Ratepayers Petition for Extension of Power Plant

Council Propose to Borrow \$7,000 for Additional Engine,
Dynamo, and Pump

The city council spent Christmas eve in the council chamber, the Mayor, Aldermen Cox, Harvey, Leckie and Jones being present at the meeting on the evening of the 24th.

The following accounts were referred to the finance committee:

S. D. Colquhoun, 1st Engineer's sal.	\$140.00
H. Blakeborough, 2nd do.	100.00
E. Fowler, lineman's sal.	85.00
C. Goldsmith, fireman, sal.	75.00
P. T. Dunn, assistant clerk, sal.	50.00
D. Mills, scavenger's sal.	150.00
Ian MacRae, constable, sal.	80.00
Herbert Johnston, night constable's salary	70.00
Dr. Keller, rent of Coun. Chamber.	15.00
G. H. Dunn, sal. and petty cash	109.30
C.P.R., express	.60
G. F. Teal, work on waterworks	33.80
Dr. Knox, examination prisoners	5.00
Northwest Elec. Co. elec. meters	115.79
J. F. Burne, city solicitor and police magistrate's sal.	123.32

The business of arranging for the election of a new council was then taken up, and the following motion passed: "That nominations for Mayor and Aldermen for the Municipal Council of the City and for School Trustees for the ensuing year be held on the second Monday of January, 1911, from 12 o'clock noon to 2 o'clock p.m. at the Council Chamber, Kelowna, and that G. H. Dunn be appointed returning officer. That the poll be opened at the Council Chamber for the election of Mayor, Aldermen and School Trustees, if a poll be required, on the following Thursday from 9 o'clock a.m. to 7 o'clock p.m., and that the said returning officer preside at such polling place."

The mayor and Ald. Jones were appointed a committee to engage a hall and arrange for the usual public meeting to discuss municipal affairs.

Ald. Cox then introduced By-law No. 82, which seeks to extend the existing fire limits one block further south. The fire limits at present extend from Abbott street on the west to Ellis street on the east. The new addition will take in blocks 8, 9, 10 and 11 of Map 462, that is southward to Leon avenue. An extension of half a block is also provided on the north, which will include lots 1 to 6 in blocks 18 and 19.

Mayor Sutherland asked if the council thought the by-law would work any hardship upon any of the property owners.

The council generally were of opinion that property owners eventually reaped the benefit of the erection of good, substantial buildings, and at the same time they were an advantage and a protection to the business part of the city.

A petition signed by owners of property amounting to more than ten per cent of the total assessed value for the year 1910 was presented by Ald. Leckie, requesting the council to borrow the sum of \$7,000 by debentures for the purpose of making additions to and improving the power plant.

It was explained that the proposed addition was to include another and smaller engine and dynamo which could be run either in conjunction with the present plant, thereby increasing its capacity, or separately for lighter loads, such as the night shift. It was pointed out that the lightness of the load at certain hours made the running of the big plant wasteful, and that the economy of having a smaller plant for use on these occasions would be considerable. It might also be possible to run the smaller unit to provide power in the daytime.

It was also proposed to increase the capacity of the water plant by the addition of another pump.

The proposals were embodied into the form of a by-law, No. 83 which was given its first reading.

The meeting then adjourned until Tuesday, Dec. 27.

The council met again on Tuesday morning at 10 o'clock, the Mayor, Ald. Leckie, Harvey and Jones being present.

The minutes of the last meeting having been disposed of, By-law No. 82, respecting the extension of the fire limits, was read a second time. By-law No. 83, which is to borrow \$7,000 for additions to the power house plant, was also read a second time.

No amendments being suggested, the two by-laws were read a third time.

By-law No. 83 being a money by-law had to be submitted to the vote of the electors, and the following motion was passed: "That the voting on By-law No. 83 be held in the council chamber on Thursday, Jan. 12 next, between the hours of 9 a.m. and 7 p.m., and that G. H. Dunn be returning officer."

This would bring the voting onto the same day as the municipal elections.

The meeting then, adjourned until Tuesday, Jan. 3, at 8 p.m.

Masonic Banquet

The local members of the Masonic Lodge held the annual banquet and election of officers in Raymer's Hall last Tuesday evening. There was a large gathering, including many visiting brethren, and the function was a highly enjoyable one. The toast list included: "King and Craft," "Grand Lodge of B.C.," "Sister Jurisdictions," "Visiting Brethren," "Past-masters of St. George's Lodge," "Officers of the Lodge."

The following officers were appointed: W. M., D. W. Sutherland; Sen. Warden, Dr. Knox; Jun. Warden, H. B. Burch; Secretary, P. B. Willits; Treasurer, H. W. Raymer; Sen. Deacon, Geo. Meikle; Jun. Deacon, G. A. McKay; Director of Ceremonies, C. C. Josselyn; Inside Guard, Chas. Harvey; Sen. Steward, W. D. Hobson; Jun. Steward, R. Minns; Outside Guard, C. H. James. The officers were installed by Worshipful Bro. Budden.

An interesting feature of the proceedings in connection with the Christmas tree and entertainment of Knox church Sunday School held on the evening of Dec. 22, was the presentation of a purse containing the sum of \$87 to Rev. A. W. K. and Mrs. Herdman, on behalf of the congregation. A loyal address was delivered by Mr. Boyer couched in most happy terms and with felicitous expressions of goodwill and appreciation, and suitably replied to by the pastor, though entirely taken by surprise.

The Communion will be dispensed in Kelowna and Benvenuto Presbyterian churches on New Year's day, and preliminary preparatory services held in Bethel church, Benvenuto, on Thursday, 29 inst., and Knox church, Kelowna, on Friday, 30th inst., at 7.30 p.m.

An additional sorrow to the Cameron family came yesterday when Miss Winter, sister to Mrs. Cameron, passed away after a long illness. The funeral takes place today.

The curling rink has been cleared up and made ready for business during the week. By a curious coincidence the snow storm which caused Vernon's new rink to collapse also damaged a section of the roof of Kelowna's rink. A few hours' work, however, would fix that.

Fruitgrowers Assoc. Meets Next Week

Many Important Matters to be Dealt With

The annual meeting of the B. C. Fruit Growers' Association will be held in Victoria on Jan. 6 and 7 next, under the auspices of the Department of Agriculture. Fruit growers and others interested in the industry are cordially invited to be present and take part in the proceedings.

Since reorganizing last April this association has trebled in membership and now includes the great bulk of the most progressive fruit growers of the province. This meeting will be arranged to encourage an exchange of ideas and conclusions on the results of the past season and will be valuable in assisting fruit growers to plan for next season's work.

The fruit season of 1910, now practically closed, marks a new high record for total shipments and total returns received. The Association meeting will give you a good opportunity to talk over methods of increasing the net prices to the grower without increasing it to the consumer.

The particular problems for careful discussion will be first freight and express rates. C. P. R. and Dominion Express officials have accepted an invitation to be present. Strong Committees on this subject have been appointed and resolutions sent in to the secretary on any point concerning special freight rates and service, will receive careful and impartial consideration.

The discussion on the marketing of the past year will be especially interesting because there will be present a number of fruit jobbers from the prairies and from the Coast cities, managers of Associations over the province and Mr. Metcalfe the markets commissioner for British Columbia during the past two years. Discussion on the development and improvement of markets of British Columbia fruit will be thorough.

Late W. C. Cameron

Many people of Kelowna and district heard with regret of the sad death, at Rochester, Min., of Mr. W. C. Cameron, one of the principal fruitgrowers of the neighborhood, and pioneer of the valley. The deceased gentleman had been in poor health for some time past, and had undertaken the long journey to Rochester to undergo an operation there. The operation however was unavailing, and Mr. Cameron passed away on Dec. 20th. The remains were at once removed to Kelowna for interment.

The funeral took place last Tuesday. An impressive service was held at 2 o'clock in the St. Michael's Church, the Rev. Thos. Greene officiating. The church was filled to the doors, an evidence of the esteem in which the deceased was held. The choir were in attendance, and rendered suitable music. The cortege then proceeded to the cemetery, where the interment took place.

The late Mr. Cameron was a Scotchman by birth, but had lived for many years in Canada. Seven years ago he came to Kelowna from Edgeley, in the northwest, and settled on the Guisachan ranch, formerly a part of the extensive estate of the Earl of Aberdeen. During all his residence here he has been actively associated with many of the important movements of the district. At the time of his death he was president of the Farmers' Exchange, president of Hospital board, and a member of many other associations. He was an enthusiastic Churchman, and had been for six years past people's warden at St. Michael's. His death will be regretted by a large circle of friends, and sympathy with the family in their bereavement is general.

Agricul. & Trades Association Hold Annual Meeting

Reports Show Satisfactory Financial Condition - Large Increase in Revenue and Prizes Paid

The annual general meeting of the Agricultural & Trades Association was held last Thursday in Raymer's Hall, only a comparatively small number of members attending. The president, Mr. P. DuMoulin, took the chair. The secretary, Mr. A. W. Hamilton, read the financial statement as follows:

ASSETS	
Personal accounts receivable	\$ 52.70
Advertisements of List	140.00
Improvements [add'n to Hall]	1239.92
Trustees of A. & T. Ass'n	500.00
Bank of Montreal	27.18
Cash on hand	237.35
	\$2197.15

LIABILITIES	
Personal accounts payable	\$ 563.28
W. H. Raymer	562.78
Memberships retained for 1911	85.00
Net worth of Association	1548.87
	\$2197.15

Commenting upon the statement the president said the Association was not in bad shape, the present worth being over \$1548. Of this about \$1240 had been spent in enlarging the building, improvements to the grounds, electric light, etc., leaving an actual cash balance to start the next year of about \$308. They had a lease of the grounds from the city for ten years at \$1 per year.

The secretary then read the statement of receipts and expenditure connected with the Fall Fair. Receipts totalling \$1780 were shown an increase of nearly \$400 over last year. Against this was an expenditure of \$1521.78, showing net proceeds of \$258.22. The amount expended in prize money to exhibitors was \$567.25 an increase of about \$120 over last year.

The result of the Westminster exhibit showed a surplus of \$33.61. This would have been larger but for the unfortunate loss of some of their best fruit which had been sent to the show. The fruit had been placed in cold storage in Vancouver, where it was allowed to freeze, with the result that it was unfit for exhibition. They had thus missed many prizes they would otherwise have won, as well as the selling value of the fruit.

A vote of thanks was given to Mr. A. E. Boyer for the success which had attended the exhibit sent down in his charge to the New Westminster Fair.

In replying Mr. Boyer said he wished to acknowledge the valuable assistance that had been rendered him in the preparation of the exhibit. The surplus might have been larger but for the loss referred to. The fruit might also have been sold for more than was paid by the Provincial Government, but he had considered the advertising secured by selling to the government worth the small sacrifice.

The financial statements were then passed.

Mr. W. Dawson, of Peachland, the principal exhibitor of poultry at the last Fall Fair, said he had attended the meeting to see if he could not get the directors to have single classes for poultry instead of pairs. He had come very near losing several valuable birds by sending them in pairs. Kelowna was the only place where such a rule was in force. He had some hard things to say generally about the management of the poultry section, the quality of the judging which had passed birds which should have been hopelessly disqualified, and about the kind of pens provided for the accommodation of the birds. He had won a cup, too, at the show, which he had not yet received. It looked as though Kelowna did not want to let go.

The president apologized for non-delivery of the cup, stating that it was due to pure neglect, and not to any desire to keep it here. With respect exhibiting in pairs, he said they had had competent men go through the prize list

and they had said nothing about the matter.

Mr. Weeks objected to the substitution in the prize list of long white carrots for short ones, as the latter was the staple variety. He also criticised the "bread and butter corner," which was given up to flies and confusion for want of room and proper keeping arrangements, especially in the case of the butter.

The president offered the thanks of the Association to the directors, on whom the bulk of the work fell, and hoped they would be given more encouragement by an increased membership. They had the grounds, the buildings, and the men, and there was no reason why they should not have the biggest show in the valley.

The question of amalgamation of the fairs in the valley into one big one, to be held alternately at the principal towns in the valley, was discussed at some length. The suggestion, however, which emanated from Vernon, found very little favor, and was unanimously turned down.

The following directors were appointed for the ensuing year:

P. DuMoulin (pres.), W. C. Blackwood (vice-pres.), A. W. Hamilton (sec.-treas.), D. W. Sutherland, H. W. Raymer, A. McLellan, M. Heron, B. McDonald, A. E. Boyer, Dr. W. W. Jones, A. Carsorso, T. G. Speer, D. McEichern, L. Holman, W. Dawson (Peachland).

Coming Municipal Elections

The date of nomination for mayor, aldermen and school trustee has been fixed for Monday, Jan. 9th, the election to follow on Thursday, the 12th. Little interest is being displayed by the general public in the question of who shall represent them. Although many contradictory rumors are floating around as usual it is impossible to make any definite statements until the actual nominations take place. It is practically certain, however, that Mayor Sutherland will again offer himself as mayor of the city. Since the incorporation of the city some six years ago, Mr. Sutherland has sat on ever council except last year's, and has occupied the mayoral chair three years. Ald. Jones and Cox will again run for the north ward. Three vacancies will occur in the south ward, but so far only Mr. E. Newby has definitely announced his intention of running.

Mr. Bernard Lequime is at present visiting town, staying with Mr. D. Lloyd-Jones.

The Christmas entertainment of the Baptist Sunday school, held Wednesday evening was a very successful affair. The attendance of parents and friends was large. All the numbers on the program were contributed by members of the school, and were good. The chorus singing deserves special mention, as each number was not only well rendered showing careful training, but there was plainly indicated the presence of many voices possessing sweetness of tone and much power of expression. As usual on such occasions Santa Claus appeared on the platform in due time to the immense delight of the children. After the distribution of the presents from a well loaded tree the entertainment was brought to a close with the singing of the National Anthem.

The date of the ratepayers' meeting for the discussion of municipal affairs has been fixed for nomination day, Jan. 9. Raymer's Hall is the meeting place.

Order Reduction of Express Charges

Railway Commission Decides
Present Tariffs Too High

Judgment was delivered by the railway commission the other day as a result of their enquiry into express rates in Canada. The board decides that the tariffs of the Canadian companies are too high and that the forms of contract between shippers and the companies are unfair and must be replaced. New tariffs must be filed within the next three months.

The opinion is expressed that the capitalization of the companies is far too high, yet the companies are really only agents for the railway. The companies pay for station facilities much more than they should, the presumption being that is a convenient way of disposing of excess profits.

It is noted that the Canadian Express Company, when bought by the Grand Trunk Railway in 1892 for \$660,000, was valued at \$60,000, \$600,000 being presumably for the franchise. The \$60,000 has grown to \$212,719 and there are three millions of stock outstanding in the hands of trustees of the Grand Trunk Railway. All there is in tangible assets to represent the three millions is \$212,719.

The Dominion Express Company, controlled by the Canadian Pacific Railway, is capitalized at two million dollars. All the actual cash ever paid into the company, so far as the board could ascertain was \$24,500. The assets now stand at something less than \$600,000, yet two millions of fully paid up stock is outstanding.

Out of a total revenue of \$21,473,696 earned by the Dominion Express in seven years prior to 1909 \$13,409,240 or 63.9 per cent, was paid to the Canadian Pacific Railway. During the same period the Canadian Express paid \$8,467,307 or 55 per cent out of \$13,362,266 to the Grand Trunk Railway. The board states that there is no reason for the existence of separate companies to handle the express business.

Dealing with the proposal of the fruit-growers that an order should be issued in respect of the rough handling of fruit, the judgment says that nothing would be accomplished by this. An order of the board would not prevent an employee damaging or pilfering. Besides any action for damage lies with the shipper. The board orders the Dominion Express Company reduce its carload rate on fruit from Ontario shipping points to Winnipeg two dollars per 100 lbs. It is pointed out that if the company can give, as it does, a blanket rate from all the main line shipping points of British Columbia, it should do the same for Ontario growers.

The Central Okanagan Lands, Ltd. have now about 300 acres of Glenmore plowed up ready for planting in the spring.

A Watchnight service is to be held in St. Michael's Church on the 31st commencing at twenty minutes to twelve.

Mr. R. T. Heselwood, who represents the Albany Nurseries, Oregon, has received complimentary letter from the firm informing him that this year he ranks fourth for amount of sales amongst the 55 agents of the nursery. Last year Mr. Heselwood, who has been with the firm for four years, came first or second.

School re-opens on Tuesday next Jan. 3.

Mr. and Mrs. E. Davis and family left Tuesday for Victoria where they will remain through the winter.

Although the two skating rinks had not yet got down to business, there has been some skating during the week on Whitcup's pond. The temperature, however, is still very uncertain.

Town and Country

The Kelowna Band had a good time Christmas morning, and incidentally raised quite a sum of money to swell their funds. Hiring a sleigh, they made a tour of the principal residences, playing the old familiar Christmas tunes. The sound of their music, the deep snow, the bright weather and the merry sound of sleigh bells all combined to make a genuine old-fashioned Christmas. On New Year's day the boys are going to complete the circuit of the town by giving the residents over the creek a treat.

Mr. A. Wade, of Penticton, was a visitor in town this week.

The date of the production of "The Messiah" by the Musical and Dramatic Society has been again altered, this time to Tuesday next, Jan. 3rd. The rush of bookings at the Opera House just now leaves very little room for choice in the fixing of dates. Although most people will have heard the "Messiah" at some time or other, yet like Christmas itself Handel's great work is ever new, and at the hands of the present chorus should be rendered in first-rate manner.

Miss Annie Harvey is home from Canmore, Alberta, for the Christmas holidays.

A wheel scraper, slush scraper and plow are missing from the government shed behind the telephone office. Mr. M. Hereron requests those who have borrowed these implements to kindly return at once, as he is in immediate need of them.

Christmas Day services at the Presbyterian church included special music of a seasonable nature. Several anthems usually associated with Christmas time were sung by a large choir under the leadership of Mr. J. N. Thompson, and the hymns chosen were the old favourites one welcomes every year. Appropriate sermons were preached by the Rev. A. W. K. Herdman in the morning on "The Birth of Christ into the World," and in the evening on the text: "Grace be unto them that love the Lord Jesus Christ in sincerity." The evening service closed with a spirited rendering of the Hallelujah chorus. Mrs. F. Davis presided at the piano.

Mrs. B. McDonald will receive on the first Tuesday of the month.

The tickets for the Automobile Raffle are selling fast, but as the time fixed for the drawing is so near, those who contemplate purchasing a ticket must be quick about it or the requisite number (250 tickets) will not be sold in time. It is to be hoped the number will be made up, or the Hospital will be the loser.

Dr. Gaddes left Wednesday morning for a visit to the coast.

A large gang of men under Mr. M. Hereron are engaged on the road up into the Glenmore subdivision. About twelve teams are at work hauling rock and grading. Mr. Dalgleish's house on the corner is being used as a temporary camp for the men.

Two interesting photographs are being displayed in the office windows of the Central Okanagan Lands, Ltd. One represents the prize-winning Kelowna District Display from the National Apple Show as it appears in the Montreal office of the company, where it was taken after the Vancouver show closed. The other view represents the window display at the same office. The fruit made a fine showing and Kelowna has got a good deal of advertising from it. Special invitations were sent to members of parliament and cabinet ministers, and amongst the visitors to the office were Earl and Countess Grey. The display was afterwards moved to Ottawa and re-exhibited there.

School opens again on Tuesday, Jan. 3rd.

Dr. Mathison will be absent from Dec. 24 to Dec. 28.

An AUTOMOBILE for \$5!

Here's a chance you never had before, and will probably never have again. We are determined to make a bold bid for the automobile trade of the coming season. We carry the finest makes of cars, and with large consignments again on the way, we will have a large showing to select from.

A fine \$1,250.00 Car to be Raffled

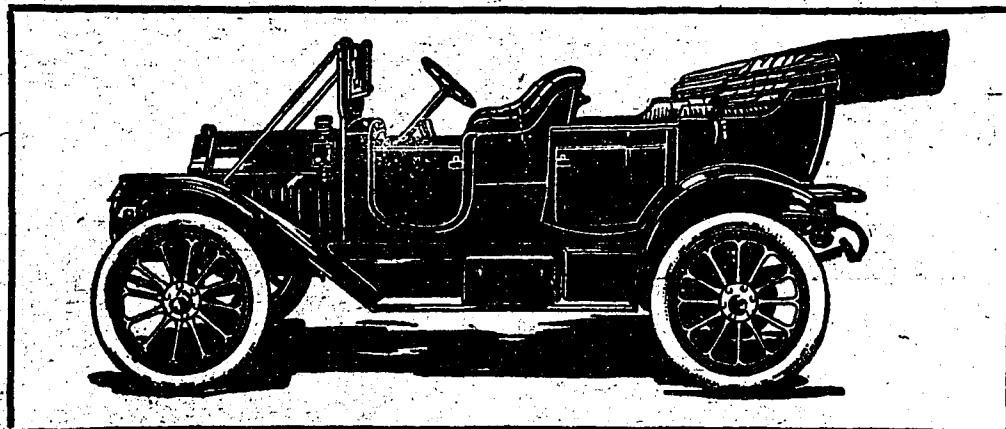

In order to fittingly advertise the cars before the opening of another season, we have decided to raffle a First-class car, valued at \$1,250.

Tickets are \$5 each.

\$500.00 to be presented to the Hospital

Of the \$1,250 realized from the sale of the tickets the sum of \$500 will be handed over to the funds of the Kelowna Hospital.

*Buy a \$5 Ticket and get
a chance of winning
this car*

*This beautiful car to be
raffled at \$5 a ticket*

The Car is a

High-grade McLaughlin-Buick

Model 9

These Cars have an enviable reputation for efficiency, easy running, durability, and economy.

They are of extra neat and light design, with strong pressed steel frame, finished in green and upholstered in best hand-buffed leather with hair filling. The smooth easy-running 22 h.p. motor affords ample power for all purposes.

The Drawing will take place December 31st at 8 p.m.

On the last evening of the old year the drawing (which will be open to the public), will take place in S. T. Elliott's office, at 8 p.m. The winning number will be selected in the usual way by the **MAYOR OF KELOWNA**. The winner will if possible be at once communicated with, and the result published in the next issue of the Orchard City Record.

KELOWNA, B.C.

PUBLIC NOTICE.

NOMINATIONS
For Mayor, Aldermen, and
One School Trustee.

Public notice is hereby given to the electors of the Municipality of the City of Kelowna, that I require the presence of the said electors at the Council Chamber, Bernard Avenue, on the NINETH DAY OF JANUARY, 1911, at 12 o'clock noon, for the purpose of electing persons to represent them in the Municipal Council as Mayor and Aldermen, and on the Board of School Trustees as a School Trustee.

The Mode of Nomination of
Candidates Shall be as Follows:

The candidates shall be nominated in writing; the writing shall be subscribed by two voters of the Municipality as proposer and seconder, and shall be delivered to the Returning Officer at any time between the date of this notice and 2 p.m. of the day of the nomination, and in the event of a poll being necessary, such poll will be opened on the TWELFTH DAY OF JANUARY, 1911, at the Council Chamber, Bernard Avenue, of which every person is hereby required to take notice and govern himself accordingly.

Qualifications For Mayor:

The persons qualified to be nominated for and elected as Mayor shall be such persons as are male British subjects of the full age of twenty-one years, and are not disqualified under any law, and have been for the six months next preceding the day of nomination the registered owner, in the Land Registry Office, of land or real property in the City of Kelowna, of the assessed value on the last Municipal assessment roll, of One Thousand Dollars or more, over and above any registered judgement or charge, and who are otherwise qualified as municipal voters.

Qualifications For Aldermen:

The persons qualified to be nominated for and elected as Aldermen shall be such persons as are male British subjects of the full age of twenty-one years, and are not disqualified under any law, and have been for the six months next preceding the day of nomination the registered owner, in the Land Registry Office, of land or real property in the City of Kelowna, of the assessed value, on the last municipal assessment roll, of Five Hundred Dollars or more, over and above any registered judgement or charge, and who are otherwise qualified as municipal voters.

Qualifications For School Trustees:

The persons qualified to be nominated for and elected as School Trustee shall be such persons as are British subjects of the full age of twenty-one years, and are not disqualified to vote at an election of School Trustees in the Kelowna School District.

Given under my hand at Kelowna, B.C., the Twenty-seventh day of December, 1910.

G. H. DUNN,
Returning Officer.

At the Opera House

Manager Walker announces that he has engaged the English comedian Matt Grieg as a member of the "Merry Musicians" who appear here at the Opera House on Saturday, Dec. 31. Mr. Grieg has been two seasons in America and Canada, and has been most successful on the vaudeville and concert stage of the east. His contributions are clean and refined but interesting and funny. The Merry Musicians are promised as the surprise of the season, a "Hilarious sufficiency" or an entertainment of humorous novelties. This is one of the walker attractions you cannot afford to miss.

Miss Mae George, the well known vocalist, formerly with the Musical Eckhardts has been engaged for the "Merry Musicians" and will be seen here with that organization, Saturday Dec. 1.

Miss George will be remembered especially for her charming comedy work in character songs. The "Merry Musicians" are a fun-making troop of Pierrots whose sole mission is to amuse and give a refined entertainment of humorous novelties.

At a meeting of the Board of School Trustees held yesterday a resolution was passed that infants attending school for the first time would be received only during the first two weeks after the Christmas or summer vacations.

The Rev. D. J. Welsh returned Wednesday last from Vernon where he had been spending a few days. Mrs. Welsh is remaining in Vernon for a week or two visiting friends.

Campbell Bros. are to be congratulated upon securing the films of the great Automobile race, run recently for the Elgin Trophy. All the 'crack' drivers entered for the race, and the terrific speed of 80 miles an hour was maintained for over eight hours. The race was crammed full of incident from start to finish, and many thrilling events are vividly thrown upon the screen. The films can only be kept for two days, and those who want to see this historic event in automobiling must not forget the dates—Monday and Tuesday, Jan. 2 and 3.

WATER NOTICE

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Osoyoos Division of Yale District.

(a) The name of the company in full—The Central Okanagan Lands, Limited. The head office—Kelowna, B.C.

(b) The capital—how divided, showing amount paid up—Capital, \$1,000,000—5000 shares of \$100 each and 5000 preference shares of \$100 each—\$500,000 paid up.

(c) The name of the lake, stream or source (if unnamed, the description is)—An unnamed lake at the headwaters of Mill Creek, Osoyoos Division of Yale District.

(d) The point of diversion—A point on Mill Creek about ten miles from said lake.

(e) The quantity of water applied for (in cubic feet per second)—32 cubic feet per second.

(f) The character of the proposed works—A timber cribbed, rock filled dam, galvanized steel flume, rivetted steel pipe, cement lined main ditches and cement pipe laterals and the natural bed of said Mill Creek.

(g) The premises on which the water is to be used (describe same)—W. 1-2 Sec. 23, lot 32; W. 1-2 Sec. 15; S.E. 1-4 Sec. 21; S.W. 1-4 Sec. 22; S.E. 1-4 Sec. 15; S.W. 1-4 Sec. 14; N.W. 1-4 Sec. 11. All in tp 23. E. 1-2 Sec. 32; N.E. 1-4 Sec. 29, tp 26.

(h) The purposes for which the water is to be used—Irrigation.

(i) If for irrigation, describe the land intended to be irrigated, giving acreage—1952 acres; W. 1-2 Sec. 23, lot 32; W. 1-2 Sec. 15; S.E. 1-4 Sec. 21; S.W. 1-4 Sec. 22; S.E. 1-4 Sec. 15; S.W. 1-4 Sec. 14; N.W. 1-4 Sec. 11. All in tp 23. E. 1-2 Sec. 32; N.E. 1-4 Sec. 29, tp 26.

(j) Area of Crown land intended to be occupied by the proposed works—10 acres.

(k) This notice was posted on the 21st day of December, 1910, and application will be made to the Commissioner on the 31st day of January, 1911.

(l) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet—W. H. Spencer, Thos. Bulman, D. Bower, Ernest McKinley, All of Okanagan Mission, and Price Ellison, Victoria.

(m) Copy of such parts of the company's memorandum of association as authorize the proposed application and works—Sub-section (1) of Section (2)—To develop, acquire, own and hold records of unrecorded water or licenses and to purchase water rights, licenses water privileges, and to construct, erect, maintain and operate canals, ditches, aqueducts, raceways, flumes, weirs, wheels, feeders, laterals, reservoirs, dams, lakes, wells, buildings or other erections of works which may be required in connection with the improvement and use of the said water and water-power, or by altering, renewing, extending, improving, repairing or maintaining any such works, or any parts thereof, and to conduct, carry on and transfer water to all persons and corporations for irrigation, manufacturing, industrial, mechanical mining, milling, domestic and stock-raising purposes, and also to build and construct storage reservoirs for the collection and storage of water for the purposes before mentioned, with full power and authority to make contracts and agreements for the sale of permanent water rights and carrying water for the purposes aforesaid.

(n) Lakes and Swamps at or near the headwaters of Mill Creek, in the Osoyoos Division of Yale District.

(o) Dams.

If you are suffering from biliousness constipation, indigestion, chronic headache, invest one cent in a postal card, send to Chamberlain Med. Co., Des Moines, Iowa, with your name and address plainly on the back and they will forward you a free sample of Chamberlain's stomach and liver tablets. Sold by all druggists.

Government Annuities.

The great advantage of the purchase of Canadian Government Annuities for their children should appeal to all parents, for the annual payments are so small that provision for their future may be made with little, if any, present sacrifice. For example, an Annuity of \$100 payable at sixty may be secured for a boy who was five last birthday for an annual payment of only \$4.75, or less than ten cents per week, or for a total sum paid in of \$261.25. In the event of the death of the child before he was sixty, all the money that had been paid in with 3 per cent compound interest would be refunded to his heirs. When the boy arrived at an age when he was earning for himself, he could carry on his own contract to completion to a rate far below what he could have obtained at his then age.

It is the custom of any parent to spend on their children at Christmas time amounts which at other times of the year they feel they could not afford, and too frequently are the purchases made of no lasting or permanent benefit. Would it not be a better plan to start each child on the road to the purchase of a Canadian Government Annuity and continue the "box" every Christmas until he was able to carry it for himself? The child if he lived would remember with gratitude Santa Claus' visits.

The following extract from a letter received from the manager of one of Canada's leading Insurance companies shows what he thinks of the Annuity proposition.

"In discussing the system of Government Annuities with my friends from time to time I have always frankly stated that in my opinion the benefits offered for the rates charged are exceedingly liberal, and that I do not know of any institution which could possibly afford to offer terms so advantageous. If the general working population of Canada were able to realize the favourable basis on which Annuities could be secured from the government, there would be very few among the thrifty and thoughtful who would not take advantage thereof.

Information as to how the purchase may be made and of the cost at any age will be supplied you at the Post Office, or by the Superintendent of Annuities, Ottawa.

WATER NOTICE

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Osoyoos Division of Yale District.

(a) The name, address and occupation of applicant—W. E. Adams, Kelowna, B.C.

(b) The name of the lake, stream or source (if unnamed, the description is)—An unnamed lake at the headwaters of Mill Creek, Osoyoos Division of Yale District.

(c) The point of diversion—A point on Mill Creek about ten miles from said lake.

(d) The quantity of water applied for (in cubic feet per second)—One.

(e) The character of the proposed works—A timber cribbed, rock filled dam, galvanized steel flume, rivetted steel pipe, cement lined main ditches and cement pipe laterals and the natural bed of said Mill Creek.

(f) The premises on which the water is to be used (describe same)—Lot 17, Map 362.

(g) The purposes for which the water is to be used—Irrigation.

(h) If for irrigation, describe the land intended to be irrigated, giving acreage—19 acres; Lot 17, Map 362.

(i) Area of Crown land intended to be occupied by the proposed works—10 acres.

(k) This notice was posted on the 21st day of December, 1910, and application will be made to the Commissioner on the 31st day of January, 1911.

(l) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet—W. H. Spencer, Thos. Bulman, D. Bower, Ernest McKinley, Central Okanagan Lands, Ltd., W. H. Gaddes, All of Okanagan Mission, and Price Ellison, Victoria.

Do You Know THAT Westbank

real estate investments are the best in the Okanagan in quality of soil, location, prices, etc., and that they will triple in value in one year? Have you stopped to consider? If not, just remember that Westbank will be the largest, most industrious, and influential place in the valley. Now is your opportunity. Most excellent bargains. The lots are cleared, cultivated, fenced, and have young orchards on them; well irrigated, and have good domestic water. Prices, \$175 to \$200 per acre. Other most valuable land bargains \$25 per acre up.

DESOLATION AND DEATH

REIGN IN ST. PIERRE, THE CITY
OF 40,000 DEAD.Roofless Houses and Cavernous Win-
dows Strike Terror to the Hearts of
Sightseers—Vegetation Now Cover-
ing Many Ruins—It Was the Wic-
kest Spot in the Whole West In-
dies—Only One Man Escaped."It is men, not walls, that make a
city," the Greek maxim ran, and
more, it is living men, writes a cor-
respondent of The London Times. For
the walls of St. Pierre are there still,
and probably no fewer than 40,000 of
its inhabitants are there also. But
they have been asleep these eight
years now. And it is extraordinarily
impressive, this white, sightless skele-
ton of a dead city.In orderly rows the houses stand as
seen from the sea, the streets rising
in tier upon well graded tier back
from the shore to the hills. But every
street is silent, every house roofless,
every window cavernous and blind.Before us as we land lies the wide
paved street which runs along the par-
allel to the waterfront. "And there,"
says the ship's officer who is my guide
and companion, "was the wickedest
spot in the whole West Indies. That
row of houses, pink and white, to the
left. The French nature, you know,
away from the restraints of home,
with the ignorance and docility of the
blacks. It is a bad combination."There are legends now of blasphem-
ous rites which were in progress
when the "fire from the Lord out of
heaven" was rained down—legends
which have probably grown up since
the event. But there seems to have
been good ground for that description,
"the wickedest spot in the West In-
dies." And of over 40,000 people who
were presumably in the city at the
time only one man escaped, prisoner
under sentence of death for murder
confined in a cell impervious to the
flames and fumes, and he only escaped
to die of the shock a few days later.Fifty yards of a narrow cross street
bring us to what was once the chief
business thoroughfare of St. Pierre.
Wide and straight it runs for a mile in
either direction, the roadway flanked
with blocks of stone, fair and smooth,
to where on each side the gutters are
now green ribbons of herbage. Then
the high curb rises, and beyond it the
broad paved sidewalk (for the French
build their colonial cities better than
we) reaches to the straight, clean, or-
derly frontage of the stone built
shops. Straight and orderly the line
of the shop fronts still stands—the
fronts only, with gaping doorways and
empty windows.Here and there, still fixed in the
heavy masonry, the rusted clamps
and pins show where doors were hung
and window shutters fastened, but be-
yond the bare incombustible stone
and metal not a fragment or shred of
wood or glass or fabric remains of all
the bravery of what was once perhaps
the gayest and most fashionable shop-
ping street in the West Indies. Now
and again one gathers indications of
what kind of stock was carried in this
shop or that.Here a mass of what was once coiled
chain, now fused to a solid lump of
metal, suggests that this was an iron-
monger's. There the wreckage of a
massive safe inside the wide windows,
framed for display, makes it likely
that a jeweler thrived. But for the
most part each building is full, choked
to the roof, with ash and volcanic
dust, dreadful to see, but merciful per-
haps, for under it, buried deep, are
things that one does not care to think
of. No life, no perishable material
survived that first strifling, withering
blast, then came the rain of dust and
ashes, covering all things as for the
most part they remain hidden to this
day.And more mercifully yet nature in
the tropics is prolific. Whatever man
holds he holds only by keeping the
vegetable armies at bay; wherever he
retracts the ranks of the green things
advance. From the hill slopes on all
sides vegetation has pushed its way
among the ruins. Seeds have been
borne, or having lain dormant in
crevices of houses and in the uncon-
genial earth of the city, have now
thrived through the overlying layer
of debris to the air. In every inter-
space, overhanging every wall from
where the roofs once were, a mantle
of foliage and blossoming shrubs has
been drawn over the whole dead city.Each straight paved street, with the
white walls on either hand, is little
more than a pergola, a grotto, an ave-
nue cut through the green.In the cemetery the tombstones lie
split by the heat and twisted from
their beds, and the monuments lie
strewn broken on the ground, but it
has little meaning now, this place
where the resting places of a few hun-
dred dead were honored with monu-
ments of marble and granite, while
all around in the city which is one
vast cemetery lie 40,000 dead un-
marked.My ship's officer told me that he
knew St. Pierre well before it was
stricken, and no less than once a year
since then he has been able to put in
here and come ashore, and at each
visit he has seen how nature has
gained upon the town. In a few more
years the streets will all be over-
grown, the masonry buried in green
and the forest growth will have push-
ed its way down to the shore.This is one of the islands where the
dead snake, the Fer de Lance, is
found. In just such a broken wilder-
ness as this, where under the flowers
and the butterflies the wreckage of the
city offers strange dark hiding places,
it will love to make its home. Then
few people will care to push their way
through the thick growth among the
ruins. Ships will content themselves
with passing off shore, and passengers
will be shown from a distance the
place where once St. Pierre stood. But
a little more and a generation will
arise to which the story of the dis-
aster is but a tradition, and the very
site of the wickedest spot in the West
Indies will be forgotten, its memory
overgrown with myth and legend,
even as the ruins of the city itself are
already half submerged in flowers and
green leaves.

STARVATION AMID PLENTY.

An Odd Situation, Yet It Is the
World's Greatest Danger.Nitrogen is possibly the oddest of
all the chemical elements. It has no
taste, no color, no odor, no marked
affinity for other elements. It is neu-
tral, negative and a non-supporter of
life and combustion. Nevertheless, it
is a very important element. It con-
stitutes the main difference between
the animal and vegetable kingdoms.
It is the basis of practically every ex-
plosive known to science, and the
frightful power of dynamite, nitro-
glycerine, cordite and gunpowder is
due to this queer element.A trace of this harmless nitrogen,
added to a bit of the fluffy, innocent
cotton so common in our households,
converts it into the deadly gun cotton.
Although it has no odor, yet when it
is combined with hydrogen, another
gas without odor, it forms the strong-
smelling gas known as ammonia. The
sweetest perfumes known to man are
all nitrogen compounds. Although it
has no color, yet when combined
chemically with two parts of oxygen,
it makes a gas that is a brilliant
cherry red.Although it is inert, and we breathe
gallons of it every hour, yet when
chemically combined in still another
proportion with oxygen, it forms the
well-known laughing gas, so common-
ly used as an anesthetic by dentists.
Though it has no apparent effect up-
on the body, yet when combined with
carbon, hydrogen and oxygen in the
form of meat, the body finds it the
hardest element to get rid of, and too
often it is the cause of the most fatal
of all kidney diseases.Air is a mechanical mixture. By
this is meant that the constituents
are distinct and separate, even as
sugar is distinct from the water in
which it is dissolved.Were nitrogen to form a chemical
combustion with the other constitu-
ents of the atmosphere, all life would
become extinct almost instantly. An
atom of nitrogen, so inert and harm-
less, combined with another atom of
an equally harmless substance, car-
bon, sometimes called soot, makes
the deadly gas known as cyanogen,
the basis of prussic acid, one drop of
which will cause almost instantan-
eous death.Although there is so much nitrogen
all around us, the world is slowly
starving to death for lack of it. Ani-
mals must have it in the combined
form, and it must be given to the soil,
if we want wheat, and corn, and other
grains. Hundreds of years ago, birds
deposited a nitrogen-bearing sub-
stance on the sea cliffs and in the
sea caves along the coast of Chile, in
far off South America.Man has gone there after this pre-
cious nitrate and borne it away, ship
load after shipload, to be used as a
fertilizer on the impoverished fields
of Europe and America. Now the de-
posits are nearly all gone and nitro-
gen must be sought elsewhere. In
Germany they are taking it from the
air by means of electricity.If this method proves itself to be
a success the world life will be saved;
if it does not and no other natural
deposit is found, or no other means
of fixing the nitrogen in the air in a
soluble form so that plants may feed
upon it, all earth life is doomed, even
though it be postponed for hundreds
of years. The time is surely coming
when our descendants shall suffer
from a nitrogen famine, although living
in a sea of it.Even to-day we are feeling it, and
the countless abandoned farms in New
England are silently eloquent of the
nitrogen that was theirs once, but is
now theirs no more. Truly, nitrogen
is a queer element and it behooves
us to become better acquainted with
it unless we wish our descendants to
face the frightful danger of starva-
tion due to the lack of this strange
gas so abundant, and yet so hard to
obtain in the form needed by plants.

Liberty In Three Nations.

An Englishman loves liberty as he
does his lawful wife. She is a pos-
session. He may not treat her with much
tenderness, but he knows how to de-
fend her. A Frenchman loves liberty
like an affianced bride. He will com-
mit a thousand follies for her sake.
A German loves liberty like his old
grandmother. And yet the surly Eng-
lishman may some day in a fit of tem-
per put a rope around her neck, and
the inconstant Frenchman may be-
come unfaithful to his adored one, but
the German will never quite abandon
his old grandmother. He will always
keep a nook for her in the chimney
corner, where she can tell her fairy
tales to the listening children.—Hein-
rich Heine.

Would Drown All Sounds.

The agent of the apartment house
was trying to discourage him from
applying for a flat."Your nerves would be ruined,"
said the agent. "There is a phono-
graph on the second floor that runs
day and night.""Dot was nuttin'" responded the
little man in the red and blue cap."On the third floor a girl practices
on the piano all day."

"I vud hear her nod."

"And just across the shaft a luna-
tic blows the cornet at all hours."

"Der soundsv ud nod reach me."

"Great Josephus! Are you deaf?"

"Nein! I blay der drombone."

Mother's Task.

When mother gets breakfast she
must remember that father likes his
breakfast food without cream, Johnny
wants both cream and sugar, Susie
doesn't like breakfast food at all and
must have a substitute, Mary has to
have grapefruit and the rest of the
family want oranges and apples. No
two agree on anything, but she must
remember what each one wants or the
family doubt her devotion. What is
it, do you suppose, that keeps the mo-
ther of a large family from going
crazy?

The Rubber Plant In 1735.

The first accurate information re-
garding the wonderful rubber plant
was furnished by La Condamine, a
French scientist who was sent in 1735
by the Government of France to mea-
sure an arc of the meridian near Quito.
He brought him to the heart of the
rubber-growing country, and much
information was thus ob-

AN AGE OF LUXURY.

Dress and Novelties In Food Now Ch-
jects of Greatest Importance.Of late years, writes Lady Violet
Greville, in an English publication,
dress has acquired extraordinary im-
portance. People who dressed as a
necessity of their station now make
dress an aim in itself. A dandy might
have possessed a wardrobe full of
coats, or, in the late Panmure Gor-
don, cherished an indulgence in 100
pairs of boots, but these were the
exception, and were regarded as
eccentricities. The amount of suits re-
quired by the average man now can-
not be counted on the fingers. There
are lounge suits and dress suits, fur
coats and frock coats, dinner jackets
and smoking suits, motor, golf, shoot-
ing and fishing costumes, each of
which requires waistcoats, stockings
and boots to match. With a woman
it is even worse. Boxes enough to
load a cab are required for each week-
end visit, and the same dress cannot
be worn twice. Our grandmothers
bought lace and furs when they were
married to last them their life, but
the constant changes of fashion neces-
sitate endless expenditure. Every
bride in society has her diamond
tiara and her sables, every shop girl
wears her fur bon and carries her
muff. Each year furs grow dearer,
and each year women spend more on
these accessories to dress. The aver-
age expenditure in a well-dressed wo-
man is about three times that of her
mother, who probably could have af-
forded more.Luxury in food, too, increases.
Though we may not indulge in such
long and heavy dinners as our ances-
tors, we eat more delicately, more
expensively of forced strawberries,
plover's eggs, early asparagus or
petit pois, etc., and require bet-
ter cooks. Restaurants and hotels vie
with each other in introducing novel-
ties and out-of-season luxuries, and
the standard of the gourmet grows
higher every day. The kind of meal
that once satisfied a fastidious man
about town, the plain dinner that was
so popular with the guests of Charlie
Paris, the wine merchant, or Sir
Henry Thompson, the surgeon, a bit
of codfish, a beefsteak and onions,
toasted cheese and a woodcock, would
be considered very poor fare now to
put before one's guests, who do not
want to taste wine, or enjoy the flavor
of claret, but to drink champagne all
through dinner, and smoke cigarettes
directly after.

Dirty Patagonia.

"Patagonians are not giants, as
some have supposed and as the geo-
graphers teach," said a man who has
traveled. "They are large in compari-
son with the other South American
natives, that is all. Everything is
relative, you know. But they are
very fat. That is why they can stand
the cold so well. I have seen Patag-
onian men and boys running around
unclad while I was wrapped in warm
garments, with the snow falling upon
them in quantities and the wind blow-
ing bitterly. They are kept warm by
their fat and dirt. Patagonia is one
of the dirtiest places imaginable.
Don't go there if you hate dirt. That
is my advice to all who contemplate
a journey to the jumping off place of
South America."

Political Burglaries.

It was through a stolen document
openly seized by the British ambas-
sador in Berlin that the British Gov-
ernment first learned of the recognition
of the independence of America by
France. The British Minister was
Hugh Elliot, and he had the desk of
the French Minister forced open to
obtain the copy of the treaty he wanted.
In 1855 a sensation was created by
the discovery of a plan by which
secret documents were systematically
abstracted from the Russian embassy
in Berlin, being copied at night in the
interests of another nation and re-
placed in the drawer at the embassy
in the morning. The burglaries had
been taking place for two years before
they were discovered.

Not Much Work.

"Some folks think that people in
the show business have an easy time
of it," said a minstrel star, "and that
reminds me of what an old farmer in
a little town said one day as he saw
me carrying the bass drum in the
minstrel parade. We had walked nearly
five miles in the hot sun, and I was
about ready to drop. That big drum
was heavy. When we reached our car
after the parade my feet were sore,
my back ached, I was perspiring all
over my face and was completely tired
out. As I almost staggered past the
old farmer he looked at me contemptu-
ously.""Huh," he said, "these actors 'll do
anything to get out of workin'."

A Slang Phrase.

"Bull con," a slang phrase which
means to flatter, to praise with ultra-
ior motives, had its origin in the west
years ago. When the gold brick game
was started the bunko men sprang a
fine, high-sounding combination of
words upon the simple farmers. They
called it an investment in "bullion
consolidated." Years after the words
were cut down to "bull con" and
came to mean any graft that depend-
ed upon the gift of gab. Still later
it was used to describe the method of
flattery.

Lord Morley as a Waltzer.

Like Lord Morley, Sir Charles is a
scholar as well as a politician. Lady
Dilke once stated that her first waltz
was danced with Lord Morley. "And
a very good waltzer he was too," she
said. In his hours of relaxation Sir
Charles is devoted to rowing and the
rapier, while the late Lady Dilke, who
was well known as an au-critic as
well as social reformer, made the col-
lecting of rare books her chief hobby.

The Disappointed Prodigal.

Slowly, with bowed head and fal-
tering step, the prodigal son walked
up the garden path.His father, an old man, wrinkled
and white-headed, stood at the door.
"Father, father," cried the P. S.,
"I've come home to die!"
"Just my luck!" groaned the old
man. "I let your insurance policy
lapse last month!"
No vent.—London Tatler.

- Provincial and General News -

A report from Valdez states that Capt. J. T. Daniels of the wrecked steamer Olympia, and four of his crew have had quite an exciting encounter with some Alaska Indians who attempted to steal the stores.

The past week has been remarkable for a series of most dreadful disasters involving terrible loss of life. More than a score of lives were snuffed out as the result of a fire which destroyed the leather goods factory of D. Friedlander, Philadelphia, and as many more were injured, many of them fatally. While the firemen were fighting the flames from the roofs of adjoining buildings, the south wall of the factory collapsed, burying nearly two score of firemen.

An explosion occurred last Wednesday at the Little Hulton Colliery near Bolton, England, burying more than three hundred men, only eight of whom have been rescued.

Chas Cossman of Elkhorn, Manitoba, who formed one of the big Farmers' delegation to Ottawa, said: "On our visit we were most impressed by one thing, waste of time and levity in the conduct of debates. To see the handsome chamber strewn with all kinds of paper, members with hats on and legs on their desks, throwing paper balls at one another, is not an edifying spectacle, or one that lends that dignity to the house that a stranger could expect. And these scenes occurred even in the most important debates.

Over \$7,000,000 worth of new cars and train equipment has just been ordered by the Canadian Pacific Railway; all to be delivered next summer. Two thousand refrigerator, coal, box and other freight cars and 200 coaches and passenger train equipment including baggage, express, sleeping, dining, parlor and observation cars are at present under construction in the company's Angus shops. Besides these, orders have been placed with other firms for 2,000 steel framed box cars of 80,000 lbs. capacity to cost over two million dollars, besides 500 stock cars and 800 flat cars. Orders for 75 heavy locomotives have been placed in Canada at the Angus shops, and the Kingston and Montreal locomotive works.

Strike sympathizers to the number of a thousand gathered around a car which had been stalled in the western limits of Winnipeg and tearing the stuffing from the cushions, piled it on the floor and set it on fire. The car which was valued at \$8,000 dollars, was almost totally destroyed. As the crowd dispersed before the police arrived, no arrests were made.

The final quarterly dividend for the current year of \$10,000,000 has been declared by the Standard Oil Co. This brings the disbursements of the great oil trust to shareholders from 1902 to 1910 inclusive up to the enormous figure of \$357,929,620. Net profit of the same period were \$673,202,964, this leaving a surplus of \$315,272,444.

A seizure of 5294 boxes of Japanese oranges was made by Mr. Thomas Cunningham, inspector of fruit pests, upon the grounds that they were badly infested with four kinds of noxious scale. These oranges come in from the Orient on the steamer Kumeric. It is expected that other seizures will be made. During Dec. over 20,000 boxes have been condemned. Inspector Cunningham was unable to say whether they would be shipped out of the province or destroyed. A large amount of nursery stock is also being inspected by Mr. Cunningham's staff, some 600,000 seedlings have passed through its hands.

A sprained ankle will usually disable the injured person for three or four weeks. This is due to lack of proper treatment. When Chamberlain's Liniment is applied a cure may be effected in three or four days. This liniment is one of the best and most remarkable preparations in use. Sold by all druggists.

A GOOD POSITION

Can be had by ambitious young men and ladies in the field of wireless or railway telegraphy. Since the 8-hour law became effective, and since the wireless companies are establishing stations throughout the country, there is a great shortage of telegraphers. Positions pay beginners from \$70 to \$90 per month, with good chance of advancement. The National Telegraph Institute operates six official institutes in America, under supervision of R.R. and Wireless Officials and places all graduates into positions. It will pay you write them for full details at Dewenport, Ia., Cincinnati, O., Portland, Ore., or Memphis, Tenn.

Vernon's new rink caved in last week with the weight of the snow. The building had not yet been taken over by the management. The accident will cause a month's delay in opening the rink.

The Farmers' Bank, with head offices in Toronto and 31 branches in various towns and villages throughout Ontario, has suspended payment, the capital stock is 1,000,000 dollars, with about \$600,000 paid up, the shareholders, number over one thousand, principally in small amounts. W. R. Travers is the general manager. The bank was organized only about five years ago.

Montreal post office officials say that over a million letters, and even more magazines and news papers were sent to England, from all over Canada by the Empress of Britain, which sailed last Friday with the Christmas mails. At the usual calculation of five to a family this means that on an average every family in Canada sent a letter magazine or both to friends in the Old Country. This is the largest Christmas rush for Canadian mails on record. It is fully 25 per cent ahead of last year.

Mr. Carruthers, at one time with the Denver Times, has some original ideas on seizing the worth of a town. "When I enter a new city," said Mr. Carruthers "I do not look up the newspapers to see the amount of sensational news they print, but turn to the advertising columns to see the character and volume of advertising carried by the local advertisers. I can always tell whether a town is a live or a dead one by that."

The farmers' institute of West Kootenay have decided to petition the government to pass legislation enabling the ranchers of a locality to issue debentures to put in local irrigation systems, the payments to be collected by the government in the taxes.

A distressing accident occurred last week between Vernon and Okanagan Landing, resulting in the death of Charles O'Keefe, the son of one of the Okanagan's pioneers. It appears that the deceased and a companion were returning from Okanagan Landing, where they had been driving cattle; O'Keefe had galloped on ahead, and his companion J. Swan, was surprised to find his riderless horse returning towards him. Swan hurried on and was horrified to find O'Keefe lying near the railway crossing with his head badly cut. He was quite unconscious, and was at once taken to the hospital where surgical aid was soon procured. Exactly how the accident happened will never be known, but from the nature of the injuries it is assumed that the horse slipped and threw his rider dragging him some distance with his feet entangled in the stirrup. Deceased was 31 years of age and well liked in the district.

WATER NOTICE

Notice is hereby given that an application will be made under Part V. of the "Water Act, 1909," to obtain a license in the Osoyoos Division of Yale District.

(a) The name, address and occupation of the applicant—W. H. Gaddes, Kelowna, B. C.

(b) The name of the lake, stream or source (if unnamed, the description is)—An unnamed lake at the headquarters of Mill Creek, Osoyoos Division of Yale District.

(c) The point of diversion—A point on Mill Creek about ten miles from said lake.

(d) The quantity of water applied for (in cubic feet per second)—1.

(e) The character of the proposed works—A timber cribbed, rock filled dam, galvanized steel flume, riveted steel pipe, cement lined main ditches and cement laterals and the natural bed of said Mill Creek.

(f) The premises on which the water is to be used (describe same)—Lot 16, and part lots 14, 15 and 19, Map 362.

(g) The purposes for which the water is to be used—Irrigation.

(h) If for irrigation describe the land intended to be irrigated, giving acreage—40 acres, Lot 16 and part lots 14, 15 and 19, Map 362.

(i) Area of Crown land intended to be occupied by the proposed works—10 acres.

(j) This notice was posted on the 21st day of December, 1910, and application will be made to the Commissioner on the 31st day of January, 1911.

(k) Give the names and addresses of any riparian proprietors or licensees who or whose lands are likely to be affected by the proposed works, either above or below the outlet—W. H. Spencer, Thos. Bulman, D. Bower, Ernest McKinlay, Central Okanagan Lands, Ltd. All of Okanagan Mission and Price Ellison, Victoria.

The Central Okanagan Lands, Ltd., Kelowna.

JEWS IN PALESTINE.

**They Favor Agricultural Labor and
Have Splendid Schools.**

According to David Wolffsohn, a Cologne banker and one of the leaders of the Zionist movement, many Jews are being repatriated from the United States to Palestine. Herr Wolffsohn said recently that Zionism is growing with tremendous strides; that the society has a membership exceeding 250,000, and that financially the condition of the society is more than encouraging.

"We have now abandoned mere theory, and are devoting our attention to work," he said. "We have had gratifying results. For instance, we have worked hard at the schools in Jerusalem, and the modern young Palestine Jew has a splendid technical and general education."

"Our first care was to make the poorer Jews self-supporting. There were far too many content to rely upon the generosity of devoted pilgrims. Now the state of things is altogether different. Instead of applying for money to the Chaluah, as we call the central relief fund, they ask for work."

"Palestine Jews favor agricultural labor. It is really wonderful to see how they will toil upon their little plot of land and how fruitful they will make the most barren spots."

"Palestine is already becoming a favorite colony for Jews. There are any number of London Jews among the colonists and even Jews from prosperous New York also abandon the commerce of the west for Jerusalem."

"Religious Jews endeavor in their old age to make a pilgrimage to Palestine, so that they may be buried in the Holy Land. The modern Jews, however, do not go to Palestine to die, but to live."

"Our adherents may be divided into two classes, the professional Jew and the very poor man. It is to the young man and woman at the university that we appeal. At Oxford, Cambridge and London Universities we have Zionist societies and their members are enthusiastic."

"We have now got \$1,500,000 together and every day convinces me that the Jew is as passionately enthusiastic about Palestine as his home as ever."

A Student of Canada.

According to a prominent Canadian public official, recently returned from Australia, the good people in America who regard the recent sweeping victory of the "Federal Parliamentary Labor Party" in the Commonwealth as a slap in the face for imperialism, are very much mistaken, for this gentleman met the Hon. Mr. Fisher, and found that he is really a very progressive imperialist. He advocates a very progressive policy in naval and military matters, and even goes so far as to publicly proclaim his belief in universal compulsory military and naval service as the only effective means of national insurance against war, and also as a means of strengthening the national character. Mr. Fisher was very anxious to find out from my informant all he could about Canada's militia system, and had had experienced colonial officers sent to all the leading countries in the world to obtain data to be used in developing the most satisfactory military and naval systems for the Commonwealth. He is a Scotchman by birth, and has all the Scot's enthusiasm for the Empire.

My informant stated that he was surprised to find Mr. Fisher so well informed regarding Canada and Canadian public men. The Australian statesman admitted having studied the lives of Sir John A. Macdonald, Sir Charles Tupper and Sir Wilfrid Laurier, and said that he had instructed the Australian Parliamentary librarian to procure all the books he could on the development of the Canadian constitution, the national defensive force, and the various departments of the Dominion and Provincial Governments.—Chesterfield—in The Family Herald.

Why Savages Turn In Their Toes.

In the first place, the foot naturally takes that position when it has never been cramped by boots or the ank: distorted by high heels. Convenience is also on the side of the natural position of the foot in the case of the savage, for he has to do much walking through long grass and undergrowth in forests. Consequently his progress would be much impeded if he turned his toes out to catch these obstacles instead of brushing them aside and outward, as he now does. Lastly, the savage uses his foot much more as a help to his hands than we do, and it is obvious that in doing this he must turn his toes in.

A Sure Market Barred.

The young daughter of the editor of a prominent New York magazine was bewailing her literary lot.

"Just think," complained she to a friend, "lately I have written some poems which papa says are very good, but he won't accept them because he doesn't want any one to think he is partial to a contributor from his own family!"

"But why worry? Don't you know there are many other magazines to which you can send them?"

"I know, but papa is such a cinch!"—Woman's Home Companion.

"Always Good to Theatricals."

Mme. Tetravini tells an amusing story of her younger days, when she and her sister, also a great and famous singer, were touring and sharing rather humble rooms. After thanking a landlady who had been more kind and considerate than most, the good lady astonished them by looking up from her wash-tub and saying, with benign condescension, "That's all right, my dears. I'm always good to theatricals, for I never know what my own children may come to."

Innocent Girl.

Sarcastic Father—Julia, that young man Smily has been here three nights in succession, and it has been nearly midnight when he left. Hadn't you better invite him to bring his trunk and make his home with us?

Innocent Daughter—Oh, papa! May I? It was just what he wanted, but he was too bashful to ask you. He'll be delighted when I tell him this evening.

Christmas has come and gone, and the end of the Year is almost here.

We will begin the New Year by preparing for our annual stock-taking, about the end of January.

There are in every department a number of articles on which we have overbought and we will let them go at cost or less than cost to clear them out.

A quantity of China must be sold to make room for our stock patterns and enormous Glassware stock which must be brought to the front.

Fifty-seven odd pipes in cases, which we are going to sell to the early buyer at a snap. Several lines of Groceries in which we are heavy, and are going to give you an opportunity of picking them up whilst they are good and fresh.

This Sale will begin on Tuesday morning,
January 3rd, 1911.

THOMAS LAWSON, Ltd.
