The Kootenay Mail.

Vol. 10—No. 41. REVELSTOKE, B. C. JANUARY 9, 1904. $2.00 Per Year.

THE LEADING STORE

Leading Dry Goods House of Revelstoke

Stocks in all departments are now complete for the Fall and Winter Season.

Ready-to-Wear Dept

Our Stock in this department is the Best in the Kootenay. Blouses, Jackets, Skirts and Wrappers, all the latest styles at moderate prices.

MAIL ORDERS.

We pay particular attention to Mail Orders. Samples sent to any address.

W. J. GEORGE

TAYLOR BLOCK, McKENZIE AVE., REVELSTOKE.

Mail Order Dept. **C. B. Hume & Co.** LIMITED. Write For Samples

Our January Sale

Means that we have some lines of desirable goods that there is no doubt you need, and we will make the price an inducement for quick buying. We want these goods off the shelf before stock taking. You will find them in every department of the store, plainly ticketed at the bargain price. Get your share.

Men's fleece lined underwear, reg. price 75c., now 50c.
Men's wool Cashmere socks, reg. price 35c., 4 pairs for $1.00.
Men's fancy shirts, all new and fresh goods. Reg. price $1.50 to $1.75, January sale price $1.
An assortment of men's colored and white shirts, reg. price, $1 to $1.50, Jan. sale price 50c.
Men's neckties (an assortment), 35c. and 40c. Now 25c.
Turkish towelling, reg. 25c., sale price, 6 yards for $1.00.
25-in. flannelette, reg. 7c. and 8c. January sale price, 5c.
We have some ladies' neck furs to sell at just half price.
Wrapper flannels, reg. 25c. January clearing sale price, 15c.
Dress goods, reg. 50c. January clearing sale price, 30c.
Pure honey, reg. 25c. per jar. January sale price, 15c.
Jams, reg. 20c. jars, now 10c.
Lemon and orange peel, reg. 30c. Sale price, 20c.
Hinze's sweet pickles (in bulk), per quart, 50c.
Hinze's sour pickles (in bulk), per quart, 40c.
A table of china and glassware, reg. 35c. and 40c. each, now 25c.
Shoes—We have picked out several lines and marked the price down to one-half.
Children's $2.50 and $2.25 shoes, January sale price, $1.25.
A line of regular $1.25 shoes, January sale price, 75c.
A line of women's fine shoes in odd sizes at about half the regular price.

You are welcome whether you purchase or not. All we want is to show you what we are doing.

PUBLIC MEETING

To Discuss Civic Affairs.

At the Selkirk hall last night a well attended meeting was held to discuss civic affairs. The mayor presided, and there were on the platform with him Ald. McCarty, McLeod and Law, and school trustees Bennett, Floyd and Palmer. City Treasurer Floyd read the balance sheet for the year. The mayor pointed out the result of the year's operation was a profit in the water and light department of $9,641, or with the saving for city lighting and water formerly paid the company, the year's operations represented a net revenue over expenditure of $11,458. During the year the city increased its assets by $9,614.

In reply to H. A. Brown the mayor explained the arrangement about the recreation ground.

J. W. Bennett referred to the rapid growth of the school, and favored a free high school. J. Palmer endorsed that proposal. H. Floyd laid before the meeting the financial side of the high school question.

On motion of H. J. Bourne a vote of thanks was accorded the retiring mayor and aldermen.

H. A. Brown, who is a candidate for mayor, complained of the high rate of interest charged for debentures. He doubted the wisdom of buying the recreation ground in the present state of the city finances, but in view of the mayor's explanation saw no reason for keeping the matter dark. He condemned moving the old school building for city hall as the cost would have provided a new building. He advocated curtailing the expenses as much as possible, and by borrowing the money to put in a proper water system it would effect a large saving in insurance rates. A sewerage system was also badly needed to protect the public health. Stock trespassing on the streets should be put down and the dog tax properly levied or abandoned.

Ald. Law said there was nothing secret about the purchase of the recreation ground.

J. M. Scott said he had applied to see the papers for a client and had been refused.

G. S. McCarter said the athletic association was giving the city a present of $1000. Instructions had been given Mr. Floyd to show Mr. Scott all correspondence as he had a perfect right to see it.

Mr. Floyd said Mr. Scott's statement was correct.

J. Palmer said Mr. McCarter had made a by-law for the city and then "bust" it. (Laughter.)

The mayor said they had tried to keep stock off the streets and the provincial law must be amended before they could.

H. A. Morris said the pound-keeper was the worst law-breaker.

Calls were made for aldermanic candidates, but C. M. Field alone responded. He said he would do the best he could to reduce taxation.

A hearty vote of thanks to the retiring mayor, moved by W. M. Brown, closed the meeting.

Dr. Sinclair, of Rossland, intends to stand as liberal candidate for Kootenay. G. W. McAnn and C. H. McIntosh are mentioned as conservative nominees for this seat.

GROWTH OF REVELSTOKE.

Great Development in C.P.R. Business—Railway Traffic Over 30 Per Cent—Big Increase In Express Business—Rapid Growth of Population.

Evidence of the substantial growth and progress of Revelstoke is evident on all hands, but one of the best evidences is the fact that during the past year over 8,000 tickets were sold at the Revelstoke office of the C. P. R. and the revenue taken at the city station alone showed an increase over previous year of over 30 per cent.

A substantial increase is also evident in freight business, and the Revelstoke freight office is one of the most busy railway points in the province.

The Dominion Express Company's business doubled during this year.

The school attendance doubled within the past two years.

These are finger posts which point to the steady growth of Revelstoke.

FIRE BRIGADE

Annual Meeting of No 2 Company.

The members of No. 2 Fire Brigade company held their annual meeting Monday evening. Report of treasurer showed an increase of funds in the exchequer since last report. Election of officers for ensuing year resulted as follows:—Chief, J. E. McLean; asst. chief W. A. Foote; captain of hose, J. A. Dallas; captain of hook and ladder, Geo. Knapp; secretary-treasurer, C. R. MacDonald; standing committee, J. A. Ringer, A. E. Kincaid and B. R. Campbell. Votes of thanks were tendered Messrs McLean and MacDonald for the faithful manner in which, during several terms, they performed the duties in connection with the offices to which they have again been elected. The brigade has decined to set aside a percentage of earnings as a fund from which to assist members injured at fires.

MINES.

G. S. McCarter informs us that the Laborers Co-operative Mining Association at Golden held a very successful trial run of their smelter.

The mineral output of British Columbia for the year was $15,500,000 of which Rossland is credited with $4,000,000, Boundary with $3,000,000 Slocan $1,000,000, and the Lardeau $200,000.

Supt. Kilpatrick brought back with him from Camborne last week a splendid specimen of gold quartz which was taken from the trial shipment of the Swede Group at Poplar, the property of the Great Northern Mines. This shipment had been sent over to the company's stamp mill at Camborne to be run through to ascertain its milling value. Supt. Kilpatrick was highly pleased with what he saw of the company's mill and property at Camborne.

STATIONERY

A new up-to-date line of

Writing Papers and Envelopes, Invitation Envelopes and Cards

Double and Single Ball Programmes, Wedding Cake Boxes at

Walter Bews' Drug & Stationery Store

Next Hume Block. Mail orders promptly attended to

Useful and Ornamental

Some specially nice Wine Sets and Water Sets, also many other articles in China and Glassware added to our stock this week.

LAMPS

A brisk trade doing. We have them in all sizes from 50c. to $15.00.

Pocket Knives, Scissors, Carving Sets, Razors, Corkscrews, Nut Crackers, Bread Knives, Plated-ware, Skates, etc., etc. All new goods.

BOURNE BROS.

Headquarters for Groceries
Stoves, Hardware, Harness, etc.

A Bona Fide Gift Sale!

A coupon is given with every dollar's worth of goods purchased, the drawing to take place JANUARY 20, 1904, under the supervision of two of Revelstoke's most trustworthy citizens.

PRIZES:

1	Lady's Seal Jacket	Value, $60.00
2	Set of Dishes	20.00
3	Gentleman's Dress Suit Case	8.00
4	One Pair Best American Shoes	5.00
5	Piano Cover	5.00
6	A Boy's Reefer Overcoat	5.00
7	One Set Pillow Shams and Scarf	5.00
8	Table Linen and Napkins	5.00
9	Baby Cashmere Cloak	4.50
10	One Dozen Linen Handkerchiefs (Ladies' or Gents')	4.50

You cannot fail to select in our varied stock a suitable and useful Xmas present for your friend or relation. Every effort has been set forth to make this Gift Sale one of the most elaborate of its kind ever held in this city. *THIS DRAWING TAKES PLACE ON JANUARY 20TH NEXT.*

Ten Valuable Prizes Given Away.

REID & YOUNG,
Dry Goods Merchants, Revelstoke, B. C.

MACDONALD & MONTEITH

Take this opportunity of wishing their customers "A HAPPY AND PROSPEROUS NEW YEAR," and sincerely thank them for so generous a patronage during the holiday season.

SPECIAL DISCOUNT

On all lines of

MEN'S WEAR

As we have a very heavy stock of Men's Winter Goods, Boots and Shoes, Rubbers, Overcoats, etc., we have decided for the month of January to give a special discount on all lines of Men's Wear.
We will give twenty per cent. discount on Ready-Made Clothing, Boots and Shoes, Trunks, Grips, Hats and Caps, Blankets, etc.
Ten per cent. on all lines of Rubbers, Overcoats and Mackinaws at cost.

As this sale is only good for the month of January we would ask you to take advantage of the same. We want to cut down our stock before stock taking.

MACDONALD & MONTEITH

THE LARDEAU.

Operations of Great Western Mines—New Stamp Mill and Chloridising Plant Marks Great Advance.

In our last article descriptive of the mines of the Lardeau we had reached as far as the Great Northern Mountain and the principal properties in that section. The mineral belt is distinctly traceable from the Alpha Group, formerly operated by the Lillooett, Fraser River and Cariboo Goldfields Company, to the valley of the north fork of the Lardeau, which it crosses a mile above Ferguson. There are locations all along the belt and work at several places shows ore. Messrs. Carter and Thompson have a tunnel right on the north fork trail. Other locations known to carry minerals have been made on the belt east of the north fork to the Nettie L. on Nettie L. mountain. This mine is the property of the Great Western Mines now controlled by English capital and under the management of D. G. Forbes, M. E., who has also charge of the Silver Cup mines. Although the properties are in the names of different proprietory companies they are under one management and are being operated conjointly to their mutual advantage.

The Nettie L. is one of the remarkable mines of the Lardeau. Located originally on an ironstained capping, without any actual outcrop of ore, development work resulted in discovery of ore of such high grade that it suddenly came to the front as a paying property from grass-roots, and was worked for some years by local men who held almost the whole of the stock in the present company. In 1901 Messrs. Kirby and Walker, of London, England, bought a controlling interest in the stock and have since operated the property through the mining engineering firm of G. Atwood, of London, England, one of the best and most highly reputed firms of mine managers operating for English, foreign and colonial capitalist, in different parts of the world, and which firm is represented locally by Mr. Forbes, Mr. Atwood paying occasional visits as consulting engineer.

One of the first acts of the new proprietory was to build a wagon road to connect the mine with the south fork road at Five Mile on the south fork wagon road. This road is the best mine road in the Lardeau. On Mr. Forbes assuming the management he took steps to put the property in first-class shape for economical development, by the installation of a steam compressor, and work has since been pushed steadily and energetically.

So far as elevation goes the Nettie L. is one of the most conveniently located mines in the Province, being 5000 feet above sea level. At the mine the western extremity of the great quartzite dyke of the Lardeau crops out and the ore bodies seem to be associated with this dyke. There is also a change in the character of the schists, those to the north being greenish and almost chloritic while those to the south are argillaceous. There are several mineral bearing leads and crosscourses.

NO. 1 CROSSCUT

intersects the main lead at 200 ft. and shows this lead to have a strike of N. 55 W. and a dip of 83 N. E. The first ore was struck in a winze and subsequent development proved the chute to extend 100 ft. with a width of from one to three ft. 125 feet from the intersection of the cross-cut a cross-lead came in with a strike of N. 5 W. mag. This cross-cut produced from one to six feet in width of good ore which was stoped out for a length of from 100 to 125 feet and for a depth of 300 feet from the surface.

The ore chute struck in the main drift was stoped for 50 feet above and below the drift, a depth of 100 feet in all, and it is estimated there is at least another 100 feet deep of stoping ground available on this chute. The main drift has been extended and in its course it developed another chute of shipping ore 30 feet long and a foot in width. This chute occurred at a point 100 ft. from the intersection of the cross lead. 60 ft. below No. 1 level a drift has been run on the cross lead 125 ft. and produced ore of shipping grade for a width of from two and a half to three ft.

At 160 ft below the upper level the cross lead has been drifted on for 200 ft. Of this distance 100 ft. has been stoped and after passing through a barren section a fine body of ore was struck from three to six feet in width (an average of four feet) and 40 to 50 ft. in length. The strike of the lead is here N. 45 W. mag. and dip 45 N. E. The walls are better defined with depth. From the raise above this level the main lead was drifted on 166 ft. northerly and a 100 ft. southerly, the vein filling being quartz and schist, without ore at this point. A winze was sunk 32 ft. and connected with raise from bottom level 60 ft. below. In drifting south 80 ft. a chute of concentrating ore, three feet wide, and carrying grey copper was struck.

NO. 4 LEVEL

has been run 660 feet to crosscut the main lead, which had been drifted on south for 500 ft. at the time of our visit, and this drift was being rushed with a power drill to connect with the drift being run from a point 1100 ft. southerly. At 400 ft. in on this level another lead 40 ft. wide and carrying sulphurets was struck, and a crosscut run on it 200 ft. further south from the main drift showing it to carry concentrating ore of payable milling values. This is an enormous body of ore, being 40 ft. wide and is expected to furnish ore for the mill for a long time to come. Development work has been carried to a depth of 265 ft.

THE AJAX.

This claim is one of the group operated by the Great Western and adjoins the Nettie L. to the south. The surface indications here are exceptionally favorable, the outcrops being strongly mineralised, but much broken up. From an open cut on the surface 100 tons of high grade ore was taken out.

A great deal of float is lying about and there is every reason to expect the existence of a considerable body of ore here. A winze sunk 50 ft. exposed two feet of ore, mostly zinc blende, and a cut 30 ft. higher shows decomposed ore, resulting in considerable carbonate of lead. The strike of the lead here appears to be N. 60 W. mag. and the dip about 64. An intermediate tunnel has been run for 440 ft. at a point 100 feet below the upper crosscut and for 200 ft. this tunnel exposes a body of quartz, which looks well mineralised in places, with sulphurets and galena. The main working tunnel is 96 ft. below the intermediate and at an elevation of 5,100 ft. or the same level as the main tunnel in the Nettie L. This tunnel crosscut the main Nettie L. lead in 500 ft., and thence the lead has been drifted on to connect with the main working tunnel on the Nettie L. claim. The distance between these tunnels is 1100 ft. so that this work will result in the thorough development of the main ore body for that distance. This important piece of development work was being pushed with power drills from both ends. Where the lead was crosscut it shows a width of twelve feet of quartz.

THE COMPRESSOR PLANT

at the Nettie L. consists of a 62 h. p. boiler and Ingersoll compressor built by the James Cooper Manufacturing Company. The boiler is set in stone with brick facings. A. McAlear is in charge of the engine room. An ingenious arrangement has been made for bringing in cordwood to the boiler house. This consists of a wire cable strung on poles, which can be extended as required to the ground where the wood cutters are at work. A truck for carrying the cordwood travels on this cable, being operated by a small engine, and the loads are thus brought and automatically dumped at the boiler house, and the empty carrier returned for re-loading.

THE CAMP

is provided with excellent bunk-house, cook-house and dining room, office, store, blacksmith shop and several cabins for accommodation of the employes. The mine is connected with the company's head office in Ferguson by telephone.

THE MAYBEE,

another of the company's claims, is located on the north side of the Nettie L. About 400 ft. of tunneling has been done here, and developed from one to three ft. of concentrating ore. A. P. Garrett is foreman at the Nettie L. He has had extensive mining experience in the States and is a first-class man. We have to thank him for his courtesy in showing us over the company's property.

THE MILL.

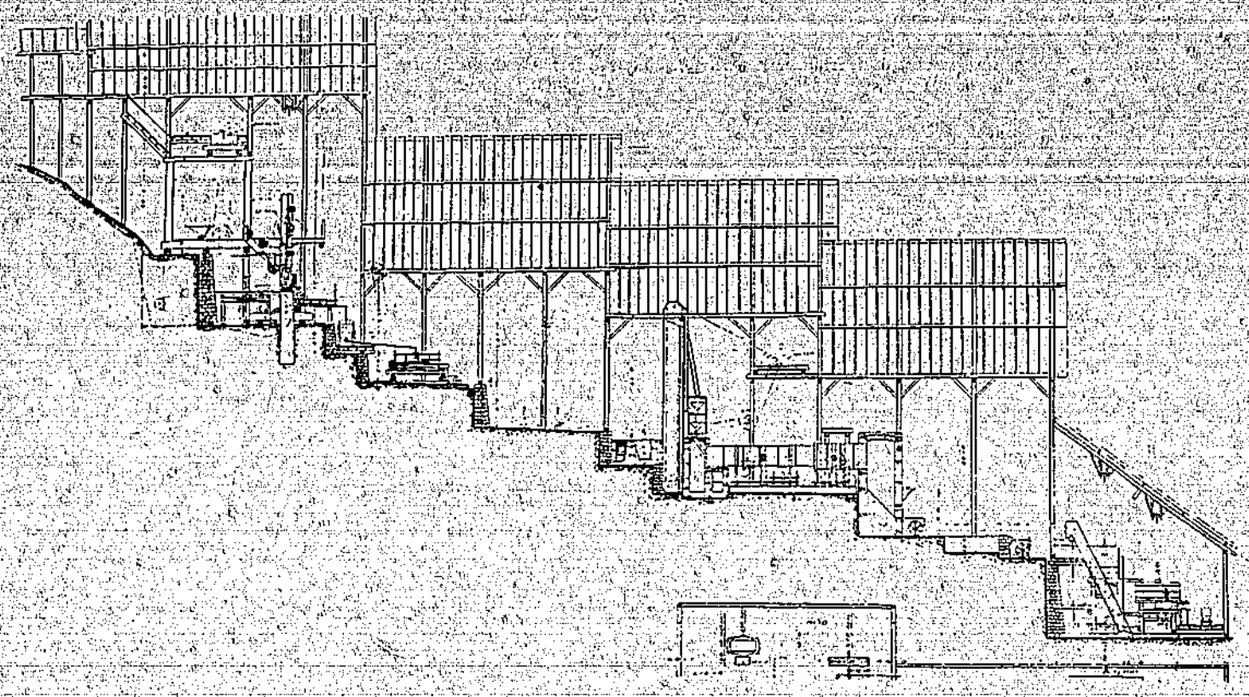
After careful consideration of the character and condition of the ore occurrences at the Silver Cup and Nettie L. Mr. Atwood decided on putting in a plant for treatment of the lower grade ores of these properties. This plant is in design and object different from any yet attempted in British Columbia mining. There are about 15,000 tons of ore at the Silver Cup that will run $5 in gold and 20 ozs. silver per ton. The lead and zinc values are low. Therefore the plan is to extract the gold and silver values and let the lead and zinc values go, as it would not pay to ship the ores to the smelters for the sake of these values alone. The Nettie L. carries steady values in gold, though lower than at the Cup, but the silver values of the concentrates will run higher. The lead values are similar to the ores of the Cup. The zinc runs much higher at the Nettie L. and under the most favorable conditions of local metallurgical treatment the saving of these values might be deserving of consideration in the economical handling of the property. But as matters stand, the conditions justifying the saving of the zinc values do not exist, so that the treatment is limited to consideration of the gold and silver values.

For treatment of the ores, and extraction of these values a chloridising mill is being built at Five Mile, a mile above Ferguson, and at the junction of the Nettie L. and South Fork road. The construction of this mill absorbed an immense amount of timber, to provide which a saw mill with a capacity of 10,000 ft. a day was erected, and a large supply of logs provided. A commodious bunk-house, cook-house, kitchen, office, and other buildings have been erected, and work is being pushed as rapidly as possible on the completion of the mill.

The mill consists of 20 stamps, sizers, Dodd tables, and Frue vanners in series. The Dodd tables have buddle action with results similar to those obtained by the Wilfley tables. There are four of these and they will handle the coarse grades. There will be from eight to ten Frue vanners for handling the fines. This plant has been made at the Union Iron Works, San Francisco. The chloridising plant consists of two Howell-White revolving furnaces. A settling plant completes the system. By this process the Lardeau will thus possess the first plant in Canada to turn out the crude gold and silver bullion right on the spot and this will be shipped to the refinery of the Selby Smelting Works at San Francisco. The enterprise marks a great advance in British Columbia mining, and should result in the opening up and equipment with a similar plant of some of the extensive low-grade gold-silver deposits in this Province. Thanks to Mr. Atwood he has shown the way and we hope his splendid enterprise will be rewarded with big success for the Silver Cup and Great Western Companies. This success means much for the Lardeau, and indeed for the whole country, and places the mining industry on that advanced scientific level so essential to the most economical results under the difficulties with which mining has to contend in the Province.

The mill will be operated by electric power generated by water delivered from a flume on the south fork of the Lardeau river. It is connected by aerial trams with the Nettie L. and Silver Cup mines. The new section of aerial tramway to connect the mill with the tram already erected to the Cup is three miles, and the section from the Cup mill to the Nettie L. mine is 8000 ft. Auxiliary power will be used for operating the new line to the Cup but the Nettie L. can be operated by gravitation as in the case of the present tram to the Cup. B. C. Riblet, of Nelson, had the contract for putting in both these new lines. Each tram has a capacity of 110 tons a day of 10 hours.

Up till February last the Nettie L. had produced 2,014 tons of ore which realised $143,054, or $71 a ton. May the results of the past be but an index of a large and profitable output to the new owners in the future.



GREAT WESTERN AND SILVER CUP MINING COMPANIES STAMP AND CHLORIDISING MILL.
Machinery supplied by the Union Iron Works, San Francisco.

OUTPUT AND VALUE.

The following is the output of the Nettie L. mine, and the values of the shipments:

Date	Net Weight Tons	Gold Oz. pr. Ton	Silver Ozs. pr. Ton	Lead per cent.	Zinc per cent.	Value, $
February 12, 1903	41.51	.13	78.20	11.80	13.7	2,365.69

"Here's Health"

There is health and strength in every draught of

BOVRIL

It contains in the smallest possible bulk all the strengthening and stimulating properties of the finest beef and is so palatable, refreshing and invigorating that thousands are getting THE BOVRIL HABIT—because they like it—because it is the ideal cold weather beverage.

Warming—Nourishing—Stimulating.

The Victoria Cross

For Valor——In Ten Colors

Weekly Mail and Empire

For News——24 Pages

THE picture shown is one dear to every man, woman, boy and girl, on account of its meaning—"The Victoria Cross," given for conspicuous bravery. If only the soil of South Africa could voice the deeds performed upon it, how many Victoria Crosses would have been found to have been earned by Canada's sons! It is hard in the heat of action to notice every act of valor, and therefore only those which take place under the eye of superiors of sufficient rank can be noted.

The picture shows one of such deeds. Two troopers are closely pressed by the enemy. The horse of one is hit. Under the withering fire, the man whose mount is unharmed halts, and, risking everything, waits to get his comrade safely mounted behind him and carry him back to the Canadian lines. It is a desperate deed, and one often performed but seldom noticed. When, however, such an act is seen, the reward dear to soldiers' hearts above every other is the result.

This picture is from the brush of Mr. W. B. Wollen, an artist famed for his war pictures, one whose work appears in all the leading illustrated periodicals of the Empire. It is a forceful subject from the hand of a strong man.

The Mail and Empire

has obtained the exclusive right for this picture in Canada. It is a perfect ten-color reproduction, and will be given FREE to readers under the following conditions:—

A RUINOUS POLICY

Effect of McBride Government Taxation—Big Lumber Industry Closes Down.

Students of taxation problems agree that land and income are the two most just bases on which to levy taxation. Taxes imposed on property and on income derived from that property are simply tricks to levy double taxation on the same factors, and for shifting the burden from those who can afford to bear taxation to those who invest in industries and enterprises which tend to develop the country and give employment to labor in the utilization of raw products. In taxing land, those who hold it solely for use apart from speculation should not be taxed, but from the speculative and unearned increment values the state has one of the most just and legitimate sources of taxation.

The taxation introduced by the McBride government was a device of men absolutely ignorant of economics, and as such is going to have a most serious effect on the province. Already the B. C. Savings and Loan Company has decided to withdraw from business in the province in consequence of the excessive burdens imposed. As a result of the exorbitant assessment of merchants' stocks, large portions of which may be wholly unremunerative from year to year, wholesale men say they will have to leave the province. On this point the opinion of two leading wholesale firms of Vancouver is worth quoting.

"It is iniquitous," says R. Martin, of Martin & Robertson, "and is a blow at the wholesale houses. It adds another weapon which the houses of Winnipeg can use against Vancouver and Victoria." Robert Kelly said it simply meant the wholesalers would have to shift their quarters, because of the addition of one per cent. on the value of the stocks carried. "Winnipeg and eastern houses not being subject to the tax will be able to undersell the local houses," said he.

The policy of the McBride government has been conceived in ignorance. It threatens to kill the goose that lays the golden eggs, and will stop development of those industries which would, ere long, become the backbone of the province.

As showing the serious effect of the policy on the lumber industry the B. C. Lumber and Logging Company, a large concern operating at the coast has decided to go out of business.

POLITICAL.

The federal elections will not take place till May or June.

W. A. Galliher will be a candidate in the liberal interests for Kootenay at next elections.

The conservative convention to nominate a candidate for Yale-Cariboo will be held at Kamloops on the 21st.

Sir Wilfred Laurier and Hon. Mr. Fielding, Minister of Finance, will probably visit British Columbia at an early date.

A provincial conservative convention is being engineered for February. The object is to depose Charles Wilson as leader and elect Premier McBride in his stead.

CULINARY CONCEITS.

Try dipping sliced onions in milk before frying.

Raisins should not be washed for use in cake or puddings. Rub them clean between dry cloths.

When making cakes, try greasing the tins with olive oil instead of with butter. You will find that the cakes turn out better.

To improve sweetbreads and give a fine flavor soak them in a mild lemon juice water one hour, then boil in beef stock twenty minutes.

A smooth, thick chocolate icing is one of the best to put upon a fruit cake. Curiously enough, the various flavors combine deliciously.

If, when cooking you find you have put too much salt into any dish, stir in a little brown sugar. Don't add too much or you will spoil it this way.

Lard or dripping can be used for frying instead of butter in almost all cases if the lard is allowed to become very hot before using; otherwise it will surely taste in the articles fried in it.

Baked beet root is considered very delicious by many persons. It should be washed, then baked from two and a half to three hours, according to size. Remove the skin when hot; then cut into slices.

About Table Service.

It is no longer fashionable to load your table with knives and forks. Even at the most formal dinners the silver for the first courses only appears on the table when the guests are seated. During the first courses the oyster fork, the soup spoon, the silver knife and fork for the fish and the steel knife and silver fork for the meat alone appear, and if one of these courses is omitted the silver that belongs to it is, of course, omitted also. The knife and fork for the game, the fork for the salad and the fork and spoon for the dessert are passed when the courses are served. There is a growing laxity in table manners. Even the best bred people think nothing of leaning one elbow on the table when speaking and of being quite bendable and easy in manner. It is within the memory of most people when we were taught to sit at the table as straight as ramrods and were fined for leaning an elbow on the cloth. What does it mean? Nothing more than that it is only another step toward breaking down stiffness and formality. While it may not be elegant, yet it gives an easy attitude, and what is more beautiful than an easy manner?

House to House Millinery.

A woman will never throw an old hat aside or even give it away as long as she believes there is a chance of making it over. She is ashamed to send it to a millinery store—in fact, a number of milliners discourage such a custom by charging prices quite out of proportion with the work done. In some of the uptown residence districts in Brooklyn young women go from house to house restoring brilliancy to faded headgear at nominal prices. Some of them, with taste for millinery, have built up a regular custom trade and have all the work they want to do. In a few hours they will transform an old hat or bonnet into one that looks "as good as new." Girls will help along the family income in this way, where they can choose their customers and their time, when nothing would persuade them to work in a millinery store or go behind a counter.—New York Times.

Avoid greatness. In a cottage there may be found more real happiness than kings or their favorites enjoy in palaces.—Horace.

Cruel Perversion.

She—Do you recall the day we were married?

He—I wish to gracious I could!—Yonkers Statesman.

A REAL BOY WONDER

THE PHENOMENAL EARLY CAREER OF WILLIAM PITT.

Although Sickly and Delicate, This English Lad Was Intellectually One of the Most Remarkable Youths the World Has Ever Known.

One of the most remarkable boys the world ever saw was William Pitt. He astonished folk with his learning at the age of seven. He became prime minister of England when he was twenty-four.

He was a sickly boy, but he took all the out of door exercise his delicate frame could bear and was as eager to study as most boys are to play. He would not let his weak body stop his work, and he was reading ancient history at an age when most children are reading stories written in words of one syllable.

His father was the great Earl of Chatham, and the boy was brought in to contact with all the great men of the time in England. When he was thirteen years old he wrote a tragedy which he called "Laurentine, King of Clarinium."

At this age, too, he was able to read Greek and Latin almost as well as he could English. He also was well informed on the politics of the day and on a variety of subjects about which only men of learning are supposed to know anything.

At fourteen he was able to take the works of Thucydides, written in Greek, and read page after page, turning it into excellent English as he read, and this off hand translation of his is said to have been almost without a flaw.

His father spoke of him as "eager Mr. Williams the counselor, the philosopher." At the age of fourteen he entered the great University of Cambridge in England and at once, in spite of his youth, took a high place among the students at that celebrated place of learning.

When he went to Cambridge the boy was in such feeble health that he had to be accompanied by a nurse, and all through his course there he was in so poor a condition, physically, that it was doubted if he ever would be able to finish the course.

But hard study seemed to agree with him, and when he was graduated, at the age of seventeen, he was much stronger than when he entered the university.

At an age when most boys are preparing to enter college or, if they are very clever, have just become freshmen, young Pitt won the degree of master of arts from one of the greatest universities in the world and began the study of law.

At twenty one he was admitted to the bar, and the same year was elected a member of parliament, to become prime minister three years later.

While he was yet a law student and only eighteen years old he attracted the attention of prominent men by his clear views on the questions of government, which then were perplexing the rulers of England. The boy was invited everywhere, and men holding the most important offices listened to his advice and asked his opinions.

His friends wanted him to go into parliament when he was twenty and all predicted for him a brilliant career. It was curious to see this delicate stripling, a boy in looks and years, meeting the great and wise men of the country as an equal and conversing on even terms with the most learned scholars of the day.

Young Pitt used to like to listen to the debates in the British parliament, and Mr. Fox, the great statesman, meeting him once after a debate, was astonished at the manner in which the boy criticised the eminent men who had spoken and pointed out where they could have made their arguments stronger.

One of the hardest works to understand that ever were written is a book called "Cassandra," written by a man named Lycophronis. It is written in Greek. A learned man placed the book in the hands of young Pitt when the boy was sixteen years old, and he read it at first sight, translating into English as he read and explaining it in a manner which made the learned man declare that, had he not seen it, he would have believed it to be beyond the power of human intellect."

When Pitt was sixteen his father declared that he would be a great statesman and was the hope of the country. Other folks soon became of his father's way of thinking, and that is why they put him into parliament when he was so young and made him prime minister so soon after.

He fulfilled all that was expected of him and ruled England during thirteen of the most eventful years of her history.

A Slander.

"See here!" said the city editor. "You speak of the bride as being 'led to the altar.'"

"Yes, sir. What of it?" replied the reporter.

"What of it? Why, it's nonsense. There was never a bride yet who couldn't find her way there, no matter what were the obstacles."—London Tit-Bits.

Natural Sequence.

"Yes," concluded the medical raconteur, "she became insane through excessive dancing."

"One might say she was hopping mad, I suppose!" gurgled the cheerful idiot.

Good order is the foundation of all good things.—Burke.

FOR YOUNG FOLKS

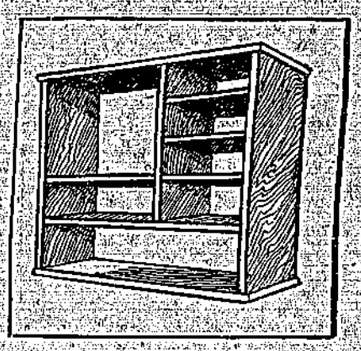
A BOY'S LOCKER.

One That He Can Make Himself In Which to Store His Things.

A place to put everything must precede the putting of everything in its place. How can a boy be expected to be orderly unless he has some place, like that shown in the cut, where his ball and bats, his rackets and his fishing lines, to say nothing of half a hundred other things dear to his heart, can be safely stored? One of the good things about this locker is the fact that the boy himself can make it.

The locker here shown calls for several sizes of boxes. It will be well to get the boxes together before making

THE COMPLETED LOCKER.



FRAME FOR THE DRAWERS.

the framework of boards that is to hold them; then plans can be made according to the sizes that are at hand. It will be noted that all the boxes must be of the same size from front to rear, while in the cut four are of the same width. One opening is left for a closet, a door simply being hinged into the opening. The door is made of strips of board, with two cleats across the back, to which strips are nailed. The locker, when completed, is supported against the wall by a pair of stout brackets, to be had at the hardware store, where knobs for the drawers and a catch for the closet door can also be obtained for a few cents.—Washington Star.

MAXIMS OF SUCCESS.

The truest wisdom is a resolute determination.—Napoleon I.

Things don't turn up in this world until somebody turns them up.—James A. Garfield.

The one serviceable, safe, certain, remunerative, attainable quality in every study and pursuit is the quality of attention.—Charles Dickens.

The talent of success is nothing more than doing what you can do well and doing well whatever you do, without a thought of fame.—Longfellow.

Never don't do nothin' which isn't your fort, for if you do you'll find yourself splashin' around in the kanawl, figuratively speakin'.—Artemus Ward.

I never did anything worth doing by accident. Anything I have begun is always on my mind, and I am not easy while away from it until it is finished.—Thomas A. Edison.

Never desert your line of talent. Be what nature intended you for, and you will succeed; be anything else, and you will be ten thousand times worse than nothing.

Biting the Nails.

Watch that baby does not get this habit. The annoying habit of nail biting, common among children, is curable in its earlier stages without resorting to the trick of rubbing the finger tips with bitter stuffs. Manicure the child's nails carefully, and see that there are no hangnails. Cut rather deeply into the corners, and file the nails short. Children often bite their nails because they are not quite comfortable. A ragged edge on one nail is bitten to make it smooth, and the foundation of the habit is laid. If the little fingers were cared for regularly from babyhood, few children would adopt the disagreeable practice.

A Postoffice Expert.

Mrs. Patti Lyle Collins, a southern woman, is said to be the best chirographical expert in the world. She is employed by the postoffice department in Washington, where she deciphers some of the addresses of letters that would otherwise not reach their destination. Out of over 400,000 letters "dead," received every year, the system of delivery by her has been so perfected that the majority of them reach their destination in an astonishingly short while, and this without breaking the seals.

UNION LABEL

SATURDAY, JANUARY 9, 1904.

Vancouver Island is going strongly liberal. At a series of meetings held there the Laurier policy was heartily endorsed and Ralph Smith, M. P., will again have the labor nomination for Nanaimo.

The anti-Chinese laws passed by the Dominion government have had the effect of completely stopping Chinese immigration into Canada. Not a Chinaman left by the last boat from China for the Pacific Coast.

The retiring school trustees, J. W. Bennett and H. Floyd, have rendered such excellent service to the educational interests of the city during their two years of office that they deserve to be re-elected by acclamation.

The Australian Colonies have done great service to the empire by so promptly following the example set by Canada in adopting the principle of the preferential tariff introduced by the Laurier government.

This province has fared well at the hands of the Laurier government, and the desire of the government to promote the development of the province is shown by the fact that the per capita grant for British Columbia was greater last session than for any other province.

The Financial News, one of the ablest financial papers published in Britain, points out that, as the result of the splendid financial administration of the Laurier government, Canada is taking a front seat in the financial world, and will be the future outlet for British investment. With this object a special market for Canadian securities is being established in London.

Hawthornthwaite's advocacy of increasing the license fee of the prospector is meeting with severe criticism. The prospector is a worker of the first water. The Socialist policy is to help the workers. Yet to enable him to support McBride's pawnshop policy, Hawthornthwaite supported the outrageous proposal to raise the taxes on the prospector.

People are now beginning to see the gross injustice that will be wrought by the McBride taxation policy. A merchant will be taxed on his income and also on his goods as personal property. Any stock which he carries over from year to year will be taxed till the merchant will find he is simply a victim of the tax collector.

The Dominion government have done an excellent thing in appointing Hon. A. G. Blair to the chairmanship of the Railway Commission. Mr. Blair showed himself as minister of railways to be a fearless, just man, and one loyal to the best interests of the people. In his hands the transportation interests of Canada will have full and fair attention.

There is no member of the Dominion Parliament who has borne himself with more loyalty to the cause of labor, and to the best interests of Canada as a whole, than Ralph Smith, M. P. Most of the advanced labor legislation put through since he became a member is due to his efforts, which have been loyal and true to the cause he represents. We consider there should be at Ottawa a special portfolio of labor and that Mr. Smith should be cabinet minister in charge of it. He would do splendid work.

Hon. F. J. Fulton, of Kamloops, when on his campaign denounced the wickedness of discharging public servants because they were of different political colour from the party in power. Fulton now presides over a government that is worse than Tammany in this respect. Dr. Wade was discharged at Kamloops, Magistrate Russell at Vancouver, Mining Recorder Buckworth at Ymir, and other changes are in progress. In Manitoba the same policy is being pursued. This is the dirtiest use to which the machinery of party politics can be put.

When the provincial elections were on the McBride government gave out a wild-cat announcement that they had arranged with the Great Northern to build a net work of railways through the province. Jim Hill has spoiled the pipe dream by saying his company does not intend doing any such thing, and goes so far as to say his engineers have proved a coast Kootenay road over the Hope Mountains is an impossibility, thus confirming the opinion so positively expressed by Engineer Cambie of the C. P. R. This means that Revelstoke must continue to be the Northern gateway for south Kootenay for all time.

The City Council appropriated at last meeting $3,277 for payment on account of sinking fund, and the Mayor made the excellent suggestion that this money should be used to buy up city debentures to that extent, and thus effect a saving in the interest charge of the city. The idea is an excellent one, and we hope to see it given effect to. By thus buying up its own debentures the city will also vastly improve its credit.

A Revelstoke firm sent its freight bill to the shippers in Toronto and asked what they thought of the charges levied on the shipment by the C. P. R. tariff? The firm is one of the oldest and strongest in Toronto and they replied: "The price is outrageous, but you people out in the west appear to be at the mercy of Tiberius respecting railway charges, and you also appear to submit tamely, as we seldom notice that any kick is made in any of your newspapers regarding the extortionate rates charged by the C. P. R. on goods sent to Manitoba, Northwest and British Columbia."

THE TELEPHONE SERVICE.

The telephone service in the city showed a distinct improvement this week. Now that the service is being improved and has been extended till midnight the system should be made use of as far as possible by the business people and private residents. The Post Office, Custom House, Dominion Express and such other institutions should all be connected with the telephone system. The company will spend $7,000 during the present year in improving the system by putting in a complete metallic circuit so as to avoid the hum caused by induction in the evenings when the electric light is on, and by improving the central arrangements at the station. Revelstoke can and will thus have an up-to-date telephone service, which will be a great convenience and benefit to the city.

A PUBLIC OUTRAGE.

The dismissal of Magistrate Russel, at Vancouver, has caused intense indignation and Vancouver is said to be up in arms against the McBride government. It has been suspected all along that Hawthornthwaite, the socialist member, had stated his terms of support, and that Premier McBride had obtained that support by agreeing to Hawthornthwaite's demand. It will be remembered that during the U. B. R. E. strike in Vancouver Magistrate Russell took a course which, while he believed it was in the public interest, was regarded by the socialists as being antagonistic to them, and they swore they would have the magistrate's scalp. The time came when Hawthornthwaite became the real premier with McBride as his nominee. It is stated generally, and we believe the statement is true, that in order to secure Hawthornthwaite's support McBride had to dismiss the magistrate and he paid the price at the sacrifice of public honor and political principle.

THE MAYORALTY

Views of the Candidates.

H. A. BROWN.

Interviewed regarding his candidature for the mayoralty, H. A. Brown said: "The revenue of the city should be conserved as much as possible, consistent with keeping it in proper shape. I should be in favor of making strenuous efforts to improve the water and electric light services without landing the city in any useless expenditure. No one will object to pay taxes if a proper return is obtained. I should make it a point to go carefully into the city finance."

HORACE MANNING.

On interviewing Horace Manning he thus expressed himself:—

"I am definitely opposed to the city going into any other enterprise such as sewerage scheme or anything of that kind, involving large further expenditure till the city's finance are on a proper basis. The assessment roll is another matter that should have a thorough investigation with a view to removing the anomalies that are recognised to exist in it. In regard to water supply, I think before anything is done towards an extensive scheme the sources of supply already in the present system should be utilized in conjunction with it to the fullest extent. I consider it utter folly to think of putting in a sewage system till a water supply sufficient for properly operating it can be secured."

"THE NEW SCALE" WILLIAMS.

We have accepted the agency for the celebrated NEW SCALE WILLIAMS PIANO, and beg to announce to the music lovers of the city that we are prepared to place one of these High Grade Instruments in your houses on a plan of payment that will interest you. If you have any idea of purchasing a piano in the near future, justice to yourselves demands that you investigate this instrument. Eastern prices and Easy Payments. We will shortly have our exhibition at Mr. Barbers' jewelry store, two of the most handsome pianos ever seen in this city, and we invite you to try and see their superiority for yourselves. Lewis Bros. Real Estate and Insurance Agents.

TO THE ELECTORS:

At the request of a number of ratepayers, I offer myself a candidate for mayor. Should I be elected I will spare no effort to further the best interests of the city.

Soliciting your vote and influence I am,

Yours respectfully,

H. A. BROWN

TO THE ELECTORS OF THE CITY OF REVELSTOKE.

Ladies and Gentlemen:

I have the honor to offer my services as mayor for the coming year, and will be a candidate for that office at the election on Thursday next. I beg to remind you that I have already served a term as alderman, and have thus had a good opportunity of becoming acquainted with the city affairs.

If returned it will be my object to administer the affairs of the city as economically and effectively as possible.

Your obedient servant,

HORACE MANNING

TO THE ELECTORS OF WARD 3.

Having been urged to become a candidate for the position of Alderman for Ward 3 for the ensuing year I have the honour to offer my services, and if elected will use my utmost endeavour to promote the best interests of the city.

I have the honour to be,

Your obedient servant,

JOHN ABRAHAMSON.

TO THE ELECTORS OF WARD 3.

At the request of a number of the ratepayers, I have consented to become a candidate for the position of Alderman for Ward 3 for the year 1904. If I have the honour of being elected, I will do all in my power to advance the interests of the city.

CHAS. M. FIELD.

ELECTION OF SCHOOL TRUSTEES.

To the Electors of the Municipality of Revelstoke.

Ladies and Gentlemen:

My term of office as a school trustee has expired, and, at the request of a number of citizens, I beg to offer myself for re-election.

The work of the school board for the past two years is well known to the citizens of Revelstoke, than whom there are no more competent judges.

Should I be honored with a renewal of your confidence, I will continue my endeavors to have the education of the children made as efficient as possible.

Your obedient servant,

HENRY FLOYD.

LIBERAL ASSOCIATION

Resolves to Endorse Galliher's Nomination.

At a meeting of the Liberal Association on Tuesday to select delegates to attend a convention for Kootenay constituency to nominate a candidate for the Dominion House of Commons at next election, Messrs. J. Abrahamson, Lawrence, Dickey, F. B. Lewis, Kellie, Lund, Haggen, F. Bourne, Cooke, Stone, McRae and Dickey were elected delegates and it was resolved they be instructed to support the renomination of Mr. Galliher, M. P.

OUR HOLIDAY EDITION.

There was an immense run on the holiday edition of the KOOTENAY MAIL and the Mail Company have received eulogiums on all hands for their enterprise in getting up and publishing such a completely illustrated number. As showing the extent of this special edition about a ton of paper was used in its production, the largest issue of any newspaper published in the interior.

BANKING.

The past year has been a prosperous one in banking circles, and the banking returns show the vast expanse in the business of Canada. The November circulation this year was three million dollars greater than November circulation last year. The greatest amount of notes in circulation at any time during the year was $71,339,031, or within about eight and a half millions of paid-up capital. The paid-up capital of the banks has been increased by about six and a half million dollars during the year, and that has enabled mos of the banks to use their own notes without having to borrow from the bigger banks as some of them were obliged to do last year. The deposits of the public without interest have increased about two million as compared with November last year; and the deposits receiving interest have increased about two and a half millions as compared with October, and nearly eight millions as compared with a year ago. Call loans in Canada have been contracted from $51,958,911 for November, 1902, to $40,728,320 for October this year, and $39,109,610 for last month.

Neuralgic Headache is Usually

Attending with blinding pain, but relief comes quickly when Nerviline is applied, for it is the strongest pain-reliever in the world. "I consider Nerviline a most magical remedy for neuralgia. I am subject to violent attacks, writes Mr. E. G. Harris of Baltimore, but never worry if Nerviline is in the house. The prompt relief that Nerviline brings makes it priceless to me. A few applications never yet failed to kill the pain. I can also recommend Nerviline for stiffness in the joints and rheumatism." Try Nerviline yourself. Price 25c.

PEANUT POLICY.

Contemptible Attempt at Statesmanship by McBride Government.

The McBride government have extended their peanut policy to supervision of the choring and office boy departments of the public service to attend to which government agents are already paid, and a special department appears to exist to investigate the political and religious beliefs of all public servants.

The new taxation policy of the McBride government is raising cain from one end of the country to the other. Merchants and others who supported the McBride party at last election are now amongst the first to condemn them as they see how their taxation schemes are injuring the best interests of the country.

COUNTY COURT

Sittings at Golden and Revelstoke.

On Monday Judge Forin held a sitting of the County Count at Golden. The only case of consequence was that in which Jas. Brady sued the Laborers Co-operative Association for $100 for survey of road. Defendants, for whom G. S. McCarter appeared, pleaded neglect and on plaff's own evidence judgement went in favor of defendants.

On Wednesday Judge Forin held a sitting of the Court of Revelstoke. Some petty cases were heard, the principal suits being adjourned.

GRIP AND PASSWORD.

K. OF P.

The Gold Range K. of P. intend giving a ball to celebrate St. Valentine's Day.

MASONIC.

The installation of officers of the Kootenay Lodge A. F. and A. M. took place last week, when the following were installed: W. M., H. N. Courier, S. W. T., Bain, J. S., A. Kincaid, J. W., S. MacDonald, S. D., J. W. Bennett, J. D., W. A. Morris, T. S., S. T. Baker, I. G., J. McInnes, Tyler, C. J. Aman, Bro. Fred Fraser was installing officer. After the ceremony a supper was held.

LUMBERING.

The lumber mills of Kootenay and Yale produced $2,000,000 worth of marketable lumber during the year.

COMMERCIAL.

The Ogilvie Milling company have advanced the price of flour 10c. a sack and 20c. a barrel.

The Canadian Northern intends to run to the Coast making a third transcontinental line in Canada. There will be some big railway building in this section in the near future as both the Grand Trunk and the Canadian Northern will require connections ith Kootenay.

CIVIC ELECTIONS.

At a meeting of ratepayers of No. 3 Ward on Tuesday expression of opinion was strongly favorable to H. A. Brown as Mayor.

On Tuesday several ratepayers waited on H. A. Brown and asked him to run for mayor. He gave conditional consent.

Monday is nomination day for the city elections for mayor, aldermen, and school trustees. If more candidates are nominated than the vacancies to be filled the elections will take place on Thursday.

Ald. Foote will probably again be candidate for Ward 1, Ald. Law, W. J. Dickey and H. J. Bourne for Ward 2, and C. M. Field and John Abrahamson for Ward 3.

H. Floyd and J. W. Bennett are again candidates for election of school trustees.

W. J. Law is mentioned as a possible candidate for the mayoralty.

Ald. McLeod and E. Trimble have decided to withdraw from the aldermanic contest.

H. Manning and H. A. Brown are now definitely candidates for mayor.

One of the pioneers of Revelstoke, speaking yesterday of the mayoralty said: "I think H. A. Brown will make a good man. He is one of the old timers who has stayed with Revelstoke from the beginning, and was always the first man to back up any enterprise for the benefit of the town. One good thing about him is he bears no grudge. If you down him in any project he puts forward he will take his defeat like a man and will take up any better proposal for the public benefit just as heartily."

On Thursday a well attended meeting of ratepayers was held at the Cowan Block. The object for which the meeting was called was to ask W. Cowan to allow his name to be placed in nomination for the Mayoralty, but Mr. Cowan positively refused. It was decided to support H. A. Brown for the mayoral chair, and the following for aldermen: Ward 1 C. M. Field and J. Abrahamson, Ward 2 H. J. Bourne and W. J. Dickey, Ward 3 T. Sweeney and A. McLeod. T. Sweeney declines to stand.

TAXATION

Gross Wrongs done by the McBride Pawnshop Laws.

The Victoria Times gives these samples of the operation of the new taxation laws showing they institute lawful robbery:—

"No. 1. A merchant with a capital amounting to $75,000 carries a stock of $150,000. His book debts amount to $15,000. His annual profits are $10,000. He owes on account of stock $75,000 however, on which he pays six per cent. Under the new act if paid before June 30th his taxes are 9-10 of one per cent. He pays on his stock therefore 9-10 of one per cent on $150,000, or $1,350. But as the debts owing to him in his business are exempt only up to one-half the stock carried, and are assessable over that amount, this merchant would have to pay taxes on his $75,000. This at 9-10 of one per cent would make $675 additional taxes or $2,025 altogether. He pays therefore 2 - 0 per cent on his capital, or 1-4 per cent on his income.

Under the old act he would pay a 1½ per cent on his net capital of $75,000, or $1,125."

No. 2. A merchant with a capital of $150,000 doing the same business with a profit of 10,000 and in addition sixty per cent on half the stock or $75,000 which brings his profits up to $11,500. He pays the same tax, 2,025.

Under the old act he would pay $750 on the capital of $150,000. He pays under the new act a sum equal to one per cent on his capital or 13 3-10 per cent on his income."

A merchant with a capital of $100,000. His debts are $150,000 and his stock $75,000. He owes on his stock $50,000. The business yields a profit of $10,000. The man will pay on his stock of $75,000 9-10 of one per cent, or $675. From his debts of $150,000 is to be taken half the value of his stock or $75,000, which leaves $112,000 which is taxable at 9-10 of one per cent, or $1,012.50 is paid on it. The taxes paid are $1,687.50, equal to 7-10 per cent on his capital, or 16 7-8 per cent on his income.

Under this under the old act he would pay $1500.

A man with a capital of $100,000 which is invested at six per cent mortgages yielding an income of $6,000. He pays an income of 1 1-2 per cent on $2,000, or $75. He also pays 2½ per cent on the remaining $4,000 or $100. This $175 tax is subject to the reduction of 10 per cent if paid before 30th, leaving the amount to be $157.50. Under the old act the tax would have been $1300.

A retailer with a capital of $5,000 and debts $5,000. The profits are $1,500, and there is owing to him $3,000. The retailer pays 9-10 of one per cent on the $5,000 or $45. He pays 9-10 of one per cent on half the debts up to half of the value of the goods, or $2,500, $22.50 on the taxation, up to $67.50. This equals 1½ per cent on capital, or 4 1-2 per cent on income."

Under the old act the retailer would pay $150.

A retailer with a capital of $5,000 and debts $8,000 and owing to him $1,530. He pays 9-10 of one per cent or $45. His debts to the $5,500 will be assessable at $2,750 yielding $49.50 and $14.50 paid on his income per cent on his income would be $25.

The new legislation [illegible] themselves to [illegible] perpetuity [illegible]

SOCIALISTIC MOVEMENT

Breaking up in B. C.

[illegible] movement to be [illegible] rapidly breaking up. At [illegible] the organ of [illegible] published [illegible] a strong guild of socialists [illegible] has been a complete burst [illegible] Revelstoke things are [illegible] several meetings [illegible] attacks were made on the [illegible] and Christianity. The Christian religion was denounced as superstition and ministers characterised practically as impostors. Protests were made by members who believed in the truths of Christianity without avail, and J. Thornton, the secretary, and one of the most active members and a prominent church man, sent in his resignation and left the party.

It is generally believed at the coast that Hawthornthwaite is paving the way for throwing in his lot entirely with the conservative party, with whom he steadily votes and to get over the inconsistent position in which he has placed himself it is understood the imperative mandate is withdrawn so that his resignation will not be called for.

W. Sloan will be liberal candidate for Comox-Atlin.

GONE TO POT

Is the Strength of McBride Government.

John Houston says, as a result of the McBride government legislation, "In my opinion were a provincial general election to be held in 60 days, the Liberal-Conservative party if it went into the contest under the leadership of the men now in the McBride government, would not return eight members to the legislative assembly. This too, is the opinion of three-fourths of the present members of the party at the coast."

Pneumonia is Filling the Hospital.

Every day we hear of someone being taken with pneumonia. The only preventative is to get strong and keep your body healthy. Take Ferrozone which makes the rich red blood that nourishes and stimulates the entire system. "I was run down and an apt subject for pneumonia writes A. B. Charters of Burlington, when I tried Ferrozone. I didn't believe it was possible for Ferrozone to build me up so quickly. In a few days my appetite improved, color came into my cheeks and I felt stronger. I gained eight pounds and regained my old time vigour through using Ferrozone." Try Ferrozone, it assures health. Price 50c.

THE MAYORALTY.

Deputation Waits on G. S. McCarter

On Wednesday evening a large number of ratepayers waited on G. S. McCarter and asked him to accept the nomination for the mayoralty.

Mr. McCarter replied the proposition was a surprise to him. There were others in the city who were more entitled to the position and he would rather see one of them a candidate. Recognising their right of preference to the position he would not be a candidate if any of the present aldermen would stand, and he would do all in his power to aid his return. He should also require to know if the way should be cleared for his accepting the candidature the council would be composed of men who would be prepared to give the necessary time and would use their best efforts in the interests of the city. On no other condition would he accept nomination.

Ald. McLeod and Ald. Law said, while the matter had been before them, neither would be a candidate if Mr. McCarter would allow his name to go into nomination, and said they would do all in their power to secure Mr. McCarter's election if he would agree to stand.

F. B. Lewis considered the position taken by Mr. McCarter was one which did him credit. In looking for one to fill the chief office of the city their duty was undoubtedly to select the best man.

Mr. McCarter thanked Ald. Law and McLeod for the position they had taken. If there were two men who had the strongest claims on the position they had, and if he should stand he would consider it a great favor if Ald. McLeod and Law would again stand as aldermen. If the other gentlemen mentioned as candidates would take the same course he would accept the nomination. (Cheers.)

A committee was appointed to draw up and circulate a requisition to Mr. [illegible] asking him to accept nomi-

NO STEAMER.

G. C. Webster has been appointed divisional engineer of the Pacific division.

The transcontinental railways, including the C. P. R., have resolved on a rise of 17½ per cent in freight rates.

Mr. Clouston, manager of the Bank of Montreal, is authority for the statement the Grand Trunk pill have no difficulty in financing its enterprise.

Hon. J. Sutherland, Dominion Minister of Railways, states officially the Grand Trunk Pacific is going through.

Asked as to changes which he might make, W. Whyte as new general manager of the western system says:—"I do not believe in jumping in a lot of new men. If I could not work with the present men I should not be fit to hold office. There will be changes, of course, but they will be gradual and depend on a man's merit and qualifications more than anything else."

The Love of Eating.
IS THE AMERICAN BECOMING A GOURMAND?

In our largest centers of population such as New York and Chicago, we daily see more attention given to the inner man. Cafes and lunch-rooms are filled with men and women who seem to give all their time and attention to thoughts of properly or improperly feeding their stomachs. "It is of course best to eat slowly, but not too much," says Dr. Pierce, chief consulting physician to the Invalids' Hotel and Surgical Institute, of Buffalo, N. Y. In this 20th century people devote so much time to head work that their brains is fagged and there isn't sufficient blood left to properly take care of the other organs of the body. The stomach must be assisted in its hard work—the liver started into action—by the use of a good stomach tonic, which should be entirely of vegetable ingredients and without alcohol. After years of experience in an active practice, Dr. Pierce discovered a remedy that suited these conditions in a blood-maker and tissue-builder. He called it Dr. Pierce's Golden Medical Discovery—an alterative extract that assists in the digestion and assimilation of the food in the stomach—so that the blood gets what it needs for food and oxidation, the liver is at the same time started into activity and there is perfect elimination of waste matter. When the blood is pure and rich all the organs work without effort, and the body is like a perfect machine.

FREE! Dr. Pierce's Common Sense Medical Adviser is sent *free* on receipt of stamps to pay expense of customs and mailing *only*. Send 31 one-cent stamps for the book in paper covers, or 50 stamps for the cloth-bound volume. Address Dr. R.V. Pierce, Buffalo, N. Y.

NOTICE is hereby given that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands situate about three-and-one half miles more or less southeast of Arrowhead, B. C. south side of northwest arm of Upper Arrow Lake, also known as Blind Bay: Commencing at a post marked "6140 B," about one and one-half mile from Blind Bay, thence north 80 chains, thence west 80 chains, thence south 80 chains, thence east 80 chains to place of commencement.

J. H. NELSON.

Dated this 27th day of November, 1903.

NOTICE.

To Carl Thurbjornsen, Theodor Tollefsen and William Allen or any person or persons to whom they may have assigned their interest in the Valhalla group consisting of Viking, Valhalla, Odin and Thor mineral claims on Big creek, situate on the west side of north arm of Upper Arrow Lake, Lardeau Mining Division, West Kootenay District, British Columbia:

You are hereby notified that I, the undersigned, have expended for you the sum of $820 in labor, improvements and recording fees upon the said Viking, Valhalla, Odin and Thor Mineral claims, under the provisions of the Mineral Act, and if within ninety days from the date of this notice you fail or refuse to contribute the aforesaid sum, together with all costs of advertising, your interest in the said mineral claims will become the property of the undersigned under section 1 of the Act entitled "An Act to Amend the Mineral Act, 1900."

Dated this 2nd day of December, 1903.

B. B. STARKEY.

NOTICE is hereby given that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands on the Arrow Lakes, West Kootenay District:

No. 1.

Commencing at a post planted on the southeast side of the north-east arm of Upper Arrow Lake, about one mile west of Deepwater Landing, marked "A. L. F. Hall's north-east corner post," thence south 80 chains, thence west 80 chains, thence north 80 chains, thence east 80 chains to point of commencement.

No. 2.

Commencing at a post planted on the southeast side of the north-east arm of Upper Arrow Lake, about one mile west of Deepwater Landing, marked "A. L. F. Hall's north-west corner post," thence east 80 chains, thence south 80 chains, thence west 80 chains, thence north 80 chains to point of commencement.

A. L. F. HALL.

Dated this 15th day of December, 1903.

NOTICE.

NOTICE is hereby given that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands situated in West Kootenay:

No. 1

Commencing at a post planted on the east bank of Pingston Creek, about 9 miles up from its mouth, marked "W. T. Hall's south-west corner post", thence east 40 chains, thence north 160 chains, thence west 40 chains, thence south 160 chains to point of commencement.

No. 2

Commencing at a post planted on the east bank of Pingston Creek, about 9 miles up from its mouth, and marked "W. T. Hall's south-east corner post", thence north 80 chains, thence west 80 chains, thence south 80 chains, thence east 80 chains to point of commencement.

W. T. HALL.

Dated the 24th day of December, 1903.

NOTICE.

Synopsis of Regulations for Disposal of Minerals on Dominion Lands in Manitoba, the Northwest Territories and the Yukon Territory.

Coal.—Coal lands may be purchased at $10 per acre for soft coal and $20 for anthracite. Not more than 320 acres can be acquired by one individual or company. Royalty at the rate of ten cents per ton of 2,000 pounds shall be collected on the gross output.

Quartz.—Persons of eighteen years and over and joint stock companies holding free miner's certificates may obtain entry for a mining location.

A free miner's certificate is granted for one or more years, not exceeding five upon payment in advance of $7.50 per annum, for an individual, and from $50 to $100 per annum for a company, according to capital.

A free miner having discovered mineral in place, may locate a claim 1500x1500 feet by marking out the same with two legal posts, bearing location notices, one at each end on the line of the lode or vein.

The claim shall be recorded within fifteen days if located within ten miles of a mining recorder's office, one additional day allowed for every additional ten miles or fraction. The fee for recording a claim is $5.

At least $100 must be expended on the claim each year or paid to the mining recorder in lieu thereof. When $500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at $1.00 an acre.

Permission may be granted by the Minister of the Interior to locate claims containing iron and mica, also copper, in the Yukon Territory, of an area not exceeding 160 acres.

The patent for a mining location shall provide for the payment of royalty on the sales not exceeding five per cent.

Placer Mining, Manitoba and the N.W.T., excepting the Yukon Territory.—Placer mining claims generally are 100 feet square; entry fee, $5, renewable yearly. On the North Saskatchewan River claims for either bar or bench, the former being 100 feet long and extending between high and low water mark. The latter includes bar diggings, but extends back to the base of the hill or bank, but not exceeding 1,000 feet. Where steam power is used, claims 200 feet wide may be obtained.

Dredging in the rivers of Manitoba and the N.W.T. excepting the Yukon Territory.—A free miner may obtain only two leases of five miles each for a term of two years, renewable in the discretion of the Minister of the Interior.

The lessee's right is confined to the submerged beds or bars of the river below low water mark, and subject to the rights of all persons who have, or who may receive, entries for bar diggings or bench claims, except on the Saskatchewan River, where the lessee may dredge to high water mark on each alternate leasehold.

The lessee shall have a dredge in operation within one season from the date of the lease for each five miles, but where a person or company has obtained more than one lease one dredge for each fifteen miles or fraction is sufficient. Rental, $10 per annum for each mile of river leased. Royalty at the rate of two and a half per cent collected on the output after it exceeds $10,000.

Dredging in the Yukon Territory.—Six leases of five miles each may be granted to a free miner for a term of twenty years, also renewable.

The lessee's right is confined to the submerged bed or bars in the river below low water mark, that boundary to be fixed by its position on the 1st day of August in the year of the date of the lease.

The lessee shall have one dredge in operation within two years from the date of the lease, and one dredge for each five miles within six years from such date. Rental, $100 per mile for the first year, and $10 per mile for each subsequent year. Royalty, same as placer mining.

Placer Mining in the Yukon Territory.—Creek, river gulch and hill claims shall not exceed 250 feet in length, measured on the base line or general direction of the creek or gulch, the width being from 1,000 to 2,000 feet. All other placer claims shall be 200 feet square.

Claims are marked by two legal posts, one at each end, bearing notices. Entry must be obtained within ten days, if the claim is within ten miles of mining recorder's office. One extra day allowed for each additional ten miles or fraction.

The person or company staking a claim must hold a free miner's certificate.

The discoverer of a new mine is entitled to a claim of 1,000 feet in length, and if the party consists of two, 1,500 feet altogether, on the output of which no royalty shall be charged, the rest of the party ordinary claims only.

Entry fee, $10. Royalty at the rate of two and one-half per cent on the value of the gold shipped from the Yukon Territory to be paid to the Comptroller.

No free miner shall receive a grant of more than one mining claim on each separate river, creek or gulch, but the same miner may hold any number of claims by purchase, and free miners may work their claims in partnership by filing notice and paying fee of $2. A claim may be abandoned, and another obtained on the same creek, gulch or river, by giving notice and paying a fee.

Work must be done on a claim each year to the value of at least $200.

A certificate that work has been done must be obtained each year; if not, the claim shall be deemed to be abandoned, and open to occupation and entry by a free miner.

The boundaries of a claim may be defined absolutely by having a survey made and publishing notices in the Yukon Official Gazette.

Hydraulic Mining, Yukon Territory.—Locations suitable for hydraulic mining, having a frontage of from one to five miles, and a depth of one mile or more, may be leased for twenty years, provided the ground has been prospected by the applicant or his agent; is found to be unsuitable for placer mining; and does not include within its boundaries any mining claims already granted. A rental of $150 for each mile of frontage, and royalty at the rate of two and one-half per cent on the value of the gold shipped from the Territory are charged. Operations must be commenced within one year from the date of the lease, and not less than $5,000 must be expended annually. The lease excludes all base metals, quartz and coal, and provides for the withdrawal of unoperated land for agricultural or building purposes.

Petroleum.—All unappropriated Dominion Lands in Manitoba, the North-west Territories and within the Yukon Territory are open to prospecting for petroleum, and the minister may reserve for an individual or company having machinery on the land to be prospected, an area of 640 acres. Should the prospector discover oil in paying quantities, and satisfactorily establish such discovery, an area not exceeding 640 acres, including the oil well and such other land as may be determined, will be sold to the discoverer at the rate of $1.00 an acre, subject to royalty at such rate as may be specified by order-in-council.

Department of the Interior, Ottawa, Sept., 1903. JAMES A. SMART
Deputy of the Minister of the Interior.

WRAPPING PAPER AND PAPER BAGS.

The Kootenay Mail has been appointed agent for one of the largest Canadian Paper Mills.

Wrapping papers in rolls or flat, and paper bags of all weights and sizes supplied to order printed or unprinted.

Kootenay Mail, Revelstoke.

Corporation of the City of Revelstoke.

PROCLAMATION

Public notice is hereby given to the electors of the Municipality of Revelstoke that I require the presence of the said electors at the City Clerk's office City Hall, McKenzie Avenue, in the said city, on the 11th day of January, 1904, at 12 o'clock noon, for the purpose of electing persons to represent them in the municipal council as Mayor and Alderman, and also for the purpose of electing two School Trustees. The mode of nomination of candidates shall be as follows:

The candidates shall be nominated in writing, the writing shall be subscribed by two voters of the municipality as proposer and seconder, and shall be delivered to the returning officer at any time between the date of this notice and 2 p.m. of the day of the nomination; and in the event of a poll being necessary such poll will be opened on Thursday, the 14th day of January, 1904, in the City Clerk's office in the City of Revelstoke, and kept open between the hour of nine in the forenoon and the hour of half past seven in the afternoon, for taking and recording the votes of the electors of the said City, at which every person is hereby required to take notice and govern himself accordingly.

The persons qualified to be nominated for and elected as Mayor shall be such persons as are male British subjects of the full age of twenty-one years and are not disqualified under any law and have been for six months next preceding the day of nomination the registered owners in the Land Registry Office of land or real property in the city of the assessed value on the last municipal Assessment Roll of One Thousand Dollars or more over and above any registered incumbrance or charge, and who are otherwise duly qualified as municipal voters.

The persons qualified to be nominated and elected as aldermen shall be such persons as are male British subjects of the full age of twenty-one years and are not disqualified under any law, and have been for six months next preceding the day of nomination the registered owner, in the Land Registry Office of land or real property in the city of the assessed value on the last municipal Assessment Roll, of Five Hundred Dollars or more over and above any registered incumbrance or charge, and who are otherwise qualified as municipal voters.

The persons qualified to be nominated for and elected as School Trustees shall be such persons as are householders and being British subjects of the full age of twenty-one years and otherwise qualified to vote at an election of School Trustees.

Every candidate nominated shall signify by a writing accompanying the nomination paper his consent to such nomination, except in case such person be absent from the municipality when such absence shall be stated in the nomination paper.

Every candidate nominated for mayor or alderman shall, on or before the hour of two p.m. of the day of nomination furnish the Returning Officer with a statement in writing specifying the land or real property upon which he qualifies.

Given under my hand at Revelstoke this 2nd day of January, 1904.

CHAS. J. AMAN,
Returning Officer.

NOTICE.

NOTICE is hereby given that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands, viz:

Starting at a post marked "A. Plant's south-west corner post," situated on the east side of Upper Arrow Lake, about three miles north of Nakusp, running thence 40 chains east, thence north 80 chains, thence west 80 chains more or less to lake shore, thence south 80 chains more or less, following lake shore to point of commencement.

A. PLANT.

Nakusp, B. C., December 21st, 1903.

NOTICE.

NOTICE is hereby given that thirty days after date I intend to apply to the Chief Commissioner of Lands and Works for a special license to cut and carry away timber from the following described lands situated in West Kootenay:

No. 1

Commencing at a post planted on the east bank of Pingston Creek, about 14 miles up from its mouth, and marked "Jno. McKague's south-west corner post"; thence east 40 chains, thence north 160 chains, thence west 40 chains, thence south 160 chains to point of commencement.

No. 2

Commencing at a post planted on the east bank of Pingston Creek, about 11 miles up from its mouth, thence west 40 chains, thence north 160 chains, thence east 40 chains, thence south 160 chains to point of commencement.

JNO. McKAGUE.

Dated the 24th day of December, 1903.

LIBERAL LEADER.

Handsome Tribute From Leading Politician.

Referring to the new liberal leader for the Province a leading politician writes:—"I had the pleasure of hearing our new Liberal leader make his maiden speech the other day in the House and I was very much pleased indeed by the very able manner in which he handled himself. He has got the elements of a strong and safe man and I think only lacks experience to make him a strong leader. That experience he will gain very quickly I have no doubt, and the opposition is the place to break young men in. You may say that he is a man who will be heard of in no uncertain manner before many years have elapsed and I think he is an eminently safe man."

Fools Use Washes and Snuffs.

Thinking perhaps they will cure Catarrh,—but no one ever heard of a genuine cure following such senseless treatments. There is just one prompt and thorough cure for Catarrh and it is fragrant healing Catarrhozone which goes right to the root of the trouble. It destroys the germs, heals the inflamed membranes and cures any case no matter how obstinate or long standing. "I experimented for years with Catarrh remedies but found Catarrhozone the most rational and satisfactory" writes W. J. MacEachern of Waterville. "It cured me for all time." For a sure cure use only Catarrhozone. Complete outfit, $1.00; trial size 55c.

A HORSE AT THE SHOW.

Story of a Ribbon Winning From an Equine Viewpoint.

One of the popular features of the annual horse show in New York is the squad of park police horses that is always entered. The winning of a blue ribbon by one of these police horses is told in "Horses Nine," by Sewell Ford, from the viewpoint of the horse. The author says:

So it happened that one morning Skipper heard the sergeant tell Reddy that he had been detailed for the horse show squad. Reddy had saluted and said nothing at the time, but when they were out on post he told Skipper all about it.

Sure an it's up arin' before all the swells in town ye'll be, me b'y, an' what do ye think of that, eh? An' mebbe ye'll be gettin' a blue ribbon, Skipper, me lad, an' mebbe Mr. Patrick Martin will have a roundsman's berth an' cheyrons on his sleeves afore the year's out."

The horse show was all that Reddy had promised and more. The light almost dazzled Skipper. The sounds and the smells confused him, but he felt Reddy on his back, heard him chirrup softly and soon felt at ease on the tan-bark.

Then there was a great crash of noise, and Skipper, with some fifty of his friends on the force, began to move around the circle. First it was fours abreast, then by twos, and then a rush to troop front, when, in a long line, they swept around as if they had been harnessed to a beam by traces of equal length.

After some more evolutions a half dozen were picked out and put through their paces. Skipper was one of these. Then three of the six were sent to join the rest of the squad. Only Skipper and two others remained in the center of the ring. Men in queer clothes, wearing tall black hats, showing much white shirt front and carrying long whips, came and looked them over carefully.

Skipper showed these men how he could waltz in time to the music, and the people who thronged the circle as far up as Skipper could see shouted and clapped their hands until it seemed as if a thunderstorm had broken loose. At last one of the men in tall hats tied a blue ribbon on Skipper's bridle.

When Reddy got him into the stable, he fed him four big red apples, one after the other. Next day Skipper knew that he was a famous horse. Reddy showed him their pictures in the paper.

A Reward and a Fine.

A few years ago, owing to the serious depredations of rat catchers on the banks of the Thames, the authorities were compelled to issue notices offering a reward of £7 for information, payable on conviction of the offender. Not many days after the notice appeared an Irishman was caught and, being brought before the magistrate, was ordered to pay a fine and costs amounting altogether to £2. Not having the needful, Pat went into retirement at the expense of the country. The next morning, however, another son of Erin appeared at the prison and, paying the fine, liberated his friend. The governor, having been in the court on the previous day, recognized the "liberator" as the principal witness against the accused. This puzzled him, and he asked for an explanation.

"Well," said Patrick's luike this sorr: Tim and myself were hard up, and seeing the notice, Tim agreed to be caught. I give information against him, and this morning I drawed the money, and now we're paid, we've £5 left to start the world with."—London Answers.

Encouragement of a Great Singer.

Grassini, the great Italian singer, was very much interested in the young girls among her relatives and always ready to encourage any talent she confided in any of them. One day a novice was brought to her with the ungrateful words: "She is a wretched contralto and will never do anything on the stage." But the singer listened well. The young girl began her frightful trills, when said only Grassini caught her in her arms with delight. "No, you are not a contralto," she said, "but the finest soprano in the world. Your voice is far stronger than mine. Study well. You want none of my help. There is a rich bank in your throat." The little singer was none other than Giulia Grisi.

Linguistic Instinct.

The strength of the linguistic instinct in children is shown by the remarkable shifts they will make to find forms of expression for their perception or feelings. An examination of these shifts will show that the energy of the child manifests itself along precisely the same lines as have been taken by the languages of the races of mankind toward their ultimate forms. Thus, lacking the word "wide," a little one said, "Open the door loud," extending the meaning of the word "loud" precisely as we do when we apply it colloquially to colors.

In a Quandary.

"Mary gets so excited when she reads history."

"Does she?"

"I should say she did. She's been reading English history, but she had to stop when she got to the Wars of the Roses."

"Why did she stop?"

"She couldn't tell which rose she preferred to have win."

Why He Moved Away.

Kind Lady—So you were in one place three years? Why did you leave?

Tramp—I wuz pardoned, m'am.

A JAPANESE GARDEN.

Follow This Recipe and You Will Have One Complete.

The classic garden, like a sonnet, is governed by special laws of harmony and rhythm. It must be, like the latter, its ten lines and fourteen stones. You can get along without the lilies, and you can get along without the trees, but you cannot get along without stones. Indeed the perfect type of the Japanese garden is nothing but an arrangement of rocks in a sea of white pebbles. The stones must be the foundation, the rest are mere accessories. Sparkling stones are what is wanted from Japanese woods and passions—for the Japanese recognize that there are persons in stones, each stone has its equal relative place in the composition. There is the guardian stone in the center and the stone to tell the hour. Across the ocean is the moonshade stone and so on.

The hills unmask each other by rule. The principal hill has its two foothills, its spur hills, its distant peak, seen through a rift, and the saw hill that must stand on the opposite side of the lake.

As there are a principal stone and a principal hill so must there be a principal tree, the single one around which the Tree of Perfection, the Tree of Evil, the Tree of the Setting Sun, the Tree of Silence and the Tree of Solitude bow their lesser heads.

These are the essentials. Now add a pond, one island, two stone lanterns, three bridges and mix thoroughly garnish with moss and serve with goldfish and mandarin duck. There is a recipe for a Japanese garden.—William Norbert in Country Life.

A SMALL LIBRARY.

The Principle of Selection on Which It Should Be Based.

I think that a little of the pleasure will usually allow a very fair presentation of novelists. Fancy, as Thackeray is very fairly represented by Vanity Fair, Henry Esmond and Pendennis, and Dickens by Pickwick, David Copperfield and Martin Chuzzlewit. Walter Scott would not suffer by one choosing Ivanhoe, The Bride of Lammermoor and The Heart of Midlothian. Tom Jones would suffice for Fielding and Pride and Prejudice for Jane Austen. The Mill on the Floss for George Eliot and The Ordeal of Richard Feverel for George Meredith. Taking only the great outstanding figures, Tolstoi need only be present with Anna Karenina and War and Peace and Emile Zola with Assommoir, Drink and The Dream. The Three Musketeers and The Count of Monte Christo would suffice for Alexandre Dumas and Les Miserables and Notre Dame de Paris for Victor Hugo. It is harder to say of the vast mountain range of Balzac of what particular peaks our choice should fall, but probably here again the most popular books will prove the most typical—Le Pere Goriot, Eugenie Grandet and The Ass' Skin.

I am not, it must be understood, making a list of books without which, as the booksellers say, no gentleman's library is complete. I am only taking a few standard authors for the purpose of illustrating a principle of selection, which must perforce operate in a small library. If our library does not or cannot contain the best books it must certainly contain some of them, and however idiosyncratic of its owner it must bear the stamp of a general distinction.—Richard Le Gallienne in Success.

Foretells Death by Sense of Smell.

There's an old superstition that a howling dog in front of the house of an ill person portends death. One prominent physician believes absolutely in it. This physician has a wonderfully acute sense of smell. Frequently, he says, he can foretell the coming of death within forty-eight hours of a patient's demise. Within two days of death, he says, a peculiar earthy odor becomes noticeable about a person about to die. He tells of one case where he became aware of the peculiar odor while talking to an apparently healthy man. That night the man dropped dead of heart disease.

The physician is far from attributing the peculiar manifestation to other than physiological reasons. His own sense of smell is abnormally acute.

Hotel Bills in England.

The author of "Portugal Old and New" finds fault with English hotel keepers for using a printed form of bill on which the plain requirements of a simple traveler are lost amid a multitude of items. The result is that when a guest pays for a day's and a night's lodging he is positively almost ashamed at finding due registry of his having wanted neither liquors nor stationery nor warm baths nor douche baths nor shower baths nor pots of jam nor the hotel hairdresser and is apt to reflect what a poor shuffling impostor of a guest he is to have had so few requirements.

Slightly Different.

"Dat were a very excitin' jackpot I won las' night on a bluff," said Mr. Erastus Pinkley as he tilted his cigar and dropped his hat over his eye.

"Did you raise the opener?" asked Mr. James Colliflower.

No, sah; I opened a razor."

She Helped.

"Did she help you to propose?"

"Well, rather! She asked how many boxes of candy would pay for an engagement ring."—Detroit Free Press.

The Canada Drug and Book Company wish all their friends and patrons

A HAPPY NEW YEAR

LOCAL & GENERAL.

At a meeting of No.1 fire-brigade on Tuesday, the former officers were re-elected. The brigade will shortly hold a dinner.

The School trustees have decided to erect a porch at the school to ensure the safety of the children from slides from the roof.

To the joy of the citizens the electric light was again turned on Tuesday night. The city never knew how much it valued the convenience of the electric light till it was missed.

Social and Personal

P. Burns was in the city Thursday.

Miss Hall returned Monday from Toronto.

Mrs. T. Steed is rapidly recovering from her recent illness.

R. Twining is able to be about again after his recent illness.

P. Agren has decided on removing from Revelstoke to Vancouver.

Theodore Ludgate came up from Arrowhead Tuesday, returning Wednesday.

W. R. Smythe has been appointed janitor and clerk at the government office.

G. S. McCarter returned Tuesday from attending the County Court at Golden.

S. G. Robbins, of Golden and Otter-tail, was the guest of Mr. and Mrs. J. D. Sibbald on Tuesday.

D. O. Lewis C. E. left the C. P. R. to accept an excellent appointment with the Canadian Northern.

Mrs. J. A. Stong had sufficiently recovered from her present illness to be able to drive out this week.

J. A. Kirk was a visitor to the city Friday and reports the Pingston Creek company's lumber mill working satisfactorily.

NOT ORNAMENTAL BUT USEFUL

Have you a pain or an ache? Try a hot water bottle. The curative power of hot water used in this manner is almost magical. Toothache, earache, pains in the chest, back or stomach disappear in a few minutes.

Have You Indigestion?

Liver trouble, constipation, etc.? Use a fountain syringe with warm water. You will get almost instant relief. Sizes—Two to four quarts, from one dollar up.

RED CROSS DRUG STORE

J. A. BUCKHAM.

P. S.—Use Eau de Quinine (Pinaud) for the hair.

Malcolm McMillan, who is on a visit from Manitoba to his brother Alexander, at St. Leon, spent Tuesday in the city.

No trace can be found of D. Ferguson, formerly of Ferguson, and who has been missing at Victoria since Dec. 19th.

A meeting will be held for the purpose of organising a Ladies Hockey club at the residence of Mrs. J. M. Scott at 7.30 Monday evening.

John Houston says he proposes resigning his seat in the legislature and leaving Nelson to seek a new opening in the Northwest Territories.

Mrs. Bews gave a most enjoyable party on Tuesday night at which several novel and interesting means of entertainment were provided.

J. De. Curry Dentist, will be out of town for about three weeks beginning about the first of February. Those requiring his services please call as soon as possible.

Mrs. Bolton gave a unique dinner party at her home on McKenzie Ave. on New Year's Day. Each guest was the recipient of a present daintily suspended from the ceiling opposite their respective seats.

The Shakespeare Club has decided to take up the study of Julius Cæsar, the caste having been allotted at a meeting of the executive Tuesday. The society will resume its meeting Tuesday next. H. N. Coursier has been appointed secretary pro tem.

About twenty members of the Philharmonic Society attended the first rehearsal at Mrs. H. A. Brown's on Thursday night of "H. M. S. Pinafore," the performance of which will be staged after Lent. There is room for more members and another practice will be held next Thursday.

At a meeting of the Ladies' Talent Society of St. Peters Church at the Vicarage yesterday Mrs. Paget was appointed president in place of Mrs. Spurling (resigned), and Mrs. H. A. Brown was elected vice-president. It was arranged to give an entertainment before Lent in aid of the funds of the church.

The "Test tea" given by Mrs. E. B. Lewis Thursday was largely attended and proved most successful, the guests enjoying themselves thoroughly. Miss Grant won the first prize in the competition and Mrs. J. M. Scott was second, the prizes consisting of handsome little silver sets.

Mrs. A. McMillan, of Westbourne, Man. has joined her husband at St. Leon Springs, where Mr. McMillan is getting over his recent severe attack of rheumatism. Mr. McMillans sister and mother also spent Christmas with him at St. Leon.

J. J. Shaw, of the C. P. R. despatching staff, is being promoted from the Revelstoke to the Vancouver staff.

At the meeting of the Epworth League on Monday night W. W. Lefaux delivered an interesting address on "the expectation of the Messiah, its rise and significance." Six new members joined the league at that meeting. The singing was excellent. Miss Smith presided. Regret was expressed that the league was about to lose the services of J. J. Shaw, who has been one of the most valued members of the league.
