The Question of the Day

Is labor's wages. We have had a good opportunity to size up this question from the \$40,000 spent on the river bank this winter. That is a large sum to≾spend in a small town like this but it has done no good except to a few, that could have done without it just as well, and for the resson that \$2 per day is not enough for laborers. A man pays \$1 a day for board; if he is a temperance man and a good church member be has \$1" left, for clothing, which is no small item, at least 25 cents per day; then there is always lost time on outside work: if he loses one day per week, which he will, he has \$2.50 left, which makes \$10 per. month. If he gets eight months' work out of twelve, which is the very most for an average, he will be from \$25 to \$30 in debt at the end, as \$10 per month for 8 months equals \$50; board for 4 months, without work, \$120. And if he is not such a man as referred to above he will have his tobacco and a drink or two per day, perhaps go to the theatre once or twice, he will be in debt at end of the 8 months to the puople, who make the wages. They cannot prosper because there is too much credit and too much loss now. Who do these small wages benefit, no one in the world that is fair and upright. A man may take a good job knows it is to receive value for its for a good price and cut wages to money. Mikado is a well known opmake more, but the next job he has to era, full of good singing and comedy take for less and pay still smaller wages. Big companies will cut wages to get their work done chenp but they make a mistake, for this reason; a good man will not work for small wages if he can help it and he will do act and move as if alive. The cast remore good work in a day for \$3 than a poor man in a day and a half for the saine, and with a good foreman those can be picked out at once. A man should be paid according to the nmount of good work he does and not! Revelstoke, it will again meet with for the kind of work he is put at; the result would be that there would be more good work done for less money. STANDER-BY.

Dear Sir.—Is the appointment of Dr. Cross as medical health officer perfectly regular; considering the section you quoted from the act last week? NEMO.

We hardly care to venture an opinion; Nemo must answer it for himself. The act states all elections for officers must be by bullot, and we think parliamentary procedure deolares that where there is but one applicant the affirmative motion is that the clerk cast the ballot of the meeting for that applicant.—En.

#### SPRING IN REVELSTOKE.

Tis April by the calendar, But winter in the street; For surely here in Revelstoke When Spring and Winter nieet Tis Winter is the victor, With wind, and hail and snow; Nor lets poor Spring and Sunshine Have e'en the poorest show. This we enclure with patience— But Oh! the mud, the dirt, Besmearing dainty ankles And even the best built skirt. O. worthy Mr. Mayor. O, Council, good and true, Give sidewalks! Only sidewalks-And we'll always vote for you. -One Who Has Suffered.

#### British Columbia's Share.

In the year ending June 30, 1898, British Columbia contributed to the revenue of the Dominion the enormous sum of \$2,310,063, not including the large amount paid in the shape of duties and excise on goods purchased in the eastern provinces for consumption here, which latter amount, the Victoria Colonist thinks, is sufficient to swell our total contribution to three millions, which is equal to \$20 per head for 150,000 people. At that rate the people of the whole Dominion ought to contribute upwards of a hunare paying far and away beyond their | constable and recorder.

share of the taxes of Canada, from the per capita point of view. This is not to suggest, that, some, special, means should be devised to lighten the laxation of British Columbia, for that would be both absurd and impossible. The idea is that the province should receive something like a relative share of the public expenditure. Not that that there ought to be expended in this province two and one-half times as much per, capita as in the other provinces. What ought to be impressed upon the public mind is that the province is paying more than its share of the cost of keeping the Dominion going, that every dollar expended in opening the province and bringing in population means a direct return to the revenue two and a half times as great as money spent for a similar purpose elsewhere, that the province has in a sense a vast sum to its credit in the shape of a surplus of its contributions over all the expenditures made on its behalf, and therefore that, when demands are made for consideration in the future, they are entitled to respect not only on the score of fair play but on good business principles.

#### Metropolitan Opera Co. in Mikado.

That which promises to be the soci ety event is the return of the Metropolitan Opera Co., Saturday, April

22. The company has proven a prime favorite in Revelstoke and the public situations, and elegant costumes. In addition to the regular opera Mr. Sydney Rhorer will present for the first time in this country "Edison's Dream" realized, in which many, pictures talk mains the same as when it made such a strong impression before. Our theatre goers are not slow in recognizing anything that is first class and as this is the largest company ever visiting big success. Seats on sale at Canada Drug & Book Co., 50e, 75c and \$1.

# THE MUNICIPAL COUNCIL

HERE were two meetings of the council this week and there is another set for tonight. A little more interest is being manifested in the proceedings, and yesterday the audience numbered seven.

council took place Wednesday evening at the court house. All members present; city clerk in attendance.

There were no new communications but applications for police appointments, and one from city solicitor explaining his absence, so the council proceeded to reports of committees. Ald. Graham reported that by-laws committee had drafted by-laws dealing with health, traders' licenses, road tax and fire insurance companies, and he moved the reading of by-law No. 1, health, seconded Ald. McKechnie and carried.

Moved Ald McKeclinie, seconded Ald. Brown, that traders' license bylaw, No. 2, he read a first time; carried. Ald. Kilpatrick moved, Ald. Brown seconded, that by-law No. 3, taxing fire insurance companies, be read a first time; carried. Ald. Brown moved, Ald. Kilpatrick

THE COMMITTEE ROSE and reported the consideration of four by-laws, with changes.

Ald. McKechnie moved, seconded Ald. Crage, that the before mentioned by laws be read a second time as passed; carried.

Ald. Wells moved the adjournment, the hour being about midnight.

The regular meeting of the city council took place Friday evening in the court house. All members present. City Clerk Shaw read the minutes of last regular; meeting, of Wednesday's adjourned meeting, and of special

governor, saying they were referred to executive council; the acknowledgement by the provincial secretary of the council's recommendation of T. L. Haig as police magistrate, which would receive consideration; other communications referred to septic tank sewage system and lighting of council chamber.

There were no petitions.

Reports of committees having been reached, Ald. Brown sald the finance committee was not ready to report and asked extension of time. Committee on public works and property, Ald. Kilpatrick, chairman, recommended the appointment of a city engineer to make a survey of streets, etc. Special committee on council rooms asked for continuance. Ald: Graham for by-laws committee was seconded, to go into committee of the not ready to introduce new by-laws in absence of city solicitor.

CITY ENGINEER WANTED.

Under consideration of committees reports, Ald. Kilpatrick thought it very nececessary to have a survey made by the town, believed it would save great expense afterwards to property holders. Ald. Wells asked if public works committee had outlined the work required or proposed so that the council could consider its extent, cost, etc. Ald. Kilpatrick pointed out certain drainage work, which government was undertaking the cost of, would likely be referred to the city for installation and an engineer, was necesrend for hotels with 20 or, more rooms sary to put it in, in line with future contract. \$150 for every, six months. Ald. Brown, that the third reading of hy-laws No.'s 1, 2, 3 and 4 be postponed till to morrow evening to secure attendance of city solicitor. Carried.

INQUIRTES.

Ald. Wells asked if necessary to give notice of motion to introduce by-laws: Ald. Crage inquired about the same subject and enlarged it into an opinion that there was something wrong in their procedure of Wednesday. Bylaws had been reported complete with amendments by committee and second reading given; but now, if he understood aright, the third reading was but formal and several clauses necessary to working of by-laws having been laid over they could not be put in or the by-laws altered at all they having been reported complete as amended. He wished for information it being eminently necessary that their proceedings should be regular on such matters. Ald. McKechnie thought they could amend on a third reading. Ald. Wells and Ald. Graham agreed in thinking hy-laws useless as far as gone if not amendable on third reading; the latter suggesting the desirability of beginning de noro. The mayor was uncertain of the procedure but thought amended clauses could be discussed on appoint a city clerk. Ald. Crage third reading; however, it was better delay action till city solicitor present to consult with.

On the last head of business the city clerk asked for instructions re execution of city printing, stationery, etc. On metion of Ald. Crage, seconded Ald. Graham, it was decided that such orders should be equally divided between local printers. Carried.

#### Thursday Night's Concert.

When last week the MAIL recom-

mended the Presbyterian ladies' con-

cert to public notice though it had every reason to leel justified in doing so, it was not prepared for the really splendid përformance given Thursday night or its notice would have been still more pointed. From every point of view the concert was a splendid fuccess and great praise is due Mr. Saunders and his choir for the really excellent treat given the public. Where everything was so good it is very difficult indeed to particularize, sold out to Field & Bewes. but special notice is really due Mrs. Lawrence's solo, "Salva Nos, Domine," Mr. Meldrum's, "Mighty Deep," and Mr. Saunders in his "Holy, City" selection. Mrs. Jeffs' well known "Consider the Lilies" and Mr. Barber's equally familiar "Calvary" were choice items, but, for that matter, so was every item on the programme. Miss Sorley's sweet voice was much admired and in the first and closing duets was very pleasing. Mr. Lawson's elecutionary efforts were given in his happiest manner and elicited considerable applause. The several chorusses and anthems by the choir were all well rendered, and the musical accompaniment by Mr. Ahlin. should not be overlooked. The church was much too small for the purpose and when next the ladies give a concert after the excellent debut made. Thursday, they should not be afraid of taking the largest hall in the city.

#### Trout Lake News.

The Trout Lake Topic says "a winze is being sunk" on the Nettie L. and that two shots made thirteen suck filled with ore. The character of the it claims is identical almost with that of the Dardanelles and running anywhere from 160 to 300 ounces in silver.

A new strike of a foot of ore has been made in the Beatrice crosscut. It was thought 25 feet would have to be driven but it was struck; at four, feet. The entire amount of ore now ready for shipment is 2000 sacks running from 103 to 130 pounds per sack:

A strike of very fine ore is reported upon the Silver Queen. Five men are working on this property and splendid progress is being made with the 80-foot

The Silver Cup staff has been increased by four men.

Badshot was incorrect. Over 100 sacks of Nettie L ore are

now at Thomson's Landing. The map of Trout Lake district has

gone for printing to the coast.; Some 2000 copies will be struck off...

It is thought the lake will not be open before May 1st, the ice being still very thick.

#### Down From the Basin.

H. P. Smith, one of the owners of the celebrated copper claim Standard, returned Monday from Standard Basin. He has been up there developing the property, along with his partners, Wilcox and Ruhmens, for the last two and a half months and is very pleased at the prospect presented. Prior to September when this season's work was started there was a forty-five foot tunnel run on the property which caught the lead or leads, as there are two, at some slight depth. Since then a shaft has been sunk for fifty feet right behind the bigger lead and when Mr. Smith left they were in thirteen feet on a crosscut at the bottom of the. shaft and had gone through 38 inches of beautiful copper ore. Assays have not yet been obtained of this ore but Mr. Smith states that it has much improved with depth and much better quality than near the surface.

#### Early Closing Movement.

The early closing movement was discussed last night by mach interested people at a meeting held in No. 2 fire Steed's. hall. W. M. Lawrence occupied the chair, J. M. Doyle was appointed secretary. After considerable discussion the following committees were appointed : Committee to ascertain business men's feeling on early closing, Messrs. McCarty, Bourne and Lawrence; general committee to wait on public with petition for the movement, Messrs, Doyle, Hobson and Hodgins. Committee to report at meeting called by chair.

#### Football Organization.

A meeting of all interested in the organization of a football club is called for 8 o'clock Monday evening, the 17th, at No. 2. fire hall. Revelstoke should have a football team this year that it might well-be proud of; there is plenty good material to choose from, and all should turn out and take the best advantage of practices.

Ed. Hillman, of Thomson's Landing, was in town yesterday.

## Editorial

Which shall it be this year, Queen's Birthday or Dominion Day? Revelstoke should now commence to celebrate one of our national holidays in a style becoming its size and importance. We can, of course, continue to celebrate amongst ourselves the remainder of the year's holidays but on one at least we should spend some pains, and money. We should adopt one day as THE holiday of the year, get up respect able purses, do good advertising, secure working committees and invite outside attendance and competition in all the various branches of sport. Such a course would advertise the place, improve local athletics and sports and generally benefit everyore. Most towns in the district have one holiday they observe with especial celebration and Revelstoke night very well apply their example to its own benefit. Come now, let us be up and doing and give Revelstoke a push forward this year in matters public.

Something very much needed in Revelstoke is a public library Its influences for good need not be enlarged upon but it might be said that these are increased in a country where there are so many young men without homes and houses without books. The time is ripe for the introduction of this boon and we trust the matter will be earnestly taken up. How to get the movement commenced is the main people to know they'll accomplish it. We have no local Andrew Carnagie to establish one, and though the council may make a special tax for the pur posë it would be wise not to do so at present. The easiest way for everyone is to raise the sum required for establishment by entertainment, subscription, etc., and then turn it over to the city for maintenance. We commend the scheme to the energetic and spublic spirited ladies of Revelstoke, to all our churches, societies, social clubs, etc., and hope they may see their way to assist it to success.

Some splendid samples of the fitness of things came to our notice this week. In the April Strand is an article "Pigs of celebrities" "approximately enough written by Gertrude Bacon, and in a coast exchange good dry fit wood is advertised by Sparks and Cook

#### To Improve the Style.

Mr. Charlton has given notice of the ollowing resolution: That the prevailing practice of delivering in the Canadian House of Commons speeches of great length, embracing voluninous and irrevelent extracts, has intro- just." duced a discursive and diffused, rather than a concise and incisive style of public speaking; is destructive to pertinent debate upon public questions; is a waste of valuable time; unreasonably lengthens the sessions of parliapractice that prevails with regard to debate in the British house of commons, and tends to repel the public from a careful and intelligent consideration of the proceedings of parliament; that it is expedient that rules be adopted limiting the length of speeches, committee should be for med to consider the question of parliamentary debate, the length of speeches, the general conducts of debate, and the proper methods for securing the greatest regardless of nationality." promptitude in the despatch of business, consistent with the parling mentary rights of the minority and the general interest of the public, and to report its recommendations to the

#### A BATTLE SONG.

We are they who will not falter-Many swords or few-Till we make this earth the allar

Of a worship new; We are those who will not take From prelate, priest, or code, I nearer law than brotherhood, A higher law than good;

Ve are those whose unpaid legions, In free ranks arrayed, Massacred in many regions,

Never once were stayed; We are those whose torn battalions, trained to bleed, not fly, Take our agonies a triumph-Conquer, while we die!

Therefore down to Armageddon, Biothers bold and strong: Cheer the glorious way we tread on With a soldier's song! Let the armies of the old flags March in silent dread,

In a discussion or conversation in the senate of Ganada, a few days ago on the matter of divorces, Mr. Mills pointed out that Canada was very conservative in the matter, of divorce, inasnigch as while in Canada in the point, once it is entered upon we have hast twenty years the senate had grantfaith, enough in the energy of the ed only 110 divorces, there had been granted over 400,000 in the United States. The observation might be illade that in addition to the senate divorce court there are courts of divorce in the provinces of Nova Scatile. New Brunswick and British Columbia. Of course, relatively, the number of divorces granted in all the Canadian Heavy and light, delivery rigs, counts is much less than in the United etc., just received by States, but it may be well to remember that a great many Canadians avail themselves of the United States courts of divorce, where the processes are Blacksmithing and woodwork simple and the likeliheed of publication of details not so great as at home. Apr., Cour on share notices. Couriparently the pleasant land of divorce ages built to order. is Japan, where since 1896 there have been 265,000 marriages and 124,000 divorces; and France is a close second. Astatement is going the rounds of the press to the effect that lately in a Paris. court seventy divorces were granted in an hour, over one a minute. Most of the applicants were women whose husbands had descried them. It is often pointed out that more women than men avail themselves of the divorce courts.

#### A Prohibitionists Opinion.

The secretary of the Dominion Alliance is in receipt of an important. letter from a member of the executive of the Alliance, the Rev. John Kerr, of Montrod, in regard to the strictmes? which some have thought lit to make on the Dominion government in regard to the prohibition plebiscite. Then afraid I do not sympathise with these members of the Alliance who accuse A. . . O. . . . 1015 Sir Wilfrid Laurier or the government of bad faish in the matter of the plebiscite. On the contrary, so fall us were you linke all theard so much of the premier is especially concerned, the my thinking he deserves the thanks of the prohibitionists for giving them an opportunity to show at the polls what it could do. I state this all the more gladly as I did not support Sir Wilfrid Laurier at the last election. This great opportunity, not likely to come again in a hurry, we had on September 29th last, and the best we could do was to make it a plain fact that, while a little less than 25 per cent of the

trustees yet decided as to the advis- little more than 75 per cent were, in part, passively indifferent, or, in part, actively apposed to it. Here, it seems to me, is the crox of the situation. the recent significant remark of a Judging by the recent vote, there is minister the time is not far off before still a long day's work to be done in educational matters will have to be the way of seedsdwing, for exidently conducted by the city so the future the time of reaping is not yet. Feeling thus, I do not consider it altogether dignified, nor indeed quite fair on the part of the members of the Alliance to blame the government for its decision in the premises. If, in saying so, i becque ipso facto ex cominunicate, I cannot help it. The Alliance can get along inneh better without me than I can get along without out being time to my sense of what is

#### Most Powerful Man on Earth.

J. Pierpont Morgan wields a greater power than ever Jay Gould possessed. The Chicago Chronièle pronounces him the "most conspicuous and powerful man in the world," and asserts that he controls by his iron will five times the capital and ten times the number of men controlled by the Standard Oil

Morgan now holds a majority of the stock, and exercises complete control of the following railroads:

The Northern Pacific, with 4,999 miles and \$24,000,000 gross earnings

The Reading, 1333 miles and \$44,000, 000 gross earnings. The Erie, 2271 miles and \$35,000,000

gross earnings. The Lehigh Valley, 2168 miles and

\$19,000,000 gross earnings. The stocks of all these roads, are deposited with Mr. Morgan under a voting trust giving him absolute control for a term of years.

These systems have 19,000 miles of railway, employ 88,000 men, earned gross last year \$179,500,000, and own or hold 22,770,473 acres of land.
