary Institute stating that the Institute was discontinued and that a grant would not be looked for from the council this season and also asking for the electric light to be cut off and bill rendered to date.

Several of the aldermen expressed their regret that the institute had to be closed, and instructions were given to have the light cut off and the matter of payment adjusted.

A letter was also read from Mr. C. G. Clement, asking that the council would pay $1,000 as part payment on the sidewalk in Glenn Avenue, and also that the sidewalk would be finished in two days. A request was also made that the final payment on the power house should be considered.

Some discussion arose as to whether the power house had been fully completed, and the roof put in good shape. It was decided to ascertain if all was in order and if found so, to pay the account.

The plans of the extension to Oak Hall, and also the addition to C. C. Josselyn's premises were submitted. Ald. Cox stated that in the fomer case he had found the plans and specifications satisfactory as the extension was only temporary; in the latter case Mr. Josselyn was present and explained his addition.

The general opinion of the aldermen was that the addition included too much wood, and several suggestions were made to Mr. Josselyn that the addition was made of brick. Mayor DeHart asked how many years Mr. Josselyn wished the addition to hold good for.

Mr. Josselyn stated that his addition was by no means to be considered a permanent one, but the rebuilding of his premises would take place as soon as the town showed enough growth to warrant a new building.

Mayor DeHart considered permission could be given to let the addition stand for two years, and that if at the end of that time an extension was needed application could be made to the council for such an extension. It was considered that it would be better to get the advice of Mr. Burne on the matter, and it was consequently left in the hands of Ald. Cox to report at the next meeting.

Ald. Elliott was asked for a report with reference to the account of Mr. C. Blackwood for pound fees collected. He, however, asked that an extension of time should be given him for his report, as he had not yet been able to verify some of the items.

Mayor DeHart reported that the council had met Mr. Aylmer, the Dominion engineer with reference to the dredging of the mouth of Mill Creek. A survey had been made and an estimate given of $2.50 to $3.00 per foot. The mouth would be dredged to a depth of about four feet. The work could be done now, but Mr. Aylmer had suggested that it would be better to wait until spring. In the meantime the city could get on with the building of a break-wwater made of long limbers, willow brush and rock. The break-water would be required on the south side and a little on the north side. This would prevent the mouth filling in again.

A suggestion was also made that a foreman should be sent down to have the work started right, but the mayor considered the whole project was one for next year's council.

A remark was also dropped with reference to the soundings taken up the creek as far as Abbott St. bridge, a depth of from one and a half to three feet only, being found most places. The mayor stated that the work would take between $1,000 and $1,500 to do properly.

Mention was made of teams driving over the new sidewalk in Pendozi Street, to deliver goods to Messrs. Willits & Co. It was considered that even though the precaution of putttng boards down was employed, damage might be done to the sidewalk and the practice must be stopped. Mention was made of the fact to Mr. Willits and a promise practically obtained, to place a gate in the fence in the lane which runs at the back of their premises.

The following accounts were then referred to the finance committee, to be paid if found correct:

C. Blackwood, Watering Streets	$ 31 50
C. D. Moodie, Work on Pole Line	2 00
D. R. Putt, " " "	2 00
O. D. Fisher, " " "	10 00
G. McCurdy, " " "	12 50
H. Goldsmith, Work on Waterworks	2 50
W. G. Russell, Inspecting wiring of 42 Houses	42 00
C. G. Clement, Balance due on Power House	300 00
C. G. Clement, Plastering inside Wall of Power House	50 00
C. G. Clement, Part Payment on Glenn Avenue	1,000 00
Palace Hotel, Meals to Prisoners from 19th April to 16th Oct.	21 25

Ald. Cox stated that he had heard several complaints with reference to the length of time the building, occupied by Messrs. Crawford & Co. and owned by Mr. H. W. Raymer, was allowed to stand in main street. The city clerk was asked when the time limit for the temporary sojourn of the building in main street expired. It was found that the building was only autorized to stay in position until September, and the aldermen considered it was time it was moved.

Mention was made of the boxes and papers that were at the side of the building, again making it anything but safe from fire. It was agreed to give Mr. Raymer until the 1st of November to move the the building, the concession being granted owing to the delay caused in building the new store and the non-arrival of the glass.

It was also pointed out that the sidewalk that was damaged when the building was moved into its present position, had not been repaired. It was considered advisable to have this done as soon as the building was removed, but that the removal should not be made over sidewalk again.

The matter of both the moving and the repair of the sidewalk were left in the hands of Ald. Bailey, to make arrangements with Mr. Raymer.

Ald. Bailey asked if any steps had been taken to have the electric light plant tested.

The mayor considered it was a question that should be looked into at once. He anticipated a trip to the coast during the next few days, and when there would see the Hinton Electric Company and make arrangements for Mr. Hall to to inspect the plant and give his report. It was pointed out that Mr. Hall did the work last year and made a satisfactory report.

It was also asked if the report of Inspector Peck, with reference to the recent accident at the power house, had been received. The city clerk, however, replied in the negative.

It was considered possible that

Dunkards from Washington Settle in the Okanagan

The colonization of the Cherry Creek district of the Okanagan Valley with Dunkards from the state of Washington, projected last spring is now being rapidly accomplished. Already several car-loads of effects belonging to the settlers have passed through Vancouver to Vernon, the Cherry Creek lands being distant about thirty miles from that point. Much of the land in this district is owned by Mr. J. S. Rear, of Vancouver, who has been largely instrumental in bringing about the immigration of the Dunkards. Already a number are on the ground, others are shipping their effects into the country, and still others have started trekking northward over the boundary line, moving their household goods by easy stages in wagons.

The Dunkards are declared to be among the highest class of settlers, being a thrifty law-abiding people, who in their religious beliefs resemble the Quakers. They are strongly attached to the land, and the great success which attends their agricultural and horticultural efforts bespeaks the energy and hard work which they put into their undertakings.—Province.

A most important movement has been made in the tobacco industry during the past week. Mr. L. Holman having sold his tobacco plantation, drying sheds, and the plant in town, to a company which will start up about the middle of December. The company will be run under a different name but no definite arrangements as to either their plans or the name of the company are made public. Suffice it to say that Mr. Holman will himself be one of the heads of the the concern, and will himself manage the business from this point. The company will extend the manufacturing and also the plantation, thereby largely developing the industry.

Mr. A. R. Davy has sold his butcher business to Mr. A. Wilson together with the slaughter house situated next to the Guisachan Ranch. The change will take place at the beginning of next month. Mr. Davy intends remaining here until next spring when he will possibly go into ranching, locating in the Chilcotin district.

Monday next is Thanksgiving day and will mark the folllowing events.

Football match between South Okanagan and Kelowna, in Boyce's Field at 2.30.

Last shoot for the Dominion Salver.

Union Thanksgiving service in the Presbyterian Church 8 o'clock.

A meeting will be held in Lequimes hall on Saturday (November 6) for the purpose of arranging a concert for St. Andrews's night. All persons interested are requested to attend

Several Indians returning from hop picking at Vernon passed through here yesterday on their way back home to the Columbia River district. In the evening they gave a pow-wow in the exhibition park, a good attendance being present. Gaily dressed in feathers they performed all the rites and ceremonies of their race greatly amusing the audience assembled. The greatest amusement however was after the dancing was over, when they squatted around the fire built in the middle of the track and dealt with the proceeds. The chief of the tribe was one Charlie Will Polken, who informed us that about three times the number would perform next year.

There will be a meeting of those interested in the Havana Cigar Syndicate in the Office of S. T. Elliott on Friday night at 7.30 p.m. to consider the report of our representative. A full attendance is requested.

A Big Step Forward

T. Lawson, Ltd., Open Their Fine New Store.

Last Friday was a proud day for Messrs. Lawsons, Ltd., when they opened the doors of their magnificent new store to the public. The new building, which occupies the same site as the old frame building from which they moved at the beginning of the present year into temporary premises in the Keller block, is a fine modern brick and stone structure nearly double the size of the previous one, and affords eloquent testimony to the rapid strides the firm has made and the important position it has attained.

The new store is probably one of the largest in the in the interior of the province, and as it is erected on one of the most commanding sites in the city, it is one of which not only it enterprising proprietors but the whole of Kelowna may be justly proud.

The building has two large entrances on Bernard Avenue with large window frontage, and extends backward to the Opera House, with large warehouses in the basement of the latter.

But imposing as the store looks from the outside, a peep inside reveals still greater magnificence. A traveller remarged to us as we were looking admiringly around the store, "You have to go to the coast to beat that." We have some knowledge of stores at the coast and elsewhere, and we have no hesitation in saying that the interfittings of Lawson's new store would not disgrace thes best of them. Everything about the place, counters, shelving, showcases, and partitions are of the same genuine material—solid polished oak. It would be difficult to speak too highly of the splendid appearance, workmanlike finish, and wonderful ingenuity and economy of space displayed in these fittings. We confess to a weakness for finely finished woodwork, and here we have it wholesale.

Each of of the five departments has its own portion of the store, its appropriate fittings, viz.: groceries, dry goods, boots and shoes, haberdashery and clothing, and gent.'s furnihings.

It is in the grocery department where the ingenuity of the fittings is most apparent. Behind the counters is a long row of cleverly contrived bins, balanced so that the have to be quite closed or else wide open. They are moreover dust and mouse tight. Practically every ivery inch of space is used for shelves or cases of some kind, while neat little glass fronted sample cases run along the front of the counters and of the bins behind.

Another arrangement which will be appreciated by tired lady shoppers is a row of spring seats, which fly up against the counter out of the way when not in use.

At the back of the grocery department is the cashier's desk and the private offices of the firm.

Space however will not permit us to describe in detail each of the many departments, or the elegant contrivances for displaying and storing tne huge and comprehensive stock. Better pay a visit and see it for yourselves.

The lighting of the store is by means of twelve 100 candle power lamps, while the windows are fitted with several of fifty candle power.

Lawson's has long been known for fair and satisfactory dealing, and their enterprise and progressive spirit is reflected in the new venture.

Mr. and Mrs. Dan Brown arrived here last Friday from Dresden, Ontario, and is at present with Mr. and Mrs. A. R. Muirhead. He intends to locate in this district, and received a carload of settlers effects yesterday afternoon.

The C.P.R. officials will arrive today in connection with the new C.P.R. slip.

Mr. D. W. Sutherland is putting in a gasoline pumping engine at his house.

Kelowna Wins at Westminster

Kelowna's Fruit Exhibit Scores Sweeping Success at the New Westminster Fair - $700 in Prizes

The large Provincial Exhibition at New Westminster, which was opened by Premier McBride last Tuesday week, will remain in the memories of the people of Kelowna for some time to come.

The exhibition which is held each fall under the auspices of the Royal Agricultural and Industrial Society of British Columbia, is looked upon as the leading fair in Western Canada, and it is certainly a high honour for Kelowna to have come away with such flying colours from such an important exhibition.

The history of the exhibit that was sent from Kelowna is generally well known, but a few words as to the collection of the fruit may not be out of place.

Several of the specimens sent, were obtained through Messrs. Stirling & Pitcairn, and purchased by the Agricultural and Trades Association in the ordihary course, from the usual class of goods sent in for shipment. Then again other specimens were obtained as they were brought in to the Farmers' Exchange for shipment.

Previous to the show, Messrs. B. McDonald and A. E. Boyer paid a visit to nearly all the orchards, selecting prize fruit, taking great pains to collect the best and unblemished sorts. Very little of the exibit was collected from the fall fair held here some weeks back.

Packing previous to shipment to New Westminster, was a pains taking task, and despite the careful handling at this end, and packing such as won praise from everyone who saw it, including the judges, who awarded it a special quite a little in transit at the hands of the hands of the C. P. R. employees.

Mr. J. Sewell, who won great fame as an expert packer at the Kelowna Fall Fair, was responsible for the excellent packing for the New Westminster exhibit, showing perfect firmness, alignment and attractiveness in each box.

Arrangements had been made at the Landing to have a special car for transferring the fruit to the Royal City, but this was the only consideration shown the exhibit by the railway officials, for the full express rate of $1.80 per hundred lbs. was charged, a special fruit rate not being considered as applying to the exhibit. This consequently made the cost of transportation heavy in comparison to what it should have been, and a rebate is now awaiting the adjustment of the company.

Nevertheless the shipment arived in good condition, and it was not long before Messrs. McDonald and Boyer laid hands on it, to place it in position to compete against exhibits from the best known fruits landa in the province.

On Tuesday, Oct. 12th. at 2 p.m., the arduous task of judging the exhibits began, and a finish of this work was not made until the following morning.

The faces of those in charge of the Kelowna A. & T. exhibit must have beamed when they totted up the number of prizes won, and were able to send the following telegram to headquarters:

New Westminster, B. C.
October 14 1909.

Out of 250 entries, won 72 firsts, 64 seconds and 61 thirds.
Total amount of prize money $700.

Three special prizes were also awarded Kelowna for the following well contested exhibits:

1. For the best exhibit of Winter Apples, not less than five varieties, (six entries,) a cash prize of $5.

2. For the best exhibit of Winter Pears, not less than five varieties, (six entries,) a cash prize of $5.

3. For the best packed box of apples for market, (seven entries,) a cash prize of $7.

Kelowna practically swept the board in every class it exhibited great credit being due to those who had the work of selecting in hand, and the work of carrying the fruit to its destinationn.

The following list of classes entered and the prizes won may be of interest to our readers, each class being well competed.

Are you a supporter of Cook or do you believe in Peary? This is a question of the day. Newspapers once strong in party politics have quitted thinking about them, and are devoting columns of space to trying to show by all kinds of impossible theories that Cook did or did not reach the pole. The opponents of Cook will publish with the air a scientific treatise an array of crushing "facts" from which there seems to be no escape, only to be crushed into unrecognizable nonsense in the next issue.

Somebody has made a comparison of the charts of the two explorers. When in the same latitude one party says the goin was smooth, the other says it was rough, while in another another latitude where one comes across nothing but the open sea, the other encounters the hardest of unshiftable ice.

In the meantime all we can do is to wait patiently for the proofs which each declares will shortly be forthcoming.

Owing to lack of interest the Free Reading Room was closed to the public last Friday. Not often has such an opportunity been placed before a town like Kelowna as that which was given by Dr. Boyce last year when he offered the use of the room free of cost, provided that good reading matter was supplied for the use of the public, and no fee charged for admission.

The project was taken up with much enthusiasm at the start, but gradually dwindled down until the interest was practically nil, and the finances down to zero.

A final effort was made to arouse public interest by calling a general meeting and electing fresh officers. This, however, failed to produce any adequate response, and Dr. Boyce has now signified his intention to give the use of the room to some better supported institution.

Under the circumstances it was decided to wind up the society and sell off the furniture to pay the debts.

This is an unfortunate ending to an institution in which there were great possibilities of future development.

The heart of every true citizen rejoiced last Thursday when the news of Kelowna's splendid successes at New Westminster were made public. Pride was marked on every countenance. Everyone was telling everyone else about it with a chesty air as if his apples had won the prizes. Every farmer coming into town stopped to look at our large poster which bore the results, a spirit of pride seizing him as he read the good news.

In the offices of the Farmers' Exchange sat Mr. Hamilton, answering the various enquiries about the exhibit from the numerous callers, while the telephone wires were kept red hot spreading the news here, there, and everywhere.

Rutland News.

The advantages of living in a fruit-growing district where individual holdings are limited to ten or twenty acres were very forcibly illustrated by the numbers who attended the adjourned meeting of the Literary and Debating Society on Friday last. When forty or fifty people can meet together within a radius of not more than two miles, it speaks volumes for the possibilities of social intercourse and neighborly exchange of ideas. The Society had a very pleasant send-off in the form of a social, held at the home of E. C. Goodrich, the president, Mr. C. H. Leathley, presiding. After the officers had been appointed, a musical programme, consisting of songs, recitations, and instrumental selections was rendered with marked ability, proving that fruit-growers are not devoid of taste and culture. At "half-time," refreshments were served by Mrs. Goodrich and the ladies. Some of the "batchers" (we beg pardon, we mean to say bachelors) show a great reluctance at starting the second half of the programme, having in their minds' eyes the sour dough of the next day's meal.

The Society commences with a good membership of 30, and if the officers each do a little towards helping to attain the object in view, viz.: friendship and mutual contentment, they will aid materially in making Rutland a good place to live in.

The following officers were elected: Honorary President, Price Ellison, M.P.P.; President, C. H. Leathley; 1st Vice-President, Williston Schell; 2nd Vice-President, Mr. Clever: Secretary-Treasurer, Lorne Sproule.

We hear that a dance was held at the Dilworth home. "Brown," of course, was a prominent promoter, and we understand his friends had a good time. We hope to attend a house-warming when the genial "Brown" completes his palatial residence (the foundations of which were laid in the spring) when he will be able to entertain his friends without borrowing either houses or chairs (with or without leave).

Victor Dilworth has taken up his residence on his own lot, and we wish the young couple health and prosperity.

D. E. McDonald, our well-known store-keeper, welcomed his brother and family last week. The business has steadily increased, and will be known in future as Mc Donald Bros.

The Coming Local Option Convention at Vernon

The committee in charge of the programme for the Local Option Convention to be held at Vernon next Tuesday and Wednesday, October 26th and 27th, has suggested the following items:

Tuesday Afternoon, 2 to 2.30 o'clock. Chair to be taken by the Rev. Dr. Spencer, of Vancouver. General subject of discussion: "The Coming Plebiscite." Rev. Dr. Osterhout, Rev. S. J. Thompson, and J. W. Jones are expected to lead in the discussions.

Tuesday, at 8 p.m. Mass meeting. Chair to be taken by Mayor Bell of Enderby. Singing in charge of Rev. Mr. Bauton. Addresses will be given as follows: "Is Local Option as Successful as a Prohibitory Law," by Rev. Gifford. "The Responsibility of the Voter," by Principal Sawyer. "Local Option and Democracy," by C. S. Stevens. "Is B.C. Ready for Local Option?" by Dr. Spencer.

Wednesday, 9 to 11 a.m. Organization of District League, appointment of committees re literature, voters' list, public meetings, etc. Ajournment.

Reduced rates are to be given by the C.P.R., and billets will be provided by the W.C.T.U. of Vernon. Delegates are asked to purchase tickets on Monday, and it is understood that all persons in favor of Local Option are invited to the convention.

The W. C. T. U. are holding a medal contest in the Opera House next Thursday, October 28th, commencing at 8 o'clock. An excellent programme is being arranged, and those attending will spend a pleasant and profitable evening.

The ladies of the W.C.T.U. held a very interesting meeting last Tuesday week, when the subject of equal franchise was ably discussed. Mrs. S. J. Thompson lead the discussion, being well versed on the subject.

Ellison School District.

On Tuseday evening, Oct. 15th, the Ellison school house was thrown open to allow a social gathering to make preparations for the weekly entertainments to be held there during the winter. Mr. Thomas Bulman presided, and in his kindly and affable manner explained ths purpose of the meeting. His remarks were followed by a fine musical solo on the organ, by Mrs. Stirling, who also played the accompaniments to the songs which followed, and which were amongst some of the best ever heard there. Mr. Schmab's song was beautifully rendered in his clear musical voice. "Rocked in the Cradle of the Deep," sung by Mr. MacMorland in deep rich bass voice, enraptured the audience who were fortunate enough to obtain another song in the same strain. Mr. Harry Hall, one of our favorite singers, sang "The Anchor's Weighed," giving delight to his audience that they begged for an encore. A comic song by Mr. Stirling, acted to perfection, kept the house in laughter. As a comic singer Mr. Stirling is hard to beat.

A discussion then took place relative to the organization of the debating society followed in which Mr. Bulman, Mr. G. Stirling, and Mr. John Conroy took part, and a committee, consisting of Messrs. Carney, Stirling, Hereron, Mrs. Stirling and Miss O'Reilly, were appointed to superintend the entertainments.

News of the Valley.

The C.P.R. steamer York, which has been moored at the landing for some time past, came down to Short's point last Friday to fetch a boom of piles for use In the construction of the new station wharves at the Landing.

After a meeting of the police commissioners at Vernon it was agreed to dispense with the sevices of Constable Bailey, the decision to take effect the middle of the month.

Mr. Brandrith and Mr. Thornton of the Department of Agriculture were in Vernon last week. They left last Thursday, together with Mr. W. E. Scott, for the Old Country where they will take charge of a carload of Okanagan fruit which will be used for exhibition purposes.

A taagedy, resulting in the death of one person, occurred near Hedley a few days ago. Billy Coon and his wife, both of whom, it is stated, had been indulging too freely, started to drive home in a buggy. They were met by one of their neighbors, who noticed their condition, and later on, Mrs. Coon was found on the road side, dead, having broken her neck, the cause of a fall. Coon wss found on the road further on, incapable from over-indulgence in drink.

Work has now started on the Okanagan River bridge, at Penticton.

A representative of the Dominion Government Telephone service, went over the route for the proposed extension from Penticton to Naramata last week. A service is to be connected up in the near future.

The Legge-Willis Company, of Kelowna, are playing "Dandy Dick," at Summerland, on Saturday next. The production should meet with the same success that attended it when it was produced here during the Race week.

News of the Prairie.

Several well known merchants of Brandon were before the magistrates recently, charged with having combustable material uncovered at the back of their yards, within 200 feet of the building. A fine of $5 and costs was imposed in every case.

A threshing gang, working at Creeford, Manitoba, had a narrow escape last week, through the explosion of a lantern in the caboose. The men were asleep when the explosion occurred, and the flames got ready hold of the woodwork, and filled the shack with tongues of flame. Several of the occupants had narrow escapes, but all managed to get away from the burning mass. Clothes, money and other personal effects of the men were destroyed, many losing quite a large sum of money.

HOUSES IN FEZ.

The Roofs In the Early Evening Are Exclusively For Women.

In Fez, the capital of Morocco, most of the houses consist of several stories, each being provided with a light veranda running round it and connecting the rooms. All the windows and doors open out into the patio, or courtyard, the window openings in the upper stories being covered with close trellis-work. All the houses have flat roofs, with a wall some four to six feet high running around, and from 4 p. m. until sunset the roofs are given over to the ladies exclusively, who can then walk about and take the fresh air without being seen by any of the opposite sex. This reservation is a law which is never broken, and no man would be guilty of being seen on his or on any other roof during the forbidden hours. Owing to the fact that the women of the house are not allowed to be seen by any other man than their lord and master all domestic offices are situated away from the house proper. In many of the larger houses, besides the water fountains, others playing scent or scented water are to be found. Sections of the courtyard also are slightly sunk, and these portions are filled with scented oil, which is used to perfume the rooms. The Moors are exceptionally particular in discarding their foot gear before entering a room or crossing a rug or carpet. They even change slippers before entering the courtyard from the street. Thus the houses are kept beautifully clean and sweet and are not, as many people would suppose, musty or close.

WATER SPLASHERS.

A Swedish View of English Life and Manners.

A sharp tongued correspondent of a Swedish paper, the Svenska Dagbladet, thus comments on some of the peculiarities of English life and manners.

English cleanliness is much spoken of. The Englishman must have a great deal of water to wash with. A quantity must be splashed all over the room, and in particular there must be a great pool near the washstand. When an Englishman washes his face, in seventy-eight cases out of a hundred he simply takes the water in his hands and blows it all over the floor.

Englishmen are mad over fresh air. The expression may seem ironical to those who know how in London one does not so much breathe the air as swallow it. Tramway car windows stand open the whole year round, and there is no country like England for the prosperity of dealers in cough and cold medicines.

Hygiene may appear to be perfect in London, but they still say that much remains to be done. Spitting is not allowed in the parks, at least not near the seat. I have found that one of the cheapest and best places for spitting is the British museum, where it costs only $10. On the Great Eastern railway it does not cost more the first time, but afterward the price is $25 a time, in direct opposition to the usual business principles of discount.

Inhaling Water.

Undoubtedly the majority of bathers who are drowned meet their deaths from cramp. Cramp is liable to seize anybody at any moment, and when it comes in deep water few swimmers have sufficient presence of mind to turn on their backs and wait quietly until the attack has departed. So they go under. But there is another danger quite as imminent as cramp, though it is probably less known. This is water inhaling. A swimmer or even a wader is always liable to inhale spray through his nostrils, which, passing through the pharynx and behind the epiglottis or windpipe guard, gets into the windpipe and causes death. As one would expect, water inhaling is almost wholly confined to the sea and very rarely occurs in fresh water. All the same, it may happen anywhere.—Exchange.

Dolphin and Flying Fish.

A ship was lying at anchor at Boca Grande, says the Punta Gorda Herald, lately when the crew observed a dolphin chasing a flying fish, both coming directly toward the ship. On nearing the vessel the flier arose in the air and passed over the bow just abaft the foremast. As it did so the dolphin went under the ship and, coming up on the other side, sprang from the water and caught the flying fish on "the fly" just as it was curving gracefully down in its descent to the water.

Fooled His Doctor.

The late Rev. H. R. Hawels, who was equally notable as preacher, journalist, lecturer and musician, suffered from a dangerous hip disease when a boy of nine. The celebrated Sir Benjamin Brodie, who was asked if a change of scene would benefit the afflicted youth, answered, "Take him anywhere—it does not matter."

Hawels lived to laugh at his doctor and half a century later, after a life of exceptional industry, he was in vigorous health.

Practical.

Walking leisurely around the Egyptian sphinx, the traveler from America inspected it from all points of view.

"It's a shame," he exclaimed, "to leave the thing in that shape. If I had it out in Chicago I could clap a good cement nose on that face so quick it would make its head swim!"—Chicago Tribune.

Grass Baskets.

To restore the fragrance of baskets made from sweet scented grass after they have apparently lost it, plunge them into boiling water, removing them almost instantly.

BROKE IT GENTLY.

The Reason the Brakeman Quit Railroading For Awhile.

Danny Wilmarth was a brakeman One day while his train was on a side track at a town in Ohio another train that was doing some switching on the same track suddenly bumped into the caboose on the rear platform of which Danny was standing, and he was severely bruised. He was taken to a local hospital, where it was found that his injuries were so serious as to necessitate his remaining several weeks for treatment. At the end of a month he surprised his mother at her home in Pittsburg by walking into the house on crutches.

"Why, Danny," she exclaimed, "what is the matter? What has happened to you?"

"Why, I wrote and told you, mother," he answered with a grin.

"No, son, you didn't. All you wrote was that you were going to quit railroading for awhile, that you had found something else to do and that it was an indoor job. You didn't say a word about getting hurt or anything of that kind."

"I surely did, mother. I told you what happened to me."

"You surely didn't!"

"How did I say I came to be staying in that town?"

"You said you happened to be caught there between trains."

"Well, I was."—Youth's Companion

OUR MILLIONAIRES.

American Money Kings From a German Point of View.

In a satirical article entitled "The Natural History of American Millionaires" a writer in the Berliner Tageblatt says: "They all came to New York, Chicago or Philadelphia with one shirt and with one cent in the pocket of the only other garment. All served as bootblacks, errand boys or even in more humble positions and in the second week had saved enough to buy a waistcoat. After one month they appeared before their respective employers clad in new clothes and told them with imposing self confidence that the organization of their business was defective and required reorganization. A year later the boy has become a partner, in two years he has outstripped the former boss in wealth, and a year later he has grown smart enough to kill off the benefactor of other days. All American millionaires arise at 3 in the morning, eat and drink almost nothing, cease their work at midnight and allow only those to live whom they think are good enough to invite. Every dollar king founds a university, an opera, a museum or a picture gallery. Life becomes a burden to them when there are no more competitors in their branch worthy of destruction. Then they lie down and die of ennui."

Almost Heavenly.

"That is Saturn you see now," explains the astronomer, while the visitor to the observatory peers through the telescope at the mysterious orb with its rings and with its moons showing as little points of light.

"It's away off, isn't it?" asks the visitor.

"Oh, yes. Saturn is so far off that it requires thirty of our years to make the circuit around the sun."

"Thirty years!"

"Yes."

"My! Saturn must be pretty close to heaven."

"I couldn't say as to that."

"I should call it almost heavenly not to have to buy spring dresses and hats for my wife and daughters not more than once in thirty years."

For fear the visitor would have something to say about the summer engagements on Saturn being responsible for the rings, the astronomer quickly pointed the telescope toward Jupiter.—Chicago Post.

Doing a Man's Work.

The Widow Skinner has been twice bereaved, and she was telling me about her two husbands over a cup of tea.

"Boggs was the first," she said dreamily, "a ornery hound wot usued to git drunk and come home and lam baste me all over the place. After Boggs died I married Skinner. He was a good for nothin', ornery critter wot 'ud turn up full, and I'd lam him till he couldn't see."

She chuckled with quiet amusement.

"Well," said a listener, "the last was better than the first, at least."

But the widow shook her head.

"No, 'tw'an't," she said. "I'd kinder got used to Boggs' little ways, and in Skinner's case I never cottoned to the idea of doin' a man's work about the house."—Exchange.

Drifted Into It.

"Yes, I've managed to get into debt pretty deeply," said Kayrliss.

"Indeed," remarked Wise. "I gave you credit for more sense than you seem to have."

"H'm! The trouble was that my tailor gave me credit for more dollars than I seem to have," said Kayrliss.—Catholic Standard and Times.

Nothing to Offer.

"Have you," asked the judge of a recently convicted man, "anything to offer the court before sentence is passed?"

"No, your honor," replied the prisoner. "My lawyer took my last farthing."—London Mail.

Wise Poets.

"Do poets ever write poems in their letters to their sweethearts?" asked the sweet young thing.

"No," replied the near famous bard. "We've got more sense than to queer the game in that manner."—Milwaukee Journal.

Old Country News

Honey Harvest Poor.

The Honey harvest has been a failure this year. One of the principal bee keepers has obtained only 150 pounds sections from 28 hives at Harply, Norfolk, a decrease of 1,000 (sections on last year's crop. Of run honey, about 90 pounds were taken from the hives, showing a decrease of 900 lbs. The bad crop has been caused by the damp and cold season.

Killed by a Wasp.

A death is reported from Dumphries, owing to sting from a wasp setting up blood-poisoning. The wasp stung the lady through her glove as she was entering church.

London's New Lord Mayor.

The livery men of the City of London have elected Alderman Sir John Knill as Lord Mayor for the ensuing year. The aldermen had received a letter from the Protestant Truth Society urging that a promise should be exacteed from Sir John, who is a Roman Catholic, that he would pay the necessary respect to the Church of England when visiting it on any civic occasion, and that he would not propose the toast of the Pope before that of the King, as was done by Sir John's father in 1893. The following questions were consequently asked befor the election was completed: (1.) Will you undertake, if elected to attend St. Paul's Cathedral and other churches on all ceremonial occasions according to ancient custom? (2.) Will you appoint a Protestant Chaplain? (3.) Will you undertake that all charitable funds raised at the Mansion House shall not suffer on account of the denomination or purpose for which they are raised? (4.) Will you agree on all ceremonial occasions to put the King before the Pope? Sir John gave the necessary promises.

Mrs. Pankhurst Sails for New York.

Mrs. Emmeline Pankhurst, the noted suffragette and leader of the suffragette movemeut, sailed for New York last week on the steamer Oceanic. Mrs. Pankhurst will tour the United States in the interests of woman suffrage.

J. M. Barrie Secures Divorce.

J. M. Barry, the novelist and playwright, secured a divorce from his wife last week on the grounds of the latter's misconduct with Gilbert Cannon, a young author. The suit was undefended. Mrs. Barrie was formerly an actress, appearing under the stage name of Miss Mary Ansell.

Scott for the South Pole.

At a meeting at the Mansion House, presided over by the Lord Mayor and several other prominent persons, it was decided to start a public subscription list to equip an expedition under Captain Scott to the South Pole. The list was started with a subscription of £1,000 from Sir George Speyer, several smaller sums being subscribed by others present. Capt. Scott was present and gave a brief outline of the course and the estimated cost of the expedition.

London's 34,000 Landlords.

The London County Council have spent a decade in preparing a plan of London, showing the owners of the land. This is nearly completed, and shows that 34,600 landlords own land covering 113 square miles, these being mostly single householders. Sixty square miles are owned by 187 persons, organizations, and companies, while one-third of this area belongs to the crown, the ecclesiastical commissioners, the county council, and the city corporation. The value of the land is estimated at over $300,000,000.

Sixpenny Cab Fares.

A regiment of sixpenny cabs will be placed on the streets of London soon. The Kensington Hackney Carriage Association are the proprietors, and the experiment will be watched with great interest by other owners. The drivers who will accept the sixpenny fare will carry a flag with the words "sixpenny fares" printed upon it. Hitherto the minimum fare has been fixed at one shilling.

Dover's New Harbor Completed.

His Royal Highness, the Prince of Wales opened the new Admiralty Harbor at Dover last week. The work which has been thus brought to completion started in 1898. The new harbor, which has an area of 610 acres, can accomodate Dreadnoughts and all other heavy types of vessels at all times, and is to be used by the Atlantic as well as the Home Fleet in the North Sea.

"What's this?" demanded the customs officer, pointing to a package at the bottom of the trunk.

"That is a foreign book entitled Politeness," answered the man who had just landed.

"I guess I'll have to charge a duty on it," rejoined the inspector. "It competes with a small and struggling industry in this country."—Chicago Tribune

Johnny—"That lady bought me a box of chocolates." Mother—"I hope you behaved nicely and thanked her."

Johnny—"Oh yes, mother, I did. I told her I wished Dad had married her."

Spokane Apple Show

Spokane, Wash., Oct.—Fifty-two competent bandsmen will furnish the musical programmes at the Second National Apple Show in Spokane, November 15 to 20, also heading two parades daily during the week. The largest organization is the National Apple Show band of 32 pieces, under the direction of A. G. Reemer, which scored an instantaneous hit at the first exposition last November. The Knights of Pythias band of 20 pieces has also been engaged. This band has been heard on various occasions, meeting with favour at all times. The National Apple Show band will be stationed in the Armory, where a new stand will be erected, while the Pythians' band will be in the main exposition hall.

"Probably this is the lagest combined band that has ever been heard in this part of the Northwest," said Ren H. Rice, secretary-manager of the show, "and we expect this will be a big feature during the week. Professor Reemer is now at work on a new march, which will be dedicated to the National Apple Show, Inc., while W. Van Hinkle, of the Pythians' band is arranging for a composition in honour of King Apple.

"We have also completed our board of judges by the engagement of W. J. Green of Wooster, chief of the department of horticulture at the Ohio experiment station. He has been actively engaged for 35 years in promoting the interests of fruit culture, and is in hearty sympathy with the interests of the apple show.

"The judging department is headed by Professor H. E. Van Deman of Washington and the associate judges in addition to Professor Green are, A. P. Bateham of Mosier, Ore., H. M. Dunlap of Savoy, Ill., and George J. Kellogg of Lake Mills Wis.

"The engagement of Professor Green will be of particular interest to former residents of Ohio, now living in the Inland Empire. He has been horticulturist of the Ohio station for 26 years, during which time he given special attention to the apple, its culture and exhibition at fairs and expositions. He has also served as judge at various hortcultural and pomological meetings, also at county and state fairs. He is a member of the American Pomological Society and an honorary member of several horticultural associations.

"We are pleased with the way entries are coming in and believe that the displays will be larger and more representative than those at the first show, the reason for this being that the growers realize the advantage to be gained from exhibits, especially prize-winning ones at the coming exposition. We shall have entries from practically every commercial district in the country, including the valleys in Washington, Idaho, Montana and Oregon, also a big showing from the province of British Columbia and probably from other points in Canada.

"Our correspondence files show that growers and handlers all over the country as well as many in Europe are awake to the fact that the apple is a staple product, and that because of the wide-spread exploitation during the last two years the markets at home and abroad are widening rapidly. They realize, too, that prices for apples of colour, size and flavour are advancing and that the consumers are ready and willing to pay for clean and wholesome fruit, also that such a thing as over production is entirely out of the question."

A Bit Thick.

It was on one of the Clyde steamers. Some of the passengers were relating their experiences of fogs.

"Yes," said the old salt, "I've seen some pretty thick fogs in my time. Why, off the coast of Newfoundland the fog was sometimes so thick that we used to sit on the rail and lean against it! We were sitting one night, as usual, with our backs up against the fog, when suddenly the fog lifted, and we all went flop into the water. A bit thick, wasn't it?"

Playing Safe.

"Doctor," said the caller, "I'm a victim of insomnia. Can you cure me?"

"I can," replied the physician. "But before I take the case I want to ask you one question. Are you in business for yourself or do you work for others?

"I'm employed as a clerk in a grocery," answered the patient.

"Then you'll have to pay in advance," said the doctor. "I'm not doubting your honesty, but after I get through with you the chances are you'll lose your job. Then you can't pay me."

Catch the Cold!

In a strict sense you do not catch cold, but rather the cold catches you.

It catches you when your vitality is low, when the circulation is impeded by sudden draughts of cold air.

The right thing to do is to reverse things and catch the cold in the start and stop it before it has you firmly caught.

You can do this with

Lax-a-Cold

It stops colds in the beginning, and cures settled colds in one fourth of the usual time.

Bull Breaks Loose at St. John.

A large bull, which had been landed from a river boat at St. John, N.B., made its escape, and turning on one of the dock hands gored him severely. The animal then dashed up main street, knocking down a young girl, goring the child badly before a workman near by could could interfere. The workman was next attacked and severely injured before the infuriated brute was chased away. After two hours the bull was caught, tied to a telephone pole, and shot.

Heavy Snow in Ontario.

A heavy fall of snow, the first this season, is reported from Kenora and Ignace, and the C.P.R. has been forced to place snow-plows on their trains between Kenora and Fort William. The snow seems to have come to stay.

Faulty Switch Wrecks Train.

A local train from Moosejaw was wrecked at Broadview last week, but fortunately no one was injured. As the train which was travelling about twenty miles an hour, was passing a house track switch, the mail car and those behind took the switch and derailed the engine. The track was torn up for several yards, the engine burying itself in the ground. The engine, tender, and baggage cars were completely wrecked, but the other cars remained uninjured. A delay of about two hours was caused before the train could proceed upon its way.

"E.R." to Remain on Stamps.

A report was circulated some time ago that the letters "E. R." on the official postage stamps were to be superseded by the letters "D. C." (Dominion of Canada). The Post Office Department have, however, denied that any such change is pending, startng that they had never entertained any such proposal.

"Times" Editor Hurt.

L. F. Amery, chief editor of the "Times" (Eng.), sustained severe injuries when out riding with Earl and Lady Grey at Winnipeg. His stirrup caught on a post while he was going through a half open gate, and he sustained a double fracture of the ankle, being thrown violently to the ground. Mr. Amery has been nominated for a third time as the Unionist candidate for Wolverhampton at the coming general election, and is anxious to get back to England.

To Find the South Pole.

Captain Ronald Amundsen, the well-known Danish explorer, who is about to start on a polar expedition, has decided to try a remarkable innovation in the use of draught animals for polar travel. He will endeavour to make polar bears draw his sledges. Some time ago Amundsen made a contract with a well-known trainer for twenty ice bears, three years old. The bears ordered have been obtained and trained, and the results obtained promise to make the animals of service in polar work. The start for the pole will be made rom Christiana in December.

Damage by Fire at Rapid City.

A fire broke out at Rapid Clty last week, which, before it could be got under control, did damage to the extent of $10,000. It originated in Glendenning's carpenter shop, and spread so rapidly that soon the four buildings adjoining were in flames. The town hall was destroyed, as also were a bakery, a dwelling house, and the offices of Mr. Young, veterinary surgeon. After an hour and a half hard fighting the fire was subdued.

Bomb Outrage at Ingersoll.

The police at Ingersol, Ontario, are looking for a man who threw a bomb at Alderman James Buchanan. The circumstances os the case are most peculiar, as nd definite reason can be given for the outrage. Ald. Buchanan was in the bar-room of the Kirwin House, and as he was lighting a cigar, a bomb was thrown at him. The machine exploded with terrific force, tearing away two fingers of his right hand, and otherwise injuring him. He was rendered unconscious for some time. A search is being made for a stranger who was noticed hanging round the doors of the bar about the time the outrage took place.

Storms on Great Lakes.

A terrific storm has been raging on the Great Lakes during the past week, keeping all the smaller boats in shelter and making it difficult for the larger and passenger ships to ply their trade. Port Arthur has been besieged by boats taking refuge.

No White Waitresses Allowed.

It has been pointed out to the police commissioners at Toronto, that it is against the law to grant licenses to Chinese restuarants, unless the Chinaman agrees not to employ white girls as waitresses. The board have therefore decided that it will refuse all licenses until this stipulation is agreed to. As to what steps shall be taken with those who have already obtained licenses without the agreement, no decision has been arrived at yet.

Lords Day Alliance on Milk.

The Lords Day Alliance has protested against Cobalt hospitals being supplied with milk from Toronto on Sundays. The protest which has been sent to one of the directors of the hospital board, has been received with no small amount of comment.

Boiler Blew Up.

With a roar that startled all the inmates of the Bath Hotel and other adjacent buildings at Montreal, one of the boilers in the cellar of the hotel blew up. Arthur Willett the fireman, was so seriously injured that he died soon afterwards, another man near by was terribly shaken up but will recover. The immediate cause of the accident is not made public.

A Thief's Cheek.

A strange theft is reported from Montreal, the thief getting away with a sum of money in one of the coolest ways imaginable. A man very smartly dressed, walked up to the cashier in A. E. Rae's store and representing himself as Mr. Rae demanded $170 stating at the same ttme that he was in a great hurry. The girl immediately counted out the money and handed it to her supposed "boss" without any hesitation, and the thief got clean away before the theft was found out.

Record Price For Front.

A record price was established last week in Vancouver when the Bank of Ottawa purchased the south west corner of Hastings and Seymour Streets with 62 feet on Hastings Street at $3,000 per foot frontage.

Will Give Free Seed.

Help is to be given the sufferers from the great prairie fire north of Red Deer which occurred a few days ago. Hon. Frank Oliver has stated that the government will supply free seed for one year at least, and possibly two years seed may be supplied. The information was received by the almost destitute farmers with a sigh of relief they having lost practically all they had. Financial help is also promised from the larger towns of Alberta.

No Exhibition For Vancouver.

Owing to the fact that the new exhibition building at Vancouver has not yet been finished and building operations are delayed, it has been decided that no exhibition will be held at Vancouver this year. The street car service to the grounds which was to have been extended in order to cope with rhe increased traffic has also been delayed, and under the circumstances the association has decided to withdraw its proposed show for this autumn.

Council Against Peace Commemoration.

The council of the Montreal Board of Trade extended a deaf ear recently to the proposal of the Canadian Peace and Arbitration Society, that a petition should be signed to the government praying for international peace in commemoration of the century of peace between Canada and the United States. They are practically the only public body that have refused to sign the petition, and their action is causing world wide comment.

Jap Sentenced to Death.

Yeshikama, the Japanese who killed a countryman by disembowelling him at Skeena, has been sentenced to death. The deed was the result of a quarrel between the murderer and his victim, the former objected to the latter turning down the wick of a lamp in a cannery bunk-house and a fight ensued resulting in death. The sentence will be performed on December 10th.

To Succeed Mr. Maxwell Smith.

The government has appointed M.B. Robertson of Pine Head to be fruit inspector for British Columbia to succeed Mr. Maxwell Smith who has gone into the newspaper business.

Danger of the Spread of Weeds Averted

It is noted in the Census and Statistics Monthly that information was recently received by the Weed branch of the Dominion Government that cargo of wheat screenings were being shipped from Port Arthur to Montreal. On account of the danger in the spread of noxious weeds through carelessness in handling screenings of this sort, an officer was sent to Montreal to inquire into the disposition of the cargo. The analysis of a sample of the screenings showed that they contained 16.3 of wheat 46.9 weed seeds, and 36.8 inert matter.

The weed seeds were represented by 29 different varieties, eleven of which were of the kind named in the Seed Control Act. It was found that the screenings were being offered at $19 per ton, and would be sold either whole or ground into meal. The germinating powers however are not killed in the grinding. It is evident that there is considerable danger of introducing noxious weeds by carcsness in handling screenings.

Social and Personal

P. Prozesky returned from Eastern points last Friday.

Born—To the wife of G. E. Knippel on Wednesday, October 6th, 1909, a son.

Mr. and Mrs. J. W. Jones returned last Saturday from a visit to the A.-Y.-P. Exposition and the New Westminster Fair.

Mrs. W. G. Russell returned Saturday from a visit to friends at the coast.

Mr. Cummings, who, until lately was associated with the Royal Bank at this point, paid a flying visit to his parents last week, returning to Vancouver on Saturday.

Mr. J. A. Davy, manager of the Dumont Coffee Plantation in Brazil, paid a visit to his brother, Mr. A. R. Davy, during his illness. He left last Friday for England, from whence he will proceed back to Brazil.

R. G. McPhee returned last Saturday from a visit to the coast and the New Westminster Fair.

Paul Murray, of Peachland, was a visitor in town last Saturday.

H. Cartridge, of Vernon, was in town last week end, on business.

A. D. McIntyre, barister of Kamloops, was a business visitor in town last Friday.

Wm. Somerville, of Peachland, spent last Saturday in town.

L. Holman returned from a business visit to the coast on Saturday last.

Messrs. Pooley and Carruthers left last Saturday for Northern points.

Mrs. Daunton, of Penticton, was a visitor in town last Monday.

Heber Percy left on Monday last for his home in the Old Country.

Mrs. H. W. Beatty and sister left on Monday last for Streetsville, Ontario, where she will stay with her brother, Mr. J. Gartley.

G. Ritchie has the building contract in hand for a large brewery, which is in course of erection across the lake. The building is nearly completed and can be seen standing out along the shore line from this side.

W. H. Oliver, of Penticton, was a visitor in town last week.

Mr. and Mrs. Isiah Mawhinney will receive on Tuesday, October 26th, both afternoon and evening, between the hours of 3 and 5 and 8 and 10 respectively, the occasion being the 60th anniversary of their wedding.

Mr. and Mrs. Sutherland, Mr. and Mrs. Morris, and K. Scratchead, all of Vernon, spent last week end in town.

Ernest Wilkinson has been busy taking soundings of the depth of the lake during the past week.

U. S. Grant, of Yellow Grass, Saskatchewan, was a visitor in town last week end, looking over his property a Westbank.

Ed. McCluskey, of Vernon, paid a business visit here last Monday.

The new cement sidewalk on Glenn Avenue will be completed this week. It is a fine piece of work, and adds a most attractive and permanent appearance to the street.

Dr. Mathieson, dentist, Rowcliffe Block, Kelowna. Phone 89.

Town and Country News.

The Young Ladies' Auxiliary, of the Presbyterian Chcrch, have signified their intention to give a party on the evening of November 1st, (Halloween.) Announcement will be made by hand bills, shortly.

A large number have signified their intention to be present at the Local Option Convention, to be held at Vernon next Tuesday. Special excursion rates are to be given by the C. P. R., to all visiting the Convention.

Mr. A. R. Davy wishes to thank all those who so kindly asked after his progress, during his recent illness.

E. Bevan caught a fine three pounder, when out fishing at the beginning of this week. Some say fishing is over, but Ted says it is not.

At a meeting of the Literary Institute, held last Friday, it was decided to prepare a private bill of sale, and to sell the furniture for the best price obtainable. Only five members were present and the above course was resorted to, as the general public seemed to have lost all interest in the affairs. It was agreed that the secretary should wipe off all out standing subscriptions, as bad debts, and that he should make arrangements for all newspapers and periodicals to be given over to the hospital.

Lawson & Co. had a busy day of it last Thursday, moving into their new premises in the Raymer Block. It was not until five o'clock on Friday morning that the store was got into shape, ready to open to the public at the usual opening hour.

The Lyceum Concert Co., advertised to appear last Tuesday, cancelled their arrangements after the announcement appeared in print, giving as their reason, that they had accepted a special engagement at Revelstoke. They, however, state that they will fulfill their programme here at an early date.

The Kelowna Manufacturing Co. have made an addition to their premises, which they will use for office purposes, thereby being able to enlarge their work-shops, and conduct the clerical work away from the din of the machinery.

News has been receceived by Mr. J. W. Wilks that a meeting of the Farmers' Institute will be held on Nov. 3rd, when Miss Laura Rose, of Guelph, Ontario, will lecture on Domestic Science and Women's Institutes. Mr. B. Hoy will also lecture on horticultural subjects. In the afternoon Mr. Hoy will give practical demonstrations in pruning and fruit packing, providing that arrangements can be made to carry out that part of the programme.

The Oak Hall Clothing Co. have commenced the alteration to their store. It is their intention to put in a new front which will extend forward to the sidewalk.

The first instalment of our clubbing offers appears this week on another page. Some of the most interesting publications are included, and offered at reduced rates.

F. R. E. DeHart has been busy during the past week collecting fruit for the Spokane Show. Last Monday he paid a visit to South Okanagan, bringing back many fine specimens from that point. He expresses himself very well satisfied with the collection he has made.

Rev. Rochester, western secretary of the Lord's Day Alliance, and Sunday Observance Society, spent the week end at the Wilsons' home in Glenn Avenue, leaving on Monday for Penticton, where he addressed a mass meeting.

Mrs. Snyder, matron of the Chinese Home and School in Canada, run under the auspices of the Women's Missionary Society of the Methodist Church, is visiting the Rev. S. J. Thompson, at the Methodist Parsonage. She addressed a gathering at the home of Dr. Gaddes last Monday afternoon.

A branch of the Local Option League was started at Rutland last week, the following officers being elected: Dr. Baker, preident, Mr. Bird, vice-president, and J. Charleton secretary. It was decided to take immediate steps to secure a large membership.

Rev. Rochester, western secretary of the Lord's Day Alliance, addressed a large congregation in the Presbyterian Church last Sunday morning, in the interests of his society. In the evening he addressed the congregations at the Baptist and Methodist Churches.

A Union Thanksgiving service will be held on the evening of Thanksgiving Day, Monday next, commencing at 8 o'clock. The service will be conducted by the Rev. A. W. K. Herdman, assisted by Rev. Welsh, in the devotional part of the service. The Rev. S. J. Thompson will preach the sermon. A collection will be taken in aid of the hospital.

Mr. Geo. E. Boyer preached in the Bethel Church, Benvoulin, last Sunday afternoon.

Mrs. James Rae, of Benvoulin, has signified her intention to hold a Halloween Tea Social at her home on Friday, October 29. The admission will be 25c. for adults and 10c. for children. The social is being held in connection with the Ladies' Aid Society of the of the Benvoulin Presbyterian Church.

An important land deal went through last week, when the Messrs. Dixon Brothers purchased from Mr. Swalwell, 320 acres on the Vernon Road. The whole of the land is to be plowed up, previous to being put into tobacco. It is the intention of Messrs. Dixon to go largely into tobacco culture, and the land will be seeded down next spring.

Amongst the latest arrivals in town, are Mr. and Mrs. Jocelyn B. Whitehead and family, who have taken the house, recently occupied by Mr. S. C. King, in Glenn Ave. It is Mrs. Whitehead's intention, shortly to start a private day school. There is no doubt, a need for a school of this kind, and Mrs. Whitehead is eminently qualified by experience aud training to conduct a really first-rate institution. Mrs. Whitehead, too, is the mother of a family herself, and understands well the needs of children. She is, moreover, the possessor of numerous certificates in many subjects, and will, no doubt, do thorough justice to any children entrusted to her care.

B. McDonald and A. E. Boyer returned last Moday from their visit to the New Westminster Fair, receiving the congratulations of a number of friends as they stepped off the boat. Each had to settle down to a large batch of correspondence which had accumulated during their absence.

A CLEVER RECTOR.

How He Got All the Young Men to Church on Sunday.

"Many interesting stories are told of Bishop Wilmer of Alabama, who was noted for his wit and sharp repartee," said a clergyman. "A story which is considered characteristic of the man was told by a Virginia minister:

"When Bishop Wilmer was rector of the little Protestant Episcopal church at Upperville, Va., he was much worried by the nonattendance at service on Sundays of the majority of the young men of the community. On inquiry he found that instead of going to church they were in the habit of playing marbles for stakes. Marbles in those days, it must be remembered, was a much more serious game than it is now, occupying much the same position in the realm of sports as do billiards and pool in these days.

"Bishop Wilmer, then a parson not well known, determined to break up this practice. He himself had been an expert marble player in his boyhood. Accordingly one Saturday he came across a number of the young men engaged in a game. The good bishop asked several questions and finally challenged the lot to play him for "keeps." They readily consented.

"Much to their astonishment, the young minister won steadily, and soon they had to go to the stores to replenish their stock. Toward the close of the afternoon Mr. Wilmer had won every marble in the town of Upperville. Putting his "winnings" in a bag, he remarked as he walked away, "Now, gentlemen, since you can't play marbles tomorrow I hope to see you all at church." And he did."—Washington Herald.

SERVED THE TERRAPIN.

Crossed the Ocean to Supervise One Course of a Dinner.

George W. Harvey, the inventor of steamed oysters and a famous restaurant keeper, was once the hero of an incident that in some respects made the exploits of Lucullus and other noted gourmets of ancient Rome look cheap and commonplace. He made a 6,000 mile journey to cook or supervise the cooking of a single course of a dinner.

A wealthy Englishman noted for his love of good living while on a visit to Washington was given a dinner at Harvey's, at which terrapin formed the piece de resistance. It was the first time the Englishman had encountered the famous Maryland delicacy, and it made an instantaneous and profound hit with him. He decided that he would introduce the dish to his London friends and at once entered into negotiations with Harvey to come to London and do the cooking.

Harvey named his price, and it was accepted without a murmur, although it was a stiff one, as he was a very portly man and did not like to travel. At the appointed time he engaged his passage for England, took a sufficient number of live terrapin along with him and sailed for London. He supervised the preparation of the turtles in the kitchen of his generous employer, saw that they were cooked and served properly, collected his £200 honorarium and his expenses and took the next steamer back to New York.—Exchange.

The New Kind.

Among the passengers in a parlor car attached to a southern train leaving Washington were a reticent individual desirous of reading his paper and a talkative person equally desirous of engaging the reserved one in conversation. At first the reticent man took the questions of his neighbor in good part, returning short but polite answers. Finally, however, he grew somewhat irritated at the persistence of the other.

"The grass is quite green, eh?" was the idle query that next came from the garrulous one as he gazed through the window.

"Quite!" said the bored one, with a smothered growl. "But, then, consider what a change it is from the pink and mauve grass we've been having lately!"—Harper's Weekly.

Encouraging.

It was Bilkin's wedding day, and he was teasing his young brother-in-law.

"Well, Johnnie," he said solemnly, "I'm going to take your sister a long way off and have her all to myself, where you won't see her any more."

"No; really, are you?" said the lad curiously.

"Yes, I am. What do you think of it?"

"Nothin'. I can stand it if you can."—Pearson's Weekly.

Generous.

"What's your fare?" asked old Flintskin of his cabby the other day and was met with the stereotyped reply:

"Well, sir, I will leave that to you."

"Thank you; you're very kind," said old F., buttoning up his pockets and walking off. "You're the first person who ever left me anything yet."—London Fun.

Not at First.

"When you first saw Niagara falls did you feel that almost irresistible impulse to throw yourself over the precipice that so many experience?"

"No. I hadn't seen my hotel bill yet."—Cleveland Leader.

Quite Simple.

"What will you do with your money when you die?"

"I shall leave it to my children."

"But suppose you have no children?"

"Then it will go to my grandchildren!"

Peace is not mere tranquillity, for tranquillity may be indifference.—Duffield.

W. C. T. U. Notes.

Conducted by the Ladies of the Kelowna branch of the W. C. T. U.

OUR ENGLISH LETTER.

The Act Most Beneficial.

In Clacton the Act has worked a great change, the spectacle on excursion days of bars filled with children and parents have entirely disappeared. The following reports from various towns have been received: Yarmouth: The police say the Act has proven very effective, though no prosecution has been necessary. Folkstone: The Chief Constable is of opinion that the Act has proven most beneficial, and ihinks it is a very wise provision. At Clacton the Act has worked far more smoothly than was at first thought it would, and its efficacy has been so great that the undesirable spectacle of bar-rooms filled with parents and their children on a big excursion day is a thing of the past. At Worthing there have been a few cases of pecuniary loss to license-holders through the operation of the Act, but most have got over the difficulty of accomodating both children and parents; whilst at Hastings the great majority of parents resort to temperance centres, but where needful publicans have provided special accommodation, if only it be a few seats outside their house. At Margate, instead of being kept in the public bars until closing time children are now very often left at the lodgings in the care of the landlady.

The New License Duties.

The opposition of the Brewers' Parliamentary Committee to the licensing clauses of the Finance Bill is not mollified by the Government's amendments, which, it is declared, in no way affects their case. Arrangements have been made for an exhaustive discussion of the new duties and the suggestion that the whole of the licensing clauses can be disposed of in two days is scouted. So far as off-licenses are concerned, however, it is admitted that the changes made are almost revolutionary in that the taxation on this branch of the trade, especially in Scotland and Ireland, is in effect very greatly reduced. The Irish trade in particular is understood to be well pleased with the concessions made in the small businesses. Many London Liberal members are greatly disappointed at the retention of the principle of graduation of license duties according to compensation value—a principle under which as was pointed out to Mr. Lloyd George by a deputation, London will pay a much larger proportion of the new taxation than it would have done on the basis of sales. To secure, if possible, a discussion on the matter, Mr. W. Pearce, the member for Limehouse, has put down on the paper an amendment, the intention being to ask the Chancellor of Exchequer to frame a new scheme for application within the county of London.

Milk Versus Beer.

In the course of his presidential address, delivered to the National Federation of Dairymen and Cowkeepers' Associations, in the Oak Room of the Mansion House, Dublin, last week, Mr. Anthony Hailwood, J. P., of Manchester, dealt with the food value of milk, and declared that the consumption of milk should be increased among children, and that could only be done by impressing on the parents the value of milk as a food. There was no doubt that milk was an ideal food for weakened stomachs and nervous disorders, and there were many cases where the latter troubles had been cured by the judicious use of the lacteal fluid. The chairman proceeded to draw a contrast between the uses of alcohol and milk, and said there was an overwhelming evidence of medical men in favor of the use of the latter by those who suffered from what was known as "the craving for drink." If said the chairman, a man when he found it difficult to pass a public-house went on further and got a drink of milk, he would soon find himself a better man and able to resist the desire for drink. The consumption of drink in hospitals was going down; the milk requirements were going up; and in 1905, Guy's Hospital London, took in 44,732 gallons of milk.

See To Your Bulbs Now.

While the fine autumn days last few people think of the bulb planting season. As a rule they wait until the early frosts have destroyed the beauty of the summer-flowering plants, and then begin to consider next springs display. This waiting, however, is a mistake, for the early supplies of bulbs are naturally the best, and even if they cannot be planted they should be secured.

All bulbs should be taken out of the bags as soon as they arrive, and put where they will obtain plenty of air. This is a point to which if is impossible to attach too much importance in all seasons, especially so this year, when the ripening off was done in rather unfavourable conditions. The trouble is that when left packed closely in bags the mass heats, and it is certain that if this continues long many bulbs will be lost. Growers do not need to be reminded that it is far cheaper in the long run to pay a fair price for bulbs than to hunt for those lowest in price.—"Agricultural Economist and Horticulture Review."

Kelowna Wins at Westminster

Continued from page 1

A comparison of Kelowna's score card with other districts, is of great interest, more especially when such well known districts as Nelson, Chillewack, Salmon Arm and Spences Bridge are included,

In Jonothans, Kelowna scored first, second and third prizes, obtaining the following marks, out of a maximum of 100.

1st, 98½, 2nd, 97½, 3rd, 96½, other districts 93, 84, 81. Wealthies scored, 1st, 97½, 2nd, 96½, 3rd, 96, while Northern Spys scored 98, 95½ and 92.

An interesting score is the one of the King variety of apple. Kelowna is supposed to be backward with fruit. Chillewack is pronounced the home of the King. The score is as follows:

Kelowna 99, Kelowna 98, Kelowna 97, Chillewack 86, Salmon Arm 81, Lilloet 77.

Space prevents us going more fully into scores which are most interesting, showing how thoroughly we beat our competitors.

It may appear strange to most people that Kelowna wins three prizes in nearly every class, and that one exhibit was practically put up against its own town. This can be explained by the fact that several farmers were showing through the A. & T. Association, and their separate names were used in connection with the exhibit. This accounts for the large number of second and third prizes.

The attendance at the show was remarkably good, and the comments passed by the visitors showed that the exhibit was attracting more than usual observation.

In all, the exhibit coraalled $700 and adding to this the amount realized over the selling of the fruit, the exhibit showed a profit of about $1.000 less expenses.

The fruit was practically scheduled to be shown at Spokane this year, and we believe that it would not have been sold, if another exhibit for Spokane was not in preparation at the hands of Mr. DeHart.

The whole exhibit was of Kelowna fruit, not one sample being takan from outlying districts.

One of the chief features of the exhibit was the 15 boxes of Jonothan Apples, which would possibly have beaten the world, if the world was showing against it.

Both Mr. McDonald and Mr. Boyer speak in good terms of the way they were received by the officials, and also the accommodation that was afforded them for their exhibits.

A larger representation was asked for next year, and a promise made that the district exhibit which Kelowna won last year, and which was not included in this year's premium list should be reinstated next year. A cup or gold medal, together with a cash prize was promised, and will be one of the features of next year's exhibition.

The tasteful display of the whole exhibit was commented upon by every visitor, and the name of Kelowna will live long in the memories of those who visited one of the largest shows held in the province, and noted our numerous awards.

Mr. G. H. Dunn informs us that our editorial last week has brought no less than two persons to file their names on the voters' list. It is at least pleasing to know that the glory of these two added names is extended to us and not to the large notice- posted on the light pole (not the electric light pole) outside the Keller block. Our reporter was collared last Tuesday for the road tax, being informed that it was not considered etiquette to write a long editorial on the subject and then not live up to what is written. The beaming face of the city clerk as he scooped in the shekels was a thing to be noted and remembered. He was just about to collect the dog tax as well when our reporter "scooted." The council meeting is consequently cut rather short this week.

F. DeCacquery returned last Sunday from a hunting trip around White Mountain in company with Leon Cillard. The chief object of the expedition was to look for black and grizzly bear, but none were seen by daylight. One night, however, a noise was heard dangerously near the camp, making the campers get up and fire a few shots to scare the animal away.

(a.) The name, address and occupation of the applicant.—Louis Casorso, Kelowna, B.C.

(b.) The name of the lake, stream or source.—A stream rising about 300 yards north of John Casorso's, south-west corner of the north half of section 5, township 26.

(c.) The point of diversion—Ditch head from point mentioned.

(d.) The quantity of water applied for —100 inches.

(e.) The character of the proposed works—Ditch and flum.

(f.) The premises on which the water is to be used—Louis Casorso.

(g.) The purpose for which the water is to be used.—Agriculture.

(h.) If for irrigation describe the land intended to be irrigated, giving acreage—A six acre lot, in section 6, townshipe 26. This lot is on the south-east corner of George Fortine's land, bounded as follows, thence south three hundred and ninety-six feet, thence west six hundred and sixty feet, thence north three hunnred and ninety six feet, to the south boundary of said George Fortine's land.

(j.) Area of Crown land intended to be occupied by the proposed works.—John Casorso.

(k.) This notice was posted on the 1st day of October 1909, and application will be made to the Commissioner on the 1st day of November, 1909.

LOUIS CASORSO,
Kelowna, B.C.

Mr. John Fife representing the Prudential Life Insuarnce Co., was in town this week. In his official capacity he travels through all the large towns in the Dominion and knew Kelowna when the old Lequime Store was the only one in the district. He made a few remarks to us the other day generally praising up the rapid progress of the town. Lawson's new store attracted his attention and he considered it the best fitted store in the interior of the province.

Is your name on the voter's list? If not see Dunn.

Mrs. R. Clouston and Mrs. Ross of Summerland were the guests of Mr. and Mrs. R. Mathison last Monday.

War Canoe dance in the Opera House tonight.

CITY COUNCIL MEETING

Continued from page 1

the final inspection of the plant could be made next week.

Mr. Aviss attended and asked if the council could find it convenient to pay a visit to the foreshore by his premises so that some arrangement could be made for the completion of his proposed lease. It was decided to pay a visit to ihe point in question at 9 o'clock on the following morning, to make final arrangements with Mr. Aviss.

A discussion ensued as to whether the council should pay in full, the account of the Vancouver Engineering Works, as the shaft which had been sent them to straighten had not come back true. It was suggested that the bill should be paid, as the firm in question did not guarantee to straighten the shaft, but taking into account the fact that Inspector Peck had mentioned that the work was not done satisfactory, it was agreed to write them with te idea of adjusting the matter.

The city clerk stated that there was an over draft in the bank, and asked for the authority to borrow money to meet it. It was agreed upon motion that the mayor and city clerk should have power to negotiate a loan of $2,500 for Local Improvement purposes.

Mention was also made of the various sidewalks in course of construction, the mayor asking when they would be finished. It was agreed to urge the matter on as quickly as possible, so as to strike the total amount of debenteres required to be issued for Local Improvement purposes.

It was also decided that Mr. C. G. Clement should be seen with reference to the defective sidewalk on the North side of Bernard Avenue, and to request that same should be put in repair at an early date.

Ald. Cox wished to know if any steps were being taken to collect the dog taxes over the city.

The city clerk said that some difficulty had been experienced in getting the tags from the coast. The matter, however was receiving almost immediate attention from the Chief of the Police.

The council then adjourned, to meet again on Tuesday, October 26th, at 7.30 p.m.

The People's Store

Are You Ready to Look at the New Models in Suits and Overcoats?

If there is one thing more than another that has helped us in building up this business it is the pleasant, intelligent service, and the courteous attention shown customers and visitors.

Very many people are reluctant to enter a clothing store unless they have definitely decided to make a purchase. They consider they are imposing upon the good nature of the salesman in asking him to show the stock.

We do not want you to feel that way about this store. We are glad to have you come here, whether you come to buy or just to look.

Our present exhibition of fall suits and over-coats is the largest and finest we have ever made. The assortment of models and patterns is broad, the fabrics beautiful in design and colorings, the tailoring excellent, and the styles authoritative.

Come—at your earliest convenience.

Suits $10 to $30

Overcoats $15 to $25

Newest hats, $2.00 to 7.50. All weights in underwear for fall and winter; new neckwear, shirts, hosiery—everything for men.
